ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS

OF OPERATIONS

### CAUTIONARY STATEMENT

This quarterly report on form 10-QSB contains certain forward-looking statements regarding, among other things, our anticipated financial and operating results. For this purpose, forward-looking statements are any statements contained in this report that are not statements of historical fact and include, but are not limited to, those preceded by or that include the words, "believes," "expects," or similar expressions. In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, we are including this cautionary statement identifying important factors that could cause ours or our affiliates' actual results to differ materially from those projected in forward looking statements made by, or on behalf of, us. These factors, many of which are beyond our control or the control of our affiliates, include our ability to:

o receive royalties from our existing licensing and consulting arrangements,

- o develop additional marketable software and technology,
- o compete with larger, better capitalized competitors and
- o reverse ongoing liquidity and cash flow problems.

NINE MONTHS ENDED OCTOBER 31, 2001 COMPARED TO NINE MONTHS ENDED OCTOBER 31, 2001 COMPARED TO THREE MONTHS ENDED OCTOBER 31, 2001 COMPARED TO THREE MONTHS ENDED OCTOBER 31, 2000

We generated revenues during the nine months ended October 31, 2001, the first nine months of our fiscal year ending January 31, 2002, of \$451,405 compared to revenues of \$538,651 during the first nine months of fiscal 2001. We believe that the decrease of \$87,246, or approximately 16.2% was due primarily to a decrease in our consulting fees, primarily to our affiliate Freetrek, Inc., offset in part by an increase in license fees. License fee revenue increased 22.5% from \$34,337 in the first nine months of fiscal 2001 to \$42,068 during the first nine months of fiscal 2002. Maintenance fees decreased \$1,060 or approximately 0.9% and consulting and other fees, primarily to our affiliate Freetrek, Inc., decreased \$93,917, or approximately 24.5%.

We generated revenues during the three months ended October 31, 2001, of \$199,135 compared to revenues of \$149,346 during the third quarter of fiscal 2001. We believe that the increase in revenues of \$49,789, or approximately 33.3%, was due primarily to a increase in revenue from license and maintenance fees, offset in part by a decrease in consulting fees, primarily to our affiliate Freetrek, Inc. License fee revenue increased \$12,515, or approximately 63.0%, maintenance fees increased \$42,793, or approximately 1780.0% and consulting and other fees, primarily to our affiliate Freetrek, Inc., decreased \$5,519,or approximately 4.4%.

8

Please note that we have included income derived from consulting and administrative charges to our affiliate Freetrek, Inc. in the amount of \$139,500 in revenues for the nine and three months ended October 31, 2000. Previously this income was reported as "Other Income" in the Income Statement. We have restated our Statement of Operations for the nine and three months ended October 31, 2000 to reflect this change. As a result of this restatement, income derived from consulting and administrative charges to Freetrek, Inc. in the amount of \$139,500 is included in revenues for the nine and three months ended October 31, 2000.

Our principal sources of revenues were maintenance fees and consulting fees which represented approximately 90.6% or \$409,337 of revenues for the nine months ended October 31, 2001 and approximately 93.6% or \$504,314 of revenues for the nine months ended October 31, 2000. Maintenance fees and consulting fees represented approximately 83.7% or \$166,765 of revenues for the three months ended October 31, 2001 and approximately 86.7% or \$129,491 for the three months ended October 31, 2000.

The increase in licensing fees was due to increased software sales within the quarter ended October 31, 2001.

We believe that the decrease in maintenance fees during the nine month period was due to the non-renewal of older maintenance contracts by customers and that the increase in maintenance fees during the three month period was not due to

any specific trend. We believe that the decrease in consulting and other fees was due to a reduction in charges for consulting and administrative fees to our affiliate Freetrek, Inc. This reduction in consulting and administrative fees from Freetrek resulted from a decrease in funds available to Freetrek from its financing activities. See the discussion below under "Major Customers."

We continue to work on developing products that extend our line to work on Microsoft's new ".NET" and XML Web services platform; however, progress is slow due to financial constraints.

Our operating expenses were \$541,794 for the nine months ended October 31, 2001 compared to \$695,536 for the comparable nine month period of fiscal 2001, a decrease of \$153,742 or approximately 22.1%. Our operating expenses for the three months ended October 31, 2001 were \$161,503 compared to \$229,220 for the comparable three months ended October 31, 2000, a decrease of \$67,717 or approximately 29.5%. We believe that the decrease was a result of both lower levels of software development costs as well as a reduction in selling and administrative costs, primarily a decrease in compensation to officers and administrative staff, charged to operations for the nine and three month period ending October 31, 2001 compared to the period ending October 31, 2000.

As a result of all of the foregoing, we incurred a net loss for the first nine months of fiscal 2002 of \$90,389\$ compared to a net loss of \$156,885\$ for the first nine months of fiscal 2001, a decrease of \$66,496. We incurred a net profit of \$37,632 for the three months ended October 31, 2001 compared to a net loss of \$79,874, a decrease of \$117,506.

#### Major Customers

\_\_\_\_\_

No individual customer accounted for a significant portion of revenues. We have generated revenues from our affiliate, Freetrek, for work related to the prior and ongoing development, maintenance and enhancement of Freetrek's products. However, Freetrek is a development stage company and, although it is marketing its products and services, it has yet to make its first sale. Fees paid by Freetrek have come from the proceeds of private placements of Freetrek's securities and of Multi Solutions' securities. If Freetrek is unable to generate substantial revenues or continue to raise funds, revenues received by us from Freetrek most likely will decrease and eventually cease.

## Liquidity and Capital Resources

At October 31, 2001, we had a negative working capital position of (\$383,759) compared to a negative working capital position of (\$215,932) on January 31, 2001. We continue to experience significant cash flow problems.

We have taken various step to correct this situation, including:

- o significantly cutting overhead costs through staff reduction;
- o extending our product line to operate within the internet environment;
- o performing work for our affiliate, Freetrek, related to the prior and ongoing development, maintenance and enhancement of Freetrek's products: and
- o performing contract consulting services for others.

We intend to remain a technology provider of products and services and search out multiple distribution channels, with increasing emphasis on the use of the Internet for marketing, rather than to try and grow via an expensive direct

sales force. This allows the focus to stay on technology, with a low overhead cost for each distribution channel used. However, if we obtain additional funds from operations or otherwise, we plan to expand in-house marketing activities by advertising in trade publications and by conducting targeted mailing.

We need to obtain significantly additional funds from operations and/or from financing activities. Absent such additional funds, we will be forced to further reduce our operating expenses and our business will be further materially adversely affected. We cannot assure that we will be able to obtain the requisite funds.

## Dividend Policy

We have not declared or paid any dividends on our common stock since inception and we do not anticipate that we will declare or pay cash dividends in the foreseeable future. We intend to retain earnings, if any, to finance the development and expansion of our business. Future dividend policy will be subject to the discretion of the board of directors and will be contingent upon future earnings, if any, our financial condition, capital requirements, general business conditions and other factors. Therefore, we cannot assure that dividends of any kind will ever be paid.

## Effect of Inflation

We believe that inflation has not had a material effect on our operations for the periods presented.
