ZAGG INCORPORATED
Notes to Condensed Consolidated Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The accompanying unaudited condensed consolidated financial statements of ZAGG Incorporated (the “Company” or “ZAGG”) have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the following disclosures are adequate to make the information presented not misleading. The Company suggests that these condensed financial statements be read in conjunction with the financial statements and the notes thereto included in the Company’s 2006 Annual Report on Form 10-KSB.

These condensed financial statements reflect all adjustments (consisting only of normal recurring adjustments) that, in the opinion of management, are necessary to present fairly the financial position and results of operations of the Company for the periods presented.

Operating results for the nine months ended September 30, are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

Nature of Operations - ZAGG Incorporated was incorporated in the State of Utah on March 24, 2005 as Protective Solutions, Inc. On January 30, 2006, the Company amended its Articles of Incorporation and changed its name to ShieldZone Corporation. On February 8, 2007 we were acquired by an inactive publicly held company, Amerasia Khan Enterprises Ltd. in a transaction accounted for as a recapitalization of the Company. On March 1, 2007, we redomesticated our operating subsidiary by reincorporating it in the State of Nevada and on that same date we merged that subsidiary into Amerasia Khan Enterprises Ltd, the parent, who was the surviving entity. In connection with the merger we changed the name of Amerasia Khan Enterprises Ltd. to ZAGG Incorporated. The Company continues to operate the historical business of ShieldZone Corporation and may use the ShieldZone name as a trade name.

The Company has developed and sells, through the Internet and wholesale distribution channels, patent-pending protective shields under the name of the *invisibleSHIELD*[™] for electronic devices and other electronics accessories.

Principles of Consolidation - The condensed consolidated financial statements include the accounts of ZAGG Incorporated, and its wholly owned subsidiary ZAGG Europe Ltd. All significant intercompany transactions have been eliminated in consolidation.

Business Condition - For the three months ended September 30, 2007 and 2006, the Company generated revenues of \$1,437,408 and \$816,022, respectively and incurred a net loss of (\$733,428) and net income of \$15,556, respectively. For the nine months ended September 30, 2007 and 2006, the Company generated revenues of \$3,034,714 and \$1,978,533, respectively and incurred net losses of (\$1,052,293) and net income of \$16,717, respectively, had negative cash flow from operating activities of (\$857,059) for the nine months ended September 30, 2007 and positive cash flow from operating activities of \$217,032 for the nine months ended September 30, 2006. As of September 30, 2007, the Company had stockholders’ equity of \$2,947,962, an accumulated deficit of (\$1,034,786), working capital of \$2,601,111, accounts payable of \$316,659, deferred licensing revenue of \$94,953, accrued wages of \$72,962, sales returns liability of \$16,599 and accrued liabilities of \$16,592. Management believes that existing cash, along with cash generated from the collection of accounts receivable and the sale of products will be sufficient to meet the Company’s cash requirements during the next twelve months.

Revenue Recognition

The Company follows the guidance of the Securities and Exchange Commission’s Staff Accounting Bulletin 104 for revenue recognition. In general, the Company records revenue when persuasive evidence of an arrangement exists or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured. The Company’s revenue is derived from sales of its products to retailers, resellers and end consumers and from the sale of distributor license fees. For sales of product, the Company records revenue when the product is shipped, net of estimated returns and discounts. For license fees, the Company recognizes revenue on a prorated basis over the life of the distribution contract.

The Company follows the guidance of Emerging Issues Task Force (EITF) Issue 01-9 “Accounting for Consideration Given by a Vendor to a Customer” and (EITF) Issue 02-16 “Accounting by a Customer (Including a Reseller) for Certain Considerations Received from Vendors.” Accordingly, any incentives received from vendors are recognized as a reduction of the cost of products. Promotional products given to customers or potential customers are recognized as a cost of sales. Cash incentives provided to our customers are recognized as a reduction of the related sale price, and, therefore, are a reduction in sales.

Reserve for Sales Returns and Warranty Liability

The Company's return policy generally allows its end users and retailers to return purchased products for refund or in exchange for new products within 30 days of end user purchase. The Company estimates a reserve for sales returns and records that reserve amount as a reduction of sales and as a sales return reserve liability. At September 30, 2007 the sales return liability was \$16,599.

The Company generally provides the ultimate consumer a warranty with each product and accrues warranty expense at the time of the sale based on the Company's prior claims history. Actual warranty costs incurred are charged against the accrual when paid. During the three and nine months ended September 30, 2007 and 2006, warranty expense and the reserve for warranty liability, respectively, was not material.

Shipping and Handling Costs

Amounts invoiced to customers for shipping and handling are included in sales and were \$199,711 for the nine months ended September 30, 2007 and \$170,175 for the nine months ended September 30, 2006. Actual shipping and handling costs to ship products to our customers are included in cost of sales and were \$279,056 for the nine months ended September 30, 2007 and \$269,372 for the nine months ended September 30, 2006.

Stock-based compensation

Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), *Share Based Payment* ("SFAS No. 123R"). SFAS No. 123R establishes the financial accounting and reporting standards for stock-based compensation plans. As required by SFAS No. 123R, the Company recognizes the cost resulting from all stock-based payment transactions including shares issued under its stock option plans in the financial statements based upon the fair value of such equity instruments granted. As there were no common stock options granted or outstanding in 2007 or 2006, there was no financial effect to the Company upon implementation of SFAS No. 123R.

Prior to January 1, 2006, the Company accounted for stock-based employee compensation plans (including shares issued under its stock option plans) in accordance with APB Opinion No. 25 and followed the pro forma net income, pro forma income per share, and stock-based compensation plan disclosure requirements set forth in the Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* ("SFAS No. 123").

Advertising

General advertising is expensed as incurred. Advertising expenses for the nine months ended September 30, 2007 were \$462,371 and for the nine months ended September 30, 2006 were \$269,289. The Company capitalizes expenses related to its direct marketing campaign under the guidance of Statement of Position 93-7 *Reporting on Advertising Costs* ("SOP 93-7"). The company has capitalized \$190,787 as prepaid advertising related to the direct marketing campaign, these costs relate to the production of an infomercial spotlighting the *invisibleSHIELD* product line. The Company did some testing of the campaign during the third quarter of 2007 and determined that further modifications needed to be made to the infomercial. At September 30, 2007 these changes were underway and the Company plans to begin the direct marketing campaign during the fourth quarter of 2007, at which time the Company will begin to amortize these prepaid advertising costs as prescribed by SOP 93-7.

Reclassifications

Certain amounts in the 2006 financial statements have been reclassified to conform to the 2007 presentation.

Recent accounting pronouncements

In February, 2007, the FASB issued SFAS No. 159, "*The Fair Value Option for Financial Assets and Financial Liabilities*" ("SFAS No. 159"). This Statement provides companies with an option to report selected measurement attributes for different assets and liabilities that can create artificial volatility in earnings. The Statement's objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS No. 159 is effective for the Company beginning January 1, 2009. The Company is currently evaluating the impact of this standard.

The Company has reviewed all other recently issued, but not yet adopted, accounting standards in order to determine their effects, if any, on its results of operation, financial position or cash flows. Based on that review, the Company believes that none of these pronouncements will have a significant material effect on its current or future earnings or operations.

Net (Loss) Income Per Common Share

Basic net (loss) income per share is computed by dividing net (loss) income by weighted average number of shares of common stock outstanding during each period. Diluted net (loss) income per share is computed by dividing net (loss) income by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. As of September 30, 2007 and 2006, the Company did not have any dilutive securities.

The following is a reconciliation of the numerator and denominator used to calculate Basic and Diluted EPS for the three and nine months ended September 30, 2007 and 2006:

	Net Loss	Weighted Average Shares	Per Share Amount
Three months ended September 30, 2007:			
Basic EPS	\$ (733,428)	17,631,495	\$ (0.04)
Effect of common stock equivalents	—	—	
Diluted EPS	\$ (733,428)	17,631,495	\$ (0.04)
Three months ended September 30, 2006:			
Basic EPS	\$ 15,556	10,098,913	\$ 0.00
Effect of common stock equivalents	—	—	
Diluted EPS	\$ 15,556	10,098,913	\$ 0.00
	Net Loss	Weighted Average Shares	Per Share Amount
Nine months ended September 30, 2007:			
Basic EPS	\$ (1,052,293)	16,131,123	\$ (0.07)
Effect of common stock equivalents	—	—	
Diluted EPS	\$ (1,052,293)	16,131,123	\$ (0.07)
Nine months ended September 30, 2006:			
Basic EPS	\$ 16,717	10,033,000	\$ 0.00
Effect of common stock equivalents	—	—	
Diluted EPS	\$ 16,717	10,033,000	\$ 0.00

The calculation above for the three and nine months ended September 30, 2007, excludes the exercise of the 1,842,500 outstanding warrants as the exercise of these warrants would have an anti-dilutive effect on earnings per share. There were no anti-dilutive instruments outstanding for the three or nine months ended September 30, 2006.

NOTE 2 - RECAPITALIZATION

On February 8, 2007 (the “recapitalization date”), we executed an Agreement and Plan of Merger (the “Merger Agreement”) by and between Amerasia Khan Enterprises Ltd. (a public shell), now known as ZAGG Incorporated, and its wholly-owned subsidiary, SZC Acquisition Inc., a Nevada corporation (“Subsidiary”) on the one hand and ShieldZone Corporation, (“ShieldZone”) a Utah corporation, on the other hand. Pursuant to the Merger Agreement, Subsidiary was merged into ShieldZone with ShieldZone surviving the merger. In consideration, the stockholders of ShieldZone received 10,175,000 shares of Amerasia Khan Enterprises Ltd., now known as ZAGG Incorporated, common stock which was approximately 69% of the total common shares outstanding just subsequent to the merger but before the simultaneous sale of 785,856 common shares for \$275,000 (\$0.35 per share) and conversion of a \$250,000 convertible promissory note for 714,286 common shares. The Company also issued warrants in conjunction with the sale of the 785,856 common shares and the raise and conversion of the \$250,000 convertible promissory note. The Company issued warrants as a fee to purchase 52,500 shares of our common stock at an exercise price of \$0.35. These warrants may be exercised until March 18, 2012, at which time they will expire if not exercised. The warrant holders also have piggyback registration rights. In connection with the merger/recapitalization, the Company is deemed to have issued 4,600,000 common shares to the original stockholders’ of Amerasia Khan Enterprises Ltd. Subsequent to the merger/recapitalization, 1,254,000 shares owned by certain original shareholders of Amerasia Khan Enterprises Ltd. were cancelled.

The merger was accounted for as a recapitalization of ShieldZone, a Utah corporation because on a post-merger basis, the former stockholders of ShieldZone Corporation held a majority of the outstanding common stock on a voting and fully-diluted basis and had Board and management control. As a result, ShieldZone is deemed to be the acquirer for accounting purposes. In March 2007, ShieldZone Corporation was merged into its parent, Amerasia Khan Enterprises Ltd., now known as ZAGG Incorporated, and the name of the surviving entity, Amerasia Khan Enterprises Ltd., was changed to ZAGG Incorporated.

Accordingly the balance sheets just subsequent to the recapitalization date consists of the balance sheets of both companies at historical cost and the statement of operations consists of the historical operations of ShieldZone and the operations of Amerasia Khan Enterprises Ltd., now known as ZAGG Incorporated, from the recapitalization date.

All share and per share data in the accompanying financial statements have been retroactively changed to reflect the effect of the merger and recapitalization.

NOTE 6 - INTANGIBLE ASSETS

At September 30, 2007, intangible assets consist of legal fees paid in connection with the Company's patent application of \$7,935 and amounts paid to secure the Company's Internet addresses. The costs relating to the definite-lived intangible assets are amortized over their estimated useful lives using straight-line amortization. The useful life for Internet addresses is 10 years. As of September 30, 2007, the patent had not been granted. Accordingly, the Company has not begun to amortize the patent costs and will begin amortizing the patent over the legal life of the patent, when the patent is granted.

The Company has contractual rights customary in the industry to use its Internet addresses. However, the Company does not have and cannot acquire any property rights to the internet addresses. The Company does not expect to lose its rights to use the Internet addresses; however, there can be no assurance in this regard and such loss could have a material adverse effect on the Company's financial position and results of operations.

The Company's definite-lived intangible assets are summarized in the table below:

NOTE 8 - CONVERTIBLE NOTE PAYABLE - OFFICER

In November 2006, the Company entered into a convertible note with an affiliate of the Company's Chief Executive Officer in the original principal amount of \$100,000. The note was convertible at the holder's option any time up to maturity at a conversion price equal to \$0.35 per common share. The note was due on May 15, 2007, bore interest at 20% per year and was unsecured. The common shares underlying the note have piggy back registration rights. Overview

Recent Merger Transactions

On February 8, 2007, Amerasia Khan Enterprises Ltd. (“AKE”) a Nevada corporation (the “Registrant”) (nka ZAGG Incorporated) executed an Agreement and Plan of Merger (the “Merger Agreement”) by and between the Registrant and its wholly owned subsidiary, SZC Acquisition, Inc., a Nevada corporation (“Subsidiary”) on the one hand and ShieldZone Corporation, a Utah corporation (“ShieldZone” or “Target”) on the other hand. Pursuant to the Merger Agreement, ShieldZone merged with Subsidiary, with ShieldZone surviving the merger and Subsidiary ceasing to exist (the “Merger”).

Following the Merger, ShieldZone was reincorporated in Nevada as a subsidiary of AKE. On March 7, 2007, ShieldZone was merged up and into AKE. At that time AKE changed its name to ZAGG Incorporated, and the operations of the surviving entity (ZAGG Incorporated) are solely that of ShieldZone. As a result of these transactions, the historical financial statements of ZAGG Incorporated are the historical financial statements of ShieldZone. The fiscal year end of the Company is December 31.

For purposes of the following discussion and analysis, references to “we”, “our”, “us” refers to ZAGG Incorporated.

Our Business

We custom-design, market and sell a form of protective covering for consumer electronic and hand held devices. Our key product “invisibleSHIELD”™ is made from a protective, film-like covering that was developed originally to protect the leading edges of rotary blades of military helicopters. We determined that this same film product could be configured to fit onto the surface of electronic devices and marketed to consumers for use in protecting such devices

from everyday wear and tear including scratches, scrapes, debris and other surface blemishes. The film also permits touch sensitivity, meaning it can be used on devices that have a touch-screen interface. The *invisibleSHIELD* film material is highly reliable and durable since it was originally developed for use in a high friction, high velocity, aerospace context. The film provides long lasting protection for the surface of electronic devices subject to normal wear and tear. The film is a form of polyurethane substance, akin to a very thin, pliable, flexible and durable clear plastic that adheres to the surface and shape of the object it is applied to.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Significant estimates include the allowance for doubtful accounts, inventory valuation allowances, sales returns and warranty liability, the useful life of property and equipment and the valuation allowance on deferred tax assets.

Revenue recognition

We follow the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin 104 for revenue recognition. In general, we record revenue when persuasive evidence of an arrangement exists or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured. Our revenue is derived from sales of our products to retailers, resellers and end consumers and from the sale of distributor license fees. For sales of product, we record revenue when the product is shipped, net of estimated returns and discounts. For license fees, we recognize revenue on a prorated basis over the life of the distribution contract.

The Company follows the guidance of Emerging Issues Task Force (EITF) Issue 01-9 "Accounting for Consideration Given by a Vendor to a Customer" and (EITF) Issue 02-16 "Accounting by a Customer (Including a Reseller) for Certain Considerations Received from Vendors." Accordingly, any incentives received from vendors are recognized as a reduction of the cost of products. Promotional products given to customers or potential customers are recognized as a cost of sales. Cash incentives provided to our customers are recognized as a reduction of the related sale price, and, therefore, are a reduction in sales.

Reserve for Sales Returns and Warranty Liability

Our return policy generally allows our end users and retailers to return purchased products for refund or in exchange for new products within 30 days of end user purchase. We estimate a reserve for sales returns and record that reserve amount as a reduction of sales and as a sales return reserve liability.

We generally provide the ultimate consumer a warranty with each product and accrue warranty expense at the time of the sale based on our prior claims history. Actual warranty costs incurred are charged against the accrual when paid.

Recently Issued Accounting Pronouncements

In February, 2007, the FASB issued SFAS No. 159, "*The Fair Value Option for Financial Assets and Financial Liabilities*" ("SFAS No. 159"). This Statement provides companies with an option to report selected measurement attributes for different assets and liabilities that can create artificial volatility in earnings. The Statement's objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS No. 159 is effective for us beginning January 1, 2009. We are currently evaluating the impact of this standard.

We have reviewed all other recently issued, but not yet adopted, accounting standards in order to determine their effects, if any, on our results of operation, financial position or cash flows. Based on that review, we believe that none of these pronouncements will have a significant material effect on our current or future earnings or operations.

Results of Operations

THREE MONTHS ENDED SEPTEMBER 30, 2007 AND 2006

Net sales

Net sales for the quarter ended September 30, 2007 were \$1,437,408 as compared to net sales of \$816,022 for the quarter ended September 30, 2006, an increase of \$621,386 or 76%.

The significant increase in product sales is mainly attributed to continued strong sales of our *invisibleSHIELD* product line with approximately 68% of our product being sold through our website to retail customers, 16% being sold through mall carts, 10% to wholesale distributors and 6% from shipping and handling charges.

Cost of sales

Cost of sales includes raw materials, packing materials and shipping costs. For the quarter ended September 30, 2007, cost of sales amounted to \$299,027 or approximately 21% of net sales as compared to cost of sales of \$193,153 or 23% of net sales for quarter ended September 30, 2006. The decrease in cost of sales as a percentage of net revenues for the quarter ended September 30, 2007 as compared to the quarter ended September 30, 2006 is attributable to better overall pricing on raw materials purchases, decreased shipping rates and decreased packaging costs.

Gross profit

Gross profit for the quarter ended September 30, 2007 was \$1,138,381 or approximately 79% of net sales as compared to \$622,869 or approximately 76% of net sales for the quarter ended September 30, 2006. The increase in gross profit percentage was attributable to decreased costs associated with raw materials, packaging and shipping and changes in sales mix from distributor sales to internet and cart sales. There are no assurances that we will continue to recognize similar gross profit margin in the future.

Operating expenses

Total operating expenses for the quarter ended September 30, 2007 were \$1,888,346, an increase of \$1,299,733 from total operating expenses for the quarter ended September 30, 2006 of \$588,613. The increases are primarily attributable to the following:

- For the quarter ended September 30, 2007, we recognized \$800,000 in expense related to the issuance of restricted stock to employees and key consultants of the Company. Exclusive of this non-cash charge, total operating expenses were \$1,088,346 and income from operations was \$50,035.
- For the quarter ended September 30, 2007, salaries and related taxes increased by \$187,532 to \$451,076 from \$263,544 for the quarter ended September 30, 2006 due to the hiring of some key management personnel and additional staff to facilitate our continued growth and development of our overall business plan and marketing strategy.
- For the quarter ended September 30, 2007, marketing and advertising expenses were \$227,624, an increase of \$119,236 as compared to \$108,388 for the quarter ended September 30, 2006. As a percentage of sales, the increase was only 2.6% from 13.3% of sales for the quarter ended September 30, 2006 to 15.8% of sales for the quarter ended September 30, 2007. This increase is attributable to an increase in our marketing efforts as we roll out product and implement our business plan. The primary marketing expenditures continue to be in web advertising and search

engine optimization. We expect our marketing and advertising expenses to increase as our revenues increase and expect to spend increased funds on adverting and promotion of our products as well as sales training. We also spent approximately \$51,000 on television advertising for the *invisible*SHIELD product line.

For the quarter ended September 30, 2007, other selling, general and administrative expenses were \$383,851 as compared to \$186,631 for the quarter ended September 30, 2006, an increase of \$197,220. The increase was attributable to the increase in operations as we continue to implement our business plan and is summarized below:

	Three Months Ended September 30, 2007	Three Months Ended September 30, 2006

Net of the non-cash charge related to the issuance of stock to employees and key consultants of \$800,000, we had income from operations of \$50,035. The loss from operations for the quarter ended September 30, 2007 as compared to income from operations the quarter ended September 30, 2006 is primarily attributable to \$800,000 in expenses related to the issuance of restricted stock to employees and key consultants of the Company and, in addition, overall cost increases associated with executing our business plan including increased salaries and related taxes of \$187,532, increased advertising and marketing expenditures of \$119,236, increased contract labor expense of \$47,262, investor relations related expenses of \$48,185, increased insurance expenses of \$9,947, increased office supplies expenses of \$9,937, increased telephone and utilities expenses of \$6,667, increased rent expense of \$50,336 and increased travel and entertainment expense of \$2,221.

Other income (expense)

For the quarter ended September 30, 2007, total other income was \$16,771 compared to other expense of (\$18,700) for the quarter ended September 30, 2006. The increase is primarily attributed to interest income of \$20,903 related to interest earned on cash balances in our depository accounts and a decrease in other expense of \$14,568 in the quarter ended September 30, 2006, partially offset by interest expense of (\$4,132).

Net (loss) income

As a result of these factors, we reported a net loss of (\$733,428) or (\$0.04) per share for the quarter ended September 30, 2007 as compared to net income of \$15,556 or \$0.00 per share for the quarter ended September 30, 2006.

NINE MONTHS ENDED SEPTEMBER 30, 2007 AND 2006

Net sales

Net sales for the nine months ended September 30, 2007 were \$3,034,714 as compared to net sales of \$1,978,533 for the nine months ended September 30, 2006, an increase of \$1,056,181 or 53%.

The significant increase in product sales is mainly attributed to continued strong sales of our *invisibleSHIELD* product with approximately 63% of our product being sold through our website to retail customers, 19% being sold through mall carts, 12% to wholesale distributors and 6% from shipping and handling charges.

Cost of sales

Cost of sales includes raw materials, packing materials and shipping costs. The decrease in cost of sales as a percentage of net revenues for the quarter ended September 30, 2007 as compared to the quarter ended September 30, 2006 is attributable to better overall pricing on shipping and raw materials purchases and decreased packaging costs.

Gross profit

Gross profit for the nine months ended September 30, 2007 was \$2,344,856 or approximately 77% of net sales as compared to \$1,441,158 or approximately 73% of net sales for the nine months ended September 30, 2006. The increase in gross profit percentage was attributable to decreased costs associated with shipping, raw materials and packaging and changes in sales mix from distributor sales to retail and cart sales. There are no assurances that we will continue to recognize similar gross profit margin in the future.

Operating expenses

Total operating expenses for the nine months ended September 30, 2007 were \$3,389,362, an increase of \$1,963,197 from total operating expenses for the nine months ended September 30, 2006 of \$1,426,165. The increases are primarily attributable to the following:

The decrease is primarily due to approximately \$63,000 that was paid to a consultant who then became our president in 2006, partially offset by expenses incurred related to the hiring of key personnel during the nine months ended September 30, 2007 of \$24,000 and payments to a consulting firm for website optimization of \$10,000.

- For the nine months ended September 30, 2007, marketing and advertising expenses were \$467,410, an increase of \$197,721 as compared to \$269,689 for the nine months ended September 30, 2006. This increase is attributable to an increase in our marketing efforts as we roll out product and implement our business plan. The primary marketing expenditures continue to be in web advertising and search engine optimization. We also spent approximately \$79,000 on television advertising and \$19,000 for the nine months ended September 30, 2007 to redesign our consumer packaging. (Loss) income from operations

We reported loss from operations of (\$1,044,506) for the nine months ended September 30, 2007 as compared to income from operations of \$14,993 for the nine months ended September 30, 2006, a decrease of \$1,059,499. Net of the non-cash charge related to the issuance of stock to employees and key consultants of \$800,000, we had an operating loss of (\$244,506). The loss from operations for the nine months ended September 30, 2007 as compared to income from operations the nine months ended September 30, 2006 is primarily attributable to \$800,000 in expenses related to the issuance of restricted stock to employees and key consultants of the Company and increased salaries and related expenses of \$435,624, increased legal and accounting fees of \$213,303 due to the recapitalization transaction, increased advertising and marketing expenses of \$197,721, increased rent expense of \$82,485, increased credit card and bank fees of \$37,413, increased travel and entertainment expense of \$26,106, increased depreciation and amortization expense of \$41,336, investor relations related expenses of \$52,584, increased insurance expenses of \$27,863 and increased telephone and utilities expenses of \$14,882.

For the nine months ended September 30, 2007, total other expense was (\$5,243) compared to other expense of (\$11,740) for the nine months ended September 30, 2006. The decrease is primarily attributed to interest income of \$24,988 for the nine months ended September 30, 2007 compared to interest in come of \$6,819 for the nine months ended September 30, 2006 due to increased cash balances in our depository accounts. These decreases were partially

offset by interest expense of (\$30,231) for the nine months ended September 30, 2007 compared to other expense of (\$18,559) for the nine months ended September 30, 2006 due to interest expense related to short-term borrowings during the first and second quarters of 2007.

Item 3. Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of September 30, 2007. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer, Mr. Robert G. Pedersen II, and Chief Financial Officer, Mr. Brandon T. O'Brien. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2007, our disclosure controls and procedures are effective. There have been no changes in our internal controls over financial reporting during the quarter ended September 30, 2007.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving our objectives and our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at that reasonable assurance level. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Pursuant to the Merger Agreement ShieldZone merged with the Subsidiary, with ShieldZone Corporation surviving the merger (the “Merger”).
