QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For Quarterly Period Ended September 30, 2009

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

Commission file number 000-16496

Constar International Inc.

(Exact name of registrant as specified in its charter)

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

Delaware (State or other jurisdiction of incorporation or organization)	13-1889304 (IRS Employer Identification Number)
One Crown Way, Philadelphia, PA (Address of principal executive offices)	19154 (Zip Code)
(215) 552-3700 (Registrant's telephone number, including area code)	

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input checked="" type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act): Yes No

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

As of November 13, 2009, 1,750,000 shares of the Registrant's Common Stock were outstanding.

Constar International Inc.

Notes to Condensed Consolidated Financial Statements

(Dollar and share amounts in thousands, unless otherwise noted)

(Unaudited)

1. Emergence from Voluntary Reorganization Under Chapter 11 Proceedings

Background On December 30, 2008 (the *Petition Date*), Constar and certain of its subsidiaries (collectively, the *Debtors*) filed voluntary petitions in the United States Bankruptcy Court for the District of Delaware (the *Bankruptcy Court*) seeking reorganization relief under the provisions of Chapter 11 of Title 11 of the United States Code (the *Bankruptcy Code*). These Chapter 11 cases were jointly administered for procedural purposes under the caption *In re Constar International Inc., et al.*, Chapter 11 Case No. 08-13432 (PJW) (the *Chapter 11 Cases*).

Plan of Reorganization The Debtors' Second Amended Joint Plan of Reorganization (the *Plan*) provided as follows (capitalized terms used in the bullets below are defined in the Plan):

Holders of Allowed Administrative Claims, Priority Tax Claims, Other Priority Claims, and Other Secured Claims would receive full payment in cash;

The DIP Credit Facility would be converted into the Company's Exit Facility;

Holders of Senior Secured Floating Rate Notes would be deaccelerated and reinstated in full as of the date immediately preceding the *Petition Date*;

Holders of Other Secured Claims, except to the extent that a Holder agrees otherwise, would receive one of the following treatments, in full satisfaction, settlement, release and discharge of and in exchange for each Allowed Other Secured Claim, at the sole discretion of the Debtors: (i) payment in full in Cash; (ii) delivery of the collateral securing any such Allowed Other Secured Claim; (iii) deacceleration and reinstatement in full; or (iv) any other treatment rendering the claim unimpaired;

Holders of Senior Subordinated Notes would receive 100% of the new Common Stock of the reorganized Company (except for stock reserved for incentive plans) in full satisfaction, settlement, and release, and discharge of such notes;

Holders of Allowed General Unsecured Claims would receive full payment in cash in the ordinary course of business;

Section 510(b) Claims (which are subordinated securities law claims as further described in the Plan) would be extinguished; and

Holders of our Common Stock would not receive any distribution under the Plan and their shares would be cancelled on the effective date of the Plan.

Payment of claims is subject to the claims resolution process described below.

Confirmation and Consummation of the Plan A hearing on the confirmation of the Plan was held on May 4, 2009. On May 14, 2009, the Bankruptcy Court entered an order approving and confirming the Plan that was presented in substance during the May 4, 2009 hearing. The Plan

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

became effective and the Debtors emerged from Chapter 11 on May 29, 2009 (the Effective Date).

In connection with the consummation of the Plan, on the Effective Date, the Company's existing Senior Secured Super-Priority Debtor in Possession and Exit Credit Agreement, dated as of December 31, 2008 (the Credit Agreement) was converted into exit financing in accordance with its terms. See Note 11 Debt to the Condensed Consolidated Financial Statements for additional information.

Pursuant to the Plan, all existing shares of the Predecessor Company's (as defined below) capital stock were canceled. In addition, all of the Company's Senior Subordinated 11% Notes Due 2012 were canceled and the related indenture was terminated (except for purposes of allowing the note holders to receive distributions under the Plan). Pursuant to the Restated Certificate of Incorporation of the Company, 75 million shares of common stock in the Successor Company were authorized for issuance, with a par value of \$0.01 per share and according to the Plan, a total of 1.75 million shares of the Company's Common Stock were

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

distributed to the holders of Senior Subordinated Note Claims. Holders of the Senior Subordinated Note Claims received ten shares of new Common Stock per one thousand dollars face amount of the Senior Subordinated Notes.

In addition, upon the Effective Date, the following incentive plans were terminated (and any and all awards granted under such plans were terminated and will no longer be of any force or effect): (1) the 2007 Non-Employee Directors' Equity Incentive Plan; (2) the 2007 Stock-Based Incentive Compensation Plan; (3) Constar International Inc. Non-Employee Directors' Equity Incentive Plan; (4) Constar International Inc. 2002 Stock-Based Incentive Compensation Plan; (5) the Amended and Restated Constar International Inc. Supplemental Executive Retirement Plan; and (6) the Amended and Restated Constar International Inc. Annual Incentive and Management Stock Purchase Plan, which was replaced by the Constar International Inc. Annual Incentive Plan, adopted May 26, 2009 (the "AIP"). For a description of the AIP, please see the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on June 1, 2009.

Under the Plan, the Company reduced its total pre-petition liabilities by \$186.2 million through the elimination of the Senior Subordinated Notes plus accrued interest thereon. The elimination of the Senior Subordinated Notes will result in a reduction to cash interest expense of approximately \$19.3 million annually.

Claims Resolution Process On January 28, 2009, the Bankruptcy Court entered an order (the "Bar Date Order") requiring any person or entity holding or asserting a prepetition claim(s) against the Debtors to file a written proof of claim with the Debtors' claims processing agent on or before March 30, 2009 (the "Bar Date"), and, for Governmental Units (as defined in the Bankruptcy Code) holding a prepetition claim(s) against the Debtors to file a written proof of claim with the Debtors' claims processing agent on or before June 29, 2009. With certain enumerated exceptions, the Bar Date Order further provides that any person or entity which fails to timely file a proof of claim will, among other things, be forever barred, estopped and enjoined from asserting a prepetition claim against the Debtors.

The following table summarizes cumulative activity for claims that have been filed with the Bankruptcy Court as of September 30, 2009:

<i>(In millions)</i>	General Unsecured Claims
Claims filed	\$ 21.6
Claims resolved	(21.4)
Unresolved claims	\$ 0.2

Throughout the Chapter 11 proceedings, the Company has resolved many claims through settlements. The Company will continue to settle claims and, if necessary, file additional objections with the Bankruptcy Court. With respect to unsecured claims, once a claim is allowed consistent with the claims resolution process, the claimant is entitled to payment of cash in full settlement of the claim. Differences between claim amounts filed and the Company's estimates are being investigated and will be resolved in connection with the claims resolution process. In addition, new and amended claims may be filed in the future, including claims amended to assign dollar values or recharacterize the legal nature of claims already on file. Accordingly, the ultimate number and amount of allowed claims is not presently known, nor is the exact recovery with respect to allowed claims presently known.

The Company estimates that the probable range of remaining unresolved general unsecured claims to be allowed will be between \$0.1 million and \$0.2 million. The Company has identified, and may continue to identify, claims that the Company believes should be disallowed by the Bankruptcy Court because they are duplicative, have been later amended or superseded, are without merit, are overstated or for other reasons. As of October 30, 2009, the Company has filed objections with respect to approximately \$1.1 million in claims, but it may take some time before

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

the Bankruptcy Court rules on Constar's objections to these disputed claims. These claims are excluded from the table above since the Company believes the claims are without merit. Because the process of analyzing and objecting to claims is ongoing, the amount of claims may increase in the future.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

The Company has recognized \$21.4 million of these claims (including a reserve of \$0.1 million to cover the estimated final reconciliation of these claims) in the financial statements as of September 30, 2009. In addition, for the four months ended April 30, 2009, a charge to income of \$0.3 million was recorded for claims the Company has resolved but had not previously recognized as a liability. Based upon an evaluation of the impact of these accounting errors, both individually and in the aggregate, the Company concluded that both the qualitative and quantitative impact of these errors were not material to the previously issued financial statements. These claims have been accrued by the Company based upon the best available estimates of amounts to be paid. However, it should be noted that the claims resolution process is uncertain and could result in material adjustments to the Successor Company's (as defined below) financial statements.

Additionally, secured claims were deemed unimpaired under the Plan. Pursuant to the Plan those claims were satisfied upon either reinstatement of the obligations in the Successor Company, surrendering the collateral to the secured party, or by making full payment in cash to the holder of such claim.

Trading of Common Stock The Predecessor Company's common stock ceased trading on the NASDAQ stock market on January 8, 2009 and began trading in the over-the-counter market under the symbol CNSTQ.PK. Upon the Effective Date of the Plan, the outstanding common stock of the Predecessor Company was cancelled for no consideration. Consequently, the Predecessor Company's stockholders no longer have any interest as stockholders in the Successor Company by virtue of their ownership of the Predecessor Company's common stock prior to emergence from bankruptcy. The common stock of the Successor Company is not listed on an exchange and was available for trading over-the-counter under the symbol CNRN.PK on May 29, 2009. The Company is currently applying to list its common stock on NASDAQ. There can be no assurance as to when, or whether, such listing will be achieved.

2. Basis of Presentation and Significant Accounting Policies***Basis of Presentation***

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America and in accordance with Securities and Exchange Commission (SEC) regulations for interim financial reporting. In the opinion of management, these consolidated financial statements contain all adjustments of a normal and recurring nature necessary to provide a fair statement of the financial position, results of operations and cash flows for the periods presented. Results for interim periods should not be considered indicative of results for a full year. These financial statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto contained in Constar International Inc.'s (the Company or Constar) Annual Report on Form 10-K for the year ended December 31, 2008 (however, see the discussion below regarding fresh-start accounting). The Condensed Consolidated Financial Statements include the accounts of the Company and all of its subsidiaries in which a controlling interest is maintained.

The Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC or Codification) 852 *Reorganizations* applied to the Company's financial statements while the Company operated under the provisions of Chapter 11. ASC 852 does not change the application of generally accepted accounting principles in the preparation of financial statements. However, for periods including and subsequent to the filing of the Chapter 11 petition ASC 852 does require that the financial statements distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. Accordingly, certain revenues, expenses, gains, and losses that were realized or incurred during the Chapter 11 proceedings have been classified as reorganization items, net on the accompanying condensed consolidated statements of operations. In addition, pre-petition obligations that were impacted by the Plan were classified as liabilities subject to compromise on the condensed consolidated balance sheet as of December 31, 2008.

As of May 1, 2009, the Company adopted fresh-start accounting. The Company selected May 1, 2009 as the date to effectively apply fresh-start accounting based on the absence of any material contingencies at the May 4, 2009 confirmation hearing and the immaterial impact of transactions between May 1, 2009 and May 4, 2009. The adoption of fresh-start accounting resulted in the Company becoming a new entity for financial reporting purposes. Accordingly, the financial statements prior to May 1, 2009 are not comparable with the financial statements for

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

periods on or after May 1, 2009. References to "Successor" or "Successor Company" refer to the Company on or after May 1, 2009, after giving effect to the cancellation of Constar common stock issued prior to the

(Unaudited)

Effective Date, the issuance of new Constar common stock in accordance with the Plan, and the application of fresh-start accounting. References to Predecessor or Predecessor Company refer to the Company prior to May 1, 2009. See Note 4 Fresh-Start Accounting in the notes to these Condensed Consolidated Financial Statements for further details.

In accordance with ASC 205-20, *Discontinued Operations*, the Company has classified the results of operations of its Italian operation as a discontinued operation in the condensed consolidated statements of operations for all periods presented. In addition, the assets and related liabilities of this entity have been classified as assets and liabilities of discontinued operations on the condensed consolidated balance sheets. See Note 6 Discontinued Operations for further discussion of the divestiture. Unless otherwise indicated, amounts provided throughout this report relate to continuing operations only.

Certain reclassifications have been made to prior year balances in order to conform these balances to the current year's presentation.

Use of Estimates

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses in the consolidated financial statements and accompanying notes. Actual results may differ materially from management's estimates.

Under fresh-start accounting, the Company's asset values are remeasured and allocated in conformity with ASC 805, *Business Combinations*. In addition, fresh-start accounting also requires that all liabilities, other than deferred taxes and pension and other postretirement benefit obligations, be reported at fair value or the present values of the amounts to be paid using appropriate market interest rates. Deferred taxes are reported in conformity with ASC 740, *Income Taxes*. Pension and postretirement liabilities are remeasured in conformity with ASC 715, *Compensation Retirement Benefits*.

Estimates of fair value represent the Company's best estimates based on independent appraisals and valuations and, where the foregoing have not yet been completed or are not available, industry data and trends and by reference to relevant market rates and transactions. The estimates and assumptions are inherently subject to significant uncertainties and contingencies beyond the control of the Company. Accordingly, we cannot provide assurance that the estimates, assumptions, and values reflected in the valuations will be realized, and actual results could vary materially. Any adjustments to the recorded fair values of these assets and liabilities may impact the amount of recorded goodwill.

Property, Plant and Equipment

For the Predecessor Company, property, plant and equipment are carried at cost and include expenditures for new facilities and equipment and those costs which substantially increase the useful lives of existing assets. For the Successor Company, property, plant, and equipment were adjusted to fair value as of May 1, 2009, and are currently stated at that value less accumulated depreciation and amortization. Property, plant and equipment acquired after May 1, 2009, are stated at acquisition cost less accumulated depreciation and amortization. The Company capitalizes interest costs associated with significant capital projects using its average borrowing rate. When property, plant and equipment is retired or otherwise disposed of, the net carrying amount is eliminated with any gain or loss on disposition recognized in earnings at that time. Maintenance and repairs are expensed as incurred.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

<i>(In years)</i>	Successor	Predecessor
Land improvements	25	25
Building and building improvements	3 to 40	25 to 40
Machinery and equipment	2 to 10	10
Furniture, computer equipment, and tools	2 to 10	5 to 10
Molds	Shorter of the useful life or contract term	5
Leasehold improvements	Shorter of the useful life or lease term	Shorter of the useful life or lease term

Table of Contents

Constar International Inc.

Notes to Condensed Consolidated Financial Statements (Continued)

(Dollar and share amounts in thousands, unless otherwise noted)

(Unaudited)

If depreciable assets are idled, the Company accelerates depreciation over its expected remaining useful life considering its estimated salvage value.

Impairment of Long-Lived Assets

The Company evaluates the carrying value of long-lived tangible assets to be held and used and finite-lived intangible assets when events or changes in circumstances indicate the carrying value may not be recoverable. The carrying amount of an asset or asset group is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use of the asset and its eventual disposition. In that event, an impairment loss is recognized based on the amount by which the carrying value exceeds the fair market value of the asset.

Goodwill and Intangible Assets

Goodwill reflects the excess of the reorganization value of the Successor over the fair value of tangible and identifiable intangible assets as determined upon the adoption of fresh-start accounting. The Company recorded \$117.3 million of goodwill upon emergence from bankruptcy. There were no changes in the carrying amount of goodwill during the five months ended September 30, 2009. The goodwill is not deductible for tax purposes.

Identifiable intangible assets consist of the Company's trade name, technology, and leasehold interests. The Company's trade name is an indefinite-lived asset and consequently is not amortized. Technology and leasehold interests are finite-lived intangible assets and are amortized over their useful lives.

The Company has one reporting unit and therefore assesses goodwill for impairment at the consolidated company level. The Company's annual impairment reviews for goodwill and indefinite-lived intangible assets will be performed as of October 1. The Company also undertakes interim reviews when the Company determines that a triggering event that would more likely than not reduce the fair value of the reporting unit below its carrying value has occurred.

The Company uses a two-step impairment test to identify potential goodwill impairment and measure the amount of a goodwill impairment loss to be recognized (if any). The Step 1 calculation used to identify potential impairment compares the calculated fair value for the Company's single reporting unit to its book value, including goodwill, on the measurement date. If the fair value of the reporting unit is less than carrying value, then a Step 2 calculation is performed to measure the amount of the impairment loss (if any) for the reporting unit.

The Step 2 calculation of the impairment test compares the implied fair value of the goodwill to the carrying value of goodwill. The implied fair value of goodwill is equal to the excess of the fair value of the reporting unit above the fair value of identified assets and liabilities. If the carrying value of goodwill exceeds the implied fair value of goodwill, an impairment loss is recognized in an amount equal to the excess (not to exceed the carrying value of goodwill).

See Note 10 – Goodwill and Intangible Assets for a description of the Company's interim impairment test at September 30, 2009.

Subsequent Events

Subsequent events have been evaluated for potential recognition or disclosure in the financial statements through November 13, 2009, the date the financial statements were issued.

3. New Pronouncements

On July 1, 2009, the Financial Accounting Standards Board's (FASB) Accounting Standards Codification (the Codification or ASC) became effective. The Codification is the single source of authoritative U.S. Generally Accepted Accounting Principles (GAAP) to be applied by nongovernmental entities, except for the rules and interpretive releases of the SEC under authority of federal securities laws, which are sources of authoritative GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority. The Codification is organized by topic, subtopic, section, and paragraph, each of which is identified by a numerical designation. This Quarterly Report on Form 10-Q contains references to the Codification as needed. The adoption of the Codification did not have a material impact on the Company's results of operations or financial condition.

In September 2006, the FASB issued guidance under ASC 820-10 *Fair Value Measurements and Disclosures* that establishes a common definition for fair value to be applied to GAAP guidance requiring use of fair value, establishes a framework for measuring fair value, and expands disclosure about such fair value measurements. In February 2008, the FASB delayed the effective date of the guidance for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) until January 1, 2009. The adoption of this guidance did not have a material impact on the Company's results of operations or financial condition.

In December 2007, the FASB issued new guidance for business combinations. The new guidance is contained in ASC 805 *Business Combinations*. This new guidance revises how acquirors recognize and measure the consideration transferred, identifiable assets acquired, liabilities assumed, noncontrolling interests, and goodwill acquired in a business combination. In addition, it expands required disclosures surrounding the nature and financial effects of business combinations. The new guidance is effective for fiscal years beginning on or after December 15, 2008 with earlier adoption prohibited. The impact of this new guidance on the Company's consolidated financial statements could be material for business combinations which may be consummated subsequent to the effective date. The application of ASC 805 as a result of applying the fresh-start accounting provisions of ASC 852 *Reorganizations* upon emergence from Chapter 11 has resulted in material adjustments to the historical carrying amounts of the Predecessor Company's assets and liabilities. The impact of these adjustments is summarized in Note 4 *Fresh Start Accounting* in the notes to these Condensed Consolidated Financial Statements.

In May 2009, the FASB issued new guidance for subsequent events. The new guidance establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The new guidance for subsequent events is effective for interim or annual periods ending after June 15, 2009 and is to be applied prospectively. The adoption of this guidance did not have a material impact on the Company's results of operations or financial condition.

In April 2009, the FASB issued new guidance addressing the fair value of financial instruments. The new guidance addresses determining fair value when the volume and level of activity for an asset or liability has significantly decreased and identifying transactions that are not orderly, and the recognition and presentation of other than temporary impairments. The new guidance also requires additional disclosures about financial instruments in interim period financial statements. The Company adopted this guidance in the second quarter of 2009. The adoption of this guidance did not have a material impact on the Company's results of operations or financial condition.

Effective for fiscal years ending after December 15, 2009, ASC 715-20 *Compensation - Retirement Benefits*, requires additional disclosures about employers' plan assets of a defined benefit pension or other postretirement plan. The requirements include disclosing investing strategies, major categories of plan assets, concentrations of risk within plan assets, information about fair value measurements of plan assets, and valuation techniques used to measure the fair value of plan assets. Adoption of these additional requirements is not expected to have an impact on the Company's results of operations or financial condition.

(Dollar and share amounts in thousands, unless otherwise noted)

(Unaudited)

4. Fresh-Start Accounting

On May 1, 2009, the Company adopted fresh-start accounting. Fresh-start accounting results in the Company becoming a new entity for financial reporting purposes. Accordingly, the Company's consolidated financial statements for periods prior to May 1, 2009 are not comparable to consolidated financial statements presented on or after May 1, 2009.

In applying fresh-start accounting, the Successor Company must determine a value to be assigned to the equity of the emerging company as of the date of adoption of fresh-start accounting. To facilitate this calculation the Company first determined the enterprise value of the Successor Company. The valuation methods included (i) a discounted cash flow analysis, considering a range of the weighted average cost of capital between 12.5% and 13.5% and multiples of projected earnings of between 5 and 7 times for its terminal value, (ii) a market multiples analysis, considering multiple ranges of between 5 and 6.5 times and (iii) precedent transaction multiples of between 7 and 8 times. This analysis resulted in an estimated enterprise value of between \$260 million and \$300 million. Due to prevailing economic conditions, the Company used the low end of this range for purposes of applying fresh-start accounting.

The estimated enterprise value, and corresponding equity value, is highly dependent upon achieving the future financial results set forth in the financial projections included in the Company's Plan, as filed with the Bankruptcy Court. These projections were limited by the information available to the Company as of the date of the preparation of the projections and reflected numerous assumptions concerning anticipated future performance and prevailing and anticipated market and economic conditions that were and continue to be beyond the Company's control and that may not materialize. Projections are inherently subject to uncertainties and to a wide variety of significant business, economic and competitive risks. Therefore variations from the projections may be material.

After deducting the fair value of the Senior Secured Floating Rate Notes (as determined by quoted market prices) and the outstanding Exit Facility balance (net of cash), the equity value of the Company was calculated to be \$101.5 million. The estimates and assumptions made in this valuation are inherently subject to significant uncertainties. Accordingly, there can be no assurance that the estimates, assumptions, and amounts reflected in the valuations will be realized, and actual results could vary materially. Moreover, the market value of the Company's common stock may differ materially from the equity valuation used for accounting purposes.

Fresh-start accounting reflects the value of the Company as determined in the confirmed Plan. Under fresh-start accounting, the Company's asset values are remeasured and allocated in conformity with ASC 805, *Business Combinations*. The excess of reorganization value over the fair value of tangible and identifiable intangible assets is recorded as goodwill in the accompanying condensed consolidated balance sheet. Fresh-start accounting also requires that all liabilities, other than deferred taxes and pension and other postretirement benefit obligations, should be stated at fair value. Deferred taxes are determined in conformity with ASC 740, *Income Taxes*. Pension and postretirement liabilities are remeasured in conformity with ASC 715, *Compensation - Retirement Benefits*.

Estimates of fair value included in the Successor Company financial statements represent the Company's best estimates based on independent appraisals and valuations and, where the foregoing have not yet been completed or are not available, industry data and trends and by reference to relevant market rates and transactions. The foregoing estimates and assumptions are inherently subject to significant uncertainties and contingencies beyond the control of the Company. Accordingly, the Company cannot provide assurance that the estimates, assumptions, and values reflected in the valuations will be realized, and actual results could vary materially.

The following fresh-start Condensed Consolidated Balance Sheet presents the financial effects on the Company of the implementation of the Plan and the adoption of fresh-start accounting. The effect of the consummation of the transactions contemplated in the Plan includes the settlement of liabilities and the issuance of common stock.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**Notes to Plan of Reorganization and fresh-start accounting adjustments (in thousands, unless otherwise noted)

- (a) At April 30, 2009, Crown Holdings, Inc. (Crown) owned approximately 10% of the Predecessor Company s outstanding common stock. As of May 1, 2009, as a result of the cancellation of the Predecessor Company s common stock, Crown is no longer considered a related party. This adjustment reflects the reclassification of amounts formerly classified as related party transactions.
- (b) These adjustments reflect the reclassification to long-term debt of the \$220 million Senior Secured Floating Rate Notes that had been classified as a current liability on the Predecessor Company s balance sheet due to the Chapter 11 proceedings and the reclassification of the related deferred financing fees from current assets to non-current assets.
- (c) This adjustment reflects an accrual of \$523 thousand for costs related to a contract that was rejected as part of the Chapter 11 proceedings.
- (d) As a result of the termination of the Supplemental Executive Retirement Plan the Company reclassified the outstanding liability under the plan to current liabilities. The liability was paid in full in June 2009.
- (e) This adjustment reflects the discharge of \$186.2 million of liabilities subject to compromise in accordance with the terms of the Plan and the issuance of 1.75 million shares of Successor Company common stock to the holders of Senior Subordinated Notes in satisfaction of such claims.
- (f) This adjustment reflects the cancellation of the Predecessor Company s common stock.
- (g) To record assets and liabilities at their estimated fair values:

(In thousands)	
Accounts receivable	\$ (26)
Inventories	1,621
Prepaid expenses and other current assets	(1,132)
Property, plant, and equipment	37,385
Goodwill	(80,081)
Intangible assets	36,404
Other assets	(2,654)
Accrued expenses and other current liabilities	459
Long-term debt	65,725
Pension and postretirement liabilities	7,424
Other liabilities	2,984
Gain on fresh start adjustments before tax	68,109
Elimination of other comprehensive income	48,581
Less: tax effect on fresh-start adjustments	(37,835)
Total change in equity	\$ 78,855

- (h) To eliminate Predecessor goodwill.
- (i) To adjust deferred taxes to reflect the impact of fresh-start accounting fair value adjustments.

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

- (j) To reset accumulated other comprehensive loss and accumulated deficit to zero.
- (k) To reclassify pallets used for shipping products to customers from prepaid expenses to property, plant, and equipment.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)****5. Liabilities Subject to Compromise and Reorganization Items**

Liabilities subject to compromise refers to pre-petition obligations that were impacted by the Chapter 11 reorganization process. At September 30, 2009, there were no liabilities subject to compromise due to our emergence from bankruptcy. For further information regarding the discharge of liabilities subject to compromise, see Note 4 Fresh-Start Accounting in the notes to these Condensed Consolidated Financial Statements.

Liabilities subject to compromise at December 31, 2008, are summarized in the following table:

<i>(In thousands)</i>	Predecessor December 31, 2008
Senior Subordinated Notes	\$ 175,000
Accrued interest on Subordinated Notes	11,229
	\$ 186,229

Subsequent to its Chapter 11 filing, the Company recorded post-petition interest expense on its prepetition obligations only to the extent it believed the interest would be paid during the bankruptcy proceeding or that it was probable that the interest would be an allowed claim. Had the Company recorded interest expense on its prepetition obligations, interest expense would have been higher by \$1.6 million and \$6.4 million for the one and four months ended April 30, 2009, respectively.

The Company incurred certain professional fees and other expenses directly associated with the bankruptcy proceedings. In addition, the Company has made adjustments to the carrying value of certain prepetition liabilities. Such costs and adjustments are classified as reorganization items in the accompanying condensed consolidated statements of operations and consist of the following:

<i>(In thousands)</i>	Successor		Predecessor
	Three Months Ended September 30, 2009	Five Months Ended September 30, 2009	Four Months Ended April 30, 2009
Gain from discharge of debt	\$	\$	\$ 84,745
Gain from fresh-start accounting adjustments			68,109
Contract termination expenses			(523)
Professional fees associated with bankruptcy proceedings	(642)	(1,669)	(6,905)
DIP and Exit Financing fees			(100)
Other, net	138	(2)	(1,158)
Total reorganization items, net	\$ (504)	\$ (1,671)	\$ 144,168

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

The gain from discharge of debt is the result of the settlement of the Senior Subordinated Notes in exchange for 1.75 million shares of the Successor Company's common stock.

The Successor Company made cash payments of \$8,269 for the five months ended September 30, 2009, and the Predecessor Company made cash payments of \$3,014 for the four months ended April 30, 2009 related to reorganization items.

6. Discontinued Operations

In 2006, the Company closed its Italian operation since its principal customer notified the Company that the customer would not renew its contract effective January 1, 2007. In accordance with ASC 205-20, *Discontinued Operations*, the assets and related liabilities of the discontinued entity have been classified as assets and liabilities of discontinued operations on the condensed consolidated balance sheets and the results of operations of the entity have been classified as discontinued operations in the condensed consolidated statements of operations for all periods presented.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

The following summarizes the assets and liabilities of discontinued operations:

<i>(In thousands)</i>	Successor September 30, 2009	Predecessor December 31, 2008
Assets of Discontinued Operations:		
Accounts receivable, net	\$	\$ 14
Prepaid expenses and other current assets	344	328
 Total current assets of discontinued operations	 \$ 344	 \$ 342
Liabilities of Discontinued Operations:		
Accounts payable and accrued expenses	\$ 34	\$ 87
 Total current liabilities of discontinued operations	 34	 87
Other liabilities	900	773
 Total liabilities of discontinued operations	 \$ 934	 \$ 860

Current assets of discontinued operations are included in prepaid expenses and other current assets in the accompanying condensed consolidated balance sheets. Current liabilities of discontinued operations are included in accrued expenses and other current liabilities in the accompanying condensed consolidated balance sheets. Other liabilities of discontinued operations are included in other liabilities in the accompanying condensed consolidated balance sheets.

The following summarizes the results of operations for discontinued operations:

<i>(In thousands)</i>	Successor Three Months Ended September 30, 2009	Predecessor Three Months Ended September 30, 2008
Net sales	\$	\$
 Income (loss) from discontinued operations before income taxes	 (28)	 34
(Provision for) benefit from income taxes	(2)	(1)
 Income (loss) from discontinued operations	 \$ (30)	 \$ 33

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

	Successor	Predecessor	
	Five Months Ended September 30, 2009	Four Months Ended April 30, 2009	Nine Months Ended September 30, 2008
<i>(In thousands)</i>			
Net sales	\$	\$	\$
Loss from discontinued operations before income taxes	(87)	(17)	(36)
(Provision for) benefit from income taxes	(3)	(79)	15
Loss from discontinued operations	\$ (90)	\$ (96)	\$ (21)

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)****7. Accounts Receivable**

<i>(In thousands)</i>	Successor September 30, 2009	Predecessor December 31, 2008
Trade accounts receivable	\$ 36,438	\$ 40,796
Less: allowance for doubtful accounts	(1,082)	(1,904)
Net trade accounts receivable	35,356	38,892
Value added taxes recoverable	4,770	4,331
Miscellaneous receivables	3,066	2,472
Total	\$ 43,192	\$ 45,695

8. Inventories

<i>(In thousands)</i>	Successor September 30, 2009	Predecessor December 31, 2008
Finished goods	\$ 16,803	\$ 34,021
Raw materials and supplies	38,131	15,744
Total	\$ 54,934	\$ 49,765

The inventory balance has been reduced by reserves for obsolete and slow-moving inventories of \$1,595 and \$707 as of September 30, 2009 and December 31, 2008, respectively.

9. Property, Plant and Equipment

<i>(In thousands)</i>	Successor September 30, 2009	Predecessor December 31, 2008
Land and improvements	\$ 15,870	\$ 3,438
Buildings and improvements	50,443	93,405
Machinery and equipment	120,926	578,062
	187,239	674,905
Less: accumulated depreciation and amortization	(29,188)	(545,647)

	158,051	129,258
Construction in progress	5,925	3,113
Property, plant and equipment, net	\$ 163,976	\$ 132,371

During the three months ended September 30, 2009, the Company accelerated the depreciation of idled machinery and equipment that resulted in a non-recurring charge of \$2.0 million.

10. Goodwill and Intangible Assets

The Company performed an interim goodwill impairment assessment as of September 30, 2009 since the trading value of its common stock of \$29.8 million was less than the carrying value of its stockholders' equity of \$94.7 million.

In performing the interim impairment assessment as of September 30, 2009, the Company estimated the fair value of its reporting unit using the following valuation methods and assumptions:

1. **Discounted cash flow analysis** — this method uses cash flow projections discounted to present value using a discount rate of approximately 12%. The Company used a multiple of adjusted earnings (specifically, earnings before interest expense, income taxes, depreciation and amortization, adjusted for the impact of reorganization items, foreign exchange gains/losses, restructuring charges and non-cash stock compensation expense, which the Company refers to below as Adjusted EBITDA) of 5.5 to estimate the terminal value of the business.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

2. **Market multiples** this method uses a multiple of Adjusted EBITDA calculated using the average trading prices of securities of comparable publicly-traded packaging companies. The Company performed two market multiple calculations. First, the Company used a multiple of 2009 estimated Adjusted EBITDA of 6.0 based upon a peer group average multiple of 7.3 discounted 18%. Second, the Company used a multiple of 2010 estimated EBITDA of 5.6 based upon a peer group average multiple of 6.8 discounted 18%.
3. **Precedent transaction multiples** this method uses a multiple of Adjusted EBITDA calculated based upon the value of previous transactions in the packaging industry. The Company used a multiple of 7.0 based upon the average precedent transactions multiple of 7.7 discounted 9%.
4. **Quoted market prices for debt and equity securities** the Company used quoted market prices of its debt and equity securities as of September 30, 2009. In addition, the Company applied a control premium of 10%. The estimated control premium represents an incremental premium a buyer would be willing to pay to acquire a controlling, majority interest in the Company. In estimating the control premium, management principally considered the current market conditions and historical premiums paid in packaging industry acquisitions observed in the marketplace.

The Company's use of multiple valuation methods was consistent with the approach management used to determine its reorganization value for fresh-start accounting purposes. Since quoted market prices were available for its debt and equity securities following its emergence from Chapter 11, those values were added to the methods used by management to determine the Company's reorganization value. The Company updated the assumptions used in the above techniques to September 30, 2009. The Company believes that the combination of methods described above, weighted equally, provides a value representative of the fair value of the Company better than the use of a single technique at September 30, 2009.

In making the determination that goodwill was not impaired at September 30, 2009, the Company considered both qualitative and quantitative factors, including the effect of its recent emergence from bankruptcy and the limited volume of trading of its securities in the equity and debt markets.

The determination of estimated fair value requires the exercise of judgment and is highly sensitive to the Company's assumptions. The following table provides a summary of the impact that changes in the assumptions used at September 30, 2009, would have on the fair value of the Company's reporting unit.

Valuation Method	Assumption	Assumed Change	(In millions) Decrease in Fair Value
Discounted cash flow	Projected cash flows	10% decrease	\$ (5.7)
Discounted cash flow	Terminal value multiple	10% decrease	\$ (4.7)
Discounted cash flow	Discount rate	100 basis point increase	\$ (1.4)
2009 market multiples	Market multiple	10% decrease	\$ (5.7)
2010 market multiples	Market multiple	10% decrease	\$ (5.5)
Precedent transaction multiples	Market multiple	10% decrease	\$ (6.5)

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

As of September 30, 2009, a decrease of approximately \$2.1 million in the estimated fair value of the Company's reporting unit would have caused the Company to perform a Step 2 goodwill impairment analysis. If the Company is required to perform a Step 2 analysis in the future it may result in a material impairment charge.

Based upon the results of the interim impairment assessment as of September 30, 2009 the Company's does not believe that its goodwill was impaired. However, there can be no assurances that the Company will not be required to recognize an impairment of goodwill in the future due to market conditions or other factors related to the Company's performance. These market events could

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

include a decline over a period of time of the Company's stock price, a decline over a period of time in valuation multiples of comparable packaging companies, the lack of an increase in the Company's market price consistent with its peer companies or decreases in control premiums. A decline in the forecasted results in our business plan, such as changes in forecasted on-going profitability or capital expenditures or changes in our interest rates, could also result in an impairment charge. Recognition of an impairment of a significant portion of goodwill would negatively affect the Company's reported results of operations and total capitalization, the effect of which could be material and could have a negative impact on the Company's ability to raise capital on attractive terms.

The Company did not perform an impairment test of its indefinite-lived intangible asset as of September 30, 2009 since there were no triggering events that occurred during the three months ended September 30, 2009 that would cause the Company to believe that the fair value of its trade name has declined below its carrying value.

The following table presents a summary of goodwill and indefinite-lived intangible assets:

<i>(In thousands)</i>	Successor September 30, 2009	Predecessor December 31, 2008
Goodwill	\$ 117,313	\$ 148,813
Trade name	25,500	
Total	\$ 142,813	\$ 148,813

The following table presents a summary of finite-lived intangible assets:

<i>(In thousands)</i>	Estimated Life (in years)	Successor September 30, 2009		Net Book Value
		Gross Carrying Amount	Accumulated Amortization	
Technology	4 to 12	\$ 9,700	\$ 503	\$ 9,197
Leasehold interests	4	1,204	125	1,079
Total		\$ 10,904	\$ 628	\$ 10,276

Amortization expense was \$376 and \$628 for the three and five months ended September 30, 2009, respectively, and is included within cost of goods sold in the accompanying condensed consolidated statements of income.

The following table summarizes the expected amortization expense for finite-lived intangible assets:

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

(In thousands)

Three months ending December 31, 2009	\$ 378
2010	1,509
2011	1,509
2012	1,509
2013	909
After 2013	4,462
	\$ 10,276

11. Debt

In connection with the consummation of the Plan, on the Effective Date, the Company's existing revolving credit facility, the Senior Secured Super-Priority Debtor in Possession and Exit Credit Agreement was converted into an exit facility with substantially the same terms (the Exit Facility). The Exit Facility's scheduled expiration date is December 31, 2011. However, the Exit Facility may be terminated earlier in the case of an event of default. Events of default include, among other things, a failure to refinance the

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

Secured Notes (as defined below) at least 90 days prior to the scheduled expiration date of the Exit Facility, or a failure to deliver an unqualified audit opinion in connection with any year's audit which may take place if the Secured Notes are not refinanced prior to the issuance of the Company's SEC Form 10K for the year ended December 31, 2010 which is expected to be filed in March 2011. Also in connection with the consummation of the Plan, the Company and its lenders entered into Amendment No. 2 to the Exit Facility, primarily for the purposes of updating certain schedules to the Exit Facility and permitting the Company's Dutch subsidiary, Constar International Holland (Plastics) B.V., which is neither a party to nor a guarantor of the Credit Agreement, to enter into separate financing arrangements. The Exit Facility contains certain financial and non-financial covenants. The Company was in compliance with these covenants at September 30, 2009.

The Company's outstanding long-term debt at September 30, 2009 consists of \$220.0 million of Senior Secured Floating Rate Notes due February 15, 2012 (Secured Notes). The Secured Notes bear interest at the rate of three-month LIBOR plus 3.375% per annum. Interest on the Secured Notes is reset and payable quarterly. Pursuant to an interest rate swap executed in May 2005 with Citigroup Financial Products Inc., \$100.0 million face amount of the Secured Notes have an effective interest rate of 7.9%. The Secured Notes contain certain covenants. The Company was in compliance with these covenants at September 30, 2009.

In connection with the Company's reorganization and emergence from bankruptcy, on the Effective Date, all of the Company's Senior Subordinated 11% Notes Due 2012 were canceled and the related indenture was terminated. Pursuant to the Plan the holders of Class 4 Senior Subordinated Note Claims (as defined in the Plan) received ten shares of new Common Stock per one thousand dollars in face amount of the Senior Subordinated Notes. In addition, upon the adoption of fresh-start accounting, the Company adjusted the Secured Notes to fair value based upon their quoted market price. The Company currently expects to record accretion expense of approximately \$13.6 million in 2009, \$22.8 million in 2010, \$25.8 million in 2011 and \$3.5 million in 2012. For the three and five months ended September 30, 2009, the Company recorded \$5.1 million and \$8.4 million, respectively, of accretion expense which is included in interest expense in the accompanying condensed consolidated statements of operations.

A summary of short-term and long-term debt follows:

<i>(In thousands)</i>	Successor September 30, 2009	Predecessor December 31, 2008
Short-term:		
Exit Facility	\$ 12,588	\$
Revolver		20,000
	\$ 12,588	\$ 20,000
Long-term:		
Secured notes	\$ 162,667	\$ 220,000
Less current maturities		(220,000)
Long-term portion	\$ 162,667	\$

At September 30, 2009 and December 31, 2008, there was \$6.1 million and \$10.1 million outstanding under letters of credit, respectively.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)****12. Other Liabilities**

<i>(In thousands)</i>	Successor September 30, 2009	Predecessor December 31, 2008
Interest rate swap	\$ 7,170	\$ 8,512
Asset retirement obligations	4,210	3,665
Post-employment benefits	1,131	1,623
Deferred rent	880	3,435
Non-current liabilities of discontinued operations	900	773
Other	170	80
	\$ 14,461	\$ 18,088

13. Restructuring

On October 10, 2008, the Company executed a new four-year cold fill supply agreement (the *New Agreement*) with Pepsi-Cola Advertising and Marketing, Inc (*Pepsi*). Under the terms of the *New Agreement*, effective January 1, 2009, the Company anticipates an approximately 30% reduction in cold fill volume in 2009 as compared to 2008 with a mix shift towards fewer bottles and more preforms, but on improved economic terms. In conjunction with the signing of the *New Agreement*, on October 10, 2008 a committee of the Company's Board of Directors approved a plan of restructuring to reduce the Company's manufacturing overhead cost structure that involved the closure of two U.S. manufacturing facilities and a reduction of operations in four other U.S. manufacturing facilities. In addition, as a result of previously disclosed customer losses and a strategic decision to exit the limited extrusion blow-molding business the Company closed its manufacturing facility in Houston, Texas in May 2008. The Company will continue to service the Houston plant's PET business using existing assets at the Company's Dallas, Texas facility.

In connection with the restructuring actions described above (the *2008 Restructuring*), the Company expects to incur total charges of approximately \$9.0-\$10.0 million, depending on the Company's ability to enter into a sublease agreement for a leased facility. The total charges include (i) an estimated \$1.8 million related to costs to exit facilities, (ii) an estimated \$1.5 million related to employee severance and other termination benefits the majority of which was paid in the fourth quarter of 2008 and the remainder will be paid in 2009, and (iii) approximately \$6.3 million of accelerated depreciation and other non-cash charges. The Company's estimated future rental cost due under the current facility lease agreement has been reduced by the potential of a sublease agreement. If the Company is unable to negotiate a sublease, the estimated cash costs associated with the lease agreements, including executory and other exit costs, would be approximately \$1.1 million in 2009 and \$0.8 million in 2010.

The estimated annual cash savings as a result of reducing manufacturing and corporate overhead is expected to be approximately \$26-28 million as compared to 2008 levels, the majority of which has been realized during the nine months ended September 30, 2009. Based upon the Company's current estimates, the Company believes that the impact of the *New Agreement*, when combined with the annual cash overhead savings from the *2008 Restructuring*, will result in higher cash flows from operating activities, net of investing activities as compared to those realized from the *Pepsi* cold fill business in 2008. These restructuring actions are expected to be completed by the end of 2009.

In November of 2007, the Company terminated its agreement for the supply of bottles and preforms with its supplier in Salt Lake City. As a result, the Company recorded restructuring charges for the costs to remove its equipment from this location and for severance benefits that will be paid to terminated personnel. Expenditures related to this restructuring totaled approximately \$0.5 million in 2008. The customer sales

volume provided by the Salt Lake City supply agreement has been shifted to other production facilities.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

The following table presents a summary of the restructuring reserve activity:

<i>(In thousands)</i>	2007 Plan	Contract and Lease Termination Costs	2008 Plans	Other Costs	Total

Adjustments					
Balance, September 30, 2009 (Successor)	\$ 14	\$ 71	\$ 68	\$ 303	\$ 456

14. Commitments and Contingencies

As discussed in Note 1 Emergence from Voluntary Reorganization under Chapter 11 Proceedings in the notes to these Condensed Consolidated Financial Statements, on the Petition Date, Constar and the other Debtors filed voluntary petitions in the Bankruptcy Court seeking reorganization relief under the provisions of Chapter 11 of the Bankruptcy Code. The Chapter 11 Cases were jointly administered under the caption *In re Constar International Inc., et al.*, Chapter 11 Case No. 08-13432 (PJW). The Debtors emerged from Chapter 11 on May 29, 2009.

The Company and certain of its present and former directors, along with Crown Holdings, Inc., as well as various underwriters, have been named as defendants in a consolidated securities class action lawsuit filed in the United States District Court for the Eastern District of Pennsylvania, *In re Constar International Inc. Securities Litigation* (Master File No. 03-CV-05020). This action consolidates previous lawsuits, namely *Parkside Capital LLC v. Constar International Inc et al.* (Civil Action No. 03-5020), filed on September 5, 2003 and *Walter Frejek v. Constar International Inc. et al.* (Civil Action No. 03-5166), filed on September 15, 2003. In connection with the Company's emergence from Chapter 11 and in accordance with the Plan, all such claims are to be subordinated pursuant to Section 510(b) of the Bankruptcy Code and treated as equity interests. The Plan further provides that all pre-petition equity interests in Constar will be extinguished, as will any claims relating to, or arising in connection with, such equity interests (or the purchase or sale of such interests), including all indemnification and contribution obligations related to this action. Accordingly, the Company and the plaintiffs filed a joint stipulation to dismiss Constar from the action based on the Plan. This stipulation dismissing Constar from the action was approved by the District Court on November 4, 2009.

On October 8, 2008, Marshall Packaging Co. LLC filed a complaint in the Eastern District of Texas, C. A. No. 6:08cv394, against the Company, as well as certain bottled water companies, alleging infringement of U.S. Patent No. RE 38,770, entitled *Collapsible Container*, and seeking injunctive relief and monetary damages. The complaint alleged that the Company had infringed and was infringing the patent by making and selling certain beverage containers, but did not specifically identify the accused containers. In the third quarter of 2009, the Company entered into a settlement agreement with Marshall Packaging Co. LLC, the terms of which are confidential. The settlement did not have a material impact on the Company's financial position or results of operations.

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

The Company is subject to other lawsuits and claims in the normal course of business and related to businesses operated by predecessor corporations. Management believes that the ultimate liabilities resulting from these lawsuits and claims will not materially impact its results of operations or financial position.

Certain judgments against the Company would constitute an event of default under the Company's Exit Facility. See Note 11 in Item 8 Financial Statements and Supplementary Data in our Form 10-K filed on March 31, 2009 for additional information.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

The Company is in discussions with the Italian tax authorities regarding the tax returns filed by the Company's Italian subsidiary for fiscal years 2002-2004. The Company is negotiating to reach an out of court settlement, but there can be no assurance that any such settlement will be reached. The Company estimates its maximum exposure, including interest and penalties, at approximately \$3.5 million. The Company intends to defend against this matter vigorously. The Company has established a reserve, including estimated penalties and interest, of \$0.9 million at September 30, 2009, and December 31, 2008, in respect to this matter. These reserves are included in non-current liabilities of discontinued operations on the condensed consolidated balance sheets.

Constar has received requests for information or notifications of potential responsibility from the Environmental Protection Agency (EPA), and certain state environmental agencies for certain off-site locations. Constar has not incurred any significant costs relating to these matters. Constar has been identified by the Wisconsin Department of Natural Resources as a potentially responsible party at two adjacent sites in Wisconsin and agreed to share in the remediation costs with one other party. Remediation is ongoing at these sites. Constar has also been identified as a potentially responsible party at the Bush Valley Landfill site in Abingdon, Maryland and entered into a settlement agreement with the EPA in July 1997. The activities required under that agreement are ongoing. Constar's share of the remediation costs has been minimal thus far and no accrual has been recorded for future remediation at these sites.

The Company's Netherlands facility has been identified as impacting soil and groundwater from volatile organic compounds at concentrations that exceed those permissible under Dutch law. The main body of the groundwater plume is beneath the Netherlands facility but it also appears to extend from an up gradient neighboring property. The Company commenced trial remediation in 2007. The Company records an environmental liability on an undiscounted basis when it is probable that a liability has been incurred and the amount of the liability is reasonably estimable. The Company has recorded an accrual as of September 30, 2009 and December 31, 2008, of \$0.2 million for estimated costs associated with completing the required remediation activities. As more information becomes available relating to what additional actions may be required at the site, this accrual may be adjusted as necessary, to reflect the new information. There are no other accruals for environmental matters.

Environmental exposures are difficult to assess for numerous reasons, including the identification of new sites, advances in technology, changes in environmental laws and regulations and their application, the scarcity of reliable data pertaining to identified sites, the difficulty in assessing the involvement and financial capability of other potentially responsible parties and the time periods over which site remediation occurs. It is possible that some of these matters, the outcomes of which are subject to various uncertainties, may be decided in a manner unfavorable to Constar. However, management does not believe that any unfavorable decision will have a material adverse effect on our financial position, cash flows or results of operations.

15. Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) consisted of the following:

<i>(In thousands)</i>	Successor September 30, 2009	Predecessor December 31, 2008
Pension and post-retirement liabilities, net of tax	\$	\$ (49,066)
Cash flow hedge, net of tax	238	(8,512)
Foreign currency translation adjustments	553	7,261
Accumulated other comprehensive income (loss)	\$ 791	\$ (50,317)

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

The components of comprehensive income (loss) were as follows:

<i>(In thousands)</i>	Successor Three Months Ended September 30, 2009	Predecessor Three Months Ended September 30, 2008
Net loss	\$ (10,206)	\$ (14,216)
Foreign currency translation adjustments	1,042	(1,631)

Comprehensive income (loss)	\$ (6,763)	\$ 111,934	\$ (30,941)

16. Stockholders Equity

In connection with the Company's reorganization and emergence from bankruptcy, all existing shares of the Predecessor Company's capital stock were canceled. In addition, in the same connection, all of the Company's Senior Subordinated 11% Notes Due 2012 were canceled and the related indenture was terminated (except for purposes of allowing the noteholders to receive distributions under the Plan). The holders of the Class 4 Senior Subordinated Note Claims (as defined in the Plan) received ten shares of new Common Stock per one thousand dollars in face amount of the Senior Subordinated Notes.

Pursuant to the Restated Certificate of Incorporation of the Company, 75 million shares of common stock in the Successor Company are authorized for issuance, par value \$0.01 per share, of which 1.75 million shares were issued pursuant to the Plan. In addition, 194 thousand shares were reserved for issuance under equity incentive plans. The allocation and grant terms will be set by the Compensation Committee of the Board of Directors. No awards were granted under the management incentive plan as of September 30, 2009. See Note 26 Subsequent Event .

17. Stock-Based Compensation

Prior to the Effective Date, the Company maintained stock-based incentive compensation plans for employees of the Company and stock-based compensation plans for directors. On the Effective Date, the following incentive plans were terminated (and any and all awards granted under such plans were terminated and will no longer be of any force or effect): (1) the 2007 Non-Employee Directors Equity Incentive Plan; (2) the 2007 Stock-Based Incentive Compensation Plan; (3) Constar International Inc. Non-Employee Directors Equity Incentive Plan; (4) Constar International Inc. 2002 Stock-Based Incentive Compensation Plan; (5) the Amended and Restated Constar International Inc. Supplemental Executive Retirement Plan and (6) the Amended and Restated Constar International Inc. Annual Incentive and Management Stock Purchase Plan, which was replaced by the AIP on May 26, 2009. On the Effective Date, all outstanding equity awards under the above plans were cancelled in accordance with the terms of the Plan. See Note 26 Subsequent Event .

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)****18. Earnings (Loss) Per Common Share**

Basic earnings (loss) per common share is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per common share (Diluted EPS) is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period after giving effect to all potentially dilutive securities outstanding during the period.

The Company's potentially dilutive securities consist of potential common shares related to our restricted stock. Diluted EPS includes the impact of potentially dilutive securities except in periods in which there is a loss because the inclusion of the potential common shares would be anti-dilutive. There were no potentially dilutive securities issued or outstanding for the three months and five months ended September 30, 2009. There were no potentially dilutive securities outstanding for the four months ended April 30, 2009, due to the cancellation of all outstanding awards pursuant to the Plan.

Diluted EPS excludes approximately 0.5 million and 0.6 million shares of restricted stock for the three months and nine months ended September 30, 2008, respectively, due to losses for those periods.

19. Pension and Other Postretirement Benefits**Pension Benefits**

The components of net periodic pension cost were as follows:

<i>(In thousands)</i>	Successor Three Months Ended September 30, 2009			Predecessor Three Months Ended September 30, 2008		
	U.S.	Europe	Total	U.S.	Europe	Total
	Service cost	\$ 133	\$ 128	\$ 261	\$ 164	\$ 178
Interest cost	1,352	152	1,504	1,349	174	1,523
Expected return on plan assets	(1,136)	(139)	(1,275)	(1,495)	(229)	(1,724)
Amortization of net loss				597	58	655
Amortization of prior service cost				15	(11)	4
Curtailement				21		21
Total pension expense	\$ 349	\$ 141	\$ 490	\$ 651	\$ 170	\$ 821

<i>(In thousands)</i>	Successor Five Months Ended September 30, 2009			Predecessor Four Months Ended April 30, 2009			Predecessor Nine Months Ended September 30, 2008		
	U.S.	Europe	Total	U.S.	Europe	Total	U.S.	Europe	Total
	Service cost	\$ 222	\$ 222	\$ 444	\$ 207	\$ 168	\$ 375	\$ 534	\$ 534
Interest cost	2,253	265	2,518	1,752	171	1,923	3,887	520	4,407

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

Expected return on plan assets	(1,893)	(243)	(2,136)	(1,504)	(168)	(1,672)	(4,611)	(687)	(5,298)
Amortization of net loss				1,585	106	1,691	1,567	173	1,740
Amortization of prior service cost				18	(12)	6	46	(31)	15
Curtailement							21		21
Total pension expense	\$ 582	\$ 244	\$ 826	\$ 2,058	\$ 265	\$ 2,323	\$ 1,444	\$ 509	\$ 1,953

In accordance with the adoption of fresh-start accounting, the Company remeasured its pension liabilities as of April 30, 2009, resulting in a net reorganization gain of \$7,250. In addition, pursuant to the Plan, the Supplemental Executive Retirement Plan was terminated. In connection with such termination, four executives received lump sum payments in an aggregate total of \$318.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

Weighted-average assumptions used in determining the pension benefit obligations at April 30, 2009, and December 31, 2008, were as follows:

	Successor 2009	Predecessor 2008
<u>U.S.</u>		
Discount rate	7.25%	6.40%
Rate of compensation increase	3.00%	3.00%
<u>U.K.</u>		
Discount rate	6.50%	6.00%
Rate of compensation increase	4.00%	4.00%
<u>Holland</u>		
Discount rate	4.00%	4.00%
Rate of compensation increase	3.50%	3.50%

The Company estimates that its expected total contributions to its pension plans for 2009 will be approximately \$3.5 million of which \$2.6 million was paid during the nine months ended September 30, 2009.

Other Postretirement Benefits

The components of other postretirement benefits expense were as follows:

<i>(In thousands)</i>	Successor Three Months Ended September 30, 2009	Predecessor Three Months Ended September 30, 2008
Interest cost	\$ 87	\$ 92
Amortization of net loss		245
Amortization of prior service cost		(77)
Total other postretirement benefits expense	\$ 87	\$ 260

<i>(In thousands)</i>	Successor Five Months Ended September 30, 2009	Predecessor Four Months Ended April 30, 2009	Predecessor Nine Months Ended September 30, 2008
Interest cost	\$ 145	\$ 109	\$ 275
Amortization of net loss		261	734
Amortization of prior service cost		(102)	(230)

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

Total other postretirement benefits expense	\$	145	\$	268	\$	779
---	----	-----	----	-----	----	-----

In accordance with the adoption of fresh-start accounting, the Company remeasured its postretirement liabilities as of April 30, 2009, resulting in a net reorganization gain of \$224.

The health care accumulated postretirement benefit obligation at April 30, 2009 was determined using a health care cost trend rate of 12.0%, decreasing to 6.5% in 2020. The health care accumulated postretirement benefit obligation at December 31, 2008 was determined using a health care cost trend rate of 12.0%, decreasing to 6.5% in 2019. The discount rate was 7.00% and 6.65% for April 30, 2009 and December 31, 2008, respectively.

20. Income Taxes

The Successor Company recorded a benefit from income taxes of \$3.6 million for the three months ended September 30, 2009. The Company recorded a provision for income tax expense of \$33.4 million for the nine months ended September 30, 2009 (\$37.8 million for the four months of the Predecessor ended April 30, 2009 and \$4.4 million benefit for the five months of the Successor ended September 30, 2009). Substantially all of the expense/benefit is the result of fresh-start accounting adjustments. The Company has a net deferred tax liability at September 30, 2009 of \$33.5 million principally in relation to the excess of the basis of its assets pursuant to fresh-start accounting over their historic tax bases.

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

The gain realized by the Company upon the cancellation of indebtedness in the bankruptcy proceeding should be excluded from federal and state income taxation. However, the Company expects to be required to reduce its net operating loss (NOL) carryover tax attributes by \$92.0 million in order to avail itself of that exclusion. The Company anticipates that its NOL carryover after this reduction will be approximately \$25 \$30 million.

Total unrecognized income tax benefits as of September 30, 2009 and December 31, 2008 were \$0.7 million and are included in other liabilities on the condensed consolidated balance sheets. In addition, the Company had accrued approximately \$0.2 million for estimated penalties and interest on uncertain tax positions as of September 30, 2009 and December 31, 2008. The Company believes that it has adequately provided for any reasonably foreseeable resolution of any tax disputes, but will adjust its reserves as events require. To the extent that the ultimate results differ from the original or adjusted estimates of the Company, the effect will be recorded in the provision for income taxes.

21. Derivative Financial Instruments

Effective January 1, 2009, the Company implemented the new disclosure provisions of ASC 815, *Derivatives and Hedging* . The new guidance enhances the previously required disclosures to provide users of financial statements with a better understanding of the objectives of a company s derivative use and the risks managed.

The Company may enter into a derivative instrument by approval of the Company s executive management based on guidelines established by the Company s Board of Directors. Market and credit risks associated with this instrument are regularly reviewed by the Company s executive management.

The Company is exposed to various risks relating to its ongoing operations. The primary risk managed by using derivative instruments is interest rate risk. An interest rate swap was entered into to manage interest rate risk associated with the Company s variable-rate debt. The objective and strategy for undertaking this interest rate swap was to hedge the exposure to variability in expected future cash flows as a result of the floating interest rate associated with the Secured Notes. The notional amount of the interest rate swap is \$100.0 million. By entering into the interest rate swap agreement, the Company effectively exchanged its floating interest rate of LIBOR plus 3.375% for a fixed rate of 7.9% over the remaining term of the underlying notes. The Company accounts for this interest rate swap as a cash flow hedge and assumes that there is no ineffectiveness in the hedging relationship. Consequently, changes in the fair value of the interest rate swap are recognized entirely in other comprehensive income.

As of September 30, 2009, the administrative agent for the Exit Facility required the Company to fully collateralize the swap liability with cash in the amount of \$7.6 million. This cash collateral is presented as restricted cash on the condensed consolidated balance sheet as of September 30, 2009.

The fair value of derivative contracts is summarized in the following table:

<i>(In thousands)</i> Derivatives designated as hedging	Balance Sheet Location	Derivative Liabilities	
		Fair Value	
instruments under Statement 133		September 30, 2009	December 31, 2008
Interest rate swap	Other liabilities	\$ 7,170	\$ 8,512

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

The effect of derivative contracts on the statement of operations and on accumulated other comprehensive income (loss) is summarized in the following tables:

	Successor Three Months Ended September 30, 2009		
	Amount of Gain or (Loss) Recognized in OCI on Derivative (Effective Portion)	Location of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	Amount of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)

	Amount of Gain or (Loss) Recognized in OCI on Derivative (Effective Portion)	Location of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	Amount of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)
<i>(In thousands)</i>			
Derivatives in Statement 133			
cash flow hedging relationships			
Interest rate swap	\$ 951	Interest expense	\$ 974

The Company expects to record reclassifications from accumulated other comprehensive loss to earnings within the next twelve months in the amount of \$4,079.

22. Fair Value Measurements

Financial assets and liabilities measured at fair value on a recurring basis as of September 30, 2009 are summarized in the following table by the type of inputs applicable to the fair value measurements.

<i>(In thousands)</i>	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Liabilities				
Interest rate swap	\$	\$ 7,170	\$	\$ 7,170

Table of Contents**Constar International Inc.****Notes to Condensed Consolidated Financial Statements (Continued)****(Dollar and share amounts in thousands, unless otherwise noted)****(Unaudited)**

The fair value measurements of the Company's interest rate swap is a model-derived valuation as of a given date in which all significant inputs are observable in active markets including certain financial information and certain assumptions regarding past, present and future market conditions, such as LIBOR yield curves. The Company does not believe that changes in the fair value of its interest rate swap will materially differ from the amounts that could be realized upon settlement or maturity.

The carrying values of cash and cash equivalents, accounts receivable, accounts payable and short-term debt approximate fair value. The fair value of debt is based on quoted market prices. The carrying value and fair value of the Company's Secured Notes as of September 30, 2009 was \$162,667 and \$184,800, respectively.

23. Other Income (Expense)

Other income (expense) consisted of the following:

<i>(In thousands)</i>	Successor Three Months Ended September 30, 2009	Predecessor Three months Ended September 30, 2008

25. Condensed Consolidating Financial Information

Each of the Company's domestic and United Kingdom restricted subsidiaries guarantees the Secured Notes, on a senior secured basis. Prior to the cancellation of the Senior Subordinated Notes pursuant to the Plan, the Company's domestic and United Kingdom restricted subsidiaries also guaranteed the Subordinated Notes, on an unsecured senior subordinated basis. The guarantor subsidiaries are 100% owned and the guarantees are made on a joint and several basis and are full and unconditional. The following guarantor and non-guarantor condensed financial information gives effect to the guarantee of the Secured Notes by each of our domestic and United Kingdom restricted subsidiaries. In connection with the 2005 issuance of the Secured Notes, the Company's United Kingdom subsidiary became a guarantor of the Subordinated Notes on an unsecured senior subordinated basis along with the Company's domestic subsidiaries. The following condensed consolidating financial statements are required in accordance with Regulation S-X Rule 3-10.

Constar International Inc.

Notes to Condensed Consolidated Financial Statements (Continued)

(Dollar and share amounts in thousands, unless otherwise noted)

(Unaudited)

26. Subsequent Event

In connection with the Plan, the Company was authorized without further shareholder approval to issue 194 thousand shares of common stock to employees and directors. Two-thirds of this amount, or 130 thousand shares, were to be in the form of stock options. On November 5, 2009 the Company's stockholders approved the Constar International Inc. 2009 Equity Compensation Plan (the 2009 Plan). The purpose of the 2009 Plan is to allow the Company to issue such 130 thousand shares as either stock options or as performance shares. The Company will issue such 130 thousand shares under the 2009 Plan, and not under the authority provided by the Plan. The 2009 Plan is administered by the Compensation and Benefits Committee of the Board of Directors, which determines all terms of the awards.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Overview**

The Company is a manufacturer of polyethylene terephthalate (PET) plastic containers for food and beverages. In addition, the Company produces plastic closures representing approximately 5% of consolidated net revenues for the first nine months of 2009. Approximately 80% of the Company's consolidated net revenues for the first nine months of 2009 were generated in the United States, with the remainder attributable to the Company's European operations. During the third quarter of 2009, Pepsi accounted for approximately 30% of the Company's consolidated net revenues and the Company's top ten customers accounted for an aggregate of approximately 63% of the Company's consolidated net revenues. Approximately 67% of the Company's consolidated net revenues in the first nine months of 2009 related to conventional PET containers which are primarily used for carbonated soft drinks (CSD) and bottled water. Approximately 28% of the Company's consolidated net revenues in the first nine months of 2009 related to custom PET containers that are used in such packaging applications as hot-filled beverages, food, household chemicals, beer and flavored alcoholic beverages. Consolidated PET volume declined 15.8% in the first nine months of 2009 as compared to the same period last year.

Consolidated conventional unit volume declined by 17% for the nine months ended September 30, 2009 as compared to the same period last year. The decline was primarily driven by lower volume in the United States due to reduced volume under the new Pepsi cold-fill agreement that went into effect on January 1, 2009, the continued economic impact on the convenience and gas distribution channel which is the main distribution channel for our single serve beverage containers, and a further shift to in-house blow-molding of water containers. The Company expects that water bottlers will continue to shift towards manufacturing their own single serve water bottles. The Company believes that this trend is reaching the end of its cycle, with the majority of single serve water bottles now being produced in-house. Water bottle revenue is expected to represent approximately 6% of the Company's 2009 consolidated revenue. The Company has also experienced certain CSD customers shifting to self-manufacturing of bottles with the Company supplying the requisite preform requirements. The potential exists for additional movement toward selective self-manufacturing of CSD packages by large beverage companies. However, CSD self-manufacturing infrastructure costs are much higher than what is required for water because of the complexity associated with a greater diversity of product types. Thus, the Company believes that the potential exists for a transition over time at selected locations where merchant suppliers transportation costs are high, and where large volume, low complexity and space to add blow-molding equipment exist along with the availability of capital. The Company believes that in most cases, customers will continue to purchase water and CSD preforms to support their in-house blow-molding operations from merchant suppliers. The Company plans to continue its efforts to offset the potential financial impact on the Company of customers blowing their own bottles through cost reductions, plant consolidations, and retaining the replacement preform volume at acceptable margins. As a result of the aforementioned trend, the Company's conventional volume and sales mix has shifted from bottles to preforms. For the nine months ended September 30, 2009, preforms represented approximately 49% of consolidated conventional unit volume as compared to 29% during the same period last year.

The Company is also a producer of higher profit custom PET products that are used in such packaging applications as hot-filled beverages, food, household chemicals, beer and flavored alcoholic beverages, most of which require containers with special performance characteristics. On average, the margins in the custom segment are higher than the conventional segment. In addition, proprietary technology and product differentiation provide higher margins than custom products produced from commonly available technology. The Company's strategy is to increase its presence in this higher profit and growth segment of the market. For custom products that require oxygen barrier technology, the Company believes its portfolio of oxygen scavenging technologies (Oxbar®, MonOxbar® and DiamondClear®) are the best performing oxygen barrier technologies in the market today. The key Oxbar patents have expired. The Company believes that DiamondClear containers provide superior clarity to MonOxbar containers, and will continue to provide the Company with a competitive advantage even as the Oxbar patents expire. On July 22, 2009, the Company completed an additional Food and Drug Administration Food Contact Notification for DiamondClear that expands the potential applications of DiamondClear. The Company believes that there are significant growth opportunities for the conversion of glass and metal containers to PET containers for small sized bottled teas, energy drinks, flavored alcoholic beverages and various food applications. Approximately 28% of the Company's consolidated net revenues in the first nine months of 2009 related to custom PET containers. Custom unit volume decreased 11.1% in the nine months ended September 30, 2009 as compared to the same period in

Table of Contents

2008. The decline in custom volume was driven by a customer switching its product formulation from hot-fill to cold-fill. Had this change not occurred, custom unit volume would have increased 10.0% for the nine months of 2009 as compared to the same period in 2008. The Company was informed by one of its custom customers, accounting for approximately 5.6% of consolidated net revenues for the nine months ended September 30, 2009, that it will not renew its contract which expires on December 1, 2009. This contract was for preforms used for aseptically filled juice bottles, and this contract generated significantly lower gross profit than the average of the Company's remaining custom volume.

In negotiations with certain customers for the continuation and extension of supply agreements, the Company has historically agreed to price concessions. In 2009, the Company currently expects to achieve a net positive impact of price increases of between \$2 million and \$3 million as compared to 2008.

The typical term for the Company's customer supply contracts is three to four years. Thus, while there may be variations from year to year, in any given year between 25-35% of our customer contracts may be scheduled to expire. Customers often put such contracts out for competitive bidding, which means that the Company may not retain the business, or may be forced to make price concessions in order to retain the business.

The Company believes that it will continue to face several sources of pricing pressure. One source is customer consolidation. When customers aggregate their purchasing power by combining their operations with other customers or purchasing through buying cooperatives, the profitability of the Company's business tends to decline. The Company will negotiate aggressively and seek to minimize the impact of customer consolidation. Another source of pricing pressure may come as a result of water and CSD customers moving towards self-manufacturing of bottles which will result in increasing available industry capacity. In addition, contractual provisions may permit customers to terminate contracts if the customer receives an offer from another manufacturer that the Company chooses not to match. The Company is continuing to seek to remove, or lessen the impact of, these provisions in all new contracts and contract renewals.

The primary raw material and component cost of the Company's products is PET resin, which is a commodity available globally. The price of PET resin is subject to frequent fluctuations as a result of raw material costs, overseas markets, PET production capacity and seasonal demand. Substantially all of the Company's sales are made pursuant to mechanisms that allow for the pass-through of changes in the price of PET resin to its customers.

Chapter 11 Proceedings

Constar emerged from Chapter 11 on May 29, 2009. See Note 1 – Emergence from Voluntary Reorganization under Chapter 11 Proceedings in the accompanying Condensed Consolidated Financial Statements for additional information.

Basis of Presentation

As of May 1, 2009, the Company adopted fresh-start accounting. The Company selected May 1, 2009 as the date to effectively apply fresh-start accounting based on the absence of any material contingencies at the May 4, 2009 confirmation hearing and the immaterial impact of transactions between May 1, 2009 and May 4, 2009. The adoption of fresh-start accounting resulted in the Company becoming a new entity for financial reporting purposes. Accordingly, the financial statements prior to May 1, 2009 are not comparable with the financial statements for periods on or after May 1, 2009. References to Successor or Successor Company refer to the Company on or after May 1, 2009, after giving effect to the cancellation of Constar common stock issued prior to the Effective Date, the issuance of new Constar common stock in accordance with the Plan, and the application of fresh-start accounting. References to Predecessor or Predecessor Company refer to the Company prior to May 1, 2009. See Note 4 – Fresh Start Accounting in the notes to these Condensed Consolidated Financial Statements for further details.

For discussions on the results of operations, the Company has combined the results of operations for the four months ended April 30, 2009 with the results of operations for the five months ended September 30, 2009. The combined periods have been compared to the three and nine months ended September 30, 2008. The Company believes that the combined financial results provide management and investors a more meaningful analysis of the Company's performance and trends for comparative purposes.

Table of Contents

In accordance with ASC 205-20, *Discontinued Operations*, the Company has classified the results of operations of its Italian operation as a discontinued operation in the condensed consolidated statements of operations for all periods presented. In addition, the assets and related liabilities of this entity have been classified as assets and liabilities of discontinued operations on the condensed consolidated balance sheets. See Note 6 *Discontinued Operations* in Notes to Condensed Consolidated Financial Statements for further discussion of the divestiture. Unless otherwise indicated, amounts provided throughout this report relate to continuing operations only.

The following discussion should be read in conjunction with the Condensed Consolidated Financial Statements and the accompanying Notes to the Condensed Consolidated Financial Statements in Part 1, Item 1 of this report.

Results of Operations**Net Sales**

PET containers can be sold either as finished bottles or as preforms. Preforms are test tube-shaped intermediate products in the bottle manufacturing process and are purchased by customers or other PET container manufacturers that operate equipment to convert preforms into bottles. Unit selling prices for preforms are lower than unit selling prices for corresponding finished bottles because of their lower added value. Historically, in the United States, the Company's customers typically purchased bottles while its European customers purchased preforms. Given the recent trend in the United States towards self manufacturing of CSD and water bottles, preform volume has increased. Preforms represented 27.5% of the conventional volume in the United States for the nine month period ended September 30, 2009 as compared to 4.4% for the same period last year.

From year to year, the composition of the Company's portfolio of products changes significantly due to changes in the Company's customer base and changes in its product mix. Greater proportions of larger, heavier or more specialized bottles will lead to higher net sales, even if total unit volumes remain stable.

Many of the Company's products have seasonal demand characteristics typically resulting in higher sales and profits in the second and third quarters compared to the first and fourth quarters. Sales of single service convenience beverage bottles are typically strongest in the summer months. Some potential high-growth product categories are developed first in conjunction with seasonal promotions and in stadium and special events markets. All of Constar's sales are subject to marketing actions taken by customers as they adjust their mix of product presentations.

As is common in its industry, the Company's contracts are generally requirements-based, granting it all or a percentage of the customer's actual requirements for a particular period of time, instead of a specific commitment of unit volume.

Period to period comparisons of net sales may not be meaningful indicators of actual performance because the effects of cost pass-through mechanisms are affected by the magnitude and timing of these price changes.

Three Months Ended September 30, 2009 and 2008

<i>(dollars in millions)</i>	Three months ended		Increase	%
	September 30,	2008	(Decrease)	Increase
	2009			(Decrease)
United States	\$ 121.9	\$ 184.7	\$ (62.8)	(34.0)%
Europe	35.6	45.4	(9.8)	(21.6)%
Total	\$ 157.5	\$ 230.1	\$ (72.6)	(31.6)%

The decrease in United States net sales in the third quarter of 2009 as compared to the third quarter of 2008 was driven primarily by lower volumes of \$38.8 million, the negative impact of the mix shift to preforms from bottles of \$6.8 million and the pass through

Table of Contents

of lower resin costs to customers accounting for approximately \$17.2 million of the sales decline. Total U.S. PET unit volume decreased 25.0% in 2009 from the third quarter of 2008. This decrease reflects a conventional unit volume decline of 27.8% and a custom unit volume decline of 16.5%. The decline in conventional volume is primarily due to reduced volume under the new Pepsi cold-fill agreement that went into effect on January 1, 2009, the continued movement of water bottlers to self-manufacturing and the impact of the general economic conditions in the United States. The decline in custom volume was driven by a customer switching its product formulation from hot-fill to cold-fill. Had this change not occurred, custom unit volume would have increased 5.8% and conventional unit volume would have decreased by 35.3% in the third quarter of 2009 as compared to the third quarter of 2008.

The decrease in European net sales in the third quarter of 2009 was primarily due to a weakening of the British Pound and Euro against the U.S. Dollar of approximately \$5.1 million, the pass through of lower resin costs to customers accounting for approximately \$2.7 million and a volume and mix decline of \$1.7 million. European PET volume increased 1.8% while closure volume decreased 14.6% in the third quarter of 2009 as compared to the same period last year.

Gross Profit

Cost of products sold includes raw material costs, principally PET resin, other direct and indirect manufacturing costs and shipping and handling costs. PET resin is the largest component of cost of products sold. The price the Company pays for PET resin is subject to frequent fluctuations resulting from cost changes in the raw materials for PET, which are affected by prices of oil and its derivatives in the United States and overseas markets, normal supply and demand influences, and seasonal demand effects. Direct and indirect manufacturing costs include labor costs, electricity and other utilities, product handling and storage costs, maintenance expense and other fixed and variable expenses required to operate the Company's plants. The Company's cost of products sold also includes expenses for the engineering, production control and manufacturing administration activities that support plant operations.

Substantially all of the Company's sales are made pursuant to mechanisms that allow the Company to pass through changes in resin prices to its customers. In addition, the Company has the ability to pass through certain changes in transportation and energy costs on the majority of its volume under contract.

Period to period comparisons of gross profit and gross profit as a percentage of net sales may not be meaningful indicators of actual performance because the effects of the pass-through mechanisms are affected by the magnitude and timing of the adjustments. For example, assuming gross profit is a constant, when pass-through related costs increase, the Company's net sales will increase as a result of the costs passed through to customers, and gross profit as a percent of net sales will decline. The opposite is true during periods of decreasing costs; the Company's net sales will be lower causing gross profit as a percent of net sales to increase.

Important determinants of profitability are pricing, volume, product mix, and manufacturing costs. Volume is significant because the capital intensity of PET bottle manufacturing and the highly automated manufacturing process make fixed overhead costs a high percentage of cost of products sold excluding raw materials. Constar's various products have widely different proportions of variable costs in relation to fixed cost because of their different sizes and weights and because of the different technologies and machine types used to manufacture them. This results in significant differences in the volume effect on profitability for different products. Generally, larger, heavier, and more technologically specialized bottles have higher overhead absorption rates, and therefore have proportionately greater effect on gross profit when volumes vary from period to period. Although resin pass-through mechanisms can generally protect profits from short term changes in the market price for resin, it is largely the competitive conditions in the market for the Company's products that ultimately determine the selling prices for its products.

Also important to the Company's profitability is its ability to operate its plants and distribution system efficiently. Constar's ability to operate equipment at high output levels and with low unscheduled downtime affects its profitability directly as a result of labor efficiency. In addition, the Company may incur additional freight charges to meet commitments to its customers if product must be shipped from more distant plants due to unscheduled downtime. The Company ships mostly full truckload quantities to its customers using commercial carriers.

Table of Contents

<i>(dollars in millions)</i>	Three months ended		Increase (Decrease)
	September 30, 2009	2008	
United States	\$ 2.6	\$ 6.5	\$ (3.9)
Europe	2.0	(1.4)	3.4
Total	\$ 4.6	\$ 5.1	\$ (0.5)
Percent of net sales	2.9%	2.2%	

In the United States, the decline in gross profit for the three months ended September 30, 2009 is primarily due to the impact of reduced sales volume of \$11.3 million, increased depreciation expense of \$4.7 million, and other miscellaneous cost increases, offset in part by cost reductions from the Company's restructuring programs and increased prices of \$7.4 million, reduced utility and transportation costs of \$3.8 million, and the elimination of the negative impact of one-time adjustments of \$1.2 million that were recorded in 2008. During the three months ended September 30, 2009, the Company accelerated the depreciation on idled machinery and equipment resulting in a non-recurring charge of \$2.0 million. The remainder of the increase in depreciation was primarily due to the revaluation of the Company's assets as a result of its adoption of fresh-start accounting.

The gross profit improvement in Europe was driven primarily by increased volume of \$1.0 million and reduced energy and other manufacturing costs of \$1.7 million.

Selling and Administrative Expenses

Selling and administrative expense includes compensation and related expenses for employees in the selling and administrative functions as well as other operating expenses not directly related to manufacturing or research, development and engineering activities. It does not include depreciation and amortization charges.

Selling and administrative expenses decreased \$1.1 million in the third quarter of 2009 as compared to the third quarter of 2008 driven primarily by reduced payroll expenses of \$0.5 million, reduced expenditures for outside consultants of \$0.4 million and reduced travel and entertainment expenses of \$0.2 million.

Research and Technology Expenses

Research and technology expenses, which include engineering and development costs related to developing new products and designing significant improvements to existing products, are expensed as incurred. Research and technology expenses were \$1.9 million in the third quarter of 2009 and \$1.8 million in the third quarter of 2008.

Provision for Restructuring

Restructuring charges were \$0.8 million for the third quarter of 2009 compared to \$1.2 million in the third quarter of 2008. The restructuring charges recorded in the third quarter of 2009 primarily relate to the restructuring actions taken due to the impact of the new Pepsi cold-fill agreement, the shutdown of the Company's Cheraw, South Carolina facility in August 2009 and the 2008 shutdown of the Company's Houston, Texas facility as a result of previously disclosed customer losses and a strategic decision to exit the Company's limited extrusion blow-molding business. The restructuring charges in 2009 consist primarily of facility exit costs. See Note 13 Restructuring in Notes to the accompanying Condensed Consolidated Financial Statements for additional information.

Table of Contents**Interest Expense**

Interest expense decreased \$1.0 million to \$8.6 million in the third quarter of 2009 from \$9.6 million in the third quarter of 2008 primarily due to the conversion of the Company's Senior Subordinated Notes of \$175 million to common stock as part of the Company's Plan which reduced interest expense by approximately \$4.8 million and lower average borrowings under the Company's credit facility of \$14.5 million. This was offset in part by the non-cash accretion of \$5.1 million of the fair market value of the Company's Senior Secured Floating Rate Notes to their face value at maturity and increased interest rates under the Company's credit facility.

Reorganization Items, net

During the third quarter of 2009, the Company incurred certain professional fees and other expenses directly associated with the bankruptcy proceedings. In addition, the Company recorded a gain on the conversion of the Senior Subordinated Notes to common stock and the net impact of fresh-start accounting adjustments as reorganization items. See Note 4 – Fresh Start Accounting to the Condensed Consolidated Financial Statements for further discussion of reorganization items.

Other Income (Expense), net

Other income (expense), net primarily includes gains and losses on foreign currency transactions including the impact of currency fluctuations on intra-company loan balances, royalty income and expense and interest income.

Other income (expense), net was \$1.8 million in the third quarter of 2009 compared to \$2.1 million in the third quarter of 2008. The net expense in each period primarily resulted from the negative impact of foreign currency on the translation of intra-company balances and reduced royalty income.

Provision for Income Taxes

In the third quarter of 2009, the Company recorded a benefit from income taxes related to continuing operations of \$3.6 million compared to a benefit from income taxes of \$0.1 million in the third quarter of 2008, primarily as a result of the adoption of fresh-start accounting. The loss from continuing operations before taxes was \$13.7 million in the third quarter of 2009 compared to losses of \$14.3 million in the third quarter of 2008.

Total unrecognized income tax benefits as of September 30, 2009 and December 31, 2008 were \$0.7 million and are included in other liabilities on the condensed consolidated balance sheets. In addition, the Company had accrued approximately \$0.2 million for estimated penalties and interest on uncertain tax positions as of September 30, 2009 and December 31, 2008. The Company believes that it has adequately provided for any reasonably foreseeable resolution of any tax disputes, but will adjust its reserves if events so dictate. To the extent that the ultimate results differ from the original or adjusted estimates of the Company, the effect will be recorded in the provision for income taxes.

Nine Months Ended September 30, 2009 and 2008**Net Sales**

<i>(dollars in millions)</i>	Nine months ended		Increase (Decrease)	% Increase (Decrease)
	September 30, 2009	September 30, 2008		
United States	\$ 397.2	\$ 544.8	\$ (147.6)	(27.1)%
Europe	98.7	143.0	(44.3)	(31.0)%
Total	\$ 495.9	\$ 687.8	\$ (191.9)	(27.9)%

The decrease in United States net revenues for the nine months ended September 30, 2009 as compared to the same period in 2008 was driven primarily by lower volumes of \$76.5 million, the negative impact of a mix shift from bottles to preforms of approximately \$33.0 million and the pass through of lower resin costs to customers of approximately \$39.8 million. Total U.S. PET unit volume decreased 20.2% for the nine months ended September 30, 2009 as compared to the same period in 2008. This decrease reflects a conventional unit volume decline of 23.2% and a

custom unit volume decline of 11.1%. The decline in conventional volume

Table of Contents

is primarily due to reduced volume under the new Pepsi cold-fill agreement that went into effect on January 1, 2009, the continued movement of water bottlers to self-manufacturing and the impact of the general economic condition in the United States. The decline in custom volume was driven by a customer switching its product formulation from hot-fill to cold-fill. Had this change not occurred, custom unit volume would have increased 10% and conventional unit volume decreased by 30.4% for the nine months ended September 30, 2009 as compared to the nine months ended September 30, 2008.

The decrease in European net revenues for the nine months ended September 30, 2009 as compared to the same period in 2008 was primarily due to a weakening of the British Pound and Euro against the U.S. Dollar of \$24.4 million, a decrease in total unit volume and negative product mix of \$16.4 million and the pass through of lower resin costs to customers of \$3.3 million. European PET volume decreased 0.4% and closure volume decreased 18.7% in the nine months ended September 30, 2009 as compared to the same period last year.

Gross Profit

<i>(dollars in millions)</i>	Nine months ended		Increase (Decrease)
	2009	September 30, 2008	
United States	\$ 27.3	\$ 27.9	\$ (0.6)
Europe	5.2	1.4	3.8
Total	\$ 32.5	\$ 29.3	\$ 3.2
Percent of net sales	6.6%	4.3%	

The decrease in gross profit in the United States for the nine months ended September 30, 2009 as compared to the nine months ended September 30, 2008 primarily reflects the impact of reduced volume under the new Pepsi agreement and other sales declines of \$28.0 million, offset in part by the net impact of the Company's restructuring programs and price increases of \$25.8 million, a \$1.6 million impact due to a non-cash fresh-start accounting adjustment that increased the opening inventory of the Successor company, and other cost increases. Gross profit was also reduced by increased depreciation expense of \$5.3 million. During the nine months ended September 30, 2009, the Company accelerated the depreciation on idled machinery and equipment resulting in a non-recurring charge of \$2.0 million. The remainder of the increase in depreciation was primarily due to the revaluation of the Company's assets as a result of its adoption of fresh-start accounting. This decrease in gross profit was offset in part by reduced energy and transportation costs of \$9.2 million and a non-recurring decrease in employee benefit costs of \$2.3 million.

The increase in gross profit in Europe for the nine months ended September 30, 2009 as compared to the same period in 2008 was driven primarily by increased volume of \$1.0 million and reduced energy and other manufacturing costs of \$1.7 million and lower depreciation expense of \$1.1 million.

Selling and Administrative Expenses

Selling and administrative expenses decreased \$2.5 million, or 14%, to \$15.0 million for the nine months ended September 30, 2009 from \$17.5 million for the nine months ended September 30, 2008. Due to the Company's restructuring programs, payroll expense has been reduced by \$1.4 million which has been offset by an increase in the current year bonus accrual of \$0.8 million. This decrease also reflects a \$1.5 million decrease in legal and other professional fees and a \$0.7 million decrease in travel and entertainment expenses.

Research and Technology Expenses

Research and technology expenses, which include engineering and development costs related to developing new products and designing significant improvements to existing products, are expensed as incurred. Research and technology expenses were \$5.8 million for the nine months ended September 30, 2009 and \$6.2 million for the nine months ended September 30, 2008.

Table of Contents

Provision for Restructuring

Restructuring charges were \$1.7 million for the nine months ended September 30, 2009 compared to \$2.0 million for the nine months ended September 30, 2008. The restructuring charges recorded for the nine months ended September 30, 2009 primarily relate to the restructuring actions taken due to the impact of the new Pepsi cold-fill agreement, the shutdown of the Company's Houston, Texas facility as a result of previously disclosed customer losses and a strategic decision to exit the Company's limited extrusion blow-molding business and the closure of the Company's Cheraw, South Carolina facility. The restructuring charges consist of \$1.6 million of facility exit costs and \$0.1 million of severance and other costs. See Note 13 Restructuring in the notes to the accompanying Condensed Consolidated Financial Statements for additional information.

Interest Expense

Interest expense decreased \$9.1 million to \$19.9 million for the nine months ended September 30, 2009 from \$29.0 million for the nine months ended September 30, 2008 primarily due to the conversion of the Company's Senior Subordinated Notes of \$175 million to common stock as part of the Company's Plan which reduced interest expense by approximately \$14.4 million and lower average borrowings under the Company's credit facility of \$12.5 million. This was offset by the accretion of \$8.4 million of the fair market value of the Company's Senior Secured Floating Rate Notes to their face value at maturity and increased borrowing costs under the Company's credit facility.

Reorganization Items, net

During the nine months ended September 30, 2009, the Company incurred certain professional fees and other expenses directly associated with the bankruptcy proceedings. In addition, the Company recorded the gain on the conversion of the Senior Subordinated Notes to common stock and the net impact of fresh-start accounting adjustments as reorganization items. See Note 4 Fresh Start Accounting in the notes to these Condensed Consolidated Financial Statements for further discussion of reorganization items.

Other (Income) Expense, net

Other income, net was \$3.1 million for the nine months ended September 30, 2009 compared to other expense, net of \$2.7 million for the nine months ended September 30, 2008. The income for the nine months ended September 30, 2009 primarily resulted from the positive impact of foreign currency on the translation of intra-company balances and royalty income.

Provision for Income Taxes

For the nine months ended September 30, 2009, the Company recorded a provision for income taxes related to continuing operations of \$33.4 million compared to a benefit from income taxes of \$0.1 million for the nine months ended September 30, 2008, primarily due to the adoption of fresh-start accounting. Income from continuing operations before taxes was \$136.3 million for the nine months ended September 30, 2009 compared to losses of \$26.8 million for the nine months ended September 30, 2008.

Total unrecognized income tax benefits as of September 30, 2009 and December 31, 2008, were \$0.7 million and are included in other liabilities on the condensed consolidated balance sheets. In addition, the Company had accrued approximately \$0.2 million for estimated penalties and interest on uncertain tax positions as of September 30, 2009 and December 31, 2008. The Company believes that it has adequately provided for any reasonably foreseeable resolution of any tax disputes, but will adjust its reserves as necessary if events so dictate. To the extent that the ultimate results differ from the original or adjusted estimates of the Company, the effect will be recorded in the provision for income taxes.

Table of Contents***Liquidity and Capital Resources***

In connection with the consummation of the Plan, on the Effective Date, the Company's existing revolving credit facility, the Senior Secured Super-Priority Debtor in Possession and Exit Credit Agreement was converted into an exit facility with substantially the same terms (the Exit Facility). Also in connection with the consummation of the Plan, the Company and its lenders entered into Amendment No. 2 to the Exit Facility, primarily for the purposes of updating certain schedules to the Exit Facility and permitting the Company's Dutch subsidiary, Constar International Holland (Plastics) B.V., which is neither a party to nor a guarantor of the Exit Facility, to enter into separate financing arrangements.

The Exit Facility's scheduled expiration date is December 31, 2011. However, the Exit Facility may be terminated earlier in the case of an event of default. Events of default include, among other things, a failure to refinance the Secured Notes (as defined below) at least 90 days prior to the scheduled expiration date of the Exit Facility, or a failure to deliver an unqualified audit opinion in connection with any year's audit which may take place if the Secured Notes are not refinanced prior to the issuance of the Company's SEC Form 10-K for the year ended December 31, 2010 which is expected to be filed in March 2011. The Exit Facility provides for revolving borrowings of up to \$75 million, with a sublimit of \$15 million in the case of letters of credit and \$15 million in the case of swing loans. The amount available under the facility is subject to a minimum Available Credit requirement of \$5 million. Available Credit is generally defined as the excess of the lesser of \$75 million or the borrowing base, in each case minus any availability reserve imposed by the administrative agent in its discretion, over the amount of loans and letter of credit obligations outstanding under the credit facility. The borrowing base is generally defined as described below. The effect of the Available Credit requirement is that no more than \$70 million is available to the Company under the credit facility. The amount available under the Exit Facility is also subject to a minimum Collateral Availability requirement of \$15 million. Collateral Availability is generally defined as the excess of the borrowing base over the amount of loans and letter of credit obligations outstanding under the credit facility. The effect of the Collateral Availability requirement is that the borrowing base must be at least \$85 million in order for the Company to access all \$70 million otherwise available under the credit facility.

Borrowings under the Exit Facility are limited to a borrowing base comprised of the sum of (i) up to 85% of the Company's and its domestic subsidiaries' Eligible Trade Receivables, (ii) up to 80% of the U.S. dollar value of Eligible Trade Receivables of Constar International U.K. Limited, (iii) the lesser of the sum of, for each category of Eligible Inventory, (A) up to 85% of the Orderly Liquidation Percentage for such category of Eligible Inventory of the Company and its domestic subsidiaries and (B) up to 75% of the value of such category of Eligible Inventory of the Company and its domestic subsidiaries (in each case valued at the lower of cost and market on a first-in, first-out basis), and (iv) the lesser of the sum of, for each category of Eligible Inventory, (A) up to 80% of the U.S. dollar value of the Orderly Liquidation Percentage for such category of Eligible Inventory of Constar International U.K. Limited and (B) up to 70% of the U.S. dollar value of such category of Eligible Inventory of Constar International U.K. Limited (in each case valued at the lower of cost and market on a first-in, first-out basis); less any applicable reserves then in effect. The portion of the borrowing base attributable to classes (ii) and (iv) shall not exceed \$25 million. In addition, under the Exit Facility the administrative agent may impose discretionary reserves against the entire facility.

The Company will pay monthly a commitment fee equal to 0.75% per year on the undrawn portion of the Exit Facility. Loans will bear interest, at the option of the Company, at one of the following rates: (i) a fluctuating Base Rate of not less than 4% plus a margin ranging from 2.75% to 3.25%, or (ii) a fluctuating Eurodollar Base Rate of not less than 3% plus a margin ranging from 3.75% to 4.25%. Letters of credit carry an issuance fee of 0.25% per annum of the undrawn face amount and a fee accruing at a rate per annum ranging from 3.75% to 4.25%.

The Exit Facility contains certain financial covenants. The Company must maintain minimum Available Credit of \$5 million and minimum Collateral Availability of \$15 million. Capital Expenditures may not exceed \$24 million in 2009, \$28 million in 2010 and \$22 million in 2011; provided, however, that to the extent that actual Capital Expenditures for the Fiscal Year ended December 31, 2009 or any Fiscal Year thereafter shall be less than the maximum amount set forth above for such Fiscal Year (without giving effect to any carryover permitted by this proviso), 75% of the difference between said stated maximum amount and the amount of actual Capital Expenditures shall, in addition, be available for Capital Expenditures in the next succeeding Fiscal Year. If Collateral Availability during any Fiscal Quarter is less than \$30 million for any period of three consecutive Business Days, the Company must maintain Consolidated EBITDA (which is a term defined under the Exit Facility and which we refer to as Credit

Table of Contents

Agreement Consolidated EBITDA (as further discussed below) of not less than \$40 million, calculated on a trailing twelve month basis as of the last day of such Fiscal Quarter. If Collateral Availability falls below \$30 million for three consecutive business days and minimum Credit Agreement Consolidated EBITDA is not maintained, a default under the Exit Facility would occur and the lenders could elect to declare all amounts borrowed to be immediately due and payable. Any such acceleration would also result in a default under the indenture of the Senior Secured Floating Rate Notes. The Exit Facility contains other customary covenants and events of default. As of September 30, 2009, the Company was in compliance with these covenants.

Covenants in the Exit Facility limit the ability of the Company and its subsidiaries to:

incur additional indebtedness and guarantee obligations;

create liens;

make equity investments or loans;

sell, lease or otherwise dispose of assets;

pay dividends, make distributions, redeem or repurchase any equity securities;

prepay, redeem, repurchase or cancel certain indebtedness;

engage in mergers, consolidations, acquisitions, joint ventures or the creation of subsidiaries;

change the nature of the Company's business;

engage in transactions with affiliates;

enter into agreements restricting the Company's ability or the ability of a subsidiary to incur liens, or restricting the ability of a subsidiary to pay dividends to, make or repay loans to, transfer property to, or guarantee indebtedness of, the Company or any of the Company's subsidiaries;

modify the Company's organizational documents or certain material agreements (including the indenture governing the new notes);

change the Company's accounting treatment and reporting practices;

engage in sale and leaseback transactions and operating lease transactions; and

engage in speculative transactions.

Events of default under the Exit Facility include, but are not limited to, a default in the payment of any principal, interest or fees due under the Exit Facility, or in the payment of material indebtedness; a breach of representations or covenants; a change in control, as defined under both the Exit Facility and the indenture governing the Secured Notes; the Company becoming subject to certain judgments or pension liabilities; the insolvency of the Company; the Company's failure to refinance the Secured Notes at least 90 days prior to the scheduled expiration date of the Exit Facility, a failure to deliver an unqualified audit opinion in connection with any year's audit which may take place if the Secured Notes are not refinanced prior to the issuance of the Company's SEC Form 10-K for the year ended December 31, 2010 which is expected to be filed in March 2011, or a refinancing of such Secured Notes on terms materially adverse to the lenders under the Exit Facility. If an event of default shall occur and be continuing under the Exit Facility, either the administrative agent or the requisite lenders may accelerate the maturity of the Exit Facility. The covenants, events of default and acceleration rights described above are subject to important exceptions and qualifications, which are described in the Exit Facility filed by the Company with the SEC.

Credit Agreement Consolidated EBITDA is defined as EBITDA (i.e., earnings before interest, taxes, depreciation and amortization) further adjusted to exclude extraordinary items, non-recurring transaction expenses related to Chapter 11, certain restructuring items, all other non-cash gains or losses and all other non-cash items, including foreign currency gains/losses, additions to certain reserves, impairment charges, accounting changes, financing costs, stock grants, required in calculating covenant compliance under the Exit Facility, as shown in the table below. Credit Agreement Consolidated EBITDA is not intended to represent cash flow from operations as defined by generally accepted accounting principles and should not be used as an alternative to net income as an indicator of operating performance or to cash flow as a measure of liquidity. We believe that the inclusion of covenant compliance EBITDA in this report is appropriate to provide additional information to investors about the calculation of certain financial covenants in the Exit Facility which we believe are material terms of the Exit Facility. Because not all companies use identical calculations, these presentations of Credit Agreement Consolidated EBITDA may not be comparable to other similarly titled measures of other companies. A reconciliation of net income to Credit Agreement Consolidated EBITDA is as follows:

Table of Contents**Reconciliation of net income to EBITDA**

<i>(in thousands)</i>	Four Quarters Ended September 30, 2009
Net income	\$ 71,573
Interest expense	29,623
Income taxes	33,093
Depreciation and amortization	38,077
EBITDA	\$ 172,366

Reconciliation of EBITDA to Credit Agreement Consolidated EBITDA

<i>(in thousands)</i>	Four Quarters Ended September 30, 2009
EBITDA	\$ 172,366
Cash restructuring charges	2,486
Cash reorganization costs	15,000
Gain from discharge of debt	(84,745)
Gain from fresh-start accounting adjustments	(68,108)
Other non-cash charges (i)	13,559
Credit Agreement Consolidated EBITDA	\$ 50,558

(i) Includes foreign currency translation gains/losses and non-cash charges.

Collateral under the Exit Facility is composed of all of the stock of the Company's domestic and United Kingdom subsidiaries, 65% of the stock of the Company's Dutch subsidiary, and all of the inventory, accounts receivable, investment property, instruments, chattel paper, documents, deposit accounts and certain intangibles of the Company and its domestic and United Kingdom subsidiaries.

In addition to the Exit Facility, the Company's debt structure also consists of \$220.0 million of Senior Secured Floating Rate Notes due February 15, 2012 (Secured Notes). The Secured Notes bear interest at the rate of three-month LIBOR plus 3.375% per annum. Interest on the Secured Notes is reset and payable quarterly. Pursuant to an interest rate swap executed in May 2005 with Citigroup Financial Products Inc., \$100.0 million face amount of the Secured Notes have an effective interest rate of 7.9%. In connection with the Company's reorganization and emergence from bankruptcy, on the Effective Date, all of the Company's Senior Subordinated 11% Notes Due 2012 (Subordinated Notes) were canceled and the related indenture was terminated. Pursuant to the Plan the holders of Class 4 Senior Subordinated Note Claims (as defined in the Plan) received ten shares of new Common Stock per one thousand dollars in face amount of the Senior Subordinated Notes.

The indenture governing the Secured Notes restricts, among other things, the Company's ability, and the ability of the Company's restricted subsidiaries, to:

borrow additional money;

pay dividends on Company stock or repurchase Company stock;

Edgar Filing: CONSTAR INTERNATIONAL INC - Form 10-Q

make payment on or redeem or repurchase junior debt;

make investments;

create liens;

create restrictions on the payment of dividends or other amounts to the Company from the Company's restricted subsidiaries;

enter into transactions with affiliates;

sell assets or consolidate or merge with or into other companies; and

expand into unrelated businesses.

Table of Contents

The indenture governing the Secured Notes includes such events of default as failure to pay principal or interest due, failure to observe certain covenants, failure to pay certain other indebtedness after final maturity or acceleration, failure to pay certain judgments, and insolvency. If an event of default shall occur and be continuing under the indenture governing the Secured Notes, either the trustee or the holders of a specified percentage of the applicable notes may accelerate the maturity of such notes. The covenants, events of default and acceleration rights described above are subject to important exceptions and qualifications, which are described in the indenture filed by the Company with the SEC. As of September 30, 2009, the Company was in compliance with these covenants.

At September 30, 2009, there was \$220.0 million (face value) outstanding on the Secured Notes, \$12.6 million outstanding on the Exit Facility, and \$6.1 million of letters of credit issued under the Exit Facility.

The Company funds its operations primarily with cash flows from operations and borrowings under its Exit Facility. Liquidity, defined as cash and availability under the Exit Facility, is a key measure of the Company's ability to finance its operations. Liquidity at September 30, 2009 was \$28.2 million as compared to \$15.3 million at December 31, 2008. The increase in liquidity at September 30, 2009 as compared to December 31, 2008 is due to an increase in the borrowing base of approximately \$13.9 million due to the release of a \$8.9 million reserve related to the Company's interest rate swap and a \$5.0 million increase in eligible assets, and a decrease in borrowings of approximately \$4.0 million, offset by a decrease in cash of \$5.0 million. As a result of the conversion of the \$175 million of Subordinated Notes to common stock, the Company's future cash interest costs will be reduced by \$19.3 million annually.

Liquidity will vary on a daily, monthly and quarterly basis based upon the seasonality of the Company's sales as well as the impact of changes in the price of resin, the change in the value of the U.S. dollar as compared to the British pound and the other factors mentioned below. During the nine months ended September 30, 2009, the Company's total PET volume declined 15.8% as compared to the nine months ended September 30, 2008, principally due to reduced volume for Pepsi under the new cold-fill agreement, the continued movement of water bottlers and certain CSD volume to self-manufacturing, and consumers shifting their preferences from CSD to alternative beverages, offset in part by increased custom sales. The general negative macroeconomic conditions have also reduced the Company's rate of growth in the custom beverage segment of the market. There can be no assurance that these volumes will recover in the near or long term. These and other economic factors could have an adverse effect on demand for the Company's products and services and on the Company's financial condition and operating results. Customers and suppliers who are not under contract may seek to change the terms of their respective economic relationships with the Company. If such a change is material, it could reduce or eliminate the Company's projected liquidity. Following its emergence from Chapter 11, the Company's U.S. operations achieved improved credit terms with many of its suppliers. However, these improvements were offset by less favorable credit terms with certain of its European suppliers.

The Company's cash requirements are typically greater during the first and second quarters of each year because of the build-up of inventory levels in anticipation of the seasonal sales increase during the warmer months and the collection cycle from customers following the higher seasonal sales. The borrowing base, which forms the basis of availability, is subject to further limitations, including that:

certain of the components of the borrowing base are subject to the discretion of the administrative agent;

if inventory is located on properties that the Company leases and if the Company is unable to obtain consents from the landlords, such inventory may not be eligible for inclusion in the borrowing base;

the inventory and accounts receivable of the Company's United Kingdom subsidiary would be disqualified from the borrowing base in the event of certain insolvency proceedings of that subsidiary or any action taken against such subsidiary to enforce its guarantee given in respect of the Secured Notes; and

the administrative agent has the customary ability to reduce, unilaterally, the Company's borrowing availability at any time by, for example, establishing reserves or declaring certain collateral ineligible.

Based on the Company's most recent cash flow projections and operating and capital plans, assuming there is no change to the \$7.6 million cash collateral delivered in connection with the Company's interest rate swap, the low and high points of liquidity for the period November 13, 2009 to December 31, 2009 are expected to be approximately \$16 million and \$27 million, respectively. Average liquidity, based upon the Company's latest forecast, for the period November 13, 2009 to December 2009 is expected to be approximately \$19 million with the low point occurring in mid-December. These projections do not include the results of actions that the Company is reviewing that may improve liquidity, but

Table of Contents

there can be no assurance that these measures will be successful. In addition, actual liquidity could be higher or lower depending upon a number of factors, including, among others, the Company's actual operating and working capital performance and capital expenditures, the seasonality of the Company's sales, the impact of changes in the price of resin, credit terms with suppliers, the change in the value of the U.S. dollar as compared to the British pound and the limitations on the borrowing base noted above. These factors could impact the Company's ability to meet the Collateral Availability and the minimum Credit Agreement Consolidated EBITDA covenant.

The credit markets have been volatile and are experiencing a shortage in overall liquidity. The Company's Exit Facility is provided by Citicorp USA Inc. and Wells Fargo Foothill, LLC and the continued availability of the facility is in part dependent on their ability to honor the commitment, which the Company is unable to assess at this time. There can be no assurance that the Company's business, liquidity, financial condition or results of operations will not be materially and adversely impacted in the future as a result of the existing or future credit market conditions, or as a result of the factors described above.

Cash Flows

The following table presents selected cash flow data.

<i>(dollars in millions)</i>	Nine months ended		Increase (Decrease)
	2009	September 30, 2008	
Net cash provided by (used in) operating activities	\$ 13.3	\$ (5.2)	\$ 18.5
Net cash used in investing activities	\$ (18.2)	\$ (18.2)	\$
Net cash provided by (used in) financing activities	\$ (7.6)	\$ 22.7	\$ (30.3)

Net cash provided by operations for the nine months ended September 30, 2009 compared to the nine months ended September 30, 2008, increased primarily due to an improvement in earnings partially offset by negative changes in working capital. Days sales in accounts receivable increased to approximately 29.4 days at September 30, 2009 from 28.5 days at September 30, 2008. Inventory days increased to approximately 33.0 days at September 30, 2009 from 26.6 days at September 30, 2008. Days payable in accounts payable and accrued liabilities increased to 52.3 days at September 30, 2009 compared to 47.9 days at September 30, 2008, due to the timing of disbursements at quarter end. Working capital is impacted by the normal timing of purchases to meet customer demand and the timing of payments to vendors that may vary from period to period and during the period. On October 1, 2009, the Company made payments of approximately \$11.3 million to two vendors in the normal course of business.

Net cash used in investing activities for the nine months ended September 30, 2009 remained the same as the nine months ended September 30, 2008, with capital expenditures net of sales proceeds decreasing by \$7.5 million. This decrease in capital expenditures was offset by the \$7.6 million of cash the Company paid to collateralize its interest rate swap. Approximately \$4.6 million of capital expenditures related to custom projects.

Net cash used by financing activities for the nine months ended September 30, 2009 was primarily comprised of net repayments of \$7.4 million on the DIP Credit Facility and Exit Facility. Net cash provided by financing activities for the nine months ended September 30, 2008 was primarily comprised of net borrowings of \$22.7 million on the Revolver Loan.

Commitments and Contingent Liabilities

Information regarding the Company's contingent liabilities appears in Note 14 Commitments and Contingencies in the notes to the accompanying Condensed Consolidated Financial Statements, which information is incorporated herein by reference.

Table of Contents

Capital Expenditures

Based on information currently available, we estimate 2009 capital spending to be between \$16 million and \$17 million compared to 2008 capital spending of \$25.3 million. The Company's ability to make capital expenditures is limited by the financial covenants contained in its Exit Facility. These financial covenants impose maximum capital expenditures per annum of \$24 million in 2009, \$28 million in 2010 and \$22 million in 2011. These covenants allow for the carry-forward of a certain amount of spending below the covenant levels in previous periods beginning with 2009.

Pension Funding

Under current funding rules, we estimate that the funding requirements under our pension plans for 2009 and 2010 will be approximately \$3.5 million and \$4.7 million, respectively. If the return on plan assets is less than expected or if discount rates decline from current levels, plan contribution requirements could increase significantly in the future. During the nine months ended September 30, 2009, the Company made pension plan contributions of \$2.6 million.

Stockholders' Equity

Stockholders' equity increased to \$94.7 million at September 30, 2009 from a deficit of \$161.1 million at December 31, 2008 primarily due to the impact of the Company's Plan and the adoption of fresh-start accounting.

Critical Accounting Policies and Estimates

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States which require that management make numerous estimates and assumptions. Actual results could differ from these estimates and assumptions, impacting the reported results of operations and financial condition of the Company. For a discussion of the Company's critical accounting policies, see Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Form 10-K filed on March 31, 2009.

The Company monitors its assets for potential impairment on a quarterly basis. For purposes of recognition and measurement of an impairment loss, long-lived assets such as property, plant and equipment, are grouped with other assets at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets. Based upon these criteria, the Company has identified three asset groups with one each in the U.S., U.K., and Holland. In the case where the carrying amount of an asset or asset group is not recoverable (that is, the carrying amount exceeds the sum of the undiscounted cash flows expected to result from the use of the assets and their eventual disposition), an impairment loss is recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset. In all of our analyses, the undiscounted cash flows of the asset groups significantly exceeded the carrying amounts of the asset groups, and therefore, we did not need to measure the asset groups' fair value to determine whether an impairment loss should be recognized.

In the event a fair value analysis would be required, the Company would primarily use a discounted cash flow analysis in order to estimate the fair value of assets. Significant assumptions for discounted cash flow purposes are the life of the primary asset, the discount rate and cash flow projections. The assumptions and methodologies for valuing property, plant and equipment and intangible assets have been applied consistently during the reporting periods included in this report.

The Company completed an interim impairment assessment as of September 30, 2009 and does not believe that the Company's goodwill balance was impaired. However, there can be no assurances that the Company will not be required to recognize an impairment of goodwill in the future due to market conditions or other factors related to the Company's performance. These market events could include a decline over a period of time of the Company's stock price, a decline over a period of time in valuation multiples of comparable packaging companies, the lack of an increase in the Company's market price consistent with its peer companies or decreases in control premiums. A decline in the forecasted results in our business plan, such as changes in forecasted on-going profitability or capital investment budgets or changes in our interest rates, could also result in an impairment charge. Recognition of an impairment of a significant portion of goodwill would negatively affect the Company's reported results of operations and total capitalization, the effect of which could be material and could have a negative impact on the Company's ability to raise capital on attractive terms.

Table of Contents***Recent Accounting Pronouncements***

On July 1, 2009, the Financial Accounting Standards Board's (FASB) Accounting Standards Codification (the Codification or ASC) became effective. The Codification is the single source of authoritative U.S. Generally Accepted Accounting Principles (GAAP) to be applied by nongovernmental entities, except for the rules and interpretive releases of the SEC under authority of federal securities laws, which are sources of authoritative GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority. The Codification is organized by topic, subtopic, section, and paragraph, each of which is identified by a numerical designation. This Quarterly Report on Form 10-Q contains references to the Codification as needed. The adoption of the Codification did not have a material impact on the Company's results of operations or financial condition.

In September 2006, the FASB issued guidance under ASC 820-10 *Fair Value Measurements and Disclosures* that establishes a common definition for fair value to be applied to GAAP guidance requiring use of fair value, establishes a framework for measuring fair value, and expands disclosure about such fair value measurements. In February 2008, the FASB delayed the effective date of the guidance for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) until January 1, 2009. The adoption of this guidance did not have a material impact on the Company's results of operations or financial condition.

In December 2007, the FASB issued new guidance for business combinations. The new guidance is contained in ASC 805 *Business Combinations*. This new guidance revises how acquirors recognize and measure the consideration transferred, identifiable assets acquired, liabilities assumed, noncontrolling interests, and goodwill acquired in a business combination. In addition, it expands required disclosures surrounding the nature and financial effects of business combinations. The new guidance is effective for fiscal years beginning on or after December 15, 2008 with earlier adoption prohibited. The impact of this new guidance on the Company's consolidated financial statements could be material for business combinations which may be consummated subsequent to the effective date. The application of ASC 805 as a result of applying the fresh-start accounting provisions of ASC 852 *Reorganizations* upon emergence from Chapter 11 has resulted in material adjustments to the historical carrying amounts of the Predecessor Company's assets and liabilities. The impact of these adjustments is summarized in Note 4 *Fresh Start Accounting* in the notes to these Condensed Consolidated Financial Statements.

In May 2009, the FASB issued new guidance for subsequent events. The new guidance establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The new guidance for subsequent events is effective for interim or annual periods ending after June 15, 2009 and is to be applied prospectively. The adoption of this guidance did not have a material impact on the Company's results of operations or financial condition.

In April 2009, the FASB issued new guidance addressing the fair value of financial instruments. The new guidance addresses determining fair value when the volume and level of activity for an asset or liability has significantly decreased and identifying transactions that are not orderly, and the recognition and presentation of other than temporary impairments. The new guidance also requires additional disclosures about financial instruments in interim period financial statements. The Company adopted this guidance in the second quarter of 2009. The adoption of this guidance did not have a material impact on the Company's results of operations or financial condition.

Effective for fiscal years ending after December 15, 2009, ASC 715-20 *Compensation-Retirement Benefits*, requires additional disclosures about employers' plan assets of a defined benefit pension or other postretirement plan. The requirements include disclosing investing strategies, major categories of plan assets, concentrations of risk within plan assets, information about fair value measurements of plan assets, and valuation techniques used to measure the fair value of plan assets. Adoption of these additional requirements is not expected to have an impact on the Company's results of operations or financial condition.

Table of Contents

Forward-Looking Statements

Statements included herein that are not historical facts (including, but not limited to, any statements concerning plans and objectives of management for future operations or economic performance, or assumptions related thereto), are forward-looking statements within the meaning of the federal securities laws. In addition, the Company and its representatives may from time to time make other oral or written statements which are also forward-looking statements.

These forward-looking statements are based on the Company's current expectations and projections about future events. Statements that include the words expect, believe, intend, plan, anticipate, project, will, may, could, should, pro forma, continues, estimates, objective and similar statements of a future nature identify forward-looking statements. These forward-looking statements and forecasts are subject to risks, uncertainties and assumptions. The Company cautions that forward-looking statements are not guarantees and that actual results could differ materially from those expressed or implied in the forward-looking statements. The Company does not intend to review or revise any particular forward-looking statement or forecast in light of future events.

A discussion of important factors that could cause the actual results of operations or financial condition of the Company to differ from expectations has been set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 under the captions *Cautionary Statement Regarding Forward Looking Statements* and *Item 1.A Risk Factors* and is incorporated herein by reference. Some of the factors are also discussed elsewhere in this Form 10-Q and have been or may be discussed from time to time in the Company's other filings with the Securities and Exchange Commission.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains a system of disclosure controls and procedures for financial reporting that are designed to give reasonable assurance that information required to be disclosed in the Company's reports submitted under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. These controls and procedures also give reasonable assurance that information required to be disclosed in such reports is accumulated and communicated to management to allow timely decisions regarding required disclosures.

As of September 30, 2009, the Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO), together with management, conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based on that evaluation, the CEO and CFO concluded that these disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the quarter ended September 30, 2009 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II Other Information

Item 1. Legal Proceedings

Information regarding legal proceedings involving the Company appears in Part I within Item 1 of this quarterly report under Note 14 Commitments and Contingencies to the Condensed Consolidated Financial Statements, which information is incorporated herein by reference.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, which could materially affect the Company's business, financial condition or future results. The risks described in the Company's Annual Report on Form 10-K are not the only risks facing the Company. Additional risk and uncertainties not currently known to the Company or that it currently deems to be immaterial also may materially adversely affect the Company's business, financial condition or operating results.

The following risk factors from the Company's Annual Report on Form 10-K are deleted: *Based on the current terms of our proposed Plan, we expect our outstanding common stock will be extinguished. ; There can be no assurance that our proposed Plan will be approved and we will continue as a going concern. ; Our credit facility will expire in the third quarter of 2009 unless it is converted into an exit facility. ; Operating in bankruptcy imposes significant risks on our operations. We cannot predict when we will confirm a Plan and successfully emerge from bankruptcy. ; and Our emergence from Chapter 11 may potentially reduce or eliminate the Company's net operating loss carryforward tax benefits.*

The information below updates and replaces the risk factor *As a result of our Chapter 11 cases, our historical financial information may not be indicative of our future financial performance* previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2008:

Because the Company's consolidated financial statements reflect fresh-start accounting adjustments made on emergence from bankruptcy and because of the effects of the transactions that became effective pursuant to the Plan, financial information in the Company's current and future financial statements will not be comparable to our financial information from prior periods.

In connection with its emergence from bankruptcy, the Company adopted fresh-start accounting as of May 1, 2009. The adoption of fresh-start accounting resulted in the Company becoming a new entity for financial reporting purposes. As required by fresh-start accounting, the Company's assets and liabilities have been preliminarily adjusted to fair value, and certain assets and liabilities not previously recognized in the Company's financial statements have been recognized. In addition to fresh-start accounting, the Company's financial statements reflect all effects of the transactions implemented by the Plan. Accordingly, the financial statements prior to May 1, 2009 are not comparable with the financial statements for periods on or after May 1, 2009. Furthermore, the estimates and assumptions used to implement fresh-start accounting are inherently subject to significant uncertainties and contingencies beyond the control of the Company. Accordingly, the Company cannot provide assurance that the estimates, assumptions, and values reflected in the valuations will be realized, and actual results could vary materially. For further information about fresh-start accounting, see Note 4 Fresh-Start Accounting in Notes to Condensed Consolidated Financial Statements under Item 1 of Part I of the Company's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2009 for further details.
