NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2010

UNAUDITED

1. Introduction and Overview

ManTech International Corporation (depending on the circumstances, ManTech Company we our ours or us) is a leading provider of information technologies and solutions for mission-critical national security programs for the Intelligence Community; the departments of Defense, State, Homeland Security and Justice; and other U.S. federal government organizations. Our expertise includes systems engineering and integration, enterprise architecture, cyber security, information assurance, intelligence operations and analysis support, network and critical infrastructure protection, information operations and information warfare support, information technology, communications integration, global logistics and supply chain management and service oriented architectures. At June 30, 2010, we have approximately 9,100 highly qualified employees operating in approximately 40 countries worldwide.

2. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and note disclosures normally included in the annual financial statements, prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to those rules and regulations. We recommend that you read these unaudited condensed consolidated financial statements in conjunction with the audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, previously filed with the SEC. We believe that the unaudited condensed consolidated financial statements in this Form 10-Q reflect all adjustments that are necessary to fairly present the financial position, results of operations and cash flows for the interim periods presented. The results of operations for such interim periods are not necessarily indicative of the results that can be expected for the full year.

3. Acquisitions

Our acquisitions have been accounted for using the acquisition method of accounting under the Accounting Standards Codification (ASC) 805, *Business Combination*. Additional information related to our acquisitions can be found in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, previously filed with the SEC.

Sensor Technologies Inc.-On January 15, 2010, we completed the acquisition of all outstanding equity interest of Sensor Technologies Inc. (STI), a privately-held company. The results of STI's operations have been included in our consolidated financial statements since that date. The acquisition was consummated pursuant to a stock purchase agreement (STI Purchase Agreement), dated December 18, 2009, by and among ManTech, STI, certain shareholders of STI and certain persons acting as a representative for the shareholders of STI.

STI was a leading provider of mission-critical systems engineering and Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) services and solutions to the Department of Defense. STI's largest customer was the U.S. Army through its prime position on the Strategic Services Sourcing (S3) Indefinite Delivery/Indefinite Quantity contract. At January 15, 2010, STI had 252 employees of which nearly 100% held security clearances. In 2009, STI produced approximately \$336.8 million in revenues. STI contributed revenues of \$219.3 million and net income of \$3.1 million for the period from January 15, 2010 to June 30, 2010.

The acquisition of STI is consistent with our long-term strategy to broaden our footprint in the high-end defense and intelligence market and will expand our work with the Department of Defense and our direct support of the U.S. Army as it continues its overseas operations.

ManTech funded the acquisition through a combination of cash on hand and borrowings under our senior facility. The purchase price was \$241.4 million, which included a favorable \$0.6 million working capital adjustment. The STI Purchase Agreement did not contain provisions for contingent consideration. Pursuant to the STI Purchase Agreement, \$24.2 million was placed into an escrow account to satisfy potential indemnification liabilities of STI and its shareholders. The escrow claim period will expire 18 months after the purchase closing date. At June 30, 2010, the balance in the escrow account was \$23.2 million.

In 2010 and 2009, the Company incurred \$0.3 million and \$0.6 million of acquisition related expenses, respectively. These expenses are included in general and administrative expense in the Company's statement of income for the related periods.

Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****June 30, 2010****UNAUDITED***Purchase Price Allocation*

The purchase price was allocated to underlying assets and liabilities based on their estimated fair values at the date of acquisition. The purchase price allocation included goodwill and other intangible assets. Recognition of goodwill was largely attributed to the highly skilled employees of STI, their presence in the high-end defense and intelligence market place and the value paid for companies in this business. Assuming adequate levels of taxable income, the goodwill is deductible for tax purposes over 15 years. The following table represents the purchase price allocation (in thousands):

Cash and cash equivalents	\$ 5,310
Receivables-net of a \$340 allowance	69,870
Prepaid expenses and other	1,033
Property and equipment	357
Other intangibles	93,289
Other assets	65
Goodwill	143,772
Accounts payable and accrued expenses	(69,185)
Accrued salaries and related expenses	(3,087)
Other long-term liabilities	(62)
Purchase price	\$ 241,362

Indemnification Assets

Pursuant to the STI Purchase Agreement, the seller has agreed to indemnify the buyer for tax liabilities arising in connection with the operation of STI's business on or before January 15, 2010 or owing by any person for which STI may be liable as a result of the transactions or circumstances occurring or existing on or before January 15, 2010. As of January 15, 2010, STI's tax liabilities were estimated to be approximately \$0.8 million, resulting in related indemnification assets of \$0.8 million. We collected \$0.4 million from the escrow account for these indemnification assets.

Intangible Assets

In allocating the purchase price, we considered, among other factors, analyses of historical financial performance and estimates of future performance of STI's contracts. The components of other intangible assets associated with the acquisition were backlog, customer relationships and non-compete agreements valued preliminary at \$7.8 million, \$85.2 million and \$0.3 million, respectively. Customer contracts and related relationships represent the underlying relationships and agreements with STI's existing customers. Non-compete agreements represent the estimated value of the seller not competing with the Company for 4 years. Backlog, customer relationships and non-compete agreements are amortized over their estimated useful lives of 1 year, 20 years and 4 years, respectively, using the pattern of benefits method. The weighted-average amortization period for the intangible assets is 18.4 years.

Pro Forma Financial Information

The following unaudited pro forma summary presents consolidated information of the Company as if the acquisition had occurred at the beginning of the periods presented. The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition and borrowings under our senior credit facility had occurred at the beginning of the period presented. The amounts have been calculated after applying the Company's accounting policies and adjusting the results

Edgar Filing: MANTECH INTERNATIONAL CORP - Form 10-Q

of STI to reflect the additional amortization expense resulting from recognizing intangible assets, the interest expense effect of the financing necessary to complete the acquisition and the consequential tax effects (in thousands).

	Six months ended	
	June 30,	
	2010	2009
Revenues	\$ 1,262,838	\$ 1,108,435
Net income	\$ 59,869	\$ 55,382

DDK Technology Group Acquisition-On March 13, 2009, we completed the acquisition of all outstanding equity interests of DDK Technology Group (DDK). The results of DDK's operations have been included in our condensed consolidated financial statements since that date. The acquisition was consummated pursuant to stock purchase agreement (DDK Purchase Agreement), dated March 13, 2009, by and among ManTech, DDK and the shareholders of DDK. DDK was a privately held company, providing information technology and cyber security for several Department of Defense agencies.

Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****June 30, 2010****UNAUDITED**

The final purchase price was \$14.0 million. The DDK Purchase Agreement does not contain provisions for contingent consideration. We primarily utilized borrowings under our credit agreement to finance the acquisition.

The purchase price was allocated to the underlying assets and liabilities based on their fair values at the date of acquisition. Total assets were \$14.5 million, including goodwill and intangible assets recognized in connection with the acquisition, and total liabilities were \$0.5 million. Included in total assets were \$4.2 million in acquired intangible assets. We have recorded goodwill of \$8.9 million, which will be deductible for tax purposes over 15 years, assuming adequate levels of taxable income. Recognition of goodwill is largely attributed to the highly skilled employees and the value paid for companies supporting high-end defense, intelligence and homeland security markets. The assets, liabilities and results of operations of DDK were not significant to the Company's condensed consolidated financial position or results of operations.

The components of intangible assets associated with the acquisition were backlog valued at \$0.3 million and customer relationships valued at \$3.9 million. Customer contracts and related relationships represent the underlying relationships and agreements with DDK's existing customers. Backlog and customer relationships are amortized over their estimated useful lives of 1 year and 20 years, respectively, using the pattern of benefits method. The weighted-average amortization period for the intangible assets is 18.8 years.

4. Earnings Per Share

In ASC 260, *Earnings per Share*, the two-class method is an earnings allocation formula that determines earnings per share for each class of common stock according to dividends declared (or accumulated) and participation rights in undistributed earnings. Under that method, basic and diluted earnings per share data are presented for each class of common stock.

In applying the two-class method, we determined that undistributed earnings should be allocated equally on a per share basis between Class A and Class B common stock. Under the Company's Certificate of Incorporation, the holders of the common stock are entitled to participate ratably, on a share-for-share basis as if all shares of common stock were of a single class, in such dividends, as may be declared by the Board of Directors.

Basic earnings per share has been computed by dividing net income available to common stockholders by the weighted average number of shares of common stock outstanding during each period. Shares issued during the period and shares reacquired during the period are weighted for the portion of the period in which the shares were outstanding. Diluted earnings per share has been computed in a manner consistent with that of basic earnings per share while giving effect to all potentially dilutive common shares that were outstanding during each period.

The weighted average number of common shares outstanding is computed as follows (in thousands):

	Three months ended		Six months ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Numerator for net income per Class A and Class B common stock:

Diluted weighted average common shares outstanding - Class B	13,317	13,678	13,460	13,795

Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****June 30, 2010****UNAUDITED**

For the three months ended June 30, 2010 and 2009, options to purchase 1.9 million and 1.6 million shares, respectively, weighted for the portion of the period for which they were outstanding, were outstanding but not included in the computation of diluted earnings per share because the options' effect would have been anti-dilutive. For the six months ended June 30, 2010 and 2009, options to purchase 1.7 million and 1.3 million shares, respectively, weighted for the portion of the period for which they were outstanding, were outstanding but not included in the computation of diluted earnings per share because the options' effect would have been anti-dilutive. For the six months ended June 30, 2010 and 2009, shares issued from the exercise of stock options were 0.3 million and 0.1 million, respectively.

5. Receivables

We deliver a broad array of information technology and technical services solutions under contracts with the U.S. government, state and local governments and commercial customers. The components of contract receivables are as follows (in thousands):

	June 30, 2010	December 31, 2009
Billed receivables	\$ 379,325	\$ 346,984
Unbilled receivables:		
Amounts billable	81,141	42,968
Revenues recorded in excess of funding	10,068	13,311
Revenues recorded in excess of milestone billings on fixed price contracts	0	141
Retainage	4,045	3,955
Allowance for doubtful accounts	(8,487)	(8,120)
Total receivables, net	\$ 466,092	\$ 399,239

Amounts billable consist principally of amounts to be billed within the next month. Revenues recorded in excess of funding are billable upon receipt of contractual amendments or other modifications. Revenues recorded in excess of milestone billings on fixed price contracts consist of amounts not expected to be billed within the next month. The retainage is billable upon completion of the contract performance and approval of final indirect expense rates by the government. Accounts receivable at June 30, 2010, are expected to be substantially collected within one year except for approximately \$2.3 million.

6. Property and Equipment

Major classes of property and equipment are summarized as follows (in thousands):

	June 30, 2010	December 31, 2009
Furniture and equipment	\$ 30,251	\$ 28,725
Leasehold improvements	17,792	16,231
	48,043	44,956
Less: Accumulated depreciation and amortization	(32,452)	(30,458)
Total property and equipment, net	\$ 15,591	\$ 14,498

7. Goodwill and Other Intangibles

Under ASC 350, *Intangibles - Goodwill and Other*, goodwill is to be reviewed at least annually for impairment. We have elected to perform this review annually during the second quarter each calendar year. The 2010 review indicated no impairment and therefore resulted in no adjustments in goodwill.

The changes in the carrying amounts of goodwill during the year ended December 31, 2009 and the period ended June 30, 2010 are as follows (in thousands):

	Goodwill Balance
Net amount at December 31, 2008	\$ 479,516
Additional consideration for the acquisition of EWA	(206)
Acquisition-DDK	8,907
Net amount at December 31, 2009	488,217
Acquisition-STI	143,772
Net amount at June 30, 2010	\$ 631,989

Aggregate amortization expense relating to intangible assets for the three months ended June 30, 2010 and 2009 was \$6.0 million and \$3.1 million, respectively. Aggregate amortization expense relating to intangible assets for the six months ended June 30, 2010 and 2009 was \$11.4 million and \$6.2 million, respectively. We estimate that we will have the following amortization expense for the future periods indicated below (in thousands):

For the remaining six months ending December 31, 2010	\$ 11,613
Year ending:	
December 31, 2011	\$ 16,982
December 31, 2012	\$ 14,756
December 31, 2013	\$ 13,215
December 31, 2014	\$ 11,534

8. Long-term Debt

Long-term debt consisted of the following:

	June 30, 2010	December 31, 2009
	(in thousands)	
Revolving credit facility	\$ 0	\$ 0
7.25% senior unsecured notes	200,000	0
Long-term debt	\$ 200,000	\$ 0

Revolving Credit Facility-We maintain a revolving credit agreement with a syndicate of lenders led by Bank of America, N.A., as administrative agent. On December 18, 2009, we amended our revolving credit agreement to allow for additional flexibility in negative covenants, and specifically to increase the allowable acquisition limitation, the amount of unsecured debt the Company may have and the amount of stock that

Edgar Filing: MANTECH INTERNATIONAL CORP - Form 10-Q

we may repurchase pursuant to a share repurchase program. The amended credit agreement provides for a revolving credit facility of up to \$350.0 million in loan commitments, with a \$25.0 million letter of credit sublimit and a \$30.0 million swing line loan sublimit. The maturity date for the credit agreement is April 30, 2012.

Borrowings under the amended credit agreement are collateralized by our assets and bear interest at one of the following rates as selected by the Company at the time of borrowing: a London Interbank Offer Rate (LIBOR) based rate plus market-rate spreads that are determined based on the Company's leverage ratio calculation (1.625% to 2.5%), or the lender's base rate (plus spreads of 0.75% up to 1.5%), which is the highest of the Prime Rate, the sum of 0.5% plus the Federal Funds Rate, and, except during a Eurodollar Unavailability Period, 1.00% plus the Eurodollar Rate.

The terms of the credit agreement permit prepayment and termination of the loan commitments at any time, subject to certain conditions. The credit agreement requires the Company to comply with specified financial covenants, including the maintenance of a certain leverage ratio and fixed charge coverage ratio. The credit agreement also contains various covenants, including affirmative covenants with respect to certain reporting requirements and maintaining certain business activities, and negative covenants that, among other things, may limit our ability to incur liens, incur additional indebtedness, make investments, make acquisitions, pay cash dividends and undertake certain additional actions. As of June 30, 2010, we were in compliance with our financial covenants under the credit agreement.

Table of Contents

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

June 30, 2010

UNAUDITED

We had no outstanding balance on our credit facility at June 30, 2010 and December 31, 2009. The maximum additional available borrowing under the credit facility at June 30, 2010 was \$348.6 million. As of June 30, 2010, we were contingently liable under letters of credit totaling \$1.4 million, which reduces our availability to borrow under our credit facility.

7.25% Senior Unsecured Notes-Effective April 13, 2010, the Company issued \$200.0 million of 7.25% senior unsecured notes in a private placement that were resold inside the United States to qualified institutional buyers in reliance on Rule 144A under the Securities Act of 1933, and outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act of 1933. A portion of the proceeds was used to refinance existing funded debt incurred to pay for the STI acquisition. We intend to use additional proceeds for general corporate purposes, including financing for any future acquisitions.

Pursuant to the terms of a registration rights agreement entered into in connection with the issuance of the 7.25% senior unsecured notes, on July 22, 2010, ManTech commenced an offer to exchange \$200.0 million in aggregate principal amount of 7.25% senior unsecured notes due 2018 that are registered under the Securities Act of 1933, as amended, for any and all of the outstanding 7.25% senior unsecured notes due 2018.

The 7.25% senior unsecured notes mature on April 15, 2018 with interest payable semi-annually starting on October 15, 2010. The 7.25% senior unsecured notes were issued at 100% of the aggregate principal amount and are effectively subordinate to the Company's existing and future senior secured debt (to the extent of the value of the assets securing such debt), including debt outstanding under our senior credit facility. The 7.25% senior unsecured notes may be redeemed, in whole or in part, at any time, at the option of the Company subject to certain conditions specified in the indenture governing the 7.25% senior unsecured notes. The 7.25% senior unsecured notes are guaranteed, jointly and severally, on a senior unsecured basis by each of our wholly-owned domestic subsidiaries that also guarantee debt obligations under our senior credit facility.

The fair value of the 7.25% senior unsecured notes as of June 30, 2010 was approximately \$204.0 million based on quoted market prices.

The Company incurred approximately \$4.9 million in issuance costs, which are being amortized to interest expense over the contractual life of the 7.25% senior unsecured notes, resulting in an effective rate of 7.67%.

The indenture governing the 7.25% senior unsecured notes contains restrictive covenants, which, subject to important exceptions and qualifications specified in such indenture, will, among other things, limit our ability and the ability of our subsidiaries that guarantee the 7.25% senior unsecured notes to: pay dividends or distributions, repurchase equity, prepay subordinated debt or make certain investments; incur additional debt or issue certain disqualified stock and preferred stock; incur liens on assets; merge or consolidate with another company or sell all or substantially all assets; allow to exist certain restrictions on the ability of the guarantor to transfer assets; and enter into sale and lease-back transactions. The indenture also contains certain change of control provisions as well as customary events of default. An event of default under the indenture will allow either the trustee of the notes or the holders of at least 25% in principal amount of the then outstanding notes to accelerate, or in certain cases, will automatically cause the acceleration of, the amounts due under the notes. As of June 30, 2010, the Company was in compliance with all required covenants.

9. Commitments and Contingencies

Payments to us on cost-reimbursable contracts with the U.S. government are provisional payments subject to adjustment upon audit by the Defense Contract Audit Agency (DCAA). The majority of audits for 2002, 2003 and 2004 have been completed and resulted in no material adjustments. The remaining audits for 2002 through 2009 are not expected to have a material effect on our financial position, results of operations or cash flow.

In the normal course of business, we are involved in certain governmental and legal proceedings, claims and disputes and have litigation pending under several suits. We believe that the ultimate resolution of these matters will not have a material effect on our financial position, results of operations or cash flows.

10. Stock-Based Compensation

In June 2006, the Company's stockholders approved our 2006 Management Incentive Plan (the Plan), which was designed to enable us to attract, retain and motivate key employees. Awards granted under the Plan are settled in shares of Class A common stock. At the beginning of each year, the Plan provides that the number of shares available for issuance automatically increases by an amount equal to one and one-half percent of the total number of shares of Class A and Class B common stock outstanding on December 31st of the previous year. On January 4, 2010, 539,466 additional shares were made available for issuance under the Plan. Through June 30, 2010, the remaining aggregate number of shares of our common stock authorized for issuance under the Plan was 1,493,120. Through June 30, 2010, 3,993,193 shares of our Class A common stock have been issued as a result of the awards granted under the Plan. The Plan expires in June 2016.

Table of Contents

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

June 30, 2010

UNAUDITED

The Plan is administered by the compensation committee of our Board of Directors, along with its delegates. Subject to the express provisions of the Plan, the committee has the Board of Directors authority to administer and interpret the Plan, including the discretion to determine the exercise price, vesting schedule, contractual life and the number of shares to be issued.

Stock Compensation Expense-For the three months ended June 30, 2010 and 2009, we recorded \$0.6 million and \$1.8 million of stock-based compensation cost, respectively. For the six months ended June 30, 2010 and 2009, we recorded \$3.3 million and \$3.6 million of stock-based compensation cost, respectively. No compensation expense of employees with stock awards, including stock-based compensation expense, was capitalized during the periods. For the six months ended June 30, 2010 and 2009, the total recognized tax benefit from the exercise of stock options was \$0.3 million and \$0.2 million, respectively.

Stock Options-We typically issue options that vest in three equal installments, beginning on the first anniversary of the date of grant. Under the terms of the Plan, the contractual life of the option grants may not exceed eight years. During the six months ended June 30, 2010 and 2009, we issued options that expire five years from the date of grant.

Stock Option Fair Value Determination-We have used the Black-Scholes-Merton option pricing model to determine fair value of our awards on date of grant. We will reconsider the use of the Black-Scholes-Merton model if additional information becomes available in the future that indicates another model would be more appropriate or if grants issued in future periods have characteristics that cannot be reasonably estimated under this model.

The following weighted-average assumptions were used for option grants during the six months ended June 30, 2010 and 2009:

Volatility. The expected volatility of the options granted was estimated based upon historical volatility of the Company's share price through weekly observations of the Company's trading history. For the six months ended June 30, 2010 and 2009, we used a volatility of 39.2% and 40.3%, respectively.

Expected Term. The expected term of options granted to employees during the six months ended June 30, 2010 and 2009 was determined from historical exercise of the grantee population. For all grants valued during the six months ended June 30, 2010 and 2009, the options had graded vesting over 3 years (33.3% of the options in each grant vest annually) and the contractual term was 5 years. For the six months ended June 30, 2010 and 2009, the options had a weighted-average expected term of 2.95 years and 2.85 years, respectively.

Risk-free Interest Rate. The yield on zero-coupon U.S. Treasury strips was used to extrapolate a forward-yield curve. This term structure of future interest rates was then input into numeric model to provide the equivalent risk-free rate to be used in the Black-Scholes-Merton model based on expected term of the underlying grants. For the six months ended June 30, 2010 and 2009, the weighted-average risk-free interest rate used was 1.5% and 1.3%, respectively.

Dividend Yield. The Black-Scholes-Merton valuation model requires an expected dividend yield as an input. We have not issued dividends in the past nor do we expect to issue dividends in the future. As such, the dividend yield used in our valuations for the six months ended June 30, 2010 and 2009 was zero.

Stock Option Activity-During the six months ended June 30, 2010, we granted stock options to purchase 622,000 shares of Class A common stock at a weighted-average exercise price of \$49.77 per share, which reflects the fair market value of the shares on the date of grant. The weighted-average fair value of options granted during the six months ended June 30, 2010 and 2009, as determined under the Black-Scholes-Merton valuation model, was \$13.93 and \$12.19, respectively. These options vest in 3 equal installments over 3 years and have a contractual term of 5 years. Option grants that vested during the six months ended June 30, 2010 and 2009 had a combined fair value of \$5.0 million and \$4.7 million, respectively.

Edgar Filing: MANTECH INTERNATIONAL CORP - Form 10-Q

Information with respect to stock option activity and stock options outstanding for the year ended December 31, 2009 and the six months ended June 30, 2010.

Shares under option, June 30, 2010	2,847,008	\$ 43.96	\$ 9,209

The following table summarizes nonvested stock options for the six months ended June 30, 2010:

	Number of Shares	Weighted Average Fair Value
Nonvested stock options at December 31, 2009	1,871,749	\$ 13.05
Options granted	622,000	\$ 13.93
Vested during period	(429,917)	\$ 11.55
Options forfeited (non-vested)	(222,580)	\$ 11.28
Nonvested shares under option, June 30, 2010	1,841,252	\$ 13.81

Information concerning stock options outstanding and stock options expected to vest at June 30, 2010:

	Options Exercisable and Expected to Vest	Weighted Average Remaining Contractual Life (years)	Weighted Average Exercise Price	Aggregate Intrinsic Value (in thousands)
Stock options exercisable	1,005,756	2.4	\$ 34.90	\$ 8,661
Stock options expected to vest	1,265,406	3.7	\$ 47.37	\$ 529
Options exercisable and expected to vest	2,271,162			

Unrecognized compensation expense related to outstanding stock options expected to vest as of June 30, 2010 was \$13.2 million. The expense is expected to be recognized over a weighted-average period of 2.0 years and will be adjusted for any future changes in estimated forfeitures.

Edgar Filing: MANTECH INTERNATIONAL CORP - Form 10-Q

Restricted Stock-Under the Plan, we have issued Restricted Stock. A restricted stock award is an issuance of shares that cannot be sold or transferred by the recipient until the vesting period lapses. Restricted shares issued to employees vest over three years in one-third increments on the first, second and third anniversaries of the grant date, contingent upon employment with the Company on the vesting dates. Restricted shares issued to our Board of Directors vest in one year. The related compensation expense is recognized over the service period and is based on the grant date fair value of the stock and the number of shares expected to vest.

Restricted Stock Activity-During the six months ended June 30, 2010, we granted 51,000 shares of restricted stock. The following table summarizes the restricted stock activity during the six months ended June 30, 2010:

	Number of Shares	Grant Date Fair Value (in thousands)
Nonvested, December 31, 2009	0	
Granted	51,000	\$ 2,447
Vested	0	
Forfeited	0	
Nonvested, June 30, 2010	51,000	

Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****June 30, 2010****UNAUDITED****11. Business Segment and Geographic Area Information**

We have one reportable segment. We deliver a broad array of information technology and technical services solutions under contracts with the U.S. government, state and local governments and commercial customers. Our federal government customers typically exercise independent contracting authority, and even offices or divisions within an agency or department may directly, or through a prime contractor, use our services as a separate customer so long as that customer has independent decision-making and contracting authority within its organization. Revenues from the U.S. government under prime contracts and subcontracts were approximately 98.7% and 98.1% of our total revenue for the six months ended June 30, 2010 and 2009, respectively. There were no sales to any customers within a single country (except for the United States) where the sales accounted for 10% or more of total revenue. We treat sales to U.S. government customers as sales within the United States regardless of where the services are performed. Substantially all assets of continuing operations were held in the United States for the periods ended June 30, 2010 and December 31, 2009. Revenues by geographic customer and the related percentages of total revenues for the three and six months ended June 30, 2010 and 2009 were as follows (in thousands):

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements that involve substantial risks and uncertainties, many of which are outside of our control. ManTech International Corporation (depending on the circumstances, ManTech, Company, we, our, ours or us) believes these statements to be within the definition of the Private Securities Litigation Reform Act of 1995. You can identify these statements by forward-looking words such as may, will, expect, intend, anticipate, believe, estimate, continue and other similar words. You should read statements that contain these words carefully because they discuss our future expectations, make projections of our future results of operations or financial condition or state other forward-looking information.

Although forward-looking statements in this Quarterly Report reflect the good faith judgment of management, such statements can only be based on facts and factors currently known by us. Consequently, forward-looking statements are inherently subject to risks and uncertainties, and actual results and outcomes may differ materially from the results and outcomes discussed in or anticipated by the forward-looking statements. We believe that it is important to communicate our future expectations to our investors. However, there may be events in the future that we are not able to predict accurately or control. Factors that could cause actual results to differ materially from the results we anticipate include, but are not limited to, the following:

adverse changes in U.S. government spending priorities;

failure to retain existing U.S. government contracts, win new contracts or win recompetes;

risks associated with complex U.S. government procurement laws and regulations;

adverse results of U.S. government audits of our government contracts;

risk of contracts performance, modification or termination;

curtailment of the U.S. Government's outsourcing of certain services that we provide;

failure to obtain option awards, task orders or funding under contracts;

adverse changes in our mix of contract types;

risks of financing, such as increases in interest rates, restrictions imposed by our outstanding indebtedness, including the ability to meet existing financial covenants, and risks related to an inability to obtain new or additional financing;

failure to successfully integrate recently acquired companies or businesses into our operations or to realized any accretive or synergistic effects from such acquisitions;

failure to identify, execute or effectively integrate future acquisitions; and

competition.

We urge you not to place undue reliance on these forward-looking statements, which speak only as of the date of this Quarterly Report. These and other risk factors are more fully described and discussed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, previously filed with the Securities and Exchange Commission (SEC) and Item 1.A. of Part II of this Quarterly Report, and from time to time, in our other filings with the SEC. We undertake no obligation to revise or update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this Quarterly Report. We also suggest that you carefully review and consider the various disclosures made in this Quarterly Report that attempt to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects.

Table of Contents**Introduction and Overview**

ManTech is a leading provider of innovative technologies and solutions for mission-critical national security programs for the Intelligence Community; the departments of Defense, State, Homeland Security and Justice; and other U.S. federal government customers. Our expertise includes systems engineering, systems integration, enterprise architecture, cyber security, information assurance, intelligence operations and analysis support, network and critical infrastructure protection, information operations and information warfare support, information technology, communications integration, global logistics and supply chain management and service oriented architectures. Our commitment to customer mission is one of our key differentiators. We currently have approximately 9,100 highly qualified employees operating in approximately 40 countries worldwide.

We derive revenue primarily from contracts with U.S. government agencies that are focused on national security, and as a result, funding for our programs is generally linked to trends in U.S. government spending in the areas of defense, intelligence, homeland security and other federal government agencies. Related to the evolving terrorist threats and world events, the U.S. government has continued to increase its overall defense, intelligence and homeland security budgets.

We recommend that you read this discussion and analysis in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, previously filed with the SEC as well as the quarterly financial statements and notes contained within this Form 10-Q filing.

Revenues

Revenues increased 28.7% to \$661.6 million for the three months ended June 30, 2010, compared to \$514.1 million for the same period in 2009. The increase was primarily due to our acquisition of Sensor Technologies Inc. (STI) on January 15, 2010. Intelligence, Surveillance and Reconnaissance (ISR) system infrastructure services contributed revenue growth of \$146.8 million, including \$129.8 million from contracts obtained through the acquisition of STI. Revenue growth of \$13.4 million came from our cyber security related contracts. These increases were partially offset by a decrease due to lower procurement of materials on our contracts for the installation, sustainment and repair of communication systems and heavily armored vehicles designed to counter or clear mines and improvised explosive devices (IED), such as the Route Clearance family of vehicles supporting the U.S. Army Tank-Automotive Armaments Command (TACOM).

Cost of services

Edgar Filing: MANTECH INTERNATIONAL CORP - Form 10-Q

Cost of services increased 33.2% to \$562.3 million for the three months ended June 30, 2010, compared to \$422.2 million for the same period in 2009. The increase in cost of services is primarily due to our acquisition of STI. As a percentage of revenues, cost of services increased 2.9% to 85.0% for the three months ended June 30, 2010 as compared to 82.1% for the same period in 2009. Direct labor costs, which include applicable fringe benefits and overhead, increased by 14.8% over the same period in 2009 primarily due to growth in staff supporting global logistics, supply chain management and ISR programs, as well as the acquisition of STI. As a percentage of revenue, direct labor costs decreased 4.1% to 34.4% for the three months ended June 30, 2010, compared to 38.5% for the same period in 2009. The decrease in direct labor as a percentage of revenues is primarily due to the relative mix of direct labor and other direct costs. Other direct costs, which include subcontractors and third party equipment and materials used in the performance of our contracts, increased by 49.4% over the same period in 2009. The increase in other direct costs was primarily due to subcontractors related to STI contracts. As a percentage of revenues, other direct costs increased by 7.0% from 43.6% for the three months ended June 30, 2009 to 50.6% for the same period in 2010.

Table of Contents*General and administrative expenses*

General and administrative expenses decreased 8.9% to \$42.8 million for the three months ended June 30, 2010, compared to \$47.0 million for the same period in 2009. The decrease is primarily due to various expense cutting efforts by management and the final consolidation of SRS Technologies back office function into our centralized functions in late 2009. The Company also experienced lower expenses for legal services and for services related to the compliance area due to new process efficiencies, as well as reduced stock based compensation expenses due to higher forfeiture estimates. These decreases were partially offset by increases in amortization of intangible assets from the acquisition of STI. As a percentage of revenues, general and administrative expenses decreased to 6.5% from 9.1% for the three months ended June 30, 2010 and 2009, respectively, due to a reduction in overall expenses and the leveraging of our general and administrative costs over a larger base.

Interest expense

Interest expense increased \$3.2 million to \$3.6 million for the three months ended June 30, 2010, compared to \$0.4 million for the same period in 2009. The increase in interest expense is due to an increased level of indebtedness related to the acquisition of STI in January 2010 and a higher interest rate on our new debt. We incurred \$3.2 million of interest expense related to our 7.25% senior unsecured notes issued in April 2010. We utilized proceeds from the note issuance to pay off all outstanding borrowings under our credit facility. Borrowings under our credit facility were used to finance the acquisition of STI. The interest rate on the notes is higher than the interest currently available to us under our credit facility. We expect to incur \$3.8 million in interest expense each quarter related to the notes until they are retired.

Net income

Net income increased 12.7% to \$32.2 million for the three months ended June 30, 2010, compared to \$28.5 million for the same period in 2009. The increase in net income was primarily driven by the acquisition of STI and an overall reduction in general and administrative expenses offset by an increase in interest expense as well as an increase in our effective tax rate. Our effective tax rates for the three months ended June 30, 2010 and 2009 were 39.0% and 36.1%, respectively. The increase in our effective tax rate is largely attributable to losses within our deferred compensation plan.

Six Months Ended June 30, 2010 Compared to the Six Months Ended June 30, 2009

Revenues

Revenues increased 29.6% to \$1,249.2 million for the six months ended June 30, 2010, compared to \$963.6 million for the same period in 2009. The increase was primarily due to our acquisition of STI as well as our contracts supporting forward deployments in Iraq, Afghanistan and other locations around the world. ISR systems infrastructure services contributed revenue growth of \$249.6 million, including \$219.3 million from contracts obtained through the acquisition of STI. Our cyber security related contracts also contributed revenue growth of \$25.6 million.

Edgar Filing: MANTECH INTERNATIONAL CORP - Form 10-Q

Revenue growth of \$11.9 million came from contracts for the installation, sustainment and repair of communication systems and heavily armored vehicles designed to counter or clear mines and IEDs, such as the Route Clearance family of vehicles supporting TACOM.

Table of Contents

We are expecting the growth in revenues to continue for the remainder of 2010 as a result of our acquisition of STI and continued expansion in areas of cyber security, ISR systems infrastructure maintenance and repair, Systems Engineering and Technical Assistance (SETA) and services supporting global logistics and supply chain maintenance. While we believe there will be continued growth in our global logistics and supply chain management contracts, we recognize the uncertainty in the U.S. mission and priority of funding for combat operations in Iraq and Afghanistan. The continued growth in our cyber security contracts is expected as a result of funding under the Government's Comprehensive National Cyber Initiative.

Cost of services

Cost of services increased 34.0% to \$1,061.9 million for the six months ended June 30, 2010, compared to \$792.5 million for the same period in 2009. The increase in cost of services is primarily due to our acquisition of STI as well as our IED and property management contracts. As a percentage of revenues, cost of services increased 2.8% to 85.0% for the six months ended June 30, 2010 as compared to 82.2% for the same period in 2009. Direct labor costs, which includes applicable fringe benefits and overhead, increased by 13.9% over the same period in 2009 primarily due to growth in staff supporting global logistics, supply chain management and ISR programs, as well as our acquisition of STI. As a percentage of revenues, direct labor costs decreased 4.9% to 35.2% for the six months ended June 30, 2010, compared to 40.1% for the same period in 2009. The decrease in direct labor as a percentage of revenues is primarily due to the relative mix of direct labor and other direct costs. Other direct costs, which include subcontractors and third party equipment and materials used in the performance of our contracts, increased by 53.1% over the same period in 2009. The increase in other direct costs was primarily due to subcontractors related to STI contracts. As a percentage of revenues, other direct costs increased by 7.7% from 42.1% for the six months ended June 30, 2009 to 49.8% for the same period in 2010. We expect cost of services to increase, consistent with revenue, for the remainder of fiscal year 2010.

General and administrative expenses

General and administrative expenses decreased 0.4% to \$85.5 million for the six months ended June 30, 2010, compared to \$85.9 million for the same period in 2009. The decrease is primarily due to various expense cutting efforts by management and the final consolidation of SRS Technologies back office function into our centralized functions in late 2009. The Company also experienced lower expenses for legal services and for services related to the compliance area due to new process efficiencies, as well as reduced stock based compensation expense due to higher forfeiture estimates. These decreases were partially offset by an increase in amortization of intangible assets related to the acquisition of STI. As a percentage of revenues, general and administrative expenses decreased 2.1% from 8.9% to 6.8% for the six months ended June 30, 2010 and 2009, respectively.

Interest expense

Interest expense increased \$3.9 million to \$4.6 million for the six months ended June 30, 2010, compared to \$0.7 million for the same period in 2009. The increase in interest expense is due to an increased level of indebtedness related to the acquisition of STI in January 2010 and a higher interest rate on our new debt. We incurred \$3.2 million of interest expense related to our 7.25% senior unsecured notes issued in April 2010. We utilized proceeds from the note issuance to pay off all outstanding borrowings under our credit facility. Borrowings under our credit facility were used to finance the acquisition of STI. The interest rate on the notes is higher than the interest currently available to us under our credit facility.

Net income

Net income increased 12.6% to \$59.7 million for the six months ended June 30, 2010, compared to \$53.0 million for the same period in 2009. The increase was primarily driven by our acquisition of STI and our contracts supporting forward deployments. These increases were partially offset by increases in interest expense and our effective tax rate as well as a reduction in profitability on some of our other contracts. Our effective tax rates for the six months ended June 30, 2010 and 2009 were 38.5% and 37.5%, respectively.

Backlog

At June 30, 2010 and December 31, 2009, our backlog was \$4.5 billion and \$3.8 billion, respectively, of which \$1.4 billion and \$1.1 billion, respectively, was funded backlog. Backlog represents estimates that we calculate on a consistent basis. Additional information on how we determine backlog is included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, previously filed with the SEC.

Table of Contents**Effects of Inflation**

Inflation and uncertainties in the macroeconomic environment, such as conditions in the financial markets, could impact our labor rates beyond the predetermined escalation factors. However, we generally have been able to price our contracts in a manner to accommodate the rates of inflation experienced in recent years. Under our time and materials contracts, labor rates are usually adjusted annually by predetermined escalation factors. Our cost reimbursable contracts automatically adjust for changes in cost. Under our fixed-price contracts, we include a predetermined escalation factor, but generally, we have not been adversely affected by near-term inflation. Purchases of equipment and materials directly for contracts are usually cost reimbursable.

Liquidity and Capital Resources

Our primary liquidity needs are the financing of acquisitions, working capital and capital expenditures. Our primary source of liquidity is cash provided by operations, our 7.25% senior unsecured notes and our revolving credit facility. At June 30, 2010, we had no outstanding balance under our credit facility. At June 30, 2010, we were contingently liable under letters of credit totaling \$1.4 million, which reduces our ability to borrow under our credit facility. The maximum available borrowing under our credit facility at June 30, 2010 was \$348.6 million. At June 30, 2010, we had \$200.0 million of our 7.25% senior unsecured notes outstanding.

In April 2010, we utilized the proceeds from the 7.25% senior unsecured notes issuance to pay off the outstanding balance under our credit facility and the remainder will be utilized to fund future acquisitions.

Generally, cash provided by operating activities is adequate to fund our operations. Due to fluctuations in our cash flows and the growth in our operations, it is necessary from time to time to increase borrowings under our credit facility to meet cash demands.

Cash flows from operating activities

(in thousands)	Six Months Ended June 30,	
	2010	2009
Net cash flow from operating activities	\$ 112,749	\$ 66,885

Our operating cash flow is primarily affected by the overall profitability of our contracts, our ability to invoice and collect from our clients in a timely manner and our ability to manage our vendor payments. We bill most of our customers and prime contractors monthly after services are rendered. Increased cash flow from operations during the six months ended June 30, 2010 compared to the same period in 2009 was a result of timing of vendor payments and accrued salaries as well as increased net income. Our accounts receivable days sales outstanding ratio was 63 and 66 for the periods ended June 30, 2010 and 2009, respectively.

Cash flows from investing activities

(in thousands)	Six Months Ended June 30,	
	2010	2009
Net cash flow from investing activities	(\$ 241,233)	(\$ 16,551)

Our cash flow from investing activities consists primarily of capital expenditures, leasehold improvements, software and business acquisitions. Cash outflows during the six months ended June 30, 2010 were primarily due to the acquisition of STI on January 15, 2010 for approximately \$236.1 million, net of cash acquired. Cash outflows during the six months ended June 30, 2009 were primarily due to the acquisition of DDK on March 13, 2009 for \$14.0 million as well as purchases of equipment and software for internal use.

Cash flows from financing activities

Edgar Filing: MANTECH INTERNATIONAL CORP - Form 10-Q

(in thousands)	Six Months Ended	
	June 30,	
	2010	2009
Net cash flow from financing activities	\$ 204,568	(\$ 21,268)

Cash flow from financing during the six months ended June 30, 2010 resulted primarily from the issuance of 7.25% senior unsecured notes for \$200.0 million and the proceeds from the exercise of stock options, offset by debt issuance costs. The

Table of Contents

proceeds of our notes issuance were utilized to payoff outstanding amounts under our credit facility. We utilized \$200.0 million in borrowings under our credit facility to finance our acquisition of STI. Cash flow from financing during the six months ended June 30, 2009 resulted primarily from payments under our credit facility of \$24.1 million partially offset by proceeds from the exercise of stock options of \$2.6 million.

Credit Agreement

We believe the capital resources available to us under our credit agreement with up to \$350.0 million in loan commitments and cash from our operations are adequate to fund our ongoing operations and to support the internal growth we expect to achieve for at least the next twelve months. We anticipate financing our external growth from acquisitions and our longer-term internal growth through one or more of the following sources: cash from operations, use of the existing revolving facility, 7.25% senior unsecured notes issued April 13, 2010 and additional borrowing or issuance of equity. At June 30, 2010, we had no outstanding balance under our credit facility.

For a more fulsome discussion of our credit agreement, including certain financial and other covenants with which we must comply, please see Note 8 to our Financial Statements including herein. As of June 30, 2010, the Company was in compliance with the financial covenants under the credit agreement.

7.25% Senior Unsecured Notes Due 2018

Effective April 13, 2010, the Company issued \$200.0 million of 7.25% senior unsecured notes in a private placement that were resold inside the United States to qualified institutional buyers in reliance on Rule 144A under the Securities Act of 1933, and outside the United States to non-U.S. persons in reliance on Regulation S under Securities Act of 1933. The 7.25% senior unsecured notes mature on April 15, 2018 with interest payable semi-annually starting on October 15, 2010. A portion of the proceeds from the issuance was used to pay-off the outstanding balance under our credit agreement.

Pursuant to the terms of a registration rights agreement entered into in connection with the issuance of the 7.25% senior unsecured notes, on July 22, 2010 ManTech commenced an offer to exchange \$200.0 million in aggregate principal amount of 7.25% senior unsecured notes due 2018 that are registered under the Securities Act of 1933, as amended, for any and all of the outstanding 7.25% senior unsecured notes due 2018.

For a more fulsome discussion of our 7.25% senior unsecured notes, including certain covenants contained in the indenture governing the notes, please see Note 8 to our Financial Statements including herein. As of June 30, 2010, the Company was in compliance with all covenants required by the indenture.

Critical Accounting Estimates and Policies

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, and potentially result in materially different results under different assumptions and conditions. Application of these policies is particularly important to the portrayal of our financial condition and results of operations. The discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these condensed consolidated financial statements requires management to make estimates and judgments that affect the reported amount of assets, liabilities, revenues and expenses. Actual results may differ from these estimates under different assumptions or conditions. Our significant accounting policies, including the critical accounting policies and practices listed below, are more fully described and discussed in the notes to consolidated financial statements for the fiscal year 2009 included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, filed with the SEC on February 26, 2010.

Revenue Recognition and Cost Estimation

We recognize revenue when persuasive evidence of an arrangement exists, services have been rendered, the contract price is fixed or determinable and collectability is reasonably assured. We have a standard internal process that we use to determine whether all required criteria for revenue recognition have been met.

Our revenues consist primarily of services provided by our employees and the pass through of costs for materials and subcontract efforts under contracts with our customers. Cost of services consists primarily of compensation expenses for program personnel, the fringe benefits associated with this compensation and other direct expenses incurred to complete programs, including cost of materials and subcontract efforts.

Table of Contents

We derive the majority of our revenue from cost-plus-fixed-fee, cost-plus-award-fee, firm-fixed-price or time-and-materials contracts. Revenues for cost-reimbursement contracts are recorded as reimbursable costs are incurred, including an estimated share of the applicable contractual fees earned. For performance-based fees under cost reimbursable contracts that are subject to the Accounting Standards Codification (ASC) 605-35, *Construction-Type and Certain Production-Type Contracts*, we recognize the relevant portion of the expected fee to be awarded by the client at the time such fee can be reasonably estimated, based on factors such as our prior award experience and communications with the client regarding performance. For cost reimbursable contracts with performance-based fee incentives that are subject to the provisions of SEC Topic 13, *Revenue Recognition*, we recognize the relevant portion of the fee upon customer approval. For time-and-material contracts, revenue is recognized to the extent of billable rates times hours delivered plus material and other reimbursable costs incurred. For long-term fixed-price production contracts, revenue is recognized at a rate per unit as the units are delivered, or by other methods to measure services provided. Revenues from other long-term fixed-price contracts is recognized ratably over the contract period or by other appropriate methods to measure services provided. Contract costs are expensed as incurred except for certain limited long-term contracts noted below. For long-term contracts specifically described in the ASC 605-35, we apply the percentage of completion method. Under the percentage of completion method, income is recognized at a consistent profit margin over the period of performance based on estimated profit margins at completion of the contract. This method of accounting requires estimating the total revenues and total contract cost at completion of the contract. During the performance of long-term contracts, these estimates are periodically reviewed and revisions are made as required. The impact on revenue and contract profit as a result of these revisions is included in the periods in which the revisions are made. This method can result in the deferral of costs or the deferral of profit on these contracts. Because we assume the risk of performing a fixed-price contract at a set price, the failure to accurately estimate ultimate costs or to control costs during performance of the work could result, and in some instances has resulted, in reduced profits or losses for such contracts. Estimated losses on contracts at completion are recognized when identified. In certain circumstances, revenues are recognized when contract amendments have not been finalized.

Accounting for Business Combinations and Goodwill and Other Intangible Assets

The purchase price of an acquired business is allocated to the tangible assets, financial assets and separately recognized intangible assets acquired less liabilities assumed based upon their respective fair values, with the excess recorded as goodwill. Such fair value assessments require judgments and estimates that can be affected by contract performance and other factors over time, which may cause final amounts to differ materially from original estimates.

We review goodwill at least annually for impairment. We have elected to perform this review annually during the second quarter of each calendar year. No adjustments were necessary as a result of this review during the quarter ended June 30, 2010.

Whenever events or changes in circumstances indicate that the carrying amount of long-lived assets may be fully recoverable, we evaluate the probability that future undiscounted net cash flows, without interest charges, will be less than the carrying amount of the assets. If any impairment were indicated as a result of this review, we recognize a loss based on the amount by which the carrying amount exceeds the estimated fair value.

Accounting Standard Updates

In February 2010, Accounting Standards Update No. 2010-09, *Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements*, was issued. This Update addresses both the interaction of the requirements of ASC 855, *Subsequent Events*, with the SEC's reporting requirements and the intended breadth of the reissuance disclosures provision related to subsequent events. The amendments in this Update affect all entities. The amendments remove the requirement for an SEC filer to disclose a date in both issued and revised financial statements. Revised financial statements include financial statements revised as a result of either correction of an error or retrospective application of U.S. Generally Accepted Accounting Principles (GAAP). Additionally, the Financial Accounting Standards Board (FASB) has clarified that if the financial statements have been revised, then an entity that is not an SEC filer should disclose both the date that the financial statements were issued or available to be issued and the date the revised financial statements were issued or available to be issued. All of the amendments in this Update are effective upon issuance of the final Update, except for the use of the issued date for conduit debt obligors. That amendment is effective for interim or annual periods ending after June 15, 2010. The adoption of Accounting Standards Update No. 2010-09 did not have a significant impact on the Company's results of operations or financial position.

In January 2010, Accounting Standards Update No. 2010-02, *Consolidation (Topic 810): Accounting and Reporting for Decreases in Ownership of a Subsidiary - a Scope Clarification*, was issued. The objective of this Update is to address implementation issues related to the changes in ownership provisions in ASC 810-10, *Consolidation - Overall*. The amendments in this Update affect accounting and reporting by an entity that experiences a decrease in ownership in a subsidiary that is a business or non-profit. The amendments also affects accounting and reporting by an entity that exchanges a group of assets that constitutes a business or nonprofit activity for an equity interest in another entity. The amendments affect entities that have previously adopted the decrease in ownership provisions of ASC 810-10 but have applied the guidance in that Subtopic

Table of Contents

differently from the guidance provided in the Update. This Update provides amendments to ASC 810-10 and related guidance within U.S. GAAP to clarify the scope of the decrease in ownership provisions of the Subtopic and related guidance applies to a subsidiary or group of assets that is a business or non-profit activity; a subsidiary that is a business or non-profit activity that is transferred to an equity method investee or joint venture; and an exchange of a group of assets that constitutes a business or nonprofit activity for a noncontrolling interest in an entity. The amendments in this Update expand the disclosures about the deconsolidation of a subsidiary or derecognition of a group of assets within the scope of ASC 810-10. In addition to the existing disclosures, an entity should disclose the valuation techniques used to measure the fair value of any retained investment in the former subsidiary or group of assets and information that enables users of its financial statements to assess the input used to develop the measurement; the nature of continuing involvement with the subsidiary or entity the group of assets after it has been deconsolidated or derecognized; and whether the transaction that resulted in the deconsolidation of the subsidiary or the derecognition of the group of assets was with a related party or whether the former subsidiary or entity acquiring the group of assets will be a related party after deconsolidation. An entity also should disclose the valuation techniques used to measure an entity interest in an acquiree held by the entity immediately before the acquisition date in a business combination achieved in stages. The amendments in this Update are effective beginning in the period that an entity adopts Statement of Financial Accounting Standard (SFAS) 160, which was codified in July 2009 in ASC 810-10. If an entity has previously adopted SFAS 160 as of the date the amendments in this Update are included in the ASC, the amendments in this Update are effective beginning in the first interim or annual reporting period ending on or after December 15, 2009. The amendments in this Update should be applied retrospectively to the first period that an entity adopted SFAS 160. We do not anticipate that the adoption of Accounting Standards Update No. 2010-02 will have any significant impact on the Company's results of operations or financial position.

Item 3. Quantitative and Qualitative Disclosure about Market Risks

Our exposure to market risks relates to changes in interest rates for borrowing under our revolving credit facility. At June 30, 2010, we had no outstanding balance on our revolving credit facility. Borrowings under our revolving credit facility bear interest at variable rates. A hypothetical 10% increase in interest rates would increase our annual interest expense for the six months ended June 30, 2010, by \$0.1 million.

We do not use derivative financial instruments for speculative or trading purposes. When we have excess cash, we invest in short-term, investment grade, interest-bearing securities. Our investments are made in accordance with an investment policy. Under this policy, no investment securities can have maturities exceeding six months and the weighted average maturity of the portfolio cannot exceed 60 days.

Item 4. Controls and Procedures

As of June 30, 2010, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer (our principal executive officer and principal financial officer, respectively), management evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 of the Exchange Act. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this report, such that the information relating to us that is required to be disclosed in our reports filed with the SEC (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

We are subject to certain legal proceedings, government audits, investigations, claims and disputes that arise in the ordinary course of our business. Like most large government defense contractors, our contract costs are audited and reviewed on a continual basis by an in-house staff of auditors from the Defense Contract Auditing Agency. In addition to these routine audits, we are subject from time to time to audits and investigations by other agencies of the federal government. These audits and investigations are conducted to determine if our performance and administration of our government contracts are compliant with contractual requirements and applicable federal statutes and regulations. An audit or investigation may result in a finding that our performance, systems and administration is compliant or, alternatively, may result in the government initiating proceedings against us or our employees, including administrative proceedings seeking repayment of monies, suspension and/or debarment from doing business with the federal government or a particular agency, or civil or criminal proceedings seeking penalties and/or fines. Audits and investigations conducted by the federal government frequently span several years.

Although we cannot predict the outcome of these and other legal proceedings, investigations, claims and disputes, based on the information now available to us, we do not believe the ultimate resolution of these matters, either individually or in the aggregate, will have a material adverse effect on our business, prospects, financial condition, operating results or cash flows.

Item 1A. Risk Factors

See Item 1.A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2009 for a detailed discussion of risk factors affecting ManTech. As of the date of filing this Quarterly Report on Form 10-Q, we have updated or added to those previously reported risk factors as follows:

Covenants in the instruments governing our indebtedness may restrict our financial and operating flexibility.

We maintain a credit agreement with a syndicate of lenders led by Bank of America, N.A., as administrative agent. The credit agreement provides for a revolving credit facility with up to \$350.0 million in loan commitments. The maturity date for the credit agreement is April 30, 2012. The terms of the credit agreement permit prepayment and termination at any time, subject to certain conditions. On December 18, 2009, we amended the terms and conditions of the credit agreement by (among other things) (i) increasing the applicable rate applied to ManTech's outstanding base rate loans, letters of credit and Eurodollar rate loans under the credit agreement, (ii) permitting ManTech and its subsidiaries to incur additional unsecured indebtedness in accordance with the covenants of the credit agreement, as amended, (iii) imposing a consolidated leverage ratio requirement on ManTech's ability to acquire additional companies rather than an annual \$200.0 million limitation, (iv) increasing ManTech's capacity to repurchase its capital stock pursuant to a repurchase plan in accordance with the covenants of the credit agreement, as amended and (v) amending certain other affirmative and restrictive covenants. The terms of our credit facility also contain certain covenants that limit our ability to create liens, merge or consolidate, dispose of assets, incur indebtedness and guarantees, repurchase or redeem capital stock and indebtedness, make certain investments or acquisitions, enter into certain transactions with affiliates or change the nature of our business. The credit agreement also contains financial maintenance covenants establishing a maximum total leverage ratio and a minimum fixed charge coverage ratio.

On April 13, 2010, we issued an aggregate principal amount of \$200,000,000 of 7.25% senior unsecured notes due 2018. The 7.25% senior unsecured notes are general unsecured senior obligations and are guaranteed by our existing and future wholly-owned domestic subsidiaries that also guarantee debt obligations under our credit facility. These 7.25% senior unsecured notes are subordinate to our existing and future senior secured debt (to the extent of the value of the assets securing such debt), including any indebtedness under our credit facility. The indenture governing these notes contains covenants that, subject to important exceptions and qualifications specified in the indenture, will, among other things, limit our ability and the ability of our subsidiaries that guarantee the 7.25% senior unsecured notes to: pay dividends and distributions; repurchase equity; prepay subordinated debt or make certain investments; incur additional debt or issue certain disqualified stock and preferred stock; incur liens on assets; merge or consolidate with another company or sell all or substantially all assets; allow to exist certain restrictions on the ability of the guarantors to transfer assets; and enter into sale and lease-back transactions. Further, upon the occurrence of a change of control (as defined in the indenture), we will be required, unless certain conditions are met, to make an offer to repurchase the 7.25% senior unsecured notes at a price equal to 101% of the principal amount of the 7.25% senior unsecured notes, plus any accrued and unpaid interest to the date of purchase.

Edgar Filing: MANTECH INTERNATIONAL CORP - Form 10-Q

As a result of such covenants and restrictions in the instruments governing our indebtedness, we will be limited in how we conduct our business and we may be unable to raise additional debt or equity financing to take advantage of new business opportunities. In addition, our ability to satisfy the financial ratios required by our instruments of indebtedness can be affected by events beyond our control and we cannot assure you that we will meet these ratios. We cannot assure you that we will be able to

maintain compliance with these covenants in the future and, if we fail to do so, we may be in default under our credit facility or the indenture, and we may be prohibited from undertaking actions that are necessary or desirable to maintain and expand our business.

Default under our credit facility could allow the lenders to declare all amounts outstanding to be immediately due and payable. We have pledged substantially all of our assets to secure the debt under our credit facility. If the lenders declare amounts outstanding under the credit facility to be due, the lenders could proceed against those assets. Any event of default, therefore, could have a material adverse effect on our business if the creditors determine to exercise their rights.

Default under the indenture governing our 7.25% senior unsecured notes will allow either the trustee or the holders of at least 25% in principal amount of the then outstanding 7.25% senior unsecured notes to accelerate, or in certain cases, will automatically cause the acceleration of, the amounts due under the 7.25% senior unsecured notes. Any event of default, therefore, could have a material adverse effect on our business if the amounts due are accelerated.

Our substantial level of indebtedness could materially adversely affect our ability to generate sufficient cash to fulfill our obligations under our outstanding indebtedness, our ability to react to changes in our business and our ability to incur additional indebtedness to fund future needs.

Our substantial level of indebtedness increases the possibility that we may be unable to generate cash sufficient to pay, when due, the principal of, interest on or other amounts due in respect of our indebtedness. Our substantial indebtedness, combined with our other financial obligations and contractual commitments, could:

make it more difficult for us to satisfy our obligations with respect to our indebtedness, including our 7.25% senior unsecured notes and indebtedness under our credit agreement, and any failure to comply with the obligations under any of our debt instruments, including restrictive covenants, could result in an event of default under the indenture governing the notes, our credit facility or any agreements governing other indebtedness;

require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing funds available for working capital, capital expenditures, acquisitions, research and development and other corporate purposes;

increase our vulnerability to adverse economic and industry conditions, which could place us at a competitive disadvantage compared to competitors that have relatively less indebtedness;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

limit the rights of the holders of our 7.25% senior unsecured notes to receive payments under the notes if secured creditors have not been paid;

limit our ability to borrow additional funds, or to dispose of assets to raise funds, if needed, for working capital, capital expenditures, acquisitions, research and development and other corporate purposes; and

prevent us from raising the funds necessary to repurchase all of our 7.25% senior unsecured notes tendered to us upon the occurrence of certain changes of control, which would constitute a default under the indenture governing the notes.

Subject to the restrictions in our credit facility and the indenture governing the senior unsecured notes, we may incur significant additional indebtedness. If we incur significant additional indebtedness, the related risks that we face could become more significant. Additionally, the terms of any future debt that we may incur may impose requirements or restrictions that further affect our financial and operating flexibility or subject us to other events of default.

Item 6. Exhibits

Exhibits required by Item 601 of Regulation S-K:

Exhibit	Description of Exhibit
12.1	Ratio of Earnings to Fixed Charges
