INFORMATION ABOUT VOTING AND THE MEETING

Who May Vote

Stockholders of PDC, as recorded in the Company's stock register on the record date of April 17, 2013, may vote at the meeting (the Annual Meeting). The outstanding voting securities of the Company as of April 17, 2013 consisted of 30,332,652 shares of common stock. Each share of common stock is entitled to one vote on each matter considered at the meeting.

How Proxies Work

The Board is asking for your proxy. Giving the Board your proxy means that you authorize the Board to vote your shares at the meeting in the manner you direct. We will vote your shares as you direct. You may vote for one or both Class III Director Nominees, or you may withhold your vote from one or both of the Director Nominees. You may also vote for or against the other proposals, or abstain from voting. If your shares are held in your name, you can vote by completing, signing and dating your proxy card and returning it in the enclosed envelope. If you give the Board your signed proxy but do not specify how to vote, your shares will be voted (1) in favor of approval of both of the Class III Director Nominees named in the proxy; (2) in favor of the ratification of PricewaterhouseCoopers LLP (PwC) as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2013; (3) in favor of approving the Company's compensation of its named executive officers; and (4) in favor of the Company's Amended and Restated 2010 Long-Term Equity Compensation Plan.

If you hold shares through someone else, such as a stockbroker, you will receive material from that firm asking how you want to vote. Review the voting form used by that firm to determine what procedures you must follow in order for you to vote your shares. If the broker does not receive voting instructions from you, the broker may only vote on a proposal that is not considered a significant matter under the applicable rules. At the Annual Meeting, your broker may vote without your instructions only on the ratification of the appointment of PwC as our independent registered public accounting firm for 2013. A broker's failure to vote because it lacks discretionary authority to do so is commonly referred to as a broker non-vote. The effect of broker non-votes differs between the various proposals to be voted upon at the Annual Meeting. For a description of the effect of broker non-votes on each proposal, see Votes Needed below.

Voting 401(k) and Profit Sharing Plan Shares

If you are a participant in PDC's 401(k) and Profit Sharing Plan and have shares of PDC common stock credited to your plan account as of the record date, you have the right to direct the plan trustee how to vote those shares. The trustee will vote the shares in your plan account in accordance with your instructions. Your vote may not be counted if your proxy card is not received by June 1, 2013. You cannot vote such shares at the Annual Meeting or change your vote.

Revoking a Proxy

You may revoke your proxy before it is voted by:

Submitting a new signed proxy with a later date;

Notifying PDC's Corporate Secretary in writing before the meeting that you wish to revoke your proxy; or

Appearing at the meeting, notifying the Inspector of the Election that you wish to revoke your proxy, and voting in person at the meeting. Merely attending the meeting will not result in revocation of your proxy.

If you hold your shares through someone else, such as a stockbroker, you will need to follow the directions they give you to revoke a proxy or otherwise vote at the meeting.

Table of Contents**Quorum**

In order to carry on the business of the meeting, there must be a quorum. This means that at least a majority of the outstanding shares eligible to vote must be represented at the meeting, either by proxy or in person. Treasury shares, which are shares owned by PDC itself, are not voted and do not count for this purpose. Abstentions and broker non-votes will count for quorum purposes.

Votes Needed

The following table presents the voting requirements to elect the two Class III Director Nominees and approve the other proposals presented in this Proxy Statement. Under the Majority Voting Policy contained in Section 3(e) of our Corporate Governance Guidelines, any nominee who receives a greater number of withheld votes than for votes is required to tender his or her resignation for consideration by the Nominating and Corporate Governance Committee of the Board. We have provided more information about our Majority Voting Policy under the heading Corporate Governance – Majority Voting Policy.

Attending in Person

Only stockholders or their proxy holders and PDC's guests may attend the Annual Meeting. For safety and security reasons, no cameras, audio or video recording equipment, large bags, briefcases or packages will be permitted in the meeting. In addition, each stockholder and guest may be asked to present valid, government-issued picture identification, such as a driver's license, before being admitted to the meeting.

Table of Contents

If your shares are held in the name of your broker, bank, or other nominee, you must bring to the meeting an account statement or letter from the nominee indicating that you beneficially owned the shares on April 17, 2013, the record date for receiving notice of, attending and voting at the Annual Meeting. Stockholders who do not present such information at the meeting may be admitted upon verification of ownership at the admissions table.

Conduct of the Meeting

The Chairman has broad authority to conduct the Annual Meeting in an orderly and timely manner. This authority includes establishing rules for stockholders who wish to address the meeting. The Chairman may also exercise broad discretion in recognizing stockholders who wish to speak and in determining the extent of discussion on each item of business. In light of the need to conclude the meeting within a reasonable period of time, there can be no assurance that every stockholder who wishes to speak on an item of business will be able to do so. The Chairman may also rely on applicable law regarding disruptions or disorderly conduct to ensure that the meeting is conducted in a manner that is fair to all stockholders.

Solicitation of Proxies

The Company will bear all costs related to the solicitation of proxies. The Company will reimburse brokerage firms and other custodians, nominees and fiduciaries for reasonable and appropriate expenses incurred by them in sending the Notice of Internet Availability of Proxy Materials to the beneficial owners of the Company's common stock. In addition to solicitations by mail, Directors, officers and employees of the Company may solicit proxies by telephone and, to the extent necessary, other electronic communication and personal interviews, without additional compensation. The Company has entered into an agreement with Morrow & Co., LLC as its proxy solicitor and anticipates paying approximately \$8,500 for such services.

Appraisal Rights

No action is proposed at the Annual Meeting for which the laws of the State of Nevada or our By-Laws provide a right of our stockholders to dissent and obtain appraisal of or payment for such stockholders' common stock.

The sub-committee met an additional five times during 2012 to review such partnership filings.

The Audit Committee reviewed and discussed the Company's audited consolidated financial statements for the year ended December 31, 2012 (the Audited Financial Statements) with the Company's management and PwC, the Company's independent registered public accounting firm. The Audit Committee also discussed with PwC the matters required to be discussed by Statement of Auditing Standards No. 61 (Codification of Statements of Auditing Standards AU § 380) as adopted by the PCAOB in Rule 3200T, as amended. PwC directly provided reports on significant matters to the Audit Committee. The Audit Committee has received the written disclosures and the letter from PwC required by PCAOB Rule 3526 and has discussed with PwC its independence from the Company. The Audit Committee has discussed with management and PwC such other matters and received such assurances from them as the Audit Committee deemed appropriate.

Based on the foregoing review and discussions and relying thereon, the Audit Committee recommended that the Board include the Audited Financial Statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

Audit Committee Pre-Approval Policies and Procedures

The Sarbanes-Oxley Act of 2002 requires that all services provided to the Company by its independent registered public accounting firm be subject to pre-approval by the Audit Committee or authorized Audit Committee members. The Audit Committee has adopted policies and procedures for pre-approval of all audit services and non-audit services to be provided by the Company's independent registered public

accounting firm. Services necessary to conduct the annual audit must be pre-approved by the Audit Committee annually. Permissible non-audit services to be performed by the independent accountant may also be approved on an

annual basis by the Audit Committee if they are of a recurring nature. Permissible non-audit services which are not eligible for annual pre-approval to be conducted by the independent accountant must be pre-approved individually by the full Audit Committee or by an authorized Audit Committee member. Actual fees incurred for all services performed by the independent accountant will be reported to the Audit Committee after the services are fully performed. All of the services described in *Principal Accountant Fees and Services* were approved by the Audit Committee pursuant to its pre-approval policies as in effect at the relevant time. The duties of the Audit Committee are described in the Audit Committee Charter, which is available at the Company's website under *Corporate Governance*. While we recommend that you visit our website, the information available on our website is not part of this report and is not incorporated by reference into this Proxy Statement.

This proposal will be approved if it receives the affirmative vote of a majority of shares of common stock of the Company cast at the Annual Meeting and entitled to vote with respect to this proposal. Broker non-votes and abstentions will not affect the outcome of this proposal. If no voting specification is made on a properly returned or voted proxy card, the proxies named on the proxy card will vote FOR this proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THIS PROPOSAL NO. 2. PROXIES SOLICITED BY THE BOARD WILL BE SO VOTED UNLESS STOCKHOLDERS SPECIFY A CONTRARY VOTE. PROXIES WILL BE VOTED IN ACCORDANCE WITH THE STOCKHOLDERS' SPECIFICATIONS.

**PROPOSAL NO. 3 ADVISORY VOTE REGARDING COMPENSATION
OF THE COMPANY'S NAMED EXECUTIVE OFFICERS**

(Proposal 3 on the Proxy Card)

The stockholders of the Company are entitled to cast an advisory non-binding vote at the Annual Meeting to approve the compensation of the Company's Named Executive Officers (see *Named Executive Officers* identified on pages 32-33). While this vote is non-binding, the Board and the Compensation Committee value the opinions of our stockholders and will take into consideration the outcome of the vote in connection with their ongoing evaluation of the Company's compensation program. In 2011, based on the stockholder vote at the 2011 Annual Meeting of Stockholders and attempted or actual engagement with the Company's twenty largest stockholders, the Company determined to hold a say-on-pay vote annually, consistent with the majority of votes cast in favor of an annual advisory vote. The next non-binding advisory vote regarding such frequency will be held no later than the Company's 2017 Annual Meeting of Stockholders.

As described more fully in the *Compensation Discussion and Analysis* section of this Proxy Statement, the Company's executive compensation program is designed to attract, motivate and retain individuals with the skills required to formulate and drive the Company's strategic direction and achieve the annual and long-term performance necessary to create stockholder value. The program also seeks to align executive compensation with stockholder value on an annual and long-term basis through a combination of base pay, annual incentives and long-term incentives.

The Company's practice of targeting the median in compensation and placing a significant portion of each Named Executive Officer's compensation at risk demonstrates its pay-for-performance philosophy. In 2012, approximately 75% of the target 2012 compensation for our Named Executive Officers other than the CEO was in the form of variable compensation which was at-risk (i.e., incentive cash compensation, performance-based equity, stock appreciation rights (SARs) and restricted stock). For the Company's CEO, this figure was 84%.

Each of the Named Executive Officers has been granted significant equity to encourage a stake in the Company's long-term success. The Company also has significant stock ownership guidelines applicable to the Company's senior executives. The Company believes that this tone at the top guides the Company's other officers and management personnel to obtain and maintain meaningful ownership stakes in the Company.

Table of Contents

The Committee considers the results of the non-binding say-on-pay vote of our stockholders concerning the compensation of our Named Executive Officers. At our 2012 Annual Meeting of Stockholders, an overwhelming majority (89%) of the votes cast approved the compensation of our Named Executive Officers. Accordingly, the Committee concluded that our executive compensation programs generally meet the expectations of our stockholders, and thus we did not make any material changes to our executive compensation programs in 2012 in response to the say-on-pay results.

In light of the above, the Company believes that the compensation of its Named Executive Officers for 2012 was appropriate and reasonable, and that its compensation programs and practices are sound and in the best interests of the Company and its stockholders. Stockholders are being asked to vote on the following resolution:

RESOLVED, that the compensation paid to the Company's Named Executive Officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables, and narrative disclosure in the Proxy Statement for the Company's 2013 Annual Meeting of Stockholders, is hereby APPROVED.

This advisory vote will be approved if it receives the affirmative vote of a majority of shares of common stock of the Company cast at the Annual Meeting and entitled to vote with respect to this proposal. Broker non-votes and abstentions will not affect the outcome of this proposal. If no voting specification is made on a properly returned or voted proxy card, the proxies named on the proxy card will vote FOR the above resolution.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE RESOLUTION SET FORTH IN THIS PROPOSAL NO. 3. PROXIES SOLICITED BY THE BOARD WILL BE SO VOTED UNLESS STOCKHOLDERS SPECIFY A CONTRARY VOTE. THE PROXIES WILL BE VOTED IN ACCORDANCE WITH THE STOCKHOLDERS' SPECIFICATIONS.

PROPOSAL NO. 4 APPROVAL OF AMENDED AND RESTATED 2010 LONG-TERM EQUITY COMPENSATION PLAN

(Proposal 4 on the Proxy Card)

On April 10, 2013, the Board approved an Amended and Restated 2010 Long-Term Equity Compensation Plan of PDC Energy, Inc. (the Amended Plan) to be effective upon stockholder approval at the Annual Meeting, and recommended that the Company's stockholders approve and adopt the Amended Plan. The Board has elected to propose this Amended Plan to:

Authorize an additional 1,600,000 shares for issuance under the Amended Plan;

Require minimum vesting schedules for all Amended Plan awards (with certain limited exceptions);

Eliminate the automatic vesting of Amended Plan awards upon a change in control;

Expand the types of performance goals that may be used for Amended Plan awards that are intended to qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code);

Increase the individual limits for awards that are intended to qualify as performance-based compensation under Code Section 162(m), thereby allowing for greater use of such awards prospectively; and

Extend the termination date of the Amended Plan from April 1, 2020 to June 5, 2023.

The Company considers long-term equity compensation to be an essential element of total compensation and believes the Amended Plan promotes its interests and the interests of its stockholders by attracting and retaining the services of officers, key employees, and Directors; by optimizing the profitability and growth of the Company through incentives which are consistent with the Company's goals and which link the

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

personal interests of participants to those of the Company's stockholders; by providing participants with an incentive for excellence in individual performance; and by promoting teamwork among participants.

Table of Contents**Our Equity Plans**

The Amended Plan is the sole active plan pursuant to which we may grant equity incentive awards to eligible employees and Directors. There are, however, still certain outstanding awards that were made under our 2004 Plan. Below is information concerning our equity compensation plans and the grants made thereunder as of April 19, 2013.

As of April 19, 2013, there were 163,945 shares available for grant under the 2010 Plan. Additionally, as of April 19, 2013, there were 212,883 stock options/SARs outstanding under the Company's equity compensation plans with a weighted average exercise price of \$33.74 and weighted average remaining term of 8.6 years. In addition, as of April 19, 2013, there were 906,847 full-value awards outstanding under the Company's equity compensation plans. Other than the foregoing, no other awards under the Company's equity compensation plans were outstanding or available for grant as of April 19, 2013.

If the stockholders approve the Amended Plan, the number of shares of common stock reserved for issuance under the Amended Plan will be increased by 1,600,000, as follows (share counts are as of April 19, 2013):

Shares originally reserved for issuance under the existing 2010 plan	1,400,000
Shares no longer available for issuance under the 2010 plan as a result of vesting, payment, exercise of awards, etc.	- 165,140
Shares subject to outstanding awards under the existing 2010 plan	- 1,070,915
Remaining shares available for issuance pursuant to new awards under the existing 2010 plan	= 163,945
Additional shares approved for issuance under the Amended Plan	+ 1,600,000
Total shares available for issuance pursuant to new awards under the Amended Plan	= 1,763,945

Summary of the Amended Plan

A description of the Amended Plan appears below. Because the description of the Amended Plan in this Proxy Statement is a summary, it may not contain all the information that may be important to you. You should carefully read the Amended Plan. A copy of the form of the Amended Plan is attached hereto as Appendix A. If approved by the stockholders at the Annual Meeting, a copy of the Amended Plan will be filed with the SEC with the Company's next periodic filing.

Administration

The Amended Plan is administered by the Compensation Committee of the Board of Directors (for purposes of this section, the Committee). As permitted by law, the Committee may delegate its authority.

Eligibility

Officers, key employees, and members of the Board who are also employees of the Company and its subsidiaries are eligible to participate in all forms of awards in the Amended Plan. Approximately 200 employees of the Company and its subsidiaries are presently eligible to participate. However, because the Amended Plan provides for broad discretion by the Committee in selecting participants and in making awards, the total number of persons who will participate and the respective benefits to be accorded to them cannot be determined at this time.

Directors who are not employees of the Company or its subsidiaries are eligible to participate in all forms of award in the Amended Plan, except for incentive stock options, performance shares and performance units. Currently, six non-employee Directors of the Company are eligible to participate. However, because the size of the Board could change or other non-employee Directors could be elected, the total number of persons who will be eligible to participate in the future and the respective benefits to be accorded to them likewise cannot be determined at this time.

Table of Contents

Stock Available for Issuance Through the Amended Plan

The number of shares issuable under the amended plan will be equal to (1) 1,400,000, which is the number originally reserved for issuance upon adoption of the 2010 plan on April 1, 2010, less (2) shares no longer available for issuance under the 2010 plan as of June 6, 2013 as a result of the vesting, payment, or exercise of awards, plus (3) 1,600,000 shares. Shares issued under the Amended Plan may be either authorized but unissued shares, treasury shares, or any combination thereof. Provisions in the Amended Plan permit the reuse or reissuance by the Amended Plan of shares of common stock for numerous reasons, including the reuse of shares of common stock underlying canceled, expired, or forfeited awards of stock-based compensation and shares underlying awards paid out in the form of cash. On April 19, 2013, the closing price of a share of the Company's common stock on the NASDAQ Stock Market was \$40.64. Stock-based compensation will typically be awarded in consideration for the future performance of services to the Company.

Description of Awards Under the Amended Plan

Awards to Company Employees

The Committee may award to eligible employees incentive and nonqualified stock options, SARs, restricted stock, restricted stock units, performance units and performance shares.

Awards to Non-Employee Directors

The Committee may award to non-employee Directors non-qualified stock options, SARs, restricted stock and restricted stock units.

Minimum Vesting Schedule of Awards under the Amended Plan

Awards under the Amended Plan that vest based on the passage of time generally may vest no more rapidly than pro-rata over a three-year period from the date the award was granted, and awards under the Amended Plan that vest based on the achievement of specific performance measures generally vest no more rapidly than one year from the date the award was granted. The Amended Plan contains a limited exception that allows up to 10% of the reserved shares to be issued pursuant to awards with more accelerated vesting schedules than those described above.

Stock Options

The Committee has discretion to award incentive stock options (ISOs), which are intended to comply with Section 422 of the Code, or nonqualified stock options (NQSOs), which are not intended to comply with Section 422 of the Code. The exercise price of an option may not be less than the fair market value of the underlying shares of common stock on the date of grant. If an award of stock options is intended to qualify as performance-based compensation under Section 162(m) of the Code, the maximum number of shares which may be subject to stock options granted in any calendar year to any one participant is 800,000. Options granted to participants under the Amended Plan will expire at such times as the Committee determines at the time of the grant; provided, however, that no option will be exercisable later than ten years after the date of grant. Subject to the specific terms of the Amended Plan, the Committee will have discretion to set such additional limitations on such grants as it deems appropriate; the award agreement will reflect these limitations.

Each option award agreement will set forth the extent to which the participant will have the right to exercise the option following termination of the participant's employment with the Company. The termination provisions will be determined at the discretion of the Committee, might not be uniform among all participants, and might reflect distinctions based on the reasons for termination of employment.

Upon the exercise of an option granted under the Amended Plan, the option price is payable in full to the Company, either: (1) in cash or its equivalent; (2) if permitted in the award agreement, by tendering shares having a fair market value at the time of exercise equal to the total option price (provided that such shares have

Table of Contents

been held by the optionee for at least six months prior to their tender); or (3) by any combination of the foregoing methods of payment. The Committee may also allow options granted under the Amended Plan to be exercised by a cashless exercise through a broker, as permitted under Federal Reserve Board Regulation T, or any other means the Committee determines to be consistent with the Amended Plan's purpose and applicable law.

SARs

The Committee may award SARs under the Amended Plan upon such terms and conditions as it may establish. The Committee may award either freestanding SARs or SARs in tandem with stock options (a tandem SAR). The exercise price of a freestanding SAR will equal the fair market value of a share of common stock on the date of grant, whereas the exercise price of a tandem SAR issued in connection with a stock option will equal the option price of the related option. If an award of SARs is intended to qualify as performance-based compensation under Section 162(m) of the Code, the maximum number of shares which may be subject to SARs awarded in any calendar year to any one participant is 800,000. At the discretion of the Committee, the payment upon SAR exercise may be in cash, in shares of Company common stock of equivalent value, or in some combination thereof.

In the case of a freestanding SAR, the Committee will determine the number of shares of common stock covered by the SAR and the exercise period thereof. Upon exercise of a freestanding SAR, the participant will receive an amount equal to the excess of the fair market value of one share of common stock on the date of exercise over the grant price, multiplied by the number of shares of stock exercised under the SAR. In the case of a tandem SAR, the Committee may determine the exercise period of the SAR except that the exercise period may not exceed that of the related option. The participant may exercise the tandem SAR when the option is exercisable, surrender the option and receive on exercise an amount equal to the excess of the fair market value of one share of common stock on the date of exercise over the option purchase price, multiplied by the number of shares of stock covered by the surrendered option. Each award agreement will set forth the extent to which the participant will have the right to exercise the SAR following termination of the participant's employment with the Company. The termination provisions will be determined by the Committee in its sole discretion, need not be uniform among all participants, and may reflect distinctions based on the reasons for termination of employment.

Restricted Stock

Awards to Key Employees

The Committee may choose to award shares of restricted common stock under the Amended Plan to employees in such amounts and upon such terms and conditions as it may determine. If an award of restricted stock is intended to qualify as performance-based compensation under Section 162(m) of the Code, the maximum number of shares which may be granted in the form of restricted stock in any one calendar year to any one participant is 400,000. The award agreement will specify the vesting schedule (which may be time-based or based upon the achievement of specific performance objectives), the number of shares of restricted stock granted, any requirement that a participant pay a stipulated purchase price for each share, and any other terms and conditions of the restricted stock award. Recipients may have the right to vote these shares from the date of grant, as determined by the Committee. Participants shall receive dividends on their shares of restricted stock, which will be paid only if and when the restricted stock vests.

Each award agreement for restricted stock will set forth the extent to which the participant will have the right, if any, to retain unvested restricted stock following termination of the participant's employment with the Company. These provisions need not be uniform among all shares of restricted stock issued under the Amended Plan, and may reflect distinctions based on reasons for termination of employment.

Table of Contents

Awards to Non-Employee Directors

Restricted stock awards may be granted to non-employee Directors in such amounts and subject to such conditions as are determined by the Board. Restricted stock will be subject to forfeiture for the period (the Restricted Period) commencing upon the date when the restricted stock is awarded and ending on the earliest to occur of the following:

The retirement of the non-employee Director from the Board in compliance with the Board's retirement policy as then in effect;

The termination of the non-employee Director's service on the Board as a result of the non-employee Director's not being nominated for re-election by the Board;

The termination of the non-employee Director's service on the Board because of the non-employee Director's resignation or failure to stand for re-election with the consent of the Board (which means approval by at least 80% of the Directors voting, with the affected non-employee Director abstaining);

The termination of the non-employee Director's service on the Board because the non-employee Director, although nominated for reelection by the Board, is not re-elected by the stockholders;

The termination of the non-employee Director's service on the Board because of (1) the non-employee Director's resignation at the request of the Nominating and Governance Committee of the Board; (2) the non-employee Director's removal by action of the stockholders or by the Board; or (3) a change in control of the Company, as defined in the Amended Plan;

The termination of the non-employee Director's service on the Board because of disability or death; or

The vesting of the award.

If a non-employee Director ceases to be a member of the Board for any other reason, including non-approved resignation or removal for cause, as defined in the Amended Plan, the non-employee Director will forfeit to the Company all restricted stock awarded to him or her for which the Restricted Period has not ended.

The Amended Plan provides that non-employee Directors receiving restricted stock may have the right to vote the shares from the date of grant, as determined by the Committee, and will have the right to receive cash dividends and other cash distributions in respect of their restricted stock.

Restricted Stock Units

The Committee may award restricted stock units (RSUs) to key employees and non-employee Directors upon such terms and conditions as the Committee determines. Each RSU will have a value equal to the fair market value of a share of the Company's common stock on the date of grant. If an award of RSUs is intended to qualify as performance-based compensation under Section 162(m) of the Code, the maximum aggregate award of RSUs to any one participant during any one fiscal year will cover no more than 400,000 shares; provided, further, that the maximum aggregate award of restricted stock and RSUs for any one fiscal year will be coordinated so that in no event will any one participant be granted awards covering more than 400,000 shares taking into account all such awards. In its discretion, the Committee may impose vesting conditions on RSUs, as specified in the RSU award agreement, including vesting based upon the passage of time, the achievement of specific performance goals, or both. As determined by the Committee at the time of the award, settlement of vested RSUs may be made in the form of cash, shares of Company stock, or a combination of cash and Company stock. Settlement of vested RSUs will occur in a lump sum as soon as practicable after the vesting date. Each RSU will be credited with an amount equal to the dividends paid on a share of Company stock between the date of award and the date the RSU is paid to the participant, if at all. Dividend equivalents will vest, if at all, upon the same terms and conditions governing the vesting of the RSU under the Amended Plan. Payment of the dividend equivalent will be paid at the same time as

payment of the RSU. The holders of RSUs will have no voting rights. Each RSU award agreement will set forth the extent to which the participant will have the right, if any, to retain or receive payment for unvested RSUs following termination of the participant's employment with the Company. These provisions need not be uniform among all RSU awards issued under the Amended Plan, and may reflect distinctions based on reasons for termination of employment.

Table of Contents**Performance Units/Performance Shares**

The Committee has the discretion to award performance units and performance shares under the Amended Plan upon such terms and conditions as it may establish. If an award of performance units or performance shares is intended to qualify as performance-based compensation under Section 162(m) of the Code, the maximum aggregate payout for awards of performance shares which may be granted in any one calendar year to any one participant will be 400,000 shares, and the maximum aggregate payout for awards of performance units which may be granted in any one calendar year to any one participant will be \$5,000,000. Performance units will have an initial value as determined by the Committee, whereas performance shares will have an initial value equal to one share of common stock on the date of award. The payout on the number and value of the performance units and performance shares will be a function of the extent to which corresponding performance goals are met. Payment of performance shares and performance units will be made in a single lump sum following the close of the applicable performance period. In its discretion, the Committee may pay earned performance shares or performance units in cash, in shares of Company stock or in a combination of cash and stock, which will have an aggregate fair market value equal to the value of the earned performance share or performance unit at the close of the applicable performance period. Participants will not be entitled to dividend or voting rights with respect to any performance shares or performance units earned but not yet distributed to a participant. Unless otherwise determined by the Committee, in the case of death or disability during the performance period, the participant, or his or her estate, will not be entitled to receive any payout of the performance shares or performance units. In the case of any other termination of the participant's employment during the performance period, all performance shares and performance units intended to qualify as performance-based compensation will be forfeited by the participant.

Performance Measures

The Committee shall have the authority to structure awards under the Amended Plan to be performance-based compensation under Code Section 162(m). The vesting of, or amount payable under, any such award will be determined solely based upon the achievement of certain pre-established objective performance goals established by the Committee in writing no later than 90 days after the beginning of the performance period for which the performance goals are measured. Under the Amended Plan, the Committee may utilize any of the following measures of performance in establishing the objective performance goals for such awards: net income either before or after taxes (including adjusted net income), share price, earnings per share (basic or diluted), total stockholder return, return on assets, return on equity, operating income, return on capital or investment, cash flow or adjusted cash flow, economic value added, debt level, cost reduction targets, equity ratios, capital efficiency (adjusted EBITDA divided by production and divided by average finding and development cost), coverage ratio (adjusted EBITDAX/interest), EBITDA or EBIDTA margin, operating and general and administrative expense (the sum of total lease operating expense, exploration general and administrative expense and corporate general and administrative expense), average reserve replacement ratio (the sum of extensions and discoveries, revisions in previous estimates and purchase of reserves divided by the sum of the same), production or production growth, oil and gas reserves or growth in reserves, oil and gas reserve additions, and costs of finding oil and gas reserves. The objective performance goals may be measured (1) on a total basis, on a per Mcf or BOE equivalent basis, on a per share basis, or on such other basis as may be determined by the Committee; (2) at the Company level, at a subsidiary or affiliate level, or at an operating unit level; and (3) on an absolute or comparative basis as determined in the Committee's discretion (including, but not limited to, on a comparative basis against the Company's internal targets, the Company's competitors, the industry or some other comparative group).

Following the end of a performance period, the Committee will certify in writing the degree of attainment of the pre-established objective performance goals and the corresponding level of vesting or amount earned under the performance-based awards for the performance period. The Committee will also have discretion to reduce (but not to increase) the value of a performance-based award.

Conditions to Award Vesting

With respect to participants who are employees, if such participant terminates employment with the Company for any reason other than death while any award under the Amended Plan remains outstanding, that

Table of Contents

participant will receive such shares or benefit only if, during the entire period from his or her date of termination to the date of such receipt, the participant (1) consults and cooperates with the Company on matters under his or her supervision during the participant's employment; and (2) refrains from engaging in any activity that is directly or indirectly in competition with any activity of the Company for a one-year period. If a participant fails to comply with this requirement, the participant's rights under any outstanding award will be forfeited unless otherwise waived by the Committee.

Adjustment and Amendments

The Amended Plan provides for appropriate adjustments to outstanding awards and to the number of shares of Company stock available for future awards (and to related plan limits) in the event of changes in outstanding common stock by reason of a merger, stock split, stock dividend, or certain other events.

The Amended Plan may be modified or amended by the Board at any time and for any purpose which the Board deems appropriate. However, no such amendment may adversely affect any outstanding awards without the affected holder's consent. NASDAQ listing standards require stockholder approval for all material amendments of the Amended Plan.

Change in Control

Existing Awards

Unless otherwise provided in an applicable award agreement, the provisions of the plan as in effect prior to June 6, 2013 shall govern the treatment of awards existing as of such date upon a change in control.

New Awards

Unless otherwise provided in an applicable award agreement, upon a change in control (as defined in the Amended Plan), the Board or the Committee (as applicable) shall have full discretion to take whatever actions it deems necessary or appropriate with respect to awards granted after June 6, 2013, including but not limited to the following actions: (1) provide for full or partial accelerated vesting of any award or portion thereof, either immediately prior to the change in control or on such terms and conditions following the change in control (such as a termination without cause) as the Board or the Committee determine in their sole and absolute discretion; (2) provide for the assumption of such awards (or portions thereof) or the substitution of such awards (or portions thereof) with similar awards of the surviving or acquiring Company; (3) provide for the cash-out and cancellation of any award (or portion thereof); and (4) take any other actions as the Board or Committee deem necessary or advisable in connection with such change in control transaction. If the surviving or acquiring company does not assume the outstanding awards (or portions thereof) or substitute similar stock awards for those outstanding under the Amended Plan as of the change in control, then the vesting and exercisability (if applicable) of all awards (or portions thereof) shall be accelerated in full immediately prior to such change in control, and such outstanding awards (or portions thereof) shall terminate and/or be payable upon the occurrence of the change in control. The Board or the Committee, as applicable, may take different actions with respect to different participants under the Amended Plan, different awards under the Amended Plan, and different portions of awards granted under the Amended Plan.

Nontransferability

No award under the Amended Plan may be sold, assigned or otherwise transferred in any manner by a participant except by will or by the laws of descent and distribution; and any award will be exercisable during a participant's lifetime only by the participant or by the participant's guardian or legal representative.

Duration of the Plan

The Amended Plan will remain in effect until all shares subject to the Amended Plan have been purchased or acquired under the terms of the Amended Plan, and all performance periods for performance-based awards granted under the Amended Plan have been completed. However, in no event will an award be granted under the Amended Plan on or after June 5, 2023.

Table of Contents**Certain Federal Income Tax Consequences**

The following description of the material federal income tax consequences of awards under the Amended Plan is a general summary. State, local, and other taxes may also be imposed in connection with awards. This discussion is intended for the information of stockholders considering how to vote at the Annual Meeting and not as tax guidance to individuals who participate in the Amended Plan.

Incentive Stock Options

A participant who is granted an ISO recognizes no taxable income when the ISO is granted. A participant will not recognize taxable income upon exercise of an ISO for regular income tax purposes but generally will recognize taxable income upon the exercise of an ISO for alternative minimum tax (AMT) purposes (see below). A participant who exercises an ISO will recognize taxable gain or loss upon the sale of the shares underlying the option. Any gain or loss recognized on the sale of shares acquired upon exercise of an ISO is taxed as capital gain or loss if the shares have been held for more than one year after the option was exercised and for more than two years after the option was granted. If the participant disposes of the shares before the required holding periods have elapsed (a disqualifying disposition), the participant is subject to income tax (but not FICA taxes) as though he or she had exercised a non-qualified stock option, except that the ordinary income on exercise of the option is recognized in the year of the disqualifying disposition and generally is the lesser of (1) the excess of the fair market value of the shares acquired on the date of its exercise over the option price; or (2) the excess of the amount realized on the sale of the stock over the original option price. The Company will not be entitled to a deduction with respect to the grant or exercise of the ISO or the sale of the ISO shares, except in the case of a disqualifying disposition of the ISO shares, upon which event the amount of the Company's deduction is equal to the amount of the compensation income recognized by the participant.

Alternative Minimum Tax

The exercise of an ISO may result in tax liability under the AMT. The AMT provides for additional tax equal to the excess, if any, of (a) 26% or 28% of alternative minimum taxable income in excess of an applicable exemption amount, over (b) regular income tax for the taxable year. For purposes of calculating alternative minimum taxable income, an ISO is treated as if it were a non-qualified stock option (as described below under Non-Qualified Stock Options), so the difference between the fair market value of the shares received on exercise and the option price will be deemed to be income for this purpose and the taxpayer will hold the shares with a tax basis equal to such fair market value for subsequent AMT purposes. Application of the AMT to any exercise of an ISO and to a disqualifying disposition of shares is complex and will vary depending upon each person's circumstances.

Non-Qualified Stock Options

The tax treatment of NQSOs differs significantly from the tax treatment of ISOs. In general, no taxable income is recognized when an NQSO is granted, but upon exercise, the difference between the fair market value of the shares received and the exercise price is taxable as ordinary compensation income to the recipient and is generally deductible by the Company. If the recipient is an employee of the Company, the income will constitute wages, subject to FICA taxes and withholding.

SARs

A participant will generally not recognize taxable income upon receipt of a SAR. Upon exercise of the SAR, the participant will recognize ordinary income in an amount equal to the amount of cash received and/or the fair market value of any shares of the Company's common stock received at the time of exercise. The Company is generally entitled to a deduction equal to the amount of ordinary income recognized by a participant upon exercise of an SAR. If the recipient is an employee of the Company, the income will constitute wages, subject to FICA taxes and withholding.

Table of Contents

Restricted Stock

A participant receiving restricted stock ordinarily does not recognize income at the time of the grant of the restricted stock award. When the shares of restricted stock vest, the participant will generally recognize ordinary compensation income in an amount equal to the fair market value of the shares on the vesting date. Alternatively, the participant may elect under Section 83(b) of the Code to recognize ordinary compensation income upon the grant of the restricted shares (in an amount equal to the fair market value of the shares on the grant date). Any dividends paid on or with respect to unvested restricted stock are generally taxable upon receipt as ordinary compensation income. If the participant is an employee of the Company, any compensation income will constitute additional wages, subject to FICA taxes and withholding. The Company generally is entitled to deduct an amount equal to the income recognized by the participant at the time the participant recognizes the income.

RSUs

A participant will generally recognize ordinary compensation income equal to the amount of cash received and the fair market value of any shares of the Company's common stock received at the time payment is made under the restricted stock unit. The Company generally should be entitled to a deduction equal to the amount of ordinary income recognized by the participant. If the recipient is an employee of the Company, the income will constitute wages, subject to FICA taxes and withholding.

Performance Units and Performance Shares

A participant will generally recognize ordinary compensation income equal to the amount of cash received and the fair market value of any shares of the Company's common stock received at the time payment is made under the performance unit or performance share award. The Company generally should be entitled to a deduction equal to the amount of ordinary income recognized by the participant. If the recipient is an employee of the Company, the income will constitute wages, subject to FICA taxes and withholding.

Section 409A

Notwithstanding any contrary provision in the Amended Plan, each provision in the Amended Plan that otherwise relates to nonqualified deferred compensation benefits will be interpreted to permit the deferral of compensation and the payment of deferred amounts in accordance with Section 409A of the Code, to the extent applicable.

Section 162(m)

Under Section 162(m) of the Code, compensation paid by the Company in excess of \$1 million for any taxable year to a Covered Employee generally is not deductible by the Company or its affiliates for federal income tax purposes unless an exemption from such limitation exists. Generally, a Covered Employee under Section 162(m) includes the chief executive officer and the three other highest paid executive officers of the Company other than the chief executive officer or chief financial officer as of the last day of the taxable year. The Amended Plan permits, but does not require, the grant or payment of performance-based compensation that is exempt from the deduction limitations of Code Section 162(m). However, the Committee will at all times consist of outside directors as required for purposes of Section 162(m), and the Committee will take the effect of Section 162(m) into consideration in structuring Amended Plan awards.

Prospective awards of equity compensation under the Amended Plan, if approved by the stockholders, are not currently determinable.

Board Recommendation and Vote Requirement

The Board believes that the Amended Plan is in the best interest of the Company and its stockholders and therefore recommends a vote for approval of the Amended Plan. Proxies not marked to the contrary will be voted in favor of the Amended Plan. Because approval of the Amended Plan will increase the number of shares

available for issuance to all Directors and executive officers of the Company, each of the Directors and executive officers of the Company has an interest in and may benefit from the Amended Plan. Approval of the Amended Plan will require the affirmative vote of a majority of the votes cast at the Annual Meeting. Accordingly, abstentions and broker non-votes will not be included in the tabulation of votes cast on this matter.

For the above reasons, our stockholders are being asked to vote on the following resolution:

RESOLVED, that the Company's Amended and Restated 2010 Long-Term Equity Compensation Plan is hereby approved and adopted.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE APPROVAL OF THE COMPANY'S AMENDED AND RESTATED 2010 LONG-TERM EQUITY COMPENSATION PLAN.

However, if other matters properly come before the meeting in accordance with our By-Laws and the rules of the SEC, it is the intention of the proxy holders named in the enclosed form of proxy to vote in accordance with their discretion on such matters pursuant to such proxy.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (the Exchange Act) requires the Company's officers and Directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the SEC. Officers, Directors and holders of more than 10% of the common stock are required by SEC rules to furnish the Company with copies of all Section 16(a) reports they file. If requested, the Company assists its officers and Directors in complying with the reporting requirements of

Section 16(a) of the Exchange Act.

Based solely on a review of the reports furnished to the Company, or written representations from reporting persons that all reportable transactions were reported, the Company believes that, during the fiscal year ended December 31, 2012, the Company's officers, Directors and owners of more than 10% of the Company's common stock timely filed all reports they were required to file under Section 16(a) of the Exchange Act.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines that govern the structure and functioning of the Board and establish the Board's policies on a number of corporate governance issues. The Corporate Governance Guidelines were most recently amended on March 14, 2013.

Table of Contents

Majority Voting Policy

The Board amended its Corporate Governance Guidelines on March 14, 2013 to include a Majority Voting Policy. Under our Majority Voting Policy, any nominee for Director in an uncontested election who receives a greater number of withheld votes than for votes will promptly tender his or her resignation. The Nominating and Governance Committee will promptly consider the tendered resignation and will recommend to the Board whether to accept the tendered resignation or to take some other action, such as rejecting the tendered resignation and addressing the apparent underlying causes of the withheld votes.

In making this recommendation, the Nominating and Governance Committee will consider all factors deemed relevant by its members. These factors may include the underlying reasons why stockholders withheld votes for election from such Director (if ascertainable), the length of service and qualifications of the Director whose resignation has been tendered, the Director's contributions to the Company, whether by accepting the resignation the Company will no longer be in compliance with any applicable law, rule, regulation or governing document, and whether or not accepting the resignation is in the best interest of the Company and our stockholders. In considering the Nominating and Governance's recommendation, the Board will consider the factors considered by the Nominating and Governance Committee and such additional information and factors that the Board believes to be relevant. If this were to occur, we would promptly and publicly disclose the Board's decision and process in a report filed with the SEC.

Board of Directors

The Company's By-Laws provide that the number of members of the Board of Directors shall be designated from time to time by a resolution of the Board. Currently, the designated number of Directors is seven. The By-Laws provide that the Board shall be divided into three separate classes of Directors which are required to be as nearly equal in number as practicable. At each Annual Meeting of Stockholders, one class of Directors, whose term has expired, is elected to a new term of three years. The classes are staggered so that the term of one class expires each year.

There is no family relationship between any Director or executive officer or the Company. There are no arrangements or understandings between any Director or officer and any other person pursuant to which the person was selected as an officer of the Company.

Director Independence

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

In affirmatively determining whether a Director is independent, the Board analyzes and reviews the NASDAQ listing standards, which set forth certain circumstances under which a director is not considered independent. As CEO and President of the Company, Mr. Trimble is not independent under such standards. Audit Committee members are subject to additional, more stringent NASDAQ and Exchange Act requirements.

Table of Contents

The Board has reviewed the business and charitable relationships between the Company and each non-employee Director (Non-Employee Director) to determine compliance with the NASDAQ listing standards and to evaluate whether there are any other facts or circumstances that might impair a Non-Employee Director 's independence. The Board has affirmatively determined that each of the Non-Employee Directors (i.e., Messrs. Casabona, Crisafio, Mazza, Parke, and Swoveland, and Ms. Wakim) is independent under NASDAQ Listing Rule 5605 and the Exchange Act and our committee charter requirements.

Board Meetings and Attendance

The Board has a standing Audit Committee, Compensation Committee and Nominating and Governance Committee. The Planning and Finance Committee was disbanded on September 14, 2012. Actions taken by these committees are reported to the Board at its next meeting. During 2012, each of the Company 's Directors attended at least 75% of all meetings of the Board and committees of which he or she was a member. As specified in the Company 's Corporate Governance Guidelines, Directors are strongly encouraged, but not required, to attend the Annual Meeting of Stockholders. All of the Directors attended the 2012 Annual Meeting on June 10, 2012.

The following table identifies the members of each committee of the Board, the chair of each committee, and the number of meetings held in 2012.

The Non-Employee Directors generally meet in executive session in connection with each regularly scheduled Board meeting without the employee Director (the CEO) present. Mr. Swoveland chairs these sessions; however, the other Non-Employee Directors may, in the event of his absence, select another Director to preside over the executive session.

STANDING COMMITTEES OF THE BOARD**Audit Committee**

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

The Audit Committee is composed entirely of persons whom the Board has determined to be independent under NASDAQ Listing Rule 5605(a)(2), Section 301 of the Sarbanes-Oxley Act of 2002, Section 10A(m)(3) of the Exchange Act and the relevant provisions of the Audit Committee Charter. The Board has adopted an Audit Committee Charter which is posted on the Company's website. The Board assesses the adequacy of the Audit Committee Charter on an annual basis and revises it as necessary. The Audit Committee Charter was most

recently amended on March 15, 2013 primarily to clarify such committee's responsibility for oversight of risk management. The Board has determined that all members of the Audit Committee qualify as financial experts as defined by SEC regulations. The Audit Committee's primary purpose is to assist the Board in monitoring the integrity of the financial reporting process, systems of internal controls and financial statements of the Company, and compliance by the Company with legal and regulatory requirements. Additionally, the Audit Committee is directly responsible for the appointment, compensation and oversight of the independent auditors engaged by the Company for the purpose of preparing or issuing an audit report or related work and to assess the need for an internal audit function and recommend its establishment when deemed appropriate. In performing its responsibilities, the Audit Committee:

Monitors the integrity of the Company's financial reporting process and systems of internal controls regarding finance, accounting and legal compliance;

Monitors the independence of the independent registered public accounting firm; and

Provides an avenue of communication among the independent registered public accounting firm, management and the Board.

Compensation Committee

The Board has determined that all members of the Compensation Committee (the Committee) are independent of the Company under Rule 5605(a)(2) of the NASDAQ listing standards. The Board has adopted a Compensation Committee Charter which is posted on the Company's website. The purposes and functions of the Committee are primarily to:

Oversee the development of a compensation strategy for the Company's Named Executive Officers;

Evaluate the performance of and set compensation for the CEO;

Review and approve the elements of compensation for other senior executive officers of the Company;

Negotiate the terms of employment agreements with executive officers of the Company and approve all change in control plans;

Review the compensation of the Directors for Board and committee work and recommend to the Board changes in such compensation levels;

Review and approve performance criteria and results for which bonus awards for senior executive officers will be determined, and approve bonus awards to senior executive officers;

Recommend to the Board equity-based incentive plans necessary to implement the Company's compensation strategy, approve all equity grants under the plans, and administer all equity-based incentive programs of the Company, which may include specific delegation to management regarding awards to non-executive officers; and

Review and approve Company contributions to retirement plans.

Compensation Committee Interlocks and Insider Participation

There were no Compensation Committee interlocks during fiscal year 2012.

Nominating and Governance Committee

The Board has determined that all members of the Nominating and Governance Committee (the N&G Committee) are independent of the Company under Rule 5605(a)(2) of the NASDAQ listing standards. The Board has adopted a Nominating and Governance Committee Charter which is posted on the Company s website. The purposes and functions of the N&G Committee are primarily to:

Assist the Board by identifying individuals qualified to become Board members, recommend nominees for election at the next Annual Meeting of Stockholders, or fill any vacancies;

Table of Contents

Recommend to the Board corporate governance guidelines applicable to the Company;

Lead the Board in its annual review of the Board's performance; and

Recommend to the Board the nominees for membership on each committee.

Planning and Finance Committee

The Board disbanded the Planning and Finance Committee, which was formerly comprised of three Non-Employee Directors, the CEO, and two non-voting members of executive management, on September 14, 2012.

Board Leadership Structure

Although the Board has no specific policy with respect to the separation of the offices of Chairman and CEO, the Board believes our Company's current leadership structure, under which Mr. Trimble serves as CEO and President and Mr. Swoveland serves as Non-Executive Chairman of the Board, is the optimal structure for our Board at this time. Since June 2011, the roles of Chairman and CEO have been held by separate individuals. We believe that as directors continue to have more oversight responsibilities than ever before, it is beneficial to have an independent, separate Chairman who has the responsibility of leading the Board, allowing the CEO to focus his energy on leading the Company. We believe our CEO and Chairman have an excellent working relationship which, with the separation of their positions, provides strong leadership for the Board while positioning our CEO as the leader of the Company in the eyes of our employees and other stockholders. The Board reconsiders this issue annually as it elects its Chairman or as circumstances arise that may require such determination.

As Non-Executive Chairman, Mr. Swoveland generally chairs the meetings of executive sessions of our Non-Employee Directors. The Non-Executive Chairman, in consultation with the CEO, establishes the agenda for each Board meeting.

DIRECTOR COMPENSATION

Compensation of our Non-Employee Directors is reviewed annually by the Committee and approved by the Board. We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our Board. In setting Director compensation, we consider the significant amount of time the Directors spend fulfilling their duties as well as the competitive market for skilled Directors. In addition, we recognize that our Directors are also responsible for the oversight of four partnerships for which PDC is the managing general partner. No compensation is paid to our CEO for his service on the Board.

In 2012, the Committee directly engaged Towers Watson & Co. (the Consultant) as the compensation consultant to review executive compensation and to conduct an annual review of the total compensation of Non-Employee Directors. Specifically, the Consultant evaluated retainer fees, potential meeting fees and stock-based long-term incentives using, as the competitive benchmark, levels of total compensation paid to the directors of the energy companies which comprise the Company's peer group for determining 2012 executive compensation. Below is a summary of the compensation paid to our Non-Employee Directors. All Board and committee retainers are paid in quarterly installments.

Cash Compensation

Annual Board Retainer

The annual Board term begins on July 1 of each year. For the 2011-2012 and 2012-2013 Board terms, each Non-Employee Director received an annual cash retainer of \$55,000 and \$60,000, respectively, for service on the Board and for attendance at all Board meetings. The Non-Executive Chairman receives an additional cash retainer of \$100,000 per year.

Table of Contents**Annual Committee Retainers**

Each Non-Employee Director receives an annual cash retainer for service on each committee on which he or she serves. The chair of each committee receives an additional annual retainer for his or her services as chair of that committee. The following table shows the committee and additional chair retainers for the 2011 2012 and 2012 2013 Board terms.

COMMITTEE RETAINERS

Committee	2011	2012 Board Term	2012	2013 Board Term

* The Planning and Finance Committee was disbanded in September 2012.
In addition:

A Special Committee consisting of Messrs. Crisafio, Mazza, Parke and Swoveland was created in 2008 to consider the potential repurchase of certain partnerships for which the Company is the managing general partner (each a Partnership). Special Committee members Parke, Crisafio and Mazza each received a fee of \$1,350 and Mr. Swoveland received a fee of \$1,650, paid in 2012 for attendance at meetings held in 2011.

A sub-committee of the Audit Committee consisting of Mr. Casabona and, until September 2012, Mr. Crisafio, acting together or individually, reviews and approves SEC filings for the Partnerships. For the Board year 2012-2013, the Audit sub-committee retainer is \$10,000. This was reduced from \$30,000 for the 2011-2012 Board year following the sale of a majority of the Partnerships.

Equity Compensation

On the date of each Annual Meeting, each Non-Employee Director is awarded restricted Company stock for service on the Board. In June 2012, each Non-Employee Director received the equivalent of \$125,000 (4,468 shares) in restricted stock of the Company. These shares were granted under the Company's 2010 Long-Term Equity Compensation Plan approved by stockholders in 2010 (the 2010 LTI Plan) and vest ratably over three years.

Deferred Compensation

Each Non-Employee Director may choose to defer all or a portion of his/her annual cash compensation by participating in the Non-Employee Director Deferred Compensation Plan. All compensation deferred into this program is credited with hypothetical earnings and losses as if invested in common stock of the Company. Except for Mr. Swoveland, none of the Non-Employee Directors deferred compensation in 2012.

Company Stock Ownership Requirements

The Company's Director Stock Ownership Guidelines require the Non-Employee Directors to hold shares of Company stock in an amount equal to at least five times his/her annual Board retainer. Compliance with ownership requirements is measured annually. Qualifying shareholdings include Company stock owned directly and unvested restricted stock. Directors are required to comply with the ownership guidelines within five years of their election to the Board. As of December 31, 2012, all of the Directors met the requirements under the guidelines.

Table of Contents

The Company's Insider Trading Policy expressly prohibits independent Directors from purchasing options, puts or calls or engaging in other transactions that are intended to hedge against the economic risk of owning Company stock.

DIRECTOR QUALIFICATIONS AND SELECTION

The Board has adopted Director Nomination Procedures that prescribe the process the N&G Committee will use to recommend nominees for election to the Board. The Director Nomination Procedures are posted on the Company's website. The N&G Committee evaluates each candidate based on the candidate's level and diversity of experience and knowledge (specifically within the industry and relevant industries in which the Company operates, as well as his or her overall experience and knowledge), skills, education, reputation, integrity, professional stature and other factors that may be relevant depending on the particular candidate.

Additional factors considered by the N&G Committee include the size and composition of the Board at the time, and the benefit to the Company of a broad mixture of skills, experience and perspectives on the Board. Accordingly, one or more of these factors may be given more weight in a particular case at a particular time, although no single factor is viewed as determinative. The N&G Committee has not specified any minimum qualifications that it believes must be met by any particular nominee.

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

The N&G Committee identifies Director candidates primarily through recommendations made by the Non-Employee Directors. These recommendations are developed based on the Non-Employee Directors' knowledge and experience in a variety of fields and on research conducted by PDC staff at the N&G Committee's direction. The N&G Committee also considers recommendations made by Directors, employees, stockholders and others, including search firms. All recommendations, regardless of the source, are evaluated on the same basis against the criteria contained in the guidelines. The N&G Committee has the authority to engage consultants to help identify or evaluate potential Director Nominees, but did not do so in 2012.

Table of Contents

Diversity Consideration

In addition to qualities of intellect, integrity and judgment, the N&G Committee takes into consideration diversity of background, senior management experience, education, and an understanding of some combination of oil and gas marketing, finance, technology, government regulation, and public policy. The N&G Committee makes its determination in the context of an assessment of the perceived needs of the Board at that point in time. The N&G Committee evaluates all Director nominees, including nominees recommended by stockholders, using these criteria. The Director nomination process specifically includes disclosure of the diversity provided by each candidate, and diversity is considered as part of the overall assessment of the Board's functioning and needs.

STOCKHOLDER RECOMMENDATIONS AND NOMINATIONS

Stockholder Recommendations

The N&G Committee will consider Director candidates recommended by stockholders of the Company on the same basis as those recommended by other sources. Any stockholder who wishes to recommend a prospective Director nominee should notify the N&G Committee by writing to the N&G Committee at the Company's headquarters or by sending the information via email to board@pdce.com. All recommendations will be reviewed by the N&G Committee. A submission recommending a candidate should include:

Sufficient biographical information to allow the N&G Committee to evaluate the potential candidate in light of the Director Nomination Procedures;

An indication as to whether the proposed candidate will meet the requirements for independence under NASDAQ guidelines;

Information concerning any relationships between the candidate and the stockholder recommending the candidate; and

An indication of the willingness of the proposed candidate to serve if nominated and elected.

Stockholder Nominations

Stockholders who wish to may nominate candidates for election to the Board. The Company's By-Laws require that stockholders who wish to submit nominations of persons for election to the Board at the Annual Meeting of Stockholders follow certain procedures. The stockholder must give written notice to the Corporate Secretary at PDC Energy, Inc., 1775 Sherman Street, Suite 3000, Denver, Colorado 80203 or may email notice to board@pdce.com not later than 80 days nor more than 90 days prior to the first anniversary of the preceding year's Annual Meeting. If the date of the Annual Meeting is more than 30 days before or more than 60 days after that anniversary date, however, for notice by such stockholder to be timely, it must be received not later than 80 days before the Annual Meeting, or within 10 days following the Company's public announcement of the date of its Annual Meeting. The stockholder must be a stockholder of record at the time the notice is given. The written notice must set forth (1) as to each nominee, all information relating to that person that is required to be disclosed in solicitations of proxies for election of Directors in an election contest, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act (including such person's written consent to being named in the Proxy Statement as a nominee and to serving as a Director if elected); (2) as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination is made (a) the name and address of the stockholder, as they appear on the Company's books, and of such beneficial owner, and (b) the class and number of shares of the Company's securities that are beneficially owned by such stockholder and the beneficial owner; and (3) any material interest of such stockholder and such beneficial owner in such nomination.

THE BOARD'S ROLE IN RISK MANAGEMENT

The Board seeks to understand and oversee critical business risks. Risks are considered in every business decision, including through Board oversight of the Company's internal risk management system. For instance, a

Table of Contents

special assessment of risks (financial and otherwise) is included in every acquisition proposal to the Board. The Board realizes, however, that it is not possible or desirable to eliminate all risk and that appropriate risk-taking is essential in order to achieve the Company's objectives.

The Board is responsible for general oversight of the risks of the Company, including overseeing risks related to the Company's key strategic goals. The Audit Committee is the primary committee overseeing risk and specifically reviews risks and related controls in areas that it considers fundamental to the integrity and reliability of the Company's financial statements, such as counterparty risks and derivative program risks. Similarly, the Compensation Committee considers risks related to the structure and size of the Company's compensation plans, as set out below.

We believe our Board leadership structure supports the risk oversight function. In addition to having an independent Non-Executive Chairman of the Board, an independent Director chairs each of our Board committees involved with risk oversight. There is open and continuous communication between management and our Directors.

Compensation Risk Assessment

We do not believe the Company's executive and non-executive compensation structure is reasonably likely to have a material adverse effect on the Company. Risk-mitigating features of our executive and non-executive compensation structure include:

A balance of short-term and long-term programs to ensure focus on both elements of Company performance;

Caps on awards payable to any individual under our bonus and performance share programs along with Committee discretion to decrease bonus payouts in the event it believes excessive risk was taken;

Certain bonus awards are subject to reduction or forfeiture following a re-evaluation of performance in prior years;

Clawback provisions are included in all Named Executive Officers' (as defined below) employment agreements;

Significant stock ownership requirements for Named Executive Officers and Non-Employee Directors;

A robust trading policy that prohibits executive officers from selling Company shares without first obtaining permission from the Company's General Counsel, even during open trading windows under our Insider Trading Policy; and

A hedging policy that does not permit the Company to effect transactions in oil and gas derivatives on a speculative basis.

COMMUNICATION WITH DIRECTORS BY STOCKHOLDERS

Stockholders wishing to communicate with the Board or a committee of the Board may do so by writing to the attention of the Board or committee at the Company's corporate headquarters or by emailing the Board at board@pdce.com with "Board Communication" or the appropriate Board committee indicated in the subject line.

CODE OF BUSINESS CONDUCT AND ETHICS

The Company has a Code of Business Conduct and Ethics (the "Code of Conduct") that applies to all Directors, officers, employees, agents, consultants and representatives of the Company, which is reviewed at least annually by the N&G Committee. The Company's principal executive officer, principal financial officer and principal accounting officer are subject to additional specific provisions under the Code of Conduct. The

Table of Contents

Company's Code of Conduct is posted on its website at www.pdce.com. In the event the Board approves an amendment to or a waiver of any provisions of the Code of Conduct, the Company will disclose the information on its website. During 2012, the Board approved waivers regarding any potential conflict related to (1) the service of Mr. Swoveland on the Board of Directors of Linn Energy, LLC; and (2) the Company's dealings with KeyBanc Capital Markets, KeyBank N.A., or any of its affiliate banks (collectively, KeyBank), including, but not limited to, its participation in the Company's revolving bank loan group, to the extent that a conflict of interest exists as a result of the employment of Mr. Trimble's spouse, a senior investment banker at KeyBank. These waivers are found on the Company's website at www.pdce.com. If the Board becomes aware of a potential conflict in the future, it will consider at that time whether or not to continue these waivers.

TRANSACTIONS WITH RELATED PERSONS

Related Transactions

From January 1, 2012 to the present, there was no transaction or series of transactions, nor is there any currently proposed transaction, in which the amount involved exceeds \$120,000, in which the Company is participant and in which any Director, executive officer, known holder of more than five percent of the Company's common stock or any member of the immediate family of any of the foregoing persons had or will have a direct or indirect material interest for which disclosure is required under SEC Rule S-K 404.

Policies and Procedures With Respect to Transactions with Related Persons

The Board has adopted a written policy for the review, approval and ratification of transactions that involve related parties and potential conflicts of interest. The related party transaction policy applies to each Director and executive officer of the Company, any nominee for election as a Director, any security holder who is known to own more than five percent of the Company's voting securities, any immediate family member of any of the foregoing persons and any corporation, firm or association in which one or more of the Company's Directors are directors or officers, or have a substantial financial interest.

Under our related party transaction policy, a related person transaction is a transaction or arrangement involving a related person in which the Company is a participant or that would require disclosure in the Company's filings with the SEC as a transaction with a related person. The related person must disclose to the Audit Committee any potential related person transactions and must disclose all material facts with respect to such transaction and relationship. All related person transactions will be reviewed by the Audit Committee. In determining whether to approve or ratify a transaction, the Audit Committee will consider the relevant facts and circumstances of the transaction, which may include factors such as the relationship of the related person with the Company, the materiality or significance of the transaction to the Company and the business purpose and reasonableness of the transaction, whether the transaction is comparable to a transaction that could be available to the Company on an arms-length basis, and the impact of the transaction on the Company's business and operations.

ADDITIONAL INFORMATION

The Company files annual, quarterly and current reports, proxy statements and other information with the SEC. Copies of the Company's SEC filings are available to the public at <http://www.sec.gov> and through a link from the Company's website at www.pdce.com. COMPENSATION COMMITTEE

OF THE BOARD OF DIRECTORS

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary and 2012 Highlights

At PDC, we believe that our executive compensation program is designed to reward executives when the Company achieves its financial and operational objectives. Our program:

Aligns the interests of our executives with the interests of our stockholders;

Table of Contents

Directly supports the Company's strategic plan by focusing performance on specific financial and operational metrics;

Is market-competitive and premised upon informed industry benchmarking; and

Results in executive compensation that is focused on the Company's actual performance, thereby rewarding performance with compensation, with a significant portion of target compensation delivered through equity or performance-based annual bonus. We believe that in 2012 we exceeded our performance expectations for the year, delivering key financial and operational results to our stockholders and positioning the Company for the future, having:

Achieved a reserve replacement of 513%, giving the Company a three-year average of 512%, enhancing the Company's percentage of liquids compared to natural gas reserves:

Increased proved reserves by 14% to 1.2 TCFe;

Increased proved, probable and possible (3P) reserves to 3.6 TCFe, a 70% increase; and

Increased crude oil and liquids to 48% of proved reserves.

Executed our horizontal drilling program with a 100% success rate:

Expanded the Wattenberg Niobrara with pad drilling and advanced the de-risking of the horizontal Codell formation potential; and

Drilled two successful horizontal Utica wells.

Conducted a successful acquisitions and divestiture program to strategically focus the Company's assets for the future:

Divested our Permian assets for approximately \$200 million to finance future operations;

Acquired additional Wattenberg liquid-rich assets for approximately \$300 million; and

Acquired additional acreage in the Utica formation to extend the Company's holdings to approximately 45,000 net acres.

Successfully executed several transactions to finance the Company's long-term strategy:

Completed an equity offering in May of 6.5 million shares with proceeds to the Company of \$164 million;

Completed a \$500 million high-yield debt offering in October at an interest rate of 7 3/4%, enabling us to retire \$200 million of outstanding 12% notes; and

Expanded the Company's revolving credit facility to \$525 million (subsequent modest reduction due to a bond issuance);

Exceeded the Company's targets for reserve replacement and capital efficiency; and

Ranked second in 2012 stock price performance among our sixteen peers.

Our key compensation changes for 2012 included:

Elimination of the acquisitions bonus for Mr. Lauck to recognize his expanded corporate development role, and adjusted his compensation accordingly.

Adjustment of target compensation to the market median placing more emphasis on variable and equity compensation, including:

Moderate increases to base salaries and annual incentive target bonuses; and

Awards of annual equity grants to approximate the median of the market in total target compensation.

Implementation of a new Executive Severance and Change in Control Plan for the CEO (whose employment agreement expires in 2013) and any future senior executives hired by the Company, eliminating the need for future individual employment agreements, as had been the Company's practice historically.

General Compensation Philosophy/Objectives

Compensation Objectives

The objectives of our compensation programs are to attract, motivate and retain highly-talented executives who can lead the Company in efficiently and profitably exploring for and producing natural gas and oil in a safe and environmentally conscious way. The Compensation Committee (for purposes of this section, the Committee) is committed to establishing a compensation package that generally establishes target total compensation at the median level for similar positions at comparable companies, but provides increased pay as a reward for above-target performance and below-median pay for performance that does not meet the target. Our programs are structured to require a commitment to performance because total compensation at the market median is not guaranteed.

Compensation is Related to Performance and is Aligned with the Company's Strategic Plan

The total compensation packages for our Named Executive Officers are generally weighted in favor of at-risk compensation through both annual and long-term performance-based incentive pay. The Committee aligns its executive compensation decisions with the Company's strategic plan and the financial and operational goals it believes are necessary to drive performance. As a result, each of our incentive programs links all or a portion of its payout to the Company's performance and, or to individual-specific performance measures. The charts below reflect the targeted fixed and at-risk components, as contemplated by the Committee for 2012, for the Named Executive Officers as a percentage of target total direct compensation.

The following charts are not a substitute for the Summary Compensation Table included in this Proxy Statement, which includes amounts supplemental to total direct compensation and calculates certain components of total direct compensation differently from that shown below.

These charts demonstrate that, for 2012, the Committee established a target of 84% of total direct compensation for Mr. Trimble as variable and 68% in the form of equity-based compensation, with the other Named Executive Officers having approximately 75% of their compensation as variable and 57% of their compensation in the form of equity-based compensation. This excludes the value of any residual acquisitions bonus for Mr. Lauck.

Total Compensation Should Be Competitive and Encourage Retention of Executives

We have structured our total compensation package to be comparable with the peer group, as described below, but we do not generally offer above-market pay except when performance targets have been exceeded. The Committee benchmarks each element of total direct compensation (which includes base salary, annual and long-term incentives) and the mix of compensation (cash versus equity) as compared with the peer group. We generally

Table of Contents

target base salary and total compensation at the median of the peer group for median performance in order to remain competitive for executive talent and to retain our current executive leadership. In addition, to encourage retention, long-term incentives are generally forfeited in the event an executive voluntarily terminates employment.

Incentive Compensation Balances Short-Term and Long-Term Performance

Our compensation programs are designed to maintain a balance between rewarding the achievement of short-term or annual results and ensuring the Company's long-term growth and success. To this end, a mix of annual and long-term incentives is allocated in a manner generally consistent with the peer group of companies. The Committee also considers what it believes to be the appropriate balance of risk in each program. Participation in both the annual and long-term incentive programs increases at higher levels of responsibility, as executives in these leadership roles have the greatest influence on the Company's strategic direction and results over time.

Peer Groups and Survey Data Help Establish Target Compensation and Define Competitive Levels of Performance

Each fall, the Committee reviews the composition of a peer group of companies in establishing target compensation for each executive for the coming year. In its review, the Committee considers with respect to each potential peer company its size, scope and nature of business operations, ownership structure, prior financial performance and current financial scope, including market capitalization, enterprise value, revenue, EBITDA, capital expenditures and assets. In comparing the size of potential peers to PDC, the Committee uses only PDC's oil and gas sales, and excludes any other revenues/income. The Committee then assesses whether changes to the peer group are warranted based on changes in size and/or operations of PDC and/or the peer company, and other factors that may render a peer company no longer comparable. The 2012 column in the chart below shows the peer group that was selected in September of the prior year that was used in the Committee's analysis to determine 2012 compensation and the changes to that peer group from the previous year.

The Committee also uses several proprietary benchmarking surveys from a broader sample of comparably-sized oil and gas companies for additional market perspective including Effective Compensation, Incorporated's Oil and Gas Exploration and Production Industry Survey (ECI) and survey data compiled by the Consultant. The Committee uses both the peer and survey benchmarking data to establish a dollar level for target total direct compensation for each executive at approximately the market median.

Compensation Should Be Tax-Deductible to the Extent Practicable

The Committee considers the impact of the applicable tax laws with respect to compensation paid under the Company's plans, arrangements and agreements. Section 162(m) of the Code disallows, with certain exceptions, a federal income tax deduction for annual compensation over \$1 million paid to any covered employee. The covered employees are the principal executive officer, the principal accounting officer, and the three other most highly-compensated named executive officers. An exception to the deduction limit is provided under Code Section 162(m) for performance-based compensation paid pursuant to stockholder-approved plans that meet certain criteria.

Elements of our executive compensation program are designed to be performance-based, such as stock options, stock appreciation rights (SARs) and performance-based equity awards issued under the Company's 2004 and 2010 Long-Term Incentive (LTI) Plans. Other aspects of our executive compensation program do not qualify as performance-based, such as time-based restricted stock and the Company's annual incentive bonus program. It is our intent to preserve our income tax deductions by qualifying certain compensation paid to our top executives as performance-based compensation under Code Section 162(m) where practicable under our compensation policies. The Committee nonetheless may approve compensation that may not qualify for the compensation deduction if, in light of all applicable circumstances, the Committee believes that it would be in our best interests to exercise our discretion to pay such compensation. For example, in the case of the annual incentive bonus program, the Committee prefers to maintain the ability to exercise discretion in evaluating Company and participant performance. The Committee will continue to monitor the impact of Code Section 162(m) on the Company's executive compensation programs.

Section 409A of the Code provides that all amounts deferred under a nonqualified deferred compensation plan are currently included in gross income and are subject to an additional 20% income tax, to the extent not subject to a substantial risk of forfeiture and not previously included in gross income, unless certain requirements are met. We have designed or amended our plans and programs with the intent that they either be exempt from or comply with Code Section 409A.

Executives and Directors Are Required to Own Stock

Consistent with the goal of driving long-term value creation for our stockholders, and in order to discourage undue risk-taking, the Company's stock ownership guidelines require significant stock ownership by the Named Executive Officers and Directors. Each Named Executive Officer is expected to achieve compliance with the ownership guidelines within five years of his or her appointment as a Named Executive Officer but is not required to purchase stock to meet these guidelines. The net shares acquired through incentive compensation plans (through the exercise of stock options, SARs, or the vesting of restricted stock or performance shares) must be retained if the Named Executive Officer has not satisfied his or her targeted ownership. An executive's failure to meet the stock ownership guidelines may influence an executive's future mix of cash and non-cash compensation awarded by the Committee. Executives are not permitted to pledge their shares or invest in derivatives involving Company stock. Ownership is reviewed at least annually when compensation decisions are made.

As of December 31, 2012, all of the Named Executive Officers met the stock ownership requirements as set forth below.

Compensation Process Making Executive Compensation Decisions**Determining Target Total Direct Compensation**

The Committee determines target total direct compensation for Named Executive Officers by establishing base salaries and setting long-term and annual incentive compensation targets. When appropriate, the Committee also approves special awards and modifies perquisites. The Committee typically establishes target total direct compensation in the first quarter of each year. When determining target total direct compensation, the Committee considers the following:

Market median for the target total direct compensation (base salaries, bonus targets and long-term incentives) for the peer group, based on disclosure in peer proxies and other applicable survey data;

Individual performance and areas of responsibility relative to the market data;

Compensation of other executive officers in the Company; and

The CEO's recommendations with respect to the compensation of the executives who report directly to him, including each of the Named Executive Officers.

The Committee's view is that an executive's target compensation should reflect the current market value of his or her services. For a Named Executive Officer who has performed well in the prior year, the predominant factor in determining target total direct compensation for the current year is the market median for the target total direct compensation for that position. In considering the mix of cash and long-term incentives, the Committee may adjust the amount and type of each component to generally target total direct compensation at the market median. When recruiting a new executive, the Company may be required to pay above market median to attract an individual. Over time, performance will determine actual pay and target pay will be adjusted toward the median.

Annual and Long-Term Incentive Programs

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

The Committee annually approves grant design, including performance metrics and target payout, for annual and long-term incentive programs. These deliberations, which usually begin with recommendations from management and involve discussions among the Committee, management and the Consultant, usually span numerous meetings before a design is approved. With respect to equity programs, the Committee also considers

Table of Contents

the accounting effect of the awards to the Company, dilution and burn rates. For performance-based equity awards, at the end of the performance period, the Committee certifies the level at which the performance measures were satisfied and approves the amount of incentive award payable to each Named Executive Officer.

Historical Compensation Review

Each year the Committee is provided various summaries for each Named Executive Officer of his or her compensation history, as well as all compensation payable upon his or her termination of employment and upon a change in control of the Company. These summaries, some of which are included in this Proxy Statement, include the following:

Three-year or longer history of base salary, annual incentive targets and awards, long-term incentive grants and payouts and perquisites;

Realized gains for the current year and potential gains on unexercised or unvested awards; and

The value of compensation and other severance benefits due to each Named Executive Officer under various termination scenarios, both before and after a change in control of the Company.

In addition to reviewing PDC's historical compensation and comparing current compensation to the peers, the Committee reviews both realizable and earned pay over the past three years relative to the Company's peers to help determine whether the Company's compensation plan is paying for performance as designed. The Committee looks at pay-for-performance using the performance measures used by ISS and Glass Lewis (although they use different peer groups) as well as a group of company-level performance measures relevant to the oil and gas industry. Those measures include production growth, revenue growth, operating cash flow growth, EBITDA/interest expense and total stockholder return. The Committee considers the results of this analysis in making adjustments to the compensation program each year.

Role of the Compensation Consultant

The Committee has the sole power to hire, terminate and approve fees for advisors, consultants and agents as it deems necessary to assist in the fulfillment of its responsibilities. The Consultant has been engaged directly by the Committee for approximately seven years. The Consultant provides the Committee with market data and observations regarding executive officer compensation programs and practices, including specifically:

Peer group identification and assessment;

Compensation benchmarking;

Advice and market insight as to the design, payout alternatives and performance measures for annual and long-term incentives;

Advice and market insight on other aspects of compensation (e.g., employment agreements, perquisites, etc.); and

Marketplace compensation trends in the Company's industry and generally.

The Consultant does not make recommendations on or approve the amount of compensation of any Named Executive Officer. Role of Management in Determining Executive Compensation

Our CEO plays a significant role in the Committee's establishment of compensation levels for our other Named Executive Officers. Significant aspects of his role in the process are:

Assessing his own performance and evaluation of the performance of the other Named Executive Officers;

Recommending quantitative and qualitative performance measures under our annual incentive program;

Providing feedback on proposed peer group companies;

Recommending base salary levels, annual incentive targets, actual annual incentive awards and long-term incentive awards for the other Named Executive Officers; and

Providing his assessment of the Company's performance for the year with respect to achievement of performance measures under the annual incentive program.

Management also retains an individual as a consultant in our compensation process to coordinate the preparation of certain materials for Committee meetings. This individual is retained by and reports to management, while the Consultant reports directly to the Committee.

At the Committee's request, our Named Executive Officers may also assess the design of or make recommendations related to our compensation and benefit programs. The Committee, with input from the Consultant, determines each element of compensation for the CEO. With input from the Consultant and the CEO, the Committee determines each element of compensation for the other Named Executive Officers. The CEO is not present during voting or deliberations concerning his own compensation.

Consideration of Say-on-Pay Vote

The Committee considers the results of the non-binding say-on-pay vote of our stockholders concerning the compensation of our Named Executive Officers. At our 2012 Annual Meeting, an overwhelming majority (89%) of the votes cast approved the compensation of our Named Executive Officers. Accordingly, the Committee concluded that our executive compensation programs generally meet the expectations of our stockholders, and we did not make any material changes to our executive compensation programs in 2012 in response to the say-on-pay results.

Components of the Company's Compensation Program

Our Named Executive Officers' 2012 compensation consisted principally of the following components, in addition to plans and programs in which all of our full-time employees participate, such as health and welfare benefit plans:

median based on Company performance.

Restricted stock is an important retention tool and ties executives to stockholders as the value of restricted stock is always equal to the current value of the stock.

SARs reward executives through increases in stock price and are believed to focus executives on taking reasonable actions to increase stock price over the long-term.

Performance share awards promote both the long-term growth of our stock price and stock performance that exceeds our peers.

Retirement Plans	Executives participate in our broad-based 401(k) and profit sharing plan under which all employees are eligible to make contributions in a tax-deferred vehicle and receive Company contributions.	To provide a level of retirement income for all employees, including executive officers, and allow employees to build financial security for their retirement.
	The Company matches dollar-for-dollar up to 10% of the employee's compensation, then matches 20% of the employee's contributions over the 10% amount up to the IRS maximum limits.	
	The Company does not provide any supplemental retirement benefit to any current executives.	
Health and Welfare Benefits	Executives participate in our broad-based health and welfare benefit programs on the same terms and conditions (including contribution rates) as other employees.	Mr. Amidon has never sought reimbursement for additional life insurance or disability benefits. He was provided these benefits at the time of his initial employment because the Committee did not believe that the Company's benefit programs were adequate to cover these events at the time. Company benefit plan coverage has improved since that time.
	Executives are provided up to thirteen weeks of short-term disability at full pay. Under the terms of his employment agreement, Mr. Amidon is entitled to annual premium payments for long-term disability insurance and life insurance up to \$1 million.	
Perquisites	The Company provides modest perquisites to executives which include car allowance for business and personal use, and club dues.	To provide personal benefits that are modest yet competitive with the perquisites provided to similarly situated executives.
Severance	Executives are contractually entitled to cash severance payments upon certain termination events and a change in control of the Company. A description of these benefits is included in this Proxy Statement.	To attract and retain executives in a volatile and consolidating industry by providing transitional income following loss of employment and to ensure executives act in the best interest of stockholders during a change in control.

2012 Compensation Decisions

Base Salary

After reviewing the market data provided by the Consultant, outside survey data and considering the other factors discussed above, we adjusted base salaries for 2012 on average 3.6% (excluding Mr. Lauck). Mr. Lauck's base salary was increased 13% because of his expanded role in the Company and for relinquishing his contractual right to the special acquisitions bonus described below. Base salary increases for each Named Executive Officer are detailed in the Summary Compensation Table.

Table of Contents**Annual Cash Incentives**

Each year, we approve a target annual cash incentive award for each Named Executive Officer. These target awards are expressed as a percentage of base salary and generally produce, when combined with long-term incentives, total target compensation near the median of the peer group. Actual awards can range up to 200% of these targets based on the achievement of Company and individual goals. For 2012, we approved target annual cash incentive awards as follows:

NAMED EXECUTIVE OFFICER	TARGET ANNUAL CASH INCENTIVE AS % OF BASE SALARY
James M. Trimble	100%
Gysle R. Shellum	75%
Barton R. Brookman	75%
Lance A. Lauck*	75%
Daniel W. Amidon	70%

* In addition, Mr. Lauck was eligible for a residual bonus related to acquisitions in 2011. This bonus was eliminated for 2012 (see below).

2012 Performance Metrics

In 2012, we established targets for the corporate performance metrics based on our 2012 public financial guidance, and the CEO established individual goals for each of our Named Executive Officers that align with the Company's strategy. To provide the Committee the flexibility to adjust for and react to economic events such as dramatic changes in commodity prices or volatile capital markets, we prefer not to rely solely on a formulaic approach based on pre-established thresholds that result in automatic payouts. The Committee always retains discretion to adjust actual awards as it views appropriate given circumstances at the time of award. We used the following five quantitative financial and operational metrics in 2012 to measure corporate performance.

FINANCIAL METRICS (50%)*

Adjusted Cash Flow per Share	Net income plus/minus change in operating assets and liabilities per share.
Capital Efficiency (3-year)	Adjusted EBITDAX divided by production, divided by three years' average finding and development cost per unit.

OPERATIONAL METRICS (50%)*

Production, Exploration and G&A Expense per Mcfe	The sum of total production, exploration, general and administrative expense and corporate general and administrative expense (G&A) divided by Mcfe (mcf equivalent for gas and oil).
Reserve Replacement Ratio (3-year average)	The sum of 2010, 2011 and 2012 extensions and discoveries, revisions in previous estimates and purchase of reserves, divided by the sum of 2010, 2011 and 2012 production.
Production (Bcfe)	Actual production volume for the year.

* A reconciliation of the items above to the most closely related amounts calculated in accordance with Generally Accepted Accounting Principles (GAAP) can be found in our quarterly investor relations material posted on our website at <http://investor.pdce.com/presentations.cfm>.

Throughout the year, the Committee reviews the Company's progress toward meeting the bonus goals for the year. Following the end of the fiscal year, the Committee determines annual incentive payments as follows:

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

An overall corporate performance rating is determined for the annual quantitative financial and operational metrics; 50% is based on financial metrics and 50% is based on operational metrics;

Table of Contents

The Committee may apply other subjective considerations in the final determination of the corporate performance rating (e.g., business conditions, stock price performance, etc.); and

Individual awards are determined by multiplying the overall corporate performance rating by the individual's annual incentive target and multiplying the result by the individual's base salary. Individual awards may be adjusted downward or upward at the Committee's discretion based on individual performance. Such adjustments are anticipated to have a maximum range of +/-20%.

2012 Actual Results

Upon completion of the fiscal year, the Committee reviewed the Company's performance based on the quantitative financial and operational measures described above. Results for 2012 were determined by the Committee as follows:

CORPORATE PERFORMANCE METRIC	TARGET	ACTUAL RESULTS	ADJUSTED RESULTS	PERFORMANCE
Financial Metrics (50%)				
Adjusted Cash Flow per Share	\$ 7.86	\$ 5.92	\$ 7.75*	Near Target
Capital Efficiency (3-year)	124%	211%	217%	Above Target
Operational Metrics (50%)				
Production, Exploration and G&A Expense per Mcfe	\$ 2.65	\$ 2.82	\$ 2.69	Near Target
Reserve Replacement Ratio (3-year average)	226%	512%	500%	Above Target
Production (Bcfe)	53.0	49.6	52.3	Near Target

* Adjusted using the number of shares outstanding prior to the May equity offering.

In evaluating the results, the Committee reviewed both the Actual Results and results adjusted for the following (the Adjusted Results):

Sale of the Permian production;

The effects of reducing capital for the Marcellus;

Timing of certain permitting issues with the EPA;

The costs associated with the Utica joint venture;

An extended pipeline curtailment issue affecting production;

The equity offering in May of three million shares; and

The effect on G&A expenses of third-party expenses associated with the acquisition of additional properties in the Wattenberg Field. The Committee believed the adjustments to the five metrics for the factors noted above were appropriate because they were either:

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

The result of actions beyond the control of management, such as third-party midstream issues, and, to a lesser extent, governmental permit delays; or

Caused by the impressive success of the Wattenberg Field horizontal drilling program by the Company as well as some of its peers, which resulted in a significant long-term value increase for the Company's stockholders but caused short-term midstream difficulties in 2012 which negatively impacted several of the five metrics.

In determining performance, the Committee considered the following:

Adjusted Cash Flow per Share: Actual results were below target but when adjusted to remove the impact of the above items, especially the equity offering in May, the results were close to target. Lower production and lower oil prices contributed to these results, offset somewhat by higher than expected realized natural gas prices (most of the Company's natural gas was hedged);

Table of Contents

Capital Efficiency (3-year): The Company's three-year average was above target. These results are very good considering industry-wide increases in completion costs;

Production, Exploration and G&A Expense per Mcfe: Operating costs were down for the year. Although the Company did not meet target for the year, when adjusted for the impact of the above items, results were close to target;

Reserve Replacement Ratio (3-year average): Results on a three-year basis were significantly above target. The Company executed its drilling program with a 100% success rate and significantly increased reserves due to the drilling and operations success in both the Wattenberg and Marcellus programs. These results were even more significant considering the Company wrote off almost all of its non-producing gas reserves in the Piceance, NECO and Devonian fields as a result of low natural gas prices in 2012; and

Production (Bcfe): Actual Results were below target due to a combination of curtailments in the Wattenberg Field by our third-party gatherer and a delay in the EPA permitting process affecting one of our pipelines. Adjusting for these two items, production would have been only slightly below target.

When the Committee considered the Adjusted Results, the Company generally was near or exceeded targets. In addition, the Committee took into account the following:

The Company successfully conducted its acquisitions and divestiture program to strategically focus the Company for the future with the sale of the Permian assets, the acquisition of the additional Wattenberg assets and the acquisition of the additional acreage in the Utica formation to extend our holdings, especially in light of the two successful horizontal wells in that formation;

The Company executed several transactions to finance its long-term strategy by completing an equity offering, a high-yield offering which resulted in the Company calling in \$200 million in high-interest notes, and expanding the Company's liquidity under its revolving credit agreement to \$525 million (subsequently reduced modestly due to a bond issuance);

The Company had a successful environmental and safety record for the year; and

The Company ranked second amongst its peers in total stockholder return in 2012 and on a three-year basis.

When determining the 2012 management bonus percentage above 100% of target, however, the Committee ultimately did not focus as much on such adjustments to the five metrics, but rather weighed more heavily the strategic repositioning of the Company in 2012, especially management's vision and execution of asset restructuring as well as drilling success, which resulted in a significantly higher percentage of high-margin oil and liquids production and reserves by year end. The resulting drilling opportunity portfolio was coupled with a re-focusing of the Company on fewer basins, concentrating on areas where management believed the Company had a competitive advantage. Moreover, the Committee believed that the importance of these strategic changes was understood and appreciated by investors, as reflected in the Company's excellent stock performance for 2012.

Taking into account all of the foregoing, the Committee determined that the Company performed well on both the financial and operational metrics and that the management team exceeded expectations with the achievement of its other accomplishments. As a result, after reviewing the 2012 results with a focus on the above-mentioned factors, the Committee determined that an overall corporate performance rating of 125% should be applied to each Named Executive Officer's annual incentive award target. No individual adjustments were made. Actual bonus amounts paid for 2012 performance and reflected in the Summary Compensation Table are as follows:

NAMED EXECUTIVE OFFICER

2012 ANNUAL
BONUS

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

James M. Trimble	\$	815,000
Gysle R. Shellum		305,000
Barton R. Brookman		305,000
Lance A. Lauck		282,000*
Daniel W. Amidon		250,000

* Excludes Mr. Lauck's residual 2011 acquisitions bonus described below.

Table of Contents*Residual 2011 Acquisitions Bonus to Mr. Lauck*

For 2011, in addition to his annual incentive bonus, Mr. Lauck was eligible to receive a special bonus in the event of the completion of successful acquisitions, as determined by the Committee. This program was put in place to incent value-added growth through acquisitions as part of the Company's five-year business plan. Mr. Lauck was awarded a total special acquisition bonus of \$265,000 in 2011, payable over two years. Half of the bonus was paid in the first quarter of 2012, based upon the initial projections of the transactions. The remaining amount was paid in the first quarter of 2013 based upon a post-transaction look-back evaluation of the transactions, updated for actual results.

In 2012, the Committee elected to eliminate the acquisitions bonus and treat Mr. Lauck's compensation comparably to that of the other Named Executive Officers. The Committee did this to recognize Mr. Lauck's broader corporate responsibilities over the past year and to de-emphasize his focus on acquisitions. His compensation package was adjusted accordingly to compensate him similarly to other Named Executive Officers.

Long-Term Incentives

The Committee uses a combination of grants of restricted stock, SARs and performance shares in its mix of long-term incentives. While the Committee considers long-term incentives as primarily forward-looking, the Committee also considers the Named Executive Officers' performance in the prior year in determining the size of the awards. Generally, the Committee considers competitive market data, previous equity awards, equity ownership levels and the mix of cash and equity compensation that is necessary to place our Named Executive Officers at the median of the latest available compensation data for total direct compensation (base salary, bonus and LTI combined). The Committee typically awards equity grants in the first quarter of the year.

Over the past several years, the Committee has modified the mix of long-term incentives to be more competitive with our peers and to create a more performance-driven approach that better aligns the interests of our Named Executive Officers with the interests of our stockholders. In 2011, the Committee implemented a performance share award program ensuring that, when combined with the SAR grant, half of an executive's long-term incentive award would be performance-based. For 2012, the Committee continued that program and granted a mix of 50% time-based restricted stock, 25% SARs and 25% performance shares. The performance shares may be earned at the end of a three-year performance period upon the achievement of specific total stockholder return (TSR) levels relative to a group of peers. The time-based restricted shares and SARs vest ratably over three years.

Annually, the Committee determines the target value of the long-term incentives it wants to deliver to the executive to place total target compensation at approximately the median of the market. Once determined, the Committee typically uses an average of the closing share price of the fifteen trading days ending ten days prior to the scheduled grant date to determine the number of shares to be granted. The dollar value reflected in the Summary Compensation Table is the accounting value for the grant. This amount will generally vary from the targeted amount since the target amount is based on a fifteen-day average and the accounting value of those shares is based solely on the price of the Company stock on the date of grant. Based on the volatility of PDC's stock, this price difference can be significant.

The table below shows the actual grants approved for 2012 for each Named Executive Officer.

NAME	2012 LONG-TERM INCENTIVE GRANTS			
	TARGETED VALUE	RESTRICTED STOCK	SARs	PERFORMANCE SHARES
James M. Trimble	\$ 2,700,000	38,517	32,959	14,725

Grant date accounting values for the 2012 grants are reflected in the Summary Compensation Table and Grants of Plan-Based Awards.

Table of Contents*2012 Performance Share Program*

Under this program, Named Executive Officers will receive shares of stock based on the Company's TSR over the performance period from January 1, 2012 through December 31, 2014, as ranked among the comparably-measured TSR of the applicable peer group. The Committee believes that the peer group appropriate for measuring relative stock price performance may be different from the peer group the Company is competing with for executive talent. However, the Committee generally uses the same companies whenever possible. For 2012, the peer companies selected by the Committee for measuring relative TSR are identical to the compensation benchmarking group for 2012 with the exception of Brigham Exploration Company, which was acquired by Venoco, Inc. at the end of 2011, prior to the grant of the performance share awards.

The TSR for the Company and each of the peer companies is determined by dividing (1) the average share price for the last twenty business days of the performance period, minus the average share price for the twenty business days preceding the beginning of the performance period, plus dividends (cash or stock based on the ex-dividend date) paid per share of common stock over the performance period, by (2) the average share price for the twenty business days preceding the beginning of the performance period.

At the end of the performance period, payout can range from 0% - 200% of the target award as follows:

COMPANY TSR RANKING

AMONG PEERS	PAYOUT LEVELS AS % OF AWARD
Top	200%
75th Percentile	150%
Median	100%
25th Percentile	50%
Below 25th Percentile	0%

If performance falls between the percentiles, payout levels are adjusted accordingly. In addition, if the Company has negative TSR for the performance period, the maximum award that can be paid out under the program is 100%, regardless of relative performance.

For a description of what happens in the event of termination of the Named Executive Officer or a change in control of the Company prior to the end of the performance periods, see Potential Payments Upon Termination or Change in Control.

Special Equity Grants

From time to time, the Committee approves special grants which typically take the form of restricted stock, although other types of awards may be made when appropriate. Special grants are typically considered:

In connection with promotion where more stock exposure is desired;

To recognize extraordinary achievement;

When the survey data demonstrates a significant deviation from market total direct compensation for the comparator group;

When the Committee deems special retention measures are necessary for a particular executive; or

As part of a new hire package for an executive.

No special grants were awarded in 2012.

Table of Contents

Agreements with Named Executive Officers

Severance Plan and Employment Agreements with Named Executive Officers

The Committee believes that severance protection plays a valuable role in attracting, motivating and retaining highly talented executives and that having an existing agreement in place is preferable to negotiating an exit package at the time of a Named Executive Officer's departure. Severance provisions give the Company the flexibility to make decisions regarding organizational issues with agreed-upon severance terms. In the event that the Company faces a change in control, severance benefits encourage executive officers to remain with the Company during an important time when prospects for continued employment are often uncertain and provide a measure of financial security to the executive officer. The Committee believes that the severance amounts that may be paid upon a change in control of the Company ensure that the interests of the executive officers will be materially consistent with the interests of the Company's stockholders and strike a proper balance between the hiring, motivating and retention effects described above, without providing excessive benefits to executives.

Accordingly, in 2012, the Company decided to move away from employment agreements and adopted the PDC Energy Severance and Change in Control Plan (the "Severance Plan") for the CEO, whose employment agreement will expire on June 30, 2013, and any senior executive officer hired in the future. The Company grandfathered the existing employment agreements in effect with the current senior executives and agreed to give Mr. Trimble the greater of the Severance Plan benefit or the severance benefit provided under his employment agreement until its expiration in June 2013. The Severance Plan and individual employment agreements provide termination benefits both prior to and upon a change in control the Company and are described in detail under "Potential Payments Upon Termination or Change in Control." The Committee considers these protections to be an important part of an executive's compensation and consistent with competitive practices in the oil and gas industry.

ADDITIONAL DISCUSSION OF TABLES RELATED TO SUMMARY COMPENSATION

AND 2012 GRANTS OF PLAN-BASED AWARDS

The following provides additional disclosure about the Company's long-term incentive awards.

Terms of Restricted Stock and SAR Grants

Restricted Stock

Restricted stock awards to Named Executive Officers vest ratably over three years except for the following:

Mr. Lauck's 2010 award includes 7,000 shares that were granted coincident with the signing of his employment agreement in January 2010 that vested 50% per year beginning in August 2010, coincident with the anniversary of his hire date;

Mr. Shellum's 2011 award includes a special award of 7,000 shares that vests ratably over five years; and

Unvested awards are forfeited by the executive if, prior to the vesting date, the executive either voluntarily terminates without cause or is terminated for cause.

SARs

SARs are awarded at the NASDAQ closing price of PDC stock on the date of the grant and vest ratably over three years;

Awards expire no later than ten years after grant date; and

All unvested awards are forfeited by the executive if the executive voluntarily terminates or is terminated for cause prior to the vesting date.

Terms of the Performance Share Programs

2012 Program

For a discussion of the provisions of the 2012 Performance Share Program, see "Long-Term Incentives - 2012 Performance Shares."

2011 Program

The provisions of the 2011 Performance Share Program are identical to those of the 2012 Program except for the peer group used to measure relative TSR over the 2011-2013 performance period. The eleven companies used in the 2011 program as peers were: Berry Petroleum Company, Bill Barrett Corporation, Cabot Oil & Gas Corporation, Carrizo Oil & Gas, Comstock Resources, Goodrich Petroleum Corporation, Penn Virginia Corporation, PetroQuest Energy Inc., Rosetta Resources Inc., SM Energy Company and Venoco, Inc.

2008 and 2009 Programs

In 2008 and 2009, the Committee awarded performance shares that vest upon achievement of specific stock price targets over a three- to five-year period. The initial tranche could be earned as of the end of year three with additional hurdle targets for the end of years four and five. Any shares not vested remain eligible to vest in future years; however, any unvested shares at the end of the five-year performance period would

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

be forfeited. The Committee used three measurement dates to take into account the volatility of energy prices and their impact on the stock price of the Company. The following chart shows the various stock price hurdle rates and payout levels by year for the 2009 Program. The 2008 performance shares were forfeited on December 31, 2012, as the threshold performance criteria was not met.

YEAR OF AWARD	APPROXIMATE GROWTH TARGET ⁽¹⁾	TARGET PRICE ⁽¹⁾ (\$)			VESTED TARGET PERCENT ATTAINED
		2011	2012	2013

	16%	34.00			75%
	20%	37.50	45.00	54.00	100%

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

In 2012, the Company adopted the Severance Plan which covers the CEO and the Named Executive Officers. The Severance Plan was adopted to replace Mr. Trimble's employment agreement, which expires in June 2013, and to provide severance benefits to any future senior executives of the Company. The Company grandfathered the employment agreements in effect with the other current Named Executive Officers.

The primary purpose of the Severance Plan and similar provisions of the employment agreements is to provide severance benefits in the event of the termination of the Named Executive Officer by the Company without just cause, termination by the Named Executive Officer for good reason, or termination of the Named Executive Officer following a change in control of the Company. Upon a change in control, the Severance Plan and individual employment agreements provide benefits only in the event that an executive is terminated by the acquiring company without cause or by the executive for good reason i.e., they are double-trigger in nature.

Under the terms of the Severance Plan, in the event of termination by the Company without just cause or termination by the executive for good reason, any Tier One executive (currently the Company anticipates that the CEO would be the only Tier One executive) receives two times the sum of his base salary and target bonus for the year and Tier Two executives (any remaining covered executives) would receive one and one-half times the sum of his base salary and target bonus for the year. In the event of termination related to a change in control of the Company, a Tier One Executive (the CEO) would receive three times the sum of his base salary and target bonus for the year and each Tier Two executive would receive two and one-half times the sum of his base salary and target bonus for the year. In addition, if termination is due to a change in control of the Company, the executive would receive a pro-rata bonus at target for the year at the time of termination. The Severance Plan provides a benefit offset so that cash benefits paid upon severance would be reduced by any other severance benefits that the executive is entitled to receive under a Company (or successor company) plan. Currently, the Committee has elected to cover only Mr. Trimble under the Severance Plan and to maintain the grandfathered agreements for the other Named Executive Officers. The following table summarizes the cash payout under certain termination scenarios for each Named Executive Officer.

	TERMINATION WITHOUT CAUSE OR FOR GOOD REASON	TERMINATION DUE TO CHANGE IN CONTROL	CONTROLLING PLAN OR AGREEMENT
James M. Trimble	2x base plus target bonus	3x base plus target bonus <u>plus</u> pro-rata bonus for the year of termination	Severance Plan

Table of Contents

The Potential Payments Upon Termination or Change in Control table below outlines any additional benefits that may be paid in the event of any termination, including termination for cause, death or disability under either the Severance Plan or the individual's employment agreement.

As a condition to receiving severance benefits under the Severance Plan and under the terms of the grandfathered employment agreements, there is a non-disclosure covenant and the executive officer is prohibited for a period of one year following his termination from engaging in any competing business within any county or in any adjacent county in which the Company is doing business. In addition, the executive is prohibited from soliciting employees from the Company for up to two years (varies by individual agreement) following termination. To aid in the enforcement of these provisions, prior to a change in control of the Company, the Severance Plan pays the severance benefits over twelve months.

In addition, each grandfathered employment agreement contains a clawback provision requiring the executive to reimburse all or a portion of his annual bonus if the Company must restate all or a portion of its financial statements due to material noncompliance by the Company with any financial reporting requirement under securities laws. The reimbursements are equal to the difference between the bonus paid to the executive for the affected years and the bonus that would have been paid to the executive had the financial results been properly reported. These clawback provisions are in addition to the clawback provisions of the Dodd-Frank Act. The grandfathered employment agreements automatically extend for twelve months on December 31 of each year prior to the last year of the employment agreement (or any extensions thereof) unless either party gives notice of non-renewal. However, each executive officer with an employment agreement serves at the discretion of the Board, as the agreements allow for termination at any time with thirty days' written notice.

Impact of Termination and Change in Control on Long-Term Incentive Plans

Under the terms of the 2004 and 2010 LTI Plans and related grant agreements and employment agreements, all unvested restricted stock, stock options and SARs vest upon death, disability and change in control. The following table outlines the effect on outstanding LTI awards under various termination scenarios and upon a change in control of the Company based on the terms of the 2004 and 2010 LTI Plans and related grant agreements and the executive employment agreements.

TERMINATION SCENARIO/ CHANGE IN CONTROL	RESTRICTED STOCK/SARs/ OPTIONS	2009 PERFORMANCE SHARES	2011/2012 PERFORMANCE SHARES

Disability	Vests	Earned pro-rata based on performance through date of disability.	Earned pro-rata based on performance at end of performance period.
Change in Control	Vests under terms of the Plan.	Partially earned, based on performance through change in control pro-rated for time passed (based on 60 months).	If less than 50% of the performance period has elapsed, earns 100% of performance shares. If 50% or more of the performance period has elapsed, earns greater of actual performance through change in control or 100% of performance shares.

Table of Contents**Change in Control Excise Tax Provision**

The Company currently provides no income tax gross-up or excise tax gross-up pursuant to taxes that may be imposed on excess parachute payments within the meaning of Section 280G and Section 4999 of the Code. If, in connection with a change in control of the Company, any compensation to a Named Executive Officer is accelerated or becomes vested, that executive could, in some cases, be considered to have received parachute payments within the meaning of Section 280G and Section 4999 of the Code. Pursuant to these tax laws, the executive could be subject to a 20% excise tax on parachute payments that exceed a certain amount, in which case the Company would be denied a tax deduction for such excess parachute payments. The Severance Plan and the grandfathered employment agreements provide that if it is determined that any payment or distribution by the Company to or for the executive's benefit would constitute an excess parachute payment, the Company will either (1) pay the total amount to the executive and he would be responsible for the excise tax; or (2) reduce the executive payment to the IRS safe harbor amount, whichever amount would give the executive the greater benefit on a net, after-tax basis.

Termination Benefits Table

The table below and the discussion that follows reflect the maximum amount of compensation payable to each Named Executive Officer upon death, permanent disability, change in control of the Company, or other termination under the Severance Plan, each Named Executive Officer's employment agreement, and/or the equity compensation plans. The amounts shown assume that termination occurred on December 31, 2012, that the closing price per share on such date was \$33.21, and, in the event of termination due to change in control, the executive's benefit is not reduced as a result of Section 280G and Section 4999 of the Code (as described above). The actual amounts to be paid can only be determined at the time of such executive's separation from the Company.

(1) A cash benefit is only payable if, within two years following a change in control, the executive is terminated by the Company or its successor without cause or the executive terminates for good reason (double trigger) as defined in either his employment agreement or the severance plan, whichever is applicable. The Company currently provides for no tax gross-ups in respect of excess parachute payments within the meaning of Section 280G and Section 4999 of the Code.

(2) There are no amounts shown for earned but unpaid compensation for 2012; however, the Compensation Committee in its sole discretion could award a bonus for 2012 performance. This amount is not known on December 31 since it is typically not determined until sometime in February. The cash bonus amounts paid in March 2013 for 2012 performance are reflected in the Summary Compensation Table.

(3) In determining severance amounts for each Named Executive Officer, the following factors were considered:

- (a) The amount of severance shown for Mr. Trimble upon change in control includes a \$650,000 target bonus for 2012 in accordance with the Severance Plan;

Table of Contents

- (b) The amount of severance upon termination By Company Without Cause or By Executive for Good Reason for Messrs. Shellum, Brookman, Lauck and Amidon is determined using the 2011 bonus paid, pursuant to their respective employment agreements. (Mr. Amidon receives the greater of his 2011 bonus paid in 2012 or his 2012 bonus earned but not yet paid; however, as of December 31, this amount had not yet been determined);
 - (c) The amount of severance shown for Messrs. Shellum, Brookman and Lauck upon termination for cause and for Mr. Amidon upon voluntary termination by the executive is a pro-rata bonus for the year pursuant to their respective employment agreements. For purposes of this table, the pro-rata bonus was assumed to be the target bonus, since the 2012 bonus had not yet been determined. Upon termination, the Committee would determine bonuses based on the Company's actual performance;
 - (d) In the determination of Mr. Lauck's severance amounts, his contractual acquisitions bonus is not included in any of his severance calculations pursuant to the terms of his employment agreement;
 - (e) Upon disability, under the terms of their respective employment agreements, each of the executives would receive up to thirteen weeks of salary continuation in the event of short-term disability and a lump sum payment equal to six months' base salary upon qualifying for long-term disability. Mr. Amidon would also receive a pro-rata bonus for the year, if he terminates after March 31 of the year, which is included in the severance amount shown. For purposes of this table, the bonus was assumed to be the target bonus amount of \$199,500, since the 2012 bonus had not yet been determined. Upon disability, the Committee would determine bonuses based on the Company's actual performance; and
 - (f) In the event of death, Messrs. Shellum, Brookman, Lauck and Amidon would receive a lump sum cash payment equal to six months' base salary pursuant to their respective employment agreements. Mr. Trimble would receive no death benefit pursuant to either his employment agreement or the Severance Plan. In addition, Messrs. Trimble and Amidon would be entitled to receive a pro-rata bonus for the year which is included in the severance shown. For purposes of this table, the bonus was assumed to be the target bonus since the 2012 bonus had not yet been determined (\$650,000 for Mr. Trimble and \$199,500 for Mr. Amidon, respectively). Upon death, the Committee would determine bonuses based on the Company's actual performance.
- (4) The 2004 and 2010 LTI Plans or the specific award letters provide for full accelerated vesting of all restricted stock upon a change in control of the Company, death and disability. In addition, all unvested shares of time-based restricted stock would vest under the individual employment agreements upon all termination events except voluntary termination and termination for cause. For the unvested shares of restricted stock subject to accelerated vesting, see Outstanding Equity Awards at 2012 Fiscal Year-End.
- (5) The 2004 and 2010 LTI Plans or the specific award letters provide for full accelerated vesting of all SARs upon change in control of the Company, death and disability. In addition, all unvested SARs would vest under the individual employment agreements upon all termination events except voluntary termination and termination for cause. The value of the SARs shown is calculated using the closing price of the Company's shares on December 31, 2012, less the exercise price of the SARs determined on grant date. For the unvested SARs that would have accelerated vesting, see Outstanding Equity Awards at 2012 Fiscal Year-End.
- (6) As of December 31, 2012, the unearned 2009 performance shares would be forfeited under every termination scenario and the 2011 and 2012 performance shares would vest as follows:
- (a) Performance shares would be forfeited except in the case of disability, death and a change in control of the Company;
 - (b) In the case of disability, in accordance with the performance share agreements, one-third of the 2012 and two-thirds of the 2011 performance shares would be earned. Although payment would not occur until the end of the performance period, for purposes of this illustration, the price is assumed to be the price on December 31, 2012, which would result in target payout. The value shown is determined by using the target number of shares awarded times 100% times the pro-rata amount earned for the performance period (based upon completed months of performance period divided by total months of performance period) times the stock price on December 31, 2012;
 - (c)

Edgar Filing: PDC ENERGY, INC. - Form DEF 14A

In the case of death, in accordance with the performance share agreements, one-third of the 2012 and two-thirds of the 2011 performance shares would be earned. Assuming death had occurred on December 31, 2012, which is during the first two years of the performance period, the amount earned would be based on the performance results through December 31, 2012, which would result in target payout. The value shown is determined by using the target number of shares awarded times 100% times the pro-rata amount earned for the performance period (based upon completed months of performance period divided by total months of performance period) times the stock price on December 31, 2012; and

- (d) In the event of a change in control of the Company, the value of the 2012 performance shares is determined by multiplying the number of shares granted times 100%, since 50% of the performance period had not expired. The value of the 2011 performance shares is based on the Company's performance through December 31, 2012 or 100%, whichever is higher. Assuming the change in control occurred on December 31, 2012, based on the performance of the Company, the 2011 performance shares would have paid out at target. In the case of both the 2011 and 2012 performance shares, the value shown is determined by using the target number of shares awarded times 100% times the stock price on December 31, 2012.
- (7) Amount for each executive includes a profit sharing contribution of \$8,125 for 2012 that was remitted to each executive's 401(k) account in March 2013. Mr. Lauck's amount includes \$132,500 of his residual acquisitions bonus related to acquisitions in 2011. In some cases of termination for cause, the Committee may determine that Mr. Lauck is not entitled to this deferred bonus amount.
- (8) Amount represents the Company-subsidized COBRA premium cost to continue family health, vision and dental coverage for an 18-month period.
