Form 10-Q  
November 03, 2014

---

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549  
FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended September 30, 2014

Commission File No. 1-16263

MARINE PRODUCTS CORPORATION  
(exact name of registrant as specified in its charter)

Delaware 58-2572419  
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification Number)

2801 Buford Highway, Suite 520, Atlanta, Georgia 30329  
(Address of principal executive offices) (zip code)

Registrant's telephone number, including area code -- (404) 321-7910

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes- x No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer o Accelerated filer x  
Non-accelerated filer o (Do not check if smaller reporting company) Smaller reporting company o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes-- o No x

As of October 24, 2014, Marine Products Corporation had 38,165,676 shares of common stock outstanding.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (all of which consisted of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months and nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014.

The balance sheet at December 31, 2013 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2013.

A group that includes the Company's Chairman of the Board, R. Randall Rollins and his brother Gary W. Rollins, who is also director of the Company, and certain companies under their control, controls in excess of fifty percent of the Company's voting power.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Recently Adopted Accounting Pronouncements:

Accounting Standards Update (ASU) 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The amendments in this ASU requires an unrecognized tax benefit, or a portion of thereof, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carry-forward, a similar tax loss, or a tax credit carry-forward. The only exception would be if the deferred taxes related to these items are not available to settle any additional income taxes that would result from the disallowance of a tax position either by statute or at the entity's choosing. In such cases, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The Company adopted these provisions in the first quarter of 2014 and adoption did not have a material impact on the Company's consolidated financial statements.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Recently Issued Accounting Pronouncements Not Yet Adopted:

Accounting Standards Update No. 2014-15, Presentation of Financial Statements —Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The provisions in this ASU are intended to define management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. Currently, financial statements are prepared under the presumption that the reporting organization will continue to operate as a going concern, except in limited circumstances. This going concern basis of accounting is critical to financial reporting because it establishes the fundamental basis for measuring and classifying assets and liabilities. This ASU provides guidance regarding management's responsibility to evaluate whether there is substantial doubt about the organization's ability to continue as a going concern and the related footnote disclosures. The amendments are effective for the year ending December 31, 2016, and for interim periods beginning the first quarter of 2017, with early application permitted. The Company plans to adopt the provisions for the year ending December 31, 2016 and will provide such disclosures as required if there are conditions and events that raise substantial doubt about its ability to continue as a going concern. The Company currently does not expect the adoption to have a material impact on its consolidated financial statements.

Accounting Standards Update 2014-09, Revenue from Contracts with Customers (Topic 606). This ASU affects any entity using U.S. GAAP that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (e.g., insurance contracts or lease contracts). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply a five step process – (i) identifying the contract(s) with a customer, (ii) identifying the performance obligations in the contract, (iii) determining the transaction price, (iv) allocating the transaction price to the performance obligations in the contract and (v) recognizing revenue when (or as) the entity satisfies a performance obligation. The Company plans to adopt these provisions in the first quarter of 2017 and is currently evaluating the impact of these provisions on its financial statements. Early adoption is not permitted.

Accounting Standards Update 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in the ASU require that only disposals representing a strategic shift in operations should be presented as discontinued operations. Those strategic shifts should have a major effect on the organization's operations and financial results. Examples include a disposal of a major geographic area, a major line of business, or a major equity method investment. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. The new guidance also requires disclosure of the pre-tax income attributable to a disposal of a significant part of an organization that does not qualify for discontinued operations reporting. The amendments in the ASU are effective in the first quarter of 2015 with early adoption permitted. The Company plans to adopt these provisions in the first quarter of 2015 and does not expect the adoption to have a material impact on the Company's consolidated financial statements.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## 3. EARNINGS PER SHARE

Basic and diluted earnings per share are computed by dividing net income by the weighted average number of shares outstanding during the respective periods. The basic and diluted calculations differ as a result of the dilutive effect of stock options and time lapse restricted shares included in diluted earnings per share, but excluded from basic earnings per share. In addition, the Company has periodically issued share-based payment awards that contain non-forfeitable rights to dividends and are therefore considered participating securities.

A reconciliation of weighted average shares outstanding is as follows:

(In thousands except per share data )	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Net income available for stockholders	\$ 1,882	\$ 2,002	\$ 6,873	\$ 5,386
Less: Dividends paid	(1,144 )	(1,140 )	(3,435 )	(3,423 )
Undistributed earnings	\$ 738	\$ 862	\$ 3,438	\$ 1,963
Basic shares outstanding:				
Common stock	35,642	35,556	35,710	35,516
Restricted shares of common stock	1,262	1,271	1,240	1,263
	36,904	36,827	36,950	36,779
Diluted shares outstanding:				
Common stock	35,642	35,556	35,710	35,516
Dilutive effect of stock based awards	286	353	286	279
	35,928	35,909	35,996	35,795
Restricted shares of common stock	1,262	1,271	1,240	1,263
	37,190	37,180	37,236	37,058

Inclusion of all participating securities in the computation of Earnings Per Share (EPS) under the two-class method had no impact on the Basic EPS amounts reported for the three months ended September 30, 2014 and 2013, and a reduction of \$0.01 for the nine months ended September 30, 2014 and 2013.

The effect of the Company's stock options as shown below have been excluded from the computation of diluted earnings per share for the following periods, as their effect would have been anti-dilutive:

Three months ended September	Nine months ended September 30,
---------------------------------	------------------------------------

	30,			
(in thousands)	2014	2013	2014	2013
Stock options	-	42	-	42

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## 4. STOCK-BASED COMPENSATION

The Company reserved 3,000,000 shares of common stock under the 2014 Stock Incentive Plan with a term of ten years expiring in April 2024. All future equity compensation awards by the Company will be issued under the 2014 plan. This plan provides for the issuance of various forms of stock incentives, including among others, incentive and non-qualified stock options and restricted shares. As of September 30, 2014, there were approximately 2,940,000 shares available for grant.

Stock-based compensation for the three months and nine months ended September 30, 2014 and 2013 were as follows:

(in thousands)	Three months ended		Nine months ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Pre – tax cost	\$ 468	\$ 429	\$ 1,372	\$ 1,273
After tax cost	\$ 303	\$ 276	\$ 885	\$ 821

## Stock Options

Transactions involving Marine Products stock options for the nine months ended September 30, 2014 were as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life in years	Aggregate Intrinsic Value
Outstanding at December 31, 2013	41,600	\$ 12.47	0.33	
Granted	-	-	N/A	
Exercised	-	-	N/A	
Forfeited	-	-	N/A	
Expired	(41,600 )	12.47	N/A	
Outstanding at September 30, 2014	0	N/A	N/A	N/A

There were no stock options exercised during the nine months ended September 30, 2014 and 2013.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## Restricted Stock

The following is a summary of the changes in non-vested restricted shares for the nine months ended September 30, 2014:

	Shares	Weighted Average Grant-Date Fair Value
Non-vested shares at December 31, 2013	1,268,200	\$ 6.01
Granted	273,000	\$ 7.90
Vested	(276,100 )	\$ 5.76
Forfeited	(3,550 )	\$ 6.09
Non-vested shares at September 30, 2014	1,261,550	\$ 6.47

The total fair value of shares vested was approximately \$2,356,000 during the nine months ended September 30, 2014 and \$1,457,000 during the nine months ended September 30, 2013. Tax benefits for compensation tax deductions in excess of compensation expense totaling approximately \$311,000 for the nine months ended September 30, 2014 and \$108,000 for the nine months ended September 30, 2013 were credited to capital in excess of par value and classified as financing cash flows.

## Other Information

As of September 30, 2014, total unrecognized compensation cost related to non-vested restricted shares was approximately \$7,021,000. This cost is expected to be recognized over a weighted-average period of 3.6 years.

## 5. MARKETABLE SECURITIES

Marine Products' marketable securities are held with a large, well-capitalized financial institution. Management determines the appropriate classification of debt securities at the time of purchase and reevaluates such designations as of each balance sheet date. Debt securities are classified as available-for-sale because the Company does not have the intent to hold the securities to maturity. Available-for-sale securities are stated at their fair values, with the unrealized gains and losses, net of tax, reported as a separate component of stockholders' equity. The cost of securities sold is based on the specific identification method. Realized gains and losses, declines in value judged to be other than temporary, interest and dividends on available-for-sale securities are included in interest income.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The net realized gains and the reclassification of net realized gains from other comprehensive income are as follows:

(in thousands)	Three months ended		Nine months ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Net realized gain (loss)	\$ 3	\$ (24 )	\$ 5	\$ 56
Reclassification of net realized gains from other comprehensive income	\$ 3	\$ (24 )	\$ 5	\$ 56

Gross unrealized gains (losses) on marketable securities are as follows:

(in thousands)	September 30, 2014		December 31, 2013	
	Gross unrealized		Gross unrealized	
	Gains	(Losses)	Gains	(Losses)
Municipal Obligations	\$ 235	\$ (3 )	\$ 223	\$ (16 )
Corporate Obligations	6	(12 )	6	-
	\$ 241	\$ (15 )	\$ 229	\$ (16 )

The amortized cost basis, fair value and net unrealized gains on the available-for-sale securities are as follows:

Type of Securities (in thousands)	September 30, 2014			December 31, 2013		
	Amortized Cost Basis	Fair Value	Net Unrealized Gains (Losses)	Amortized Cost Basis	Fair Value	Net Unrealized Gains
Municipal Obligations	\$ 39,312	\$ 39,544	\$ 232	\$ 35,925	\$ 36,132	\$ 207
Corporate Obligations	4,978	4,972	(6 )	450	456	6
Total	\$ 44,290	\$ 44,516	\$ 226	\$ 36,375	\$ 36,588	\$ 213

Municipal obligations consist primarily of municipal notes rated A- or higher ranging in maturity from less than one year to over 7 years. Corporate obligations consist primarily of debentures and notes issued by other companies ranging in maturity from one to six years. These securities are rated BBB- or higher. Investments with remaining maturities of less than 12 months are considered to be current marketable securities. Investments with remaining maturities greater than 12 months are considered to be non-current marketable securities. The Company's non-current marketable securities are scheduled to mature between 2015 and 2021.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## 6. WARRANTY COSTS AND OTHER CONTINGENCIES

## Warranty Costs

The Company warrants components of the boat, excluding the engine, against defects in materials and workmanship for a period of one year. Cockpit upholstery and canvas is warranted for three years. The Company also warrants the structural hull, including its transom and supporting stringer system, against defects in materials and workmanship for ten years. The structural deck is warranted for a period of five years to the original purchaser. An analysis of the warranty accruals for the nine months ended September 30, 2014 and 2013 is as follows:

(in thousands)	2014	2013
Balance at beginning of period	\$ 3,410	\$ 2,522
Less: Payments made during the period	(1,039 )	(1,232 )
Add: Warranty provision for the period	1,918	1,903
Changes to warranty provision for prior periods	(66 )	222
Balance at September 30	\$ 4,223	\$ 3,415

The warranty accruals are reflected in accrued expenses and other liabilities on the consolidated balance sheet.

## Repurchase Obligations

The Company is a party to various agreements with third party lenders that provide floor plan financing to qualifying dealers whereby the Company guarantees varying amounts of debt on boats in dealer inventory. The Company's obligation under these guarantees becomes effective in the case of a default under the financing arrangement between the dealer and the third party lender. The agreements provide for the return of repossessed boats to the Company in new and unused condition subject to normal wear and tear as defined, in exchange for the Company's assumption of specified percentages of the debt obligation on those boats, up to certain contractually determined dollar limits by the lenders. The Company expects to incur obligations for inventory repurchases totaling approximately \$1.1 million in the fourth quarter of 2014 resulting from dealer defaults on floor plan financing. The Company recorded costs in connection with these repurchases of approximately \$60 thousand during the third quarter of 2014 as a reduction to net sales. The Company had no material repurchases of inventory during the year ended December 31, 2013 or during the nine months ended September 30, 2014.

Management continues to monitor the risk of defaults and resulting repurchase obligations based in part on information provided by third-party floor plan lenders and will adjust the guarantee liability at the end of each reporting period based on information reasonably available at that time.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Company currently has an agreement with one of the floor plan lenders whereby the contractual repurchase limit is to not exceed 16 percent of the amount of the average net receivables financed by the floor plan lender for dealers during the prior 12 month period, which was \$8.1 million as of September 30, 2014. The Company has contractual repurchase agreements with additional lenders with an aggregate maximum repurchase obligation of approximately \$4.6 million with various expiration and cancellation terms of less than one year, for an aggregate repurchase obligation with all floor plan financing institutions of approximately \$12.7 million as of September 30, 2014.

## 7. BUSINESS SEGMENT INFORMATION

The Company has only one reportable segment, its powerboat manufacturing business; therefore, the majority of segment-related disclosures are not relevant to the Company. In addition, the Company's results of operations and its financial condition are not significantly reliant upon any single customer or product model.

## 8. INVENTORIES

Inventories consist of the following:

(in thousands)	September 30, 2014	December 31, 2013
Raw materials and supplies	\$ 15,479	\$ 15,901
Work in process	5,638	7,435
Finished goods	3,456	5,523
Total inventories	\$ 24,573	\$ 28,859

## 9. INCOME TAXES

The Company determines its periodic income tax provision (benefit) based upon the current period income and the annual estimated tax rate for the Company adjusted for any change to prior year estimates. The estimated tax rate is revised, if necessary, as of the end of each successive interim period during the fiscal year to the Company's current annual estimated tax rate.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the third quarter of 2014, the income tax provision reflects an effective tax rate of 30.1 percent, compared to an effective tax rate of 30.5 percent for the comparable period in the prior year. For the nine months ended September 30, 2014 the income tax provision reflects an effective tax rate of 30.1 percent, compared to an effective tax rate of 24.8 percent in the comparable period in the prior year. The effective rate for the nine months ended September 30, 2014 is the result of continued beneficial permanent differences including tax-exempt interest income and a favorable U.S. manufacturing deduction. The effective tax rate for the nine months ended September 30, 2013 reflects both the 2013 research and experimentation credit and the full year impact of the 2012 research and experimentation credit which was retroactively enacted into law in 2013.

## 10. EMPLOYEE BENEFIT PLANS

The Company participates in a multiple employer pension plan. The following represents the net periodic benefit (credit) cost and related components for the plan:

(in thousands)	Three months ended		Nine months ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Interest cost	\$ 65	\$ 59	\$ 195	\$ 176
Expected return on plan assets	(103 )	(93 )	(307 )	(277 )
Amortization of net losses	9	17	27	51
Net periodic benefit	\$ (29 )	\$ (17 )	\$ (85 )	\$ (50 )

The Company made contributions to this plan of \$135 thousand during the nine months ended September 30, 2014.

The Company permits selected highly compensated employees to defer a portion of their compensation into a non-qualified Supplemental Executive Retirement Plan (“SERP”). The Company maintains certain securities in the SERP that have been classified as trading. The SERP assets are marked to market and totaled \$6,486,000 as of September 30, 2014 and \$6,388,000 as of December 31, 2013. The SERP assets are reported in other non-current assets on the consolidated balance sheets and changes to the fair value of the assets are reported in selling, general and administrative expenses in the consolidated statements of operations.

Trading gains related to the SERP assets totaled approximately \$99,000 during the nine months ended September 30, 2014 and approximately \$259,000 during the nine months ended September 30, 2013.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## 11. FAIR VALUE MEASUREMENTS

The various inputs used to measure assets at fair value establish a hierarchy that distinguishes between assumptions based on market data (observable inputs) and the Company's assumptions (unobservable inputs). The hierarchy consists of Nine broad levels as follows:

1. Level 1 – Quoted market prices in active markets for identical assets or liabilities.
2. Level 2 – Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
3. Level 3 – Unobservable inputs developed using the Company's estimates and assumptions, which reflect those that market participants would use.

The following table summarizes the valuation of financial instruments measured at fair value on a recurring basis on the balance sheet as of September 30, 2014 and December 31, 2013:

(in thousands)	Fair Value Measurements at September 30, 2014 with:		
	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:			
Trading securities	\$ -	\$ 6,486	\$ -
Available-for-sale securities:			
Municipal obligations	\$ -	\$ 39,544	\$ -
Corporate obligations	-	4,972	-
	\$ -	\$ 44,516	\$ -

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands)	Fair Value Measurements at December 31, 2013 with:		
	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:			
Trading securities	\$ -	\$ 6,388	\$ -
Available-for-sale securities:			
Municipal obligations	\$ -	\$ 36,132	\$ -
Corporate obligations	-	456	-
	\$ -	\$ 36,588	\$ -

The carrying amount of other financial instruments reported in the consolidated balance sheets for current assets and current liabilities approximate their fair values because of the short-term nature of these instruments.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

Balance at September 30, 2013	\$ (1,738 )	\$ 96	\$ (1,642 )
(1)	Reported as part of selling, general and administrative expenses.		
(2)	Reported as part of interest income.		

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

13. SUBSEQUENT EVENT

On October 29, 2014, the Company announced that the Board of Directors declared a regular quarterly cash dividend on its common stock of \$0.03 per share in addition to a special dividend of \$0.04 per share both payable December 10, 2014 to stockholders of record at the close of business November 10, 2014.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Marine Products Corporation, through our wholly owned subsidiaries Chaparral and Robalo, is a leading manufacturer of recreational fiberglass powerboats. Our sales and profits are generated by selling the products that we manufacture to a network of independent dealers who in turn sell the products to retail customers. These dealers are located throughout the continental United States and in several international markets. Many of these dealers finance their inventory through third-party floorplan lenders, who pay Marine Products generally within seven to ten days after delivery of the products to the dealers.

The discussion on business and financial strategies of the Company set forth under the heading "Overview" in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2013 is incorporated herein by reference. There have been no significant changes in the strategies since year-end.

In implementing these strategies and attempting to optimize our financial returns, management closely monitors dealer orders and inventories, the production mix and profitability of its various models, and indications of near term demand such as consumer confidence, interest rates, fuel costs, dealer orders placed at our annual dealer conferences, and retail attendance and orders at annual winter boat show exhibitions. We also consider trends related to certain key financial and other data, including our market share, unit sales of our products, average selling price per unit, and gross profit margins, among others, as indicators of the success of our strategies. Marine Products' financial results are specifically affected by consumer confidence, because pleasure boating is a discretionary expenditure. Our financial results are also affected by interest rates and credit availability, because many retail customers finance the purchase of their boats and our dealers finance the purchase of their inventory. In addition, our financial results are affected by other socioeconomic and environmental factors such as availability of leisure time, consumer preferences, demographics and the weather.

Our net sales were lower during the third quarter of 2014 compared to the second quarter of 2014 and the third quarter of 2013 because of lower unit sales of our Chaparral model lines, partially offset by increased unit sales of Robalo as well as our recently introduced Vortex Jet Boat.

Operating income decreased 7.9 percent during the third quarter of 2014 compared to the same period in the prior year due to lower gross profit, partially offset by lower selling, general and administrative expenses. Selling, general and administrative expenses decreased during the quarter compared to the prior year due to costs that vary with sales and profitability, such as officer incentive compensation and sales commissions. Dealer inventory in units as of September 30, 2014 was lower than at the end of the second quarter of 2014 but higher than at the end of the third quarter of 2013.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

OUTLOOK

The discussion on the outlook for 2014 is incorporated herein by reference from the Company's annual report on Form 10-K for the fiscal year ended December 31, 2013.

We believe that recreational boating retail demand in many segments of the industry is improving. Attendance and sales during the most recent winter boat shows were moderately higher than the prior season, and residential real estate markets and consumer confidence have stabilized. We also believe that there is improved demand from consumers who have delayed purchasing a boat over the past few years due to economic uncertainty.

Although industry wide retail boat sales remain lower than they were prior to the financial crisis, sales volumes expanded in 2013 and the first nine months of 2014, and we expect this to continue for the remainder of 2014. We believe improvements in retail boat sales will be modest due to the lack of strong economic improvement, which tends to discourage consumers from purchasing large discretionary goods such as pleasure boats. Fluctuations in fuel prices can impact our sales, and during the third quarter fuel prices decreased compared to both the prior quarter and the prior year. In general, the overall cost of boat ownership has increased, especially in the sterndrive recreational boat market segment, which comprises the majority of the Company's sales. The higher cost of boat ownership also discourages consumers from purchasing recreational boats. For a number of years, Marine Products as well as other boat manufacturers have been improving their customer service capabilities, marketing strategies and sales promotions in order to attract more consumers to recreational boating as well as improve consumers' boating experiences. The Company provides financial incentives to its dealers for receiving favorable customer satisfaction surveys. In addition, the recreational boating industry conducts a promotional program which involves advertising and consumer targeting efforts, as well as other activities designed to increase the potential consumer market for pleasure boats. Many manufacturers, including Marine Products, participate in this program. Management believes that these efforts have incrementally benefited the industry and Marine Products. As in past years, Marine Products enhanced its selection of models for the 2015 model year which began on July 1, 2014. We are continuing to emphasize the value-priced Chaparral and Robalo models, as well as larger models in the Chaparral line-up including the SSX's, and new Robalo bay boat models. In addition, we continue to be pleased with the reception of our new Vortex Jet Boat, and plan to introduce an additional larger model for the 2015 model year for production beginning in the fourth quarter of 2014. We believe that these jet boat models will expand our customer base, and leverage our strong dealer network and reputation for quality and styling. We will continue to develop and produce additional new products for the 2015 model year.

Our financial results for the full year of 2014 will depend on a number of factors, including interest rates, consumer confidence, the availability of credit to our dealers and consumers, fuel costs, the continued acceptance of our new products in the recreational boating market, our ability to compete in the competitive pleasure boating industry, and the costs of labor and certain of our raw materials and key components.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## RESULTS OF OPERATIONS

Key operating and financial statistics for the three months and nine months ended September 30, 2014 and 2013 are as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Total number of boats sold	801	879	2,703	2,730
Average gross selling price per boat (in thousands)	\$ 43.2	\$ 44.6	\$ 45.3	\$ 43.7
Net sales (in thousands)	\$ 37,932	\$ 41,989	\$ 133,609	\$ 128,507
Percentage of cost of goods sold to net sales	81.6 %	81.6 %	81.1 %	82.8 %
Gross profit margin percent	18.4 %	18.4 %	18.9 %	17.2 %
Percentage of selling, general and administrative expenses to net sales	11.6 %	11.8 %	11.8 %	12.0 %
Operating income (in thousands)	\$ 2,576	\$ 2,796	\$ 9,469	\$ 6,750
Warranty expense (in thousands)	\$ 307	\$ 687	\$ 1,852	\$ 2,125

### THREE MONTHS ENDED SEPTEMBER 30, 2014 COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2013

Net sales for the three months ended September 30, 2014 decreased \$4.1 million or 9.7 percent compared to the comparable period in 2013. The change in net sales during the quarter compared to the prior year was due primarily to a 8.9 percent decrease in the number of units sold, coupled with a 3.1 percent decrease in average selling price per boat. The decrease in net sales was due to lower unit sales of most of our Chaparral model lines during the quarter as compared to the prior year, partially offset by increased unit sales of Robalo as well as sales of our new Vortex jet boats. Average selling prices declined primarily due to changes in the model mix in several of our Chaparral model lines during the quarter as compared to the prior year. In the third quarter of 2014, sales outside of the United States accounted for 13.7 percent of net sales compared to 13.5 percent of net sales in the prior year third quarter. International net sales decreased 8.4 percent during the third quarter of 2014 to \$5.2 million and domestic net sales decreased 9.9 percent to \$32.8 million compared to the third quarter of the prior year.

Cost of goods sold for the three months ended September 30, 2014 was \$31.0 million compared to \$34.3 million for the comparable period in 2013, a decrease of \$3.3 million or 9.6 percent. The decrease in cost of goods sold is consistent with the decrease in net sales.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

Selling, general and administrative expenses for the three months ended September 30, 2014 were \$4.4 million compared to \$4.9 million for the comparable period in 2013, a decrease of \$0.5 million or 11.0 percent. This decrease was due to lower warranty expense as well as other costs that vary with sales and profitability, such as sales commissions and incentive compensation. Warranty expense was lower due to favorable claims experience. Selling, general and administrative expenses as a percentage of net sales declined to 11.6 percent in the third quarter of 2014 from 11.8 percent in the third quarter of 2013.

Operating income for the three months ended September 30, 2014 decreased \$0.2 million or 7.9 percent compared to the comparable period in 2013 due to lower gross profit, partially offset by lower selling, general and administrative expenses.

Interest income was \$116 thousand during the three months ended September 30, 2014 compared to \$83 thousand for the comparable period in 2013. This increase was primarily due to a decrease in realized loss, coupled with an increase in the average balance of our marketable securities portfolio.

Income tax provision for the three months ended September 30, 2014 was \$810 thousand compared to \$877 thousand for the comparable period in 2013. The income tax provision for the three months ended September 30, 2014 reflects an effective tax rate of 30.1 percent compared to an effective tax rate of 30.5 percent for the comparable period in the prior year. The effective rates include the effect of beneficial permanent differences including tax-exempt interest income and a favorable U.S. manufacturing deduction.

NINE MONTHS ENDED SEPTEMBER 30, 2014 COMPARED TO NINE MONTHS ENDED SEPTEMBER 30, 2013

Net sales for the nine months ended September 30, 2014 increased \$5.1 million or 4.0 percent compared to the comparable period in 2013. The change in net sales was due to a 3.7 percent increase in the average gross selling price per boat, partially offset by a 1.0 percent decrease in the number of boats sold. Unit sales decreased primarily due to lower sales of our SSi models, partially offset by increased unit sales of Robalo as well as our new Vortex jet boats. Average selling prices increased due to a favorable model mix that included higher sales of our larger Chaparral H2O models, larger Robalo models and our large SSX Sportsboats, introduced in the 2014 model year, partially offset by sales of our new Vortex jet boats. In the first nine months of 2014, sales outside of the United States accounted for 17.2 percent of net sales compared to 18.8 percent of net sales for the comparable period in 2013. International net sales decreased 4.9 percent to \$23.0 million while domestic net sales increased 6.0 percent to \$110.6 million compared to the comparable period in the prior year.

Cost of goods sold for the nine months ended September 30, 2014 was \$108.4 million compared to \$106.3 million for the comparable period in 2013, an increase of \$2.1 million or 1.9 percent. Cost of goods sold, as a percentage of net sales, decreased primarily due to a favorable model mix, lower incentive costs, improved margins on parts and accessories sales and enhanced production efficiencies.

MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

Selling, general and administrative expenses for the nine months ended September 30, 2014 were \$15.8 million compared to \$15.4 million for the comparable period in 2013, an increase of \$0.4 million or 2.3 percent. This increase was due to expenses that vary with sales and profitability, such as incentive compensation and sales commissions, partially offset by a decrease in warranty expense due to favorable claims experience. Warranty expense was 1.4 percent of net sales for the nine months ended September 30, 2014 compared to 1.7 percent for the comparable period in the prior year.

Operating income for the nine months ended September 30, 2014 increased \$2.7 million compared to the comparable period in 2013 due to higher gross profit, partially offset by higher selling, general and administrative expenses.

Interest income was \$359 thousand during the nine months ended September 30, 2014 compared to \$410 thousand for the comparable period in 2013. This decrease was primarily due to a decrease in realized gains, partially offset by an increase in the average balance of our marketable securities portfolio.

Income tax provision for the nine months ended September 30, 2014 was \$3.0 million compared to \$1.8 million for the comparable period in 2013. The income tax provision for the nine months ended September 30, 2014 reflects an effective tax rate of 30.1 percent compared to an effective tax rate of 24.8 percent for the prior year. The 2014 rate is a result of continued beneficial permanent differences including tax-exempt interest income and a favorable U.S. manufacturing deduction. The 2013 effective tax rate also benefited from the impact of research and experimentation credits for both 2013 and the full year of 2012 when the credit was retroactively enacted into law in the first quarter of 2013.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

## LIQUIDITY AND CAPITAL RESOURCES

## Cash Flows

The Company's cash and cash equivalents at September 30, 2014 were \$5.3 million compared to \$5.1 million at December 31, 2013. In addition, the aggregate of short-term and long-term marketable securities was \$44.5 million at September 30, 2014 compared to \$36.6 million at December 31, 2013.

The following table sets forth the cash flows for the applicable periods:

(in thousands)	Nine months ended September 30,	
	2014	2013
Net cash provided by operating activities	\$ 13,148	\$ 9,573
Net cash used for investing activities	(8,221 )	(1,476 )
Net cash used for financing activities	\$ (4,745 )	\$ (3,891 )

Cash provided by operating activities for the nine months ended September 30, 2014 increased approximately \$3.6 million compared to the comparable period in 2013. This increase is primarily due to an increase in net income, coupled with a favorable change in working capital. The major components of the net favorable change in working capital were as follows: a favorable change of \$3.7 million in inventories due to inventory management and timing of shipments; \$0.8 million favorable change in accrued expenses and other long-term liabilities, largely attributable to timing of payments related to warranties and lower retail incentives; a favorable change of \$0.7 million in accounts receivable primarily due to timing of customer payments; and a \$2.7 million unfavorable change in accounts payable, due primarily to timing of payments.

Cash used for investing activities for the nine months ended September 30, 2014 was approximately \$8.2 million compared to \$1.5 million used for investing activities for the same period in 2013. The increase in cash used for investing activities is primarily due to increased purchases of marketable securities in the current period resulting from increases in cash provided by operations.

Cash used for financing activities for the nine months ended September 30, 2014 increased approximately \$0.9 million compared to the nine months ended September 30, 2013 primarily due to an increase in share repurchases, coupled with an increase in shares purchased for withholding taxes related to the vesting of restricted shares.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

### Financial Condition and Liquidity

The Company believes that the liquidity provided by existing cash, cash equivalents and marketable securities, its overall strong capitalization and cash generated by operations will provide sufficient capital to meet the Company's requirements for at least the next twelve months. The Company's decisions about the amount of cash to be used for investing and financing purposes are influenced by its capital position and the expected amount of cash to be provided by operations.

### Cash Requirements

The Company currently expects that capital expenditures during 2014 will be approximately \$600 thousand of which \$345 thousand has been spent through September 30, 2014.

The Company participates in a multiple employer Retirement Income Plan, sponsored by RPC, Inc. ("RPC"). The Company made a \$135 thousand cash contribution to this plan during the first nine months of 2014 and does not expect to make any additional contributions for the remainder of 2014.

The Company expects to incur obligations for inventory repurchases totaling approximately \$1.1 million in the fourth quarter of 2014 resulting from dealer defaults on floor plan financing. The Company recorded costs in connection with these repurchases of approximately \$60 thousand during the third quarter of 2014 as a reduction of net sales. As of September 30, 2014 there are no outstanding amounts due to lenders for inventory repurchases. See further information regarding repurchase obligations in Note 6 of the Consolidated Financial Statements and in the section below titled "Off Balance Sheet Arrangements."

As of September 30, 2014, the Company has purchased a total of 5,133,785 shares in the open market under the Company stock repurchase program and there are 3,116,215 shares that remain available for repurchase under the current authorization. The Company repurchased 100,000 shares under this program during the nine months ended September 30, 2014.

On October 29, 2014, the Board of Directors approved a \$0.03 per share cash dividend in addition to a special dividend of \$0.04 per common share, both payable December 10, 2014 to stockholders of record at the close of business November 10, 2014. The Company expects to continue to pay cash dividends to common stockholders, subject to the earnings and financial condition of the Company and other relevant factors.

The Company warrants components of the boat, excluding the engine, against defects in materials and workmanship for a period of one year. Cockpit upholstery and canvas is warranted for 3 years. The Company also warrants the structural hull, including its transom and supporting stringer system, against defects in materials and workmanship for ten years. The structural deck is warranted for a period of 5 years to the original purchaser. See Note 6 to the Consolidated Financial Statements for a detail of activity in the warranty accruals during the nine months ended September 30, 2014 and 2013.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

### OFF BALANCE SHEET ARRANGEMENTS

To assist dealers in obtaining financing for the purchase of its boats for inventory, the Company has entered into agreements with various third-party floor plan lenders whereby the Company guarantees varying amounts of debt for qualifying dealers on boats in inventory. The Company's obligation under these guarantees becomes effective in the case of a default under the financing arrangement between the dealer and the third-party lender. The agreements provide for the return of all repossessed boats to the Company in a new and unused condition as defined, in exchange for the Company's assumption of specified percentages of the debt obligation on those boats, up to certain contractually determined dollar limits which vary by lender. The Company had no material repurchases of inventory during the year ended December 31, 2013 or the nine months ended September 30, 2014.

Management continues to monitor the risk of defaults and resulting repurchase obligations based in part on information provided by the third-party floor plan lenders and will adjust the guarantee liability at the end of each reporting period based on information reasonably available at that time. The Company expects to incur obligations for inventory repurchases totaling approximately \$1.1 million in the fourth quarter of 2014 resulting from dealer defaults on floor plan financing. The Company expects to redistribute this dealer inventory among existing dealers.

The Company currently has an agreement with one of the floor plan lenders whereby the contractual repurchase limit is to not exceed 16 percent of the amount of the average net receivables financed by the floor plan lender for dealers during the prior 12 month period, which was \$8.1 million as of September 30, 2014. The Company has contractual repurchase agreements with additional lenders with an aggregate maximum repurchase obligation of approximately \$4.6 million with various expiration and cancellation terms of less than one year, for an aggregate repurchase obligation with all financing institutions of approximately \$12.7 million as of September 30, 2014.

### RELATED PARTY TRANSACTIONS

In conjunction with its spin-off from RPC in 2001, the Company and RPC entered into various agreements that define their relationship after the spin-off. RPC charged the Company for its allocable share of administrative costs incurred for services rendered on behalf of Marine Products totaling approximately \$501 thousand in the nine months ended September 30, 2014 and \$433 thousand in the nine months ended September 30, 2013.

During the nine months ended September 30, 2014, the Company purchased 100,000 shares for total consideration of \$775,000, from one of its directors who is also an executive officer. The purchase was completed under the stock buyback program approved by the Board of Directors that is currently in effect.

## MARINE PRODUCTS CORPORATION AND SUBSIDIARIES

### CRITICAL ACCOUNTING POLICIES

The discussion of Critical Accounting Policies is incorporated herein by reference from the Company's annual report on Form 10-K for the fiscal year ended December 31, 2013. There have been no significant changes in the critical accounting policies since year-end.

### IMPACT OF RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2 of the Consolidated Financial Statements for a description of recent accounting pronouncements, including the expected dates of adoption and estimated effects on results of operations and financial condition.

### SEASONALITY

Marine Products' quarterly operating results are affected by weather and general economic conditions. Quarterly operating results for the second quarter historically have reflected the highest quarterly sales volume during the year with the first quarter being the next highest sales quarter. However, the results for any quarter are not necessarily indicative of results to be expected in any future period.

### INFLATION

The market prices of certain material and component costs used in manufacturing the Company's products, especially resins that are made with hydrocarbon feedstocks, copper and stainless steel, were very volatile as a result of the financial crisis of 2008, the ensuing global recession and the subsequent economic recovery. During the third quarter of 2014, the prices of many of these commodities were constant. Although the potential exists for these costs to remain volatile, we believe that the Company's material costs will remain relatively stable for the remainder of 2014. In the event that the prices of these commodities increase in the future and result in higher raw materials costs, we cannot be confident that the Company will be able to institute sufficient price increases to its dealers to compensate for these increased materials costs, or that the Company will be able to implement manufacturing strategies that will significantly reduce usage of raw materials that will compensate for any increased materials costs.

New boat buyers typically finance their purchases. Higher inflation typically results in higher interest rates that could translate into an increased cost of boat ownership. Should higher inflation and increased interest rates occur, prospective buyers may choose to forego or delay their purchases or buy a less expensive boat in the event that interest rates rise or credit is not available to finance their boat purchases.

FORWARD-LOOKING STATEMENTS

Certain statements made in this report that are not historical facts are “forward-looking statements” under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may include, without limitation, the expected effect of recent accounting pronouncements on the Company’s consolidated financial statements; the Company’s estimate for warranty accruals; our favorable outlook for the near-term selling environment for our products; our belief that recreational boating retail demand in many segments of the industry is improving; our belief that there is improved demand from consumers who have delayed purchasing a boat over the past few years due to economic uncertainty; our belief that the recent expansion of industry sales volumes will continue for the remainder of 2014; our belief that improvements in retail boat sales will be modest due to the lack of economic improvement; the Company’s belief that the recreational boating industry promotional program has incrementally benefited the industry and Marine Products; our plans to continue to emphasize the value-priced Chaparral and Robalo models as well as larger models in the Chaparral line-up including the SSX’s and new Robalo bay boat models; our plans to introduce a larger Vortex jet boat model for the 2015 model year and the anticipated timing for production of those models; our belief that these jet boat models will expand our customer base and leverage our strong dealer network and reputation for quality and styling; our plans to continue to develop and produce additional new products for the 2015 model year; the Company’s belief that its liquidity, capitalization and cash expected to be generated from operations, will provide sufficient capital to meet the Company’s requirements for at least the next twelve months; the Company’s expectations about capital expenditures during 2014; the Company’s expectation about contributions to its pension plan in 2014; the Company’s belief about the amount and timing of inventory repurchases; the Company’s belief that material costs will remain relatively stable in 2014; the Company’s belief that it may not be able to institute sufficient price increases to compensate for increased material costs or implement manufacturing strategies that will significantly reduce usage of raw materials to compensate for any increased material costs; the Company’s expectation regarding market risk of its investment portfolio; and the Company’s expectations about the effect of litigation on the Company’s financial position or results of operations.

The words “may,” “should,” “will,” “expect,” “believe,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “project,” “estimate,” expressions used in this document that do not relate to historical facts are intended to identify forward-looking statements. Such statements are based on certain assumptions and analyses made by our management in light of its experience and its perception of historical trends, current conditions, expected future developments and other factors it believes to be appropriate. We caution you that such statements are only predictions and not guarantees of future performance and that actual results, developments and business decisions may differ from those envisioned by the forward-looking statements. Risk factors that could cause such future events not to occur as expected include the following: economic conditions, unavailability of credit and possible decreases in the level of consumer confidence impacting discretionary spending, business interruptions due to adverse weather conditions, increased interest rates, unanticipated changes in consumer demand and preferences, deterioration in the quality of Marine Products’ network of independent boat dealers or availability of financing of their inventory, our ability to insulate financial results against increasing commodity prices, the impact of rising gasoline prices and a weak housing market on consumer demand for our products, competition from other boat manufacturers and dealers, and insurance companies that insure a number of Marine Products’ marketable securities have been downgraded, which may cause volatility in the market price of Marine Products’ marketable securities. Additional discussion of factors that could cause actual results to differ from management’s projections, forecasts, estimates and expectations is contained in Marine Products Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2013. The Company does not undertake to update its forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Marine Products does not utilize financial instruments for trading purposes and, as of September 30, 2014, did not hold derivative financial instruments that could expose the Company to significant market risk. Also, as of September 30, 2014, the Company's investment portfolio, totaling approximately \$44.5 million and comprised primarily of municipal and corporate debt securities, is subject to interest rate risk exposure. This risk is managed through conservative policies to invest in high-quality obligations that are both short-term and long-term in nature. Because Marine Products' investment portfolio mix has been allocated towards securities with similar term maturities compared to the end of fiscal year 2013, the risk of material market value fluctuations is not expected to be significantly different from the end of fiscal year 2013 and the Company currently expects no such changes through the remainder of the current year.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures – The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and that such information is accumulated and communicated to its management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this report, September 30, 2014 (the "Evaluation Date"), the Company carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. Based upon this evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at a reasonable assurance level as of the Evaluation Date.

Changes in internal control over financial reporting – Management's evaluation of changes in internal control did not identify any changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Marine Products is involved in litigation from time to time in the ordinary course of its business. Marine Products does not believe that the outcome of such litigation will have a material adverse effect on the financial position or results of operations of Marine Products.

Item 1A. RISK FACTORS

See the risk factors described in the Company's annual report on Form 10-K for the year ended December 31, 2013.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. MINE SAFETY DISCLOSURES

Not Applicable

ITEM 5. OTHER INFORMATION

On October 28, 2014, the Board of Directors of the Company amended the Company's Restated By-laws (the "By-laws") in several respects, including changes meant to modernize the By-laws, to provide clarity and consistency with Delaware corporate law and to align the By-laws with the Board's view of best practices and the interests of the Company's stockholders as a whole. The primary substantive changes were as follows: (i) updated processes were included for stockholders to present business or director nominees at an annual meeting of the stockholders of the Company, (ii) the provisions addressing officer and director indemnification were updated, (iii) provisions were added addressing exclusive forum and payment of costs for specified stockholder actions including a stockholder's breach of the By-laws or specified intra-corporate proceedings in which such stockholder is not the prevailing party and (iv) a provision was added creating the optional position of Vice Chairman of the Company.

The foregoing summary of the amendment to the By-laws is qualified in its entirety by reference to the text of the By-laws, as amended and restated on and effective as of October 28, 2014, a copy of which is attached hereto as Exhibit 3.2 and is incorporated herein by reference.

Stockholders desiring to present business at the 2015 annual meeting of stockholders outside of the stockholder proposal rules of Rule 14a-8 of the Securities Exchange Act of 1934 and instead pursuant to Article 27 of the Company's By-laws must prepare a written notice regarding such proposal addressed to Secretary, Marine Products Corporation, 2170 Piedmont Road, NE, Atlanta, Georgia 30324 and delivered to or mailed and received no later than January 22, 2015 and no earlier than December 13, 2014. Stockholders should consult the By-laws for other specific

requirements related to such notice and proposed business.
