SENECA FOODS CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

July 1, 2017

1. Unaudited Condensed Consolidated Financial Statements

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, which are normal and recurring in nature, necessary to present fairly the financial position of Seneca Foods Corporation (the "Company") as of July 1, 2017 and results of its operations and its cash flows for the interim periods presented. All significant intercompany transactions and accounts have been eliminated in consolidation. The March 31, 2017 balance sheet was derived from the audited consolidated financial statements.

The results of operations for the period ended July 1, 2017 are not necessarily indicative of the results to be expected for the full year.

During the three months ended July 1, 2017, the Company sold \$5,963,000 of Green Giant finished goods inventory to B&G Foods, Inc. ("B&G") for cash, on a bill and hold basis, as compared to \$8,702,000 for the three months ended July 2, 2016. Under the terms of the bill and hold agreement, title to the specified inventory transferred to B&G. The Company believes it has met the criteria required for bill and hold treatment.

The accounting policies followed by the Company are set forth in Note 1 to the Company's Consolidated Financial Statements in the Company's 2017 Annual Report on Form 10-K.

Other footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the financial statements and notes included in the Company's 2017 Annual Report on Form 10-K.

All references to years are fiscal years ended or ending March 31 unless otherwise indicated. Certain percentage tables may not foot due to rounding.

Reclassifications--Certain previously reported amounts have been reclassified to conform to the current period classification.

2. Acquisition

In April 2014, the Company purchased a 50% equity interest in Truitt Bros. Inc. ("Truitt") for \$16,242,000 which was accounted for as an equity investment. The purchase agreement granted the Company the right to acquire the remaining 50% ownership of Truitt in the future under certain conditions. On April 3, 2017, the Company purchased the remaining 50% equity interest in Truitt. This was considered a step acquisition, whereby the Company remeasured the previously held investment to fair value during the first quarter of 2018. As a result, the Company's first quarter 2018 net loss includes a non-taxable bargain purchase gain of \$1,096,000 of which \$562,000 was related to the remeasurement of the previously held investment. Gross profit in the first quarter of fiscal 2018 included a charge of \$542,000 related to the recognition of the Truitt inventory step-up through cost of sales for the portion of acquired inventory that was sold during the period. The business, based in Salem, Oregon, has two state-of-the-art plants located in Oregon and Kentucky. The purchase price for the more recent 50% was approximately \$14,420,000 (net of cash acquired of \$3,030,000) plus the assumption of certain liabilities. The Company had an equity method investment of \$17,422,000, so the total investment was \$34,872,000. In conjunction with the closing, the Company paid off \$3,608,000 of liabilities acquired. The rationale for the acquisition was twofold: (1) the business is a complementary fit with our existing business and (2) Truitt is known for its industry innovation related to packing shelf stable foods in trays, pouches and bowls. This acquisition was financed with proceeds from the Company's revolving credit facility. The purchase price to acquire Truitt Bros.,

Edgar Filing: Seneca Foods Corp - Form 10-Q

Inc. was allocated based on the internally developed fair value of the assets acquired and liabilities assumed and the independent valuation of inventory, intangibles, and property, plant, and equipment. The total purchase price of \$31,842,000 has been allocated as follows (in thousands):

Current assets	\$22,823
Other long-term assets	1,744
Property, plant and equipment	28,696
Current liabilities	(5,068)
Deferred taxes	407
Other long-term liabilities	(15,664)
Bargain purchase gain	(1,096)
Total	\$31,842

Proforma results of operations for the Truitt acquisition are not presented because the effects are not material to the consolidated financial statements.

Inventories

First-In, First-Out ("FIFO") based inventory costs exceeded Last-In, First-Out (LIFO) based inventory costs by \$140,698,000 as of the end of the first quarter of fiscal 2018 as compared to \$141,174,000 as of the end of the first quarter of fiscal 2017. The LIFO Reserve increased by \$7,443,000 in the first three months of fiscal 2018 compared to an increase \$1,899,000 in the first three months of fiscal 2017. This reflects the projected impact of an overall cost increase expected in fiscal 2018 versus fiscal 2017.

(Unaudited)

Revolving Credit Facility

The Company entered into a five-year revolving credit facility ("Revolver") on July 5, 2016. Maximum borrowings under the Revolver total \$400,000,000 from April through July and \$500,000,000 from August through March. The Revolver balance as of July 1, 2017 was \$226,010,000 and is included in Long-Term Debt in the accompanying Condensed Consolidated Balance Sheet. The Company utilizes its Revolver for general corporate purposes, including seasonal working capital needs, to pay debt principal and interest obligations, and to fund capital expenditures and acquisitions. Seasonal working capital needs are affected by the growing cycles of the vegetables and fruits the Company processes. The majority of vegetable and fruit inventories are produced during the months of June through November and are then sold over the following year. Payment terms for vegetable and fruit produce are generally three months but can vary from a few days to seven months. Accordingly, the Company's need to draw on the Revolver may fluctuate significantly throughout the year.

The reduction in average amount of Revolver borrowings during the first quarter of fiscal 2018 compared to the first quarter of fiscal 2017 relates to the new Farm Credit \$100,000,000 debt and operating results in the last year ended July 1, 2017 of \$11,836,000, partially offset by the acquisition of Truitt Bros., Inc. totaling \$14,420,000, a stock buyback of \$2,349,000 made during the last year ended July 1, 2017 and total Inventories, excluding the inventories of the acquisition, which are \$30,600,000 higher than the same period last year.

General terms of the Revolver include payment of interest at LIBOR plus a defined spread.

The following table documents the quantitative data for Revolver borrowings during the first quarters of fiscal 2018 and fiscal 2017:

	First Quarter	
	2018	2017
	(In thousands)	
Reported end of period:		
Outstanding borrowings	\$226,010	\$264,000

Average outstanding borrowings	\$214,472	\$255,114
Weighted average interest rate	2.30 %	1.95 %

Stockholders' Equity

5. During the three-month period ended July 1, 2017 and July 2, 2016, the Company repurchased \$0 and \$458,000, respectively of its stock as Treasury Stock. As of July 1, 2017, there are 2,300,146 shares or \$66,499,000 of repurchased stock. These shares are not considered outstanding.

6.

Retirement Plans

The net periodic benefit cost for the Company's pension plan consisted of:

Plant Restructuring

7. The following table summarizes the rollforward of restructuring charges and related asset impairment charges recorded and the accruals established:

	Long-Lived			Total
	Severance	Asset Charges	Other Costs	
	(In thousands)			
Balance March 31, 2017	\$37	\$ 4,773	\$305	\$5,115

Balance July 2, 2016	\$98	\$ 5,209	\$3,644	\$8,951

During fiscal 2016, the Company recorded a restructuring charge of \$10,302,000 related to the closing of a plant in the Northwest of which \$162,000 was related to severance cost, \$5,065,000 was related to asset impairments (contra fixed assets), and \$5,075,000 was related to other costs (mostly operating lease costs). During fiscal 2017, the Company adjusted this restructuring charge by \$1,829,000 related to the closing of a plant in the Northwest of which a charge of \$1,578,000 was related to severance cost, a credit of \$384,000 was related to asset impairments (contra fixed assets), and charge of \$635,000 was related to other costs (mostly operating lease costs).

During the quarter ended July 1, 2017, the Company recorded an additional restructuring charge of \$81,000 related to the previous closing of a plant in the Northwest.

Other Operating Income and Expense

During the three months ended July 1, 2017, the Company sold unused fixed assets which resulted in a gain of \$1,598,000 as compared to a loss of \$6,000 during the three months ended July 2, 2016. \$1,081,000 of the current year gain was related to the sale of a closed plant in the Midwest. In addition, the Company recorded a bargain purchase gain of \$1,096,000 as discussed in the Acquisition footnote. These net gains and losses are included in other operating income and loss in the Unaudited Condensed Consolidated Statements of Net Loss.

Recently Issued Accounting Standards

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard will be effective for the Company on April 1, 2018 (beginning of fiscal 2019). Early adoption is permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company has selected the modified retrospective approach for its transition method and applied the five-step model of the new standard to a selection of contracts within each of the revenue streams and has compared the results to our current accounting practices. The Company has evaluated the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has substantially completed its evaluation of significant contracts and is currently assessing the impact of adopting the standards update on our consolidated financial statements. The Company will continue its evaluation of the standards update through the date of adoption.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, Leases. The new standard establishes a right-of-use ("ROU") model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018 (beginning fiscal 2020), including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. While we are still evaluating the impact of our pending adoption of the new standard on our consolidated financial statements, we expect that upon adoption we will recognize ROU assets and lease liabilities and that the amounts could be material.

In January 2017, the FASB issued Accounting Standards Update No. 2017-01 ("ASU 2017-01"), which clarifies the definition of a business, with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. ASU 2017-01 is effective for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years, and early adoption is permitted for transactions which occur before the issuance or effective date of the amendments, only when the transaction has not been reported in the financial statements that have been issued or made available for issuance. ASU 2017-01 is to be applied on a prospective basis. The Company does not expect the adoption of ASU 2017-01 to have a material impact on its consolidated financial statements.

There were no other recently issued accounting pronouncements that impacted the Company's condensed consolidated financial statements. In addition, the Company did not adopt any new accounting pronouncements during the quarter ended July 1, 2017.

Fair Value of Financial Instruments

11. As required by Accounting Standards Codification ("ASC") 825, "Financial Instruments," the Company estimates the fair values of financial instruments on a quarterly basis. The estimated fair value for long-term debt and capital lease obligations (classified as Level 2 in the fair value hierarchy) is determined by the quoted market prices for similar debt (comparable to the Company's financial strength) or current rates offered to the Company for debt with the same maturities. Long-term debt, including current portion had a carrying amount of \$343,015,000 and an estimated fair value of \$343,105,000 as of July 1, 2017. As of March 31, 2017, the carrying amount was \$332,633,000 and the estimated fair value was \$332,926,000. Capital lease obligations, including current portion had a carrying amount of \$40,004,000 and an estimated fair value of \$38,768,000 as of July 1, 2017. As of March 31, 2017, the carrying amount was \$39,033,000 and the estimated fair value was \$37,505,000. The fair values of all the other financial instruments approximate their carrying value due to their short-term nature.

Income Taxes

12. The effective tax rate was 64.4% and 43.6% for the three month periods ended July 1, 2017 and July 2, 2016, respectively. The 20.8 percentage point increase in the effective tax rate represents an increase in tax benefit as a percentage of book loss when compared to the same period last year. The major contributors to this increase are a result of the Truitt acquisition. The bargain purchase gain is non-taxable and the deferred tax liability related to the outside basis difference in the Truitt investment was written off because the investment can now be recovered in a tax-free manner.

Interim Notes

13. During fiscal 2017, the Company entered into some interim lease notes which financed down payments for various equipment orders at market rates. As of March 31, 2017, one of these interim notes had not been converted into a capital lease since the equipment was not delivered. This note for \$166,000 was converted into a capital lease during the quarter ended July 1, 2017. Therefore there is no balance in notes payable in the accompanying Condensed Consolidated Balance Sheets as of July 1, 2017.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

July 1, 2017

Seneca Foods Corporation (the "Company") is a leading provider of packaged fruits and vegetables, with facilities located throughout the United States. The Company's product offerings include canned, frozen and bottled produce and snack chips. Its products are sold under private label as well as national and regional brands that the Company owns or licenses, including Seneca®, Libby's®, Aunt Nellie's®, Cherryman®, Green Valley®, READ® and Seneca Farms®. The Company's canned fruits and vegetables are sold nationwide by major grocery outlets, including supermarkets, mass merchandisers, limited assortment stores, club stores and dollar stores. The Company also sells its products to foodservice distributors, industrial markets, other food processors, export customers in over 90 countries and federal, state and local governments for school and other food programs. In addition, the Company packs Green Giant®, Le Sueur® and other brands of canned vegetables as well as select Green Giant® frozen vegetables for B&G Foods North America ("B&G") under a contract packing agreement.

The Company's raw product is harvested mainly between June through November.

Results of Operations:

Sales:

First fiscal quarter 2018 results include net sales of \$280,187,000 which represents a 10.9% increase, or \$27,573,000, from the first quarter of fiscal 2017. The increase in sales is attributable to a sales volume increase of \$28,582,000 partially offset by lower selling prices/unfavorable sales mix of \$1,009,000. The increase in sales is primarily from \$21,692,000 from our recent Truitt Bros., Inc. acquisition, a \$12,489,000 increase in Canned Vegetables Sales and a \$3,786,000 increase in Frozen sales, partially offset by a \$9,267,000 decrease in Canned Fruit sales.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
July 1, 2017

The following table presents sales by product category:

	Three Months Ended	
	July 1, 2017	July 2, 2016
(In millions)		
Canned		
Vegetables	\$153.8	\$141.3
B&G*	10.6	10.2
Frozen	27.0	23.2
Fruit		
Products	59.9	69.2
Snack	2.3	3.9
Truitt	21.7	-
Other	4.9	4.8
	\$280.2	\$252.6

*B&G includes frozen vegetable sales exclusively for B&G.

Operating Income:

The following table presents components of operating income as a percentage of net sales:

	Three Months Ended		
	July 1, 2017	July 2, 2016	
Gross Margin	5.6	% 7.9	%
Selling	3.1	% 3.3	%
Administrative	3.2	% 3.5	%
Plant Restructuring	-	% 0.5	%
Other Operating Income	(0.9)	% -	%
Operating Income	0.3	% 0.6	%
Interest Expense, Net	1.1	% 0.8	%

For the three month period ended July 1, 2017, gross margin decreased from the prior year quarter from 7.9% to 5.6% due primarily to lower net selling prices (after considering promotions) compared to the prior year and a larger LIFO charge in the current year as compared to the prior year, partially offset by lower unit costs in the current year than the prior year. The LIFO charge for the first quarter ended July 1, 2017 was \$7,443,000 as compared to a LIFO charge of \$1,899,000 for the first quarter ended July 2, 2016 and reflects the impact on the quarter of increased inflationary cost increases expected in fiscal 2018, compared to fiscal 2017. On an after-tax basis, LIFO decreased the net earnings by \$4,838,000 for the quarter ended July 1, 2017 and decreased net earnings by \$1,234,000 for the quarter ended July 1, 2016, based on the statutory federal income tax rate.

For the three month period ended July 1, 2017, selling costs as a percentage of sales decreased from 3.3% to 3.1% from the same period in the prior year.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

July 1, 2017

For the three month period ended July 1, 2017, administrative expense as a percentage of sales decreased from 3.5% to 3.2% for the same period in the prior year due primarily to lower payroll and travel expenses during the current period than the prior period.

During the three months ended July 1, 2017, the Company sold unused fixed assets which resulted in a gain of \$1,598,000 as compared to a loss of \$6,000 during the three months ended July 2, 2016. The gain included a \$1,081,000 gain on the sale of a Midwest plant sold during the quarter. In addition, the Company recorded a bargain purchase gain of \$1,096,000 as discussed in the Acquisition footnote. These net gains and losses are included in other operating income and loss in the Unaudited Condensed Consolidated Statements of Net Loss.

Interest expense, as a percentage of sales, increased from 0.8% for the quarter ended July 2, 2016 to 1.1% for the quarter ended July 1, 2017. This increase was due to higher interest expense related to the Company's Revolver due to the increased borrowings to finance the acquisition plus purchases of treasury stock and inventory during the last year.

Income Taxes:

The effective tax rate was 64.4% and 43.6% for the three month periods ended July 1, 2017 and July 2, 2016, respectively. The 20.8 percentage point increase in the effective tax rate represents an increase in tax benefit as a percentage of book loss when compared to the same period last year. The major contributors to this increase are a result of the Truitt acquisition. The bargain purchase gain is non-taxable and the deferred tax liability related to the outside basis difference in the Truitt investment was written off because the investment can now be recovered in a tax-free manner.

Loss per Share:

Loss per share was \$(0.09) and \$(0.01) for the three months ended July 1, 2017 and July 2, 2016, respectively. Diluted loss per share was \$(0.09) and \$(0.01) for the three months ended July 1, 2017 and July 2, 2016, respectively. For details of the calculation of these amounts, refer to footnote 10 of the Notes to Condensed Consolidated Financial Statements.

Liquidity and Capital Resources:

The financial condition of the Company is summarized in the following table and explanatory review:

(In thousands except ratios)	July 1, 2017	July 2, 2016	March 31, 2017	March 31, 2016
Working capital:				
Balance	\$567,657	\$514,070	\$555,993	\$274,429
Change during quarter	11,664	239,641		
Long-term debt, less current portion	349,432	276,642	329,138	35,967
Total stockholders' equity per equivalent common share (see Note below)	43.56	40.64	43.63	40.63
Stockholders' equity per common share	43.95	41.16	44.20	41.15
Current ratio	4.46	3.86	5.20	1.69

Edgar Filing: Seneca Foods Corp - Form 10-Q

Note: Equivalent common shares are either common shares or, for convertible preferred shares, the number of common shares that the preferred shares are convertible into. See Note 7 of the Notes to Consolidated Financial Statements of the Company's 2017 Annual Report on Form 10-K for conversion details.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

July 1, 2017

As shown in the Condensed Consolidated Statements of Cash Flows, net cash provided by operating activities was \$20,416,000 in the first three months of fiscal 2018, compared to \$19,749,000 in the first three months of fiscal 2017. The \$703,000 increase in cash provided is primarily attributable to a \$8,684,000 increase in cash provided by other current assets, a \$4,191,000 increase in cash provided by income taxes, and a \$2,567,000 increase in cash provided by accounts payable, accrued expenses and other liabilities, partially offset by a \$251,000 increase in cash used for inventory in the first three months of fiscal 2018 as compared to the first three months of fiscal 2017, a \$10,929,000 decrease in cash provided by accounts receivable, and an increased net loss of \$777,000.

As compared to July 2, 2016, inventory increased \$46,676,000 to \$633,505,000 at July 1, 2017 (including \$16,076,000 increase from the Truitt Bros. Inc. acquisition). The components of the inventory increase reflect a \$62,480,000 increase in finished goods, a \$10,176,000 increase in work in process and a \$25,980,000 decrease in raw materials and supplies. The finished goods increase reflects higher inventory quantities attributable to the higher calendar year 2017 pack versus the calendar year 2016 pack. The raw materials and supplies decrease is primarily due to a decrease in cans and raw steel quantities compared to the prior year. FIFO based inventory costs exceeded LIFO based inventory costs by \$ 140,698,000 as of the end of the first quarter of 2018 as compared to \$141,174,000 as of the end of the first quarter of 2017.

Cash used in investing activities was \$21,361,000 in the first three months of fiscal 2018 compared to cash used in investing activities of \$6,365,000 in the first three months of fiscal 2017. Additions to property, plant and equipment were \$8,716,000 in the first three months of fiscal 2018 as compared to \$6,380,000 in first three months of fiscal 2017. In April 2017, the Company acquired the other 50% of Truitt Bros., Inc. for \$14,420,000 (net of cash acquired).

Cash provided by financing activities was \$4,731,000 in the first three months of fiscal 2018, which included borrowings of \$118,172,000 and the repayment of \$112,489,000 of long-term debt, principally consisting of borrowings and repayments on the revolving credit facility ("Revolver"). Other than borrowings under the Revolver, there was no new long-term debt during the first three months of fiscal 2018 other than the \$13,470,000 acquired via the acquisition of Truitt Bros., Inc. of which \$3,515,000 was paid off immediately. During the three months ended July 2, 2016, the Company repurchased \$458,000 of its Class A Common Stock as treasury stock. The Company did not repurchase any stock during the first quarter of fiscal year 2018.

The Company entered into a five-year revolving credit facility on July 5, 2016. Available borrowings on the Revolver total \$400,000,000 from April through July and \$500,000,000 from August through March with a maturity date of July 5, 2021. The interest rate on the Revolver is based on LIBOR plus an applicable margin based on excess availability and the Company's fixed charge coverage ratio. As of July 1, 2017, the interest rate was approximately 2.5% on a balance of \$226,010,000. We believe that cash flows from operations, availability under our Revolver and other financing sources will provide adequate funds for our working capital needs, planned capital expenditures, and debt obligations for at least the next 12 months.

The Company's credit facilities contain standard representations and warranties, events of default, and certain affirmative and negative covenants, including various financial covenants. At July 1, 2017, the Company was in compliance with all such financial covenants.

New Accounting Standards

Refer to footnote 9 of the Notes to Condensed Consolidated Financial Statements.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

July 1, 2017

Seasonality

The Company's revenues are typically higher in the second and third fiscal quarters. This is due in part because the Company sells, on a bill and hold basis, Green Giant canned and frozen vegetables to B&G either weekly during production for specialty items, or at the end of each pack cycle, which typically occurs during these quarters. B&G buys the product from the Company at cost plus a specified fee for each equivalent case. See the Critical Accounting Policies section below for further details. The Company's non-Green Giant sales also exhibit seasonality with the third fiscal quarter generating the highest retail sales due to holidays that occur during that quarter.

Forward-Looking Information

The information contained in this report contains, or may contain, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places in this report and include statements regarding the intent, belief or current expectations of the Company or its officers (including statements preceded by, followed by or that include the words "believes," "expects," "anticipates" or similar expressions) with respect to various matters, including (i) the Company's anticipated needs for, and the availability of, cash, (ii) the Company's liquidity and financing plans, (iii) the Company's ability to successfully integrate acquisitions into its operations, (iv) trends affecting the Company's financial condition or results of operations, including anticipated sales price levels and anticipated expense levels, in particular higher production, fuel and transportation costs, (v) the Company's plans for expansion of its business (including through acquisitions) and cost savings, and (vi) the impact of competition.

Because such statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. Investors are cautioned not to place undue reliance on such statements, which speak only to events as of the date the statements were made. Among the factors that could cause actual results to differ materially are:

- general economic and business conditions;
- cost and availability of commodities and other raw materials such as vegetables, steel and packaging materials;
- transportation costs;
- climate and weather affecting growing conditions and crop yields;
- the availability of financing;
- leverage and the Company's ability to service and reduce its debt;
- foreign currency exchange and interest rate fluctuations;
- effectiveness of the Company's marketing and trade promotion programs;
- changing consumer preferences;
- competition;
- product liability claims;
- the loss of significant customers or a substantial reduction in orders from these customers;
- changes in, or the failure or inability to comply with, U.S., foreign and local governmental regulations, including environmental and health and safety regulations; and
- other risks detailed from time to time in the reports filed by the Company with the SEC.

Except for ongoing obligations to disclose material information as required by the federal securities laws, the Company does not undertake any obligation to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of the filing of this report or to reflect the occurrence of unanticipated events.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

July 1, 2017

Critical Accounting Policies

During the three months ended July 1, 2017, the Company sold \$5,963,000 of Green Giant finished goods inventory to B&G Foods North America ("B&G") for cash, on a bill and hold basis, as compared to \$8,702,000 for the three months ended July 2, 2016. Under the terms of the bill and hold agreement, title to the specified inventory transferred to B&G. The Company believes it has met the criteria required for bill and hold treatment.

Trade promotions are an important component of the sales and marketing of the Company's branded products, and are critical to the support of the business. Trade promotion costs, which are recorded as a reduction of net sales, include amounts paid to encourage retailers to offer temporary price reductions for the sale of our products to consumers, amounts paid to obtain favorable display positions in retailers' stores, and amounts paid to retailers for shelf space in retail stores. Accruals for trade promotions are recorded primarily at the time of sale of product to the retailer based on expected levels of performance. Settlement of these liabilities typically occurs in subsequent periods primarily through an authorized process for deductions taken by a retailer from amounts otherwise due to us. As a result, the ultimate cost of a trade promotion program is dependent on the relative success of the events and the actions and level of deductions taken by retailers for amounts they consider due to them. Final determination of the permissible deductions may take extended periods of time.

The Company uses the lower of cost, determined under the LIFO (last-in, first out) method, or market, to value substantially all of its inventories. In a high inflation environment that the Company was experiencing, the Company believes that the LIFO method was preferable over the FIFO method because it better compares the cost of current production to current revenue.

The Company assesses its long-lived assets for impairment whenever there is an indicator of impairment. Property, plant, and equipment are depreciated over their assigned lives. The assigned lives and the projected cash flows used to test impairment are subjective. If actual lives are shorter than anticipated or if future cash flows are less than anticipated, a future impairment charge or a loss on disposal of the assets could be incurred. Impairment losses are evaluated if the estimated undiscounted value of the cash flows is less than the carrying value. If such is the case, a loss is recognized when the carrying value of an asset exceeds its fair value.

17

ITEM 3 Quantitative and Qualitative Disclosures About Market Risk

In the ordinary course of business, the Company is exposed to various market risk factors, including changes in general economic conditions, competition and raw material pricing and availability. In addition, the Company is exposed to fluctuations in interest rates, primarily related to its revolving credit facility and the \$100,000,000 term loan. To manage interest rate risk, the Company uses both fixed and variable interest rate debt plus fixed interest rate capital lease obligations. There have been no material changes to the Company's exposure to market risk since March 31, 2017.

18

ITEM 4 Controls and Procedures

The Company maintains a system of internal and disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported on a timely basis. The Company's Board of Directors, operating through its Audit Committee, which is composed entirely of independent outside directors, provides oversight to the financial reporting process.

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that, as of July 1, 2017, our disclosure controls and procedures were effective. The Company continues to examine, refine and formalize its disclosure controls and procedures and to monitor ongoing developments in this area.

There have been no changes during the period covered by this report to the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. However, with the acquisition of Truitt Bros., Inc. during the three months ended July 1, 2017, the Company is in the process of evaluating their internal controls.

PART II OTHER INFORMATION

Item 1. Legal Proceedings
