EXPLANATORY NOTE

This report combines the reports on Form 10-Q for the quarterly period ended June 30, 2013 of Equity Residential and ERP Operating Limited Partnership. Unless stated otherwise or the context otherwise requires, references to “EQR” mean Equity Residential, a Maryland real estate investment trust (“REIT”), and references to “ERPOP” mean ERP Operating Limited Partnership, an Illinois limited partnership. References to the “Company,” “we,” “us” or “our” mean collectively EQR, ERPOP and those entities/subsidiaries owned or controlled by EQR and/or ERPOP. References to the “Operating Partnership” mean collectively ERPOP and those entities/subsidiaries owned or controlled by ERPOP. The following chart illustrates the Company's and the Operating Partnership's corporate structure:

EQR is the general partner of, and as of June 30, 2013 owned an approximate 96.2% ownership interest in, ERPOP. The remaining 3.8% interest is owned by limited partners. As the sole general partner of ERPOP, EQR has exclusive control of ERPOP's day-to-day management.

The Company is structured as an umbrella partnership REIT (“UPREIT”) and contributes all net proceeds from its various equity offerings to the Operating Partnership. In return for those contributions, the Company receives a number of OP Units (see definition below) in the Operating Partnership equal to the number of Common Shares it has issued in the equity offering. Contributions of properties to the Company can be structured as tax-deferred transactions through the issuance of OP Units in the Operating Partnership, which is one of the reasons why the Company is structured in the manner shown above. Based on the terms of ERPOP's partnership agreement, OP Units can be exchanged with Common Shares on a one-for-one basis. The Company maintains a one-for-one relationship between the OP Units of the Operating Partnership issued to EQR and the Common Shares.

The Company believes that combining the reports on Form 10-Q of EQR and ERPOP into this single report provides the following benefits:

- enhances investors' understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both the Company and the Operating Partnership; and
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

Management operates the Company and the Operating Partnership as one business. The management of EQR consists of the same members as the management of ERPOP.

The Company believes it is important to understand the few differences between EQR and ERPOP in the context of how EQR and ERPOP operate as a consolidated company. All of the Company's property ownership, development and related business operations are conducted through the Operating Partnership and EQR has no material assets or liabilities other than its investment in ERPOP. EQR's primary function is acting as the general partner of ERPOP. EQR also issues equity from time to time and guarantees certain debt of ERPOP, as disclosed in this report. EQR does not have any indebtedness as all debt is incurred by the Operating Partnership. The Operating Partnership holds substantially all of the assets of the Company, including the Company's ownership interests in its joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from equity offerings by the Company, which are contributed

Table of Contents

to the capital of the Operating Partnership in exchange for additional limited partnership interests in the Operating Partnership (“OP Units”) (on a one-for-one Common Share per OP Unit basis), the Operating Partnership generates all remaining capital required by the Company's business. These sources include the Operating Partnership's working capital, net cash provided by operating activities, borrowings under its revolving credit facility, the issuance of secured and unsecured debt and equity securities and proceeds received from disposition of certain properties and joint ventures.

Shareholders' equity, partners' capital and noncontrolling interests are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The limited partners of the Operating Partnership are accounted for as partners' capital in the Operating Partnership's financial statements and as noncontrolling interests in the Company's financial statements. The noncontrolling interests in the Operating Partnership's financial statements include the interests of unaffiliated partners in various consolidated partnerships and development joint venture partners. The noncontrolling interests in the Company's financial statements include the same noncontrolling interests at the Operating Partnership level and limited partner OP Unit holders of the Operating Partnership. The differences between shareholders' equity and partners' capital result from differences in the equity issued at the Company and Operating Partnership levels.

To help investors understand the significant differences between the Company and the Operating Partnership, this report provides separate consolidated financial statements for the Company and the Operating Partnership; a single set of consolidated notes to such financial statements that includes separate discussions of each entity's debt, noncontrolling interests and shareholders' equity or partners' capital, as applicable; and a combined Management's Discussion and Analysis of Financial Condition and Results of Operations section that includes discrete information related to each entity.

This report also includes separate Part I, Item 4. Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of the Company and the Operating Partnership in order to establish that the requisite certifications have been made and that the Company and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18 U.S.C. §1350.

In order to highlight the differences between the Company and the Operating Partnership, the separate sections in this report for the Company and the Operating Partnership specifically refer to the Company and the Operating Partnership. In the sections that combine disclosure of the Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and joint ventures and holds assets and debt, reference to the Company is appropriate because the Company is one business and the Company operates that business through the Operating Partnership.

As general partner with control of the Operating Partnership, the Company consolidates the Operating Partnership for financial reporting purposes, and EQR essentially has no assets or liabilities other than its investment in ERPOP. Therefore, the assets and liabilities of the Company and the Operating Partnership are the same on their respective financial statements. The separate discussions of the Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

EQUITY RESIDENTIAL
 ERP OPERATING LIMITED PARTNERSHIP
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

1. Business

Equity Residential (“EQR”), a Maryland real estate investment trust (“REIT”) formed in March 1993, is an S&P 500 company focused on the acquisition, development and management of high quality apartment properties in top United States growth markets. ERP Operating Limited Partnership (“ERPOP”), an Illinois limited partnership, was formed in May 1993 to conduct the multifamily residential property business of Equity Residential. EQR has elected to be taxed as a REIT. References to the “Company,” “we,” “us” or “our” mean collectively EQR, ERPOP and those entities/subsidiaries owned or controlled by EQR and/or ERPOP. References to the “Operating Partnership” mean collectively ERPOP and those entities/subsidiaries owned or controlled by ERPOP. Unless otherwise indicated, the notes to consolidated financial statements apply to both the Company and the Operating Partnership.

EQR is the general partner of, and as of June 30, 2013 owned an approximate 96.2% ownership interest in, ERPOP. All of the Company’s property ownership, development and related business operations are conducted through the Operating Partnership and EQR has no material assets or liabilities other than its investment in ERPOP. EQR issues equity from time to time but does not have any indebtedness as all debt is incurred by the Operating Partnership. The Operating Partnership holds substantially all of the assets of the Company, including the Company’s ownership interests in its joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity.

As of June 30, 2013, the Company, directly or indirectly through investments in title holding entities, owned all or a portion of 398 properties located in 12 states and the District of Columbia consisting of 113,388 apartment units. The ownership breakdown includes (table does not include various uncompleted development properties):

	Properties	Apartment Units
Wholly Owned Properties	373	103,322
Master-Leased Properties – Consolidated	3	853
Partially Owned Properties – Consolidated	19	3,752
Partially Owned Properties – Unconsolidated	1	336
Military Housing	2	5,125
	398	113,388

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) and certain reclassifications considered necessary for a fair presentation have been included. Certain reclassifications have been made to the prior period financial statements in order to conform to the current year presentation. Operating results for the six months ended June 30, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013.

Edgar Filing: EQUITY RESIDENTIAL - Form 10-Q

In preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

The balance sheets at December 31, 2012 have been derived from the audited financial statements at that date but do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

Table of Contents

For further information, including definitions of capitalized terms not defined herein, refer to the consolidated financial statements and footnotes thereto included in the Company's and the Operating Partnership's annual report on Form 10-K for the year ended December 31, 2012.

Real Estate Assets and Depreciation of Investment in Real Estate

Effective for business combinations on or after January 1, 2009, an acquiring entity is required to recognize all assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. In addition, an acquiring entity is required to expense acquisition-related costs as incurred, value noncontrolling interests at fair value at the acquisition date and expense restructuring costs associated with an acquired business.

The Company allocates the purchase price of properties to net tangible and identified intangible assets acquired based on their fair values. In making estimates of fair values for purposes of allocating purchase price, the Company utilizes a number of sources, including independent appraisals that may be obtained in connection with the acquisition or financing of the respective property, our own analysis of recently acquired and existing comparable properties in our portfolio and other market data. The Company also considers information obtained about each property as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired. The Company allocates the purchase price of acquired real estate to various components as follows:

• **Land** – Based on actual purchase price adjusted to fair value (as necessary) if acquired separately or market research/comparables if acquired with an operating property.

• **Furniture, Fixtures and Equipment** – Ranges between \$3,000 and \$13,000 per apartment unit acquired as an estimate of the fair value of the appliances and fixtures inside an apartment unit. The per-apartment unit amount applied depends on the type of apartment building acquired. Depreciation is calculated on the straight-line method over an estimated useful life of five to ten years.

• **Lease Intangibles** – The Company considers the value of acquired in-place leases and above/below market leases and the amortization period is the average remaining term of each respective acquired lease. In-place residential leases' average term at acquisition approximates six months. See Note 4 for more information on above and below market leases.

• **Other Intangible Assets** – The Company considers whether it has acquired other intangible assets, including any customer relationship intangibles and the amortization period is the estimated useful life of the acquired intangible asset.

• **Building** – Based on the fair value determined on an “as-if vacant” basis. Depreciation is calculated on the straight-line method over an estimated useful life of thirty years.

• **Site Improvements** – Based on replacement cost. Depreciation is calculated on the straight-line method over an estimated useful life of eight years.

• **Long-Term Debt** – The Company calculates the fair value by discounting the remaining contractual cash flows on each instrument at the current market rate for those borrowings.

Income and Other Taxes

Due to the structure of EQR as a REIT and the nature of the operations of its operating properties, no provision for federal income taxes has been made at the EQR level. In addition, ERPOP generally is not liable for federal income taxes as the partners recognize their proportionate share of income or loss in their tax returns; therefore no provision for federal income taxes has been made at the ERPOP level. Historically, the Company has generally only incurred certain state and local income, excise and franchise taxes. The Company has elected Taxable REIT Subsidiary (“TRS”) status for certain of its corporate subsidiaries and as a result, these entities will incur both federal and state income taxes on any taxable income of such entities after consideration of any net operating losses.

Deferred tax assets and liabilities applicable to the TRS are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. These assets and liabilities are measured using enacted tax rates for which the temporary differences are expected to be recovered or settled. The effects of changes in tax rates on deferred tax assets and liabilities are recognized in earnings in the period enacted. The Company's deferred tax assets are generally the result of tax affected amortization of goodwill, differing depreciable lives on capitalized assets and the timing of expense recognition for certain accrued liabilities. As of June 30, 2013, the Company has recorded a deferred tax asset, which is fully offset by a valuation allowance due to the uncertainty in forecasting future TRS taxable income.

Table of Contents

Other

The Company is the controlling partner in various consolidated partnerships owning 19 properties and 3,752 apartment units and various completed and uncompleted development properties having a noncontrolling interest book value of \$107.5 million at June 30, 2013. The Company is required to make certain disclosures regarding noncontrolling interests in consolidated limited-life subsidiaries. Of the consolidated entities described above, the Company is the controlling partner in limited-life partnerships owning six properties having a noncontrolling interest deficit balance of \$8.2 million. These six partnership agreements contain provisions that require the partnerships to be liquidated through the sale of their assets upon reaching a date specified in each respective partnership agreement. The Company, as controlling partner, has an obligation to cause the property owning partnerships to distribute the proceeds of liquidation to the Noncontrolling Interests in these Partially Owned Properties only to the extent that the net proceeds received by the partnerships from the sale of their assets warrant a distribution based on the partnership agreements. As of June 30, 2013, the Company estimates the value of Noncontrolling Interest distributions for these six properties would have been approximately \$37.8 million ("Settlement Value") had the partnerships been liquidated. This Settlement Value is based on estimated third party consideration realized by the partnerships upon disposition of the six Partially Owned Properties and is net of all other assets and liabilities, including yield maintenance on the mortgages encumbering the properties, that would have been due on June 30, 2013 had those mortgages been prepaid. Due to, among other things, the inherent uncertainty in the sale of real estate assets, the amount of any potential distribution to the Noncontrolling Interests in the Company's Partially Owned Properties is subject to change. To the extent that the partnerships' underlying assets are worth less than the underlying liabilities, the Company has no obligation to remit any consideration to the Noncontrolling Interests in these Partially Owned Properties.

Effective January 1, 2012, companies are required to separately disclose the amounts and reasons for any transfers of assets and liabilities into and out of Level 1 and Level 2 of the fair value hierarchy. For fair value measurements using significant unobservable inputs (Level 3), companies are required to disclose quantitative information about the significant unobservable inputs used for all Level 3 measurements and a description of the Company's valuation processes in determining fair value. In addition, companies are required to provide a qualitative discussion about the sensitivity of recurring Level 3 measurements to changes in the unobservable inputs disclosed, including the interrelationship between inputs. Companies are also required to disclose information about when the current use of a non-financial asset measured at fair value differs from its highest and best use and the hierarchy classification for items whose fair value is not recorded on the balance sheet but is disclosed in the notes. This does not have a material effect on the Company's consolidated results of operations or financial position. See Notes 4 and 9 for further discussion.

Effective January 1, 2013, companies are required to report, in one place, information about reclassifications out of accumulated other comprehensive income ("AOCI"). Companies will also be required to report changes in AOCI balances. For significant items reclassified out of AOCI to net income in their entirety in the same reporting period, reporting is required about the effect of the reclassifications on the respective line items in the statement where net income is presented. For items that are not reclassified to net income in their entirety in the same reporting period, a cross reference to other disclosures currently required under US GAAP is required in the notes. This does not have a material effect on the Company's consolidated results of operations or financial position. See Note 9 for further discussion.

3. Equity, Capital and Other Interests

Equity and Redeemable Noncontrolling Interests of Equity Residential

The following tables present the changes in the Company's issued and outstanding Common Shares and "Units" (which includes OP Units and Long-Term Incentive Plan ("LTIP") Units) for the six months ended June 30, 2013:

Table of Contents

	2013	
Common Shares		
Common Shares outstanding at January 1,	325,054,654	
Common Shares Issued:		
Conversion of OP Units	36,262	
Issuance of Common Shares	34,468,085	
Exercise of share options	468,203	
Employee Share Purchase Plan (ESPP)	50,148	
Restricted share grants, net	234,697	
Common Shares outstanding at June 30,	360,312,049	
Units		
Units outstanding at January 1,	13,968,758	
LTIP Units, net	281,931	
Conversion of OP Units to Common Shares	(36,262)
Units outstanding at June 30,	14,214,427	
Total Common Shares and Units outstanding at June 30,	374,526,476	
Units Ownership Interest in Operating Partnership	3.8	%

The equity positions of various individuals and entities that contributed their properties to the Operating Partnership in exchange for OP Units, as well as the equity positions of the holders of LTIP Units, are collectively referred to as the “Noncontrolling Interests – Operating Partnership”. Subject to certain exceptions (including the “book-up” requirements of LTIP Units), the Noncontrolling Interests – Operating Partnership may exchange their Units with EQR for Common Shares on a one-for-one basis. The carrying value of the Noncontrolling Interests – Operating Partnership (including redeemable interests) is allocated based on the number of Noncontrolling Interests – Operating Partnership Units in total in proportion to the number of Noncontrolling Interests – Operating Partnership Units in total plus the number of Common Shares. Net income is allocated to the Noncontrolling Interests – Operating Partnership based on the weighted average ownership percentage during the period.

The Operating Partnership has the right but not the obligation to make a cash payment instead of issuing Common Shares to any and all holders of Noncontrolling Interests – Operating Partnership Units requesting an exchange of their OP Units with EQR. Once the Operating Partnership elects not to redeem the Noncontrolling Interests – Operating Partnership Units for cash, EQR is obligated to deliver Common Shares to the exchanging holder of the Noncontrolling Interests – Operating Partnership Units.

The Noncontrolling Interests – Operating Partnership Units are classified as either mezzanine equity or permanent equity. If EQR is required, either by contract or securities law, to deliver registered Common Shares, such Noncontrolling Interests – Operating Partnership are differentiated and referred to as “Redeemable Noncontrolling Interests – Operating Partnership”. Instruments that require settlement in registered shares can not be classified in permanent equity as it is not always completely within an issuer’s control to deliver registered shares. Therefore, settlement in cash is assumed and that responsibility for settlement in cash is deemed to fall to the Operating Partnership as the primary source of cash for EQR, resulting in presentation in the mezzanine section of the balance sheet. The Redeemable Noncontrolling Interests – Operating Partnership are adjusted to the greater of carrying value or fair market value based on the Common Share price of EQR at the end of each respective reporting period. EQR has the ability to deliver unregistered Common Shares for the remaining portion of the Noncontrolling Interests – Operating Partnership Units that are classified in permanent equity at June 30, 2013 and December 31, 2012. The carrying value of the Redeemable Noncontrolling Interests – Operating Partnership is allocated based on the number of Redeemable Noncontrolling Interests – Operating Partnership Units in proportion to the number of Noncontrolling Interests – Operating Partnership Units in total. Such percentage of the total carrying value of Units which is ascribed to the Redeemable Noncontrolling Interests – Operating Partnership is then adjusted to the greater of carrying value or fair market value as described above. As of June 30, 2013, the Redeemable Noncontrolling Interests – Operating Partnership have a redemption value of approximately \$407.9 million, which represents the value of Common Shares that would be issued in exchange with the Redeemable Noncontrolling Interests – Operating

Partnership Units.

The following table presents the change in the redemption value of the Redeemable Noncontrolling Interests – Operating Partnership for the six months ended June 30, 2013 (amounts in thousands):

21

Table of Contents

	2013	
Balance at January 1,	\$398,372	
Change in market value	(33,039)
Change in carrying value	42,557	
Balance at June 30,	\$407,890	

Net proceeds from EQR Common Share and Preferred Share (see definition below) offerings are contributed by EQR to ERPOP. In return for those contributions, EQR receives a number of OP Units in ERPOP equal to the number of Common Shares it has issued in the equity offering (or in the case of a preferred equity offering, a number of preference units in ERPOP equal in number and having the same terms as the Preferred Shares issued in the equity offering). As a result, the net offering proceeds from Common Shares and Preferred Shares are allocated between shareholders' equity and Noncontrolling Interests – Operating Partnership to account for the change in their respective percentage ownership of the underlying equity of ERPOP.

The Company's declaration of trust authorizes it to issue up to 100,000,000 preferred shares of beneficial interest, \$0.01 par value per share (the "Preferred Shares"), with specific rights, preferences and other attributes as the Board of Trustees may determine, which may include preferences, powers and rights that are senior to the rights of holders of the Company's Common Shares.

The following table presents the Company's issued and outstanding Preferred Shares as of June 30, 2013 and December 31, 2012:

	Redemption Date (1)	Annual Dividend per Share (2)	Amounts in thousands	
			June 30, 2013	December 31, 2012
Preferred Shares of beneficial interest, \$0.01 par value; 100,000,000 shares authorized; 8.29% Series K Cumulative Redeemable Preferred; liquidation value \$50 per share; 1,000,000 shares issued and outstanding at June 30, 2013 and December 31, 2012	12/10/26	\$4.145	\$50,000	\$50,000
			\$50,000	\$50,000

On or after the redemption date, redeemable preferred shares may be redeemed for cash at the option of the (1)Company, in whole or in part, at a redemption price equal to the liquidation price per share, plus accrued and unpaid distributions, if any.

(2)Dividends on Preferred Shares are payable quarterly.

Capital and Redeemable Limited Partners of ERP Operating Limited Partnership

The following tables present the changes in the Operating Partnership's issued and outstanding Units and in the limited partners' Units for the six months ended June 30, 2013:

Table of Contents

	2013

Conversion of Limited Partner OP Units to EQR Common Shares	(36,262)
Limited Partner Units outstanding at June 30,	14,214,427	
Limited Partner Units Ownership Interest in Operating Partnership	3.8	%
<p>The Limited Partners of the Operating Partnership as of June 30, 2013 include various individuals and entities that contributed their properties to the Operating Partnership in exchange for OP Units, as well as the equity positions of the holders of LTIP Units. Subject to certain exceptions (including the "book-up" requirements of LTIP Units), Limited Partners may exchange their Units with EQR for Common Shares on a one-for-one basis. The carrying value of the Limited Partner Units (including redeemable interests) is allocated based on the number of Limited Partner Units in total in proportion to the number of Limited Partner Units in total plus the number of General Partner Units. Net income is allocated to the Limited Partner Units based on the weighted average ownership percentage during the period.</p> <p>The Operating Partnership has the right but not the obligation to make a cash payment instead of issuing Common Shares to any and all holders of Limited Partner Units requesting an exchange of their OP Units with EQR. Once the Operating Partnership elects not to redeem the Limited Partner Units for cash, EQR is obligated to deliver Common Shares to the exchanging limited partner.</p> <p>The Limited Partner Units are classified as either mezzanine equity or permanent equity. If EQR is required, either by contract or securities law, to deliver registered Common Shares, such Limited Partner Units are differentiated and referred to as "Redeemable Limited Partner Units". Instruments that require settlement in registered shares can not be classified in permanent equity as it is not always completely within an issuer's control to deliver registered shares. Therefore, settlement in cash is assumed and that responsibility for settlement in cash is deemed to fall to the Operating Partnership as the primary source of cash for EQR, resulting in presentation in the mezzanine section of the balance sheet. The Redeemable Limited Partner Units are adjusted to the greater of carrying value or fair market value based on the Common Share price of EQR at the end of each respective reporting period. EQR has the ability to deliver unregistered Common Shares for the remaining portion of the Limited Partner Units that are classified in permanent equity at June 30, 2013 and December 31, 2012.</p> <p>The carrying value of the Redeemable Limited Partner Units is allocated based on the number of Redeemable Limited Partner Units in proportion to the number of Limited Partner Units in total. Such percentage of the total carrying value of Limited Partner Units which is ascribed to the Redeemable Limited Partner Units is then adjusted to the greater of carrying value or fair market value as described above. As of June 30, 2013, the Redeemable Limited Partner Units have a redemption value of approximately \$407.9 million, which represents the value of Common Shares that would be issued in exchange with the Redeemable Limited Partner Units.</p> <p>The following table presents the change in the redemption value of the Redeemable Limited Partners for the six months ended June 30, 2013 (amounts in thousands):</p>		

Table of Contents

	2013
Balance at January 1,	\$398,372
Change in market value	(33,039)
Change in carrying value	42,557
Balance at June 30,	\$407,890

EQR contributes all net proceeds from its various equity offerings (including proceeds from exercise of options for Common Shares) to ERPOP. In return for those contributions, EQR receives a number of OP Units in ERPOP equal to the number of Common Shares it has issued in the equity offering (or in the case of a preferred equity offering, a number of preference units in ERPOP equal in number and having the same terms as the preferred shares issued in the equity offering).

The following table presents the Operating Partnership's issued and outstanding "Preference Units" as of June 30, 2013 and December 31, 2012:

	Redemption Date (1)	Annual Dividend per Unit (2)	Amounts in thousands	
			June 30, 2013	December 31, 2012
Preference Units:				
8.29% Series K Cumulative Redeemable Preference Units;				
liquidation value \$50 per unit; 1,000,000 units issued and outstanding at June 30, 2013 and December 31, 2012	12/10/26	\$4.145	\$50,000	\$50,000
			\$50,000	\$50,000

On or after the redemption date, redeemable preference units may be redeemed for cash at the option of the Operating Partnership, in whole or in part, at a redemption price equal to the liquidation price per unit, plus accrued and unpaid distributions, if any, in conjunction with the concurrent redemption of the corresponding Company Preferred Shares.

(2) Dividends on Preference Units are payable quarterly.

Other

On February 27, 2013, the Company issued 34,468,085 Common Shares to an affiliate of Lehman Brothers Holdings Inc. as partial consideration for the portion of the Archstone Portfolio acquired by the Company (as discussed in Note 4 below). The shares had a total value of \$1.9 billion based on the February 27, 2013 closing price of EQR Common Shares of \$55.99 per share. Concurrent with this transaction, ERPOP issued 34,468,085 OP Units to EQR. On March 7, 2013, EQR filed a shelf registration statement relating to the resale of these shares by the selling shareholders. On November 28, 2012, as a partial source of funding for the Archstone Acquisition (see definition below), EQR priced the issuance of 21,850,000 Common Shares at a price of \$54.75 per share for total consideration of approximately \$1.2 billion, after deducting underwriting commissions of \$35.9 million. Concurrent with this transaction, ERPOP issued 21,850,000 OP Units to EQR.

In September 2009, the Company announced the establishment of an At-The-Market ("ATM") share offering program which would allow EQR to sell up to 17.0 million Common Shares from time to time over the next three years (later increased by 5.7 million Common Shares and extended to February 2014) into the existing trading market at current market prices as well as through negotiated transactions. Per the terms of ERPOP's partnership agreement, EQR contributes the net proceeds from all equity offerings to the capital of ERPOP in exchange for additional OP Units (on a one-for-one Common Share per OP Unit basis). EQR has not issued any shares under this program since September 14, 2012. EQR had 6.0 million Common Shares remaining available for issuance under the ATM program

as of June 30, 2013. On July 30, 2013, the Company filed a new universal shelf registration statement to replace its existing universal shelf registration statement, which expires later this year. The Board of Trustees also approved an increase to the amount of shares which may be offered under the ATM program to 13.0 million Common Shares and extended the program maturity to July 2016. See Note 14 for further discussion.

EQR has a share repurchase program authorized by the Board of Trustees under which it had authorization to repurchase up to \$464.6 million of its shares as of June 30, 2013. No shares were repurchased during the six months ended June 30, 2013. The Board of Trustees also approved an increase and modification to the Company's share repurchase program to allow for the potential repurchase of up to 13.0 million Common Shares. See Note 14 for further discussion.

See Note 6 for a discussion of the Noncontrolling Interests assumed in conjunction with the acquisition of Archstone.

Table of Contents

4. Real Estate and Lease Intangibles

The following table summarizes the carrying amounts for the Company's investment in real estate (at cost) as of June 30, 2013 and December 31, 2012 (amounts in thousands):

	June 30, 2013	December 31, 2012
Land	\$6,264,787	\$4,554,912
Depreciable property:		
Buildings and improvements	17,862,440	14,135,740
Furniture, fixtures and equipment	1,201,868	1,343,765
In-Place lease intangibles	504,665	232,439
Projects under development:		
Land	224,561	210,632
Construction-in-progress	361,188	177,118
Land held for development:		
Land	506,380	294,868
Construction-in-progress	63,018	58,955
Investment in real estate	26,988,907	21,008,429
Accumulated depreciation	(4,547,327) (4,912,221
Investment in real estate, net	\$22,441,580	\$16,096,208

The following table summarizes the carrying amounts for the Company's above and below market ground and retail lease intangibles as of June 30, 2013 (amounts in thousands):

Description	Balance Sheet Location	Fair Value
Assets		
Ground lease intangibles – below market	Other Assets	\$178,251
Retail lease intangibles – above market	Other Assets	2,310
Lease intangible assets		180,561
Accumulated amortization		(1,841
Lease intangible assets, net		\$178,720
Liabilities		
Ground lease intangibles – above market	Other Liabilities	\$2,400
Retail lease intangibles – below market	Other Liabilities	7,790
Lease intangible liabilities		10,190
Accumulated amortization		(610
Lease intangible liabilities, net		\$9,580

During the six months and quarter ended June 30, 2013, the Company amortized approximately \$1.4 million and \$1.0 million, respectively, of above and below market ground lease intangibles which is included (net increase) in property and maintenance expense in the accompanying consolidated statements of operations and approximately \$0.2 million and \$0.1 million, respectively, of above and below market retail lease intangibles which is included (net increase) in rental income in the accompanying consolidated statements of operations.

The weighted average amortization period for above and below market ground lease intangibles and retail lease intangibles is 49.8 years and 5.3 years, respectively.

The following table provides a summary of the aggregate amortization expense for above and below market ground lease intangibles and retail lease intangibles for each of the next five years (amounts in thousands):

25

Table of Contents

	Remaining 2013	2014	2015	2016	2017	2018
Ground lease intangibles	\$2,161	\$4,321	\$4,321	\$4,321	\$4,321	\$4,321
Retail lease intangibles	(300)	(1,144)	(1,150)	(1,042)	(674)	(205)
Total	\$1,861	\$3,177	\$3,171	\$3,279	\$3,647	\$4,116

Archstone Acquisition

On February 27, 2013, the Company, AvalonBay Communities, Inc. (“AVB”) and certain of their respective subsidiaries completed their previously announced acquisition (the “Archstone Acquisition”) from Archstone Enterprise LP (“Enterprise”) (which subsequently changed its name to Jupiter Enterprise LP) and its affiliates, of all of the assets of Enterprise (including interests in various entities affiliated with Enterprise), constituting a portfolio of apartment properties and other assets (the “Archstone Portfolio”).

The Company acquired assets representing approximately 60% of the Archstone Portfolio which consisted principally of high-quality apartment properties in major markets in the United States. The acquisition allowed the Company to accelerate the completion of its strategic shift into coastal apartment markets. Pursuant to the Archstone transaction, the Company acquired directly or indirectly, 71 wholly owned, stabilized properties consisting of 20,160 apartment units, one partially owned and consolidated stabilized property consisting of 432 apartment units, one partially owned and unconsolidated stabilized property consisting of 336 apartment units, three consolidated master-leased properties consisting of 853 apartment units, four projects in various stages of construction (two consolidated and two unconsolidated) for 964 apartment units and fourteen land sites for approximately \$9.0 billion. During the six months ended June 30, 2013, the Company recorded revenues and net operating income (“NOI”) of \$204.5 million and \$140.0 million, respectively, from the acquired assets. During the quarter ended June 30, 2013, the Company recorded revenues and NOI of \$151.9 million and \$103.9 million, respectively, from the acquired assets.

The consideration paid by the Company in connection with the Archstone Acquisition consisted of cash of approximately \$4.0 billion (inclusive of \$2.0 billion of Archstone secured mortgage principal paid off in conjunction with the closing), 34,468,085 Common Shares (which shares had a total value of \$1.9 billion based on the February 27, 2013 closing price of EQR common shares of \$55.99 per share) issued to the seller and the assumption of approximately \$3.1 billion of mortgage debt (inclusive of a net mark-to-market premium of \$127.9 million) and approximately 60% of all of the other assets and liabilities related to the Archstone Portfolio. The cash consideration was funded with proceeds from the November 2012 public equity offering, the asset sales discussed below, the Company's new \$750.0 million senior unsecured delayed draw term loan facility and the Company's revolving credit facility.

The Company owns the building and improvements and leases the land underlying the improvements under long-term ground leases that expire beginning in 2042 and running through 2103 for nine of the operating properties acquired and discussed above. These properties are consolidated and reflected as real estate assets while the ground leases are accounted for as operating leases. The Company also leases the three master-leased properties discussed above to third party operators and earns monthly net rental income.

The Company is accounting for the acquisition under the acquisition method in accordance with Accounting Standards Codification (“ASC”) 805, Business Combinations (“ASC 805”), and the initial accounting for this business combination is substantially complete but subject to further adjustment as certain information becomes available (see further discussion below). The following table summarizes the acquisition date fair values of the assets acquired and liabilities assumed, which the Company determined using Level 1, Level 2 and Level 3 inputs (amounts in thousands):

Table of Contents

Land	\$2,239,000	
Depreciable property:		
Buildings and improvements	5,836,010	
Furniture, fixtures and equipment	61,470	
In-Place lease intangibles	304,830	
Projects under development	36,583	
Land held for development	239,418	
Investments in unconsolidated entities	185,723	
Other assets	196,310	
Other liabilities	(112,369)
Net assets acquired	\$8,986,975	

The allocation of fair values of the assets acquired and liabilities assumed has changed from the allocation reported in “Note 4 – Real Estate” in the Notes to Consolidated Financial Statements included in Part I of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2013 filed with the SEC on May 9, 2013. The changes to our valuation assumptions were based on more accurate information concerning the subject assets and liabilities. None of these changes had a material impact on our Consolidated Financial Statements. This allocation is subject to further adjustment due primarily to information not readily available at the acquisition date, final purchase price settlement with our partner in accordance with the terms of the purchase agreement, reclassification adjustments for presentation and adjustments to our valuation assumptions. The Company's assessment of the fair values and the allocation of the purchase price to the identified tangible and intangible assets is its current best estimate of fair value.

The fair values of investment in real estate were determined using internally developed models that were based on market assumptions and comparable sales data as well as external valuations performed by unrelated third parties. The market assumptions used as inputs to the Company's fair value model include construction costs, leasing assumptions, growth rates, discount rates, terminal capitalization rates and development yields. The Company uses data on its existing portfolio of properties and its recent acquisition and development properties, as well as similar market data from third party sources, when available, in determining these inputs (Level 2 and 3). The fair value of Noncontrolling Interests was calculated similar to the investment in real estate described above. The fair value of mortgage debt was calculated using indicative rates, leverage and coverage provided by lenders of similar loans (Level 2). The Common Shares issued to Lehman Brothers Holdings Inc. were valued using the quoted market price of Common Shares (Level 1).

The following table summarizes the acquisition date fair values of the above and below market ground and retail lease intangibles, which we determined using Level 2 and Level 3 inputs (amounts in thousands):

Description	Balance Sheet Location	Fair Value
Ground lease intangibles – below market	Other Assets	\$178,251
Retail lease intangibles – above market	Other Assets	2,310
Ground lease intangibles – above market	Other Liabilities	2,400
Retail lease intangibles – below market	Other Liabilities	8,040

As of June 30, 2013, the Company has incurred Archstone-related expenses of approximately \$93.5 million, of which approximately \$13.5 million of this total was financing-related and approximately \$80.0 million was merger costs. During the six months ended June 30, 2013, the Company expensed \$19.6 million of direct merger costs primarily related to investment banking and legal/accounting fees, which were included in merger expenses in the accompanying consolidated statements of operations, and \$53.0 million of indirect merger costs related to severance

obligations and retention bonuses through our 60% interest in an unconsolidated joint venture with AVB, which were included in (loss) from investments in unconsolidated entities due to merger expenses in the accompanying consolidated statements of operations. The Company also expensed \$2.5 million of financing-related costs, which were included in interest expense in the accompanying consolidated statements of operations.

Table of Contents

Potential Units issuable from the assumed exercise/vesting of the Company's long-term compensation shares/units are automatically anti-dilutive and therefore excluded from the diluted earnings per Unit calculation as the (1) Operating Partnership had a pro forma loss from continuing operations for the six months and quarters ended June 30, 2012.

Includes a weighted average adjustment for Common Shares issued to the public in December 2012 and to an (2) affiliate of Lehman Brothers Holdings Inc. in February 2013 as partial consideration for the Archstone Acquisition. Concurrent with these transactions, ERPOP issued the same number of OP Units to EQR.

For the six months ended June 30, 2013 and 2012, acquisition costs of \$19.6 million and \$1.8 million, respectively, and severance/retention and other costs of \$50.9 million and none, respectively, related to the Archstone Acquisition are not expected to have a continuing impact on the Company's financial results and therefore have been excluded from these pro forma results. The pro forma results also do not include the impact of any synergies or lower borrowing costs that the Company has or may achieve as a result of the acquisition or any strategies that management has or may consider in order to more efficiently manage the Company's operations, nor do they give pro forma effect to any other acquisitions, dispositions or capital markets transactions (excluding the equity offering in December 2012 which proceeds were used for the Archstone Acquisition) that the Company completed during the periods presented. These pro forma results are not necessarily indicative of the operating results that would have been obtained had the Archstone Acquisition occurred at the beginning of the periods presented, nor are they necessarily indicative of future operating results.

Other

In addition to the Archstone acquisition described above, during the six months ended June 30, 2013, the Company acquired the entire equity interest in the following from unaffiliated parties (purchase price in thousands):

	Properties	Apartment Units	Purchase Price
Rental Properties – Consolidated	1	322	\$91,500
Land Parcel (one)	—	—	16,500
Total	1	322	\$ 108,000

During the six months ended June 30, 2013, the Company disposed of the following to unaffiliated parties (sales price in thousands):

	Properties	Apartment Units	Sales Price
Rental Properties – Consolidated	82	24,197	\$3,705,082
Land Parcels (five)	—	—	59,750
Other (1)	—	—	30,734
Total	82	24,197	\$3,795,566

(1) Represents a 97,000 square foot commercial building adjacent to our Harbor Steps apartment property in downtown Seattle that was acquired in 2011.

The Company recognized a net gain on sales of discontinued operations of approximately \$1.6 billion and a net gain on sales of land parcels of approximately \$14.6 million on the above sales.

5. Commitments to Acquire/Dispose of Real Estate

The Company has entered into separate agreements to acquire the following (purchase price in thousands):

Properties	Apartment Units	Purchase Price
------------	-----------------	----------------

Edgar Filing: EQUITY RESIDENTIAL - Form 10-Q

Land Parcels (two)	—	—	\$ 39,300
Total	—	—	\$ 39,300

In addition to the properties and land parcel that were subsequently disposed of as discussed in Note 14, the Company has entered into separate agreements to dispose of the following (sales price in thousands):

29

Table of Contents

	Properties	Apartment Units	Sales Price
Rental Properties	2	688	\$68,182
Land Parcel (one)	—	—	26,350
Total	2	688	\$94,532

The closings of these pending transactions are subject to certain conditions and restrictions, therefore, there can be no assurance that these transactions will be consummated or that the final terms will not differ in material respects from those summarized in the preceding paragraphs.

6. Investments in Partially Owned Entities

The Company has co-invested in various properties with unrelated third parties which are either consolidated or accounted for under the equity method of accounting (unconsolidated). The following tables and information summarize the Company's investments in partially owned entities as of June 30, 2013 (amounts in thousands except for project and apartment unit amounts):

(1) Project and apartment unit counts exclude all uncompleted development projects until those projects are substantially completed.

(2) All debt is non-recourse to the Company with the exception of 50% of the current \$2.7 million outstanding debt balance on one unconsolidated development project.

Note: The above tables exclude the Company's interests in unconsolidated joint ventures entered into with AVB in connection with the Archstone transaction. These ventures own certain non-core Archstone assets that are held

for sale and succeeded to certain residual Archstone liabilities, such as liability for various employment-related matters as well as responsibility for tax protection arrangements and third-party preferred interests in former Archstone subsidiaries. The preferred interests have an aggregate liquidation value of \$88.3 million at June 30, 2013. The ventures are owned 60% by the Company and 40% by AVB.

The Company is the controlling partner in various consolidated partnership properties and development properties having a noncontrolling interest book value of \$107.5 million at June 30, 2013. The Company has identified one development partnership, consisting of a land parcel with a book value of \$5.0 million, as a VIE. The Company does not have any unconsolidated VIEs.

On February 27, 2013, in conjunction with the Archstone Acquisition, the Company acquired interests in several joint ventures. Details of these interests follow by project:

Park Aire (formerly known as Enclave at Wellington) – This venture is currently developing certain land parcels into a 268 unit apartment building located in Wellington, Florida. The Company has a 95% equity interest with an initial basis of \$26.2 million. Total project costs are expected to be approximately \$50.0 million. The Company is the managing member, is responsible for constructing the project and its partner does not have substantive kick-out or participating rights. As a result, the entity is required to be consolidated on the Company's balance sheet.

East Palmetto Park – This venture was formed to ultimately develop certain land parcels into a 377 unit apartment building located in Boca Raton, Florida. The Company has a 90% equity interest with an initial basis of \$20.2 million. The Company is the managing member, is responsible for constructing the project and its partner does not have substantive kick-out or participating rights. As a result, the entity is required to be consolidated on the Company's balance sheet.

Wisconsin Place – This venture was formed to develop and operate a mixed-use site located in Chevy Chase, Maryland consisting of residential, retail, office and accessory uses, including underground parking facilities. The Company has a 75% equity

Table of Contents

interest with an initial basis of \$198.5 million in the 432 unit residential component. The Company is the managing member, was responsible for constructing the residential project and its partner does not have substantive kick-out or participating rights. As a result, the entity that owns the residential component of this mixed-use site is required to be consolidated on the Company's balance sheet. Such entity also retains an unconsolidated interest in an entity that owns the land underlying the project and owns and operates the parking facility. The initial fair value of this investment is \$56.5 million. The Company does not have any ownership interest in the retail and office components.

San Norterra – This venture is currently developing certain land parcels into a 388 unit apartment building located in Phoenix, Arizona. The Company has an 85% equity interest with an initial basis of \$16.9 million. Total project costs are approximately \$56.3 million and construction is being partially funded with a construction loan that is guaranteed by the partner and non-recourse to the Company. The loan has a maximum debt commitment of \$34.8 million and a current unconsolidated outstanding balance of \$28.4 million; the loan bears interest at LIBOR plus 2.00% and matures January 6, 2015. The partner is the managing member and is developing the project. The Company does not have substantive kick-out or participating rights. As a result, the entity is unconsolidated and recorded using the equity method of accounting.

Waterton Tenside – This venture was formed to develop and operate a 336 unit apartment property located in Atlanta, Georgia. The Company has a 20% equity interest with an initial basis of \$5.1 million. The partner is the managing member and developed the project. The project is encumbered by a non-recourse mortgage loan that has a current outstanding balance of \$30.6 million, bears interest at 3.66% and matures December 1, 2018. The Company does not have substantive kick-out or participating rights. As a result, the entity is unconsolidated and recorded using the equity method of accounting.

Mission Gorge – This venture was formed to ultimately develop a land parcel into a 444 unit apartment building located in San Diego, California. The Company currently has a 23.08% equity interest with an initial basis of \$4.1 million. While the Company is the managing member of the joint venture and will be responsible for constructing the project, the joint venture partner has significant participating rights and has active involvement in and oversight of the ongoing project. As a result, this entity is unconsolidated and recorded using the equity method of accounting.

Parkside at Emeryville – This venture is currently developing certain land parcels into a 180 unit apartment building located in Emeryville, California. The Company has a 5% equity interest with an initial obligation of approximately \$2.1 million. Total project costs are expected to be approximately \$75.0 million and construction is being partially funded with a construction loan. The loan has a maximum debt commitment of \$39.5 million and a current unconsolidated outstanding balance of \$2.7 million; the loan bears interest at LIBOR plus 2.25% and matures August 14, 2015. The Company has given a repayment guaranty on the construction loan of 50% of the outstanding balance, up to a maximum of \$19.7 million, and has given certain construction cost overrun guarantees. The partner is the managing member and is developing the project. The Company does not have substantive kick-out or participating rights. As a result, the entity is unconsolidated and recorded using the equity method of accounting.

On February 27, 2013, in connection with the Archstone Acquisition, subsidiaries of the Company and AVB entered into three limited liability company agreements (collectively, the “Residual JV”). The Residual JV owns certain non-core Archstone assets that are held for sale, such as interests in a German portfolio of apartment buildings, and succeeded to certain residual Archstone liabilities, such as liability for various employment-related matters. The Residual JV is owned 60% by the Company and 40% by AVB and the Company's initial investment was \$105.2 million. The venture is managed by a Management Committee consisting of two members from each of the Company and AVB. Both partners have equal participation in the Management Committee and all significant participating rights are shared by both partners. As a result, the venture is unconsolidated and recorded using the equity method of accounting.

On February 27, 2013, in connection with the Archstone Acquisition, a subsidiary of the Company and AVB entered into a limited liability company agreement (the "Legacy JV"), through which they assumed obligations of Archstone in the form of preferred interests, some of which are governed by tax protection arrangements. During the six months ended June 30, 2013, the Company purchased with AVB \$65.0 million (of which the Company's 60% share was \$39.0 million) of the preferred interests assumed by Legacy JV. At June 30, 2013, the remaining preferred interests have an aggregate liquidation value of \$88.3 million, our share of which is included in other liabilities in the accompanying consolidated balance sheets. Obligations of the venture are borne 60% by the Company and 40% by AVB. The venture is managed by a Management Committee consisting of two members from each of the Company and AVB. Both partners have equal participation in the Management Committee and all significant participating rights are shared by both partners. As a result, the venture is unconsolidated and recorded using the equity method of accounting.

In December 2011, the Company and Toll Brothers (NYSE: TOL) jointly acquired a vacant land parcel at 400 Park Avenue South in New York City. The Company's and Toll Brothers' allocated portions of the purchase price were approximately \$76.1 million and \$57.9 million, respectively. The Company is the managing member and Toll Brothers does not have substantive kick-

Table of Contents

out or participating rights. Until the core and shell of the building is complete, the building and land will be owned jointly and are required to be consolidated on the Company's balance sheet. Thereafter, the Company will solely own and control the rental portion of the building (floors 2-22) and Toll Brothers will solely own and control the for sale portion of the building (floors 23-40). Once the core and shell are complete, the Toll Brothers' portion of the property will be deconsolidated from the Company's balance sheet. The acquisition was financed through contributions by the Company and Toll Brothers of approximately \$102.5 million and \$75.7 million, respectively, which included the land purchase noted above, restricted deposits and taxes and fees. As of June 30, 2013, the Company's and Toll Brothers' consolidated contributions to the joint venture were approximately \$230.7 million, of which Toll Brothers' noncontrolling interest balance totaled \$90.8 million.

The Company admitted an 80% institutional partner to two separate entities/transactions (Nexus Sawgrass in December 2010 and Domain in August 2011), each owning a developable land parcel, in exchange for \$40.1 million in cash and retained a 20% equity interest in both of these entities. These land parcels are now unconsolidated. Total project costs are approximately \$232.8 million and construction is being predominantly funded with two separate long-term, non-recourse secured loans from the partner. Nexus Sawgrass has a maximum debt commitment of \$48.7 million and a current unconsolidated outstanding balance of \$42.6 million; the loan bears interest at 5.60% and matures January 1, 2021. Domain has a maximum debt commitment of \$98.6 million and a current unconsolidated outstanding balance of \$72.1 million; the loan bears interest at 5.75% and matures January 1, 2022. While the Company is the managing member of both of the joint ventures, is responsible for constructing both of the projects and has given certain construction cost overrun guarantees, the joint venture partner has significant participating rights and has active involvement in and oversight of the ongoing projects. The Company currently has no further funding obligations related to these projects.

7. Deposits – Restricted

The following table presents the Company's restricted deposits as of June 30, 2013 and December 31, 2012 (amounts in thousands):

	June 30, 2013	December 31, 2012
Tax-deferred (1031) exchange proceeds	\$82,029	\$152,182
Earnest money on pending acquisitions	350	5,613
Restricted deposits on real estate investments	53,756	44,209
Resident security and utility deposits	59,773	44,199
Other	1,359	4,239
Totals	\$197,267	\$250,442

8. Debt

EQR does not have any indebtedness as all debt is incurred by the Operating Partnership. EQR guarantees the Operating Partnership's \$750.0 million senior unsecured delayed draw term loan facility and also guarantees the Operating Partnership's revolving credit facility up to the maximum amount and for the full term of the facility.

Mortgage Notes Payable

As of June 30, 2013, the Company had outstanding mortgage debt of approximately \$6.2 billion.

During the six months ended June 30, 2013, the Company:

Repaid \$704.2 million of mortgage loans;

Assumed \$2.2 billion of mortgage debt held in two Fannie Mae loan pools, consisting of \$1.2 billion collateralized by 16 properties with an interest rate of 6.256% and a maturity date of November 1, 2017 and \$1.0 billion collateralized by 15 properties with an interest rate of 5.883% and a maturity date of November 1, 2014;

Assumed \$346.6 million of tax-exempt bonds on four properties with interest rates ranging from SIFMA plus 0.860% to SIFMA plus 1.402% and maturity dates through November 15, 2036;

Assumed \$339.0 million of other mortgage debt on three properties with fixed interest rates ranging from 0.100% to 5.240% and maturity dates through May 1, 2061;

Assumed \$34.1 million of other mortgage debt on one property with a variable rate of LIBOR plus 1.75% and a maturity date of September 1, 2014; and

Table of Contents

Recorded \$127.9 million of net mark-to-market premiums on the mortgage debt described in the bullets above.

The Company recorded approximately \$71.4 million, \$1.6 million and \$3.3 million of prepayment penalties, write-offs of unamortized deferred financing costs and write-offs of unamortized discounts, respectively, during the six months ended June 30, 2013 as additional interest expense related to debt extinguishment of mortgages.

As of June 30, 2013, the Company had \$700.5 million of secured debt subject to third party credit enhancement.

As of June 30, 2013, scheduled maturities for the Company's outstanding mortgage indebtedness were at various dates through May 1, 2061. At June 30, 2013, the interest rate range on the Company's mortgage debt was 0.05% to 7.25%. During the six months ended June 30, 2013, the weighted average interest rate on the Company's mortgage debt was 4.37%.

Notes

As of June 30, 2013, the Company had outstanding unsecured notes of approximately \$5.5 billion.

During the six months ended June 30, 2013, the Company:

Repaid \$400.0 million of 5.200% unsecured notes at maturity;

Issued \$500.0 million of ten-year 3.00% fixed rate public notes, receiving net proceeds of \$495.6 million before underwriting fees, hedge termination costs and other expenses, at an all-in effective interest rate of 3.998%; and

Entered into a senior unsecured \$750.0 million delayed draw term loan facility which was fully drawn on February 27, 2013 in connection with the Archstone acquisition. The maturity date of January 11, 2015 is subject to a one-year extension option exercisable by the Company. The interest rate on advances under the term loan facility will generally be LIBOR plus a spread (currently 1.20%), which is dependent on the credit rating of the Company's long-term debt.

In November 2012, the Company obtained a commitment for a senior unsecured bridge loan facility in an aggregate principal amount not to exceed \$2.5 billion to finance the acquisition of Archstone and to pay fees and expenses relating to this transaction. On January 11, 2013, the Company terminated this \$2.5 billion bridge loan facility in connection with the execution of the term loan facility discussed above and the new revolving credit facility discussed below. The Company wrote off approximately \$2.5 million of unamortized deferred financing costs during the six months ended June 30, 2013 as additional interest expense.

As of June 30, 2013, scheduled maturities for the Company's outstanding notes were at various dates through 2026. At June 30, 2013, the interest rate range on the Company's notes was 1.36% to 7.57%. During the six months ended June 30, 2013, the weighted average interest rate on the Company's notes was 5.15%.

Lines of Credit

On January 11, 2013, the Company replaced its existing \$1.75 billion facility with a \$2.5 billion unsecured revolving credit facility maturing April 1, 2018. The Company has the ability to increase available borrowings by an additional \$500.0 million by adding additional banks to the facility or obtaining the agreement of existing banks to increase their commitments. The interest rate on advances under the new credit facility will generally be LIBOR plus a spread (currently 1.05%) and the Company pays an annual facility fee (currently 15 basis points). Both the spread and the facility fee are dependent on the credit rating of the Company's long-term debt. The existing \$1.75 billion facility was scheduled to mature in July 2014.

As of June 30, 2013, the amount available on the credit facility was \$2.47 billion (net of \$33.3 million which was restricted/dedicated to support letters of credit). During the six months ended June 30, 2013, the weighted average interest rate was 1.27%.

9. Derivative and Other Fair Value Instruments

The valuation of financial instruments requires the Company to make estimates and judgments that affect the fair value of the instruments. The Company, where possible, bases the fair values of its financial instruments, including its derivative instruments, on listed market prices and third party quotes. Where these are not available, the Company bases its estimates on current instruments with similar terms and maturities or on other factors relevant to the financial instruments.

Table of Contents

The carrying values of the Company's mortgage notes payable and unsecured notes were approximately \$6.2 billion and \$5.5 billion, respectively, at June 30, 2013. The fair values of the Company's mortgage notes payable and unsecured notes were approximately \$6.4 billion (Level 2) and \$5.8 billion (Level 2), respectively, at June 30, 2013. The carrying values of the Company's mortgage notes payable and unsecured notes were approximately \$3.9 billion and \$4.6 billion, respectively, at December 31, 2012. The fair values of the Company's mortgage notes payable and unsecured notes were approximately \$4.3 billion (Level 2) and \$5.2 billion (Level 2), respectively, at December 31, 2012. The fair values of the Company's financial instruments (other than mortgage notes payable, unsecured notes, derivative instruments and investment securities), including cash and cash equivalents and other financial instruments, approximate their carrying or contract values.

In the normal course of business, the Company is exposed to the effect of interest rate changes. The Company seeks to manage these risks by following established risk management policies and procedures including the use of derivatives to hedge interest rate risk on debt instruments. The Company may also use derivatives to manage its exposure to foreign exchange rates or manage commodity prices in the daily operations of the business.

The following table summarizes the Company's consolidated derivative instruments at June 30, 2013 (dollar amounts are in thousands):

	Forward	
	Starting	
	Swaps (1)	
Current Notional Balance	\$250,000	
Lowest Possible Notional	\$250,000	
Highest Possible Notional	\$250,000	
Lowest Interest Rate	2.125	%
Highest Interest Rate	2.674	%
Earliest Maturity Date	2024	
Latest Maturity Date	2024	

(1) Forward Starting Swaps – Designed to partially fix the interest rate in advance of a planned future debt issuance. These swaps have mandatory counterparty terminations in 2015, and are targeted to 2014 issuances.

In April 2013, the Company's remaining fair value hedges matured.

A three-level valuation hierarchy exists for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels are defined as follows:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Company's derivative positions are valued using models developed by the respective counterparty as well as models developed internally by the Company that use as their basis readily observable market parameters (such as forward yield curves and credit default swap data). Employee holdings other than Common Shares within the supplemental executive retirement plan (the "SERP") are valued using quoted market prices for identical assets and are included in other assets and other liabilities on the consolidated balance sheet. The Company's investment securities are valued using quoted market prices or readily available market interest rate data. Redeemable Noncontrolling Interests – Operating Partnership/Redeemable Limited Partners are valued using the quoted market price of Common Shares. The fair values disclosed for mortgage notes payable and unsecured notes were calculated using indicative rates provided by lenders of similar loans in the case of mortgage notes payable and the private unsecured notes and quoted market prices for each underlying issuance in the case of the public unsecured notes.

Table of Contents

The following tables provide a summary of the fair value measurements for each major category of assets and liabilities measured at fair value on a recurring basis and the location within the accompanying Consolidated Balance Sheets at June 30, 2013 and December 31, 2012, respectively (amounts in thousands):

As of June 30, 2013 and December 31, 2012, there were approximately \$170.3 million and \$194.7 million in deferred losses, net, included in accumulated other comprehensive (loss), respectively, related to derivative instruments. Based on the estimated fair values of the net derivative instruments at June 30, 2013, the Company may recognize an estimated \$21.6 million of accumulated other comprehensive (loss) as additional interest expense during the twelve months ending June 30, 2014.

In April 2013, the Company paid approximately \$44.7 million to settle three forward starting swaps in conjunction with the issuance of \$500.0 million of ten-year fixed rate public notes. The accrued interest of \$0.7 million was recorded as interest expense. The remaining amount of \$44.0 million will be deferred as a component of accumulated other comprehensive (loss) and recognized as an increase to interest expense over the approximate term of the notes. The following tables set forth the maturity, amortized cost, gross unrealized gains and losses, book/fair value and interest and other income of the various investment securities held as of June 30, 2013 and December 31, 2012, respectively (amounts in thousands):

Discontinued operations, net	1,607,559	278,659	388,187	107,841
Numerator for net income per Unit – basic and diluted (1)	\$ 1,396,484	\$ 252,780	\$ 336,511	\$ 104,529
Denominator for net income per Unit – basic and diluted (1):				
Denominator for net income per Unit – basic and diluted (1)	362,390	313,133	373,403	314,255
Net income per Unit – basic	\$3.84	\$0.81	\$0.90	\$0.33
Net income per Unit – diluted	\$3.84	\$0.81	\$0.90	\$0.33
Net income per Unit – basic:				
(Loss) from continuing operations available to Units	\$ (0.581)	\$ (0.082)	\$ (0.138)	\$ (0.011)
Discontinued operations, net	4.425	0.889	1.038	0.343
Net income per Unit – basic	\$3.844	\$0.807	\$0.900	\$0.332
Net income per Unit – diluted (1):				
(Loss) from continuing operations available to Units	\$ (0.581)	\$ (0.082)	\$ (0.138)	\$ (0.011)
Discontinued operations, net	4.425	0.889	1.038	0.343
Net income per Unit – diluted	\$3.844	\$0.807	\$0.900	\$0.332

Potential Units issuable from the assumed exercise/vesting of the Company's long-term compensation shares/units are automatically anti-dilutive and therefore excluded from the diluted earnings per Unit calculation as the (1) Operating Partnership had a loss from continuing operations for the six months and quarters ended June 30, 2013 and 2012.

11. Discontinued Operations

The Company has presented separately as discontinued operations in all periods the results of operations for all consolidated assets disposed of and all properties held for sale, if any.

The components of discontinued operations are outlined below and include the results of operations for the respective periods that the Company owned such assets during the six months and quarters ended June 30, 2013 and 2012 (amounts in thousands).

Table of Contents

	Six Months Ended June 30,		Quarter Ended June 30,		
	2013	2012	2013	2012

Total expenses	52,598	121,819	9,704	60,676	
Discontinued operating income (loss)	20,546	77,136	(1,391)) 37,952	
Interest and other income	91	47	38	19	
Other expenses	(3) (147) (1) (30)
Interest (2):					
Expense incurred, net	(1,258) (2,362) (6) (1,279)
Amortization of deferred financing costs	(228) (92) —	(46)
Income and other tax (expense) benefit	(463) 24	(405) 128	
Discontinued operations	18,685	74,606	(1,765)) 36,744	
Net gain on sales of discontinued operations	1,588,874	204,053	389,952	71,097	
Discontinued operations, net	\$1,607,559	\$278,659	\$388,187	\$107,841	

(1) Includes expenses paid in the current period for properties sold or held for sale in prior periods related to the Company's period of ownership.

(2) Includes only interest expense specific to secured mortgage notes payable for properties sold and/or held for sale. For the properties sold during the six months ended June 30, 2013, the investment in real estate, net of accumulated depreciation, and the mortgage notes payable balances at December 31, 2012 were \$1.7 billion and \$34.4 million, respectively.

12. Commitments and Contingencies

The Company, as an owner of real estate, is subject to various Federal, state and local environmental laws. Compliance by the Company with existing laws has not had a material adverse effect on the Company. However, the Company cannot predict the impact of new or changed laws or regulations on its current properties or on properties that it may acquire in the future.

The Company is party to a housing discrimination lawsuit brought by a non-profit civil rights organization in April 2006 in the U.S. District Court for the District of Maryland. The suit alleges that the Company designed and built approximately 300 of its properties in violation of the accessibility requirements of the Fair Housing Act and Americans With Disabilities Act. The suit seeks actual and punitive damages, injunctive relief (including modification of non-compliant properties), costs and attorneys' fees. The Company believes it has a number of viable defenses, including that a majority of the named properties were completed before the operative dates of the statutes in question and/or were not designed or built by the Company. Accordingly, the Company is defending the suit vigorously. Due to

the pendency of the Company's defenses and the uncertainty of many other critical factual and legal issues, it is not possible to determine or predict the outcome of the suit or a possible loss or a range of loss, and no amounts have been accrued at June 30, 2013. While no assurances can be given, the Company does not believe that the suit, if adversely determined, would have a material adverse effect on the Company.

The Company does not believe there is any other litigation pending or threatened against it that, individually or in the aggregate, may reasonably be expected to have a material adverse effect on the Company.

As of June 30, 2013, the Company has 11 consolidated projects (including 400 Park Avenue South in New York City which the Company is jointly developing with Toll Brothers that is discussed below and Park Aire in which the Company acquired a 95% interest in connection with the Archstone transaction that is discussed in Note 6) totaling 2,488 apartment units in various

Table of Contents

stages of development with commitments to fund of approximately \$432.8 million and estimated completion dates ranging through June 30, 2015, as well as other completed development projects that are in various stages of lease up or are stabilized. Some of the projects are being developed solely by the Company, while others are being co-developed with various third party development partners. The development venture agreements with these partners are primarily deal-specific, with differing terms regarding profit-sharing, equity contributions, returns on investment, buy-sell agreements and other customary provisions. The Company is the "general" or "managing" partner of the development venture.

As of June 30, 2013, the Company has four unconsolidated projects totaling 1,513 apartment units under development with estimated completion dates ranging through September 30, 2014. These projects are all being co-developed with various third party development partners. The development venture agreements with these partners are primarily deal-specific, with differing terms regarding profit-sharing, equity contributions, returns on investment, buy-sell agreements and other customary provisions. The Company currently has no further funding obligations for Domain, Nexus Sawgrass and San Norterra. While the Company is the managing member of the Domain and Nexus Sawgrass joint ventures, is responsible for constructing both projects and has given certain construction cost overrun guarantees, the joint venture partner has significant participating rights and has active involvement in and oversight of the ongoing projects. The Domain and Nexus Sawgrass buy-sell arrangements contain provisions that provide the right, but not the obligation, for the Company to acquire the partner's interests or sell its interests at any time following the occurrence of certain pre-defined events (including at stabilization) described in the development venture agreements. The respective partner for San Norterra and Parkside at Emeryville is the "general" or "managing" partner of the development venture and the Company does not have substantive kick-out or participating rights. The Company has given a repayment guaranty on the construction loan for Parkside at Emeryville of 50% of the outstanding balance, up to a maximum of \$19.7 million, and has given certain construction cost overrun guarantees.

In December 2011, the Company and Toll Brothers (NYSE: TOL) jointly acquired a vacant land parcel at 400 Park Avenue South in New York City. The Company's and Toll Brothers' allocated portions of the purchase price were approximately \$76.1 million and \$57.9 million, respectively. The Company is the managing member and Toll Brothers does not have substantive kick-out or participating rights. Until the core and shell of the building is complete, the building and land will be owned jointly and are required to be consolidated on the Company's balance sheet. Thereafter, the Company will solely own and control the rental portion of the building (floors 2-22) and Toll Brothers will solely own and control the for sale portion of the building (floors 23-40). Once the core and shell are complete, the Toll Brothers' portion of the property will be deconsolidated from the Company's balance sheet. The acquisition was financed through contributions by the Company and Toll Brothers of approximately \$102.5 million and \$75.7 million, respectively, which included the land purchase noted above, restricted deposits and taxes and fees. As of June 30, 2013, the Company's and Toll Brothers' consolidated contributions to the joint venture were approximately \$230.7 million, of which Toll Brothers' noncontrolling interest balance totaled \$90.8 million.

13. Reportable Segments

Operating segments are defined as components of an enterprise that engage in business activities from which they may earn revenues and incur expenses and about which discrete financial information is available that is evaluated regularly by the chief operating decision maker. The chief operating decision maker decides how resources are allocated and assesses performance on a recurring basis at least quarterly.

The Company's primary business is the acquisition, development and management of multifamily residential properties, which includes the generation of rental and other related income through the leasing of apartment units to residents. The chief operating decision maker evaluates the Company's operating performance geographically by market and both on a same store and non-same store basis. The Company's operating segments (geographic markets) have been aggregated into four reportable segments based upon the geographic region in which they are located.

The Company's fee and asset management and development (including its partially owned properties) activities are other business activities that do not constitute an operating segment and as such, have been aggregated in the "Other" category in the tables presented below.

All revenues are from external customers and there is no customer who contributed 10% or more of the Company's total revenues during the six months and quarters ended June 30, 2013 and 2012, respectively.

The primary financial measure for the Company's rental real estate segment is net operating income ("NOI"), which represents rental income less: 1) property and maintenance expense; 2) real estate taxes and insurance expense; and 3) property management expense (all as reflected in the accompanying consolidated statements of operations). The Company believes that NOI is helpful to investors as a supplemental measure of its operating performance because it is a direct measure of the actual operating results of the Company's apartment communities. Current year NOI is compared to prior year NOI and current year

Table of Contents

budgeted NOI as a measure of financial performance. The following tables present NOI for each segment from our rental real estate specific to continuing operations for the six months and quarters ended June 30, 2013 and 2012, respectively, as well as total assets and capital expenditures at June 30, 2013 (amounts in thousands):

	Six Months Ended June 30, 2013					Total
	Northeast	Northwest	Southeast	Southwest	Other (3)

14. Subsequent Events/Other

Subsequent Events

Subsequent to June 30, 2013, the Company:

• Sold six properties consisting of 2,033 apartment units and one land parcel for \$247.3 million;

• Entered into \$150.0 million of forward starting swaps to hedge changes in interest rates related to future secured or unsecured debt issuances; and

• Filed a new universal shelf registration statement to replace its existing universal shelf registration statement, which expires later this year. The Board of Trustees also approved an increase to the amount of shares which may be offered under the ATM share offering program to 13.0 million Common Shares and an increase and modification to the Company's share repurchase program to allow for the potential repurchase of up to 13.0 million Common Shares.

Other

During the six months ended June 30, 2013 and 2012, the Company incurred charges of \$0.1 million and \$5.5 million, respectively, related to property acquisition costs, such as survey, title and legal fees, on the acquisition of operating properties (excluding the Archstone transaction) and \$3.4 million and \$3.6 million, respectively, related to the write-off of various pursuit and out-of-pocket costs for terminated acquisition, disposition and development transactions. These costs, totaling \$3.5 million and \$9.1 million, respectively, are included in other expenses in the accompanying consolidated statements of operations. See Note 4 for details on the property acquisition costs related to the Archstone transaction.

During the six months ended June 30, 2012, the Company settled a dispute with the owners of a land parcel for \$4.2 million, which is included in other expenses in the accompanying consolidated statements of operations.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

For further information including definitions for capitalized terms not defined herein, refer to the consolidated financial statements and footnotes thereto included in the Company's and the Operating Partnership's Annual Report on Form 10-K for the year ended December 31, 2012.

Forward-Looking Statements

Forward-looking statements in this report are intended to be made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations, estimates, projections and assumptions made by management. While the Company's management believes the assumptions underlying its forward-looking statements are reasonable, such information is inherently subject to uncertainties and may involve certain risks, which could cause actual results, performance or achievements of the Company to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. Many of these uncertainties and risks are difficult to predict and beyond management's control. Forward-looking statements are not guarantees of future performance, results or events. The forward-looking statements contained herein are made as of the date hereof and the Company undertakes no obligation to update or supplement these forward-looking statements. Factors that might cause such differences include, but are not limited to the following:

We intend to actively acquire and/or develop multifamily properties for rental operations as market conditions dictate. We may also acquire multifamily properties that are unoccupied or in the early stages of lease up. We may be unable to lease up these apartment properties on schedule, resulting in decreases in expected rental revenues and/or lower yields due to lower occupancy and rates as well as higher than expected concessions. We may underestimate the costs necessary to bring an acquired property up to standards established for its intended market position or to complete a development property. Additionally, we expect that other real estate investors with capital will compete with us for attractive investment opportunities or may also develop properties in markets where we focus our development and acquisition efforts. This competition (or lack thereof) may increase (or depress) prices for multifamily properties. We may not be in a position or have the opportunity in the future to make suitable property acquisitions on favorable terms. We have acquired in the past and intend to continue to pursue the acquisition of properties and portfolios of properties, including large portfolios, that could increase our size and result in alterations to our capital structure. The total number of apartment units under development, costs of development and estimated completion dates are subject to uncertainties arising from changing economic conditions (such as the cost of labor and construction materials), competition and local government regulation;

Debt financing and other capital required by the Company may not be available or may only be available on adverse terms;

Labor and materials required for maintenance, repair, capital expenditure or development may be more expensive than anticipated;

Occupancy levels and market rents may be adversely affected by national and local economic and market conditions including, without limitation, new construction and excess inventory of multifamily and single family housing, increasing portions of single family housing stock being converted to rental use, rental housing subsidized by the government, other government programs that favor single family rental housing or owner occupied housing over multifamily rental housing, slow or negative employment growth and household formation, the availability of low-interest mortgages or the availability of mortgages requiring little or no down payment for single family home buyers, changes in social preferences and the potential for geopolitical instability, all of which are beyond the Company's control; and

Additional factors as discussed in Part I of the Company's and the Operating Partnership's Annual Report on Form 10-K, particularly those under "Item 1A. Risk Factors".

Forward-looking statements and related uncertainties are also included in the Notes to Consolidated Financial Statements in this report.

Overview

Equity Residential (“EQR”), a Maryland real estate investment trust (“REIT”) formed in March 1993, is an S&P 500 company focused on the acquisition, development and management of high quality apartment properties in top United States growth markets. ERP Operating Limited Partnership (“ERPOP”), an Illinois limited partnership, was formed in May 1993 to conduct the multifamily residential property business of Equity Residential. EQR has elected to be taxed as a REIT. References to the “Company,” “we,” “us” or “our” mean collectively EQR, ERPOP and those entities/subsidiaries owned or controlled by

Table of Contents

EQR and/or ERPOP. References to the “Operating Partnership” mean collectively ERPOP and those entities/subsidiaries owned or controlled by ERPOP.

EQR is the general partner of, and as of June 30, 2013 owned an approximate 96.2% ownership interest in, ERPOP. All of the Company’s property ownership, development and related business operations are conducted through the Operating Partnership and EQR has no material assets or liabilities other than its investment in ERPOP. EQR issues equity from time to time but does not have any indebtedness as all debt is incurred by the Operating Partnership. The Operating Partnership holds substantially all of the assets of the Company, including the Company’s ownership interests in its joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity.

The Company’s corporate headquarters are located in Chicago, Illinois and the Company also operates property management offices in each of its markets. As of June 30, 2013, the Company had approximately 3,700 employees who provided real estate operations, leasing, legal, financial, accounting, acquisition, disposition, development and other support functions.

Business Objectives and Operating and Investing Strategies

The Company invests in high quality apartment communities located in strategically targeted markets with the goal of maximizing our risk adjusted total return (operating income plus capital appreciation) on invested capital.

We seek to maximize the income and capital appreciation of our properties by investing in markets that are characterized by conditions favorable to multifamily property appreciation. We are focused primarily on the six core coastal, high barrier to entry markets of Boston, New York, Washington DC, Southern California (including Los Angeles, Orange County and San Diego), San Francisco and Seattle. These markets generally feature one or more of the following characteristics that allow us to increase rents:

High barriers to entry where, because of land scarcity or government regulation, it is difficult or costly to build new apartment properties, creating limits on new supply;

High home ownership costs;

Strong economic growth leading to job growth and household formation, which in turn leads to high demand for our apartments;

Urban core locations with an attractive quality of life and higher wage job categories leading to high resident demand and retention; and

Favorable demographics contributing to a larger pool of target residents with a high propensity to rent apartments.

Our operating focus is on balancing occupancy and rental rates to maximize our revenue while exercising tight cost control to generate the highest possible return to our shareholders. Revenue is maximized by attracting qualified prospects to our properties, cost-effectively converting these prospects into new residents and keeping our residents satisfied so they will renew their leases upon expiration. While we believe that it is our high-quality, well-located assets that bring our customers to us, it is the customer service and superior value provided by our on-site personnel that keeps them renting with us and recommending us to their friends.

We use technology to engage our customers in the way that they want to be engaged. Many of our residents utilize our web-based resident portal which allows them to sign their leases, review their accounts and make payments, provide feedback and make service requests on-line.

Acquisitions and developments may be financed from various sources of capital, which may include retained cash flow, issuance of additional equity and debt, sales of properties and joint venture agreements. In addition, the Company may acquire properties in transactions that include the issuance of limited partnership interests in the Operating Partnership (“OP Units”) as consideration for the acquired properties. Such transactions may, in certain circumstances, enable the sellers to defer, in whole or in part, the recognition of taxable income or gain that might otherwise result from the sales. The Company may acquire land parcels to hold and/or sell based on market opportunities. The Company may also seek to acquire properties by purchasing defaulted or distressed debt that encumbers desirable properties in the hope of obtaining title to property through foreclosure or deed-in-lieu of foreclosure proceedings. The Company has also, in the past, converted some of its properties and sold them as condominiums but is not currently active in this line of business.

Over the past several years, the Company has done an extensive repositioning of its portfolio from low barrier to entry/non-core markets to high barrier to entry/core markets. Since 2005, the Company has sold over 157,000 apartment units primarily in its non-core markets for an aggregate sales price of approximately \$14.8 billion, acquired over 66,000 apartment units primarily in its core markets for approximately \$19.1 billion and began approximately \$3.4 billion of development projects primarily in its

Table of Contents

core markets. We are currently seeking to acquire and develop assets primarily in the following six core coastal metropolitan areas: Boston, New York, Washington DC, Southern California, San Francisco and Seattle. We also have investments (in the aggregate about 11.2% of our NOI at June 30, 2013) in the two core markets of South Florida and Denver but do not currently intend to acquire or develop new assets in these markets. Further, we are in the process of exiting Atlanta, Phoenix, Orlando and Tacoma, WA and will use sales proceeds from these markets to complete tax deferred exchanges, reduce debt assumed in conjunction with the Archstone transaction and for other corporate purposes.

As part of its strategy, the Company purchases completed and fully occupied apartment properties, partially completed or partially occupied properties or land on which apartment properties can be constructed. We intend to hold a diversified portfolio of assets across our target markets. As of June 30, 2013, no single market/metropolitan area accounted for more than 19.4% of our NOI, though no guarantee can be made that NOI concentration may not increase in the future.

We endeavor to attract and retain the best employees by providing them with the education, resources and opportunities to succeed. We provide many classroom and on-line training courses to assist our employees in interacting with prospects and residents as well as extensively train our customer service specialists in maintaining the property and its improvements, equipment and appliances. We actively promote from within and many senior corporate and property leaders have risen from entry level or junior positions. We monitor our employees' engagement by surveying them annually and have consistently received high engagement scores.

We have a commitment to sustainability and consider the environmental impacts of our business activities. We have a dedicated in-house team that initiates and applies sustainable practices in all aspects of our business, including investment activities, development, property operations and property management activities. With its high density, multifamily housing is, by its nature, an environmentally friendly property type. Our recent acquisition and development activities have been primarily concentrated in pedestrian-friendly urban locations near public transportation. When developing and renovating our properties, we strive to reduce energy and water usage by investing in energy saving technology while positively impacting the experience of our residents and the value of our assets. We continue to implement a combination of irrigation, lighting, HVAC and renewable energy improvements at our properties that will reduce energy and water consumption.

Current Environment

On February 27, 2013, the Company, AvalonBay Communities, Inc. ("AVB") and certain of their respective subsidiaries completed their previously-announced acquisition (the "Archstone Acquisition") from Archstone Enterprise LP ("Enterprise") (which subsequently changed its name to Jupiter Enterprise LP) and its affiliates, of all of the assets and liabilities of Enterprise (including interests in various entities affiliated with Enterprise), constituting a portfolio of apartment properties and other assets (the "Archstone Portfolio"). As a result of the Archstone Acquisition, the Company owns assets representing approximately 60% of the Archstone Portfolio. The consideration paid by the Company in connection with the Archstone Acquisition consisted of cash in the amount of approximately \$4.0 billion (inclusive of \$2.0 billion of Archstone secured mortgage principal paid off in conjunction with the closing), 34,468,085 Common Shares (which shares had a total value of \$1.9 billion based on the acquisition date closing price of EQR's Common Shares of \$55.99 per share) and the assumption of \$3.1 billion of mortgage debt (inclusive of a net mark-to-market premium of \$127.9 million) and approximately 60% of all of the other assets and liabilities related to the Archstone Portfolio.

During the six months ended June 30, 2013, the Company acquired 73 consolidated properties consisting of 20,914 apartment units, one unconsolidated property consisting of 336 apartment units, three consolidated master-leased properties consisting of 853 apartment units, four projects in various stages of development (two consolidated and two unconsolidated) and 15 land parcels for \$9.1 billion. The majority of these properties and land parcels were acquired in conjunction with the Archstone transaction and the Company has substantially completed the integration of these properties and their operations. We believe our access to capital, our ability to execute large, complex transactions and our ability to efficiently stabilize large scale lease up properties provide us with a competitive advantage, which was

demonstrated in the Archstone transaction.

The Company started construction on two projects representing 332 apartment units totaling approximately \$132.2 million of development costs during the six months ended June 30, 2013. The Company currently has the potential to begin construction on up to \$800.0 million of new developments in 2013 in addition to the \$132.2 million already started.

The Company continues to sell non-core assets and reduce its exposure to non-core markets as we believe these assets will have lower long-term returns and we can sell them for prices that we believe are favorable. The Archstone transaction provided an opportunity to accelerate this strategy and do so efficiently through the use of Section 1031 tax deferred exchanges. The Company sold 82 consolidated properties consisting of 24,197 apartment units, five land parcels and one commercial building for \$3.8 billion during the six months ended June 30, 2013. These dispositions combined with reinvestment of the cash proceeds in assets with lower cap rates (see definition below) were dilutive to our per share results. The Company defines dilution from

47

Table of Contents

transactions as the lost NOI from sales proceeds that were not reinvested in other apartment properties or were reinvested in properties with a lower cap rate. The Company anticipates consolidated dispositions of approximately \$4.1 billion during the year ending December 31, 2013, most of which occurred in the first half of 2013. The Company funded a portion of the cash purchase price of the Archstone transaction with capital raised through these significant dispositions of assets and the Company expects to use future disposition proceeds to pay down debt and for other corporate purposes. While this accelerated disposition program is dilutive to our per share results, it also significantly mitigated the execution risk on the Archstone transaction.

As a result of the Archstone transaction and the property sales to help finance the transaction, the Company's portfolio has changed significantly from the portfolio summary included in the Company's annual report on Form 10-K. The following table sets forth certain information by market relating to the Company's properties at June 30, 2013 as compared to December 31, 2012:

Markets/Metro Areas	Portfolio Summary as of December 31, 2012				Portfolio Summary as of June 30, 2013

(1)

Edgar Filing: EQUITY RESIDENTIAL - Form 10-Q

% of Stabilized NOI includes budgeted 2013 NOI for stabilized properties, budgeted year one (March 2013 to February 2014) NOI for the Archstone properties and projected annual NOI at stabilization (defined as having achieved 90% occupancy for three consecutive months) for properties that are in lease-up.

- (2) Average rental rate is defined as total rental revenues divided by the weighted average occupied apartment units for the last month of the period presented.

We currently have access to multiple sources of capital including the equity markets as well as both the secured and unsecured debt markets. In April 2013, the Company completed a \$500.0 million unsecured ten year note offering with a coupon

Table of Contents

of 3.00% and an all-in effective interest rate of approximately 4.0%. In February 2013, the Company issued 34,468,085 Common Shares with a value of \$1.9 billion based on the February 27, 2013 closing price of EQR Common Shares of \$55.99 per share to an affiliate of Lehman Brothers Holdings Inc. as partial consideration for the acquisition of the Archstone Portfolio. In December 2012, the Company raised \$1.2 billion in equity in a public offering of 21,850,000 Common Shares priced at \$54.75 per share. We also raised \$192.3 million under our ATM program in 2012. On January 11, 2013, the Company replaced its existing \$1.75 billion credit facility with a \$2.5 billion unsecured revolving credit facility maturing April 1, 2018. The Company believes that the new facility contains a diversified and strong bank group which increases its balance sheet flexibility going forward. On January 11, 2013, the Company also entered into a senior unsecured \$750.0 million delayed draw term loan facility which was fully drawn on February 27, 2013 in connection with the Archstone acquisition.

We believe that cash and cash equivalents, securities readily convertible to cash, current availability on our revolving credit facility and disposition proceeds for 2013 will provide sufficient liquidity to meet our funding obligations relating to asset acquisitions, debt maturities and existing development projects through 2013. We expect that our remaining longer-term funding requirements will be met through some combination of new borrowings, equity issuances, property dispositions, joint ventures and cash generated from operations.

There is significant uncertainty surrounding the futures of Fannie Mae and Freddie Mac (the "Government Sponsored Enterprises" or "GSEs"). Through their lender originator networks, the GSEs are significant lenders both to the Company and to buyers of the Company's properties. The GSEs have a mandate to support multifamily housing through their financing activities. Any changes to their mandates, further reductions in their size or the scale of their activities or loss of key personnel could have a significant impact on the Company and may, among other things, lead to lower values for our assets and higher interest rates on our borrowings. Recently, the regulator of the GSEs required the GSEs to decrease their 2013 multifamily lending activities by 10% compared to 2012 levels. We expect the majority of the reduction in GSE lending activity to occur in the second half of 2013, which may pressure loan rates further and lead to less debt capital availability. The GSEs have also increased their credit spreads, which coupled with increases in long-term treasury rates, has caused a substantial increase in borrowing costs. By selling the assets required to pay for Archstone in the first half of 2013, the Company substantially mitigated the risk that changes in GSE activity would impact its Archstone-related disposition program. Reductions in GSE activity or increases in GSE loan pricing may also provide a competitive advantage to us by making the cost of financing multifamily properties more expensive for other multifamily owners while the Company continues to have access to cheaper capital in the public and private debt and equity markets. Over time, we expect that other lenders, including the commercial mortgage-backed securities market and life insurance companies, will become larger sources of debt capital to the multifamily market because multifamily properties are attractive to lenders due to their relatively stable cash flows.

We expect continued growth in 2013 same store revenue (anticipated increase ranging from 4.4% to 4.6%) and 2013 NOI (anticipated increase ranging from 5.0% to 5.25%) and are optimistic that the strength in fundamentals realized in the past several years and so far in 2013 will be sustained for the foreseeable future. We believe the key drivers behind the anticipated increase in revenue are base rent pricing for new residents, renewal pricing for existing residents, resident turnover and physical occupancy. During the peak leasing season, we achieved base rent increases averaging 3% - 4% while renewal rates remained strong, increasing approximately 5.5%. Occupancy for the second quarter improved as a result of healthy demand across all markets and reduced resident turnover. Move outs to buy homes increased modestly in the second quarter over the prior year period with this increase concentrated in Washington D.C., Seattle and Boston.

Our largest market, Washington D.C., continues to show signs of stress as new supply and the impact of sequestration and furloughs have dampened the metro area economy. However, there continues to be healthy demand for apartments in Washington D.C. even in the face of declining government payrolls and procurement. As the supply peaks in 2014, we would expect our Washington D.C. results to be weaker than they are today. Despite slow growth in the overall

economy and the issues noted in Washington D.C., our business continues to perform well because of the combined forces of demographics, household formations and the continued moderation in overall home ownership levels, all of which should ensure a continued strong demand for rental housing.

The Company anticipates that 2013 same store expenses will increase 3.0% to 3.5% primarily due to increases in real estate taxes, which are expected to increase in excess of 7.0% in 2013. This is primarily due to rate and value increases in certain states and municipalities, reflecting those states' and municipalities' continued economic challenges and the dramatic improvement in apartment values and fundamentals. The other key driver of this increase is the burn off of 421a tax abatements in New York City. Expense growth in the core property level expenses (excluding real estate taxes and utilities) continues to be modest as the Company leverages technology to lower costs, which should partially offset the increase in real estate taxes and utilities.

We believe that the Company is well-positioned as of June 30, 2013 because our properties are geographically diverse, were approximately 94.9% occupied (95.9% on a same store basis) and the long-term demographic picture is positive. Certain

Table of Contents

market areas, especially the NOMA area of Washington D.C., downtown Seattle and the San Jose sub-market area of San Francisco, will see substantial near term multifamily supply yet total new supply levels for our core markets remain within historical ranges. We believe over the longer term that our core markets will absorb future supply without material marketwide disruption because of the high occupancy levels we currently experience and increasing household formations. We have seen evidence of this in Seattle and San Jose as supply has been easily absorbed and rental rates continue to grow. We believe our strong balance sheet and ample liquidity will allow us to fund our debt maturities and development costs in the near term, and should also allow us to take advantage of investment opportunities in the future.

The current environment information presented above is based on current expectations and is forward-looking.

Results of Operations

In conjunction with our business objectives and operating strategy, the Company continued to invest in apartment properties located in strategically targeted markets during the six months ended June 30, 2013 as follows:

Acquired \$8.5 billion of apartment properties consisting of 73 consolidated properties and 20,914 apartment units (inclusive of eight long-term ground leases) at a weighted average cap rate (see definition below) of 4.9% and 14 consolidated land parcels for \$255.9 million, all of which we deem to be in our strategic targeted markets;

Acquired three consolidated master-leased properties consisting of 853 apartment units (inclusive of one long-term ground lease) for \$250.8 million at a weighted average cap rate of 5.6%;

Acquired two consolidated uncompleted developments for \$36.6 million;

Acquired one unconsolidated apartment property consisting of 336 apartment units for \$5.1 million at a weighted average cap rate of 5.8% and one unconsolidated land parcel for \$4.1 million;

Acquired two unconsolidated uncompleted developments for \$14.9 million;

Sold \$3.7 billion of consolidated apartment properties consisting of 82 properties and 24,197 apartment units at a weighted average cap rate of 6.0% generating an unlevered internal rate of return (IRR), inclusive of management costs, of 9.7% (excluding the sale of two Archstone assets), the majority of which were in exit or less desirable markets; and

Sold five consolidated land parcels and one consolidated commercial building for \$90.5 million.

The Company's primary financial measure for evaluating each of its apartment communities is net operating income ("NOI"). NOI represents rental income less property and maintenance expense, real estate tax and insurance expense and property management expense. The Company believes that NOI is helpful to investors as a supplemental measure of its operating performance because it is a direct measure of the actual operating results of the Company's apartment communities. The cap rate is generally the first year NOI yield (net of replacements) on the Company's investment.

Properties that the Company owned and were stabilized (see definition below) for all of both of the six months ended June 30, 2013 and 2012 (the "Six-Month 2013 Same Store Properties"), which represented 84,965 apartment units, and properties that the Company owned and were stabilized for all of both of the quarters ended June 30, 2013 and 2012 (the "Second Quarter 2013 Same Store Properties"), which represented 85,509 apartment units, impacted the Company's results of operations. Both the Six-Month 2013 Same Store Properties and the Second Quarter 2013 Same Store Properties are discussed in the following paragraphs.

The following tables provide a rollforward of the apartment units included in Same Store Properties and a reconciliation of apartment units included in Same Store Properties to those included in Total Properties for the six months and quarter ended June 30, 2013:

Table of Contents

	Six Months Ended June 30, 2013		Quarter Ended June 30, 2013	
	Properties	Apartment Units	Properties	Apartment Units

Total Properties and Apartment Units	398	113,388	398	113,388

Note: Properties are considered "stabilized" when they have achieved 90% occupancy for three consecutive months. Properties are included in Same Store when they are stabilized for all of the current and comparable periods presented.

(1) Includes two properties containing 1,272 apartment units acquired on February 27, 2013 in conjunction with the acquisition of Archstone that were subsequently sold in 2013 and two properties containing 360 apartment units in lease-up properties that were sold in 2013.

(2) Includes properties in various stages of lease-up and properties where lease-up has been completed but the properties were not stabilized for the comparable periods presented.

The Company's acquisition, disposition and completed development activities also impacted overall results of operations for the six months and quarters ended June 30, 2013 and 2012. The impacts of these activities are discussed in greater detail in the following paragraphs.

Comparison of the six months ended June 30, 2013 to the six months ended June 30, 2012

For the six months ended June 30, 2013, the Company reported diluted earnings per share of \$3.84 compared to \$0.81 per share in the same period of 2012. The difference is due primarily to higher gains from property sales in 2013 vs. 2012 and higher total property net operating income driven by the positive impact of the Company's same store and stabilized Archstone properties, partially offset by \$72.6 million of merger-related expenses incurred in connection with the acquisition of the Archstone Portfolio, \$71.4 million in prepayment penalties incurred in connection with early debt extinguishment of existing mortgage notes payable to manage the Company's post Archstone 2017 maturities profile, higher depreciation as a direct result of the Archstone transaction and the issuance of Common Shares to the public in December 2012 and to an affiliate of Lehman Brothers Holdings Inc. in February 2013 as partial consideration for the acquisition of Archstone.

Table of Contents

For the six months ended June 30, 2013, loss from continuing operations increased approximately \$191.6 million when compared to the six months ended June 30, 2012. The decrease in continuing operations is discussed below.

Revenues from the Six-Month 2013 Same Store Properties increased \$42.8 million primarily as a result of an increase in average rental rates charged to residents and slightly higher occupancy. Expenses from the Six-Month 2013 Same Store Properties increased \$10.3 million primarily due to increases in real estate taxes, utilities and repairs and maintenance costs, partially offset by lower property management costs. The following tables provide comparative same store results and statistics for the Six-Month 2013 Same Store Properties:

June YTD 2013 vs. June YTD 2012

Same Store Results/Statistics for 84,965 Same Store Apartment Units

\$ in thousands (except for Average Rental Rate)

Description	Results			Statistics			Turnover

(1)

Edgar Filing: EQUITY RESIDENTIAL - Form 10-Q

On-site payroll – Includes payroll and related expenses for on-site personnel including property managers, leasing consultants and maintenance staff.

- (2) Utilities – Represents gross expenses prior to any recoveries under the Resident Utility Billing System (“RUBS”). Recoveries are reflected in rental income.

- Repairs and maintenance – Includes general maintenance costs, apartment unit turnover costs including interior painting, routine landscaping, security, exterminating, fire protection, snow removal, elevator, roof and parking lot repairs and other miscellaneous building repair costs.

- (3) Property management costs – Includes payroll and related expenses for departments, or portions of departments, that directly support on-site management. These include such departments as regional and corporate property management, property accounting, human

Table of Contents

resources, training, marketing and revenue management, procurement, real estate tax, property legal services and information technology.

(5) Other on-site operating expenses – Includes ground lease costs and administrative costs such as office supplies, telephone and data charges and association and business licensing fees.

The following table presents a reconciliation of operating income per the consolidated statements of operations to NOI for the Six-Month 2013 Same Store Properties:

	Six Months Ended June 30,	
	2013	2012
	(Amounts in thousands)	
Operating income	\$ 182,281	\$ 237,412
Adjustments:		
Non-same store operating results	(152,003) 5,110
Fee and asset management revenue	(4,833) (4,276
Fee and asset management expense	3,223	2,487
Depreciation	528,328	289,273
General and administrative	32,582	27,079
Same store NOI	\$ 589,578	\$ 557,085

For properties that the Company acquired prior to January 1, 2012 and expects to continue to own through December 31, 2013 (which is computed based on the portfolio of approximately 80,000 apartment units that the Company expects to have in its annual same store set after the completion of its planned 2013 dispositions), the Company anticipates the following same store results for the full year ending December 31, 2013:

2013 Same Store Assumptions

Physical occupancy	95.3%
Revenue change	4.4% to 4.6%
Expense change	3.0% to 3.5%
NOI change	5.0% to 5.25%

The Company anticipates consolidated rental acquisitions of \$100.0 million (exclusive of the Archstone Acquisition) and consolidated rental dispositions of \$4.1 billion and expects that acquisitions will have a 1.10% lower cap rate than dispositions for the full year ending December 31, 2013.

These 2013 assumptions are based on current expectations and are forward-looking.

Non-same store operating results increased approximately \$157.1 million and consist primarily of properties acquired in calendar years 2012 and 2013, as well as operations from the Company's completed development properties.

Although the operations of both the non-same store assets and the same store assets have been positively impacted during the six months ended June 30, 2013, the non-same store assets have contributed a greater percentage of total NOI to the Company's overall operating results primarily due to 2012 and 2013 acquisitions, increasing occupancy for properties in lease-up and a longer ownership period in 2013 than 2012. This increase primarily resulted from:

Development and other miscellaneous properties in lease-up of \$2.4 million;

Operating properties acquired in 2013 as part of the Archstone transaction of \$137.3 million;

Other properties acquired in 2012 and 2013 of \$18.2 million;

Newly stabilized development and other miscellaneous properties of \$3.7 million; and

Partially offset by an allocation of property management costs not included in same store results and operating activities from other miscellaneous operations.

See also Note 13 in the Notes to Consolidated Financial Statements for additional discussion regarding the Company's segment disclosures.

Table of Contents

Fee and asset management revenues, net of fee and asset management expenses, decreased approximately \$0.2 million or 10.0% as a result of higher expenses, partially offset by fees earned on management of the Company's unconsolidated development joint ventures and revenue earned on management of the Company's military housing ventures at Fort Lewis and McChord Air Force base.

Property management expenses from continuing operations include off-site expenses associated with the self-management of the Company's properties as well as management fees paid to any third party management companies. These expenses increased approximately \$0.2 million or 0.6%. This increase is primarily attributable to an increase in payroll-related costs and an increase in computer operations due to the modernization of employee technology, partially offset by the timing of education/conference expenses.

Depreciation expense from continuing operations, which includes depreciation on non-real estate assets, increased approximately \$239.1 million or 82.6% primarily as a result of additional depreciation expense on properties acquired in 2012 and 2013 (including the Archstone properties), development properties placed in service and capital expenditures for all properties owned. In-place residential lease intangibles are generally amortized over a six month period and can significantly elevate depreciation expense following an acquisition, especially during 2013 as a direct result of the Archstone Acquisition.

General and administrative expenses from continuing operations, which include corporate operating expenses, increased approximately \$5.5 million or 20.3% primarily due to an increase in payroll-related costs, which is largely a result of higher and accelerated long-term compensation expense for retirement eligible employees. The Company anticipates that general and administrative expenses will approximate \$57.0 million to \$58.0 million for the year ending December 31, 2013. The above assumption is based on current expectations and is forward-looking.

Interest and other income from continuing operations increased \$0.1 million or 18.0% due to various items, including higher distributions from certain investments. The Company anticipates that interest and other income will approximate \$0.8 million to \$1.0 million for the year ending December 31, 2013. The above assumption is based on current expectations and is forward-looking.

Other expenses from continuing operations decreased approximately \$11.1 million or 75.7% primarily due to the settlement of a dispute with the owners of a land parcel during the six months ended June 30, 2012 that did not reoccur in 2013 and lower property acquisition costs as the Company focused on its pursuit of the Archstone Acquisition.

Merger expenses from continuing operations, which includes direct costs incurred from the Archstone Acquisition such as investment banking and legal/accounting costs, increased approximately \$17.7 million as a result of the closing of the Archstone Acquisition during the six months ended June 30, 2013.

Interest expense from continuing operations, including amortization of deferred financing costs, increased approximately \$89.5 million or 37.4% primarily as a result of \$71.4 million of prepayment penalties incurred on early debt extinguishments as well as write-offs of unamortized deferred financing costs and premiums/discounts of existing mortgage notes payable to manage the Company's post Archstone 2017 maturities profile, interest expense on two loan pools assumed in conjunction with the Archstone Acquisition and \$500.0 million of unsecured notes that closed in April 2013, partially offset by higher capitalized interest in 2013 and the repayment of \$253.9 million of 6.625% unsecured notes in March 2012, \$221.1 million of 5.500% unsecured notes in October 2012, a \$543.0 million mortgage pool in March 2013 and \$400.0 million of 5.200% unsecured notes in April 2013. During the six months ended June 30, 2013, the Company capitalized interest costs of approximately \$20.0 million as compared to \$10.1 million for the six months ended June 30, 2012. This capitalization of interest primarily relates to consolidated projects under development. The effective interest cost on all indebtedness for the six months ended June 30, 2013 was 5.03% (excluding prepayment penalties) as compared to 5.29% for the six months ended June 30, 2012. The Company anticipates that interest expense from continuing operations will approximate \$482.2 million to \$490.7 million (excluding debt extinguishment costs) for the year ending December 31, 2013. The above assumption is based on current expectations and is forward-looking.

Income and other tax expense from continuing operations increased approximately \$0.5 million primarily due to increases in taxes related to land parcel sales owned by the Company's TRS. The Company anticipates that income and other tax expense will approximate \$2.9 million to \$3.1 million for the year ending December 31, 2013. The

above assumption is based on current expectations and is forward-looking.

Loss from investments in unconsolidated entities due to operations increased as a result of the unconsolidated joint ventures acquired as part of the Archstone transaction.

Loss from investments in unconsolidated entities due to merger expenses, which includes indirect costs incurred from the Archstone acquisition through the Company's joint ventures with AVB such as severance and retention bonuses, increased

Table of Contents

primarily as a result of severance obligations and retention bonuses in connection with the acquisition of Archstone through our 60% interest in an unconsolidated joint venture.

Net gain on sales of land parcels increased approximately \$14.6 million due to the gain on sale of five land parcels during the six months ended June 30, 2013 as compared to no land sales during the six months ended June 30, 2012. Discontinued operations, net increased approximately \$1.3 billion between the periods under comparison. This increase is primarily due to higher gains on sales from dispositions during the six months ended June 30, 2013 compared to the same period in 2012, partially offset by properties sold in 2013 that reflect operations for a partial period in 2013 in contrast to a full period in 2012. See Note 11 in the Notes to Consolidated Financial Statements for further discussion.

Comparison of the quarter ended June 30, 2013 to the quarter ended June 30, 2012

For the quarter ended June 30, 2013, the Company reported diluted earnings per share of \$0.90 compared to \$0.33 per share in the same period of 2012. The difference is due primarily to higher gains from property sales in the second quarter of 2013 vs. the second quarter of 2012 and higher total property net operating income driven by the positive impact of the Company's same store and stabilized Archstone properties, partially offset by \$7.5 million of merger-related expenses incurred in connection with the Archstone Acquisition, interest expense on two loan pools assumed in conjunction with the Archstone Acquisition and \$500.0 million of unsecured notes that closed in April 2013, higher depreciation as a direct result of the Archstone Acquisition and the issuance of Common Shares to the public in December 2012 and to an affiliate of Lehman Brothers Holdings Inc. in February 2013 as partial consideration for the Archstone Acquisition.

For the quarter ended June 30, 2013, loss from continuing operations increased approximately \$51.9 million when compared to the quarter ended June 30, 2012. The decrease in continuing operations is discussed below.

Revenues from the Second Quarter 2013 Same Store Properties increased \$21.5 million primarily as a result of an increase in average rental rates charged to residents, slightly higher occupancy and a decrease in turnover. Expenses from the Second Quarter 2013 Same Store Properties increased \$5.5 million primarily due to increases in real estate taxes and utilities. The following tables provide comparative same store results and statistics for the Second Quarter 2013 Same Store Properties:

Second Quarter 2013 vs. Second Quarter 2012

Depreciation	327,985	145,438
General and administrative	16,086	13,391
Same store NOI	\$302,726	\$286,735

Non-same store operating results increased approximately \$111.7 million and consist primarily of properties acquired in calendar years 2012 and 2013, as well as operations from the Company’s completed development properties.

Although the operations of both the non-same store assets and the same store assets have been positively impacted during the quarter ended June 30, 2013, the non-same store assets have contributed a greater percentage of total NOI to the Company's overall operating results primarily due to 2012 and 2013 acquisitions, increasing occupancy for properties in lease-up and a longer ownership period in 2013 than 2012. This increase primarily resulted from:

Table of Contents

Development and other miscellaneous properties in lease-up of \$1.6 million;
Operating properties acquired in 2013 as part of the Archstone transaction of \$103.1 million;
Other properties acquired in 2012 and 2013 of \$7.3 million;
Newly stabilized development and other miscellaneous properties of \$1.5 million; and
Partially offset by an allocation of property management costs not included in same store results and operating activities from other miscellaneous operations.

See also Note 13 in the Notes to Consolidated Financial Statements for additional discussion regarding the Company's segment disclosures.

Fee and asset management revenues, net of fee and asset management expenses, increased approximately \$0.1 million or 6.2% primarily due to fees earned on management of the Company's unconsolidated development joint ventures and revenue earned on management of the Company's military housing ventures at Fort Lewis and McChord Air Force base, partially offset by higher expenses.

Property management expenses from continuing operations include off-site expenses associated with the self-management of the Company's properties as well as management fees paid to any third party management companies. These expenses increased approximately \$1.1 million or 5.2%. This increase is primarily attributable to an increase in payroll-related costs, partially offset by the timing of education/conference expenses.

Depreciation expense from continuing operations, which includes depreciation on non-real estate assets, increased approximately \$182.5 million primarily as a result of additional depreciation expense on properties acquired in 2012 and 2013 (including the Archstone properties), development properties placed in service and capital expenditures for all properties owned. In-place residential lease intangibles are generally amortized over a six month period and can significantly elevate depreciation expense following an acquisition, especially during 2013 as a direct result of the Archstone Acquisition.

General and administrative expenses from continuing operations, which include corporate operating expenses, increased approximately \$2.7 million or 20.1% primarily due to an increase in payroll-related costs, which is largely a result of higher and accelerated long-term compensation expense for retirement eligible employees.

Interest and other income from continuing operations was consistent between the periods under comparison.

Other expenses from continuing operations decreased approximately \$7.8 million or 88.9% primarily due to a decrease in the expensing of overhead (pursuit cost write-offs) and lower property acquisition costs as the Company focused on its pursuit of the Archstone Acquisition.

Merger expenses from continuing operations, which includes direct costs incurred from the Archstone acquisition such as investment banking and legal/accounting costs, decreased approximately \$0.2 million or 31.8% as a result of the completion and closing of the Archstone acquisition prior to the current period.

Interest expense from continuing operations, including amortization of deferred financing costs, increased approximately \$8.7 million or 7.3% primarily as a result of interest expense on two loan pools assumed in conjunction with the Archstone Acquisition and \$500.0 million of unsecured notes that closed in April 2013, partially offset by higher capitalized interest in 2013 and the repayment of \$221.1 million of 5.500% unsecured notes in October 2012, a \$543.0 million mortgage pool in March 2013 and \$400.0 million of 5.200% unsecured notes in April 2013. During the quarter ended June 30, 2013, the Company capitalized interest costs of approximately \$11.6 million as compared to \$5.1 million for the quarter ended June 30, 2012. This capitalization of interest primarily relates to consolidated projects under development. The effective interest cost on all indebtedness for the quarter ended June 30,

2013 was 4.65% as compared to 5.33% for the quarter ended June 30, 2012.

Income and other tax expense from continuing operations increased approximately \$0.2 million primarily due to increases in all other taxes.

Loss from investments in unconsolidated entities due to operations increased as a result of the unconsolidated joint ventures acquired as part of the Archstone transaction.

Loss from investments in unconsolidated entities due to merger expenses, which includes indirect costs incurred from the Archstone Acquisition through the Company's joint ventures with AVB such as severance and retention bonuses, increased primarily as a result of severance obligations and retention bonuses in connection with the Archstone Acquisition through our 60% interest in an unconsolidated joint venture.

Table of Contents

Net gain on sales of land parcels increased approximately \$14.6 million due to the gain on sale of five land parcels during the quarter ended June 30, 2013 as compared to no land sales during the quarter ended June 30, 2012.

Discontinued operations, net increased approximately \$280.3 million between the periods under comparison. This increase is primarily due to higher gains on sales from dispositions during the quarter ended June 30, 2013 compared to the same period in 2012, partially offset by properties sold in 2013 that reflect operations for a partial period in 2013 in contrast to a full period in 2012. See Note 11 in the Notes to Consolidated Financial Statements for further discussion.

Liquidity and Capital Resources

EQR issues public equity from time to time and guarantees certain debt of ERPOP. EQR does not have any indebtedness as all debt is incurred by the Operating Partnership.

As of January 1, 2013, the Company had approximately \$612.6 million of cash and cash equivalents, its restricted 1031 exchange proceeds totaled \$152.2 million and it had \$1.72 billion available under its revolving credit facility (net of \$30.2 million which was restricted/dedicated to support letters of credit). After taking into effect the various transactions discussed in the following paragraphs and the net cash provided by operating activities, the Company's cash and cash equivalents balance at June 30, 2013 was approximately \$152.6 million, its restricted 1031 exchange proceeds totaled \$82.0 million and the amount available on its revolving credit facility was \$2.47 billion (net of \$33.3 million which was restricted/dedicated to support letters of credit).

During the six months ended June 30, 2013, the Company generated proceeds from various transactions, which included the following:

Disposed of 82 consolidated properties, one commercial building and five land parcels, receiving net proceeds of approximately \$3.8 billion;

Obtained \$750.0 million of proceeds from its senior unsecured delayed draw term loan facility that was drawn upon in connection with the Archstone Acquisition;

Issued \$500.0 million of ten-year 3.00% fixed rate public notes, receiving net proceeds of \$495.6 million before underwriting fees and other expenses, at an all-in effective interest rate of 3.998%; and

Issued approximately 0.5 million Common Shares and received net proceeds of \$16.2 million, which were contributed to the capital of the Operating Partnership in exchange for additional OP Units (on a one-for-one Common Share per OP Unit basis).

During the six months ended June 30, 2013, the above proceeds were primarily utilized to:

Acquire the Archstone Portfolio for approximately \$4.0 billion in cash (see Note 4 for details of the transaction);

Acquire one additional rental property and one additional land parcel for approximately \$108.3 million;

Invest \$154.6 million primarily in development projects; and

Repay \$704.2 million of mortgage loans and \$400.0 million of unsecured notes.

On February 27, 2013, the Company issued 34,468,085 Common Shares to an affiliate of Lehman Brothers Holdings Inc. as partial consideration for the portion of the Archstone Portfolio acquired by the Company. The shares had a total value of \$1.9 billion based on the February 27, 2013 closing price of EQR Common Shares of \$55.99 per share. Concurrent with this transaction, ERPOP issued 34,468,085 OP Units to EQR. On March 7, 2013, EQR filed a shelf registration statement relating to the resale of these shares by the selling shareholders.

On November 28, 2012, as a partial source of funding for the Archstone Acquisition, EQR priced the issuance of 21,850,000 Common Shares at a price of \$54.75 per share for total consideration of approximately \$1.2 billion, after deducting underwriting commissions of \$35.9 million. Concurrent with this transaction, ERPOP issued 21,850,000 OP Units to EQR.

In September 2009, EQR announced the establishment of an At-The-Market (“ATM”) share offering program which would allow EQR to sell up to 17.0 million Common Shares from time to time over the next three years (later increased by 5.7 million Common Shares and extended to February 2014) into the existing trading market at current market prices as well as through negotiated transactions. Per the terms of ERPOP’s partnership agreement, EQR contributes the net proceeds from all equity offerings to the capital of ERPOP in exchange for additional OP Units (on a one-for-one Common Share per OP Unit basis). EQR may, but shall have no obligation to, sell Common Shares through the ATM share offering program in amounts and at times to be determined by EQR. Actual sales will depend on a variety of factors to be determined by EQR from time to time, including (among others) market conditions, the trading price of EQR’s Common Shares and determinations of the appropriate sources of funding for EQR. EQR has not issued any shares under this program since September 14, 2012. Through August 2, 2013, EQR has cumulatively

Table of Contents

issued approximately 16.7 million Common Shares at an average price of \$48.53 per share for total consideration of approximately \$809.9 million. On July 30, 2013, the Company filed a new universal shelf registration statement to ultimately replace its existing universal shelf registration statement, which expires later this year. The Board of Trustees also approved an increase to the amount of shares which be may offered under the ATM program to 13.0 million Common Shares and extended the program maturity to July 2016. See Note 14 for further discussion.

EQR has a share repurchase program authorized by the Board of Trustees under which it had authorization to repurchase up to \$464.6 million of its shares as of June 30, 2013. No shares were repurchased during the six months ended June 30, 2013 or at any time for open market repurchases since 2008. The Board of Trustees also approved an increase and modification to the Company's share repurchase program to allow for the potential repurchase of up to 13.0 million shares. See Note 14 for further discussion.

Depending on its analysis of prevailing market conditions, liquidity requirements, contractual restrictions and other factors, the Company may from time to time seek to repurchase and retire its outstanding debt in open market or privately negotiated transactions.

The Company's total debt summary and debt maturity schedules as of June 30, 2013 are as follows:

Debt Summary as of June 30, 2013

(1) Facilities are private. All other unsecured debt is public.

On January 11, 2013, the Company entered into a senior unsecured \$750.0 million delayed draw term loan facility which was fully drawn on February 27, 2013 in connection with the Archstone Acquisition. The maturity date of

(2) January 11, 2015 is subject to a one-year extension option exercisable by the Company. The interest rate on advances under the term loan facility will generally be LIBOR plus a spread (currently 1.20%), which is dependent on the credit rating of the Company's long-term debt.

On January 11, 2013, the Company replaced its existing \$1.75 billion facility with a \$2.5 billion unsecured revolving credit facility maturing April 1, 2018. The interest rate on advances under the new credit facility will generally be LIBOR plus a spread (currently 1.05%) and an annual facility fee (currently 15 basis

(3) points). Both the spread and the facility fee are dependent on the credit rating of the Company's long-term debt. As of June 30, 2013, there was approximately \$2.47 billion available on the Company's unsecured revolving credit facility.

An unlimited amount of equity and debt securities remains available for issuance by EQR and ERPOP under a universal shelf registration statement that automatically became effective upon filing with the SEC on July 30, 2013 and expires on July 30, 2016. The Board of Trustees also approved an increase to the amount of shares which may be offered under the ATM program to 13.0 million Common Shares and extended the program maturity to July 2016. Per the terms of ERPOP's partnership agreement, EQR contributes the net proceeds of all equity offerings to the capital of ERPOP in exchange for additional OP Units (on a one-for-one Common Share per OP Unit basis) or preference units (on a one-for-one preferred share per preference unit basis).

The Company's "Consolidated Debt-to-Total Market Capitalization Ratio" as of June 30, 2013 is presented in the following table. The Company calculates the equity component of its market capitalization as the sum of (i) the total outstanding Common Shares and assumed conversion of all Units at the equivalent market value of the closing price of the Company's Common Shares on the New York Stock Exchange and (ii) the liquidation value of all perpetual preferred shares outstanding.

The Company generally expects to meet its short-term liquidity requirements, including capital expenditures related to maintaining its existing properties and scheduled unsecured note and mortgage note repayments, through its working capital, net cash provided by operating activities and borrowings under the Company's revolving credit facility. Under normal operating conditions, the Company considers its cash provided by operating activities to be adequate to meet operating requirements and payments of distributions.

The Company has a flexible dividend policy which it believes will generate payouts closely aligned with the actual annual operating results of the Company's core business and provide transparency to investors. The Company intends to pay an annual cash dividend equal to approximately 65% of Normalized FFO for the year. Subject to Board of Trustees approval, the Company anticipates the expected dividend payout will range from \$1.82 to \$1.85 per share/Unit (\$0.40 per share/Unit for each of the first three quarters with the balance for the fourth quarter) for the year ending December 31, 2013 to bring the total payment for the year to approximately 65% of Normalized FFO for the year. The above assumption is based on current expectations and is forward-looking. While our dividend policy makes it less likely we will over distribute, it will also lead to a dividend reduction more quickly than a fixed dividend policy should operating results deteriorate. However, whether due to changes in the dividend policy or otherwise, there may be times when the Company experiences shortfalls in its coverage of distributions, which may cause the Company to consider reducing its distributions and/or using the proceeds from property dispositions or additional financing transactions to make up the difference. Should these shortfalls occur for lengthy periods of time or be material in nature, the Company's financial condition may be adversely affected and it may not be able to maintain its current distribution levels. The Company believes that its expected combined 2012 and 2013 operating cash flow will be sufficient to cover capital expenditures and distributions.

The Company also expects to meet its long-term liquidity requirements, such as scheduled unsecured note and mortgage debt maturities, property acquisitions, financing of construction and development activities and capital improvements through the issuance of secured and unsecured debt and equity securities, including additional OP Units, proceeds received from the disposition of certain properties and joint ventures and cash generated from

operations after all distributions. In addition, the Company has significant unencumbered properties available to secure additional mortgage borrowings in the event that the public capital markets are unavailable or the cost of alternative sources of capital is too high. The fair value of and cash flow from these unencumbered properties are in excess of the requirements the Company must maintain in order to comply with covenants under its unsecured notes and line of credit. Of the \$27.0 billion in investment in real estate on the Company's balance sheet at June 30, 2013, \$16.8

Table of Contents

billion or 62.2% was unencumbered. However, there can be no assurances that these sources of capital will be available to the Company in the future on acceptable terms or otherwise.

ERPOP's credit ratings from Standard & Poor's ("S&P"), Moody's and Fitch for its outstanding senior debt are BBB+, Baa1 and BBB+, respectively. EQR's equity ratings from S&P, Moody's and Fitch for its outstanding preferred equity are BBB+, Baa2 and BBB-, respectively.

The Archstone transaction, related financing activities and property sales have altered our unsecured public debt covenants. See the following table for a comparison of these covenants at June 30, 2013 and December 31, 2012:

	June 30, 2013	December 31, 2012
Total Debt to Adjusted Total Assets (not to exceed 60%)	42.9%	38.6%
Secured Debt to Adjusted Total Assets (not to exceed 40%)	22.9%	17.6%
Consolidated Income Available for Debt Service to Maximum Annual Service Charges (must be at least 1.5 to 1)	2.68	3.00
Total Unsecured Assets to Unsecured Debt (must be at least 150%)	315.4%	346.3%

On January 11, 2013, the Company replaced its existing \$1.75 billion facility with a \$2.5 billion unsecured revolving credit facility maturing April 1, 2018. The Company has the ability to increase available borrowings by an additional \$500.0 million by adding additional banks to the facility or obtaining the agreement of existing banks to increase their commitments. The interest rate on advances under the facility will generally be LIBOR plus a spread (currently 1.05%) and the Company pays an annual facility fee (currently 15 basis points). Both the spread and the facility fee are dependent on the credit rating of the Company's long-term debt. As of August 2, 2013, there was available borrowings of \$2.47 billion (net of \$33.3 million which was restricted/dedicated to support letters of credit) on the revolving credit facility. This facility may, among other potential uses, be used to fund property acquisitions, costs for certain properties under development and short-term liquidity requirements.

On January 11, 2013, the Company also entered into a new senior unsecured \$750.0 million delayed draw term loan facility which was fully drawn on February 27, 2013 in connection with the Archstone Acquisition. The maturity date of January 11, 2015 is subject to a one-year extension option exercisable by the Company. The interest rate on advances under the new term loan facility will generally be LIBOR plus a spread (currently 1.20%), which is dependent on the credit rating of the Company's long-term debt.

See Note 14 in the Notes to Consolidated Financial Statements for discussion of the events which occurred subsequent to June 30, 2013.

Capitalization of Fixed Assets and Improvements to Real Estate

Our policy with respect to capital expenditures is generally to capitalize expenditures that improve the value of the property or extend the useful life of the component asset of the property. We track improvements to real estate in two major categories and several subcategories:

Replacements (inside the apartment unit). These include:

flooring such as carpets, hardwood, vinyl or tile;

appliances;

mechanical equipment such as individual furnace/air units, hot water heaters, etc;

furniture and fixtures such as kitchen/bath cabinets, light fixtures, ceiling fans, sinks, tubs, toilets, mirrors, countertops, etc; and

blinds.

All replacements are depreciated over a five to ten-year estimated useful life. We expense as incurred all make-ready maintenance and turnover costs such as cleaning, interior painting of individual apartment units and the repair of any

replacement item noted above.

Building improvements (outside the apartment unit). These include:
roof replacement and major repairs;
paving or major resurfacing of parking lots, curbs and sidewalks;

63

Table of Contents

amenities and common areas such as pools, exterior sports and playground equipment, lobbies, clubhouses, laundry rooms, alarm and security systems and offices;
 major building mechanical equipment systems;
 interior and exterior structural repair and exterior painting and siding;
 major landscaping and grounds improvement; and
 vehicles and office and maintenance equipment.

All building improvements are depreciated over a five to fifteen-year estimated useful life. We capitalize building improvements and upgrades only if the item: (i) exceeds \$2,500 (selected projects must exceed \$10,000); (ii) extends the useful life of the asset; and (iii) improves the value of the asset.

For the six months ended June 30, 2013, our actual improvements to real estate totaled approximately \$57.3 million. This includes the following (amounts in thousands except for apartment unit and per apartment unit amounts):

Capital Expenditures to Real Estate

For the Six Months Ended June 30, 2013

	Total Apartment Units (1)	Replacements (2)	Avg. Per Apartment Unit	Building Improvements	Avg. Per Apartment Unit	Total	Avg. Per Apartment Unit
Same Store Properties (3)	84,965	\$ 23,154	\$273	\$22,522	\$265	\$45,676	\$538
Non-Same Store Properties (4)	22,962	4,000	244	3,845	234	7,845	478
Other (5)	—	1,989		1,743		3,732	
Total	107,927	\$ 29,143		\$28,110		\$57,253	

Total Apartment Units – Excludes 336 unconsolidated apartment units and 5,125 military housing apartment units (1) for which repairs and maintenance expenses and capital expenditures to real estate are self-funded and do not consolidate into the Company's results.

Replacements – Includes new expenditures inside the apartment units such as appliances, mechanical equipment, fixtures and flooring, including carpeting. Replacements for same store properties also include \$9.5 million spent (2) during the six months ended June 30, 2013 on apartment unit renovations/rehabs (primarily kitchens and baths) on 1,256 apartment units (equating to about \$7,600 per apartment unit rehabbed) designed to reposition these assets for higher rental levels in their respective markets.

(3) Same Store Properties – Primarily includes all properties acquired or completed and stabilized prior to January 1, 2012, less properties subsequently sold.

(4) Non-Same Store Properties – Primarily includes all properties acquired during 2012 and 2013, plus any properties in lease-up and not stabilized as of January 1, 2012. Per apartment unit amounts are based on a weighted average of 16,416 apartment units. Includes approximately four months of activity for the Archstone properties.

(5) Other – Primarily includes expenditures for properties sold during the period.

For 2013, the Company estimates that it will spend approximately \$1,500 per apartment unit of capital expenditures for the approximately 80,000 apartment units that the Company expects to have in its annual same store set, inclusive of apartment unit renovation/rehab costs, or \$1,150 per apartment unit excluding apartment unit renovation/rehab costs. In 2013, the Company expects to spend approximately \$40.8 million rehabbing 5,000 apartment units (equating to about \$8,150 per apartment unit rehabbed). The above assumptions are based on current expectations and are forward-looking.

During the six months ended June 30, 2013, the Company's total non-real estate capital additions, such as computer software, computer equipment, and furniture and fixtures and leasehold improvements to the Company's property management offices and its corporate offices, were approximately \$2.8 million. The Company expects to fund approximately \$1.4 million in total additions to non-real estate property for the remainder of 2013. The above

assumption is based on current expectations and is forward-looking.

Improvements to real estate and additions to non-real estate property are generally funded from net cash provided by operating activities and from investment cash flow.

Derivative Instruments

In the normal course of business, the Company is exposed to the effect of interest rate changes. The Company seeks to manage these risks by following established risk management policies and procedures including the use of derivatives to hedge interest rate risk on debt instruments. The Company may also use derivatives to manage its exposure to foreign exchange rates or manage commodity prices in the daily operations of the business.

Table of Contents

The Company has a policy of only entering into contracts with major financial institutions based upon their credit ratings and other factors. When viewed in conjunction with the underlying and offsetting exposure that the derivatives are designed to hedge, the Company has not sustained a material loss from these instruments nor does it anticipate any material adverse effect on its net income or financial position in the future from the use of derivatives it currently has in place.

See Note 9 in the Notes to Consolidated Financial Statements for additional discussion of derivative instruments at June 30, 2013.

Other

Total distributions paid in July 2013 amounted to \$150.8 million (excluding distributions on Partially Owned Properties), which included certain distributions declared during the second quarter ended June 30, 2013.

Off-Balance Sheet Arrangements and Contractual Obligations

On February 27, 2013, in conjunction with the Archstone Acquisition, the Company acquired unconsolidated interests in several joint ventures. The Company does not believe that these investments have a materially different impact upon its liquidity, cash flows, capital resources, credit or market risk than its other consolidated operating and/or development activities. Details of these interests follow by project:

San Norterra – This venture is currently developing certain land parcels into a 388 unit apartment building located in Phoenix, Arizona. The Company has an 85% equity interest with an initial basis of \$16.9 million. Total project costs are approximately \$56.3 million and construction is being partially funded with a construction loan that is guaranteed by the partner and non-recourse to the Company. The loan has a maximum debt commitment of \$34.8 million and a current unconsolidated outstanding balance of \$28.4 million; the loan bears interest at LIBOR plus 2.00% and matures January 6, 2015. The partner is the managing member and is developing the project. The Company does not have substantive kick-out or participating rights. As a result, the entity is unconsolidated and recorded using the equity method of accounting.

Waterton Tenside – This venture was formed to develop and operate a 336 unit apartment property located in Atlanta, Georgia. The Company has a 20% equity interest with an initial basis of \$5.1 million. The partner is the managing member and developed the project. The project is encumbered by a non-recourse mortgage loan that has a current outstanding balance of \$30.6 million, bears interest at 3.66% and matures December 1, 2018. The Company does not have substantive kick-out or participating rights. As a result, the entity is unconsolidated and recorded using the equity method of accounting.

Mission Gorge – This venture was formed to ultimately develop a land parcel into a 444 unit apartment building located in San Diego, California. The Company currently has a 23.08% equity interest with an initial basis of \$4.1 million. While the Company is the managing member of the joint venture and will be responsible for constructing the project, the joint venture partner has significant participating rights and has active involvement in and oversight of the ongoing project. As a result, this entity is unconsolidated and recorded using the equity method of accounting.

Parkside at Emeryville – This venture is currently developing certain land parcels into a 180 unit apartment building located in Emeryville, California. The Company has a 5% equity interest with an initial obligation of approximately \$2.1 million. Total project costs are expected to be approximately \$75.0 million and construction is being partially funded with a construction loan. The loan has a maximum debt commitment of \$39.5 million and a current unconsolidated outstanding balance of \$2.7 million; the loan bears interest at LIBOR plus 2.25% and matures August 14, 2015. The Company has given a repayment guaranty on the construction loan of 50% of the outstanding

balance, up to a maximum of \$19.7 million, and has given certain construction cost overrun guarantees. The partner is the managing member and is developing the project. The Company does not have substantive kick-out or participating rights. As a result, the entity is unconsolidated and recorded using the equity method of accounting.

On February 27, 2013, in connection with the Archstone Acquisition, subsidiaries of the Company and AVB entered into three limited liability company agreements (collectively, the "Residual JV"). The Residual JV owns certain non-core Archstone assets that are held for sale, such as interests in a German portfolio of apartment buildings, and succeeded to certain residual Archstone liabilities, such as liability for various employment-related matters. The Residual JV is owned 60% by the Company and 40% by AVB and the Company's initial investment was \$105.2 million. The venture is managed by a Management Committee consisting of two members from each of the Company and AVB. Both partners have equal participation in the Management Committee and all significant participating rights are shared by both partners. As a result, the venture is unconsolidated and recorded using the equity method of accounting.

Table of Contents

On February 27, 2013, in connection with the Archstone Acquisition, a subsidiary of the Company and AVB entered into a limited liability company agreement (the “Legacy JV”), through which they assumed obligations of Archstone in the form of preferred interests, some of which are governed by tax protection arrangements. During the six months ended June 30, 2013, the Company purchased with AVB \$65.0 million (of which the Company's 60% share was \$39.0 million) of the preferred interests assumed by Legacy JV. At June 30, 2013, the remaining preferred interests have an aggregate liquidation value of \$88.3 million. Obligations of the venture are borne 60% by the Company and 40% by AVB. The venture is managed by a Management Committee consisting of two members from each of the Company and AVB. Both partners have equal participation in the Management Committee and all significant participating rights are shared by both partners. As a result, the venture is unconsolidated and recorded using the equity method of accounting.

The Company admitted an 80% institutional partner to two separate entities/transactions (Nexus Sawgrass in December 2010 and Domain in August 2011), each owning a developable land parcel, in exchange for \$40.1 million in cash and retained a 20% equity interest in both of these entities. These land parcels are now unconsolidated. Total project costs are approximately \$232.8 million and construction is being predominantly funded with two separate long-term, non-recourse secured loans from the partner. Nexus Sawgrass has a maximum debt commitment of \$48.7 million and a current unconsolidated outstanding balance of \$42.6 million; the loan bears interest at 5.60% and matures January 1, 2021. Domain has a maximum debt commitment of \$98.6 million and a current unconsolidated outstanding balance of \$72.1 million; the loan bears interest at 5.75% and matures January 1, 2022. While the Company is the managing member of both of the joint ventures, is responsible for constructing both of the projects and has given certain construction cost overrun guarantees, the joint venture partner has significant participating rights and has active involvement in and oversight of the ongoing projects. The Company currently has no further funding obligations related to these projects. The Company's strategy with respect to these ventures was to reduce its financial risk related to the development of the properties. However, management does not believe that these investments have a materially different impact upon the Company's liquidity, cash flows, capital resources, credit or market risk than its other consolidated development activities.

As of June 30, 2013, the Company has 11 consolidated projects (including 400 Park Avenue South in New York City which the Company is jointly developing with Toll Brothers and Park Aire in which the Company acquired a 95% interest in connection with the Archstone transaction – see Note 12 in the Notes to Consolidated Financial Statements for further discussion) totaling 2,488 apartment units and four unconsolidated projects totaling 1,513 apartment units in various stages of development with estimated completion dates ranging through June 30, 2015, as well as other completed development projects that are in various stages of lease up or are stabilized. The development agreements currently in place are discussed in detail in Note 12 of the Company's Consolidated Financial Statements.

See also Notes 2 and 6 in the Notes to Consolidated Financial Statements for additional discussion regarding the Company's investments in partially owned entities.

As a result of the Archstone transaction, the Company's contractual obligations for the next five years and thereafter have changed materially from the amounts and disclosures included in the Company's annual report on Form 10-K and are summarized below as of June 30, 2013:

Payments Due by Year (in thousands)

Contractual Obligations	Remaining							Total
	2013	2014	2015	2016	2017	2018	Thereafter	
Debt:								
Principal (a)	\$5,873	\$1,566,371	\$1,169,785	\$1,192,559	\$2,171,469	\$84,323	\$5,533,186	\$11,723,566
Interest (b)	275,619	529,572	443,794	394,238	335,205	255,455	602,342	2,836,225
Operating Leases:								

Edgar Filing: EQUITY RESIDENTIAL - Form 10-Q

Minimum Rent Payments (c)	6,878	14,088	14,666	14,734	14,507	7,172	854,608	926,653
Other Long-Term Liabilities:								
Deferred Compensation (d)	475	1,378	1,705	1,705	1,705	1,705	5,553	14,226
Total	\$288,845	\$2,111,409	\$1,629,950	\$1,603,236	\$2,522,886	\$348,655	\$6,995,689	\$15,500,670

(a) Amounts include aggregate principal payments only.

Amounts include interest expected to be incurred on the Company's secured and unsecured debt based on obligations outstanding at June 30, 2013 and inclusive of capitalized interest. For floating rate debt, the current rate in effect for the most recent payment through June 30, 2013 is assumed to be in effect through the respective maturity date of each instrument.

(b) Minimum basic rent due for various office space the Company leases and fixed base rent due on ground leases for 14 properties/parcels.

(c) Estimated payments to the Company's Chairman, Vice Chairman and one former CEO based on actual and planned retirement dates.

Table of Contents

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to use judgment in the application of accounting policies, including making estimates and assumptions. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different or different assumptions were made, it is possible that different accounting policies would have been applied, resulting in different financial results or different presentation of our financial statements.

The Company has identified five significant accounting policies as critical accounting policies. These critical accounting policies are those that have the most impact on the reporting of our financial condition and those requiring significant judgments and estimates. With respect to these critical accounting policies, management believes that the application of judgments and estimates is consistently applied and produces financial information that fairly presents the results of operations for all periods presented. The five critical accounting policies are:

Acquisition of Investment Properties

The Company allocates the purchase price of properties to net tangible and identified intangible assets acquired based on their fair values. In making estimates of fair values for purposes of allocating purchase price, the Company utilizes a number of sources, including independent appraisals that may be obtained in connection with the acquisition or financing of the respective property, our own analysis of recently acquired and existing comparable properties in our portfolio and other market data. The Company also considers information obtained about each property as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired.

Impairment of Long-Lived Assets

The Company periodically evaluates its long-lived assets, including its investments in real estate, for indicators of impairment. The judgments regarding the existence of impairment indicators are based on factors such as operational performance, market conditions and legal and environmental concerns, as well as the Company's ability to hold and its intent with regard to each asset. Future events could occur which would cause the Company to conclude that impairment indicators exist and an impairment loss is warranted.

Depreciation of Investment in Real Estate

The Company depreciates the building component of its investment in real estate over a 30-year estimated useful life, building improvements over a 5-year to 15-year estimated useful life and both the furniture, fixtures and equipment and replacements components over a 5-year to 10-year estimated useful life, all of which are judgmental determinations.

Cost Capitalization

See the Capitalization of Fixed Assets and Improvements to Real Estate section for a discussion of the Company's policy with respect to capitalization vs. expensing of fixed asset/repair and maintenance costs. In addition, the Company capitalizes an allocation of the payroll and associated costs of employees directly responsible for and who spend their time on the supervision of major capital and/or renovation projects. These costs are reflected on the balance sheet as an increase to depreciable property.

For all development projects, the Company uses its professional judgment in determining whether such costs meet the criteria for capitalization or must be expensed as incurred. The Company capitalizes interest, real estate taxes and insurance and payroll and associated costs for those individuals directly responsible for and who spend their time on

development activities, with capitalization ceasing no later than 90 days following issuance of the certificate of occupancy. These costs are reflected on the balance sheet as construction-in-progress for each specific property. The Company expenses as incurred all payroll costs of on-site employees working directly at our properties, except as noted above on our development properties prior to certificate of occupancy issuance and on specific major renovations at selected properties when additional incremental employees are hired.

During the six months ended June 30, 2013 and 2012, the Company capitalized \$8.4 million and \$7.3 million, respectively, of payroll and associated costs of employees directly responsible for and who spend their time on the supervision of development activities as well as major capital and/or renovation projects.

Table of Contents

Fair Value of Financial Instruments, Including Derivative Instruments

The valuation of financial instruments requires the Company to make estimates and judgments that affect the fair value of the instruments. The Company, where possible, bases the fair values of its financial instruments, including its derivative instruments, on listed market prices and third party quotes. Where these are not available, the Company bases its estimates on current instruments with similar terms and maturities or on other factors relevant to the financial instruments.

Funds From Operations and Normalized Funds From Operations

For the six months ended June 30, 2013, Funds From Operations ("FFO") available to Common Shares and Units / Units and Normalized FFO available to Common Shares and Units / Units decreased \$39.1 million, or 10.0%, and increased \$86.6 million, or 21.3%, respectively, as compared to the six months ended June 30, 2012.

For the quarter ended June 30, 2013, FFO available to Common Shares and Units / Units and Normalized FFO available to Common Shares and Units / Units increased \$70.1 million, or 34.3%, and \$52.3 million, or 24.3%, respectively, as compared to the quarter ended June 30, 2012.

The following is the Company's and the Operating Partnership's reconciliation of net income to FFO available to Common Shares and Units / Units and Normalized FFO available to Common Shares and Units / Units for the six months and quarters ended June 30, 2013 and 2012:

Table of Contents

Funds From Operations and Normalized Funds From Operations

(Amounts in thousands)

	Six Months Ended June 30,		Quarter Ended June 30,	
	2013	2012	2013	2012

Normalized FFO (2) (3)	\$495,509	\$413,790	\$268,304	\$218,471
Preferred/preference distributions	(2,072)) (6,933)) (1,036)) (3,467)
Normalized FFO available to Common Shares and Units / Units (2) (3) (4)	\$493,437	\$406,857	\$267,268	\$215,004

The National Association of Real Estate Investment Trusts (“NAREIT”) defines funds from operations (“FFO”) (April 2002 White Paper) as net income (computed in accordance with accounting principles generally accepted in the United States (“GAAP”)), excluding gains (or losses) from sales and impairment write-downs of depreciable operating properties, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. The April 2002 White Paper states that gain or loss on sales of property is excluded from FFO for previously depreciated operating properties only. Once the Company commences the conversion of apartment units to condominiums, it simultaneously discontinues depreciation of such property.

(1) Normalized funds from operations (“Normalized FFO”) begins with FFO and excludes:
the impact of any expenses relating to non-operating asset impairment and valuation allowances;
property acquisition and other transaction costs related to mergers and acquisitions and pursuit cost write-offs;
gains and losses from early debt extinguishment, including prepayment penalties, preferred share/preference unit redemptions and the cost related to the implied option value of non-cash convertible debt discounts;
gains and losses on the sales of non-operating assets, including gains and losses from land parcel and condominium sales, net of the effect of income tax benefits or expenses; and
other miscellaneous non-comparable items.

Table of Contents

The Company believes that FFO and FFO available to Common Shares and Units / Units are helpful to investors as supplemental measures of the operating performance of a real estate company, because they are recognized measures of performance by the real estate industry and by excluding gains or losses related to dispositions of depreciable property and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO and FFO available to Common Shares and Units / Units can help compare the operating performance of a company's real estate between periods or as compared to different companies. The company also believes that Normalized FFO and Normalized FFO available to Common Shares and Units / Units are helpful to investors as supplemental measures of the operating performance of a real estate company because they allow investors to compare the company's operating performance to its performance in prior reporting periods and to the operating performance of other real estate (3) companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual operating results. FFO, FFO available to Common Shares and Units / Units, Normalized FFO and Normalized FFO available to Common Shares and Units / Units do not represent net income, net income available to Common Shares / Units or net cash flows from operating activities in accordance with GAAP. Therefore, FFO, FFO available to Common Shares and Units / Units, Normalized FFO and Normalized FFO available to Common Shares and Units / Units should not be exclusively considered as alternatives to net income, net income available to Common Shares / Units or net cash flows from operating activities as determined by GAAP or as a measure of liquidity. The Company's calculation of FFO, FFO available to Common Shares and Units / Units, Normalized FFO and Normalized FFO available to Common Shares and Units / Units may differ from other real estate companies due to, among other items, variations in cost capitalization policies for capital expenditures and, accordingly, may not be comparable to such other real estate companies.

FFO available to Common Shares and Units / Units and Normalized FFO available to Common Shares and Units / Units are calculated on a basis consistent with net income available to Common Shares / Units and reflects adjustments to net income for preferred distributions and premiums on redemption of preferred shares/preference (4) units in accordance with accounting principles generally accepted in the United States. The equity positions of various individuals and entities that contributed their properties to the Operating Partnership in exchange for OP Units are collectively referred to as the "Noncontrolling Interests – Operating Partnership". Subject to certain restrictions, the Noncontrolling Interests – Operating Partnership may exchange their OP Units for Common Shares on a one-for-one basis.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As a result of the Archstone transaction, certain of the Company's and the Operating Partnership's market risks have changed materially from the amounts and information reported in Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk, to the Company's and the Operating Partnership's Annual Report on Form 10-K for the year ended December 31, 2012 and have been updated in the following paragraphs.

Market risks relating to the Company's financial instruments result primarily from changes in short-term LIBOR interest rates and changes in the Securities Industry and Financial Markets Association ("SIFMA") index for tax-exempt debt. The Company also has foreign exchange exposure related to interests in German residential real estate that were acquired as part of the Archstone transaction.

The Company's exposure to market risk for changes in interest rates relates primarily to the unsecured revolving and term loan facilities as well as floating rate tax-exempt debt. The Company typically incurs fixed rate debt obligations to finance acquisitions while it typically incurs floating rate debt obligations to finance working capital needs and as a temporary measure in advance of securing long-term fixed rate financing. The Company continuously evaluates its level of floating rate debt with respect to total debt and other factors, including its assessment of the current and future economic environment. To the extent the Company carries substantial cash balances, this will tend to partially counterbalance any increase or decrease in interest rates.

The Company also utilizes certain derivative financial instruments to manage market risk. Interest rate protection agreements are used to convert floating rate debt to a fixed rate basis or vice versa as well as to partially lock in rates on future debt issuances. The Company may utilize derivative financial instruments to manage foreign exchange rate risk related to interests in German residential real estate that were acquired as part of the Archstone transaction. Derivatives are used for hedging purposes rather than speculation. The Company does not enter into financial instruments for trading purposes. See also Note 9 to the Notes to Consolidated Financial Statements for additional discussion of derivative instruments.

The fair values of the Company's financial instruments (including such items in the financial statement captions as cash and cash equivalents, other assets, accounts payable and accrued expenses and other liabilities) approximate their carrying or contract values based on their nature, terms and interest rates that approximate current market rates. The fair value of the Company's mortgage notes payable and unsecured notes were approximately \$6.4 billion and \$5.8 billion, respectively, at June 30, 2013.

At June 30, 2013, the Company had total outstanding floating rate debt of approximately \$1.4 billion, or 12.2% of total debt, net of the effects of any derivative instruments. If market rates of interest on all of the floating rate debt permanently increased by 13 basis points (a 10% increase from the Company's existing weighted average interest rates), the increase in interest expense on the floating rate debt would decrease future earnings and cash flows by approximately \$1.9 million. If market rates of interest on all of the floating rate debt permanently decreased by 13 basis points (a 10% decrease from the Company's existing weighted average interest rates), the decrease in interest expense on the floating rate debt would increase future earnings and cash flows by approximately \$1.9 million.

Table of Contents

At June 30, 2013, the Company had total outstanding fixed rate debt of approximately \$10.3 billion, or 87.8% of total debt, net of the effects of any derivative instruments. If market rates of interest permanently increased by 52 basis points (a 10% increase from the Company's existing weighted average interest rates), the estimated fair value of the Company's fixed rate debt would be approximately \$9.4 billion. If market rates of interest permanently decreased by 52 basis points (a 10% decrease from the Company's existing weighted average interest rates), the estimated fair value of the Company's fixed rate debt would be approximately \$11.4 billion.

These amounts were determined by considering the impact of hypothetical interest rates on the Company's financial instruments. The foregoing assumptions apply to the entire amount of the Company's debt instruments and do not differentiate among maturities. These analyses do not consider the effects of the changes in overall economic activity that could exist in such an environment. Further, in the event of changes of such magnitude, management would likely take actions to further mitigate its exposure to the changes. However, due to the uncertainty of the specific actions that would be taken and their possible effects, this analysis assumes no changes in the Company's financial structure or results.

The Company cannot predict the effect of adverse changes in interest rates on its debt instruments and, therefore, its exposure to market risk, nor can there be any assurance that long-term debt will be available at advantageous pricing. Consequently, future results may differ materially from the estimated adverse changes discussed above.

Item 4. Controls and Procedures

Equity Residential

(a) Evaluation of Disclosure Controls and Procedures:

Effective as of June 30, 2013, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in its Exchange Act filings is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

(b) Changes in Internal Control over Financial Reporting:

There were no changes to the internal control over financial reporting of the Company identified in connection with the Company's evaluation referred to in Item 4(a) above that occurred during the second quarter of 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ERP Operating Limited Partnership

(a) Evaluation of Disclosure Controls and Procedures:

Effective as of June 30, 2013, the Operating Partnership carried out an evaluation, under the supervision and with the participation of the Operating Partnership's management, including the Chief Executive Officer and Chief Financial Officer of EQR, of the effectiveness of the Operating Partnership's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective to ensure that information required to be disclosed by the Operating Partnership in its Exchange Act filings is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

(b) Changes in Internal Control over Financial Reporting:

There were no changes to the internal control over financial reporting of the Operating Partnership identified in connection with the Operating Partnership's evaluation referred to in Item 4(a) above that occurred during the second

quarter of 2013 that have materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company and the Operating Partnership do not believe that there have been any material developments in the legal proceedings that were discussed in Part I, Item 3 of the Company's and the Operating Partnership's Annual Report on Form 10-K for the year ended December 31, 2012.

Item 1A. Risk Factors

There have been no material changes to the risk factors that were discussed in Part I, Item 1A of the Company's and the Operating Partnership's Annual Report on Form 10-K for the year ended December 31, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Unregistered Common Shares Issued in the Quarter Ended June 30, 2013 - Equity Residential

During the quarter ended June 30, 2013, EQR issued 36,262 Common Shares in exchange for 36,262 OP Units held by various limited partners of the Operating Partnership. OP Units are generally exchangeable into Common Shares on a one-for-one basis or, at the option of the Operating Partnership, the cash equivalent thereof, at any time one year after the date of issuance. These shares were either registered under the Securities Act of 1933, as amended (the "Securities Act"), or issued in reliance on an exemption from registration under Section 4(2) of the Securities Act and the rules and regulations promulgated thereunder, as these were transactions by an issuer not involving a public offering. In light of the manner of the sale and information obtained by EQR from the limited partners in connection with these transactions, EQR believes it may rely on these exemptions.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits – See the Exhibit Index
