Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following analysis is intended to provide the reader with a further understanding of the consolidated financial condition and results of operations of the Company and its operating subsidiaries for the periods shown. This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with other sections of this Report on Form 10-K, including Part I, "Item 1. Business", Part II, "Item 6. Selected Financial Data", and Part III, "Item 8. Financial Statements and Supplementary Data".

OVERVIEW

Tompkins Financial Corporation ("Tompkins" or the "Company"), is the corporate parent of three community banks, Tompkins Trust Company ("Trust Company"), The Bank of Castile, and The Mahopac National Bank ("Mahopac National Bank"), which together operate 39 banking offices, including 2 limited-service office, in local market areas throughout New York State. Through its community banking subsidiaries, the Company provides traditional banking services, and offers a full range of money management services through Tompkins Investment Services, a division of Tompkins Trust Company. The Company also offers insurance services through its wholly-owned subsidiary, Tompkins Insurance Agencies, Inc. ("Tompkins Insurance"), an independent insurance agency with a history of over 100 years of service to individual and business clients throughout Western New York. Tompkins Insurance has expanded its geographic footprint into the Ithaca, New York market area with the acquisition of three insurance agencies over the past three years. The Company completed its acquisition of AM&M Financial

(1) Average balances and yields on available-for-sale securities are based on amortized cost.

(2) Interest income includes the tax effects of taxable-equivalent adjustments using a combined New York State and Federal effective income tax rate of 40% to increase tax-exempt interest income to a taxable equivalent basis. The tax equivalent adjustments for 2007, 2006, and 2005 were as follows: \$2,428,000, \$2,806,000, and \$2,838,000, respectively.

(3) Nonaccrual loans are included in the average loan totals presented above. Payments received on nonaccrual loans have been recognized as disclosed in "Note 1 Summary of Significant Accounting Policies" in the Notes to Consolidated Financial Statements in Part II, Item 8. of this Report.

Notes: See notes to Table 1 above.

Changes in net interest income occur from a combination of changes in the volume of interest-earning assets and interest-bearing liabilities, and in the rate of interest earned or paid on them. The above table illustrates changes in interest income and interest expense attributable to changes in volume (change in average balance multiplied by prior year rate), changes in rate (change in rate multiplied by prior year volume), and the net change in net interest income. The net change attributable to the combined impact of volume and rate has been allocated to each in proportion to the absolute dollar amounts of the change. The \$794,000 increase in taxable-equivalent net interest income from 2006 to 2007 resulted from an \$11.0 million increase in interest income and a \$10.2 million increase in interest expense. An increased volume of interest earning assets, in excess of interest bearing liabilities contributed to a net \$4.0 million increase in taxable-equivalent net interest income between 2006 and 2007, while changes in interest rates reduced taxable-equivalent net interest income by \$3.2 million, resulting in the net increase of \$794,000 from 2006.

Provision for Loan and Lease Losses

The provision for loan and lease losses represents management's estimate of the expense necessary to maintain the allowance for loan and lease losses at an adequate level. The provision for loan and lease losses was \$1.5 million in 2007, compared to \$1.4 million in 2006. Nonperforming loans and leases were \$9.3 million or 0.65% of total loans and leases at December 31, 2007, compared with \$3.0 million or 0.23% of total loans and leases at December 31, 2006. The increase over the prior year is mainly due to the addition of four commercial credits. The largest of these credits is \$4.0 million, of which \$3.7 million is 90% guaranteed by a government agency. Net charge-offs of \$1.3 million in 2007 represented 0.09% of average loans and leases during the period, compared to net charge-offs of \$773,000 in 2006, representing 0.06% of average loans and leases. See the section captioned "The Allowance for Loan and Lease Losses" included within "Management's Discussion and Analysis of Financial Condition and Results of Operations—Financial Condition" of this Report for further analysis of the Company's allowance for loan and lease losses.

Noninterest Income

Noninterest income is a significant source of income for the Company, representing 37.3% of total revenues in 2007, 36.1% in 2006 and 29.1% in 2005, and is an important factor in the Company's results of operations. Total noninterest income was \$44.0 million in 2007, an increase of 7.1% over 2006.

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

Noninterest income in 2006 included some nonrecurring items. In the fourth quarter of 2006 the Company sold its credit card portfolio of nearly \$9.4 million, resulting in a net pre-tax gain of approximately \$2.6 million. Through an ongoing relationship with the purchaser, the Company is able to offer an expanded suite of credit card products to its customers. Noninterest income in 2006 also included \$685,000 in life insurance proceeds.

Available-for-sale securities at year-end 2005 include \$10.3 million in nonmarketable equity securities, which are carried at cost since fair values are not readily determinable. This figure includes \$8.8 million of Federal Home Loan Bank ("FHLB") stock, and \$721,000 of Federal Reserve Bank ("FRB") stock, which are required to be held for regulatory purposes and for borrowings availability. The required investment in FHLB stock is tied to the Company's borrowing levels with the FHLB. Substantially all of the above mortgage-backed securities are direct pass through securities or collateralized mortgage obligations issued or backed by Federal agencies.

Management's policy is to purchase investment grade securities that, on average, have relatively short expected durations. This policy helps mitigate interest rate risk and provides sources of liquidity without significant risk to capital. A large percentage of securities are direct obligations of the Federal government and its agencies. The contractual maturity distribution of debt securities and mortgage-backed securities as of December 31, 2007, along with the weighted average yield of each category, is presented in Table 4-Maturity Distribution below. Balances are shown at amortized cost and weighted average yields are calculated on a fully taxable-equivalent basis. Expected maturities will differ from contractual maturities presented in Table 4-Maturity Distribution below, because issuers may have the right to call or prepay obligations with or without penalty and mortgage-backed securities will pay throughout the periods prior to contractual maturity.

Residential real estate loans of \$504.4 million at year-end 2007 increased by \$35.2 million or 7.5% from \$469.1 million at year-end 2006, and comprised 35.0% of total loans and leases at December 31, 2007. Residential real estate mortgage loans are generally underwritten in accordance with secondary market guidelines to enhance the liquidity of these generally longer-term assets. As part of its asset/liability management strategy the Company may sell certain residential mortgage loans in the secondary market. Loans are generally sold to Federal Home Loan Mortgage Corporation ("FHLMC") or State of New York Mortgage Agency ("SONYMA"). During 2007, 2006, and 2005, the Company sold residential mortgage loans totaling \$10.7 million, \$12.5 million, and \$16.5 million, respectively, and realized gains on these sales of \$159,000, \$177,000, and \$238,000, respectively. During 2006, the Company securitized \$32.0 million of Company originated residential real estate loans with FHLMC. There were no securitizations in 2007 or 2005. When residential mortgage loans are sold or securitized, the Company typically retains all servicing, providing the Company with a source of fee income. The Company generally sells loans without recourse. In connection with the loan sales and securitizations in 2007, 2006, and 2005, the Company recorded mortgage-servicing assets of \$46,000, \$294,000, and \$98,000, respectively. Amortization of mortgage servicing amounted to \$122,000, in 2007, \$116,000 in 2006 and \$127,000 in 2005. Residential mortgage loans serviced for others totaled \$154.5 million at December 31, 2007, compared to \$162.0 million at December 31, 2006. Capitalized mortgage servicing rights totaled \$1.1 million at December 31, 2007, and December 31, 2006, and are reported as intangible assets on the consolidated statements of condition.

There has been significant attention to subprime consumer real estate lending in the media. The Company has not engaged in the origination or purchase of subprime loans as a line of business and residential loan charge-offs amounted to only \$118,000 for 2007 compared to \$43,000 for the same period in 2006.

Commercial real estate loans increased by \$28.5 million, or 7.2%, in 2007 over 2006, from \$393.8 million at year-end 2006 to \$422.3 million at year-end 2007. Commercial real estate loans of \$422.3 million represented 29.3% of total loans and leases at December 31, 2007. Commercial loans totaled \$381.7 million at December 31, 2007, which is a 10.6% increase from commercial loans of \$345.2 million at December 31, 2006. Growth in commercial lending, including commercial real estate reflects the Company's continued emphasis on commercial lending. Management believes that the Company's community banking strategy provides value to small business customers, while commercial lending products are typically attractive to the Company from a yield and interest rate risk perspective. The combined legal lending limits of the Company's three subsidiary banks has

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

allowed the Company to attract larger lending relationships.

The consumer loan portfolio includes personal installment loans, indirect automobile financing, and overdraft lines of credit. The Company faces significant competition from local and national lenders as well as auto finance companies for consumer lending products. Consumer and other loans were \$80.7 million at December 31, 2007, down from \$82.3 million at December 31, 2006. The fourth quarter 2006 sale of the Company's credit card portfolio contributed to the decrease in consumer loans at year-end 2006.

The lease portfolio decreased by 9.5% to \$10.8 million at December 31, 2007 from \$12.0 million at December 31, 2006. The lease portfolio has traditionally consisted of leases on vehicles for consumers and small businesses. Competition for automobile financing has led to a decline in the consumer lease portfolio over the past several years. Management continues to review leasing opportunities, primarily commercial leasing and municipal leasing. As of December 31, 2007, commercial leases and municipal leases represented 97.5% of total leases, while consumer leases made up the remaining 2.5%. As of December 31, 2006, commercial leases and municipal leases represented 99.2% of total leases, while consumer leases made up the remaining 0.8%.

Management is committed to early recognition of loan problems and to maintaining an adequate allowance. The above allocation is neither indicative of the specific amounts or the loan categories in which future charge-offs may occur,

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

nor is it an indicator of future loss trends. The allocation of the allowance to each category does not restrict the use of the allowance to absorb losses in any category. The increase in the allowance between year-end 2006 and year-end 2007 reflects higher allocations due to growth in the loan portfolio and additional allocations based upon historical loss experience. The increase in the allowance allocated to real estate loans in 2007 over 2006 was a result of the growth in the portfolio as well as the overall weakening conditions in the real estate market.

The level of future charge-offs are dependent upon a variety of factors such as national and local economic conditions, trends in various industries, underwriting characteristics, and conditions unique to each borrower. Given uncertainties surrounding these factors, it is difficult to estimate future losses.

The principal balances of nonperforming loans and leases, including impaired loans and leases, as of December 31, are detailed in the table below.

| (dollar amounts in thousands) | 2007 | 2006 | 2005 | 2004 | 2003 |
|---|----------------|----------------|----------------|----------------|----------------|
| Loans 90 days past due and accruing | \$ 312 | \$ 8 | \$ 12 | \$ 31 | \$ 2 |

| Other real estate owned | 5 | 348 | 366 | 89 | 38 |
| Total nonperforming assets | \$9,352 | \$3,350 | \$4,500 | \$7,701 | \$7,972 |
| Allowance as a percentage of loans and leases outstanding | 1.01% | 1.08% | 1.08% | 1.07% | 1.00% |
| Allowance as a percentage of nonperforming loans and leases | 156.27% | 477.28% | 330.84% | 164.86% | 153.80% |
| Total nonperforming assets as percentage of total assets | 0.40% | 0.15% | 0.21% | 0.39% | 0.40% |

The allowance represented 1.01% of total loans and leases outstanding at December 31, 2007, down from 1.08% at December 31, 2006. The allowance coverage of nonperforming loans (loans past due 90 days and accruing, nonaccrual loans, and restructured troubled debt) was 1.56 times at December 31, 2007, compared to 4.77 times at December 31, 2006. The decline in the nonaccrual coverage is largely due to the addition of a \$4.0 million nonaccrual loan that is largely protected by a U.S. government agency guarantee. The difference between the interest income that would have been recorded if nonaccrual loans and leases had been paid in accordance with their original terms and the interest income recorded for the years ended December 31, 2007, 2006 and 2005 was not material. A discussion of the Company's policy for placing loans on nonaccrual status is included in "Note 1 Summary of Significant Accounting Policies" in Notes to Consolidated Financial Statements in Part II, Item 8. of this Report.

Management reviews the loan portfolio continuously for evidence of potential problem loans and leases. Potential problem loans and leases are loans and leases that are currently performing in accordance with contractual terms, but where known information about possible credit problems of the related borrowers causes management to have doubt as to the ability of such borrowers to comply with the present loan payment terms and may result in such loans and leases becoming nonperforming at sometime in the future. Management considers loans and leases classified as Substandard, which continue to accrue interest, to be potential problem loans and leases. The Company, through its internal loan review function identified 34 commercial relationships totaling \$13.4 million at December 31, 2007, and 25 commercial relationships totaling \$19.7 million at December 31, 2006, which it classified as Substandard, which continue to accrue interest. These loans remain in a performing status due to a variety of factors, including payment history, the value of collateral supporting the credits, and personal or government guarantees. These factors, when considered in the aggregate, give management reason to believe that the current risk exposure on these loans does not warrant accounting for these loans as nonperforming. However, these loans do exhibit certain risk factors, which have the potential to cause them to become nonperforming. Accordingly, management's attention is focused on these credits, which are reviewed on at least a quarterly basis. The decrease in the dollar amount of commercial relationships classified as Substandard and still accruing between December 31, 2006 and December 31, 2007 was mainly due to three commercial relationships totaling \$6.0 million that were classified as Substandard and accruing at December 31, 2006, and Substandard and nonaccruing at December 31, 2007.

OFF-BALANCE SHEET ARRANGEMENTS

In the normal course of business the Company is party to certain financial instruments, which in accordance with accounting principles generally accepted in the United States, are not included in its Consolidated Statements of Condition. These transactions include commitments under stand-by letters of credit, unused portions of lines of credit, and commitments to fund new loans and are undertaken to accommodate the financing needs of the Company's customers. Loan commitments are agreements by the Company to lend monies at a future date. These loan and letter of credit commitments are subject to the same credit policies and reviews as the Company's loans. Because most of these loan commitments expire within one year from the date of issue, the total amount of these loan commitments as of December 31, 2007, are not necessarily indicative of future cash requirements. Further information on these commitments and contingent liabilities is provided in "Note 14 Commitments and Contingent Liabilities" in Notes to Consolidated Financial Statements in Part II, Item 8. of this Report.

RECENTLY ISSUED ACCOUNTING STANDARDS

Refer to "Note 1 Summary of Significant Accounting Policies" in Notes to Consolidated Financial Statements in Part II, Item 8. of this Form 10-K for details of recently issued accounting pronouncements and their expected impact on the Company's financial statements.

Fourth Quarter Summary

The Company reported diluted earnings per share of \$0.77 for the fourth quarter of 2007, a 1.3% decline from \$0.78 for the comparable year-ago period, and a 10% increase from \$0.70 per share reported in the third quarter of 2007. Fourth quarter 2007 net income was \$7.4 million, down from fourth quarter 2006 net income of \$7.8 million and up from third quarter 2007 net income of \$6.8 million. Fourth quarter 2007 results included a pre-tax charge of \$862,000 (\$517,000 after-tax effect or \$0.05 per diluted share) related to the VISA

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

Covered Litigation. Fourth quarter 2006 results included a pre-tax gain of \$2.6 million (\$1.5 million after-tax effect or \$0.15 per diluted share) on the sale of \$9.4 million of credit card loans.

Net interest income of \$19.5 million for the quarter ended December 31, 2007 was a record level for the Company, and was up \$1.5 million, or 8.4% from the quarter ended December 31, 2006. Net interest income benefited from growth in average interest-earning assets and average core deposits, which were up 8.6% and 6.0%, respectively, over average balances for the quarter ended December 31, 2006. The net interest margin was 3.70% for the fourth quarter 2007 compared to 3.64% for the fourth quarter of 2006. The recent cuts in the prime interest rate by the Federal Reserve will pressure asset yields in 2008.

Total noninterest income in the fourth quarter of 2007 was \$11.2 million, down \$928,000, or 7.6%, from the fourth quarter of 2006, mainly due to the nonrecurring pre-tax gains of \$2.6 million on the sale of the credit card portfolio. Key fee income categories showed solid growth over the same quarter of the prior year. Investment services income was up 23.2%, insurance revenues were up 8.4%, and service charges on deposit accounts were up 42.3%, over the same quarter in 2006.

Noninterest expense totaled \$19.6 million for the 2007 fourth quarter, up \$1.5 million, or 8.3%, from \$18.1 million for the 2006 fourth quarter. As previously mentioned, fourth quarter 2007 noninterest expenses include pre-tax accruals of \$862,000 related to the VISA Covered Litigation. Salary and benefit related expenses were up over the same quarter prior year reflecting annual salary adjustments and higher average FTEs.

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

In December 2005, the Compensation Committee of the Board of Directors of Tompkins approved the accelerated vesting of all currently outstanding unvested stock options, except for those options issued to executive officers of Tompkins. The affected options were previously awarded to officers and employees under the Company's 2001 Stock Option Plan. There is no change to the Company's compensation philosophy and all other terms and conditions applicable to such options, including the exercise prices and exercise periods, remain unchanged. No options held by executive vice presidents or chief executive officers are affected by the vesting acceleration. The acceleration of the unvested options contributed to the increase in total stock-based compensation expense, net of tax effects, determined under the fair value method shown above from \$757,000 in 2004 to \$1.9 million in 2005. As a result, the acceleration lowered compensation expense related to stock options by approximately \$1.2 million, net of taxes, which would have been recognized in its financial statements over future years. As a result of the acceleration, the Company also recognized \$63,000 of compensation expense in 2005 earnings. Compensation expense related to stock options was \$713,000 in 2007 and \$692,000 in 2006. The acceleration also resulted in options to purchase up to 221,307 shares of common stock becoming exercisable immediately. Without the acceleration, the options would have vested on dates ranging from April 18, 2006 to October 3, 2010. This action contributed to the increase in exercisable shares at year-end 2005 to 504,484 from 232,558 at year-end 2004.

The Company's stock-based employee compensation plan is described in Note 13 "Stock Plans and Stock Based Compensation", of this Report.

Statements of Financial Accounting Standards

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities -- Including an amendment of FASB Statement No. 115 ("SFAS 159"). SFAS 159 allows companies to report selected financial assets and liabilities at fair value. The changes in fair value are recognized in earnings and the assets and liabilities measured under this methodology are required to be displayed separately in the balance sheet. SFAS 159's objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS 159 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS 159 requires companies to provide additional information that will help investors and other users of financial statements to more easily understand the effect of the company's choice to use fair value on its earnings. It also requires entities to display the fair value of those assets and liabilities for which the company has chosen to use fair value on the face of the balance sheet. The Company elected to early adopt SFAS 159, effective January 1, 2007, and also apply the provisions of SFAS 157 Fair Value Measurements ("SFAS 157").

Declines in the fair value of held-to-maturity and available-for-sale securities below their cost that are deemed to be other than temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers, among other things, (i) the length of time and the extent to which the fair value has been less than cost, (ii) the financial condition and near-term prospects of the issuer, and (iii) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value, which could be maturity.

Management has the ability and intent to hold the securities classified as held-to-maturity until they mature, at which time the Company will receive full value for the securities. Furthermore, as of December 31, 2007 and December 31, 2006, management also had the ability and intent to hold the securities classified as available-for-sale for a period of time sufficient for a recovery of cost, which could be maturity. The unrealized losses are largely due to increases in market interest rates over the yields available at the time the underlying securities were purchased. The fair value is expected to recover as the bonds approach their maturity date or repricing date or if market yields for similar investments decline. Management does not believe any of the securities are impaired due to reasons of credit quality. Accordingly, as of December 31, 2007, and December 31, 2006, management believes the impairments detailed in the tables above are temporary and no impairment loss has been realized in the Company's Consolidated Statements of Income.

The Company pledges securities as collateral for public deposits and other borrowings, and sells securities under agreements to repurchase (see Note 10 Securities Sold Under Agreements to Repurchase and Federal Funds Purchased). Securities carried at \$577.5 million and \$584.0 million at December 31, 2007 and 2006, respectively, were either pledged or sold under agreements to repurchase.

As part of its asset/liability management strategy the Company may sell certain

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

residential mortgage loans in the secondary market. During 2007, 2006, and 2005, the Company sold residential mortgage loans totaling \$10.7 million, \$12.5 million, and \$16.5 million, respectively, and realized gains on these sales of \$159,000, \$177,000, and \$238,000, respectively. When residential mortgage loans are sold or securitized, the Company typically retains all servicing rights, which provides the Company with a source of fee income. In connection with the sales in 2007, 2006, and 2005, the Company recorded mortgage-servicing assets of \$46,000, \$294,000, and \$98,000, respectively. As of December 31, 2007, the Company serviced \$154.5 million of residential loans for others compared to \$162.0 million at December 31, 2006.

Amortization of mortgage servicing assets amounted to \$122,000 in 2007, \$116,000 in 2006 and \$127,000 in 2005. At December 31, 2007 and 2006, the Company serviced residential mortgage loans aggregating \$154.5 million and \$162.0 million, including loans securitized and held as available-for-sale securities. Mortgage servicing rights totaled \$1.1 million at December 31, 2007 and 2006. Loans held for sale, which are included in residential real estate in the table above, totaled \$482,000, and \$169,000 at December 31, 2007 and 2006, respectively. Residential mortgage loans secured in 2006 totaled \$32.0 million. No loans were securitized in 2007.

The Company also recorded goodwill of \$110,000 related to the acquisition of Flint Farrell Agency, and \$47,000 related to the acquisition of the assets of Francis M. Celona, CPA, P.C. Goodwill recorded in the December 2006 acquisition of the Carey McKinney Group was adjusted downward by \$29,000 based on additional information related to the valuation of certain assets acquired and liabilities assumed.

At December 31, 2007 the Company had core deposit intangible assets related to various acquisitions of \$257,000 compared to \$535,000 at December 31, 2006. The amortization of these intangible assets amounted to \$278,000 in 2007 and \$381,000 in 2006.

At December 31, 2007, other intangible assets, consisting of mortgage servicing rights, customer lists and contracts, and covenants-not-to-compete, totaled \$3.2 million compared with \$3.5 million at December 31, 2006.

The Company reviews its goodwill and intangible assets annually, or more frequently if conditions warrant, for impairment. Based on the Company's 2007 review, there was no impairment of its goodwill or intangible assets.

into repurchase agreements with the Federal Home Loan Bank ("FHLB") with maturities that extend through 2017. As of December 31, 2007, the Company had \$127.0 million in repurchase agreements with the FHLB, of which \$107.0 million mature over one year. Maturities of repurchase agreements due over one year include \$12.0 million in 2009, \$15.0 million in 2010, \$10.0 million in 2011, \$10.0 million in 2013, \$5.0 million in 2014, \$45.0 million in 2016, and \$10.0 million in 2017.

Securities sold under agreements to repurchase are stated at the amount of cash received in connection with the transaction. The Company may be required to provide additional collateral based on the fair value of the underlying securities.

Total securities sold under agreements to repurchase at December 31, 2007, includes a \$10.0 million, 3-year repo convertible FHLB advance at 5.046%, convertible at the end of 1 year; and a \$5.0 million, and a 7-year repo convertible FHLB advance at 4.715%, convertible at the end of 3 years, where the Company elected to apply the fair value option under SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities -- Including an amendment of FASB Statement No. 115 ("SFAS 159"). The \$15.0 million identified for fair value were selected because their durations were similar to the durations of trading securities. As of December 31, 2007, the aggregate fair value of the \$15.0 million of securities sold under agreements to repurchase was \$15.6 million. For the twelve months ended December 31, 2007, the fair value of these borrowings decreased by \$553,000. The change in fair value is included on the Company's Consolidated Statements of Income in "Mark-to-Market (Loss) Gain on Liabilities Held at Fair Value."

Federal funds purchased are short-term borrowings that typically mature within one to ninety days.

Note 12 Employee Benefit Plans

The Company maintains a noncontributory defined-benefit retirement and pension plan (the "Pension Plan") covering substantially all employees of the Company. The benefits are based on years of service and percentage of the employees' average compensation. Assets of the Company's Pension Plan are invested in common and preferred stock, U. S. Government securities, corporate bonds and notes, and mutual funds. At December 31, 2007, the plan assets included 38,357 shares of Tompkins common stock that had a fair value of \$1.5 million.

The Company maintains supplemental employee retirement plans (the "SERP") for certain executives. All benefits provided under the SERP are unfunded and the Corporation makes payments to plan participants.

The Company also maintains a post-retirement life and healthcare benefit plan (the "Life and Healthcare Plan"), which was amended in 2005. For employees commencing employment after January 1, 2005, the Company does not contribute towards the Life and Healthcare Plan. Retirees and employees who were eligible to retire when the Life and Healthcare Plan was amended were unaffected. Generally, all other employees were eligible for Health Savings Accounts ("HSA") with an initial balance equal to the amount of the Company's estimated then current liability. Contributions to the plan are limited to an annual contribution of 4% of the total HSA balances. Employees, upon retirement, will be able to utilize their HSA for qualified health costs and deductibles.

The Company accounts for the Pension Plan in accordance with Statement of Financial Accounting Standard (SFAS) No. 87 "Employers' Accounting for Pensions," and SFAS No. 88 "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits," as amended by SFAS No. 158 "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans". SFAS No. 158 requires companies to reflect each defined benefit and other postretirement benefits plan's funded status on the company's balance sheet. The Company implemented these provisions for the year ended December 31, 2006. The funded or unfunded status of the Pension Plan, Life and Healthcare Plan, and the SERP are recognized in the accompanying Consolidated Statements of Condition as other assets or other liabilities.

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

The Company engages independent, external actuaries to compute the amounts of liabilities and expenses relating to these plans, subject to the assumptions that the Company selects. The benefit obligation for these plans represents the liability of the Company for current and retired employees, and is affected primarily by the following: service cost (benefits attributed to employee service during the period); interest cost (interest on the liability due to the passage of time); actuarial gains/losses (experience during the year different from that assumed and changes in plan assumptions); and benefits paid to participants.

The following table sets forth the changes in the projected benefit obligation for the Pension Plan and SERP and the accumulated benefit obligation for the Life and Healthcare Plan; and the respective plan assets, and the plans' funded status and amounts recognized in the Company's consolidated statements of condition at December 31, 2007 and 2006 (the measurement dates of the plans).

Tompkins Trust Company offers post-retirement life and healthcare benefits, although as previously mentioned, has discontinued adding participants to the plan effective January 1, 2005. The weighted average annual assumed rate of increase in the per capita cost of covered benefits (the health care cost trend rate) is 8.25% beginning in 2007, and is assumed to decrease gradually to 5.0% in 2012 and beyond. For every 1% change in the assumed health care cost trend rate, service and interest costs will change approximately \$18,000 and the Company's benefit obligation will change approximately \$189,000.

Pension Protection Act of 2006

In August 2006, the President of the United States signed the Pension Protection Act of 2006 into law. Included in this legislation were changes to the method of valuing pension plan assets and liabilities for funding purposes, as well as the minimum funding levels required by 2008. The Company believes the new requirements will not have a material impact on the Company's cash flow in 2008, as the plan is currently fully funded. The Company will not be required to make a contribution if plan assets exceed plan obligations and current costs.

Cash Flows

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

Plan assets are amounts that have been segregated and restricted to provide benefits, and include amounts contributed by the Company and amounts earned from investing contributions, less benefits paid. The Company funds the cost of the SERP and the post-retirement medical and life insurance benefits on a pay-as-you-go basis.

Plan Assets

The Company's defined benefit retirement and pension plan weighted-average asset allocations at December 31, 2007 and 2006, by asset category are as follows:

| | 2007 | 2006 |
|-------------------------|-------------|-------------|
| Equity securities | 71% | 73% |
| Debt securities | 25% | 20% |
| Other | 4% | 7% |
| Total Allocation | 100% | 100% |

The Company is not required to make a contribution to its Pension Plan in 2008; however, the Company expects to contribute \$5.0 million to the Pension Plan during the first quarter of 2008.

To develop the expected long-term rate of return on asset assumption, the Company considered the historical returns and the future expectations for returns for each asset class, as well as target asset allocations of the pension portfolio. Based on this analysis, the Company selected 8.25% as the long-term rate of return on assets assumption.

The discount rate used to determine the Company's pension and other post-retirement benefit obligations as of December 31, 2007, and December 31, 2006, were determined by matching estimated benefit cash flows to a yield curve derived from Citigroup's regular bond yield and above-median bond yield curve at December 31, 2007.

It is the policy of the Trustees to invest the Pension Trust Fund (the "Fund") for total return. The Trustees seek the maximum return consistent with the interests of the participants and beneficiaries and prudent investment management. The management of the Fund's assets is in compliance with the guidelines established in the Company's Pension Plan and Trust Investment Policy, which is reviewed and approved annually by the Tompkins Board of Directors, and the Pension Investment Review Committee.

The intention is for the Fund to be prudently diversified. The Fund's investments will be invested among the fixed income, equity and cash equivalent sectors. The pension committee will designate minimum and maximum positions in

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

any of the sectors. In no case shall more than 10% of the Fund assets consist of qualified securities or real estate of the Company. In addition, the following investments are prohibited:

1. Restricted stock, private placements, short positions, calls, puts, or margin transactions;
2. Commodities, oil and gas properties, real estate properties, or
3. Any investment that would constitute a prohibited transaction as described in the Employee Retirement Income Security Act of 1974 ("ERISA"), section 407, 29 U.S.C. 1106.

In general, the investment in debt securities is limited to readily marketable debt securities having a Standard & Poor's rating of "A" or Moody's rating of "A", securities of, or guaranteed by the United States Government or its agencies, or obligations of banks or their holding companies that are rated in the three highest ratings assigned by Fitch Investor Service, Inc. In addition, investments in equity securities must be listed on the New York Stock Exchange (NYSE), the American Stock Exchange (AMEX) or are traded on the national Over The Counter market or listed on the NASDAQ. Cash equivalents generally may be United States Treasury obligations, commercial paper having a Standard & Poor's rating of "A-1" or Moody's National Credit Officer rating of "P-1" or higher.

The Company's practice is to issue original issue shares of its common stock upon exercise of stock options rather than treasury shares. The Company granted 296,250 options to its employees in 2007, 234,465 in 2006, and 2,200 in 2005. The Company uses the Black-Scholes option-valuation model to determine the fair value of each option at the date of grant. This valuation model estimates fair value based on the assumptions listed in the table below. The risk-free interest rate is the interest rate available on zero-coupon U.S. Treasury instruments with a remaining term equal to the expected term of the share option at the time of grant. The expected dividend yield is based on dividend trends and the market price of the Company's stock price at grant. Volatility is largely based on historical volatility of the Company's stock price. Expected term is based upon historical experience of employee exercises and terminations as well as the vesting term of the grants.

Note 14 Income Taxes

The income tax expense (benefit) attributable to income from operations is summarized as follows:

| (in thousands) | Current | Deferred | |
|----------------|-----------|------------|----|
| 2007 | | | |
| Federal | \$ 12,806 | \$ (1,351) | \$ |
| State | 714 | (178) | |

This analysis does not include recorded deferred tax liabilities of \$893,000 as of December 31, 2007 and deferred tax assets of \$3.2 million as of December 31, 2006 related to the net unrealized holding gain/loss in the available-for-sale securities portfolio. In addition, the analysis excludes the recorded deferred tax assets of \$5.5 million and \$4.7 million, as of December 31, 2007 and 2006, respectively, related to the employee benefit plans.

Realization of deferred tax assets is dependent upon the generation of future taxable income or the existence of sufficient taxable income within the carry-back period. A valuation allowance is provided when it is more likely than not that some portion of the deferred tax assets will not be realized. In assessing the need for a valuation allowance, management considers the scheduled reversal of the deferred tax liabilities, the level of historical taxable income, and the projected future taxable income over the periods in which the temporary differences comprising the deferred tax assets will be deductible. Based on its assessment, management determined that no valuation allowance is necessary at December 31, 2007 and 2006.

The tax years open to examination by Federal taxing authorities are 2003 through 2006, and the tax years open to State taxing authorities are 2004 through 2006.

Note 15 Commitments and Contingent Liabilities

The Company, in the normal course of business, is a party to financial instruments with off-balance-sheet risk to meet the financial needs of its customers. These financial instruments include loan commitments, stand-by letters of credit, and unused portions of lines of credit. The contract, or notional amount, of these instruments represents the Company's involvement in particular classes of financial instruments. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized on the consolidated statements of condition.

Financial Accounting Standards Board ("FASB") Interpretation No. 45 (FIN No.

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

45), Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others; an Interpretation of FASB Statements No. 5, 57, and 107 and rescission of FASB Interpretation No. 34 requires certain disclosures and potential liability recognition for the fair value at issuance of guarantees that fall within its scope. Based upon management's interpretation of FIN No. 45, the Company currently does not issue any guarantees that would require liability recognition under FIN No. 45, other than standby letters of credit. The Company extends standby letters of credit to its customers in the normal course of business. The standby letters of credit are generally short-term. As of December 31, 2007, the Company's maximum potential obligation under standby letters of credit was \$52.2 million. Management uses the same credit policies to extend standby letters of credit that it uses for on-balance sheet lending decisions and may require collateral to support standby letters of credit based upon its evaluation of the counterparty. Management does not anticipate any significant losses as a result of these transactions.

(1) Lease receivables, although excluded from the scope of SFAS No. 107, are included in the estimated fair value amounts at their carrying value.

The following methods and assumptions were used in estimating fair value disclosures for financial instruments.

CASH AND CASH EQUIVALENTS: The carrying amounts reported in the consolidated statements of condition for cash, noninterest-bearing deposits, and Federal funds sold approximate the fair value of those assets.

SECURITIES: Fair values for securities are based on quoted market prices, where available, as provided by third party pricing vendors. If quoted market prices were not available, fair values are based on quoted market prices of comparable instruments in active markets and/or based upon matrix pricing methodology, which uses comprehensive interest rate tables to determine market price, movement and yield relationships. The carrying amount of FHLB and FRB stock

Edgar Filing: TOMPKINS FINANCIAL CORP - Form 10-K

approximates fair value. If the stock is redeemed, the Company will receive an amount equal to the par value of the stock.

LOANS AND LEASES: The fair values of residential loans are estimated using discounted cash flow analyses, based upon available market benchmarks for rates and prepayment assumptions. The fair values of commercial and consumer loans are estimated using discounted cash flow analyses, based upon interest rates currently offered for loans and leases with similar terms and credit quality.

DEPOSITS: The fair values disclosed for noninterest bearing accounts and accounts with no stated maturities are equal to the amount payable on demand at the reporting date. The fair value of time deposits is based upon discounted cash flow analyses using rates offered for FHLB advances, which is the Company's primary alternative source of funds.

SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE: The carrying amounts of repurchase agreements and other short-term borrowings approximate their fair values. Fair values of long-term borrowings are estimated using a discounted cash flow approach, based on current market rates for similar borrowings. For securities sold under agreements to repurchases where the Company has elected the fair value option, the Company also receives pricing information from third parties, including the FHLB.

OTHER BORROWINGS: The fair values of other borrowings are estimated using discounted cash flow analysis, discounted at the Company's current incremental borrowing rate for similar borrowing arrangements. For other borrowings where the Company has elected the fair value option, the Company also receives pricing information from third parties, including the FHLB.

OFF-BALANCE-SHEET INSTRUMENTS: The fair values of outstanding loan commitments, including unused lines of credit and stand-by letters of credit are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements, the counterparties' credit standing, and discounted cash flow analyses. In fixed rate loan commitments, fair value estimates also consider the difference between current market rates and the committed rates. At December 31, 2007 and 2006, the fair values of these instruments approximate the value of the related fees and are not significant.

Note 20 Segment and Related Information

The Company manages its operations through two business segments: banking and financial services. Financial services activities consist of the results of the Company's trust, wealth and risk management operations. All other activities, including holding company activities, are considered banking. The Company accounts for intercompany fees and services at an estimated fair value according to regulatory requirements for the services provided. Intercompany items relate primarily to the use of human resources, accounting and marketing services provided by any of the Banks and the holding company. All other accounting policies are the same as those described in the summary of significant
