Harry S. Pangas, Esq.
Sutherland Asbill & Brennan LLP
700 Sixth Street, NW, Suite 700
Washington, DC 20001-3980
Tel: (202) 383-0100
Fax: (202) 637-3593

Approximate date of proposed public offering: As soon as practicable after the effective date of this Registration Statement.

If any of the securities being registered on this form are offered on a delayed or continuous basis in reliance on Rule 415 under the Securities Act of 1933, other than securities offered in connection with a dividend reinvestment plan, check the following box.

It is proposed that this filing will become effective (check appropriate box):

when declared effective pursuant to section 8(c).

CALCULATION OF REGISTRATION FEE UNDER THE SECURITIES ACT OF 1933

| Title of Securities Being Registered | Amount Being Registered | Proposed Maximum Offering Price Per Unit | Proposed Maximum Aggregate Offering Price ⁽¹⁾ | Amount of Registration Fee ⁽¹⁾ |
|---|-------------------------|--|--|---|
| Common Stock, \$0.001 par value per share ⁽²⁾⁽³⁾ | | | | |
| Preferred Stock, \$0.001 par value per share ⁽²⁾ | | | | |
| Debt Securities ⁽⁴⁾ | | | | |
| Warrants ⁽⁵⁾ | | | | |
| Subscription Rights ⁽²⁾ | | | | |
| Total ⁽⁶⁾ | | | \$ 300,000,000 ⁽⁶⁾ | \$ 38,640 |
| Common Stock, \$0.001 par value per share ⁽⁷⁾ | 1,875,858 | \$ 15.35 ⁽⁸⁾ | \$ 28,794,421 | \$ 3,709 |
| Total | | | 328,794,421 | \$ 42,349 ⁽⁹⁾ |

Estimated pursuant to Rule 457(o) under the Securities Act of 1933 solely for the purpose of determining the registration fee. The proposed maximum offering price per security will be determined, from time to time, by the Registrant in connection with the sale by the Registrant of the securities registered under this Registration Statement.

Subject to Note 6 below, there is being registered hereunder an indeterminate number of shares of common stock, preferred stock or subscription rights as may be sold, from time to time, separately or as units in combination with other securities registered hereunder.

Includes such indeterminate number of shares of common stock as may, from time to time, be issued upon conversion or exchange of other securities registered hereunder, to the extent any such securities are, by their terms, convertible or exchangeable for common stock.

Subject to Note 6 below, there is being registered hereunder an indeterminate number of debt securities as may be sold, from time to time, separately or as units in combination with other securities registered hereunder. If any debt securities are issued at an original issue discount, then the offering price shall be in such greater principal amount as shall result in an aggregate price to investors not to exceed \$300,000,000.

Subject to Note 6 below, there is being registered hereunder an indeterminate number of warrants as may be sold, from time to time, separately or as units in combination with other securities registered hereunder, representing rights to purchase common stock, preferred stock or debt securities.

In no event will the aggregate offering price of all securities issued by us from time to time pursuant to this Registration Statement exceed \$300,000,000.

(7) These shares are being sold by selling stockholders.

Pursuant to Rule 457(c) of the Securities Act of 1933, as amended, the proposed maximum aggregate offering price and the amount of the registration fee have been determined on the basis of the high and low market prices of the Company's common stock reported on the New York Stock Exchange on December 2, 2013.

(9) Of this amount, \$6,820 has been previously paid.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

TABLE OF CONTENTS

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion dated December 4, 2013

PROSPECTUS

Stellus Capital Investment Corporation

**Common Stock
Preferred Stock
Debt Securities
Warrants
Subscription Rights**

We may offer, from time to time in one or more offerings, up to \$300,000,000 of our common stock, preferred stock, debt securities, subscription rights or warrants to purchase common stock, preferred stock or debt securities, which we refer to, collectively, as the securities. Our securities may be offered at prices and on terms to be disclosed in one or more supplements to this prospectus. In addition, this prospectus relates to 1,875,858 shares of our common stock that may be sold by the selling stockholder identified under Selling Stockholder. You should read this prospectus and the applicable prospectus supplement carefully before you invest in our securities.

Our securities may be offered directly to one or more purchasers through agents designated from time to time by us, or to or through underwriters or dealers. The prospectus supplement relating to the offering will identify any agents or underwriters involved in the sale of our securities, and will disclose any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters or among our underwriters or the basis upon which such amount may be calculated. See Plan of Distribution. We may not sell any of our securities through agents, underwriters or dealers without delivery of a prospectus supplement describing the method and terms of the offering of such securities.

We are an externally managed, closed-end, non-diversified management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, or the 1940 Act. Our investment objective is to maximize the total return to our stockholders in the form of current income and capital appreciation through debt and related equity investments in middle-market companies. The companies in which we invest are typically highly leveraged, and, in most cases, our investments in such companies will not be rated by national rating agencies. If such investments were rated, we believe that they would likely receive a rating below investment grade (i.e., below BBB or Baa), which are often referred to as junk. We are an emerging growth company

under the federal securities laws and are subject to reduced public company reporting requirements.

On December 2, 2013, the last reported sale price of our common stock on the New York Stock Exchange was \$15.43. We are required to determine the net asset value per share of our common stock on a quarterly basis. On September 30, 2013, our net asset value per share was \$14.57.

Shares of closed-end investment companies, including business development companies, frequently trade at a discount to their net asset value. If our shares trade at a discount to our net asset value, it will likely increase the risk of loss for purchasers in this offering. In this regard, on July 29, 2013, our stockholders voted to allow us to issue common stock at a price below net asset value per share for the period ending on the earlier of the one year anniversary of the date of our 2013 Annual Meeting of Stockholders and the date of our 2014 Annual Meeting of Stockholders, which is expected to be held in June 2014. Our stockholders did not specify a maximum discount below net asset value at which we are able to issue our common stock, although the number of shares sold in each offering may not exceed 25% of our outstanding common stock immediately prior to such sale. In addition, we cannot issue shares of our common stock below net asset value unless our board of directors determines that it would be in our and our stockholders' best interests to do so. Sales of common stock at prices below net asset value per share dilute the interests of existing stockholders, have the effect of reducing our net asset value per share and may reduce our market price per share. In addition, continuous sales of common stock below net asset value may have a negative impact on total returns and could have a negative impact on the market price of our shares of common stock. See **Sales of Common Stock Below Net Asset Value.**

Investing in our common stock involves a high degree of risk. Before buying any shares, you should read the discussion of the material risks of investing in our common stock in **Risk Factors beginning on page 17 of this prospectus.**

This prospectus, and the accompanying prospectus supplement, contain important information you should know before investing in our common stock. Please read this prospectus and the accompanying prospectus supplement before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission, or SEC. The SEC also maintains a website at <http://www.sec.gov> that contains such information. This information is also available free of charge by contacting us at 4400 Post Oak Parkway, Suite 2200, Houston, TX 77027, Attention: Investor Relations, or by calling us collect at (713) 292-5400 or on our website at www.stelluscapital.com. Information contained on our website is not incorporated by reference into this prospectus, and you should not consider that information to be part of this prospectus or the accompanying prospectus supplement.

The Securities and Exchange Commission has not approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is , 2013

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the SEC using the shelf registration process. Under the shelf registration process, we may offer, from time to time, up to \$300,000,000 of our securities on terms to be determined at the time of the offering. In addition, this prospectus relates to 1,875,858 shares of our common stock that may be sold by the selling stockholder identified under Selling Stockholder. This prospectus provides you with a general description of the securities that we may offer. Each time we use this prospectus to offer securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. Please carefully read this prospectus and any accompanying prospectus supplement together with the additional information described under Risk Factors and Available Information before you make an investment decision.

No dealer, salesperson or other person is authorized to give any information or to represent anything not contained in this prospectus or any accompanying supplement to this prospectus. You must not rely on any unauthorized information or representations not contained in this prospectus or any accompanying prospectus supplement as if we had authorized it. This prospectus and any accompanying prospectus supplement do not constitute an offer to sell or a solicitation of any offer to buy any security other than the registered securities to which they relate, nor do they constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction to any person to whom it is unlawful to make such an offer or solicitation in such jurisdiction. The information contained in this prospectus and any accompanying prospectus supplement is accurate as of the dates on their covers. Our financial condition, results of operations and prospects may have changed since that date. To the extent required by law, we will amend or supplement the information contained in this prospectus and any accompanying prospectus supplement to reflect any material changes to such information subsequent to the date of the prospectus and any accompanying prospectus supplement and prior to the completion of any offering pursuant to the prospectus and any accompanying prospectus supplement.

TABLE OF CONTENTS

PROSPECTUS SUMMARY

This summary highlights some of the information in this prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read the more detailed information set forth under Risk Factors and the other information included in this prospectus and any prospectus supplement carefully.

Except as otherwise indicated, the terms we, us, our, and the Company refer to Stellus Capital Investment Corporation; and Stellus Capital Management refers to our investment adviser and administrator, Stellus Capital Management, LLC.

Stellus Capital Investment Corporation

We are an externally managed, closed-end, non-diversified management investment company that has elected to be regulated as a business development company under the 1940 Act, and intends to elect to be treated as a RIC for U.S. federal income tax purposes. We originate and invest primarily in private middle-market companies (typically those with \$5.0 million to \$50.0 million of EBITDA (earnings before interest, taxes, depreciation and amortization)) through first lien, second lien, unitranche and mezzanine debt financing, often times with a corresponding equity investment. Unitranche debt is typically structured as first lien loans with certain risk characteristics of mezzanine debt. Mezzanine debt includes senior unsecured and subordinated loans.

We source investments primarily through the extensive network of relationships that the principals of Stellus Capital Management have developed with financial sponsor firms, financial institutions, middle-market companies, management teams and other professional intermediaries. The companies in which we invest are typically highly leveraged, and, in most cases, our investments in such companies will not be rated by national rating agencies. If such investments were rated, we believe that they would likely receive a rating below investment grade (i.e., below BBB or Baa), which are often referred to as junk. Our investment activities are managed by our investment adviser, Stellus Capital Management, an investment advisory firm led by Robert T. Ladd and other senior investment professionals.

Our investment objective is to maximize the total return to our stockholders in the form of current income and capital appreciation by:

- accessing the extensive origination channels that have been developed and established by the Stellus Capital Management investment team that include long-standing relationships with private equity firms, commercial banks, investment banks and other financial services firms;
- investing in what we believe to be companies with strong business fundamentals, generally within our core middle-market company focus;
- focusing on a variety of industry sectors, including business services, energy, general industrial, government services, healthcare, software and specialty finance;
- directly originating transactions rather than participating in broadly syndicated financings;
- applying the disciplined underwriting standards that the Stellus Capital Management investment team has developed over their extensive investing careers; and
- capitalizing upon the experience and resources of the Stellus Capital Management investment team to monitor our investments.

Portfolio Composition

Our investments generally range in size from \$5 million to \$30 million. We may also selectively invest in larger positions, and we generally expect that the size of our larger positions will increase in proportion to the size of our capital base. Pending such investments, we may reduce our outstanding indebtedness or invest in cash, cash equivalents, U.S. government securities and other high-quality debt investments with a maturity of one year or less. In the future, we may adjust opportunistically the percentage of our assets held in various types of loans, our principal loan sources and the industries to which we have greatest exposure, based on market conditions, the credit cycle, available financing and our desired risk/return profile.

1

TABLE OF CONTENTS

As of September 30, 2013, we had investments in 23 portfolio companies. The fair value of the investments was \$243.6 million. As of September 30, 2013, our portfolio included approximately 24.9% first lien debt, 32.5% second lien debt, and 41.8% mezzanine debt and 0.8% of equity investments at fair value, of which 46% is invested in fixed-rate debt and the remaining 54% is invested in floating rate debt.

The weighted average yield on all of our debt investments at September 30, 2013, was approximately 11.4% of which 10.8% will be current cash interest. The weighted average yield was computed using the effective interest rates for all debt investments within the initial portfolio, including accretion of original issue discount.

Stellus Capital Management

Stellus Capital Management manages our investment activities and is responsible for analyzing investment opportunities, conducting research and performing due diligence on potential investments, negotiating and structuring our investments, originating prospective investments and monitoring our investments and portfolio companies on an ongoing basis. Stellus Capital Management is an investment advisory firm led by the former head, Robert T. Ladd, and certain senior investment professionals of the direct capital business of D. E. Shaw & Co., L.P. and its associated investment funds and affiliated entities (collectively, the D. E. Shaw group), which was spun out of the D. E. Shaw group in January 2012. The Stellus Capital Management investment team was responsible for helping the D. E. Shaw group build its middle-market direct investment business until it was spun out in January 2012. The senior investment professionals of Stellus Capital Management have an average of over 24 years of investing, corporate finance, restructuring, consulting and accounting experience and have worked together at several companies including the D. E. Shaw group. The Stellus Capital Management investment team has a wide range of experience in middle-market investing, including originating, structuring and managing loans and debt securities through market cycles. The Stellus Capital Management investment team continues to provide investment advisory services to the D. E. Shaw group with respect to an approximately \$440 million investment portfolio (as of September 30, 2013) in middle-market companies pursuant to sub-advisory arrangements.

In addition to serving as our investment adviser, Stellus Capital Management currently manages a private credit fund that has an investment strategy that is identical to our investment strategy and an energy private equity funds. We intend to co-invest with investment funds, accounts and investment vehicles managed by Stellus Capital Management (other than the D. E. Shaw group funds, as defined below) where doing so is consistent with our investment strategy as well as applicable law (including the terms and conditions of any exemptive order issued by the SEC) and SEC staff interpretations. We believe that such co-investments may afford us additional investment opportunities and an ability to achieve greater diversification. We will not co-invest with the energy private equity funds, as the energy private equity funds will focus on predominantly equity-related investments and we will focus on predominantly credit-related investments.

Stellus Capital Management is headquartered in Houston, Texas, and also maintains offices in the New York City area and the Washington, D.C. area.

Market Opportunity

We originate and invest primarily in private middle-market companies through first lien, second lien, unitranche and mezzanine debt financing, often times with a corresponding equity investment. We believe the environment for investing in middle-market companies is attractive for several reasons, including:

Robust Demand for Debt Capital. We believe that private equity firms have significant committed but uncalled capital, a large portion of which is still available for investment in the United States. We expect the large amount of uninvested capital commitments will drive buyout activity over the next several years, which should, in turn, create lending opportunities for us. In addition to increased buyout activity, a high volume of senior secured and high yield debt was originated in the calendar years 2004 through 2007 and will come due in the near term and, accordingly, we believe that new financing opportunities will increase as many companies seek to refinance this indebtedness.

Reduced Availability of Capital for Middle-Market Companies. We believe there are fewer providers of, and less capital available for financing to middle-market companies, as compared to the time period prior to the recent economic downturn. We believe that, as a result of that downturn, many financing providers have

TABLE OF CONTENTS

chosen to focus on large, liquid corporate loans and managing capital markets transactions rather than lending to middle-market businesses. In addition, we believe recent regulatory changes, including the adoption of the Dodd-Frank Act and the introduction of new international capital and liquidity requirements under the Basel III Accords, or Basel III, have caused banks to curtail their lending to middle-market-companies.

Attractive Deal Pricing and Structures. We believe that the pricing of middle-market debt investments is higher, and the terms of such investments are more conservative, compared to larger liquid, public debt financings, due to the more limited universe of lenders as well as the highly negotiated nature of these financings. These transactions tend to offer stronger covenant packages, higher interest rates, lower leverage levels and better call protection compared to larger financings. In addition, middle-market loans typically offer other investor protections such as default penalties, lien protection, change of control provisions and information rights for lenders.

Specialized Lending Requirements. Lending to middle-market companies requires in depth diligence, credit expertise, restructuring experience and active portfolio management. We believe that several factors render many U.S. financial institutions ill-suited to lend to middle-market companies. For example, based on the experience of Stellus Capital Management's investment team, lending to middle-market companies in the United States (a) is generally more labor intensive than lending to larger companies due to the smaller size of each investment and the fragmented nature of the information available with respect to such companies, (b) requires specialized due diligence and underwriting capabilities, and (c) may also require more extensive ongoing monitoring by the lender. We believe that, through Stellus Capital Management, we have the experience and expertise to meet these specialized lending requirements.

Competitive Strengths

We believe that the following competitive strengths will allow us to achieve positive returns for our investors:

Experienced Investment Team. Through our investment adviser, Stellus Capital Management, we have access to the experience and expertise of the Stellus Capital Management investment team, including its senior investment professionals who have an average of over 24 years of investing, corporate finance, restructuring, consulting and accounting experience and have worked together at several companies. The Stellus Capital Management investment team has a wide range of experience in middle-market investing, including originating, structuring and managing loans and debt securities through market cycles. We believe the members of Stellus Capital Management's investment team are proven and experienced, with extensive capabilities in leveraged credit investing, having participated in these markets for the predominant portion of their careers. We believe that the experience and demonstrated ability of the Stellus Capital Management investment team to complete transactions enhances the quantity and quality of investment opportunities available to us.

Established, Rigorous Investment and Monitoring Process. The Stellus Capital Management investment team has developed an extensive review and credit analysis process. Each investment that is reviewed by Stellus Capital Management is brought through a structured, multi-stage approval process. In addition, Stellus Capital Management takes an active approach in monitoring all investments, including reviews of financial performance on at least a quarterly basis and regular discussions with management. Stellus Capital Management's investment and monitoring process and the depth and experience of its investment team should allow it to conduct the type of due diligence and monitoring that enables it to identify and evaluate risks and opportunities.

Demonstrated Ability to Structure Investments Creatively. Stellus Capital Management has the expertise and ability to structure investments across all levels of a company's capital structure. While at the D. E. Shaw group, the Stellus Capital Management investment team invested approximately \$5.4 billion across the entire capital structure in 193

middle-market companies. These investments included secured and unsecured debt and related equity securities. Furthermore, we believe that current market conditions will allow us to structure attractively priced debt investments and may allow us to incorporate other return-enhancing mechanisms such as commitment fees, original issue discounts, early redemption premiums, payment-in-kind, or PIK, interest or some form of equity securities.

3

TABLE OF CONTENTS

Resources of Stellus Capital Management Platform. We will have access to the resources and capabilities of Stellus Capital Management, which has 15 investment professionals, including Messrs. Ladd, D Angelo, Davis and Overbergen, who are supported by one managing director, six principals, two vice presidents and two analysts. These individuals have developed long-term relationships with middle-market companies, management teams, financial sponsors, lending institutions and deal intermediaries by providing flexible financing throughout the capital structure.

We believe that these relationships will provide us with a competitive advantage in identifying investment opportunities in our target market. We also expect to benefit from Stellus Capital Management's due diligence, credit analysis, origination and transaction execution experience and capabilities, including the support provided with respect to those functions by Mr. Huskinson, who serves as our chief financial officer and chief compliance officer, and his staff of four additional mid- and back-office professionals.

SBIC License

We have applied for a license to form and operate a small business investment company subsidiary, or SBIC subsidiary; however, the application is subject to approval by the Small Business Administration, or SBA. We can make no assurances that the SBA will approve our application, or of the timeframe in which we would receive a license, should one ultimately be granted. The SBIC subsidiary would be allowed to issue SBA-guaranteed debentures up to a maximum of \$150 million under current SBIC regulations, subject to required capitalization of the SBIC subsidiary and other requirements. SBA guaranteed debentures generally have longer maturities and lower interest rates than other forms of debt that may be available to us, and we believe therefore would represent an attractive source of debt capital.

Conflicts of Interests

We may have conflicts of interest arising out of the investment advisory activities of Stellus Capital Management, including those described below.

Our investment strategy includes investments in secured debt (including first lien, second lien and unitranche) and mezzanine debt (including senior unsecured and subordinated debt), as well as related equity securities of private middle-market companies. Stellus Capital Management also manages, and in the future may manage, other investment funds, accounts or investment vehicles that invest or may invest in assets eligible for purchase by us. For example, Stellus Capital Management currently manages a private credit fund that has an investment strategy that is identical to our investment strategy. Stellus Capital Management also provides non-discretionary advisory services to the D. E. Shaw group, pursuant to sub-advisory arrangements, with respect to a private investment fund and a strategy of a private multi-strategy investment fund (collectively with the D. E. Shaw group fund, the D. E. Shaw group funds) to which the D. E. Shaw group serves as investment adviser that have an investment strategy similar to our investment strategy. Our investment policies, fee arrangements and other circumstances may vary from those of other investment funds, accounts or investment vehicles managed by Stellus Capital Management.

We intend to co-invest with investment funds, accounts and investment vehicles managed by Stellus Capital Management (other than the D. E. Shaw group funds) where doing so is consistent with our investment strategy as well as applicable law (including the terms and conditions of any exemptive order issued by the SEC) and SEC staff interpretations. In this regard, we have received exemptive relief from the SEC to permit us to co-invest with investment funds, accounts and investment vehicles managed by Stellus Capital Management (other than the D. E. Shaw group funds), including the private credit fund that is also managed by Stellus Capital Management, where terms other than price are negotiated.

In addition, as of September 30, 2013, our portfolio consisted of 10 assets in 7 portfolio companies acquired from the D. E. Shaw group fund to which the D. E. Shaw group serves as investment adviser. Stellus Capital Management provides non-discretionary advisory services with respect to the D. E. Shaw group fund pursuant to a sub-advisory arrangement. However, the D. E. Shaw group fund has retained equity investments in 6 of those 7 portfolio companies. To the extent that our investments in these portfolio companies need to be restructured or that we choose to exit these investments in the future, our ability to do so may be limited if such restructuring or exit also involves an affiliate or the D. E. Shaw group fund therein because such a transaction could be considered a joint transaction prohibited by the 1940 Act in the absence of our receipt of relief from the SEC in connection with such transaction.

For example, if the D. E. Shaw group fund were

4

TABLE OF CONTENTS

required to approve a restructuring of our investment in one of these portfolio companies in its capacity as an equity holder thereof and the D. E. Shaw group fund were deemed to be our affiliate, such involvement by the D. E. Shaw group fund in the restructuring transaction may constitute a prohibited joint transaction under the 1940 Act. However, we do not believe that our ability to restructure or exit these investments will be significantly hampered due to the fact that the equity investments retained by the D. E. Shaw group fund are minority equity positions and, as a result, it is unlikely that the D. E. Shaw group fund will be or will be required to be involved in any such restructurings or exits. Moreover, although we have received exemptive relief in relation to certain joint transactions with certain investment funds, accounts and investment vehicles affiliated with Stellus Capital Management, we do not intend to apply such exemptive relief to the D. E. Shaw group funds sub-advised by Stellus Capital Management. See Risk Factors Our ability to sell or otherwise exit investments in which affiliates of Stellus Capital Management also have an investment may be restricted and Related Party Transactions and Certain Relationships.

In the course of our investing activities, we pay management and incentive fees to Stellus Capital Management. We have entered into an investment advisory agreement with Stellus Capital Management that provides that these fees are based on the value of our gross assets. Because these fees are based on the value of our gross assets, Stellus Capital Management will benefit when we incur debt or use leverage. This fee structure may encourage Stellus Capital Management to cause us to borrow money to finance additional investments. Our board of directors is charged with protecting our interests by monitoring how Stellus Capital Management addresses these and other conflicts of interests associated with its management services and compensation. While our board of directors is not expected to review or approve each investment decision, borrowing or incurrence of leverage, our independent directors will periodically review Stellus Capital Management's services and fees as well as its portfolio management decisions and portfolio performance. See Risk Factors The incentive fee structure we have with Stellus Capital Management may create incentives that are not fully aligned with the interests of our stockholders.

Stellus Capital Management may from time to time incur expenses in connection with investments to be made on our behalf and on behalf of other investment funds, accounts and investment vehicles managed by Stellus Capital Management. Stellus Capital Management will allocate such expenses on a pro rata basis according to the participation in a transaction, subject to oversight by our board of directors.

Corporate Information
