RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.
Notes to Financial Statements
September 30, 2003

(1) Organization and Business Purpose

Renaissance Capital Growth & Income Fund III, Inc. (the Fund), is a non-diversified, closed-end fund that has elected to be treated as a Business Development Company under the Investment Company Act of 1940, as amended (1940 Act). The Fund, a Texas corporation, was organized in 1994 and commenced operations in 1995. The investment objective of the Fund is to provide its shareholders with current income and long-term capital appreciation by investing primarily in privately-placed convertible and equity securities of emerging growth public companies (portfolio companies). The Fund's investment adviser is RENN Capital Group, Inc. (Investment Adviser).

(2) Summary of Significant Accounting Policies

(a) Valuation of Investments

Portfolio investments are stated at quoted market or fair value as determined by the Investment Adviser (note 7). The securities held by the Fund are primarily unregistered and their value does not necessarily represent the amounts that may be realized from their immediate sale or disposition.

(b) Other

The Fund records security transactions on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on the accrual basis.

(c) Cash and Cash Equivalents

The Fund considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

24

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.
Notes to Financial Statements
September 30, 2003

(d) Federal Income Taxes

The Fund has elected the special income tax treatment available to "regulated investment companies" ("RIC") under Subchapter M of the Internal Revenue Code (IRC) in order to be relieved of federal income tax on that part of its net investment income and realized capital gains that it pays out to its shareholders. The Fund's policy is to comply with the requirements of the IRC that are applicable to regulated investment companies. Such requirements include, but are not limited to certain qualifying income tests, asset diversification tests and distribution of substantially all of the Fund's taxable investment income to its shareholders. It is the intent of management to comply with all IRC requirements as they pertain to a RIC. Failure to qualify as a RIC would subject the Fund to federal income tax as if the Fund were an ordinary corporation, which could result in a substantial reduction in the Fund's net assets as well as the amount of income available for distribution to shareholders.

(e) Net Income per Share

Net income per share is based on the weighted average of shares outstanding of 4,351,718 during the period.

(f) Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(3) Reclassifications

Certain reclassifications of prior period amounts have been made in the statement of cash flows to conform to the current period presentation.

(4) Due to Broker

The Fund conducts business with a broker for its investment activities. The clearing and depository operations for the investment activities are performed pursuant to agreements with this broker. Due to broker represents a margin loan payable to the broker, which is secured by investments in securities maintained with the broker. Cash and cash equivalents related to the margin loan payable are held by the broker as collateral for the margin loan. The Fund is subject to credit risk to the extent the broker is unable

the Fund's behalf. The Investment Adviser actively monitors the Fund's exposure to the broker and believes the likelihood of loss under those circumstances is remote.

(5) Management and Incentive Fees

The Investment Adviser for the Fund is registered as an investment adviser under the Investment Advisers Act of 1940. Pursuant to an Investment Advisory Agreement (the Agreement), the Investment Adviser performs certain services, including certain management, investment advisory and administrative services necessary for the operation of the Fund. In addition, under the Agreement, the Investment Adviser is reimbursed by the Fund for certain administrative expenses. A summary of fees and reimbursements paid by the Fund under the Agreement, the prospectus and the original offering document are as follows:

- o The Investment Adviser receives a management fee equal to a quarterly rate of 0.4375% (1.75% annually) of the Fund's Net Assets, as determined at the end of such quarter with each such payment to be due as of the last day of the calendar quarter. The Fund incurred \$287,577 and \$190,870 for such management fees during the quarters ended September 30, 2003, and September 30, 2002, respectively, and \$674,456 and \$669,183 for the nine months ended September 30, 2003, and September 30, 2002, respectively. Amounts payable for such fees at September 30, 2003, and September 30, 2002, were \$287,577 and \$185,405, respectively, and are included in Accounts payable - affiliate on the statements of assets and liabilities.
- o The Investment Adviser receives an incentive fee in an amount equal to 20% of the Fund's realized capital gains in excess of realized capital losses of the Fund after allowance for any unrealized capital losses in excess of unrealized capital gains on the portfolio investments of the Fund. The incentive fee is calculated, accrued, and paid on a quarterly basis. The Fund incurred \$794,919 during the quarter ended September 30, 2003, for such incentive fees, and \$919,179 for the nine months ended September 30, 2003. The Fund did not incur any incentive fees for the quarter ended September 30, 2002, or for the nine months ended September 30, 2002. Amounts payable for such fees at September 30, 2003 were \$794,919, which are included in Accounts payable - affiliate on the statements of assets and liabilities.
- o The Investment Adviser was reimbursed by the Fund for administrative expenses paid by the Investment Adviser on behalf of the Fund. Such reimbursements were \$12,493 and \$19,129 during the quarters ended September 30, 2003, and September 30, 2002, respectively, and \$73,065

26

and \$59,801 for the nine months ended September 30, 2003, and September 30, 2002, respectively. Such reimbursements are included in general and administrative expenses in the accompanying statements of operations.

(6) Eligible Portfolio Companies and Investments

(a) Eligible Portfolio Companies.

The Fund invests primarily in convertible securities and equity investments of companies that qualify as Eligible Portfolio Companies as defined in Section 2(a)(46) of the 1940 Act or in securities that otherwise qualify for investment as permitted in Section 55(a)(1) through (5) of the 1940 Act. Under the provisions of the 1940 Act at least 70% of the fund's assets, as defined under the 1940 Act, must be invested in Eligible Portfolio Companies. In the event the Fund has less than 70% of its assets invested in eligible portfolio investments, then it will be prohibited from making non-eligible investments until such time as the percentage of eligible investments again exceeds the 70% threshold.

(b) Investments.

Investments are carried in the statements of assets and liabilities as of December 31, 2002, and September 30, 2003, at fair value, as determined in good faith by the Investment Adviser. The convertible debt securities held by the Fund generally have maturities between five and seven years and are convertible into the common stock of the issuer at a set conversion price at the discretion of the fund. The common stock underlying these securities is generally unregistered and thinly to moderately traded but is not otherwise restricted. Generally, the Fund may register and sell such securities at any time with the Fund paying the costs of registration. Interest on convertible securities are generally payable monthly. The convertible debt securities generally contain embedded call options giving the issuer the right to call the underlying issue. In these instances, the Fund has the right of redemption or conversion. The embedded call option will generally not vest until certain conditions are achieved by the issuer. Such conditions may require that minimum thresholds be met relating to underlying market prices, liquidity, and other factors.

(7) Valuation of Investments

On a quarterly basis, Renaissance Group prepares a valuation of the assets of the Fund subject to the approval of the Board of Directors. The valuation principles are as follows:

27

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.
Notes to Financial Statements
September 30, 2003

- o Generally, the guiding principle for valuation is the application of objective standards. The objective standards for determining market prices and applying valuation methodologies will govern in all situations except where a debt issuer is in default.
- o Generally, the fair value of debt securities and preferred securities convertible into common stock is the sum of (a) the value of such securities without regard to the conversion feature, and (b) the value, if any, of the conversion feature. The fair value of debt securities without regard to conversion

features is determined on the basis of the terms of the debt security, the interest yield, and the financial condition of the issuer. The fair value of preferred securities without regard to conversion features is determined on the basis of the terms of the preferred security, its dividend, and its liquidation and redemption rights and absent special circumstances will typically be equal to the lower of cost or 120% of the value of the underlying common stock. The fair value of the conversion features of a security, if any, are based on fair values of the derivative securities as of the relevant date less an allowance, as appropriate, for costs of registration, if any, and selling expenses.

- o Portfolio investments for which market quotations are readily available and which are freely transferable are valued as follows: (i) securities traded on a securities exchange or the Nasdaq or in the over-the-counter market are valued at the closing price on, or the last trading day prior to, the date of valuation, and (ii) securities traded in the over-the-counter market that do not have a closing price on, or the last trading day prior to, the date of valuation are valued at the average of the closing bid and ask price for the last trading day on, or prior to, the date of valuation. Securities for which market quotations are readily available but are restricted from free trading in the public securities markets (such as Rule 144 stock) are valued by discounting the value for the last trading day on, or prior to, the date of valuation to reflect the liquidity caused by such restriction, but taking into consideration the existence, or lack thereof, of any contractual right to have the securities registered and freed from such trading restrictions.
- o Because there is no independent and objective pricing authority (i.e. a public market) for investments in privately held entities, the latest sale of equity securities by the entity governs the value of the enterprise. This valuation method causes the Fund's initial investment in the private entity to be valued at cost. Thereafter, new issuances of equity or equity-linked securities by a portfolio company will be used to determine enterprise value as they will provide the most objective and independent basis for determining the worth of the issuer.

28

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.
Notes to Financial Statements
September 30, 2003

There can be no assurance that stated market fair values for private equities will stay constant, or that future equity raises will value the portfolio company at levels equal to or greater than the prior equity financing for the issuer. As a result, the Fund's valuation of a privately held portfolio company may be subject to downward adjustment that would directly impact the Fund's net asset value and which could result in a substantial reduction in the fund's net assets.

- o Where a portfolio company is in default on a debt instrument held by the Fund, and no market exists for that instrument, the fair

value for the investment is determined on the basis of appraisal procedures established in good faith by the Investment Adviser. This type of fair value determination is based upon numerous factors such as the portfolio company's earnings and net worth, market prices for comparative investments (similar securities in the market place), the terms of the Fund's investment, and a detailed assessment of the portfolio company's future financial prospects. In the event of unsuccessful operations by a portfolio company, the appraisal may be based upon an estimated net realizable value when that investment is liquidated

As of September 30, 2003, and December 31, 2002, the net unrealized appreciation associated with investments held by the Fund was \$26,289,784, and \$6,540,900, respectively.

(8) Restricted Securities

As indicated on the statement of investments as of September 30, 2003, and December 31, 2002, the Fund holds investments in shares of common stock, the sale of which is restricted. These securities have been valued by the Investment Adviser after considering certain pertinent factors relevant to the individual securities (note 7).

(9) Purchase of Additional Shares

In accordance with Fund guidelines, certain shareholders reinvested their dividends in the Fund. The Fund issued no shares during the three months and nine months ended September 30, 2003, under the dividend reinvestment plan.

(10) Distributions to Shareholders

During the three months ended September 30, 2003, the Fund distributed \$435,172, resulting in total distributions for the nine months ended September 30, 2003, amounting to \$1,305,516. The final tax characteristics

Results of Operations for the Three Months Ended September 30, 2003

For the quarter ended September 30, 2003, the Fund had a net investment loss of (\$1,058,993) compared to a net investment loss of (\$288,362) in the third quarter of 2002. This increase in net loss resulted from increased expenses offset slightly by increased income in the third quarter of 2003 compared to the same period of 2002. Interest income increased from a negative (\$10,405) for the third quarter of 2002 to \$88,396 for the same period in 2003, an increase of 949.55%. Dividend income increased 184.86% to \$46,706 in the quarter ended September 30, 2003, from \$16,396 for the same quarter in 2002. In the third quarter of 2003, the Fund accrued \$2,423 in income from commitment and other fees, compared to \$20,000 in the third quarter 2002, a decrease of 87.89%.

General and administrative expenses decreased 16.17% from \$84,886 in the third quarter of 2002 to \$71,164 in the third quarter 2003. Interest expense increased from \$9,813 for the quarter ended September 30, 2002, to \$20,979 for the same period in 2003, an increase of 113.79%. Legal and professional expenses decreased 23.99% from \$28,784 in the third quarter of 2002 to \$21,879 for the same quarter in 2003. Management fees increased from \$190,870 in the quarter ended September 30, 2002, to \$287,577 for the same period in 2003, an increase of 50.67%, and incentive fees increased to \$794,919 for the third quarter of 2003 compared to no incentive fees incurred in the third quarter of 2002.

Net income for the third quarter of 2003 was \$14,164,050 compared to a net loss of (\$11,020,374) for the same period of 2002. This increase was primarily due to an increase from net unrealized depreciation on investments from (\$10,732,012) in the third quarter of 2002 to net unrealized appreciation on investments in the amount of \$11,248,447 in the third quarter of 2003. In addition, the fund realized net realized gains on investments in the amount of \$3,974,597 in the third quarter of 2003 compared to no realized gains or losses in the same period of 2002. The realized gains in the third quarter of 2003 include \$473,533 in bankruptcy proceeds from two companies formerly in the Fund's portfolio.

Results of Operations for the Nine months Ended September 30, 2003

For the nine months ended September 30, 2003, the Fund experienced a net investment loss in the amount of (\$443,998), compared to a net investment loss in the amount of (\$993,631) for the same nine-month period in 2002. Interest income increased from \$175,700 for the nine months ended September 30, 2002, to \$435,884 for the same period of 2003, an increase of 148.08%. Dividend income for the nine-month period ended September 30, 2003, was \$1,207,937 versus \$59,635 for the same period in 2002. Other income decreased 80.13% to \$3,975 in the nine months ended September 30, 2003, compared to \$20,000 in the same period of 2002.

General and administrative expenses decreased from \$331,496 in the nine months ended September 30, 2002, to \$264,344 for the same period in 2003. Legal and professional expenses also decreased from \$194,074 in 2002 to \$102,393 for the nine months ended September 30, 2003. Interest expense increased only 9.61% from \$54,213 for the nine-month period ending September 30, 2002, to \$59,422 for the same period in 2003. Management fees were relatively constant with \$669,183 for the nine months ended September 30, 2002, compared to \$674,456 for the same period in 2003; and incentive fees increased from zero in 2002 to \$991,179 for the nine months ended September 30, 2003.

Net income for the first nine months of 2003 was \$24,260,781, compared to a net loss in the amount of (\$12,344,525) for the same period of 2002. In addition to the increases in income and decreases in expenses discussed previously, this increase was driven by an increase from net unrealized depreciation on investments of (\$7,926,503) in the first nine months of 2002 to net unrealized appreciation on investments of \$19,748,883 for the same time period in 2003. In addition, in the first nine months of 2003, the Fund realized net gains on investments in the amount of \$4,955,896, compared to a net realized loss on investments of (\$3,424,391) in the same period of 2002.

Liquidity and Capital Resources

For the three months ended September 30, 2003, net assets increased 27.19% from \$50,485,451 at June 30, 2003, to \$64,214,330, or \$14.76 per share, at September 30, 2003. This increase is primarily attributable to an increase in the net unrealized appreciation of investments from \$15,041,337 at June 30, 2003, to \$26,289,784 at September 30, 2003, combined with a decrease in the accumulated deficit from (\$3,025,492) at June 30, 2003, to (\$545,060) at September 30, 2003.

At the end of the third quarter of 2003, the Fund had net cash and cash equivalents of \$7,279,546 versus net cash and cash equivalents of \$681,236 at June 30, 2003, primarily due to an accumulation of cash from proceeds from sales of investments, combined with a smaller margin balance. Receivables, including interest, dividends, and brokerage, decreased from \$604,436 at June 30 to \$207,974 at September 30, 2003, due to accrued

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-Q

dividend and interest amounts that were paid during the quarter. Prepaid expenses increased from \$2,877 at June 30, 2003 to \$68,852 at September 30, 2003, due to the payment of insurance.

Accounts payable decreased 70.41% from \$21,632 at June 30, 2003, to \$6,401 at September 30, 2003. Accounts payable to affiliate increased from \$344,753 at June 30, 2003, to \$1,183,322 at September 30, 2003, reflecting an increase in management fee due to higher portfolio values in the third quarter and the increase in incentive fees accrued as a result of higher net gains on the sale of investments.

Pending investment in portfolio investments, funds are invested in temporary cash accounts and in government securities. Government securities used as cash equivalents will typically consist of U. S. Treasury securities or other U. S. Government and Agency obligations having slightly higher yields and maturity dates of three months or less. These investments qualify for investment as permitted in Section 55(a)(1) through (5) of the 1940 Act.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Fund is subject to financial market risks, including changes in market interest rates as well as changes in marketable equity security prices. The Fund does not use derivative financial instruments to mitigate any of these risks. The return on the Fund's investments is generally not affected by foreign currency fluctuations.

A majority of the Fund's net assets consists of common stocks and warrants and options to purchase common stock in publicly traded companies. These investments are directly exposed to equity price risk, in that a percentage change in these equity prices would result in a similar percentage change in the fair value of these securities.

A lesser percentage of the Fund's net assets consists of fixed rate convertible debentures and other debt instruments as well as convertible preferred securities. Since these instruments are generally priced at a fixed rate, changes in market interest rates do not directly impact interest income, although changes in interest rates could impact the Fund's yield on future investments in debt instruments. In addition, changes in market interest rates are not typically a significant factor in the Fund's determination of fair value of its debt instruments, as it is generally assumed they will be held to maturity, and their fair values are determined on the basis of the terms of the particular instrument and the financial condition of the issuer.

A small percentage of the Fund's net assets consists of equity investments in private companies. The Fund would anticipate no impact on these investment from modest changes in public market equity prices. However, should significant changes in market prices occur, there could be a longer-term effect on valuations of private companies which could affect the carrying value and the amount and timing of proceeds realized on these investments.

ITEM 4: DISCLOSURES AND PROCEDURES

As required by SEC Rule 13a-15 promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), within 90 days prior to the filing date of this report, the Fund carried out an evaluation of the effectiveness of the design and operation of the Fund's disclosure controls and procedures. This evaluation was carried out under the supervision and with the participation of the Fund's management, including the Fund's President and Chief Executive Officer and the Fund's Chief Financial Officer. Based upon that evaluation, the Fund's President and Chief Executive Officer and the Fund's Chief Financial Officer concluded that the Fund's disclosure controls and procedures are effective. Subsequent to the date the Fund carried out its evaluation, there have been no significant changes in the Fund's internal controls or in other factors which could significantly affect internal controls. Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in Fund reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Fund reports filed under the Exchange Act is accumulated and communicated to management, including the Fund's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.
