CYANOTECH CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012  
(Unaudited)

**1. BASIS OF PRESENTATION**

The accompanying condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ( GAAP ) for interim financial information pursuant to the instructions to Form 10-Q and Regulation S-X. These interim condensed consolidated financial statements are unaudited and, in the opinion of management, include all adjustments (consisting of normal recurring adjustments and accruals) necessary to present fairly the Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Operations, and Condensed Consolidated Statements of Cash Flows for the periods presented in accordance with GAAP. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. The condensed consolidated balance sheet as of March 31, 2012 was derived from the audited financial statements. These condensed consolidated financial statements and notes should be read in conjunction with the Company's consolidated financial statements for the year ended March 31, 2012, contained in the Company's annual report on Form 10-K as filed on June 21, 2012.

The accompanying condensed consolidated financial statements include the accounts of Cyanotech Corporation and its wholly owned subsidiary, Nutrex Hawaii, Inc. ( Nutrex Hawaii or Nutrex , collectively the Company ). All significant intercompany balances and transactions have been eliminated in consolidation.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of any contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the periods reported. Management reviews these estimates and assumptions periodically and reflects the effect of revisions in the period that they are determined to be necessary. Actual results could differ from those estimates and assumptions.

**2. INVENTORIES, NET**

Inventories are stated at the lower of cost or market. Cost is determined by the first-in, first-out method. Inventories consist of the following:

	June 30, 2012	March 31, 2012
	(in thousands)	
Raw materials	\$ 559	\$ 344
Work in process	284	253
Finished goods (1)	2,011	2,722

Edgar Filing: CYANOTECH CORP - Form 10-Q

Supplies		235		229
	\$	3,089	\$	3,548

---

(1) Net of reserve for obsolescence of \$15,000 and \$41,000, at June 30, 2012 and March 31, 2012, respectively.

The Company recognizes abnormal production costs, including fixed cost variances from normal production capacity, as an expense in the period incurred. Approximately \$233,000 of abnormal production costs were charged to cost of sales for the quarter ended June 30, 2012. Approximately \$198,000 of abnormal production costs were charged to cost of sales for the quarter ended June 30, 2011.

**3. EQUIPMENT AND LEASEHOLD IMPROVEMENTS, NET**

Equipment and leasehold improvements are stated at cost. Depreciation and amortization are provided using the straight-line method over the estimated useful lives for equipment and furniture and fixtures, or the shorter of the land lease term or estimated useful lives for leasehold improvements as follows:

Equipment	3 to 10 years
Furniture and fixtures	3 to 7 years
Leasehold improvements	10 to 25 years

Table of Contents

Equipment and leasehold improvements consist of the following:

	June 30, 2012	March 31, 2012
	(in thousands)	
Equipment(1)	\$ 6,836	\$ 6,695
Leasehold improvements	7,616	7,524
Furniture and fixtures	154	154
	14,606	14,373
Less accumulated depreciation and amortization	(10,042)	(9,867)
Construction-in-progress	1,622	1,328
Equipment and leasehold improvements, net	\$ 6,186	\$ 5,834

(1) Includes \$97,000 of equipment under capital lease at June 30, 2012 and March 31, 2012, with accumulated amortization of \$44,000 and \$39,000, respectively.

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. Recoverability of these assets is measured by a comparison of the carrying amount to forecasted undiscounted future cash flows expected to be generated by the asset. If the carrying amount exceeds its estimated future cash flows, then an impairment charge is recognized to the extent that the carrying amount exceeds the asset's fair value. Management has determined no asset impairment existed as of June 30, 2012. The Company recognized a loss on disposal of equipment in the amount of \$22,000 for the three months ended June 30, 2012. The Company recognized a loss on disposal of equipment in the amount of \$2,000 for the three months ended June 30, 2011.

#### 4. ACCRUED EXPENSES

Accrued expenses consist of the following:

	June 30, 2012	March 31, 2012
	(in thousands)	
Wages and profit sharing	\$ 409	\$ 491
Bonuses	51	642
Customer rebates	132	69
Other accrued expenses	292	150
	\$ 884	\$ 1,352

#### 5. LONG-TERM DEBT

Long-term debt consists of the following:

Edgar Filing: CYANOTECH CORP - Form 10-Q

	June 30, 2012	March 31, 2012
	(in thousands)	
Term loans	\$ 576	\$ 634
Less current maturities	(222)	(234)
Long-term debt, excluding current maturities	\$ 354	\$ 400

*Term Loan Agreements*

In February 2008, the Company executed a Term Loan Agreement with a lender providing for \$1.1 million in aggregate credit facilities, secured by the Company's assets. The Term Loan has a maturity date of March 1, 2015 and is payable in 84 equal monthly principal payments plus interest. The interest rate under the Term Loan, in the absence of a default under the agreement, is the prime rate in effect as of the close of business on the first day of each calendar quarter, plus 1%. As of June 30, 2012 the prime rate was 3.25%. The balance under this loan was \$466,000 and \$506,000 at June 30, 2012 and March 31, 2012, respectively. The Company is prohibited from declaring any common stock dividends without the lender's prior written consent. The credit agreement requires the Company to meet certain financial covenants. The Company was in compliance with these financial covenants at June 30, 2012.

Table of Contents

The Company has four equipment loans with John Deere credit providing for \$132,000 in equipment financing; three of these loans are payable in 48 equal monthly principle payments and one is payable in 36 equal monthly principle payments. At June 30, 2012 and March 31, 2012 the total outstanding combined balance was approximately \$68,000 and \$76,000, respectively. The equipment loans have maturity dates of December 2012 as to \$5,000, March 2013 as to \$6,000, May 2015 as to \$32,000 and November 2015 as to \$25,000. The loans are at a 0% rate of interest and are net of unamortized discount of \$2,000 at June 30, 2012.

In September 2011, the Company executed a Term Loan Agreement with Nissan Motor Acceptance Corporation providing for \$23,000 in equipment financing, secured by the equipment. The Term Loan has a maturity date of September 13, 2016 and is payable in 60 equal monthly principal payments. The interest rate under this Term Loan is 0%. Imputed interest at a rate of 2% (cash discount offered by seller) has been recorded and is being amortized as interest over the term of the loan. The face value of the term loan is reported in the balance sheets at \$19,000, less the unamortized discount of \$800 at June 30, 2012.

*Capital Lease*

In March 2010, the Company executed a capital lease agreement with Thermo Fisher Financial providing for \$97,000 in equipment, secured by the equipment financed. The capital lease has a maturity date of March 2013 and is payable in 36 equal monthly payments. The interest rate under this capital lease is 6.6%. The balance under this lease was \$26,000 and \$34,000 at June 30, 2012 and March 31, 2012, respectively.

Future principal payments under the term loan and capital lease agreements as of June 30, 2012 are as follows:

	(in thousands)	
<b>Payments Due</b>		
Next 12 Months	\$	221
Year 2		192
Year 3		154
Year 4		9
Total principal payments	\$	576

**6. LEASES**

The Company leases facilities, equipment and land under operating leases expiring between 2012 and 2035. The land lease provides for contingent rental in excess of minimum rental commitments based on a percentage of the Company's sales. Management has accrued for the estimated contingent rent as of June 30, 2012.

Future minimum lease payments under all non-cancelable operating leases at June 30, 2012 are as follows:

<b>Payments Due</b>		<b>(in thousands)</b>
Next 12 Months	\$	464
Year 2		469
Year 3		478
Year 4		373
Year 5		301
Thereafter		5,236
Total minimum lease payments	\$	7,321

## 7. SHARE-BASED COMPENSATION

The Company accounts for share-based payment arrangements using fair value. If an award vests or becomes exercisable based on the achievement of a condition other than service, such as for meeting certain performance or market conditions, the award is classified as a liability. Liability-classified awards are remeasured to fair value at each balance sheet date until the award is settled. The Company currently has no liability-classified awards. Equity-classified awards, including grants of employee stock options, are measured at the grant-date fair value of the award and are not subsequently remeasured unless an award is modified. The cost of equity-classified awards is recognized in the income statement over the period during which an employee is required to provide the service in exchange for the award, or the vesting period. All of the Company's stock options are service-based awards, and because the Company's stock options are plain vanilla, as defined by the U.S. Securities and Exchange Commission in Staff Accounting Bulletin No. 107, they are reflected only in Equity and Compensation Expense accounts.

Table of Contents**Stock Options**

As of June 30, 2012, the Company had the following two shareholder approved plans under which shares were available for equity based awards: The 2005 Stock Option Plan (the 2005 Plan ) wherein 2,075,000 shares of common stock are reserved for issuance until the Plan terminates on August 21, 2015, and; The Independent Director Stock Option and Stock Grant Plan (the 2004 Directors Plan ) wherein 200,000 shares of common stock are reserved for issuance until the plan terminates in 2014.

Under the 2005 Plan, eligible employees and certain independent consultants may be granted options to purchase shares of the Company's common stock. The shares issuable under the 2005 Plan will either be shares of the Company's authorized but previously unissued common stock or shares reacquired by the Company, including shares purchased on the open market. As of June 30, 2012, there were 667,238 options available for grant under the 2005 Plan.

Under the 2004 Directors Plan, upon election to the Board of Directors at an annual stockholders meeting, a newly elected non-employee director will be granted a ten-year option to purchase 6,000 shares of the Company's common stock. Options vest and become exercisable six months from the date of grant. In addition, on the date of each annual stockholders meeting, each non-employee director continuing in office is automatically issued 2,000 shares of the Company's common stock, and an additional 2,000 shares to the director serving as Chairman of the Board, non-transferable for six months following the date of grant. As of June 30, 2012, there were 143,123 shares available for grant under the 2004 Directors Plan.

The following table presents shares authorized, available for future grant and outstanding under each of the Company's plans:

	Authorized	As of June 30, 2012 Available	Outstanding
2005 Plan	2,075,000	667,238	1,237,316
2004 Directors Plan	200,000	143,123	12,000
1994 Plan			750
Total	2,275,000	810,361	1,250,066

All stock option grants made under the 2005 Plan and the 2004 Directors Plan were issued at exercise prices no less than the Company's closing stock price on the date of grant. Options under the 2005 Plan and 2004 Directors Plan were determined by the Board of Directors or the Stock Option and Compensation Committee of the Board in accordance with the provisions of the respective plans. The terms of each option grant include vesting, exercise, and other conditions are set forth in a Stock Option Agreement evidencing each grant. No option can have a life in excess of ten (10) years. The Company records compensation expense for employee stock options based on the estimated fair value of the options on the date of grant using the Black-Scholes option-pricing model. The model requires various assumptions, including a risk-free interest rate, the expected term of the options, the expected stock price volatility over the expected term of the options, and the expected dividend yield. Compensation expense for employee stock options is recognized ratably over the vesting term which ranges from 4 to 7 years. Compensation expense recognized for options issued under the 2005 Plan was \$122,000 and \$50,000 for the three months ended June 30, 2012 and 2011, respectively. Compensation expense recognized for options issued under the 2004 Directors Plan was \$3,000 during the three months ended June 30, 2012. No compensation expense was recognized under the 2004 Directors Plan for the three months ended June 30, 2011. All share-based compensation has been classified as General and Administrative expense.

## Edgar Filing: CYANOTECH CORP - Form 10-Q

A summary of option activity under the Company's stock plans for the three months ended June 30, 2012 is presented below:

Option Activity	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at March 31, 2012	1,251,166	\$ 3.54	9.0 years	\$ 8,243,956
Granted				
Exercised		\$		
Forfeited or expired	(1,100)	\$ 3.35		
Outstanding at June 30, 2012	1,250,066	\$ 3.54	8.8 years	\$ 4,223,783
Exercisable at June 30, 2012	183,000	\$ 2.76	7.74 years	\$ 761,346

The aggregate intrinsic value in the table above is before applicable income taxes and represents the excess amount over the exercise price optionees would have received if all options had been exercised on the last business day of the period indicated, based on the Company's closing stock price of \$6.92 for such day.

Edgar Filing: CYANOTECH CORP - Form 10-Q

Table of Contents

A summary of the Company's non-vested options for the three months ended June 30, 2012 is presented below:

Nonvested Options	Shares		Weighted Average Grant-Date Fair Value
Nonvested at March 31, 2012	1,109,066	\$	2.57
Granted			
Vested	(40,900)		.87
Forfeited or expired	(1,100)		2.18
Nonvested at June 30, 2012	1,067,066	\$	2.63

The following table summarizes the weighted average characteristics of outstanding stock options as of June 30, 2012:

Range of Exercise Prices	Number of Shares	Outstanding Options		Weighted Average Price	Exercisable Options	
		Remaining Life (Years)			Number of Shares	Weighted Average Price
\$ 1.60 - \$3.70	461,680	8.2	\$	2.91	168,360	\$ 2.57
\$ 3.71 - \$4.42	733,386	9.2		3.82	4,640	3.82
\$ 4.43 - \$5.40	55,000	9.4		5.16	10,000	5.40
Total stock options	1,250,066	8.8	\$	3.54	183,000	\$ 2.76

There were 0 and 800 stock options granted during the three months ended June 30, 2012 and June 30, 2011, respectively. The value assumptions related to options granted during the fiscal year ended March 31, 2012 were as follows:

	2012	
Exercise Price:	\$	3.58 - 5.40
Volatility:		56.18 - 78.61%
Risk Free Rate:		0.09 - 2.25%
Vesting Period:		0 - 5 yrs
Forfeiture Rate:		0 - 16.88%
Expected Life		0.25 - 8.25 yrs
Dividend Rate		0%

As of June 30, 2012, total unrecognized share-based compensation expense related to all unvested stock options was \$2,072,000 which is expected to be expensed over a weighted average period of 4.3 years. On July 2, 2012, the Company granted 105,000 options and on July 19, 2012, an additional 80,000 options were granted.

**8. INCOME TAXES**

## Edgar Filing: CYANOTECH CORP - Form 10-Q

Income taxes are provided on the pretax income in the consolidated financial statements. The tax provision is based on the current quarter activity of the legal entities and jurisdictions in which the Company operates. Tax credits are recognized as a reduction to income taxes in the year the credits are earned, accordingly, the effective tax rate may vary from the customary relationship between income tax expense (benefit) and pretax income. The effective tax rate for the three months ended June 30, 2012 differs from the statutory rate due to utilization of net operating loss carry forwards that have been partially reserved due to the Company's inconsistent taxable income in recent years and uncertainty about taxable income in future years.

The Company is subject to taxation in the United States and two state jurisdictions. The preparation of tax returns requires management to interpret the applicable tax laws and regulations in effect in such jurisdictions, which could affect the amount of tax paid by the Company. Management, in consultation with its tax advisors, files its tax returns based on interpretations that are believed to be reasonable under the circumstances. The income tax returns, however, are subject to routine reviews by the various taxing authorities. As part of these reviews, a taxing authority may disagree with respect to the tax positions taken by management ( uncertain tax positions ) and therefore may require the Company to pay additional taxes. Management evaluates the requirement for additional tax accruals, including interest and penalties, which the Company could incur as a result of the ultimate resolution of its uncertain tax positions. Management reviews and updates the accrual for uncertain tax positions as more definitive information becomes available from taxing authorities, completion of tax audits, expiration of statute of limitations, or upon occurrence of other events.

Table of Contents

As of June 30, 2012, there was no liability for income tax associated with unrecognized tax benefits. The Company recognizes accrued interest related to unrecognized tax benefits as well as any related penalties in interest income or expense in its consolidated condensed statements of operations, which is consistent with the recognition of these items in prior reporting periods.

With few exceptions, the Company is no longer subject to U.S. federal, state, local, and non-U.S. income tax examination by tax authorities for tax years before 2008.

**9. PREFERRED STOCK**

The Company has five million shares of authorized preferred stock, none of which is issued or outstanding. Under the terms of the Company's Amended and Restated Articles of Incorporation, the Board of Directors is authorized to determine or alter the rights, preferences, privileges and restrictions of the Company's authorized but unissued shares of preferred stock.

**10. EARNINGS PER SHARE**

Basic earnings per share is computed on the basis of the weighted average number of common shares outstanding. Diluted earnings per share is computed on the basis of the weighted average number of common shares outstanding plus the potentially dilutive effect of outstanding stock options using the treasury stock method.

Reconciliations between the numerator and the denominator of the basic and diluted earnings per share computations for the three months ended June 30, 2012 and 2011 are as follows:

	Three Months Ended June 30, 2012		
	Net Income (Numerator)	Shares (Denominator)	Per Share Amount
	(in thousands)		
Basic income per share	\$ 493	5,441	\$ 0.09
Effect of dilutive securities - Common stock options		432	(.01)
Diluted income per share	\$ 493	5,873	\$ 0.08

	Three Months Ended June 30, 2011		
	Net Loss (Numerator)	Shares (Denominator)	Per Share Amount
	(in thousands)		
Basic income per share	\$ 486	5,395	\$ 0.09
Effect of dilutive securities - Common stock options		65	
Diluted income per share	\$ 486	5,460	\$ 0.09

Edgar Filing: CYANOTECH CORP - Form 10-Q

Diluted earnings per share does not include the impact of common stock options totaling 0 and 231,550 for the three months ended June 30, 2012 and 2011, respectively, as the effect of their inclusion would be anti-dilutive.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

**FORWARD-LOOKING STATEMENTS**

This Report and other presentations made by Cyanotech Corporation ( CYAN ) and its subsidiary contain forward-looking statements, which include statements that are predictive in nature, depend upon or refer to future events or conditions, and usually include words such as expects, anticipates, intends, plan, believes, predicts, estimates or similar expressions. In addition, any statement concerning future financial performance, ongoing business strategies or prospects and possible future actions are also forward-looking statements. Forward-looking statements are based upon current expectations and projections about future events and are subject to risks, uncertainties and the accuracy of assumptions concerning CYAN and its subsidiary (collectively, the Company), the performance of the industry in which CYAN does business, and economic and market factors, among other things. **These forward-looking statements are not guarantees of future performance. You should not place undue reliance on forward-looking statements.**

Forward-looking statements speak only as of the date of the Report, presentation or filing in which they are made. Except to the extent required by the Federal Securities Laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Our forward-looking statements in this Report include, but are not limited to:

- Statements relating to our business strategy;
- Statements relating to our business objectives; and
- Expectations concerning future operations, profitability, liquidity and financial resources.

These forward-looking statements are subject to risk, uncertainties and assumptions about us and our operations that are subject to change based on various important factors, some of which are beyond our control. The following factors, among others, could cause our financial performance to differ significantly from the goals, plans, objectives, intentions and expectations expressed in our forward-looking statements:

- Environmental restrictions, soil and water conditions, levels of sunlight and seasonal weather patterns, particularly heavy rain, wind and other hazards;
- Consumer perception of our products due to adverse scientific research or findings, publicity regarding nutritional supplements, litigation, regulatory investigations or other events, conditions and circumstances involving the Company which receive national media coverage;

## Edgar Filing: CYANOTECH CORP - Form 10-Q

- The effects of competition, including tactics and locations of competitors and operating and market competition;
- Demand for our products, the quantities and qualities thereof available for sale and levels of customer satisfaction, including significant unforeseen fluctuations in global demand for products similar to our products;
- Our dependence on the experience, continuity and competence of our executive officers and other key employees;
- The added risks associated with the current local, national and world economic crises, including but not limited to, the volatility of crude oil prices, inflation and currency fluctuations;
- Changes in domestic and/or foreign laws, regulations or standards, affecting nutraceutical products or our methods of operation;
- Access to available and reasonable financing on a timely basis;
- Changes in laws, corporate governance requirements and tax rates, regulations, accounting standards and the application to us or the nutritional products industry of new decisions by courts, regulators or other government authorities;
- The risk associated with the geographic concentration of our business;
- Acts of war, terrorist incidents or natural disasters; and

Other risks or uncertainties described elsewhere in this Report and in other periodic reports previously and subsequently filed by us with the Securities and Exchange Commission.

Table of Contents**Summary of this quarter's results:**

- Sales for the quarter were 9.3% higher than the same quarter last year, driven by a 44% increase in sales of our consumer products, which also contributed to the improved gross profit margins vs. last year.
- SG&A spending reflects increases in compensation costs related to key human resource additions and marketing costs that we believe will drive long term sales in our consumer products and deliver profit growth.

Net income was slightly better than the same quarter last year, driven by lower interest expense and provision for income taxes.

**Results of Operations**

The following tables present selected consolidated financial data for each of the periods indicated (\$ in **thousands**):

	<b>Three Months Ended</b>	
	<b>June 30, 2012</b>	<b>June 30, 2011</b>
<b>Consolidated Performance Summary</b>		
Net sales	\$ 6,506	\$ 5,950
Net sales increase	9.3%	
Gross profit	\$ 2,574	\$ 2,104
Gross profit as % of net sales	39.6%	
SG&A	\$ 2,059	\$ 1,588
SG&A as % of net sales	31.6%	
Operating income	\$ 515	\$ 516
Operating income as % of net sales	7.9%	
Income tax expense	\$ 12	\$ 14
Net income	\$ 493	\$ 486
<b>Net sales by product</b>		
Spirulina	\$ 2,360	\$ 2,200
Net sales increase	7.3%	
Astaxanthin	\$ 4,146	\$ 3,750
Net sales increase	10.6%	

**Comparison of the Three Months Ended June 30, 2012 and 2011**

## Edgar Filing: CYANOTECH CORP - Form 10-Q

**Net Sales** The net sales growth of 9% for the quarter was driven by a 44% increase in our packaged products consistent with our focus and investment in the consumer packaged goods side of our business. Within this growth, sales of spirulina increased 33% and sales of astaxanthin increased 53%. Sales of our bulk products decreased 6%, driven by lower production in the last quarter of fiscal 2012. Within this decrease, sales of bulk spirulina decreased 9% and sales of bulk astaxanthin decreased 5%. International sales represented 35% of net sales for the three months ended June 30, 2012 compared to 40% for the same period a year ago. For the three months ended June 30, 2012, there were no customers with sales equaling or exceeding 10% of our total sales. For the three months ended June 30, 2011, one customer had sales equal to or greater than 10% of our total sales. We will continue to focus on growing the market for our high quality, higher margin consumer products by emphasizing the higher nutritional content of our Hawaiian spirulina and the health benefits of our natural astaxanthin; however, increased competition may result in the decline of margins in the future.

**Gross Profit** Our gross profit percent of net sales increased by 4.2 points in the first quarter. An increase in sales of our higher margin consumer products, along with a higher percentage of astaxanthin sales within those consumer products, accounted for the improvement. Gross profit is net of abnormal production costs of approximately \$200,000 in the first quarter of fiscal years 2013 and 2012, respectively, and were related to spirulina production.

**Operating Expenses** Operating expenses increased by \$0.5 million for the first quarter compared to the same period in 2012. Included in this is an increase in Sales and Marketing expenses of \$271,000, or 47.8%, due to an increase in brand development costs and advertising programs for our packaged products. General and Administrative expenses increased \$200,000, or 21%, due to increases in costs associated with stock options granted to key employees in fiscal 2012 and increased legal costs.

**Income Taxes** We recorded income tax expense of \$10,000 in the current quarter compared to \$16,000 for the same period in 2012. Our effective tax rate was 2% for the current quarter and 3.35% for the same period last year. We do not expect any material federal or state income taxes to be recorded in the current fiscal year due to our available net operating loss carry forwards.

Table of Contents**Variability of Results**

We have experienced significant quarterly fluctuations in operating results and such fluctuations could occur in future periods. We have, during our history, experienced fluctuations in operating results due to the following: changes in sales levels to our customers; competition including pricing, new products and shifts in market trends; production difficulties from environmental influences; increased production costs and variable production results due to inclement weather; and start up costs associated with new product introductions, new facilities and expansion into new markets. In addition, future operating results may fluctuate as a result of factors beyond our control such as foreign exchange fluctuations, changes in government regulations, and economic changes in the regions we have customers. A portion of our operating expenses are relatively fixed and the timing of increases in expense levels is based in large part on forecasts of future sales. Therefore, if net sales are below expectations in any given period, the adverse impact on results of operations may be magnified by our inability to effectively adjust spending in certain areas, or to adjust spending in a timely manner, as in personnel and administrative costs. We may also choose to reduce prices or increase spending in response to market conditions, and these decisions may have a material adverse effect on financial condition and results of operations.

**Liquidity and Capital Resources**

**Cash Flows** The following table summarizes our cash flows for the period indicated (\$ in thousands):

	<b>Three months ended June 30</b>	
	<b>2012</b>	<b>2011</b>
Total cash is provided by (used in):		
Operating activities	\$ 215	\$ 1,314
Investing activities	(566)	(260)
Financing activities	(58)	(7)
Increase (decrease) in cash and cash equivalents	\$ (409)	\$ 1,047

Cash provided by operating activities decreased \$1,099,000 compared to the same period last year due primarily to changes in working capital, driven largely by a decrease in inventory of \$485,000 compared to \$818,000 last year, an increase in receivables of \$354,000, compared to \$121,000 last year, and a reduction of payables and accrued expenses of \$705,000, compared to \$62,000 last year. The increase in receivables is a function of higher sales and the timing of those sales, and the decrease in payables and accrued expenses is due primarily to the payment of the fiscal 2012 bonus in June.

Cash used in investing activities in the current quarter includes costs related to leasehold improvements and equipment acquisitions at our Kona facility.

Cash used in financing activities in the current quarter consists of principal payments on debt in the normal course of business. The prior year result is net of the receipt of proceeds from long-term debt of \$43,000.

*Sources and Uses of Capital*

At June 30, 2012, our working capital was \$8,246,000, an increase of \$188,000 compared to March 31, 2012. Cash and cash equivalents at June 30, 2012 totaled \$4,652,000, a decrease of \$409,000 compared to March 31, 2012.

The Company has a Term Loan with a lender providing up to \$1.1 million in credit, which is secured by substantially all the assets of the Company. The outstanding balance under the Term Loan as of June 30, 2012 is approximately \$466,000 with a maturity date of March 1, 2015 and is payable in equal monthly principal payments plus interest totaling approximately \$15,000. The interest rate under the Term Loan, in absence of a default under the agreement, is the prime rate, as defined, in effect as of the close of business on the first day of each calendar quarter, plus 1% (the prime rate was 3.25% at June 30, 2012). We are prohibited by the Term Loan from declaring any common stock dividends without the lender's prior written consent.

Our results of operations and financial condition can be affected by numerous factors, many of which are beyond our control and could cause future results of operations to fluctuate materially as it has in the past. Future operating results may fluctuate as a result of changes in sales volumes to our largest customers, weather patterns, increased competition, increased materials, nutrient and energy costs, government regulations and other factors beyond our control.

A significant portion of our expense levels are relatively fixed, so the timing of increases in expenses is based in large part on forecasts of future sales. If net sales are below expectations in any given period, the adverse impact on results of operations may be magnified by our inability to adjust spending quickly enough to compensate for the sales shortfall. We may also choose to reduce prices or increase spending in response to market conditions, which may have a material adverse effect on financial condition and results of operations.

Table of Contents

Based upon our current operating plan, analysis of our consolidated financial position and projected future results of operations, we believe that our operating cash flows, cash balances, and working capital will be sufficient to finance current operating requirements, debt service requirements, and routine planned capital expenditures, for the next twelve (12) months. We expect liquidity in the remainder of fiscal 2013 to be generated from operating cash flows.

**Outlook**

*This outlook section contains a number of forward-looking statements, all of which are based on current expectations. Actual results may differ materially.*

Our strategic direction has been to position the Company as a world leader in the production and marketing of high-value natural products from microalgae. We are vertically aligned, producing raw materials in the form of microalgae processed at our 90-acre facility in Hawaii, and integrating those raw materials into finished products. In fiscal 2013, our primary focus has been to put a scalable foundation in place, improving our processes, systems, facilities and organization. We will continue putting increased emphasis on our Nutrex Hawaii consumer products to introduce them to a broader consumer market than in prior years. Our focus going forward will continue to be to leverage our experience and reputation for quality, building nutritional brands which promote health and well-being. The foundation of our nutritional products is naturally cultivated Hawaiian Spirulina Pacifica® in powder and tablet form; and BioAstin® Hawaiian Astaxanthin antioxidant in extract, softgel caplet and micro-encapsulated beadlet form. Information about our Company and our products can be viewed at [www.cyanotech.com](http://www.cyanotech.com) and [www.nutrex-hawaii.com](http://www.nutrex-hawaii.com). Consumer products can also be purchased online at [www.nutrex-hawaii.com](http://www.nutrex-hawaii.com).

We are focused on sustainability of production levels in order to promote growth in our astaxanthin and spirulina product lines. We will continue to improve and expand this line to meet the demand of consumers. Cyanotech filed a New Dietary Ingredient (NDI) notice with the US FDA to allow a 12 mg dosage of BioAstin Natural Astaxanthin to cover the broad spectrum of potential users. The NDI was reviewed by the FDA without comment and Cyanotech's BioAstin® Natural Astaxanthin is now permitted at 12 mg per day. This compares to other brands whose allowed levels range from 4 mg - 7.8 mg per daily serving. The Company has now introduced a new 12 mg BioAstin softgel capsule which is available as a bulk gelcap product and as a finished consumer product through Nutrex Hawaii. We will continue to promote the nutritional superiority of Hawaiian grown spirulina to maintain and expand market share. Significant sales variability between periods and even across several periods can be expected based on historical results.

Rising crude oil prices in prior years resulted in increased nutrient, utility and transportation costs which reflect and respond to oil prices. We feel that these conditions are likely to continue and/or reoccur from time to time in the future, and consequently, we are putting greater focus on prudent cost controls and expense avoidance.

Gross profit margin percentages going forward will be impacted by continued pressure on input costs and greater competition in the market place. This could cause margins to decline in future periods. We will continue to focus on health and well-being, promoting higher gross margin items. We are dedicated to continuous improvements in process and production methods to stabilize and increase production levels for the future.

## Edgar Filing: CYANOTECH CORP - Form 10-Q

Producing the highest quality microalgae is a complex biological process which requires balancing numerous factors including microalgal strain variation, temperature, acidity, nutrient and other environmental considerations, some of which are not within our control. An imbalance or unexpected event can occur resulting in production levels below normal capacity. The allocation of fixed production overheads (such as depreciation, rent and general insurance) to inventories is determined based on normal production capacity. When our production volumes are below normal capacity limits, certain fixed production overhead costs cannot be inventoried and are recorded immediately in cost of sales. In addition, when production costs exceed historical averages, we evaluate whether such costs are one-time-period charges or an ongoing component of inventory cost.

To manage our cash resources effectively, we will continue to balance production in light of sales demand, minimizing the cost associated with build-ups in inventory when appropriate. We could experience unplanned cash outflows and may need to utilize other cash resources to meet working capital needs. A prolonged downturn in sales could impair our ability to generate sufficient cash for operations and minimize our ability to attract additional capital investment which could become necessary in order to expand facilities, enter into new markets or maintain optimal production levels.

Table of Contents

Our future results of operations and the other forward-looking statements contained in this Outlook, in particular the statements regarding revenues, gross margin and capital spending, involve a number of risks and uncertainties. In addition to the factors discussed above, any of the following could cause actual results to differ materially: business conditions and growth in the natural products industry and in the general economy; changes in customer order patterns; changes in demand for natural products in general; changes in weather conditions; competitive factors, such as increased production capacity from competing spirulina and astaxanthin producers and the resulting impact, if any, on world market prices for these products; government actions and increased regulations both domestic and foreign; shortage of manufacturing capacity; and other factors beyond our control. Risk factors are discussed in detail in Item 1A in our Form 10-K report for the year ended March 31, 2012.

We believe that our technology, systems, processes and favorable growing location generally permit year-round harvest of our microalgal products in a cost-effective manner. However, previously experienced imbalances in the highly complex biological production systems, together with volatile energy costs and rapidly changing world markets, suggest a need for continuing caution with respect to variables beyond our reasonable control. Therefore, we cannot, and do not attempt to, provide any definitive assurance with regard to our technology, systems, processes, location, or cost-effectiveness.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We do not enter into any transactions using derivative financial instruments or derivative commodity instruments and believe that our exposure to market risk associated with other financial instruments is not material.

**Item 4. Controls and Procedures**

**(a) Disclosure Controls and Procedures**

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15 (d)-15(e) under the Exchange Act that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Security and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. Our management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the fiscal period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures were effective to meet the objective for which they were designed and operate at the reasonable assurance level.

This Form 10-Q should be read in conjunction with Item 9A Controls and Procedures of the Company's Form 10-K for the fiscal year ended March 31, 2012, filed June 21, 2012.

**(b) Changes to Internal Control Over Financial Reporting**

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarterly period ended June 30, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings**

We are subject to legal proceedings and claims from time to time in the ordinary course of business. Although we cannot predict with certainty the ultimate resolution of legal proceedings and claims asserted against us, we do not believe that any currently pending legal proceeding to which we are a party is likely to have a material adverse effect on our business, results of operations, cash flows or financial condition.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

None.

**Item 3. Defaults upon Senior Securities**

None.

**Item 5. Other Information**

None.

Table of Contents

**Item 6. Exhibits**

a) The following exhibits are furnished with this report:

31.1 Certifications of Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 signed as of August 10, 2012.

31.2 Certifications of Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 signed as of August 10, 2012.

32 Certifications of Chief Executive Officer and Chief Financial Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 signed as of August 10, 2012.

101 The following financial statements from Cyanotech Corporation's Quarterly Report on Form 10-Q for the quarter ended June 30, 2012, formatted in XBRL (eXtensible Business Reporting Language): (i) the Condensed Consolidated Balance Sheets, (ii) the Condensed Consolidated Statements of Operations, (iii) the Condensed Consolidated Statements of Cash Flows, and (iv) Notes to Condensed Consolidated Financial Statements
