### Edgar Filing: NCI BUILDING SYSTEMS INC - Form 8-K

#### Item 2.02. Results of Operations and Financial Condition

On September 1, 2005, NCI Building Systems, Inc. ( NCI ) issued a press release announcing NCI s financial results for the second quarter ended July 30, 2005. A copy of the press release is attached as Exhibit 99.1.

NCI reported that trailing twelve month adjusted EBITDA increased by 28.9% to \$140.3 million over the same period in fiscal 2004. NCI defines adjusted EBITDA as net income (loss) before interest expense, income taxes, depreciation and amortization, 401(k) non-cash contributions, loss on debt refinancing, cumulative effect of change in accounting principle and non-cash real estate write down. NCI discloses adjusted EBITDA, which is a non-GAAP financial measure, because it is a widely accepted financial indicator in the metal construction industry of a company s profitability, ability to finance its operations, and meet its growth plans. This measure is also used by NCI internally to make acquisition and investment decisions. Adjusted EBITDA is calculated based on the terms contained in NCI s senior credit agreement. Adjusted EBITDA should not be considered in isolation or as a substitute for net income determined in accordance with generally accepted accounting principles in the United States.

The information in this Form 8-K and the Exhibit attached to this Form 8-K shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act ) or otherwise subject to the liabilities of that Section, nor shall it be deemed incorporated by reference in any registration statement or other filing under the Securities Act of 1933, as amended or the Exchange Act, except if NCI expressly states that such information is to be considered filed under the Exchange Act or incorporates it by specific reference in such filing.
