ROYAL CARIBBEAN CRUISES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

As used in this quarterly report on Form 10-Q, the terms Royal Caribbean, the Company, we, our and us refer to Royal Caribbean Cruises Ltd. and the terms Royal Caribbean International, Celebrity Cruises, Pullmantur, Azamara Club Cruises and CDF Croisières de France refer to our cruise brands. In accordance with cruise vacation industry practice, the term berths is determined based on double occupancy per cabin even though many cabins can accommodate three or more passengers. This report should be read in conjunction with our annual report on Form 10-K for the year ended December 31, 2009.

Note 1. General

Description of Business

We are a global cruise company. We own five cruise brands, Royal Caribbean International, Celebrity Cruises, Pullmantur, Azamara Club Cruises, and CDF Croisières de France. In addition, we have a 50% investment in a joint venture with TUI AG which operates the brand TUI Cruises.

Basis for Preparation of Consolidated Financial Statements

The unaudited consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. Estimates are required for the preparation of financial statements in accordance with these principles. Actual results could differ from these estimates.

All significant intercompany accounts and transactions are eliminated in consolidation. We consolidate entities over which we have control, usually evidenced by a direct ownership interest of greater than 50% and variable interest entities where we are determined to be the primary beneficiary. See Note 5. *Other Assets* for further information regarding our variable interest entities. For affiliates where significant influence over financial and operating policies exists, usually evidenced by a direct ownership interest from 20% to 50%, the investment is accounted for using the equity method. We include Pullmantur's results of operations on a two-month lag to allow for more timely preparation of our consolidated financial statements. No material events or transactions affecting Pullmantur have occurred during the two-month lag that would require disclosure or adjustment to our consolidated financial statements as of June 30, 2010.

We believe the accompanying unaudited consolidated financial statements contain all normal recurring accruals necessary for a fair statement. Our revenues are seasonal and results for interim periods are not necessarily indicative of results for the entire year.

Note 2. Summary of Significant Accounting Policies

Recently Adopted Accounting Standards

In January 2010, we adopted authoritative guidance which eliminates the concept of a qualifying special-purpose entity, creates more stringent conditions for reporting a transfer of a portion of a financial asset as a sale, clarifies other sale-accounting criteria, and changes the initial measurement of a transferor's interest in transferred financial assets. The adoption of this guidance did not have an impact on our consolidated financial statements.

Table of Contents

In January 2010, we adopted authoritative guidance which eliminates exceptions to consolidating qualifying special-purpose entities, contains new criteria for determining the primary beneficiary and increases the frequency of required reassessments to determine whether a company is the primary beneficiary of a variable interest entity. This guidance also contains a new requirement that any term, transaction, or arrangement that does not have a substantive effect on an entity's status as a variable interest entity, a company's power over a variable interest entity or a company's obligation to absorb losses or its right to receive benefits of an entity must be disregarded. The elimination of the qualifying special-purpose entity concept and its consolidation exceptions means more entities will be subject to consolidation assessments and reassessments. The adoption of this guidance did not have a material impact on our consolidated financial statements.

In January 2010, authoritative guidance was issued requiring enhanced disclosures for fair value measurements. Entities are required to separately disclose the amounts and reasons of significant transfers in and out of the first two levels of the fair value hierarchy. Entities are also required to present information about purchases, sales, issuances and settlements of fair value measurements within the third level of the fair value hierarchy on a gross basis. We adopted this authoritative guidance, with the exception of the disclosures about purchases, sales, issuance and settlements which will be effective for our fiscal year 2011 interim and annual consolidated financial statements. The adoption of this guidance did not have an impact on our 2010 consolidated financial statements. The remaining disclosures will be added to our future filings when applicable.

Note 3. Earnings (Loss) Per Share

A reconciliation between basic and diluted earnings (loss) per share is as follows (in thousands, except per share data):

	Quarter Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Net income (loss) for basic and diluted earnings (loss) per share	\$ 60,546	\$ (35,086)	\$ 147,993	\$ (71,324)
Weighted-average common shares outstanding	215,043	213,780	214,680	213,734
Dilutive effect of stock options and restricted stock awards	2,518		2,624	
Diluted weighted-average shares outstanding	217,561	213,780	217,304	213,734
Basic earnings (loss) per share	\$ 0.28	\$ (0.16)	\$ 0.69	\$ (0.33)
Diluted earnings (loss) per share	\$ 0.28	\$ (0.16)	\$ 0.68	\$ (0.33)

Diluted earnings per share for the quarter and six months ended June 30, 2010 did not include options to purchase 2.8 million shares because the effect of including them would have been antidilutive. Diluted (loss) per share for the quarter and six months ended June 30, 2009 did not include options and restricted stock units of 7.1 million shares because the effect of including them would have been antidilutive.

Table of Contents

Note 4. Long-Term Debt

In March 2010, we entered into a credit agreement providing financing for *Allure of the Seas*, which is scheduled for delivery in the fourth quarter of 2010. The credit agreement provides for an unsecured term loan for up to 80% of the purchase price of the vessel or approximately \$1.1 billion which will be 95% guaranteed by Finnvera, the official export credit agency of Finland. The loan amortizes over 12 years and each of the lenders has the ability upon proper notice to exit the facility on the seventh anniversary of the credit agreement. When the loan is drawn it will bear interest at LIBOR plus a margin of 2.20%. We will be required to secure *Allure of the Seas* if at the time we draw down on our loan to purchase the vessel our senior debt is rated below BB- by Standard & Poor's or below Ba3 by Moody's.

In April 2010, we took delivery of *Celebrity Eclipse*. To finance the purchase, we drew in full \$566.1 million under an unsecured term loan which is 95% guaranteed by Hermes, the official export credit agency of Germany. The loan amortizes over 12 years and bears interest at LIBOR plus a margin of 0.37%, currently approximately 0.83%.

Note 5. Other Assets

Variable Interest Entities

Authoritative guidance addresses consolidation by business enterprises of Variable Interest Entities (VIEs), which are entities in which the equity investors have not provided enough equity to finance its activities or the equity investors (1) cannot directly or indirectly make decisions about the entity's activities through their voting rights or similar rights; (2) do not have the obligation to absorb the expected losses of the entity; (3) do not have the right to receive the expected residual returns of the entity; or (4) have voting rights that are not proportionate to their economic interests and the entity's activities involve or are conducted on behalf of an investor with a disproportionately small voting interest.

We have determined that our 40% noncontrolling interest in a ship repair and maintenance facility which we initially invested in 2001, is a VIE. The facility serves cruise and cargo ships, oil and gas tankers, and offshore units. We utilize this facility, among other ship repair facilities, for our regularly scheduled drydocks and certain emergency repairs as may be required. As of June 30, 2010, our investment in this entity including equity and loans, which is also our maximum exposure to loss as we are not contractually required to provide any financial or other support to the facility, was approximately \$65.4 million and was included within other assets in our consolidated balance sheets. We have determined we are not the primary beneficiary as we do not have the power to direct the activities that most significantly impact the facility's economic performance. Accordingly, we do not consolidate this entity and account for this investment under the equity method of accounting.

In conjunction with our acquisition of Pullmantur in 2006, we obtained a 49% noncontrolling interest in Pullmantur Air, S.A. (Pullmantur Air), a small air business that operates four aircrafts in support of Pullmantur's operations. We have determined Pullmantur Air is a VIE for which we are the primary beneficiary as we have the power to direct the activities that most significantly impacts its economic performance and we are obligated to absorb its losses. In accordance with authoritative guidance, we have consolidated the assets and liabilities of Pullmantur Air. We do not disclose the assets and liabilities of Pullmantur Air as they are immaterial to our June 30, 2010 consolidated financial statements.

Table of Contents

We have determined that our 50% interest in the TUI Cruises GmbH joint venture with TUI AG, which operates the brand TUI Cruises, is a VIE. As of June 30, 2010, our investment in this entity which is substantially our maximum exposure to loss, was approximately \$165.1 million and was included within other assets in our consolidated balance sheets. We have determined that we are not the primary beneficiary of TUI Cruises. We believe that the power to direct the activities that most significantly impact TUI Cruises' economic performance are shared between ourselves and TUI AG. All the significant operating and financial decisions of TUI Cruises require the consent of both parties which we believe creates shared power over TUI Cruises. Accordingly, we do not consolidate this entity and account for this investment under the equity method of accounting.

Note 6. Commitments and Contingencies

Capital Expenditures. As of June 30, 2010, the expected dates our ships on order will enter service and their approximate berths are as follows:

Ship	Expected to Enter Service	Approximate Berths
Royal Caribbean International:		
Oasis-class:		
<i>Allure of the Seas</i>	4th Quarter 2010	5,400
Celebrity Cruises:		
Solstice-class:		
<i>Celebrity Silhouette</i>	3rd Quarter 2011	2,850
<i>Unnamed</i>	4th Quarter 2012	2,850
	Total Berths	11,100

The aggregate cost of these ships is approximately \$3.4 billion, of which we have deposited \$433.5 million as of June 30, 2010. Approximately 5.2% of the aggregate cost was exposed to fluctuations in the euro exchange rate at June 30, 2010.

Litigation

In January 2010, we reached a settlement with Rolls Royce, in our lawsuit that was pending in the Circuit Court for Miami-Dade County, Florida against Rolls Royce for the recurring Mermaid pod failures. As part of the settlement, each party dismissed the lawsuit with prejudice and released the other from all claims and counterclaims made by each party against the other. Under the terms of the settlement, we received a payment in the first quarter of 2010 of approximately \$68.0 million, net of costs and payments to insurers and will receive an additional \$20.0 million that will be payable within five years. We recorded a one-time gain of approximately \$85.6 million in the first quarter of 2010 in connection with this settlement, comprised of the \$68.0 million payment and the net present value of the \$20.0 million receivable or \$17.6 million. This amount was recognized within other income (expense) in our consolidated financial statements.

Table of Contents

The Miami District Office of the United States Equal Employment Opportunity Commission (EEOC) has alleged that certain of our shipboard employment practices do not comply with United States employment laws. In June 2007, the EEOC proposed payment of monetary sanctions of approximately \$27.0 million and certain remedial actions. Following discussions with the EEOC regarding this matter, the EEOC informed us in April 2008 that they transferred the matter to its legal unit for litigation review. On July 16, 2010, the EEOC issued a Notice of Right to Sue letter to the individual who originally complained, advising that the EEOC has elected not to pursue legal action against us. The individual has 90 days to bring a legal action if the individual so decides. We believe we have meritorious defenses to these claims and, if proceedings are initiated, we intend to vigorously pursue them.

In January 2006, a purported class action lawsuit was filed in the United States District Court for the Southern District of New York alleging that we and certain other named cruise lines infringed rights in copyrighted works and other intellectual property by presenting performances on our cruise ships without securing the necessary licenses. In March 2009, the Court dismissed the complaint for failure to state a claim with sufficient particularity but granted leave to re-file. In April 2009 plaintiffs filed an amended complaint with substantially the same allegations as the original complaint except that it no longer seeks class action treatment and confines its allegations of infringement to plaintiffs' copyrights of the theatrical production of Grease. The suit seeks payment of damages against all named defendants in an undetermined amount of not less than \$10.0 million, as well as disgorgement of profits, a permanent injunction against future infringement and punitive and treble damages. In March 2010, the Court dismissed the amended complaint with leave for plaintiffs to conduct limited discovery on jurisdictional issues and 120 days to file a further amended complaint. The Court also ruled that if plaintiffs did not further amend by that deadline, their claims would be dismissed with prejudice. The deadline passed without plaintiffs filing a further amended complaint.

There are a total of five cases pending in the United States District Court for the Western District of Washington against Park West Galleries, Inc., doing business as Park West Gallery, PWG Florida, Inc., Fine Art Sales, Inc., Vista Fine Art LLC, doing business as Park West At Sea (together, Park West), and other named and unnamed parties, including Royal Caribbean Cruises Ltd. and Celebrity Cruises Inc. and other unaffiliated cruise line companies. The actions are being brought on behalf of purchasers of artwork at shipboard art auctions conducted by Park West on the named cruise lines. One of these actions is being brought on a class action basis. The substance of the claims in all five actions is virtually the same. The suits allege that the artwork Park West sells is not what it represents to its customers and that Royal Caribbean Cruises Ltd., Celebrity Cruises Inc. and other named cruise lines are complicit in the activities of Park West, including engaging in a conspiracy with Park West in violation of the Racketeer Influenced and Corrupt Organizations Act (RICO), and are being enriched unjustly from the sale of the artwork. The actions seek from the named defendants refund and restitution of all monies acquired from the sale of artwork at shipboard auctions, recovery for the amount of payments for the purchased artwork, damages on the RICO claims in an indeterminate amount, permitted statutory damages and unspecified equitable or injunctive relief. The suits also seek from certain non-Royal Caribbean parties additional statutory, breach of contract and breach of warranty damages in unspecified amounts. In June, 2010, the Court dismissed Royal Caribbean Cruises Ltd. and Celebrity Cruises Inc. from all five actions on the basis that the claims against Royal Caribbean Cruises Ltd. and Celebrity Cruises Inc. were not timely filed and/or properly pled. Plaintiffs have since filed motions seeking permission from the Court to amend their complaints to address the noted deficiencies and to rename Royal Caribbean Cruises Ltd. and Celebrity Cruises Inc. as defendants in the actions. We will vigorously oppose any attempt by plaintiffs to rename either party as defendants and, if we are so renamed, we believe we will have meritorious defenses to the claims against us which we will vigorously pursue.

Table of Contents

In September 2009, demands for arbitration were made under our collective bargaining agreement covering Celebrity Cruises' crewmembers on behalf of twenty current and/or former Celebrity Cruises' cabin stewards and others similarly situated (the September 2009 Demands). These demands contend that between 2001 and 2005 Celebrity Cruises improperly required the named cabin stewards to share guest gratuities with assistant cabin stewards. The demands seek payment of damages, including penalty wages, under the U.S. Seaman's Wage Act of approximately \$0.6 million for the named crewmembers and estimates damages in excess of \$200.0 million, for the entire class of other similarly situated crewmembers. In October 2009, and again in December 2009 and in July 2010 additional demands for arbitration were made under our collective bargaining agreement covering Celebrity Cruises' crewmembers by the same counsel on behalf of a total of eight current and/or former Celebrity Cruises' cabin stewards and others similarly situated, making the same contentions and seeking the same damages as in the September 2009 Demands. A similar action brought by this same counsel in October 2009 on behalf of ten crew members and others similarly situated in the Southern District Court, Southern District of Florida making the same contentions and seeking the same damages as the arbitration demands was dismissed with prejudice. Plaintiff is appealing this dismissal. We believe we have meritorious defenses to the pending arbitration demands and actions which we intend to vigorously pursue.

We are routinely involved in other claims typical within the cruise vacation industry. The majority of these claims are covered by insurance. We believe the outcome of such claims, net of expected insurance recoveries, will not have a material adverse impact on our financial condition or results of operations.

Other

Under the *Brilliance of the Seas* operating lease, we have agreed to indemnify the lessor to the extent its after-tax return is negatively impacted by unfavorable changes in corporate tax rates, capital allowance deductions and certain unfavorable determinations which may be made by United Kingdom tax authorities. These indemnifications could result in an increase in our lease payments. We are unable to estimate the maximum potential increase in our lease payments due to the various circumstances, timing or a combination of events that could trigger such indemnifications. We have been advised by the lessor that the United Kingdom tax authorities are disputing the lessor's accounting treatment of the lease and that the parties are in discussions on the matter. If the characterization of the lease is ultimately determined to be incorrect, we could be required to indemnify the lessor under certain circumstances. The lessor has advised us that they believe their characterization of the lease is correct. Based on the foregoing and our review of available information, we do not believe an indemnification is probable. However, if the lessor loses its dispute and we are required to indemnify the lessor, we cannot at this time predict the impact that such an occurrence would have on our financial condition and results of operations.

Table of Contents

Some of the contracts that we enter into include indemnification provisions that obligate us to make payments to the counterparty if certain events occur. These contingencies generally relate to changes in taxes, increased lender capital costs and other similar costs. The indemnification clauses are often standard contractual terms and are entered into in the normal course of business. There are no stated or notional amounts included in the indemnification clauses and we are not able to estimate the maximum potential amount of future payments, if any, under these indemnification clauses. We have not been required to make any payments under such indemnification clauses in the past and, under current circumstances, we do not believe an indemnification in any material amount is probable.

If any person other than A. Wilhelmsen AS. and Cruise Associates acquires ownership of more than 30% of our common stock and our two principal shareholders, in the aggregate, own less of our common stock than such person and do not collectively have the right to elect, or to designate for election, at least a majority of the board of directors, we may be obligated to prepay indebtedness outstanding under the majority of our credit facilities, which we may be unable to replace on similar terms. If this were to occur, it could have an adverse impact on our liquidity and operations.

Note 7. Comprehensive Income (Loss)

Comprehensive income (loss) includes net income (loss), foreign currency translation adjustments and changes in the fair value of derivative instruments that qualify as cash flow hedges. The cumulative changes in fair value of the derivatives are deferred and recorded as a component of accumulated other comprehensive income (loss) until the hedged transactions are realized and recognized in earnings.

Comprehensive income (loss) was as follows (in thousands):

	Quarter Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Net income (loss)	\$ 60,546	\$ (35,086)	\$ 147,993	\$ (71,324)
Changes related to cash flow derivative hedges	(241,570)	301,000	(353,486)	285,035
Foreign currency translation adjustments	(44,713)	29,043	(75,079)	11,384
Total comprehensive (loss) income	\$ (225,737)	\$ 294,957	\$ (280,572)	\$ 225,095

Note 8. Fair Value Measurements and Derivative Instruments**Fair Value Measurements**

The Company uses quoted prices in active markets when available to determine the fair value of its financial instruments. The estimated fair value of our financial instruments that are not measured at fair value on a recurring basis are as follows (in thousands):

	At December	
	At June 30, 2010	31, 2009
Long-term debt (including current portion of long-term debt)	\$ 7,445,328	\$ 7,744,915

Table of Contents*Long-Term Debt*

The fair values of our senior notes and senior debentures were estimated by obtaining quoted market prices. The fair values of all other debt were estimated using the present value of expected future cash flows which incorporates our risk profile.

Other Financial Instruments

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable, accrued interest and accrued expenses approximate fair value at June 30, 2010 and December 31, 2009.

In addition, assets and liabilities that are recorded at fair value have been categorized based upon the fair value hierarchy in accordance with authoritative guidance.

The following table presents information about the Company's financial instruments recorded at fair value on a recurring basis (in thousands):

Description	Fair Value Measurements at June 30, 2010 Using				Fair Value Measurements at December 31, 2009 Using			
	Total	Level 1 ¹	Level 2 ²	Level 3 ³	Total	Level 1 ¹	Level 2 ²	Level 3 ³
Assets:								
Derivative financial instruments ⁴	\$ 141,985		114,795	27,190	\$ 385,760		375,762	9,998
Investments ⁵	\$ 7,580	7,580			\$ 8,923	8,923		
Total Assets	\$ 149,565	\$ 7,580	\$ 114,795	\$ 27,190	\$ 394,683	\$ 8,923	\$ 375,762	\$ 9,998
Liabilities:								
Derivative financial instruments ⁶	\$ 464,712		464,712		\$ 79,337		79,337	
Total Liabilities	\$ 464,712	\$	\$ 464,712	\$	\$ 79,337	\$	\$ 79,337	\$

- Inputs based on quoted prices (unadjusted) in active markets for identical assets or liabilities that we have the ability to access. Valuation of these items does not entail a significant amount of judgment.
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Fair value is derived using valuation models that utilize the income valuation approach. These valuation models take into account the contract terms such as maturity, as well as other inputs such as exchange rates, fuel types, fuel curves, interest rate yield curves, creditworthiness of the counterparty and the Company.
- Fair value for fuel call options is derived using standard option pricing models with inputs based on the options' contract terms, such as exercise price and maturity, and data either readily available or derived from public market information, such as fuel curves, volatility levels and discount rates. Categorized as Level 3 because certain inputs (principally volatility) are unobservable.
- Consists of foreign currency forward contracts, interest rate, cross currency, fuel swaps and fuel call options. Please refer to the Fair Value of Derivative Instruments table for breakdown by instrument type.
- Consists of exchange-traded equity securities and mutual funds.
- Consists of cross currency, fuel swaps and foreign currency forward contracts. Please refer to the Fair Value of Derivative Instruments table for breakdown by instrument type.

Table of Contents

The following table presents a reconciliation of the Company's fuel call options' beginning and ending balances as follows (in thousands):

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) Fuel Call Options
<u>Quarter Ended June 30, 2010</u>	
Balance at April 1, 2010	\$ 20,543
Total gains or losses (realized /unrealized)	
Included in other income (expense)	(4,249)
Included in comprehensive income	
Purchases, issuances, and settlements	10,896
Transfers in and/or out of Level 3	
Balance at June 30, 2010	\$ 27,190
The amount of total gains or losses for the period included in other (expense) income attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	
	\$ (4,249)
<u>Six Months Ended June 30, 2010</u>	
Balance at January 1, 2010	\$ 9,998
Total gains or losses (realized / unrealized)	
Included in other income (expense)	(7,347)
Included in comprehensive income	
Purchases, issuances, and settlements	24,539
Transfers in and/or out of Level 3	
Balance at June 30, 2010	\$ 27,190
The amount of total gains or losses for the period included in other (expense) income attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	
	\$ (7,347)

The reported fair values are based on a variety of factors and assumptions. Accordingly, the fair values may not represent actual values of the financial instruments that could have been realized as of June 30, 2010 or December 31, 2009, or that will be realized in the future and do not include expenses that could be incurred in an actual sale or settlement.

Concentrations of Credit Risk

We monitor concentrations of credit risk associated with financial and other institutions with which we conduct significant business. Our exposure under foreign currency contracts, fuel call options, interest rate and fuel swap agreements that are in-the-money are limited to the cost of replacing the contracts in the event of non-performance by the counterparties to the contracts, all of which are currently our lending banks. To minimize this risk, we select counterparties with credit risks acceptable to us and we limit our exposure to an individual counterparty. Credit risk, including but not limited to counterparty nonperformance under derivative instruments, our revolving credit facility and new ship progress payment guarantees, is not considered significant, as we primarily

Table of Contents

conduct business with large, well-established financial institutions and insurance companies with which we have long-term relationships and have credit risks acceptable to us or the credit risk is spread out among a large number of counterparties. We do not anticipate nonperformance by any of our significant counterparties. In addition, we have established guidelines regarding credit ratings and instrument maturities that we follow to maintain safety and liquidity. We do not normally require collateral or other security to support credit relationships; however, in certain circumstances this option is available to us. We normally require guarantees to support new ship progress payments to shipyards.

Derivative Instruments

We are exposed to market risk attributable to changes in interest rates, foreign currency exchange rates and fuel prices. We manage these risks through a combination of our normal operating and financing activities and through the use of derivative financial instruments pursuant to our hedging practices and policies. The financial impact of these hedging instruments is primarily offset by corresponding changes in the underlying exposures being hedged. We achieve this by closely matching the amount, term and conditions of the derivative instrument with the underlying risk being hedged. We do not hold or issue derivative financial instruments for trading or other speculative purposes. We monitor our derivative positions using techniques including market valuations and sensitivity analyses.

We enter into various forward, swap and option contracts to manage our interest rate exposure and to limit our exposure to fluctuations in foreign currency exchange rates and fuel prices. These instruments are recorded on the balance sheet at their fair value and the vast majority are designated as hedges. We also have non-derivative financial instruments designated as hedges of our net investment in our foreign operations and investments.

At inception of the hedge relationship, a derivative instrument that hedges the exposure to changes in the fair value of a firm commitment or a recognized asset or liability is designated as a fair value hedge. A derivative instrument that hedges a forecasted transaction or the variability of cash flows related to a recognized asset or liability is designated as a cash flow hedge.

Changes in the fair value of derivatives that are designated as fair value hedges are offset against changes in the fair value of the underlying hedged assets, liabilities or firm commitments. Changes in fair value of derivatives that are designated as cash flow hedges are recorded as a component of accumulated other comprehensive income (loss) until the underlying hedged transactions are recognized in earnings. The foreign-currency transaction gain or loss of our nonderivative financial instrument designated as a hedge of our net investment in our foreign operations and investments are recognized as a component of accumulated other comprehensive income (loss) along with the associated foreign currency translation adjustment of the foreign operation.

On an ongoing basis, we assess whether derivatives used in hedging transactions are highly effective in offsetting changes in the fair value or cash flow of hedged items. We use the long-haul method to assess hedge effectiveness using regression analysis for each hedge relationship under our interest rate, foreign currency and fuel hedging programs. We apply the same methodology on a consistent basis for assessing hedge effectiveness to all hedges within each hedging program (i.e. interest rate, foreign currency and fuel). We generally perform regression analysis over an observation period commensurate with the contractual life of the derivative instrument up to three years. High

Table of Contents

effectiveness is achieved when a statistically valid relationship reflects a high degree of offset and correlation between the fair values of the derivative instrument and the hedged item. The determination of ineffectiveness is based on the amount of dollar offset between the change in fair value of the derivative instrument and the change in fair value of the hedged item at the end of the reporting period. If it is determined that a derivative is not highly effective as a hedge or hedge accounting is discontinued, any change in fair value of the derivative since the last date at which it was determined to be effective is recognized in earnings. In addition, the ineffective portion of our highly effective hedges is recognized in earnings immediately and reported in other income (expense) in our consolidated statements of operations.

Cash flows from derivative instruments that are designated as fair value or cash flow hedges are classified in the same category as the cash flows from the underlying hedged items. In the event that hedge accounting is discontinued, cash flows subsequent to the date of discontinuance are classified consistent with the nature of the instrument.

Interest Rate Risk

Our exposure to market risk for changes in interest rates relates to our long-term debt obligations including future interest payments. At June 30, 2010, approximately 55% of our long-term debt was effectively fixed and approximately 45% was floating as compared to 45% and 55% as of March 31, 2010, respectively. We use interest rate swap agreements to modify our exposure to interest rate movements and to manage our interest expense. We assess the risk that changes in interest rates will have either on the fair value of debt obligations or on the amount of future interest payments by monitoring changes in interest rate exposures and by evaluating hedging opportunities.

Market risk associated with our long-term fixed rate debt is the potential increase in fair value resulting from a decrease in interest rates. We use interest rate swap agreements that effectively convert a portion of our fixed-rate debt to a floating-rate basis to manage this risk. In an effort to increase our fixed percentage of debt, we terminated during the second quarter of 2010, our interest rate swap agreements that effectively changed 1.0 billion of debt with a fixed rate of 5.625% to EURIBOR-based floating rate debt and our cross currency swap agreements that effectively changed 300.0 million of the 1.0 billion floating EURIBOR-based debt to \$389.1 million of floating LIBOR-based debt. Upon termination of these swaps, we received net cash proceeds of approximately \$115.4 million. The swaps were designated as fair value hedges and terminating the swaps did not result in a gain or loss. We accounted for the termination of these swaps by recording the cash received and removing the fair value of the instruments from our consolidated balance sheets. In addition, approximately \$104.1 million, representing an increase to the carrying amount of the 1.0 billion debt is being amortized as a reduction to interest expense over the remaining life of the debt. The increase to the carrying amount of the debt is reported in long-term debt. At June 30, 2010, we also maintain interest rate swap agreements that effectively changed \$350.0 million of debt with a fixed rate of 7.25% to LIBOR-based floating rate debt. These interest rate swap agreements are accounted for as fair value hedges.

The notional amount of outstanding debt related to interest rate swaps as of June 30, 2010 was \$350.0 million.

Table of Contents

Foreign Currency Exchange Rate Risk

Our primary exposure to foreign currency exchange rate risk relates to our ship construction firm commitments denominated in euros and a portion of our euro-denominated debt. We enter into euro-denominated forward contracts and cross currency swap agreements to manage our exposure to movements in foreign currency exchange rates. During the second quarter of 2010, we entered into cross currency swap agreements that effectively changed 400.0 million of the 1.0 billion debt with a fixed rate of 5.625% to \$509.0 million of debt at a weighted-average fixed rate of 6.625%. Approximately 5.2% of the aggregate cost of the ships was exposed to fluctuations in the euro exchange rate at June 30, 2010. The vast majority of our foreign exchange contracts and our cross currency swap agreements are accounted for as fair value or cash flow hedges depending on the designation of the related hedge.

The notional amount of outstanding foreign exchange contracts including our cross currency swap agreements as of June 30, 2010 was \$2.7 billion.

We consider our investments in our foreign subsidiaries and foreign investments to be denominated in relatively stable currencies and of a long-term nature. We partially address the exposure of our investments in foreign subsidiaries and foreign investments by denominating a portion of our debt in our subsidiaries' and investments' functional currencies (generally euros). Specifically, we have assigned debt of approximately 342.7 million and 136.0 million, or approximately \$419.4 million and \$166.4 million, as a hedge of our net investment in Pullmantur and TUI Cruises, respectively.

Fuel Price Risk

Our exposure to market risk for changes in fuel prices relates to the consumption of fuel on our ships. We use fuel swap agreements and fuel call options to mitigate the financial impact of fluctuations in fuel prices. During the second quarter of 2010, we terminated 22.9% of our fuel swap agreements due to a counterparty no longer meeting our guidelines and entered into new fuel swap agreements with a different counterparty. Upon termination of the fuel swaps, we received net cash proceeds of approximately \$57.5 million. The swaps were designated as cash flow hedges and terminating the swaps did not result in the recognition of a gain or loss in our consolidated statement of operations. We accounted for the termination of the swaps by recording the cash received and removing the fair value of the instruments from our consolidated balance sheets. At June 30, 2010, \$55.6 million of deferred gains associated with the terminated swaps remain in accumulated other comprehensive income and will be reclassified into earnings in the period that the hedged forecasted transactions affect earnings.

As of June 30, 2010, we have entered into fuel swap agreements, on approximately 338,000 metric tons of our projected 2010 fuel purchases, 766,000 metric tons of our projected 2011 fuel purchases, 738,000 metric tons of our projected 2012 fuel purchases and 150,000 metric tons of our 2013 fuel purchases. The fuel swap agreements hedge 48% of our projected 2010 fuel requirements, 55% of our projected 2011 fuel requirements, 50% of our projected 2012 fuel requirements and 10% of our projected 2013 fuel requirements. Additionally, as of June 30, 2010, we have entered into fuel call options on a total of 6.6 million barrels which mature between 2011 and 2013 in order to provide protection in the event fuel prices exceed the options' exercise prices. The fuel call options represent 39% of our projected 2011 fuel requirements, 23% of our projected 2012 fuel requirements and 10% of our projected 2013 fuel requirements. Our fuel swap agreements are accounted for as cash flow

Table of Contents

hedges and our fuel call options are not designated as hedging instruments and thus, changes in the fair value of our fuel call options are recognized in earnings immediately and reported in other income (expense) in our consolidated statements of operations.

At June 30, 2010, \$40.6 million of estimated unrealized net gains associated with our cash flow hedges pertaining to fuel swap agreements are expected to be reclassified to earnings from other accumulated comprehensive income (loss) within the next twelve months, including \$37.2 million related to fuel swap agreements terminated in the second quarter of 2010. Reclassification is expected to occur as the result of fuel consumption associated with our hedged forecasted fuel purchases.

Credit Related Contingent Features

Starting in 2012, our current interest rate derivative instruments may require us to post collateral if our Standard & Poor's and Moody's credit ratings are below specified levels. Specifically, if on the fifth anniversary of entering into a derivative transaction and on all succeeding fifth-year anniversaries our credit ratings for our senior debt were to be below BBB- by Standard & Poor's and Baa3 by Moody's, then each counterparty to such derivatives with whom we are in a net liability position that exceeds the applicable minimum call amount may demand that we post collateral in an amount equal to the net liability position. The amount of collateral required to be posted following such event will change each time our net liability position increases or decreases by more than the applicable minimum call amount. If our credit rating for our senior debt is subsequently equal to or above BBB- by Standard & Poor's or Baa3 by Moody's, then any collateral posted at such time will be

Edgar Filing: ROYAL CARIBBEAN CRUISES LTD - Form 10-Q

released to us and we will no longer be required to post collateral unless we meet the collateral requirement at the next fifth-year anniversary. Currently, our senior debt credit rating is BB- with a stable outlook by Standard & Poor's and Ba3 with a stable outlook by Moody's. Only our interest rate instruments have a term of at least five years and will not reach their fifth anniversary until 2012. Therefore, as of June 30, 2010, we are not required to post any collateral for our derivative instruments.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Note Concerning Factors That May Affect Future Results

Certain statements under this caption Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this document constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995. Words such as anticipate, believe, could, estimate, expect, goal, intend, may, plan, project, seek, should, will, and similar expressions are intended to identify forward-looking statements. Forward-looking statements do not guarantee future performance and may involve risks, uncertainties and other factors, which could cause our actual results, performance or achievements to differ materially from the future results, performance or achievements expressed or implied in those forward-looking statements. Examples of these risks, uncertainties and other factors include, but are not limited to the following:

the impact of the economic environment on the demand for cruises,

the impact of the economic environment on our ability to generate cash flows from operations or obtain new borrowings from the credit or capital markets in amounts sufficient to satisfy our capital expenditures, debt repayments and other financing needs,

the impact of disruptions in the global financial markets on the ability of our counterparties and others to perform their obligations to us including those associated with our loan agreements and derivative contracts,

the uncertainties of conducting business internationally and expanding into new markets,

changes in operating and financing costs, including changes in foreign exchange rates, interest rates, fuel, food, payroll, airfare for our shipboard personnel, insurance and security costs,

vacation industry competition and changes in industry capacity and overcapacity,

the cost of or changes in tax, environmental, health, safety, security and other laws and regulations affecting our business or our principal shareholders,

pending or threatened litigation, enforcement actions, fines or penalties,

emergency ship repairs, including the related lost revenue,

the impact of ship delivery delays, ship cancellations or ship construction price increases brought about by construction faults, mechanical problems or financial difficulties encountered by shipyards or their subcontractors,

negative incidents or adverse publicity concerning the cruise vacation industry including those involving unusual weather patterns or natural disasters and the health, safety and security of passengers,

Edgar Filing: ROYAL CARIBBEAN CRUISES LTD - Form 10-Q

the international political climate, fears of terrorist and pirate attacks, armed conflict, the unavailability or cost of air service and the resulting concerns over safety and security aspects of traveling,

Table of Contents

the spread of contagious diseases,

a disruption to our business related to actual or threatened natural disasters, information systems failure or similar events,

our ability to differentiate our cruise brands,

changes or disruptions to the travel agency industry,

the loss of key personnel, strained employee relations and/or our inability to retain or recruit qualified personnel,

changes in our stock price or principal shareholders,

uncertainties of a foreign legal system as we are not incorporated in the United States,

the unavailability of ports of call,

weather.

The above examples are not exhaustive and new risks emerge from time to time. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. For a further discussion of risk factors related to our business, see Part I, Item 1A. *Risk Factors* in our annual report on Form 10-K for the year ended December 31, 2009.

Critical Accounting Policies

For a discussion of our critical accounting policies, refer to *Management's Discussion and Analysis of Financial Condition and Results of Operations* within our annual report on Form 10-K for the year ended December 31, 2009.

Terminology

Our revenues are seasonal based on demand for cruises. Demand is strongest for cruises during the Northern Hemisphere's summer months and holidays.

Our revenues consist of the following:

Passenger ticket revenues consist of revenue recognized from the sale of passenger tickets and the sale of air transportation to and from our ships.

Onboard and other revenues consist primarily of revenues from the sale of goods and/or services onboard our ships not included in passenger ticket prices, cancellation fees, sales of vacation protection insurance, pre- and post-cruise tours, Pullmantour's land-based tours and hotel and air packages. Also included are revenues we receive from independent third party concessionaires that pay us a percentage of their revenues in exchange for the right to provide selected goods and/or services onboard our ships.

Table of Contents

Our cruise operating expenses consist of the following:

Commissions, transportation and other expenses consist of those costs directly associated with passenger ticket revenues, including travel agent commissions, air and other transportation expenses, port costs that vary with passenger head counts and related credit card fees.

Onboard and other expenses consist of the direct costs associated with onboard and other revenues. These costs include the cost of products sold onboard our ships, vacation protection insurance premiums, costs associated with pre- and post-cruise tours and related credit card fees. These costs also include minimal costs associated with concession revenues, as the costs are mostly incurred by third-party concessionaires.

Payroll and related expenses consist of costs for shipboard personnel.

Food expenses include food costs for both passengers and crew.

Fuel expenses include fuel and related delivery and storage costs, including the financial impact of fuel swap agreements.

Other operating expenses consist primarily of operating costs such as repairs and maintenance, port costs that do not vary with passenger head counts, vessel operating lease costs, costs associated with Pullmantur's land-based tours, vessel related insurance and entertainment.

We do not allocate payroll and related costs, food costs, fuel costs or other operating costs to the expense categories attributable to passenger ticket revenues or onboard and other revenues since they are incurred to provide the total cruise vacation experience.

Non-GAAP Financial Measures

Available Passenger Cruise Days (APCD) is our measurement of capacity and represents double occupancy per cabin multiplied by the number of cruise days for the period. We use this measure to perform capacity and rate analysis to identify our main non-capacity drivers which cause our cruise revenue and expenses to vary.

Gross Cruise Costs represent the sum of total cruise operating expenses plus marketing, selling and administrative expenses.

Gross Yields represent total revenues per APCD.

Net Cruise Costs represent Gross Cruise Costs excluding commissions, transportation and other expenses and onboard and other expenses (each of which is described above under the Terminology heading). In measuring our ability to control costs in a manner that positively impacts net income, we believe changes in Net Cruise Costs to be the most relevant indicator of our performance. A reconciliation of historical Gross Cruise Costs to Net Cruise Costs is provided below under *Summary of Historical Results of Operations*. We have not provided a quantitative reconciliation of projected Gross Cruise Costs to projected Net Cruise Costs due to the significant uncertainty in projecting the costs deducted to arrive at this measure. Accordingly, we do not believe that reconciling information for such projected figures would be meaningful.

Table of Contents

Net Debt-to-Capital is a ratio which represents total long-term debt, including current portion of long-term debt, less cash and cash equivalents (Net Debt) divided by the sum of Net Debt and total shareholders' equity. We believe Net Debt and Net Debt-to-Capital, along with total long-term debt and shareholders' equity are useful measures of our capital structure. A reconciliation of historical Debt-to-Capital to Net Debt-to-Capital is provided below under *Summary of Historical Results of Operations*.

Net Revenues represent total revenues less commissions, transportation and other expenses and onboard and other expenses (each of which is described under the Terminology heading).

Net Yields represent Net Revenues per APCD. We utilize Net Revenues and Net Yields to manage our business on a day-to-day basis as we believe that it is the most relevant measure of our pricing performance because it reflects the cruise revenues earned by us net of our most significant variable costs, which are commissions, transportation and other expenses and onboard and other expenses. A reconciliation of historical Gross Yields to Net Yields is provided below under *Summary of Historical Results of Operations*. We have not provided a quantitative reconciliation of projected Gross Yields to projected Net Yields due to the significant uncertainty in projecting the costs deducted to arrive at this measure. Accordingly, we do not believe that reconciling information for such projected figures would be meaningful.

Occupancy, in accordance with cruise vacation industry practice, is calculated by dividing Passenger Cruise Days by APCD. A percentage in excess of 100% indicates that three or more passengers occupied some cabins.

Passenger Cruise Days represent the number of passengers carried for the period multiplied by the number of days of their respective cruises.

We believe Net Yields and Net Cruise Costs are our most relevant non-GAAP financial measures. However, a significant portion of our revenue and expenses are denominated in currencies other than the United States dollar. Because our reporting currency is the United States dollar, the value of these revenues and expenses can be affected by changes in currency exchange rates. Although such changes in local currency prices is just one of many elements impacting our revenues and expenses, it can be an important element. For this reason, we also monitor Net Yields and Net Cruise Costs as if the current periods' currency exchange rates had remained constant with the comparable prior periods' rates, or on a Constant Currency basis.

It should be emphasized that the use of Constant Currency is primarily used for comparing short-term changes and/or projections. Over the longer term, changes in guest sourcing and shifting the amount of purchases between currencies significantly change the impact of the purely currency based fluctuations.

Table of Contents

The use of certain significant non-GAAP measures, such as Net Yields and Net Cruise Costs, allow us to perform capacity and rate analysis to separate the impact of known capacity changes from other less predictable changes which affect our business. We believe these non-GAAP measures provide expanded insight to measure revenue and cost performance in addition to the standard United States GAAP based financial measures. There are no specific rules or regulations for determining non-GAAP measures, and as such, there exists the possibility that they may not be comparable to other companies within the industry.

Summary of Historical Results of Operations

Total revenues increased 18.7% to \$1.6 billion in the second quarter of 2010 from total revenues of \$1.3 billion for the same period in 2009 primarily due to a 14.6% increase in capacity and a 4.9% increase in Net Yields. The increase in Net Yields was primarily due to an increase in ticket prices, and to a lesser extent, an increase in onboard spending and an increase in occupancy. This increase was partially offset by increases in operating expenses primarily due to the increase in capacity. As a result, our net income was \$60.5 million or \$0.28 per share on a diluted basis for the second quarter of 2010 compared to a net loss of \$35.1 million or \$0.16 per share on a diluted basis for the second quarter of 2009.

Other significant items for the second quarter of 2010 include:

Net Cruise Costs per APCD decreased by 2.8% compared to the same period in 2009.

In April 2010, we took delivery of *Celebrity Eclipse*, the third Solstice-class ship for Celebrity Cruises. To finance the purchase, we drew in full \$566.1 million under an unsecured term loan.

We announced the pending sale of *Celebrity Mercury* to TUI Cruises in the first quarter of 2011 to serve as its second ship. *Celebrity Mercury* will enter service with TUI Cruises in the second quarter of 2011, under the name *Mein Schiff 2*, following an extensive refurbishment. We will recognize a gain on the sale which we do not expect to have a material effect on our annual earnings.

In an effort to increase our fixed percentage of debt, we terminated certain of our interest rate and cross currency swap agreements which resulted in net cash proceeds of approximately \$115.4 million.

Table of Contents

Operating results for the quarter and six months ended June 30, 2010 compared to the same periods in 2009 are shown in the following table (in thousands, except per share data):

	Quarter Ended June 30,				Six Months Ended June 30,

Net Debt-to-Capital	51.8%	52.0%

Outlook*Third Quarter 2010*

We expect Net Yields will increase approximately 4% compared to 2009. On a Constant Currency basis, we expect Net Yields will increase approximately 7% compared to 2009.

We expect Net Cruise Costs per APCD to decrease approximately 1% compared to 2009. On a Constant Currency basis, we expect Net Cruise Costs per APCD to remain flat to up slightly compared to 2009. Excluding fuel, we expect Net Cruise Costs per APCD to decrease approximately 2% compared to 2009. On a Constant Currency basis, we expect Net Cruise Costs per APCD excluding fuel to be approximately flat compared to 2009.

We expect a 12.7% increase in capacity, primarily driven by a full quarter of *Celebrity Equinox*, the addition of *Oasis of the Seas* which entered service during the fourth quarter of 2009 and the addition of *Celebrity Eclipse*, which entered service during the second quarter of 2010.

Depreciation and amortization expenses are expected to be in the range of \$160.0 million to \$165.0 million and interest expense is expected to be in the range of \$78.0 million to \$83.0 million.

We do not forecast fuel prices and our cost calculations for fuel are based on current at-the-pump prices net of any hedging impacts. If fuel prices for the third quarter of 2010 remain at the level of current at-the-pump prices, fuel expenses for the third quarter of 2010 would be approximately \$170.0 million. For the third quarter of 2010, our fuel expense is approximately 47% hedged and a 10% change in fuel prices would result in a change of fuel expenses of approximately \$9.0 million after taking into account existing hedges.

Based on the expectations noted above, and assuming that fuel prices remain at the level of current at-the-pump prices, we expect third quarter 2010 earnings per share to be in the range of \$1.52 to \$1.57.

Table of Contents

Full Year 2010

We expect Net Yields to increase in the range of 3% to 4% compared to 2009. On a Constant Currency basis, we expect Net Yields will increase in the range of 4% to 5% compared to 2009.

We expect Net Cruise Costs per APCD to decrease in the range of 1% to 2% compared to 2009. On a Constant Currency basis, we expect Net Cruise Costs per APCD to decrease approximately 1% compared to 2009. Excluding fuel, we expect Net Cruise Costs per APCD to decrease in the range of 1% to 2% compared to 2009. On a Constant Currency basis, we expect Net Cruise Costs per APCD excluding fuel to be approximately flat to a decrease of 1% compared to 2009.

We expect an 11.5% increase in capacity in 2010, primarily driven by a full year of *Pacific Dream*, a full year of *Celebrity Equinox*, a full year of *Oasis of the Seas*, the addition of *Celebrity Eclipse* which entered service during the second quarter of 2010 and the addition of *Allure of the Seas* which will enter service during the fourth quarter of 2010.

Depreciation and amortization expenses are expected to be in the range of \$640.0 million to \$650.0 million, and interest expense is expected to be in the range of \$330.0 million to \$340.0 million.

We do not forecast fuel prices and our cost calculations for fuel are based on current at-the-pump prices net of any hedging impacts. If fuel prices for the full year 2010 remain at the level of current at-the-pump prices, fuel expenses for the full year 2010 would be approximately \$652.0 million. For the full year 2010, our fuel expense is approximately 48% hedged and a 10% change in fuel prices would result in a change in fuel expenses of approximately \$17.0 million after taking into account existing hedges.

Based on the expectations noted above, and assuming that fuel prices remain at the level of current at-the-pump prices, we expect full year 2010 earnings per share to be in the range of \$2.25 to \$2.35.

Quarter Ended June 30, 2010 Compared to Quarter Ended June 30, 2009

Revenues

Total revenues for 2010 increased \$252.7 million or 18.7% to \$1.6 billion from \$1.3 billion in 2009. Approximately \$196.3 million of this increase is attributable to a 14.6% increase in capacity. The increase in capacity is primarily due to the addition of *Oasis of the Seas*, which entered service in December 2009, the addition of *Celebrity Equinox* which entered service in July 2009, the addition of *Celebrity Eclipse* which entered service in April 2010 and to a full quarter of *Pacific Dream*, which entered service in May 2009. This increase in capacity was partially offset by the *Atlantic Star* which was removed from operation in August 2009. In addition, approximately \$56.4 million of the increase was driven by increases in ticket prices and, to a lesser extent, an increase in onboard spending on a per passenger basis. This increase was partially offset by a decrease in air revenue due to an overall decrease in air ticket prices, a decrease in air charter revenue due to a decrease in air charter prices and the number of passengers booking air charter services and the adverse impact of the recent European travel disruptions resulting from the volcanic ash. The increases in ticket prices and onboard spending on a per passenger basis were also partially offset by the adverse effect of changes in foreign currency exchange rates related to our revenue transactions denominated in currencies other than the United States dollar.

Table of Contents

Onboard and other revenues included concession revenues of \$61.7 million in 2010 compared to \$52.8 million for the same period in 2009. The increase in concession revenues was primarily due to the increase in capacity mentioned above, and to a lesser extent an increase in spending on a per passenger basis.

Cruise Operating Expenses

Total cruise operating expenses for 2010 increased \$120.8 million or 12.5% to \$1.1 billion from \$965.4 million for 2009. Approximately \$140.5 million of this increase is attributable to the 14.6% increase in capacity mentioned above. This increase was partially offset by a \$19.7 million decrease primarily related to lower air expenses including air charter expenses on a per passenger basis as mentioned above, and to a lesser extent our continued emphasis on cost containment. The decrease is also due to the reduction in passengers purchasing air charter services. The increase in cruise operating expenses was also partially offset by the favorable effect of changes in foreign currency exchange rates related to our cruise operating expenses denominated in currencies other than the United States dollar.

Marketing, Selling and Administrative Expenses

Marketing, selling and administrative expenses for 2010 increased \$21.2 million or 11.1% to \$211.8 million from \$190.6 million for 2009. The increase is primarily due to an increase in shoreside payroll and benefits due to increases in headcount primarily related to our international expansion and other compensation related costs. To a lesser extent, the increase is also due to an increase in marketing and selling expenses associated with our international expansion.

Depreciation and Amortization expenses

Depreciation and amortization expenses for 2010 increased \$22.1 million or 16.0% to \$160.0 million from \$137.9 million for 2009. The increase is primarily due to the addition of *Oasis of the Seas* which entered service in December 2009, the addition of *Celebrity Equinox* which entered service in July 2009 and the addition of *Celebrity Eclipse* which entered service in April 2010. These increases were partially offset by the sale of *Oceanic* in April 2009. In addition, the *Atlantic Star* was classified as held for sale in August 2009 and is no longer being depreciated.

Other Income (Expense)

Interest expense, net of interest capitalized, increased to \$83.8 million in 2010 from \$68.3 million in 2009. Gross interest expense increased to \$90.6 million in 2010 from \$78.7 million in 2009. The increase was primarily due to a higher average debt level. Interest capitalized decreased to \$6.8 million in 2010 from \$10.3 million in 2009 primarily due to a lower average level of investment in ships under construction.

Other expense for 2010 decreased \$22.3 million to \$0.7 million from \$23.0 million in 2009. The decrease was primarily due to a decrease in foreign exchange losses of \$17.2 million when compared to 2009.

Table of Contents

Net Yields

Net Yields increased 4.9% in 2010 compared to 2009 primarily due to the increase in ticket prices and the increase in onboard spending, as discussed above. Net Yields increased 5.4% in 2010 compared to 2009 after adjusting for year over year changes in currency.

Net Cruise Costs

Net Cruise Costs increased 11.3% in 2010 compared to 2009 due to the 14.6% increase in capacity, partially offset by a 2.8% decrease in Net Cruise Cost per APCD. The decrease in Net Cruise Costs per APCD was primarily driven by the decrease in air charter expenses and our continued emphasis on cost containment, as discussed above. Net Cruise Costs per APCD decreased 2.0% in 2010 compared to 2009 after adjusting for year over year changes in currency.

Six Months Ended June 30, 2010 Compared to Six Months Ended June 30, 2009

Revenues

Total revenues for 2010 increased \$412.7 million or 15.4% to \$3.1 billion from \$2.7 billion in 2009. Approximately \$314.9 million of this increase is attributable to an 11.8% increase in capacity. The increase in capacity is primarily due to the addition of *Oasis of the Seas*, which entered service in December 2009, the addition of *Celebrity Equinox* which entered service in July 2009, a full six months of *Pacific Dream*, which entered service in May 2009 and the addition of *Celebrity Eclipse* which entered service in April 2010. This increase in capacity was partially offset by the sale of *Celebrity Galaxy* to TUI Cruises in March 2009, the *Atlantic Star* which was removed from operation in August 2009 and the sale of *Oceanic* in April 2009. Our revenues were also impacted by an increase in occupancy from 101.7% in 2009 to 103.4% in 2010. The increase in occupancy is primarily due to improving market conditions. In addition, approximately \$97.8 million of the increase was driven by increases in ticket prices and onboard spending on a per passenger basis and to the favorable effect of changes in foreign currency exchange rates related to our revenue transactions denominated in currencies other than the United States dollar. These increases were partially offset by a decrease in air revenue due an overall decrease in air ticket prices and to a decrease in charter revenue. The decrease in charter revenue is due to the termination of the charter to Island Cruises in April 2009 and also due to the decrease in air charter revenue as a result of lower air charter prices and number of passengers booking air charter services.

Onboard and other revenues included concession revenues of \$124.0 million in 2010 compared to \$107.0 million for the same period in 2009. The increase in concession revenues was primarily due to the increase in capacity mentioned above, and to a lesser extent an increase in spending on a per passenger basis.

Table of Contents

Cruise Operating Expenses

Total cruise operating expenses for 2010 increased \$193.7 million or 10.1% to \$2.1 billion from \$1.9 billion for 2009. Approximately \$225.8 million of this increase is attributable to the 11.8% increase in capacity mentioned above. These increases were partially offset by a \$32.1 million decrease primarily related to lower air expenses including air charter expenses as mentioned above, fuel expenses on a per passenger basis and to a lesser extent our continued emphasis on cost containment. The decrease is also due to the reduction in passengers purchasing air charter services. The decrease in fuel expenses was primarily a result of improved fuel efficiencies related to our newer ships despite increasing fuel prices. The decrease in air charter expenses is due to a reduction in the number of passengers booking air charter services. The decreases in air expenses including air charter expenses and fuel expenses on a per passenger basis were partially offset by an increase in cruise operating expenses related to the adverse effect of changes in foreign currency exchange rates related to our cruise operating expenses denominated in currencies other than the United States dollar.

Marketing, Selling and Administrative Expenses

Marketing, selling and administrative expenses for 2010 increased \$43.0 million or 11.3% to \$422.8 million from \$379.8 million for 2009. The increase is primarily due to an increase in shoreside payroll and benefits due to increases in headcount primarily related to our international expansion and other compensation related costs.

Depreciation and Amortization expenses

Depreciation and amortization expenses for 2010 increased \$39.8 million or 14.3% to \$317.6 million from \$277.8 million for 2009. The increase is primarily due to the addition of *Oasis of the Seas* which entered service in December 2009, the addition of *Celebrity Equinox* which entered service in July 2009 and the addition of *Celebrity Eclipse* which entered service in April 2010. These increases were partially offset by the sale of *Celebrity Galaxy* to TUI Cruises in March 2009 and the sale of *Oceanic* in April 2009. In addition, the *Atlantic Star* was classified as held for sale in August 2009 and is no longer being depreciated.

Other Income (Expense)

Interest expense, net of interest capitalized, increased to \$167.8 million in 2010 from \$147.8 million in 2009. Gross interest expense increased to \$181.2 million in 2010 from \$168.1 million in 2009. The increase was primarily due to a higher average debt level, partially offset by lower interest rates. Interest capitalized decreased to \$13.4 million in 2010 from \$20.3 million in 2009 primarily due to a lower average level of investment in ships under construction and lower interest rates.

Other income increased to \$77.6 million in 2010 compared to other expense of \$25.7 million in 2009 for a net change of \$103.3 million when comparing these periods. The increase was primarily due to a \$85.6 million gain recorded from the settlement with Rolls Royce.

Net Yields

Net Yields increased 3.8% in 2010 compared to 2009 primarily due to the increase in ticket prices and the increase in onboard spending, as discussed above. Net Yields increased 2.5% in 2010 compared to 2009 after adjusting for year over year changes in currency.

Table of Contents

Net Cruise Costs

Net Cruise Costs increased 8.9% in 2010 compared to 2009 due to the 11.8% increase in capacity, partially offset by a 2.5% decrease in Net Cruise Cost per APCD. The decrease in Net Cruise Costs per APCD was primarily driven by the decrease in fuel expenses, the decrease in air charter expenses and our continued emphasis on cost containment. Net Cruise Costs per APCD after adjusting for year over year changes in currency resulted in a decrease of 2.6%.

Recently Adopted, and Future Application of, Accounting Standards

Refer to Note 2. *Summary of Significant Accounting Policies* to our consolidated financial statements for further information on *Recently Adopted Accounting Standards* and *Recent Accounting Pronouncements*.

Liquidity and Capital Resources

Sources and Uses of Cash

Cash flow generated from operations provides us with a significant source of liquidity. Net cash provided by operating activities increased \$668.0 million to \$1.0 billion for the first six months of 2010 compared to \$342.9 million for the same period in 2009. The increase is primarily due to an increase in cash generated from ticket sales and to a lesser extent onboard sales during the first six months of 2010 compared to the same period in 2009. The increase in cash from ticket sales is a result of higher capacity, cruises being purchased for higher prices and the acceleration in booking volumes compared to prior year. As a result of the above factors, we received \$1.1 billion more in customer deposits during the first six months of 2010 as compared to the same period in 2009. The increase in onboard revenues is due to an increase in spending per guest as compared to the prior year. In addition, the increase is due to the monetization of certain of our interest rate, cross currency and fuel swap agreements during the first six months of 2010 of approximately \$173.0 million. The monetization of the interest rate and cross currency swap agreements was done in an effort to increase our fixed percentage of debt. The monetization of our fuel swaps was done in connection with our decision to terminate transactions with a counterparty that no longer met our guidelines.

Net cash used in investing activities increased to \$862.9 million for the first six months of 2010 from \$170.9 million for the same period in 2009. The increase was primarily due to an increase in capital expenditures which were \$847.5 million for the first six months of 2010, compared to \$323.6 million for the same period in 2009. Capital expenditures were primarily related to the delivery of *Celebrity Eclipse* during the first six months of 2010. The increase was also due to the proceeds received from the sale of *Celebrity Galaxy* to TUI Cruises of \$290.9 million in 2009 that did not recur in 2010 and to cash paid on settlements of \$7.1 million for the first six months of 2010, compared to cash received on settlements of \$49.3 million for the same period in 2009 on our foreign currency forward contracts. These increases were offset by a decrease in equity contributions to our unconsolidated affiliates of \$181.7 million.

Net cash used in financing activities was \$112.7 million for the first six months of 2010 compared to

Table of Contents

\$266.6 million for the same period in 2009. The change was due to an increase in debt proceeds of approximately \$1.0 billion. During the first six months of 2010, we received \$566.1 million through an unsecured term loan due through 2022 to purchase *Celebrity Eclipse*. In addition, the increase in debt proceeds was due to an increase in amounts drawn under our unsecured revolving credit facility during the first six months of 2010 compared to the same period in 2009. The change was also due to an increase in repayments of debt of approximately \$841.3 million, an increase in debt issuance costs of \$21.5 million and an increase in proceeds of \$11.4 million in connection with the exercise of common stock options.

Interest capitalized during the first six months of 2010 decreased to \$13.4 million from \$20.3 million for the same period in 2009 primarily due to a lower average level of investment in ships under construction and lower interest rates.

Future Capital Commitments

Our future capital commitments consist primarily of new ship orders. As of June 30, 2010, we had one Oasis-class ship designated for Royal Caribbean International and two Solstice-class ships, designated for Celebrity Cruises, on order for an aggregate additional capacity of approximately 11,100 berths. The aggregate cost of the three ships is approximately \$3.4 billion, of which we have deposited \$433.5 million as of June 30, 2010. Approximately 5.2% of the aggregate cost of ships was exposed to fluctuations in the euro exchange rate at June 30, 2010.

As of June 30, 2010, we anticipated overall capital expenditures, including the three ships on order, would be approximately \$2.2 billion for 2010, \$1.0 billion for 2011 and \$1.0 billion for 2012.

Contractual Obligations

As of June 30, 2010, our contractual obligations were as follows (in thousands):

	Total	Payments due by period			
		Less than 1 year	1-3 years	3-5 years	More than 5 years
Operating Activities:					
Operating lease obligations(1)(2)	\$ 324,182	\$ 48,016	\$ 236,619	\$ 17,980	\$ 21,567
Interest on long-term debt(3)	1,642,220	343,687	573,911	294,223	430,399
Other(4)	654,821	97,390	214,119	131,990	211,322
Investing Activities:					
Ship purchase obligations(5)	2,652,193	1,279,449	1,372,744		
Financing Activities:					
Long-term debt obligations (6)	8,057,082	994,821	2,145,153	2,346,042	2,571,066
Capital lease obligations (7)	53,274	6,522	7,939	4,085	34,728
Total	\$ 13,383,772	\$ 2,769,885	\$ 4,550,485	\$ 2,794,320	\$ 3,269,082

- (1) We are obligated under noncancelable operating leases primarily for a ship, offices, warehouses and motor vehicles.
- (2) Under the *Brilliance of the Seas* lease agreement, we may be required to make a termination payment of approximately £120.7 million, or approximately \$180.3 million based on the exchange rate at June 30, 2010, if the lease is canceled in 2012. This amount is included in the 1-3 years column.
- (3) Long-term debt obligations mature at various dates through fiscal year 2027 and bear interest at fixed and variable rates. Interest on variable-rate debt is calculated based on forecasted cash outflows, including interest swapped from a fixed-rate to a variable-rate using the applicable rate at June 30, 2010. Debt denominated in other currencies is calculated based on the applicable exchange rate at June 30, 2010. Amounts are based on existing debt obligations and do not consider potential refinancing of expiring debt obligations.

Table of Contents

- (4) Amounts represent future commitments with remaining terms in excess of one year to pay for our usage of certain port facilities, marine consumables, services and maintenance contracts.
- (5) Amounts represent contractual obligations with initial terms in excess of one year.
- (6) Amounts represent debt obligations with initial terms in excess of one year.
- (7) Amounts represent capital lease obligations with initial terms in excess of one year.

As a normal part of our business, depending on market conditions, pricing and our overall growth strategy, we continuously consider opportunities to enter into contracts for the building of additional ships. We may also consider the sale of ships or the purchase of existing ships. We continuously consider potential acquisitions and strategic alliances. If any of these were to occur, they would be financed through the incurrence of additional indebtedness, the issuance of additional shares of equity securities or through cash flows from operations.

Off-Balance Sheet Arrangements

Under the *Brilliance of the Seas* operating lease, we have agreed to indemnify the lessor to the extent its after-tax return is negatively impacted by unfavorable changes in corporate tax rates, capital allowance deductions and certain unfavorable determinations which may be made by United Kingdom tax authorities. These indemnifications could result in an increase in our lease payments. We are unable to estimate the maximum potential increase in our lease payments due to the various circumstances, timing or a combination of events that could trigger such indemnifications. We have been advised by the lessor that the United Kingdom tax authorities are disputing the lessor's accounting treatment of the lease and that the parties are in discussions on the matter. If the characterization of the lease is ultimately determined to be incorrect, we could be required to indemnify the lessor under certain circumstances. The lessor has advised us that they believe their characterization of the lease is correct. Based on the foregoing and our review of available information, we do not believe an indemnification is probable. However, if the lessor loses its dispute and we are required to indemnify the lessor, we cannot at this time predict the impact that such an occurrence would have on our financial condition and results of operations.

Some of the contracts that we enter into include indemnification provisions that obligate us to make payments to the counterparty if certain events occur. These contingencies generally relate to changes in taxes, increased lender capital costs and other similar costs. The indemnification clauses are often standard contractual terms and are entered into in the normal course of business. There are no stated or notional amounts included in the indemnification clauses and we are not able to estimate the maximum potential amount of future payments, if any, under these indemnification clauses. We have not been required to make any payments under such indemnification clauses in the past and, under current circumstances, we do not believe an indemnification obligation is probable.

Other than the items described above, we are not party to any other off-balance sheet arrangements, including guarantee contracts, retained or contingent interest, certain derivative instruments and variable interest entities, that either have, or are reasonably likely to have, a current or future material effect on our financial position.

Table of Contents

Funding Sources

We have significant contractual obligations of which the capital expenditures associated with our ship purchases and our debt maturities represent our largest funding needs. We have \$2.8 billion in contractual obligations due during the twelve month period ending June 30, 2011 of which approximately \$1.3 billion relates to the acquisition of the *Allure of the Seas* along with progress payments on other ship purchases. In addition, we have \$10.6 billion in contractual obligations due beyond the twelve month period ending June 30, 2011 of which debt maturities and ship purchase obligations represent \$7.1 billion and \$1.4 billion, respectively. We have historically relied on a combination of cash flows provided by operations, drawdowns under our available credit facilities and the incurrence of additional debt to fund these obligations.

As of June 30, 2010, our liquidity was \$1.0 billion consisting of approximately \$318.8 million in cash and cash equivalents and \$685.0 million available under our unsecured revolving credit facility. In addition, we had a working capital deficit of \$2.5 billion as of June 30, 2010 as compared to our working capital deficit of \$1.7 billion as of December 31, 2009. Similar to others in our industry, we are able to operate with a substantial working capital deficit because (1) passenger receipts are primarily paid in advance with a relatively low-level of accounts receivable, (2) rapid turnover results in a limited investment in inventories and (3) voyage-related accounts payable usually become due after receipt of cash from related bookings. In addition, we finance the purchase of our ships through long-term debt instruments of which the current portion of these instruments increases our working capital deficit. The current portion of long-term debt increased from \$756.2 million as of December 31, 2009 to \$1.0 billion as of June 30, 2010. We generate substantial cash flows from operations and our business model, along with our unsecured revolving credit facility, has historically allowed us to maintain this working capital deficit and still meet our operating, investing and financing needs. We expect that we will continue to have working capital deficits in the future.

As of June 30, 2010, we have two Solstice-class vessels and one Oasis-class vessel under construction in Germany and Finland, respectively, all of which have unsecured committed bank financing arrangements which include sovereign financing guarantees. (Refer to Note 4. *Long-Term Debt* to our consolidated financial statements).

We anticipate that our cash flows from operations, our current available credit facilities, and the above financing arrangements will be adequate to meet our capital expenditures and debt repayments in the foreseeable future.

The decrease in consumer cruise spending as a result of the current economic environment has adversely impacted our cash flows from operations. The disruption of the credit markets in 2008 and 2009 resulted in a lack of liquidity worldwide. We have witnessed a moderate improvement in the credit markets and operating environment since the end of 2009.

We are focused on ensuring adequate cash and liquidity. We are continually committed to improving our cost focus and have implemented cost-containment initiatives including the renegotiation of long-term contracts with our vendors and a detailed emphasis on cost control. To ensure adequate liquidity, we have discontinued our quarterly dividend commencing in the fourth quarter of 2008, we have tactically evaluated our non-shipbuild capital expenditures and will consider further newbuild orders as market conditions warrant; however, if a newbuild order were to be placed in the near term, a new delivery would not arrive before 2013. We anticipate that our cash flows from operations, our current available credit facilities and our current financing arrangements will be

Table of Contents

adequate to meet our capital expenditures and debt repayments over the next twelve-month period. In addition, we may elect to fund our contractual obligations through other means if current conditions in the capital markets improve.

If any person other than A. Wilhelmsen AS. and Cruise Associates acquires ownership of more than 30% of our common stock and our two principal shareholders, in the aggregate, own less of our common stock than such person and do not collectively have the right to elect, or to designate for election, at least a majority of the board of directors, we may be obligated to prepay indebtedness outstanding under the majority of our credit facilities, which we may be unable to replace on similar terms. If this were to occur, it could have an adverse impact on our liquidity and operations.

Debt Covenants

Our financing agreements contain covenants that require us, among other things, to maintain minimum net worth and a fixed charge coverage ratio and limit our net debt-to-capital ratio. Our minimum net worth and maximum net debt-to-capital calculations exclude the impact of accumulated other comprehensive income (loss) on total shareholders' equity. The fixed charge coverage ratio is calculated by dividing net cash from operations for the past four quarters by the sum of dividend payments plus scheduled principal debt payments in excess of any new financings for the past four quarters (fixed charges). We are currently in compliance with all debt covenants. As of June 30, 2010, our net worth was \$7.5 billion compared with a minimum requirement of \$5.2 billion, our net-debt-to-capital was 51.0% compared to a maximum limit of 62.5% and our fixed charge coverage ratio exceeded the minimum requirement of 1.25x as our fixed charges for the period were \$0.00.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

During the second quarter of 2010, we entered into cross currency swap agreements that effectively changed 400.0 million of debt with a fixed rate of 5.625% to \$509.0 million at a weighted-average fixed rate debt of 6.625%. In addition, in an effort to increase our fixed percentage, we terminated our interest rate swap agreements that changed 1.0 billion of debt with a fixed rate of 5.625% to EURIBOR-based floating rate and our cross currency swap agreements that changed 300.0 million of the 1.0 billion floating EURIBOR-based debt to \$389.1 million of floating LIBOR-based debt. As a result, approximately 55% of our long-term debt was effectively fixed and approximately 45% was floating at June 30, 2010 as compared to 45% and 55% as of March 31, 2010, respectively. Upon termination of these swaps, we received net cash proceeds of approximately \$115.4 million.

During the second quarter of 2010, we terminated 22.9% of our fuel swap agreements due to a counterparty no longer meeting our guidelines and entered into new fuel swap agreements with a different counterparty. Upon termination of the fuel swaps, we received net cash proceeds of approximately \$57.5 million.

Other than these changes there have been no significant developments or material changes with respect to our exposure to the market risks previously reported in our annual report on Form 10-K for the year ended December 31, 2009. For a further discussion of our market risks, refer to Part II, Item 7A. *Quantitative and Qualitative Disclosures About Market Risk* in our annual report on Form 10-K for the year ended December 31, 2009.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of management, our Chairman and Chief Executive Officer and Executive Vice President and Chief Financial Officer have conducted an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined in Exchange Act Rule 13a-15(e), as of the end of the period covered by this report and concluded that those controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 and 15d-15 during the quarter ended June 30, 2010 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there is only reasonable assurance that our controls will succeed in achieving their goals under all potential future conditions.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

As previously reported in our annual report on Form 10-K for the year ended December 31, 2009, we reached a settlement in January 2010 with Rolls Royce, in our lawsuit that was pending in the Circuit Court for Miami-Dade County, Florida against Rolls Royce for the recurring Mermaid pod failures. As part of the settlement, each party dismissed the lawsuit with prejudice and released the other from all claims and counterclaims made by each party against the other. Under the terms of the settlement, we received a payment in the first quarter of 2010 of approximately \$68.0 million, net of costs and payments to insurers and will receive an additional \$20.0 million that will be payable within five years. We recorded a one-time gain of approximately \$85.6 million in the first quarter of 2010 in connection with this settlement, comprised of the \$68.0 million payment and the net present value of the \$20.0 million receivable or \$17.6 million.

As previously reported in our annual report on Form 10-K for the year ended December 31, 2009, a purported class action lawsuit was filed in the United States District Court for the Southern District of New York alleging that we and certain other named cruise lines infringed rights in copyrighted works and other intellectual property by presenting performances on our cruise ships without securing the necessary licenses. In March 2009, the Court dismissed the complaint for failure to state a claim with sufficient particularity but granted leave to re-file. In April 2009 plaintiffs filed an amended complaint with substantially the same allegations as the original complaint except that it no longer seeks class action treatment and confines its allegations of infringement to plaintiffs' copyrights of the theatrical production of Grease. The suit seeks payment of damages against all named defendants in an undetermined amount of not less than \$10.0 million, as well as disgorgement of profits, a permanent injunction against future infringement and punitive and treble damages. In March 2010, the Court dismissed the amended complaint with leave for plaintiffs to conduct limited discovery on jurisdictional issues and 120 days to file a further amended complaint. The Court also ruled that if plaintiffs did not further amend by that deadline, their claims would be dismissed with prejudice. The deadline passed without plaintiffs filing a further amended complaint.

As previously reported in our annual report on Form 10-K for the year ended December 31, 2009, demands for arbitration were made under our collective bargaining agreement covering Celebrity Cruises' crewmembers on behalf of twenty current and/or former Celebrity Cruises' cabin stewards and others similarly situated (the September 2009 Demands). These demands contend that between 2001 and 2005 Celebrity Cruises' improperly required the named cabin stewards to share guest gratuities with assistant cabin stewards. The demands seek payment of damages, including penalty wages, under the U.S. Seaman's Wage Act of approximately \$0.6 million for the named crewmembers and estimates damages in excess of \$200.0 million, for the entire class of other similarly situated crewmembers. In October 2009, and again in December 2009 and in July 2010, additional demands for arbitration were made under our collective bargaining agreement covering Celebrity Cruises' crewmembers by the same counsel on behalf of a total of eight current and/or former Celebrity Cruises' cabin stewards and others similarly situated, making the same contentions and seeking the same damages as in the September 2009 Demands. A similar action brought by this same counsel in October 2009 on behalf of ten crew members and others similarly situated in the Southern District Court, Southern District of Florida making the same contentions and seeking the same damages as the arbitration demands was dismissed with prejudice. Plaintiff is appealing this dismissal. We believe we have meritorious defenses to the pending arbitration demands and actions which we intend to vigorously pursue.

Table of Contents

As previously reported in our annual report on Form 10-K for the year ended December 31, 2009, there are a total of five cases pending in the United States District Court for the Western District of Washington against Park West Galleries, Inc., doing business as Park West Gallery, PWG Florida, Inc., Fine Art Sales, Inc., Vista Fine Art LLC, doing business as Park West At Sea (together, Park West), and other named and unnamed parties, including Royal Caribbean Cruises Ltd. and Celebrity Cruises Inc. and other unaffiliated cruise line companies. The actions are being brought on behalf of purchasers of artwork at shipboard art auctions conducted by Park West on the named cruise lines. One of these actions is being brought on a class action basis. The substance of the claims in all five actions is virtually the same. The suits allege that the artwork Park West sells is not what it represents to its customers and that Royal Caribbean Cruises Ltd., Celebrity Cruises Inc. and other named cruise lines are complicit in the activities of Park West, including engaging in a conspiracy with Park West in violation of the Racketeer Influenced and Corrupt Organizations Act (RICO), and are being enriched unjustly from the sale of the artwork. The actions seek from the named defendants refund and restitution of all monies acquired from the sale of artwork at shipboard auctions, recovery for the amount of payments for the purchased artwork, damages on the RICO claims in an indeterminate amount, permitted statutory damages and unspecified equitable or injunctive relief. The suits also seek from certain non-Royal Caribbean parties additional statutory, breach of contract and breach of warranty damages in unspecified amounts. In June, 2010, the Court dismissed Royal Caribbean Cruises Ltd. and Celebrity Cruises Inc. from all five actions on the basis that the claims against Royal Caribbean Cruises Ltd. and Celebrity Cruises Inc. were not timely filed and/or properly pled. Plaintiffs have since filed motions seeking permission from the Court to amend their complaints to address the noted deficiencies and to rename Royal Caribbean Cruises Ltd. and Celebrity Cruises Inc. as defendants in the actions. We will vigorously oppose any attempt by plaintiffs to rename either party as defendants and, if we are so renamed, we believe we will have meritorious defenses to the claims against us which we will vigorously pursue.

As previously reported in our annual report on Form 10-K for the year ended December 31, 2009, the Miami District Office of the United States Equal Employment Opportunity Commission (EEOC) has alleged that certain of our shipboard employment practices do not comply with United States employment laws. In June 2007, the EEOC proposed payment of monetary sanctions of approximately \$27.0 million and certain remedial actions. Following discussions with the EEOC regarding this matter, the EEOC informed us in April 2008 that they transferred the matter to its legal unit for litigation review. On July 16, 2010, the EEOC issued a Notice of Right to Sue letter to the individual who originally complained, advising that the EEOC has elected not to pursue legal action against us. The individual employee has 90 days to bring a legal action if the individual so chooses. We believe we have meritorious defenses to these claims and, if proceedings are initiated, we intend to vigorously pursue them.

We are routinely involved in other claims typical within the cruise vacation industry. The majority of these claims are covered by insurance. We believe the outcome of such claims, net of expected insurance recoveries, will not have a material adverse impact on our financial condition or results of operations.

Item 1A. Risk Factors

The risk factors that affect our business and financial results are discussed in Item 1A. *Risk Factors* in the 2009 Annual Report on Form 10-K. We wish to caution the reader that the risk factors

Table of Contents

discussed in Item 1A. *Risk Factors* in our 2009 Annual Report on Form 10-K, and those described elsewhere in this report or other Securities and Exchange Commission filings, could cause actual results to differ materially from those stated in any forward-looking statements.

Item 6. Exhibits

- 10.1 Amendment No. 1 to the Credit Agreement dated as of March 15, 2010 among Allure of the Seas Inc., as borrower, Royal Caribbean Cruises Ltd. as guarantor, various financial institutions and Skandinaviska Enskilda Banken AB (publ), as Administrative Agent.
- 10.2 Termination of Lease Agreement dated February 26, 2010 to Lease by and between City of Wichita, Kansas and Royal Caribbean Cruises Ltd. dated as of December 1, 1997.
- 10.3 Amendment No. 1 dated as of May 20, 2010 to the Royal Caribbean Cruises Ltd. 2008 Equity Incentive Plan.
- 31 Certifications required by Rule 13a-14(a) or Rule 15d-14(a) of the Securities and Exchange Act of 1934.
- 32 Certifications pursuant to Section 1350 of Chapter 63 of Title 18 of the United States Code.
