METHODE ELECTRONICS, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)  
(Dollar amounts in thousands, except share data)

January 29, 2011

1. BASIS OF PRESENTATION

Methode Electronics, Inc. was incorporated in 1946 as an Illinois corporation and reincorporated in Delaware in 1966. As used herein, “we,” “us,” “our,” the “Company” or “Methode” means Methode Electronics, Inc. and its subsidiaries. Our business is managed and our financial results are reported on a segment basis, with those segments being Automotive, Interconnect, Power Products and Other. The condensed consolidated financial statements and related disclosures as of January 29, 2011 and results of operations for the three months and nine months ended January 29, 2011 and January 30, 2010 are unaudited, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). The May 1, 2010 condensed consolidated balance sheet was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America (“U.S. GAAP”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. In our opinion, these financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for the fair statement of the results for the interim periods. These financial statements should be read in conjunction with the financial statements included in our Form 10-K for the year ended May 1, 2010 filed with the SEC on July 1, 2010. Results may vary from quarter to quarter for reasons other than seasonality.

2. RECENTLY ADOPTED AND ISSUED ACCOUNTING PRONOUNCEMENTS

Recently Adopted Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2010-06, “Improving Disclosures about Fair Value Measurements.” ASU 2010-06 requires additional disclosures about fair value measurements, including transfers in and out of Levels 1 and 2, and a higher level of disaggregation for the different types of financial instruments. For the reconciliation of Level 3 fair value measurements, information about purchases, sales, issuances and settlements are presented separately. This standard is effective for interim and annual reporting periods beginning after December 15, 2009, with the exception of revised Level 3 disclosure requirements which are effective for interim and annual reporting periods beginning after December 15, 2010. Comparative disclosures are not required in the year of adoption. We adopted the provisions of the standard on May 2, 2010, which did not have a material impact on our financial statements.

In June 2009, the FASB issued Accounting Standards Codification (“ASC”) 810, “Consolidation”, regarding the consolidation of variable interest entities (formerly SFAS No. 167, “Amendments to FASB Interpretation No. 46(R)”). ASC 810 is intended to improve financial reporting by providing additional guidance to companies involved with variable interest entities and by requiring additional disclosures about a company’s involvement in variable interest entities. This standard is effective for interim and annual periods beginning after November 15, 2009. We adopted the provisions of the standard on May 2, 2010, which did not have a material impact on our financial statements.

In June 2009, the FASB issued ASC 860, “Transfers and Servicing” (formerly SFAS No. 166, “Accounting for Transfers of Financial Assets”). ASC 860 requires more information about transfers of financial assets and where companies have continuing exposure to the risk related to transferred financial assets. It eliminates the concept of a qualifying special purpose entity, changes the requirements for derecognizing financial assets, and requires additional disclosure.

This standard is effective for interim and annual periods beginning after November 15, 2009. We adopted the provisions of the standard on May 2, 2010, which did not have a material impact on our financial statements.

#### Recently Issued Accounting Pronouncements

In December 2010, the FASB issued authoritative guidance regarding ASC No. 350, "Goodwill and Other Intangible Assets", by eliminating an entity's ability to assert that a reporting unit is not required to perform Step 2 because the carrying amount of the reporting unit is zero or negative despite the existence of qualitative factors that indicate the goodwill is more likely than not impaired. Under ASC No.350, testing for goodwill impairment is a two-step test. In Step 1, an entity must assess whether the carrying amount of a reporting unit exceeds its fair value. If it does, an entity must perform an additional test to determine whether goodwill has been impaired and to calculate the amount of the impairment, Step 2. This guidance is effective for our fourth quarter of fiscal 2011. We do not anticipate the adoption of this guidance to have a material impact on our related calculations.

METHODE ELECTRONICS, INC. AND SUBSIDIARIES  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)  
 (Dollar amounts in thousands, except share data)

In December 2010, the FASB issued authoritative guidance regarding ASC No. 805, "Business Combinations", on the disclosure of supplementary pro forma information for business combinations. ASC No. 805 requires a public entity to disclose pro forma information for business combinations that occurred in the current reporting period. The disclosures include pro forma revenue and earnings of the combined entity for the current reporting period as though the acquisition date for all business combinations that occurred during the year had been of the beginning of the annual reporting period.

If comparable financial statements are presented, the pro forma revenue and earnings of the combined entity for the comparable prior reporting period should be reported as though the acquisition date for all business combinations that occurred during the current year had been as of the beginning of the comparable prior annual reporting period. This guidance specifies that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combinations that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. This guidance is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010, which will be our fiscal 2012, beginning on May 1, 2010. We do not anticipate the adoption of this update to have a material impact on our financial statements.

### 3. RESTRUCTURINGS

#### March 2009 Restructuring

In March 2009, we announced restructuring initiatives to consolidate our manufacturing facilities to reduce costs. All of the March 2009 restructuring initiatives were complete as of the end of fiscal 2010. At the end of fiscal 2010, we had an accrued restructuring liability of \$420 reflected in the current liabilities section of our condensed consolidated balance sheet. There were \$140 of payments made against this liability during the three months and nine months ended January 29, 2011. We expect this liability to be paid out by the end of fiscal 2011.

The table below reflects the activity related to the March 2009 restructuring for the three months and nine months ended January 29, 2011:

Accrued balance at May 1, 2010	Other Costs \$420
Payments during the first, second and third quarter of fiscal 2011	(140 )
Accrued balance at January 29, 2011	\$280

#### January 2008 Restructuring

In January 2008, we announced a restructuring of our U.S.-based automotive operations and a decision to discontinue producing certain legacy products in the Interconnect segment. All of the January 2008 restructuring initiatives were complete as of the end of fiscal 2010. At the end of fiscal 2010, we had an accrued restructuring liability of \$155 reflected in the current liabilities section of our condensed consolidated balance sheet. There were \$134 of payments made against this liability during the three months ended July 31, 2010. The remaining accrual balance of \$21 was reversed out to the income statement during the second quarter of fiscal 2011. The January 2008 accrued restructuring balance is zero at the end of the three months ended January 29, 2011.

Edgar Filing: METHODE ELECTRONICS INC - Form 10-Q

The table below reflects the activity related to the January 2008 restructuring for the three months and nine months ended January 29, 2011:

#### 4. COMPREHENSIVE INCOME/(LOSS)

The components of our comprehensive income/(loss) for the three months and nine months ended January 29, 2011 and January 30, 2010 include net income/(loss) and adjustments to stockholders' equity for foreign currency translations. The foreign currency translation adjustment was due to exchange rate fluctuations in our foreign affiliates' local currency versus the U.S. dollar.

The following table presents details of our comprehensive income/(loss):

	Three Months Ended January 29, 2011			Nine Months Ended January 29, 2011

#### 5. GOODWILL AND INTANGIBLE ASSETS

We review our goodwill and other intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable, and we also review our goodwill and indefinite-lived assets annually in accordance with ASC No. 350, "Intangibles — Goodwill and Other". The values assigned to goodwill and intangible assets are normally based on estimates and judgments regarding expectations for the success and life cycle of products and technologies acquired. A severe decline in expectations could result in significant impairment charges, which could have a material adverse effect on our financial condition and results of operations.

The following table shows the roll-forward of goodwill in the financial statements for the nine months ended January 29, 2011 and January 30, 2010. There was no activity for either period presented.

2014	1,332
2015	1,243

As of January 29, 2011 and May 1, 2010, the trade names, patents and technology licenses include \$1,800 of trade names that are not subject to amortization.

## 6. INCOME TAXES

At January 29, 2011 and May 1, 2010, we had valuation allowances against our deferred tax assets of \$56,689 and \$48,402, respectively. In accordance with ASC No. 740, "Income Taxes," a valuation allowance is required to be recorded when it is more likely than not that deferred tax assets will not be realized. Future realization depends on the existence of sufficient taxable income within the carry-forward period available under the tax laws. Sources of future taxable income include future reversals of taxable temporary differences, future taxable income exclusive of reversing taxable differences, taxable income in carry-back years and tax planning strategies. These sources of positive evidence of realizability must be weighed against negative evidence, such as cumulative losses in recent years.

METHODE ELECTRONICS, INC. AND SUBSIDIARIES  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)  
 (Dollar amounts in thousands, except share data)

In forming a judgment about the future realization of our deferred tax assets, we considered both the positive and negative evidence of realizability and gave significant weight to the negative evidence from our recent cumulative loss. We will continue to assess this situation and make appropriate adjustments to the valuation allowance based on our evaluation of the positive and negative evidence existing at the time. We are currently unable to forecast when there will be sufficient positive evidence for us to reverse the valuation allowances that we have recorded.

The valuation allowance is associated with the deferred tax assets for the differences between book and tax that result from net operating losses (NOLs), foreign investment tax credits with unlimited carryovers generated in the current and prior years and temporary differences which become deductible when the related asset is recovered or related liability is settled.

A reconciliation of the consolidated provisions for income taxes to amounts determined by applying the prevailing statutory federal income tax rate to pre-tax earnings is as follows:

	Three Months Ended	
	January 29, 2011	January 30, 2010
Income tax provision/(benefit) at statutory rate	\$1,504	\$(726)
Effect of:

Income tax provision/(benefit)	\$(89)	\$2,760

We recognize interest and penalties accrued related to the unrecognized tax benefits in the provision for income taxes. During the nine months ended January 29, 2011, we recognized a reversal of expense of \$588 in interest and zero in penalties. We had approximately \$379 accrued at January 29, 2011 for the payment of interest and penalties. The total unrecognized tax benefit as of January 29, 2011 was \$585.

The following table presents a reconciliation of the beginning and ending amounts of unrecognized tax benefits:

Balance at May 1, 2010	\$2,782
Increases for positions related to the current year	—
Decreases for positions related to the prior years	(494)

Settlements	—	
Lapsing of statutes of limitations	(1,703	)
Balance at January 29, 2011	\$585	

We believe that it is reasonably possible that the total amount of unrecognized tax benefits will change within the next twelve months. We have certain tax return years subject to statutes of limitation, which will close within twelve months of the end of the quarter. Unless challenged by tax authorities, the closure of those statutes of limitation is expected to result in the

 (Dollar amounts in thousands, except share data)

recognition of uncertain tax positions of approximately \$275.

The Company and all of its domestic subsidiaries file income tax returns in the U.S. federal jurisdiction and various states. Our foreign subsidiaries file income tax returns in certain foreign jurisdictions since they have operations outside the U.S. The Company and its subsidiaries are generally no longer subject to U.S. federal, state and local examinations by tax authorities for all years except fiscal 2010 and fiscal 2009.

## 7. COMMON STOCK AND STOCK-BASED COMPENSATION

The following table sets forth the changes in the number of issued shares of common stock during the nine-month periods presented:

	Nine Months Ended	
	January 29, 2011	January 30, 2010
Balance at the beginning of the period	38,149,946	38,290,776
Options exercised	135,900	—
Restricted stock awards vested	24,000	24,449
Treasury stock adjustment	(30,000 )	—
Balance at the end of the period	38,279,846	38,315,225

In fiscal 2011, we paid quarterly dividends of \$2,576, \$2,578 and \$2,587 on July 30, 2010, October 29, 2010 and January 28, 2011, respectively.

Our Board of Directors, on the recommendation of our Compensation Committee, adopted the Methode Electronics, Inc. 2010 Stock Plan (the “Stock Plan”). The Stock Plan was approved by the shareholders at our annual meeting on October 14, 2010.

The Stock Plan permits a total of 2,000,000 shares of our common stock to be awarded to participants in the form of nonqualified stock options, incentive stock options, restricted stock, restricted stock units, stock appreciation rights, and performance share units, any of which may be performance-based awards. The Stock Plan is designed to allow for “performance-based compensation” under Section 162(m) of the Code. As such, qualified awards payable pursuant to the Stock Plan should be deductible for federal income tax purposes under most circumstances.

Present and future directors, officers and key employees of our company or any subsidiary shall be eligible to participate in the Stock Plan, as selected by the Compensation Committee from time to time. The Compensation Committee will determine the type and amount of each award, as well as the terms and conditions, including any performance criteria, performance goals and performance period.

As disclosed in our fiscal 2010 Proxy Statement, for the fiscal 2011 equity awards, the Compensation Committee intends to grant our executive officers awards composed of performance-based restricted stock (RSAs) to vest based on performance as of the end of fiscal 2015, stock options and time-based restricted stock units (RSUs). In connection with the performance-based RSAs, the Compensation Committee also intends to make RSA tandem cash bonus awards for above target performance to the executive officers. The Compensation Committee granted stock option awards during the second quarter of fiscal 2011. The Compensation Committee granted the RSA's, RSU's and RSA tandem cash bonus awards during the third quarter of fiscal 2011.

Stock Options Granted Under the 2000 and 2004 Stock Plans

Options to purchase 296,942 shares of our common stock were granted in previous years under the 2000 and 2004 stock plans and are outstanding and exercisable as of January 29, 2011. There was no remaining compensation expense related to these options in the third quarter of fiscal 2011. Options to purchase 96,934 shares of our common stock expired during the first nine months of fiscal 2011.

Table of Contents

The following tables summarize the stock option activity and related information for the stock options granted under the 2000 and 2004 stock plans for the nine months ended January 29, 2011:

		Summary of Option Activity

	296,942	\$10.71	

The options outstanding had an intrinsic value of \$304 at January 29, 2011. The intrinsic value represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the third quarter of fiscal 2011 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on January 29, 2011.

## Stock Options Granted Under the 2007 Stock Plan

In July 2010, the Compensation Committee approved the grant of options to purchase 125,000 shares of our common stock to some members of the management team. The stock options vest on the third anniversary of the date of grant. The exercise price is the closing price on the date granted.

The following tables summarize the stock option activity and related information for the stock options granted under the 2007 stock plan for the nine months ended January 29, 2011:

		Summary of Option Activity

Expected life of options	6.87 years		6.87 years		7.03 years	
Weighted-average grant-date fair value	\$1.46		\$4.02		\$5.88	

We recognized pre-tax compensation expense for stock options granted under the 2007 plan of \$396 and \$136 for the three months ended January 29, 2011 and January 30, 2010, respectively. We recognized pre-tax compensation expense of \$632 and \$328 for the nine months ended January 29, 2011 and January 30, 2010, respectively. We record the compensation expense related to the stock options in the selling and administrative section of our condensed consolidated statement of operations.

#### Stock Options Granted Under the 2010 Stock Plan

In October 2010, the Compensation Committee approved the grant of options to purchase 128,000 shares of our common stock to our executive officers. The stock options have a ten-year term and will vest 33.3% each year over a three-year period. The exercise price is the closing price on the date granted.

The following tables summarize the stock option activity and related information for the stock options granted under the 2010 stock plan for the nine months ended January 29, 2011:

	Summary of Option Activity

We recognized pre-tax compensation expense for stock options granted under the 2010 plan of \$86 for the three months ended January 29, 2011 and \$114 for the nine months ended January 29, 2011. We record the compensation expense related to the stock options in the selling and administrative section of our condensed consolidated statement of operations.

## Restricted Stock Awards Granted Under the 2007 Stock Plan

In April 2007, 225,000 shares of common stock subject to performance-based Restricted Stock Awards (RSAs) granted to our CEO in fiscal 2006 and 2007 were converted to Restricted Stock Units (RSUs). The RSUs were subject to the same vesting schedule and other major provisions of the RSAs they replaced, except the shares for stock underlying the RSUs will not be issued and delivered until the earlier of: (1) thirty days after the CEO's date of termination of employment with the Company and all of its subsidiaries and affiliates; or (2) the last day of our fiscal year in which the payment of common stock in satisfaction of the RSUs becomes deductible to the Company under Section 162(m) of the Internal Revenue Code. The RSUs are not entitled to voting rights or the payment of dividends. The RSU's are fully vested as of January 29, 2011. As of January 29, 2011, no shares have been delivered pursuant to the RSUs.

At the beginning of fiscal 2011, there were 25,350 shares of common stock subject to time-based RSAs outstanding. The time-based RSAs vest in three equal annual installments from the grant date. All of the unvested RSAs are entitled to voting rights and to payment of dividends. During the nine months ended January 29, 2011, the compensation committee awarded 24,000 restricted shares to our independent directors, all of which vested immediately upon grant.

We recognized pre-tax compensation expense for RSAs of \$22 and \$81 for the three months ended January 29, 2011 and January 30, 2010, respectively. We recognized pre-tax compensation expense for RSAs of \$320 and \$396 for the nine months ended January 29, 2011 and January 30, 2010, respectively. We record the expense in the selling and administrative section of our condensed consolidated statement of operations.

The following table summarizes the RSA activity for the nine months ended January 29, 2011 for the RSA's granted under the 2007 stock plan:

	RSA Shares
Unvested and unissued at May 1, 2010	25,350
Awarded	24,000
Vested	(24,000 )
Forfeited and Cancelled	(2,548 )
Unvested and unissued at January 29, 2011	22,802

The table below shows the Company's unvested and unissued RSAs at January 29, 2011:

Grant Fiscal Year	RSAs	Vesting Period	Weighted Average Value	Probable Unearned Compensation Expense at January 29, 2011	Target Unearned Compensation Expense at January 29, 2011
2008	666	3-year equal annual installments	\$11.74	—	—
2009	22,136	3-year equal annual installments	10.75	22	22

At January 29, 2011, the aggregate unvested and unissued RSAs had a grant date weighted average fair value of \$10.78 and a weighted average vesting period of approximately three months.

#### Restricted Stock Awards and Restricted Stock Units Granted Under the 2010 Stock Plan

Our Compensation Committee awarded 640,000 shares of common stock subject to performance-based restricted stock awards to certain members of management during the third quarter of fiscal 2011. The performance measure will be the Company's internal enterprise value at the end of fiscal 2015. The internal enterprise value shall equal the product of (i) fiscal 2015 EBITDA and (ii) 7.5 (the historic multiple of EBITDA), subject to an adjustment for cash, short-term investments, debt, preferred stock, certain equity issuances, certain acquisitions and the changes in the dividend rate. The restricted stock awards will vest, i.e., the restrictions will lapse, at the end of the five-year performance period to the extent the performance goals have

Table of Contents

been achieved. The remaining shares will be forfeited.

Our Compensation Committee awarded 320,000 shares of common stock subject to time-based restricted stock units to certain members of management during the third quarter of fiscal 2011. The restricted stock units will vest 20% each year on the last day of our fiscal year and be 100% vested on the last day of the 2015 fiscal year provided the executive remains employed.

The following table summarizes the RSA and RSU activity for the nine months ended January 29, 2011 for the RSA's granted under the 2010 stock plan:

				RSA Shares	RSU Shares
				—	—
Unvested and unissued at May 1, 2010				—	—

## 8. NET INCOME/(LOSS) PER SHARE

Basic net income/(loss) per share is calculated by dividing net income/(loss) by the weighted average number of common shares outstanding for the applicable period. Diluted income/(loss) per share is calculated after adjusting the denominator of the basic income/(loss) per share calculation for the effect of all potentially dilutive common shares outstanding during the period.

The following table sets forth the computation of basic and diluted net income/(loss) per share:

	Three Months Ended		Nine Months Ended	
	January 29, 2011	January 30, 2010	January 29, 2011	January 30, 2010
Numerator - net income/(loss) attributable to Methode Electronics, Inc.	\$5,883	(4,475 )	\$9,435	(2,441 )
Denominator:	—	—	—	—
Denominator for basic loss per share-weighted average shares	37,144,021	36,644,127	37,087,538	36,641,637
Dilutive potential common shares-employee stock options	497,114	—	319,399	—
Denominator for diluted loss per share adjusted weighted average shares and assumed conversions	37,641,135	36,644,127	37,406,937	36,641,637
Net income/(loss) per share:				
Basic and diluted	\$0.16	\$(0.12 )	\$0.25	\$(0.07 )

Potential common shares have not been included for the three months ended and nine months ended January 30, 2010, in the calculation of diluted net loss per share, as the effect would have been anti-dilutive. For the nine months ended January 29, 2011, options to purchase 394,842 shares of common stock at a weighted-average exercise price of \$10.84 per share were outstanding, but were not included in the computation of net income per share because the exercise prices were greater than the average market price of \$10.40 for our common stock for the first nine months of fiscal 2011, and, therefore, the effect would have been anti-dilutive.

## 9. SEGMENT INFORMATION

We are a global manufacturer of component and subsystem devices. We design, manufacture and market devices employing electrical, electronic, wireless, sensing and optical technologies. Our components are found in the primary end markets of the automotive, appliance, communications (including information processing and storage, networking equipment, wireless and terrestrial voice/data systems), aerospace, rail and other transportation industries; and the consumer and industrial equipment markets.

ASC No. 280, "Segment Reporting" ("ASC No. 280"), establishes annual and interim reporting standards for an enterprise's operating segments and related disclosures about its products, services, geographic areas and major customers. An operating segment is defined as a component of an enterprise that engages in business activities from which it may earn revenues and incur expenses, and about which separate financial information is regularly evaluated by the Chief Operating Decision Maker ("CODM") in deciding how to allocate resources. The CODM, as defined by ASC No. 280, is the Company's President and Chief Executive Officer ("CEO").

The Automotive segment supplies electronic and electromechanical devices and related products to automobile OEMs, either directly or through their tiered suppliers, including control switches for electrical power and signals, connectors for electrical devices, integrated control components, switches and sensors that monitor the operation or status of a component or system, and packaging of electrical components.

The Interconnect segment provides a variety of copper and fiber-optic interconnect and interface solutions for the appliance, computer, networking, telecommunications, storage, medical, military, aerospace, commercial and consumer markets. Solutions include solid-state field effect interface panels, PC and express card packaging, optical and copper transceivers, terminators, connectors, custom cable assemblies and conductive polymer and thick film inks. Services include the design and installation of fiber optic and copper infrastructure systems, and manufacture of active and passive optical components.

The Power Products segment manufactures current-carrying laminated bus devices, custom power-product assemblies; powder coated bus bars, braided flexible cables and high-current low voltage flexible power cabling systems that are used in various markets and applications, including telecommunications, computers, transportation, industrial and power conversion, insulated gate bipolar transistor solutions, aerospace and military.

The Other segment includes a designer and manufacturer of magnetic torque sensing products, and independent laboratories that provide services for qualification testing and certification, and analysis of electronic and optical components.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies in our Form 10-K for the fiscal year ended May 1, 2010. We allocate resources to segments based on operating income. Transfers between segments are recorded using internal transfer prices set by us. The following tables represent information regarding our segments:

## 10. CONTINGENCIES

Certain litigation arising in the normal course of business is pending against us. We are from time to time subject to various legal actions and claims incidental to our business, including those arising out of alleged defects, breach of contracts, employment-related matters and environmental matters. We consider insurance coverage and third-party indemnification when determining required accruals for pending litigation and claims. Although the outcome of potential legal actions and claims cannot be determined, it is our opinion, based on the information available, that we

have adequate reserves for these liabilities.

#### Delphi Related Litigation

On September 4, 2008, Methode and Delphi Automotive Systems LLC (“Delphi”) entered into a supply agreement pursuant to which Methode was to supply all of Delphi’s requirements for the seat bladders used in Delphi’s occupant restraint system from October 1, 2008 through September 30, 2011. On August 26, 2009, Delphi notified us that effective September 10, 2009, our supply arrangement was terminated. We are contesting Delphi’s right to terminate this long-term supply arrangement and the parties are engaged in litigation regarding this supply agreement and our related intellectual

Table of Contents

property.

As described in more detail in Part I, Item 3 “Legal Proceedings” of our Annual Report on Form 10-K, for the fiscal year ended May 1, 2010, in March 2010, DPH Holdings Corp., as successor to Delphi Corporation, served the Company with a complaint seeking to recover approximately \$19,726 in alleged preference payments that Delphi made to the Company within the 90-day preference period preceding Delphi’s bankruptcy filing. The Company is seeking to dismiss the Delphi preference complaint based on violations of due process and the Company possesses several other substantive defenses.

In June 2006, the Company sold certain unsecured claims it had against Delphi in Delphi’s bankruptcy proceeding to Credit Suisse for \$3,137 pursuant to a Transfer Agreement. These claims were subsequently assigned by Credit Suisse to Blue Angel Claims LLC (“Blue Angel”). On July 20, 2010, Blue Angel delivered a demand letter to the Company contending that under the terms of the Transfer Agreement, the unsecured claims had been objected to by Delphi in the Delphi bankruptcy proceeding and therefore the Company owed Blue Angel \$3,137 plus interest. During the second quarter of fiscal 2011, an expense of \$3,834 was recorded for these unsecured claims sold to Blue Angel, which includes interest. The litigation was subsequently settled for \$2,068 causing a reversal of expense of \$1,766 in the third quarter of fiscal 2011. As part of the settlement agreement, Blue Angel retains ownership of the unsecured claims.

11. PRE-PRODUCTION COSTS RELATED TO LONG-TERM SUPPLY ARRANGEMENTS

We incur pre-production tooling costs related to certain products produced for our customers under long-term supply agreements. We had \$10,260 and \$11,984 as of January 29, 2011 and May 1, 2010, respectively, of pre-production tooling costs related to customer-owned tools for which reimbursement is contractually guaranteed by the customer or for which the customer has provided a non-cancelable right to use the tooling. Net revenues and costs on projects are deferred and recognized over the life of the related long-term supply agreement.

12. FAIR VALUE MEASUREMENTS

ASC No. 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants.

ASC No. 820 also specifies a fair value hierarchy based upon the observation of inputs in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed market assumptions. In accordance with ASC No. 820, fair value measurements are classified under the following hierarchy:

- Level 1 — Quoted prices in active markets for identical assets and liabilities.
- Level 2 — Quoted prices in active markets for similar assets and liabilities, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Assets and liabilities recorded at fair value are valued using quoted market prices or under a market approach using other relevant information generated by market transactions involving identical or comparable instruments and

included in a table below which summarizes the fair value of assets and liabilities as of January 29, 2011:

Fair Value of Other Financial Instruments. The carrying values of our short-term financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and short-term debt approximate their fair values because of the short maturity of these instruments.

### 13. DEBT AND CREDIT AGREEMENT

We had an agreement with our primary bank for a revolving credit facility to provide up to \$75,000 of ready financing for general corporate purposes, including acquisition opportunities that may become available. The bank credit agreement, which expired on January 31, 2011, required maintenance of certain financial ratios and a minimum net worth level. On January 28, 2011, we entered into an amendment to our credit agreement with our primary bank to extend the maturity date of the agreement from January 31, 2011 to February 28, 2011 in order for the parties to complete negotiation of and enter into a new credit agreement. At January 29, 2011, we were in compliance with the covenants of the agreement. During the first nine months of fiscal 2011, we had borrowings of \$18,000 and payments of \$18,143, which includes \$143 of interest. As of January 29, 2011, there were no outstanding balances due against the credit facility.

### 14. SUBSEQUENT EVENT

On February 25, 2011, we entered into an Amended and Restated Credit Agreement with Bank of America, N.A., as administrative agent, and certain other financial institutions, which amends and restates our previous credit facility and extends the maturity to February 24, 2016. The new credit facility is in the aggregate principal amount of \$75,000, with an option to increase the principal amount by an additional \$25,000 subject to customary conditions and approval of the lender(s) providing new commitment(s). The new credit facility provides for variable rates of interest based on the type of borrowing and the Company's debt to EBITDA financial ratio. The Amended and Restated Credit Agreement is guaranteed by certain of our U.S. subsidiaries.

Cautionary Statement

Certain statements in this report are forward-looking statements that are subject to certain risks and uncertainties. We undertake no duty to update any such forward-looking statements to conform to actual results or changes in our expectations. Our business is highly dependent upon two large automotive customers and specific makes and models of automobiles. Our results will be subject to many of the same risks that apply to the automotive, appliance, computer and telecommunications industries, such as general economic conditions, interest rates, consumer spending patterns and technological changes. Other factors, which may result in materially different results for future periods, include the following risk factors. These risk factors should be considered in connection with evaluating the forward-looking statements contained in this report because these factors could cause our actual results and condition to differ materially from those projected in forward-looking statements. The forward-looking statements in this report are subject to the safe harbor protection provided under the securities laws and are made as of the date of this report.

- We depend on a small number of large customers, specifically two large automotive customers. If we were to lose
- any of these customers or any of these customers significantly reduced their purchases, or if any of the customers declare bankruptcy, our future results could be materially adversely affected.
  - Because we derive a substantial portion of our revenues from customers in the automotive, appliance, computer and communications industries, we are susceptible to trends and factors affecting those industries.
  - Our business is cyclical and seasonal in nature and downturns in the automotive industry could reduce the sales and profitability of our business.
  - We are dependent on the availability and price of components and raw materials as well as the risk of substituted or counterfeit components.
  - Rising crude oil prices may result in higher costs for resin and other petroleum-based products.
  - Our technology-based businesses and the markets in which we operate are highly competitive. If we are unable to compete effectively, our sales or profits could decline.
  - We face risks relating to our international operations, including political and economic instability, expropriation, or the imposition of government controls.
  - We may be unable to keep pace with rapid technological changes, which could adversely affect our business.
  - Products we manufacture may contain design or manufacturing defects that could result in reduced demand for our products or services and liability claims against us.
  - A significant fluctuation between the U.S. dollar and other currencies could adversely impact our operating results.
  - If we are unable to protect our intellectual property or we infringe, or are alleged to infringe, on another person's intellectual property, our business, financial condition and operating results could be materially adversely affected.
  - We may acquire businesses or divest of various business operations. These transactions may pose significant risks and may materially adversely affect our business, financial condition and operating results.

- Unfavorable tax law changes may adversely affect results.
- The future trading price of our common stock could be subject to wide fluctuations in response to a variety of factors.
- We are subject to the risks of owning real property, such as rising real estate taxes, adverse changes in the value of the properties and increased cash commitments for improving current buildings.

Any such forward-looking statements are not guarantees of future performance and actual results, developments and business decisions may differ materially from those foreseen in such forward-looking statements. These forward-looking statements speak only as of the date of the report, press release, statement, document, webcast or oral discussion in which they

are made. We do not intend to update any forward-looking statements, all of which are expressly qualified by the foregoing. See Part I — Item 1A, Risk Factors of our Form 10-K for the fiscal year ended May 1, 2010, for a further discussion regarding some of the reasons that actual results may be materially different from those we anticipate.

### Overview

We are a global manufacturer of component and subsystem devices with manufacturing, design and testing facilities in China, Czech Republic, Germany, India, Lebanon, Malta, Mexico, the Philippines, Singapore, Switzerland, the United Kingdom and the United States. We are a global designer and manufacturer of electro-mechanical devices. We design, manufacture and market devices employing electrical, radio remote control, electronic, wireless, sensing and optical technologies. Our business is managed on a segment basis, with those segments being Automotive, Interconnect, Power Products and Other. For more information regarding the business and products of these segments, see “Item 1. Business.” of our Form 10-K for the fiscal year ended May 1, 2010.

Our components are found in the primary end markets of the aerospace, appliance, automotive, construction, consumer and industrial equipment markets, communications (including information processing and storage, networking equipment, wireless and terrestrial voice/data systems), rail and other transportation industries.

### Delphi Related Litigation

On September 4, 2008, Methode and Delphi Automotive Systems LLC (“Delphi”) entered into a supply agreement pursuant to which Methode was to supply all of Delphi’s requirements for the seat bladders used in Delphi’s occupant restraint system from October 1, 2008 through September 30, 2011. On August 26, 2009, Delphi notified us that effective September 10, 2009, our supply agreement was terminated. We are contesting Delphi’s right to terminate this long-term supply agreement and the parties are engaged in litigation regarding this supply agreement and our related intellectual property.

As described in more detail in Part I, Item 3 “Legal Proceedings” of our Annual Report on Form 10-K, for the fiscal year ended May 1, 2010, in March 2010, DPH Holdings Corp., as successor to Delphi Corporation, served the Company with a complaint seeking to recover approximately \$19.7 million in alleged preference payments that Delphi made to the Company within the 90-day preference period preceding Delphi’s bankruptcy filing. The Company is seeking to dismiss the Delphi preference complaint based on violations of due process and the Company possesses several other substantive defenses.

In June 2006, the Company sold certain unsecured claims it had against Delphi in Delphi’s bankruptcy proceeding to Credit Suisse for \$3.1 million pursuant to a Transfer Agreement. These claims were subsequently assigned by Credit Suisse to Blue Angel Claims LLC (“Blue Angel”). On July 20, 2010, Blue Angel delivered a demand letter to the Company contending that under the terms of the Transfer Agreement, the unsecured claims had been objected to by Delphi in the Delphi bankruptcy proceeding and therefore the Company owed Blue Angel \$3.1 million plus interest. During the second quarter of fiscal 2011, an expense of \$3.8 million was recorded for these unsecured claims sold to Blue Angel, which includes interest. The litigation was subsequently settled for \$2.1 million causing a reversal of expense of \$1.7 million in the third quarter of fiscal 2011. As part of the settlement agreement, Blue Angel retains ownership of the unsecured claims.

### Business Outlook

Our overall outlook for the remainder of fiscal 2011 and for fiscal 2012 is cautiously optimistic. While production levels in China, Europe and North America in the first nine months of fiscal 2011 were strong, our European businesses may experience some softness as economic austerity programs continue to roll through Europe affecting

both internal and export demand. We expect North American automotive production to modestly improve as the economy improves. However, recent events in the Middle East may result in significantly higher oil prices, which could result in higher prices for oil-based material, such as resins. We expect sales of Power Products to modestly improve as the economy improves. While we expect that Interconnect sales will modestly increase, sales to our customers in the appliance industry will continue to be soft until unemployment and home sales improve. Through our restructuring activities initiated in prior years we have been able to reduce our cost structure, which we expect to result in improved operating margins as sales increase. During fiscal 2010 and 2011, we experienced component shortages in our supply base, which negatively affected our results. We also experienced additional costs due to vendor supply issues for new automotive products that began ramping up in the second quarter of fiscal 2011. While the vendor supply issues have been resolved, we may experience manufacturing inefficiencies due to multiple product launches and component shortages which could continue to negatively affect our results. The Company maintains a positive long-term outlook for its global business and is committed to developing new product solutions for our customers and to making strategic capital investments as it pursues its growth strategy.

Net Sales. Consolidated net sales increased \$12.2 million, or 13.7%, to \$101.3 million for the three months ended January 29, 2011, from \$89.1 million for the three months ended January 30, 2010. The Automotive segment net

sales increased \$8.8 million, or 20.2%, to \$52.4 million for the third quarter of fiscal 2011, from \$43.6 million for the third quarter of fiscal 2010. The Interconnect segment net sales decreased \$1.2 million, or 3.6%, to \$32.6 million for the third quarter of fiscal 2011, compared to \$33.8 million for the third quarter of fiscal 2010. The Power Products segment net sales increased \$3.4 million, or 35.4%, to \$13.0 million for the third quarter of fiscal 2011, as compared to \$9.6 million for the third quarter of fiscal 2010. The Other segment net sales increased \$1.2 million, or 57.1%, to \$3.3 million for the third quarter of fiscal 2011, as compared to \$2.1 million for the third quarter of fiscal 2010. Translation of foreign operations net sales for the three months ended January 29, 2011 decreased reported net sales by \$1.4 million or 1.4% due to average currency rates in the third quarter

Table of Contents

of fiscal 2011, compared to the average currency rates in the third quarter of fiscal 2010.

**Other Income.** Other income decreased \$0.3 million, or 27.3% to \$0.8 million for the three months ended January 29, 2011, compared to \$1.1 million for the three months ended January 30, 2010. Other income consisted primarily of earnings from engineering design fees and royalties.

**Cost of Products Sold.** Consolidated cost of products sold increased \$7.8 million, or 10.4%, to \$82.7 million for the three months ended January 29, 2011, compared to \$74.9 million for the three months ended January 30, 2010. Consolidated cost of products sold as a percentage of sales were 81.6% in the third quarter of fiscal 2011, compared to 84.1% in the third quarter of fiscal 2010. The third quarter of fiscal 2011 includes \$1.3 million in additional costs due to a certain vendor's production and delivery issues for new products that began ramping up since the first quarter. In addition, we experienced increased costs at our Malta facility due to manufacturing inefficiencies caused by multiple product launches during the third quarter of fiscal 2011. The increase in costs of products sold is partially offset by higher sales volumes and cost improvements in Asia. Due to the unexpected cancellation of the Delphi supply agreement in September 2010, cost of products sold as a percentage of sales increased for the three months ended January 30, 2010, due to the inability to adjust direct labor and overhead costs in a timely manner.

**Gross Margins (including other income).** Consolidated gross margins (including other income) increased \$4.1 million, or 26.8%, to \$19.4 million for the three months ended January 29, 2011, as compared to \$15.3 million for the three months ended January 30, 2010. Gross margins (including other income) as a percentage of net sales were 19.2% for the three months ended January 29, 2011, compared to 17.2% for the three months ended January 30, 2010. Gross margins (including other income) as a percentage of sales increased in the third quarter of fiscal 2011 compared to the third quarter of fiscal 2010, due to our inability to adjust direct labor and overhead costs in the third quarter of fiscal 2010, related to the cancellation of the Delphi agreement. During the third quarter of fiscal 2011, the gross margins (including other income) were favorably impacted by increased sales and margins, in Asia and North America, but were negatively impacted by a certain vendor's production and delivery issues in North America and manufacturing efficiencies due to multiple product launches at our Malta facility.

**Restructuring.** During fiscal 2010, we completed all of our planned restructuring initiatives. During the third quarter of fiscal 2010, we recorded a total restructuring charge of \$0.6 million, which consisted of \$0.6 million for employee severance, \$0.2 million for other costs, offset by a gain on the sale of assets of \$0.2 million.

**Selling and Administrative Expenses.** Selling and administrative expenses decreased by \$1.6 million, or 9.4%, to \$15.5 million for the three months ended January 29, 2011, compared to \$17.1 million for the three months ended January 30, 2010. The third quarter of fiscal 2011 includes a reversal of expense of \$1.7 million for litigation regarding unsecured claims sold to Blue Angel LLC in June 2006, related to the Delphi bankruptcy. We recorded an expense of \$3.8 million during the second quarter of fiscal 2011, however, the litigation was subsequently settled for \$2.1 million, causing the reversal of expense of \$1.7 million. See Overview section for more information regarding this matter. Stock option and stock award amortization increased by \$1.2 million to \$1.4 million in the third quarter of fiscal 2011, compared to \$0.2 million in the third quarter of fiscal 2010. In addition, other selling and marketing expenses increased in our North American and Asian automotive businesses, partially offset by lower legal expenses related to the Delphi patent and supply agreement litigation in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010. The Delphi litigation expenses decreased \$1.2 million, to \$1.2 million in the third quarter of fiscal 2011, compared to \$2.4 million in the third quarter of fiscal 2010. Selling and administrative expenses as a percentage of net sales decreased to 15.3% for the three months ended January 29, 2011 from 19.2% for the three months ended January 30, 2010.

**Interest (Income)/Expense, Net.** Interest (income)/expense, net was an expense of \$0.1 million for the three months ended January 29, 2011, compared to income of \$0.1 million for the three months ended January 30, 2010. Interest

income was \$0.1 million for the three months ended January 29, 2011, compared to \$0.2 million for the three months ended January 30, 2010. Interest expense was \$0.2 million for the three months ended January 29, 2011, compared to \$0.1 million for the three months ended January 30, 2010. The increase in interest expense relates to borrowings against our credit facility during the third quarter of fiscal 2011.

Other Income, Net. Other income, net increased \$0.2 million to \$0.5 million for the three months ended January 29, 2011, as compared to \$0.3 million for the three months ended January 30, 2010. All amounts for both the third quarter of fiscal 2011 and the third quarter of fiscal 2010 relate to currency rate fluctuations. The functional currencies of these operations are the British pound, Chinese yuan, Czech koruna, Euro, Indian Rupee, Mexican peso, Singapore dollar and Swiss Franc. Some foreign operations have transactions denominated in currencies other than their functional currencies, primarily sales in U.S. dollars and Euros, creating exchange rate sensitivities.

Table of Contents

Income Tax (Benefit)/Expense. Income tax expense decreased by \$3.8 million to a benefit of \$1.5 million for the three months ended January 29, 2011, compared to an expense of \$2.3 million for the three months ended January 30, 2010. The benefit of \$1.5 million for the third quarter of fiscal 2011 includes a benefit of \$2.8 million recorded related to the expiration of uncertain tax positions and interest from prior periods, partially offset by income taxes for foreign profits of \$1.2 million. The \$2.3 million for the three months ended January 30, 2010, includes taxes on foreign profits of \$0.6 million, book to income tax return adjustments of \$2.8 million and other adjustments of \$1.6 million. In addition, a benefit of \$2.7 million was recorded due to the settlement of uncertain tax positions and related interest from prior periods.

Net Income/(Loss) Attributable to Methode Electronics, Inc. Net income/(loss) attributable to Methode Electronics, Inc. increased \$10.4 million to income of \$5.9 million for the three months ended January 29, 2011, compared to a loss of \$4.5 million for the three months ended January 30, 2010. The increase is primarily due to higher sales and gross margins (including other income), the decrease in tax expense, the Blue Angel unsecured claims expense reversal, partially offset by costs related to a certain vendor's production and delivery issues and higher stock option and stock award amortization expense in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

Gross Margins (including other income). Automotive segment gross margins (including other income) increased \$5.5 million, or 157.1%, to \$9.0 million for the three months ended January 29, 2011, as compared to \$3.5 million for the three months ended January 30, 2010. The Automotive segment gross margins (including other income) as a percentage of net sales were 17.2% for the three months ended January 29, 2011, as compared to 8.0% for the three months ended January 30, 2010. Gross margins (including other income) as a percentage of sales increased in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010, due to our inability to adjust direct labor and overhead costs related to the cancellation of the Delphi agreement in the third quarter of fiscal 2010. The gross margins (including other income) were negatively impacted in the third quarter of fiscal 2011 due to manufacturing inefficiencies due to multiple product launches in our Malta facility, costs related to a certain vendor's production and delivery issues in North America, more than offset by higher sales volumes and gross margins (including other income) in Asia.

Restructuring. During fiscal 2010, we completed all of our planned restructuring initiatives. During the third quarter of fiscal 2010, we recorded a total restructuring charge of \$0.4 million, which consisted of \$0.5 million for employee severance, \$0.1 million for other costs, offset by a gain on the sale of assets of \$0.2 million.

Selling and Administrative Expenses. Selling and administrative expenses decreased \$0.3 million, or 6.7%, to \$4.2 million for the three months ended January 29, 2011, compared to \$4.5 million for the three months ended January 30, 2010. The third quarter of fiscal 2011 includes a reversal of expense of \$1.7 million for litigation regarding unsecured claims sold to Blue Angel LLC in June 2006, related to the Delphi bankruptcy. **Net Sales.** Interconnect segment net sales decreased \$1.2 million, or 3.6%, to \$32.6 million for the three months ended January 29, 2011, from \$33.8 million for the three months ended January 30, 2010. Net sales decreased 35.0% and 1.1% in Asia and North America, respectively, but increased by 14.0% in Europe in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010. The decrease in Asia relates to lower sales for legacy products due to the planned exit of this business in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010. North America net sales included increases in data and remote control devices, which was more than offset by lower sales for our data center solutions and white goods products in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010. European net sales increased due to stronger sales in our radio remote control devices in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

**Other Income.** Other income was zero for the three months ended January 29, 2011, compared to \$0.1 million for the three months ended January 30, 2010. Other income consisted primarily of earnings from engineering design fees and royalties.

Cost of Products Sold. Interconnect segment cost of products sold decreased \$1.1 million, or 4.5%, to \$23.3 million for the three months ended January 29, 2011, compared to \$24.4 million for the three months ended January 30, 2010. Interconnect segment cost of products sold as a percentage of net sales decreased to 71.5% for the three months ended January 29, 2011, compared to 72.2% for the three months ended January 30, 2010. The decrease is primarily due to favorable sales mix within the segment, partially offset by lower sales volumes in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

Table of Contents

Gross Margins (including other income). Interconnect segment gross margins (including other income) decreased \$0.2 million, or 2.1%, to \$9.3 million for the three months ended January 29, 2011, compared to \$9.5 million for the three months ended January 30, 2010. Gross margins (including other income) as a percentage of net sales increased to 28.5% for the three months ended January 29, 2011, from 28.1% for the three months ended January 30, 2010. The increase in gross margins (including other income) as a percentage of net sales primarily relates a favorable sales mix within the segment, partially offset by lower other income and sales volumes in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

Restructuring. During fiscal 2010, we completed all of our planned restructuring initiatives. During the third quarter of fiscal 2010, we recorded a total restructuring charge of \$0.1 million related to other costs.

Selling and Administrative Expenses. Selling and administrative expenses decreased \$0.5 million, or 8.8%, to \$5.2 million for the three months ended January 29, 2011, compared to \$5.7 million for the three months ended January 30, 2010. Selling and administrative expenses decreased due to lower commissions in our Asian businesses in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010. Selling and administrative expenses as a percentage of net sales decreased to 16.0% for the three months ended January 29, 2011, from 16.9% for the three months ended January 30, 2010.

Interest Income, Net. Interest income, net was zero for the three months ended January 29, 2011, compared to \$0.1 million for the three months ended January 30, 2010.

Other (Income)/Expense, Net. Other (income)/expense, net was income of \$0.1 million for the three months ended January 29, 2011, compared to an expense of \$0.3 million for the three months ended January 30, 2010. All amounts for both the third quarter of fiscal 2011 and the third quarter of fiscal 2010 relate to currency rate fluctuations. The functional currencies of these operations are the British pound, Czech koruna, Euro, Singapore dollar and Swiss Franc. Some foreign operations have transactions denominated in currencies other than their functional currencies, primarily sales in U.S. dollars and Euros, creating exchange rate sensitivities.

Income Before Income Taxes. Interconnect segment income before income taxes increased \$0.7 million, or 20.0%, to \$4.2 million for the three months ended January 29, 2011, compared to \$3.5 million for the three months ended January 30, 2010 due to no restructuring expenses, lower commissions expense and favorable exchange rate fluctuations, partially offset by lower sales and gross margins (including other income) in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

**Net Sales.** Power Products segment net sales increased \$3.4 million, or 35.4%, to \$13.0 million for the three months ended January 29, 2011, compared to \$9.6 million for the three months ended January 30, 2010. Net sales increased in the third quarter of fiscal 2011, as compared to the third quarter of fiscal 2010 by 19.9% in North America and by 69.6% in Asia. The increase was driven by higher demand for our busbar products in Asia, as well as higher demand for our flexible cabling and heat sink products in North America. We also began selling busbar products in Europe, which accounted for \$0.4 million in net sales in the third quarter of fiscal 2011, compared to no sales in the third quarter of fiscal 2010.

**Cost of Products Sold.** Power Products segment cost of products sold increased \$3.2 million, or 45.7%, to \$10.2 million for the three months ended January 29, 2011, compared to \$7.0 million for the three months ended January 30, 2010. The Power Products segment cost of products sold as a percentage of sales increased to 78.5% for the three months ended January 29, 2011, from 72.9% for the three months ended January 30, 2010. The increase in cost of products sold as a percentage of sales is due to increased costs for the product development, including \$0.7 million for an on board charger for an electric truck in North America, partially offset by lower costs in our Asian busbar business as well as our cabling business in the U.S. in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

**Gross Margins.** Power Products segment gross margins increased \$0.2 million, or 7.7%, to \$2.8 million for the three months ended January 29, 2011, compared to \$2.6 million for the three months ended January 30, 2010. Gross margins as a percentage of net sales decreased to 21.5% for the three months ended January 29, 2011 from 27.1% for the three months ended January 30, 2010. The decrease in gross margins as a percentage of sales is due to increased

costs due to new product development in North America, partially offset by lower costs in our Asian busbar business as well as our cabling business in the U.S. in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

**Restructuring.** During fiscal 2010, we completed all of our planned restructuring initiatives. During the third quarter of fiscal 2010, we recorded a restructuring charge of \$0.1 million for other costs.

**Selling and Administrative Expenses.** Selling and administrative expenses increased \$0.4 million, or 28.6%, to \$1.8 million for the three months ended January 29, 2011, compared to \$1.4 million for the three months ended January 30,

Table of Contents

2010. The increase is primarily due to increased investment in new product development in North America. Selling and administrative expenses as a percentage of net sales decreased to 13.8% for the three months ended January 29, 2011 from 14.6% for the three months ended January 30, 2010.

Other Expense, Net. Other expense, net was \$0.1 million for the three months ended January 29, 2011, compared to zero for the three months ended January 30, 2010.

Income Before Income Taxes. Power Products income before income taxes decreased \$0.2 million, or 18.2%, to \$0.9 million for the three months ended January 29, 2011, compared to \$1.1 million for the three months ended January 30, 2010, due to increased expenses for new product development, unfavorable currency rate fluctuations, partially offset by higher net sales and gross margins and no restructuring charges in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

Net Sales. The Other segment net sales increased \$1.2 million, or 57.1%, to \$3.3 million for the three months ended January 29, 2011, compared to \$2.1 million for the three months ended January 30, 2010. Net sales from our torque-sensing business increased 207.5% in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010. Net sales from our testing facilities decreased 5.5% in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

Cost of Products Sold. Other segment cost of products sold increased \$0.9 million to \$3.2 million for the three months ended January 29, 2011, compared to \$2.3 million for the three months ended January 30, 2010. Cost of products sold as a percentage of sales decreased to 97.0% in the third quarter of fiscal 2011, compared to 109.5% in the third quarter of fiscal 2010.

**Gross Margins.** The Other segment gross margins increased \$0.3 million, to \$0.1 million for the three months ended January 29, 2011, compared to a loss of \$0.2 million for the three months ended January 30, 2010. The increase is due to the increased net sales in our torque-sensing business in the third quarter of fiscal 2011, compared to the third quarter of fiscal 2010.

**Selling and Administrative Expenses.** Selling and administrative expenses decreased \$0.1 million, or 12.5%, to \$0.7 million for the three months ended January 29, 2011, compared to \$0.8 million for the three months ended January 30, 2010. Selling and administrative expenses as a percentage of net sales decreased to 21.2% for the three months ended January 29, 2011, from 38.1% for the three months ended January 30, 2010.

Loss Before Income Taxes. The Other segment loss before income taxes decreased \$0.4 million, or 40.0%, to \$0.6 million for the three months ended January 29, 2011, compared to \$1.0 million for the three months ended January 30, 2010. The loss decreased due to higher sales and gross profit from our torque sensing business as well as lower selling and administrative expenses in the third quarter of fiscal 2011, as compared to the third quarter of fiscal 2010.

Net Sales. Consolidated net sales increased \$28.8 million, or 10.4%, to \$306.2 million for the nine months ended January 29, 2011, from \$277.4 million for the nine months ended January 30, 2010. Net sales benefited by \$1.7 million for the nine months ended January 30, 2010, related to a one-time reversal of pricing contingencies which were accrued over several years and were no longer required. The Automotive segment net sales increased \$4.9 million, or 3.2%, to \$156.5 million for the first nine months of fiscal 2011, from \$151.6 million for the first nine months of fiscal 2010. The Interconnect segment net sales increased \$15.2 million, or 17.2%, to \$103.7 million for the first nine months of fiscal 2011, compared to \$88.5 million for the first nine months of fiscal 2010. The Power Products segment net sales increased \$6.4 million, or 21.3%, to \$36.5

million for the first nine months of fiscal 2011, as compared to \$30.1 million for the first nine months of fiscal 2010. The Other segment net sales increased \$2.2 million, or 30.6%, to \$9.4 million for the first nine months of fiscal 2011, as compared to \$7.2 million for the first nine months of fiscal 2010. Translation of foreign operations net sales for the nine months ended January 29, 2011 decreased reported net sales by \$5.0 million or 1.6% due to average currency rates in the first nine months of fiscal 2011, compared to the average currency rates in the first nine months of fiscal 2010.

**Other Income.** Other income decreased \$1.0 million, or 27.8%, to \$2.6 million for the nine months ended January 29, 2011, from \$3.6 million for nine months ended January 30, 2010. Other income consisted primarily of earnings from engineering design fees and royalties. The decrease relates to lower engineering design fees from our European automotive market.

**Cost of Products Sold.** Consolidated cost of products sold increased \$21.9 million, or 9.8%, to \$245.5 million for the nine months ended January 29, 2011, compared to \$223.6 million for the nine months ended January 30, 2010. Consolidated cost of products sold as a percentage of sales were 80.2% in the first nine months of fiscal 2011, compared to 80.6% in the first nine months of fiscal 2010. During the first nine months of fiscal 2011, we recorded a negotiated program termination charge of \$1.3 million for certain products manufactured in our Malta facility and \$0.4 million for customer cancellation of certain products manufactured in our U.S. facility. In addition, we incurred \$2.0 million in additional costs due to a certain vendor's production and delivery issues for new products that began ramping up production during the first nine months of fiscal 2011. The increases were more than offset by cost efficiencies experienced in our Asian businesses, higher sales volumes as well as a change in sales mix within the Interconnect segment in the first nine months of fiscal 2011, as compared to the first nine months of fiscal 2010. Included in the cost of products sold for the nine months ended January 30, 2010 is \$0.7 million of asset write-downs related to the termination of the Delphi supply agreement.

**Gross Margins (including other income).** Consolidated gross margins (including other income) increased \$5.9 million, or 10.3%, to \$63.3 million for the nine months ended January 29, 2011, as compared to \$57.4 million for the nine months ended January 30, 2010. Gross margins (including other income) as a percentage of net sales were 20.7% for both the nine months ended January 29, 2011 and January 30, 2010. Gross margins (including other income) as a percentage of sales declined due to loss of the Delphi business, the one-time reversal of pricing contingencies in the first nine months of fiscal 2010, the customer negotiated program cancellation and other customer cancellation charges, lower other income and costs due to a certain vendor's production and delivery issues, but were more than offset by higher sales volumes, a favorable change in sales mix within the Interconnect segment and cost efficiencies from our Asian businesses, in the first nine months of fiscal 2011, as compared to the first nine months of fiscal 2010.

**Restructuring.** During fiscal 2010, we completed all of our planned restructuring initiatives. During the first nine months of fiscal 2010, we recorded a total restructuring charge of \$7.3 million, which consisted of \$4.1 million for employee severance, \$1.4 million for accelerated depreciation and \$1.8 million for other costs.

**Selling and Administrative Expenses.** Selling and administrative expenses increased \$3.8 million, or 7.7%, to \$53.2 million for the nine months ended January 29, 2011, compared to \$49.4 million for the nine months ended January 30, 2010. During the first nine months of fiscal 2011, we recorded an expense of \$2.1 million for litigation regarding unsecured claims sold to Blue Angel LLC in June 2006, related to the Delphi bankruptcy. See the Overview section for more information regarding this matter. Stock option and stock award amortization increased by \$1.2 million, to \$1.9 million in the first nine months of fiscal 2011, compared to \$0.7 million in the first nine months of fiscal 2010. Delphi litigation expenses decreased \$0.8 million, to \$3.5 million for the nine months ended January 29, 2011, compared to \$4.3 million for the nine months ended January 30, 2010. Selling and marketing expenses increased in our North American and Asian automotive businesses, partially offset by lower commissions and professional fees in

the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010. Selling and administrative expenses as a percentage of net sales were 17.4% for the nine months ended January 29, 2011 and 17.8% for the nine months ended January 30, 2010.

**Interest Expense, Net.** Interest expense, net increased \$0.1 million, to \$0.2 million for the nine months ended January 29, 2011, compared to \$0.1 million for the nine months ended January 30, 2010. Interest income was \$0.4 million for the nine months ended January 29, 2011, compared to \$0.3 million for the nine months ended January 30, 2010. Interest expense was \$0.6 million for the nine months ended January 29, 2011, compared to \$0.4 million for the nine months ended January 30, 2010. The increase in interest expense relates to borrowings against our credit facility during the first nine months of fiscal 2011.

**Other Expense, Net.** Other expense, net was \$0.7 million for the nine months ended January 29, 2011, compared to zero for the nine months ended January 30, 2010. The first nine months of fiscal 2011 included income of \$1.2 million for life insurance policies in connection with the deferred compensation plan. The first nine months of fiscal 2010 included income of

Table of Contents

\$0.6 million related to an enhanced cash fund, as well as income of \$0.4 million for life insurance policies in connection with the deferred compensation plan. All other amounts for both the nine months ended January 29, 2011 and January 30, 2010, relate to currency rate fluctuations. The functional currencies of these operations are the British pound, Chinese yuan, Czech koruna, Euro, Indian Rupee, Mexican peso, Singapore dollar and Swiss Franc. Some foreign operations have transactions denominated in currencies other than their functional currencies, primarily sales in U.S. dollars and Euros, creating exchange rate sensitivities.

**Income Tax (Benefit)/Expense.** Income tax (benefit)/expense decreased by \$2.9 million to a benefit of \$0.1 million for the nine months ended January 29, 2011, compared to an expense of \$2.8 million for the nine months ended January 30, 2010. The first nine months of fiscal 2011 includes a benefit of \$2.8 million related to the expiration of uncertain tax positions and interest from prior periods, partially offset by income taxes for foreign profits of \$2.5 million. The first nine months of fiscal 2010 includes taxes on foreign profits of \$1.1 million, book to income tax return adjustments of \$2.8 million and other adjustments of \$1.6 million. In addition, a benefit of \$2.7 million was recorded due to the settlement of uncertain tax positions and related interest from prior periods.

**Net Income/(Loss) Attributable to Methode Electronics, Inc.** Net income/(loss) attributable to Methode Electronics, Inc. increased \$11.8 million to \$9.4 million for the nine months ended January 29, 2011, compared to a loss of \$2.4 million for the nine months ended January 30, 2010. The increase is primarily due to no restructuring expenses, higher net sales and gross margins, the decrease in net tax expense, gain from life insurance policy, partially offset by the Blue Angel unsecured claims charge, the one-time reversal of pricing contingencies in the first nine months of fiscal 2010, customer negotiated cancellation and other customer cancellation costs, higher stock option and stock award amortization expense, costs related to a certain vendor's production and delivery issues, higher development, and selling and marketing expenses in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010.

Net Sales. Automotive segment net sales increased \$4.9 million, or 3.2%, to \$156.5 million for the nine months ended January 29, 2011, from \$151.6 million for the nine months ended January 30, 2010. Net sales benefited by \$1.7 million for the nine months ended January 30, 2010, related to a one-time reversal of pricing contingencies which were accrued over several years and were no longer required. There were no sales to Delphi Corporation in the first nine months of fiscal 2011, as compared to net sales of \$14.1 million in the first nine months of fiscal 2010 due to the cancellation of the supply agreement on September 10, 2009. Net sales increased in Asia and Europe by 148.6% and 1.8%, respectively, however, net sales from North America declined by 59.0% in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010. Net sales also declined in North America by \$11.4 million due to the planned transfer of production from our U.S. facility to our facility in Shanghai, China in the third quarter of fiscal 2010 as well as by \$10.2 million due to the termination of production of certain Ford legacy products at our Reynosa, Mexico facility at the end of the second quarter of fiscal 2010. The North America automotive sales increased by \$12.4 million for the first nine months of fiscal 2011 due to the Ford Center Console Program, launched at the end of the first quarter. Translation of foreign operations net sales in the nine months ended January 29, 2011 decreased

reported net sales by \$4.9 million, or 3.0%, due to average currency rates in the first nine months of fiscal 2011, compared to the average currency rates in the first nine months of fiscal 2010.

**Other Income.** Other income decreased \$0.7 million, or 21.9%, to \$2.5 million for the nine months ended January 29, 2011, from \$3.2 million for nine months ended January 30, 2010. Other income consisted primarily of earnings from engineering design fees and royalties. The decrease relates to lower engineering design fees in our European automotive business.

**Cost of Products Sold.** Automotive segment cost of products sold increased \$2.4 million, or 1.9%, to \$129.7 million for the nine months ended January 29, 2011, from \$127.3 million for the nine months ended January 30, 2010. The first nine months of fiscal 2011 includes a charge of \$1.3 million for negotiated program termination costs for certain products manufactured in our Malta facility. In addition, we incurred \$2.0 million in additional costs due to a certain vendor's production and delivery issues for new products that began ramping up production during the second quarter of fiscal 2011. The Automotive segment cost of products sold as a percentage of sales were 82.9% in the first nine months of fiscal 2011, compared to 84.0% in the first nine months of fiscal 2010. The decrease in cost of products sold as a percentage of sales were primarily due to higher sales volumes and improvements in cost of products sold in Asia, partially offset by the loss of the Delphi business, customer program cancellation charges and costs related to a certain vendor's production and delivery issues, partially offset by higher sales volumes and improvements in cost of products sold in Asia. The increasing costs of products sold as a percentage of sales in North America primarily relates to the development of new products which are expected to begin shipping in future periods. Included in the cost of products sold for the nine months ended January 30, 2010 is \$0.7 million of asset write-downs relating to the termination of the Delphi supply agreement.

**Gross Margins (including other income).** Automotive segment gross margins (including other income) increased \$1.8 million, or 6.5%, to \$29.3 million for the nine months ended January 29, 2011, as compared to \$27.5 million for the nine months ended January 30, 2010. The Automotive segment gross margins (including other income) as a percentage of net sales were 18.7% for the nine months ended January 29, 2011, as compared to 18.1% for the nine months ended January 30, 2010. Gross margins (including other income) as a percentage of sales increased in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010, due to higher sales volumes and cost efficiencies in Asia, partially offset by the loss of the Delphi business, lower other income, increasing costs on the remaining North American business, customer program cancellation charges and costs related to a certain vendor's production and delivery issues.

**Restructuring.** During fiscal 2010, we completed all of our planned restructuring initiatives. During the first nine months of fiscal 2010, we recorded a total restructuring charge of \$5.4 million, which consisted of \$3.6 million for employee severance, \$1.0 million for accelerated depreciation and \$0.8 million for other costs.

**Selling and Administrative Expenses.** Selling and administrative expenses increased \$5.1 million, or 34.2%, to \$20.0 million for the nine months ended January 29, 2011, compared to \$14.9 million for the nine months ended January 30, 2010. During the first nine months of fiscal 2011, we recorded an expense of \$2.1 million for litigation regarding unsecured claims sold to Blue Angel LLC in June 2006, related to the Delphi bankruptcy. See the Overview section for more information regarding this matter. Delphi litigation expenses decreased \$0.8 million, to \$3.5 million for the nine months ended January 29, 2011, compared to \$4.3 million for the nine months ended January 30, 2010. In addition, selling and marketing expenses increased in our North American and Asian automotive businesses primarily due to new product development efforts in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010. Selling and administrative expenses as a percentage of net sales were 12.8% for the nine months ended January 29, 2011 and 9.8% for the nine months ended January 30, 2010.

**Interest Income, Net.** Interest income, net was \$0.2 million for the nine months ended January 29, 2011, compared to zero for the nine months ended January 30, 2010.

**Other Expense, Net.** Other expense, net increased \$0.6 million, or 85.7%, to \$1.3 million for the nine months ended January 29, 2011, compared to \$0.7 million for the nine months ended January 30, 2010. All amounts for both the first nine months of fiscal 2011 and the first nine months of fiscal 2010 relate to currency rate fluctuations. The functional currencies of these operations are the British pound, Chinese yuan, Euro and the Mexican peso. Some foreign operations have transactions denominated in currencies other than their functional currencies, primarily sales

in U.S. dollars and Euros, creating exchange rate sensitivities.

Income Before Income Taxes. Automotive segment income before income taxes increased \$1.7 million or 26.2%, to \$8.2 million for the nine months ended January 29, 2011, compared to \$6.5 million for the nine months ended January 30, 2010 due to no restructuring charges, higher sales and gross margins (including other income), partially offset by the Blue Angel unsecured claims charge, higher currency translation expenses, the one-time reversal of pricing contingencies in the first nine months of fiscal 2010, higher selling and marketing expenses, increased development cost in North American, and negotiated program termination costs in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010.

**Net Sales.** Interconnect segment net sales increased \$15.2 million, or 17.2%, to \$103.7 million for the nine months ended January 29, 2011, from \$88.5 million for the nine months ended January 30, 2010. Net sales increased 19.2% and 30.1% in North America and Europe, respectively, however, net sales declined in Asia by 7.9% in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010. The increase in North America is due to increased sales for our data, sensor and radio remote control devices and the increase in Europe is due to increased sales for radio remote control devices. The decrease in Asia relates to lower sales for legacy products due to the planned exit of this business in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010. Translation of foreign operations net sales in the nine months ended January 29, 2011 decreased reported net sales by \$0.1 million, due to average currency rates in the first nine months of fiscal 2011, compared to the average currency rates in the first nine months of fiscal 2010.

**Other Income.** Other income increased \$0.1 million to \$0.2 million for the nine months ended January 29, 2011, compared to \$0.1 million for the nine months ended January 30, 2010.

Cost of Products Sold. Interconnect segment cost of products sold increased \$8.2 million, or 12.5%, to \$73.8 million for the nine months ended January 29, 2011, compared to \$65.6 million for the nine months ended January 30, 2010. Interconnect segment cost of products sold as a percentage of net sales decreased to 71.2% for the nine months ended January 29, 2011, compared to 74.1% for the nine months ended January 30, 2010. The decrease is primarily due to a favorable change in sales mix within the segment as well as the overall increase in net sales in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010.

Table of Contents

Gross Margins (including other income). Interconnect segment gross margins (including other income) increased \$7.1 million, or 30.9%, to \$30.1 million for the nine months ended January 29, 2011, as compared to \$23.0 million for the nine months ended January 30, 2010. Gross margins (including other income) as a percentage of net sales increased to 29.0% for the nine months ended January 29, 2011, from 26.0% for the nine months ended January 30, 2010. The increase in gross margins (including other income) as a percentage of net sales primarily relates to higher sales volumes as well as a favorable change in sales mix within the segment in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010.

Restructuring. During fiscal 2010, we completed all of our planned restructuring initiatives. During the first nine months of fiscal 2010, we recorded a total restructuring charge of \$1.5 million, which consisted of \$0.4 million for employee severance, \$0.1 million for accelerated depreciation and \$1.0 million for other costs.

Selling and Administrative Expenses. Selling and administrative expenses were \$16.1 million for both the nine months ended January 29, 2011 and January 30, 2010. Selling and administrative expenses as a percentage of net sales decreased to 15.5%, due to higher sales volumes, in the nine months ended January 29, 2011, from 18.2% for the nine months ended January 30, 2010.

Interest Income, Net. Interest income, net was \$0.1 million for both the nine months ended January 29, 2011 and January 30, 2010.

Other Expense, Net. Other expense, net was \$0.4 million for the nine months ended January 29, 2011, compared to \$0.3 million for the nine months ended January 30, 2010. The increase is primarily due to the weakening U.S. dollar against the euro in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010. The functional currencies of these operations are the British pound, Czech koruna, Euro, Singapore dollar and Swiss Franc. Some foreign operations have transactions denominated in currencies other than their functional currencies, primarily sales in U.S. dollars and Euros, creating exchange rate sensitivities.

Income Before Income Taxes. Interconnect segment income before income taxes increased \$8.5, million to \$13.7 million for the nine months ended January 29, 2011, compared to \$5.2 million for the nine months ended January 30, 2010, due to increased net sales and gross margins (including other income), no restructuring expenses, slightly offset by higher currency translation expense in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010.

**Net Sales.** Power Products segment net sales increased \$6.4 million, or 21.3%, to \$36.5 million for the nine months ended January 29, 2011, compared to \$30.1 million for the nine months ended January 30, 2010. Net sales have increased in the first nine months of fiscal 2011, as compared to the first nine months of fiscal 2010 by 0.6% in North America and net sales increased by 75.1% in Asia. The increase in Asia was due to an increased demand for our busbar products. In North America, higher demand for our flexible cabling was offset with lower demand for our busbar products. We also began selling busbar products in Europe in the first nine months of fiscal 2011, which accounted for \$1.6 million in net sales, compared to no net sales in the first nine months of fiscal 2010.

**Cost of Products Sold.** Power Products segment cost of products sold increased \$5.9 million, or 25.5%, to \$29.0 million for the nine months ended January 29, 2011, compared to \$23.1 million for the nine months ended January 30, 2010. The Power Products segment cost of products sold as a percentage of sales increased to 79.5% for the nine months ended January 29, 2011, from 76.7% for the nine months ended January 30, 2010. The first nine months of fiscal 2011 includes an inventory and equipment charge of \$0.4 million, relating to the customer cancellation of certain products manufactured in the U.S.. The increase in the cost of products sold as a percentage of sales is primarily due to the customer cancellation charge as well as increased costs due to new product development, partially offset with lower costs in our Asian business.

Gross Margins (including other income). Power Products segment gross margins (including other income) increased \$0.4 million, or 5.6%, to \$7.5 million for the nine months ended January 29, 2011, compared to \$7.1 million for the nine months ended January 30, 2010. Gross margins (including other income) as a percentage of net sales decreased to 20.5% for the nine months ended January 29, 2011 from 23.6% for the nine months ended January 30, 2010. The decrease in gross margins (including other income) as a percentage of sales is primarily due to the customer cancellation charge as well as increased costs due to new product development, partially offset with lower costs in our Asian business.

Table of Contents

**Restructuring.** During fiscal 2010, we completed all of our planned restructuring initiatives. During the first nine months of fiscal 2010, we recorded a restructuring charge of \$0.5 million, which consisted of \$0.1 million for employee severance and \$0.4 million relating to other costs.

**Selling and Administrative Expenses.** Selling and administrative expenses increased \$0.5 million, or 11.6%, to \$4.8 million for the nine months ended January 29, 2011, compared to \$4.3 million for the nine months ended January 30, 2010. Selling and administrative expenses increased due to increased selling and professional fees in our U.S.-based busbar and heat sink businesses in the first nine months of fiscal 2011, as compared to the first nine months of fiscal 2010. Selling and administrative expenses as a percentage of net sales decreased to 13.2% in the nine months ended January 29, 2011, from 14.3% for the nine months ended January 30, 2010.

**Other Expense, Net.** Other expense, net was \$0.2 million for the nine months ended January 29, 2011, compared to zero for the nine months ended January 30, 2010, primarily due to the weaker U.S. dollar compared to Czech koruna. The functional currencies of these operations are the British pound, Czech koruna, Euro, Singapore dollar and Swiss Franc. Some foreign operations have transactions denominated in currencies other than their functional currencies, primarily sales in U.S. dollars and Euros, creating exchange rate sensitivities.

**Income Before Income Taxes.** Power Products income before income taxes increased \$0.2 million, or 8.7%, to \$2.5 million for the nine months ended January 29, 2011, compared to \$2.3 million for the nine months ended January 30, 2010, due to higher net sales and gross profit, no restructuring charges, partially offset with customer cancellation charges, expenses related to new product development, higher selling and administrative expenses and higher currency exchange expenses in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010.

**Other Segment Results**

**Net Sales.** The Other segment net sales increased \$2.2 million, or 30.6%, to \$9.4 million for the nine months ended January 29, 2011, compared to \$7.2 million for the nine months ended January 30, 2010. Net sales from our

torque-sensing business increased 119.8% in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010. Net sales from our testing facilities decreased 10.6% in the first nine months of fiscal 2011, compared to the first nine months of fiscal 2010.

Cost of Products Sold. Other segment cost of products sold increased \$1.7 million to \$8.9 million for the nine months ended January 29, 2011, compared to \$7.2 million for the nine months ended October 31, 2009. Cost of products sold as a percentage of sales decreased to 94.7% in the first nine months of fiscal 2011, compared to 100.0% in the first nine months of

fiscal 2010.

**Gross Margins.** The Other segment gross margins increased to \$0.5 million for the nine months ended January 29, 2011, compared to break-even for the nine months ended January 30, 2010. Gross margins as a percentage of sales increased to 5.3% in the first nine months of fiscal 2011, compared to zero in the first nine months of fiscal 2010.

**Selling and Administrative Expenses.** Selling and administrative expenses decreased \$0.2 million, or 8.7%, to \$2.1 million for the nine months ended January 29, 2011, compared to \$2.3 million for the nine months ended January 30, 2010. Selling and administrative expenses as a percentage of net sales decreased to 22.3% for the nine months ended January 29, 2011 from 31.9% for the nine months ended January 30, 2010.

**Loss Before Income Taxes.** The Other segment loss before income taxes decreased \$0.7 million, or 30.4%, to \$1.6 million for the nine months ended January 29, 2011, compared to \$2.3 million for the nine months ended January 30, 2010, due to increased sales and gross profit and lower selling and administrative expenses.

## Liquidity and Capital Resources

We have historically financed our cash requirements through cash flows from operations. Our future capital requirements will depend on a number of factors, including our future net sales and the timing and rate of expansion of our business. We believe our current cash balances together with the cash flow expected to be generated from future domestic and foreign operations will be sufficient to support current operations.

On February 25, 2011, we entered into an Amended and Restated Credit Agreement with Bank of America, N.A., as administrative agent, and certain other financial institutions, which amends and restates our previous credit facility and extends the maturity to February 24, 2016. The new credit facility is in the aggregate principal amount of \$75.0 million, with an option to increase the principal amount by an additional \$25.0 million subject to customary conditions and approval of the lender(s) providing new commitment(s). The new credit facility provides for variable rates of interest based on the type of borrowing and the Company's debt to EBITDA financial ratio. The Amended and Restated Credit Agreement is guaranteed by certain of our U.S. subsidiaries.

We had an agreement with our primary bank for a revolving credit facility to provide up to \$75.0 million of ready financing for general corporate purposes, including acquisition opportunities that may become available. The bank credit agreement, which expired on January 31, 2011, required maintenance of certain financial ratios and a minimum net worth level. On January 28, 2011, we entered into an amendment to our credit agreement with our primary bank to extend the maturity date of the agreement from January 31, 2011 to February 28, 2011 in order for the parties to complete negotiation of and enter into a new credit agreement. At January 29, 2011, we were in compliance with the covenants of the agreement. During the first nine months of fiscal 2011, we had borrowings of \$18.0 million and payments of \$18.1 million, which includes \$0.1 million of interest. As of January 29, 2011, there were no outstanding balances due against the credit facility.

## Cash Flow Operating Activities

Net cash provided by operating activities increased \$3.7 million to \$19.6 million for the nine months ended January 29, 2011, compared to \$15.9 million for the nine months ended January 30, 2010. The increase in operating cash flow was primarily attributable to the increase in net income in the first nine months of fiscal 2011, as compared to the first nine months of fiscal 2010. Our trade accounts receivable, inventory and accounts payable in aggregate used \$17.5 million of cash flow during the first nine months of fiscal 2011, compared to \$9.5 million of cash used for the first nine months of fiscal 2010. The increased use of cash reflects increased accounts receivable levels, partially offset by increased accounts payable levels, associated with increased business activity. In the nine months ended January 29, 2011, cash flow from operations increased by \$13.1 million due to tax refunds received relating to prior

periods.

#### Cash Flow Investing Activities

Net cash used in investing activities decreased \$3.2 million to \$9.0 million for the nine months ended January 29, 2011, compared to \$5.8 million for the nine months ended January 30, 2010. Purchases of property, plant and equipment was \$9.8 million for the first nine months of fiscal 2011, compared to \$7.8 million for the first nine months of fiscal 2010. We invested \$0.8 million in a new business in the first nine months of fiscal 2011. In the first nine months of fiscal 2011, we received \$1.5 million for life insurance proceeds in connection with the deferred compensation plan, compared to \$2.4 million in the first nine months of fiscal 2010.

## Table of Contents

### Cash Flow Financing Activities

Net cash used for financing activities decreased \$1.2 million to \$6.6 million in the first nine months of fiscal 2011, compared to \$5.2 million for the first nine months of fiscal 2010. We paid dividends of \$7.7 million and \$7.8 million for the first nine months of fiscal 2011 and fiscal 2010, respectively. In addition, the first nine months of fiscal 2011 included \$1.1 million of proceeds for the exercise of stock options.

### Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, other than operating leases and purchase obligations entered into in the normal course of business.

### Item 3. Quantitative And Qualitative Disclosures About Market Risk

Certain of our foreign operations enter into transactions in currencies other than their functional currency, primarily the U.S. dollar and the Euro. A 10% change in foreign currency exchange rates from balance sheet date levels could impact our income before income taxes by \$3.8 million as of January 29, 2011 and \$4.7 million as of May 1, 2010. We also have foreign currency exposure arising from the translation of our net equity investment in our foreign operations to U.S. dollars. We generally view our investments in foreign operations with functional currencies other than the U.S. dollar as long-term. The currencies to which we are exposed are the British pound, Chinese yuan, Czech koruna, Euro, Indian Rupee, Mexican peso, and Singapore dollar. A 10% change in foreign currency exchange rates from balance sheet date levels could impact our net foreign investments by \$17.6 million at January 29, 2011 and \$12.8 million at May 1, 2010.

### Item 4. Controls And Procedures

As of the end of the period covered by this quarterly report on Form 10-Q, we performed an evaluation under the supervision and with the participation of the Company's management, including our Chief Executive Officer and our Chief Financial Officer, of our "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934). The Company's disclosure controls and procedures are designed to ensure that the information required to be disclosed by the Company in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's applicable rules and forms. As a result of this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective.

There have been no changes in our internal control over financial reporting during the quarter ended January 29, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

### Item 5. Other Information

On February 25, 2011, we entered into an Amended and Restated Credit Agreement with Bank of America, N.A., as administrative agent, and certain other financial institutions, which amends and restates our previous credit facility and extends the maturity to February 24, 2016. The new credit facility is in the aggregate principal amount of \$75.0 million, with an option to increase the principal amount by an additional \$25.0 million subject to customary conditions and approval of the lender(s) providing new commitment(s). The new credit facility provides for variable rates of interest based on the type of borrowing and the Company's debt to EBITDA financial ratio. The Amended and Restated Credit Agreement is guaranteed by certain of our U.S. subsidiaries.

The foregoing description of the Amended and Restated Credit Agreement is qualified in its entirety by reference to the full text of the Amended and Restated Credit Agreement, a copy of which is filed as Exhibit 10.1 hereto and is incorporated herein by reference.
