FORWARD-LOOKING STATEMENTS

The matters discussed in this Quarterly Report on Form 10-Q include "forward-looking statements" about the plans, strategies, objectives, goals or expectations of Spartan Stores, Inc. (together with its subsidiaries, "Spartan Stores"). These forward-looking statements are identifiable by words or phrases indicating that Spartan Stores or management "expects," "anticipates," "projects," "plans," "believes," "estimates," "intends," is "optimistic" or "confident" that a particular occurrence "will," "may," "could," "should" or "will likely" result or that a particular event "will," "may," "could," "should" or "will likely" occur in the future, that the "outlook" or "trend" is toward a particular result or occurrence, or similarly stated expectations. Accounting estimates, such as those described under the heading "Critical Accounting Policies" in Item 2 of this Form 10-Q, are inherently forward-looking.

In addition to other risks and uncertainties described in connection with the forward-looking statements contained in this Quarterly Report on Form 10-Q, Spartan Stores' Annual Report on Form 10-K for the year ended March 26, 2005 and other periodic reports filed with the Securities and Exchange Commission, there are many important factors that could cause actual results to differ materially. Our ability to strengthen our retail-store performance; maintain or grow sales; maintain or increase gross margin; maintain and improve customer and supplier relationships; successfully realize expected benefits of new relationships; realize growth opportunities; expand our customer base; anticipate and successfully respond to openings of competitors'; reduce operating costs; sell on favorable terms assets classified as held for sale; generate cash; continue to meet the terms of our debt covenants; and implement the other programs, plans, strategies, objectives, goals or expectations described in this Quarterly Report, our press releases and our public comments will be affected by changes in economic conditions generally or in the markets and geographic areas that we serve, adverse effects of the changing food and distribution industries and other factors including, but not limited to, those discussed below.

Anticipated future sales are subject to competitive pressures from many sources. Our Grocery Distribution and Retail businesses compete with many supercenters, warehouse discount stores, supermarkets, pharmacies and product manufacturers. Future sales will be dependent on the number of retail stores that we own and operate, our ability to retain and add to the retail stores to whom we distribute, competitive pressures in the retail industry generally and our geographic markets specifically and our ability to implement effective new marketing and merchandising programs. Competitive pressures in these and other business segments may result in unexpected reductions in sales volumes, product prices or service fees.

Our operating and administrative expenses may be adversely affected by unexpected costs associated with, among other factors: difficulties in the operation of our business segments; future business acquisitions; adverse effects on business relationships with independent retail grocery store customers; difficulties in the retention or hiring of employees; labor shortages, stoppages or disputes; business and asset divestitures; increased transportation or fuel costs; current or future lawsuits and administrative proceedings; and losses of, or financial difficulties of, customers or suppliers. Our future costs for pension and postretirement benefit costs may be adversely affected by changes in actuarial assumptions and methods, investment return and the composition of the group of employees and retirees covered, changes in our business that result in a withdrawal liability under multi-employer plans, and the actions and contributions of other employers who participate in multi-employer plans to which we contribute. Our operating and administrative expenses, net earnings and cash flow could also be adversely affected by changes in our sales mix. Our ongoing cost reduction initiatives and changes in our marketing and merchandising programs may not be as successful as we anticipate. Acts of terrorism or war have in the past and may in the future result in considerable economic and political uncertainties that could have adverse effects on consumer buying behavior, fuel costs, shipping and transportation, product imports and other factors affecting our company and the grocery industry generally. Our asset impairment and exit cost provisions are estimates and actual costs may be more or less than these estimates.

Our future interest expense and income also may differ from current expectations, depending upon, among other factors: the amount of additional borrowings; changes in our borrowing agreements; changes in the interest rate environment; and changes in the amount of fees received or paid. The availability of our secured loan agreement depends on compliance with the terms of the loan agreement.

This section is intended to provide meaningful cautionary statements for purposes of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. This should not be construed as a complete list of all economic, competitive, governmental, technological and other factors that could adversely affect our expected consolidated financial position, results of operations or liquidity. Other risk factors exist and new risk factors may emerge at any time. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as predictions of future results. We undertake no obligation to update or revise our forward-looking statements to reflect developments that occur or information obtained after the date of this Quarterly Report.

SPARTAN STORES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1**Basis of Presentation and Significant Accounting Policies**

The Consolidated Financial Statements include the accounts of Spartan Stores, Inc. and its subsidiaries ("Spartan Stores"). All significant intercompany accounts and transactions have been eliminated.

In the opinion of management, the accompanying consolidated financial statements, taken as a whole, contain all adjustments, which are of a normal recurring nature, necessary to present fairly the financial position of Spartan Stores as of September 10, 2005 and the results of its operations and cash flows for the interim periods presented. Interim results are not necessarily indicative of results for a full year.

Stock-Based Compensation

Spartan Stores has a stock incentive plan, which is more fully described in Note 10 of the 2005 Annual Report on Form 10-K. Spartan Stores accounts for the plan under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related Interpretations. No stock-based compensation cost for stock options is reflected in the Consolidated Statements of Earnings, as all options granted under the plan had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net earnings and earnings per share as if Spartan Stores had applied the fair value recognition principles of Statement of Financial Accounting Standards Statement No. 123, "Accounting for Stock-Based Compensation," to stock options granted to employees:

Reclassifications

Certain reclassifications have been made to the fiscal 2005 consolidated financial statements to conform to the fiscal 2006 presentation.

Note 2**New Accounting Standards**

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123(R), "Share-Based Payment" that will require compensation costs related to share-based payment transactions to be recognized in the consolidated financial statements. With limited exceptions, the amount of compensation cost will be measured based on the grant date fair value of the equity or liability instruments issued. In addition, liability awards will be remeasured each reporting period. Compensation cost will be recognized over the period that an employee provides services in exchange for the award. SFAS No. 123(R) replaces SFAS No. 123, and supercedes APB Opinion No. 25. This Statement becomes effective for Spartan Stores at the beginning of fiscal 2007. Spartan Stores expects that the impact of adopting SFAS No. 123(R) will be consistent with the pro forma expense that has been previously disclosed, adjusted for future grants, cancellations and exercises of stock options in accordance with the Statement.

In June 2005, the Emerging Issues Task Force ("EITF") reached a consensus on EITF Issue No. 05-6, "Determining the Amortization Period for Leasehold Improvements Purchased after Lease Inception or Acquired in a Business Combination" ("EITF 05-6"). EITF 05-6 requires that leasehold improvements acquired in a business combination be amortized over the shorter of the useful life of the assets or a term that includes required lease periods and renewals that are deemed to be reasonably assured at the date of acquisition. EITF 05-6 also requires that leasehold improvements that are placed in service significantly after and not contemplated at or near the beginning of the lease term be amortized over the shorter of the useful life of the assets or a term that includes required lease periods and renewals that are deemed to be reasonably assured at the date the leasehold improvements are purchased. EITF 05-6 is effective for Spartan Stores' fiscal quarter beginning September 11, 2005. The impact of EITF 05-6 is not expected to have a material effect on Spartan Stores' consolidated financial statements.

Note 3**Discontinued Operations**

Spartan Stores' former convenience distribution operations, insurance operations and certain of its retail, grocery distribution and real estate operations have been recorded as discontinued operations. Results of the discontinued operations are excluded from the accompanying notes to the consolidated financial statements for all periods presented, unless otherwise noted.

Discontinued operations had no sales during the second quarter and year-to-date periods ended September 10, 2005 and September 11, 2004. The operating losses in discontinued operations for the second quarters ended September 10, 2005 and September 11, 2004 of \$0.3 million and \$0.2 million were partially offset by income tax benefits of \$0.1 million for both periods. The operating losses in discontinued operations for the year-to-date periods ended September 10, 2005 and September 11, 2004 of \$0.6 million and \$0.5 million were partially offset by income tax benefits of \$0.2 million for both periods.

Total assets of discontinued operations decreased from \$6.1 million at March 26, 2005 to \$5.9 million at September 10, 2005. Total liabilities of discontinued operations decreased from \$14.4 million at March 26, 2005 to \$12.2 million at September 10, 2005.

Spartan Stores anticipates that it will be subject to a partial withdrawal liability from a multi-employer pension plan related to the 2003 closures of certain of its discontinued *Food Town* stores when a final determination is made after June 30, 2006. Recent estimates provided by the trustees of the multi-employer pension plan indicate that there will be an underfunded liability which we believe to have resulted from a change in actuarial assumptions, investment performance, other employers' withdrawals, or a combination of these factors, occurring subsequent to the closure of these stores. Spartan Stores intends to challenge such a determination prior to settling the partial withdrawal liability when assessed after June 2006. At this time the amount of the liability is not reasonably estimable, however, Spartan Stores does not expect it will exceed \$2.0 million. No provision for this potential liability has been included in the accompanying consolidated financial statements due to the inability to reasonably estimate the amount.

Note 4**Exit Costs**

The following table provides the activity of exit costs for fiscal year 2005 and the twenty-four weeks ended September 10, 2005. Exit costs recorded in the Consolidated Balance Sheets are included in Other accrued expenses in current liabilities and Other long-term liabilities based on when the obligations are expected to be paid.

Spartan Stores expects to contribute \$3.2 million to its defined benefit plans in fiscal 2006 to meet the minimum funding requirements. As of September 10, 2005 \$0.5 million has been contributed. In fiscal 2005, Spartan Stores contributed \$0.8 million to its defined benefit plans.

Note 6
Supplemental Cash Flow Information

Non-cash financing activities include the issuance of restricted stock to employees and directors of \$3.1 million for the year-to-date period ended September 10, 2005 of which \$0.2 million has been amortized to compensation expense. The remaining balance of \$2.9 million is included in deferred stock-based compensation in the Statement of Shareholders' Equity and will be amortized to expense over the vesting term.

Note 8**Subsequent Event**

On September 16, 2005, Spartan Stores sold a vacant parcel of land for \$2.3 million resulting in a pre-tax gain on sale of approximately \$1.4 million. The gain will be recorded in other income in the third quarter of Fiscal 2006.

In December 2004, Spartan Stores began a process of exploring strategic alternatives including mergers, acquisitions, or sale of the company. In February 2005, Spartan Stores retained the services of an investment banking firm to assist with this process. On September 30, 2005, the Board of Directors decided that the best course of action, at this time, is to continue its present strategic course including improving category management, new store construction or expansions, new fuel centers and pharmacies, expanding its distribution customer base and pursuing opportunistic retail acquisitions of existing distribution customer stores and other operators that fill in the company's geographic markets. In the second quarter of fiscal 2006, expenses of approximately \$.6 million were incurred for advisory fees related to the evaluation of strategic alternatives. An additional \$.3 million to \$.5 million for residual advisory fees is expected to be recorded in Selling, general and administrative expenses in the third quarter of Fiscal 2006.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Executive Overview

Spartan Stores is a leading regional grocery distributor and grocery retailer, operating principally in Michigan and Ohio.

We currently operate two reportable business segments: Grocery Distribution and Retail. Our Grocery Distribution segment provides a full line of grocery, general merchandise, frozen and perishable items to over 350 independently owned grocery stores and 73 corporate owned stores. Our Retail segment operates 54 retail supermarkets in Michigan under the banners *Family Fare Supermarkets* and *Glen's Markets*, 19 deep-discount food and drug stores in Ohio and Michigan under the banner *The Pharm*, and 3 fuel centers under the banners *Family Fare Quick Stop* and *Glen's Quick Stop*. Our retail supermarkets have a "neighborhood market" focus to distinguish them from supercenters and limited assortment stores. Our deep-discount food and drug stores offer a unique combination of full-service pharmacy, general merchandise products and basic food offerings.

Our sales and operating performance vary with seasonality. Our first and fourth quarters are typically our slowest sales quarters and therefore operating results are generally lower during these two quarters. Additionally, these two quarters can be affected based on the timing of the Easter holiday, which is a strong sales week. All quarters are 12 weeks, except for our third quarter, which is 16 weeks and includes the Thanksgiving and Christmas holidays. Most of our northern Michigan stores are dependent on tourism and, therefore, most affected by seasons and weather patterns, including, but not limited to, the temperature and rainfall during the summer months and to a lesser extent snowfall during the winter months.

Results of Operations

The following table sets forth items from our Consolidated Statements of Earnings as a percentage of net sales and the year-to-year percentage change in dollar amounts:

Net Sales - Net sales for the quarter ended September 10, 2005 ("second quarter") decreased \$1.2 million, or 0.2 percent, from \$486.7 million in the quarter ended September 11, 2004 ("prior year second quarter") to \$485.5 million. Net sales for the year-to-date period ended September 10, 2005 ("current year-to-date") decreased \$16.2 million, or 1.7 percent, from \$961.0 million in the prior year-to-date period ended September 11, 2004 ("prior year-to-date") to \$944.9 million.

Net sales for the second quarter in our Grocery Distribution segment increased \$9.2 million, or 3.6 percent, from \$254.5 million in the prior year second quarter to \$263.7 million. Net sales for the current year-to-date period increased \$5.1 million, or 1.0 percent, from \$515.3 million in the prior year-to-date period to \$520.4 million. The sales increase in the second quarter was primarily due to the addition of two new customers and the expansion of sales to existing customers. These new supply relationships increased the company's distribution base by 27 stores.

Net sales for the second quarter in our Retail segment decreased \$10.3 million, or 4.4 percent, from \$232.2 million in the prior year second quarter to \$221.9 million. Net sales for the year-to-date period decreased \$21.2 million, or 4.8 percent, from \$445.7 million in the prior year-to-date period to \$424.5 million. The sale of a single store joint venture in the third quarter of fiscal 2005 and the closure of two *The Pharm* retail stores contributed \$7.2 million and \$13.7 million to the second quarter and year-to-date decreases, respectively. The remaining decrease is primarily due to competitive supercenter openings. Offsetting these decreases were incremental sales from fuel centers. Comparable store sales at supermarkets declined 2.3 percent during the second quarter, while comparable store sales at our *The Pharm* deep-discount food and drug stores declined 0.4 percent. Comparable store sales at supermarkets not affected by competitive openings increased 0.6 percent during the second quarter. Total retail comparable store sales declined 2.0 percent in the second quarter, while fuel center sales contributed a positive 1.2 percent to the total. For the current year-to-date period, comparable store sales at supermarkets declined 2.1 percent, while comparable store sales at our *The Pharm* deep-discount food and drug stores declined 3.6 percent. Comparable store sales at supermarkets not affected by competitive openings increased 1.1 percent during the current year-to-date period. Total retail comparable store sales declined 2.4 percent in the current year-to-date period, while fuel center sales contributed a positive 1.1 percent to the total.

Gross Margin - Gross margin represents sales less cost of sales, which include purchase costs and promotional allowances. Vendor allowances that relate to our buying and merchandising activities consist primarily of promotional allowances, which are generally allowances on purchased quantities and, to a lesser extent, slotting allowances, which are billed to vendors for our merchandising costs, such as setting up warehouse infrastructure. Vendor allowances are recognized as a reduction in cost of sales when the product is sold. Lump sum payments received for multi-year contracts are amortized over the life of the contracts based on contractual terms.

Gross margin for the second quarter decreased \$1.6 million, or 1.6 percent, from \$95.1 million in the prior year second quarter to \$93.5 million. As a percent of net sales, gross margin for the second quarter decreased to 19.3 percent from 19.5 percent. Gross margin for the year-to-date period decreased \$1.6 million, or 0.9 percent, from \$181.0 million in the prior year-to-date period to \$179.4 million. As a percent of net sales, gross margin for the year-to-date period increased to 19.0 percent from 18.8 percent. A greater percentage of consolidated sales being generated from the lower margin Grocery Distribution segment decreased consolidated gross margin by 30 basis points for the second quarter. Partially offsetting this decrease was an improvement of 10 basis points at the Retail segment due to improvement in inventory shrink. On a year-to-date basis, the improvement in inventory shrink at the Retail segment increased gross margin by 30 basis points. The increase in percentage of consolidated sales attributed to the Grocery Distribution segment partially offset the improvement in inventory shrink.

Selling, General and Administrative Expenses - Selling, general and administrative ("SG&A") expenses consist primarily of salaries and wages, employee benefits, warehousing costs, store occupancy costs, utilities, equipment rental, depreciation and other administrative costs.

Edgar Filing: SPARTAN STORES INC - Form 10-Q

SG&A expenses for the second quarter decreased \$0.5 million, or 0.7 percent, from \$81.8 million in the prior year second quarter to \$81.3 million. As a percent of net sales, SG&A expenses were 16.7% for the current quarter compared to 16.8% in the prior year second quarter. SG&A expenses for the year-to-date period decreased

\$1.8 million, or 1.1 percent, from \$162.9 million in the prior year-to-date period to \$161.1 million. As a percent of net sales, SG&A expenses were 17.1 percent year-to-date versus 16.9 percent for the prior year-to-date period. The decreases in SG&A are primarily due to improvements in store labor efficiency at the Retail segment resulting in a decrease in store labor expense of \$1.8 million and \$3.7 million for the second quarter and year-to-date period, respectively, (including the effect of the divestiture of the retail store joint venture in the third quarter of fiscal 2005 of \$1.1 million and \$1.4 million, respectively). The store labor improvements were partially offset by increased compensation and benefit costs, utilities and bank card fees, professional fees of \$.6 million related to the evaluation of strategic alternatives and the absence of a distribution customer contract termination payment of \$1.3 million received in the prior year.

Interest Expense - Interest expense for the second quarter decreased \$0.5 million, or 22.6 percent, from \$2.3 million in the prior year second quarter to \$1.8 million. Interest expense for the year-to-date period decreased \$1.1 million, or 22.7 percent, from \$4.6 million in the prior year second quarter to \$3.5 million. The decrease in interest expense is primarily due to lower total average borrowings. Total average borrowings decreased \$28.4 million from \$114.6 million in the prior year to \$86.2 million as a result of debt repayments resulting primarily from cash flow from operations.

Income Taxes - The effective tax rate for the second quarter and year-to-date period ended September 10, 2005 is 32.6% and 33.1%. The slightly lower rate is due primarily to permanent tax deductions for restricted stock expense being greater than the related expense recorded in the consolidated financial statements.

Discontinued Operations

Our former convenience distribution operations, insurance operations and certain of our retail, grocery distribution and real estate operations have been recorded as discontinued operations. Results of the discontinued operations are excluded from the accompanying notes to the consolidated financial statements for all periods presented, unless otherwise noted.

Discontinued operations had no sales during the second quarter and year-to-date periods ended September 10, 2005 and September 11, 2004. The operating losses in discontinued operations for the second quarters ended-September 10, 2005 and September 11, 2004 of \$0.3 million and \$0.2 million were partially offset by income tax benefits of \$0.1 million for both periods. The operating losses in discontinued operations for the year-to-date periods ended September 10, 2005 and September 11, 2004 of \$0.6 million and \$0.5 million were partially offset by income tax benefits of \$0.2 million for both periods.

Total assets of discontinued operations decreased from \$6.1 million at March 26, 2005 to \$5.9 million at September 10, 2005. Total liabilities of discontinued operations decreased from \$14.4 million at March 26, 2005 to \$12.2 million at September 10, 2005.

We anticipate that we will be subject to a partial withdrawal liability from a multi-employer pension plan related to the 2003 closures of certain of our discontinued *Food Town* stores when a final determination is made after June 30, 2006. Recent estimates provided by the trustees of the multi-employer pension plan indicate that there will be an underfunded liability which we believe to have resulted from a change in actuarial assumptions, investment performance, other employers' withdrawals, or a combination of these factors, occurring subsequent to the closure of these stores. We intend to challenge such a determination prior to settling the partial withdrawal liability when assessed after June 2006. At this time the amount of the liability is not reasonably estimable, however, we do not expect it will exceed \$2.0 million. No provision for this potential liability has been included in the accompanying consolidated financial statements due to the inability to reasonably estimate the amount.

Liquidity and Capital Resources

The following table summarizes our consolidated statements of cash flows for the year-to-date and prior year-to-date periods:

(In thousands)

	September 10, 2005	September 11, 2004
Net cash provided by operating activities	\$ 22,375	\$ 32,778
Net cash used in investing activities	(8,757)	(7,833)
Net cash used in financing activities	(12,442)	(21,778)
Net cash used in discontinued operations	(2,562)	(2,555)
	<hr/>	<hr/>
Net (decrease) increase in cash and cash equivalents	(1,386)	612
Cash and cash equivalents at beginning of year	14,880	12,838
	<hr/>	<hr/>
Cash and cash equivalents at end of period	\$ 13,494	\$ 13,450
	<hr/>	<hr/>

Net cash provided by operating activities decreased from the prior year-to-date period primarily due to payment of fiscal 2005 bonuses, customer supply fees and an increase in inventory.

As of September 10, 2005, we have available a Federal income tax net operating loss carryforward of approximately \$25.8 million. As a result, no regular Federal income taxes have been paid in Fiscal 2006 nor do we expect to pay any for the remainder of Fiscal 2006. We do anticipate paying approximately \$.4 million in Alternative Minimum Tax in Fiscal 2006. No Federal income taxes were paid in Fiscal 2005.

Net cash used in investing activities increased during the current fiscal year primarily due to increased capital expenditure activity. Our Grocery Distribution and Retail segments utilized 47% and 53%, respectively, of our capital expenditure dollars. Expenditures were used for new equipment, software and store remodels and refurbishments. Under the terms of our credit facility, should our available borrowings fall below certain levels, our capital expenditures would be restricted each fiscal year. We expect capital expenditures to range from \$25.0 million to \$30.0 million for fiscal 2006, which would be within these restrictions. On September 16, 2005, we sold a vacant parcel of land for \$2.3 million resulting in a pre-tax gain on sale of \$1.4 million. The sale will be recorded in the third quarter of Fiscal 2006.

Net cash used in financing activities includes cash paid and received from our long-term borrowings. Our current maturities of long-term debt at September 10, 2005 are \$1.6 million. Our ability to borrow additional funds is governed by the terms of our credit facilities.

Net cash used in discontinued operations contains the net cash flows of our discontinued operations and consists primarily of the payment of store exit cost reserves and long-term debt. We expect the cash usage of our discontinued operations will be approximately \$3.0 million in fiscal 2006 for the payment of store exit costs and other liabilities.

Our principal sources of liquidity are cash flows generated from operations and our amended \$215.0 million credit facility. The credit facility matures December 2008, and is secured by substantially all of our assets. We had available borrowings of \$87.6 million at September 10, 2005 and maximum availability of \$97.6 million, which

Edgar Filing: SPARTAN STORES INC - Form 10-Q

exceeds the minimum excess availability levels, as defined in the credit agreement. We believe that cash generated from operating activities and available borrowings under the credit facility are sufficient to support current operations.

Our current ratio was 1.23:1.00 at September 10, 2005 versus 1.21:1.00 at March 26, 2005 and our investment in working capital increased to \$32.2 million at September 10, 2005 from \$30.3 million at March 26, 2005.

Our debt to total capital ratio at September 10, 2005 was .38:1.00 versus .43:1.00 at March 26, 2005. This improvement was primarily due to reducing debt by \$13.3 million and the year-to-date net earnings of \$9.5 million.

For information on contractual obligations, see our Annual Report on Form 10-K for the fiscal year ended March 26, 2005. At September 10, 2005, there have been no material changes to our significant contractual obligations outside the ordinary course of business.

New Accounting Standards

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123(R), "Share-Based Payment" that will require compensation costs related to share-based payment transactions to be recognized in the consolidated financial statements. With limited exceptions, the amount of compensation cost will be measured based on the grant date fair value of the equity or liability instruments issued. In addition, liability awards will be remeasured each reporting period. Compensation cost will be recognized over the period that an employee provides services in exchange for the award. SFAS No. 123(R) replaces SFAS No. 123, and supercedes APB Opinion No. 25. This Statement becomes effective for Spartan Stores at the beginning of fiscal 2007. We expect that the impact of adopting SFAS No. 123(R) will be consistent with the pro forma expense that has been previously disclosed, adjusted for future grants, cancellations and exercises of stock options in accordance with the Statement.

In June 2005, the Emerging Issues Task Force ("EITF") reached a consensus on EITF Issue No. 05-6, "Determining the Amortization Period for Leasehold Improvements Purchased after Lease Inception or Acquired in a Business Combination" ("EITF 05-6"). EITF 05-6 requires that leasehold improvements acquired in a business combination be amortized over the shorter of the useful life of the assets or a term that includes required lease periods and renewals that are deemed to be reasonably assured at the date of acquisition. EITF 05-6 also requires that leasehold improvements that are placed in service significantly after and not contemplated at or near the beginning of the lease term be amortized over the shorter of the useful life of the assets or a term that includes required lease periods and renewals that are deemed to be reasonably assured at the date the leasehold improvements are purchased. EITF 05-6 is effective for our fiscal quarter beginning September 11, 2005. The impact of EITF 05-6 is not expected to have a material effect on our consolidated financial statements.

Critical Accounting Policies

This discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts. On an ongoing basis, we evaluate our estimates, including those related to bad debts, inventories, intangible assets, assets held for sale, long-lived assets, income taxes, self-insurance reserves, exit costs, retirement benefits and contingencies and litigation. We base our estimates on historical experience and on various other assumptions and factors that we believe to be reasonable under the circumstances. Based on our ongoing review, we make adjustments we consider appropriate under the facts and circumstances. We have discussed the development, selection and disclosure of these estimates with the Audit Committee. The accompanying condensed consolidated financial statements are prepared using the same critical accounting policies discussed in our Annual Report on Form 10-K for the fiscal year ended March 26, 2005.

ITEM 3. Quantitative and Qualitative Disclosure About Market Risk

There have been no material changes in market risk of Spartan Stores from the end of its preceding fiscal year to the date of the interim consolidated balance sheet included in this filing.

ITEM 4. Controls and Procedures

An evaluation of the effectiveness of the design and operation of Spartan Stores' disclosure controls and procedures (as currently defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) was performed as of September 10, 2005 (the "Evaluation Date"). This evaluation was performed under the supervision and with the participation of Spartan Stores' management, including its Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"). As of the Evaluation Date, Spartan Stores' management, including the CEO and CFO, concluded that Spartan Stores' disclosure controls and procedures were effectively designed and operated to cause material information relating to Spartan Stores (including its consolidated subsidiaries) required to be included in Spartan Stores' periodic filings with the Securities and Exchange Commission to be accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure. During the last fiscal quarter there was no change in Spartan Stores' internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, Spartan Stores' internal control over financial reporting.

OTHER INFORMATION

ITEM 4. Submission of Matters to a Vote of Security Holders

Spartan Stores held its 2005 annual meeting on August 10, 2005. At the meeting, the following matters were submitted to a vote of the shareholders:

1. election of three directors;
2. approval of the Annual Executive Incentive Plan of 2005;
3. approval of the Stock Incentive Plan of 2005; and
4. ratification of the selection of Deloitte & Touche LLP as Spartan Stores' independent auditors for fiscal 2006.

The following three persons were duly elected at the meeting:

	<u>Term Expiring</u>	<u>Votes For</u>	<u>Votes Withheld</u>
Elizabeth A. Nickels	2008	16,123,901	1,890,136
Kenneth T. Stevens	2008	16,121,022	1,893,015
James F. Wright	2008	16,121,102	1,892,935

The following five persons continue to serve as directors of Spartan Stores: Craig C. Sturken and Gregory P. Josefowicz are currently serving terms that will expire at Spartan Stores' 2007 annual meeting of shareholders and M. Shân Atkins, Dr. Frank M. Gambino and Timothy J. O'Donovan are currently serving terms that will expire at Spartan Stores' 2006 annual meeting of shareholders.

The shareholders voted on proposals to approve the Annual Executive Incentive Plan of 2005 and the Stock Incentive Plan of 2005 and to ratify the selection of Deloitte & Touche LLP as Spartan Stores' independent auditors for fiscal year 2006. With respect to these proposals, shares were voted as follows:

<u>Proposal</u>	<u>For</u>	<u>Against</u>	<u>Abstain</u>	<u>Broker Non-Votes</u>
Proposal to approve the Annual Executive Incentive Plan of 2005.	10,559,674	776,333	226,555	6,451,475
