Item 8.01 Other Events

James B. Morgan, Chief Executive Officer and a Director of Daktronics, Inc. (the "Company"), has entered into a Rule 10b5-1 trading plan to sell up to a total of 100,000 shares of the Company's common stock. Portions of the shares may be sold any time the stock achieves certain prearranged minimum prices and sales may take place beginning on September 3, 2007 and ending on February 28, 2008 unless the plan is terminated sooner. The amount of shares sold on any single day is limited to a maximum of 10,000 shares. Mr. Morgan will not have any control over the timing of any sales under the plan and there can be no assurance that the shares covered by the plan actually will be sold. Mr. Morgan entered into the plan in order to fund tax liabilities related to option exercises and will continue to have a significant ownership interest in the Company because these shares represent less than 7% of all shares beneficially owned by him and are offset by option exercises. As such, these sales are not significant to his total interest in the Company.

This trading plan is intended to comply with Rule 10b5-1 of the Securities Exchange Act of 1934, as amended, and the Company's insider trading policy. Rule 10b5-1 allows corporate insiders to establish prearranged written plans to buy or sell a specified number of shares of a company's stock over a set period of time. A plan must be entered into in good faith at a time when the insider is not in possession of material, nonpublic information. Subsequent receipt by the insider of material, nonpublic information will not prevent transactions under the plans from being executed.

SIGNATURE
