THE MARCUS CORPORATION

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE 13 AND 26 WEEKS ENDED NOVEMBER 27, 2008 (Unaudited)

1. General

Accounting Policies Refer to the Company s audited financial statements (including footnotes) for the fiscal year ended May 29, 2008, contained in the Company s Form 10-K Annual Report for such year, for a description of the Company s accounting policies.

Basis of Presentation The consolidated financial statements for the 13 and 26 weeks ended November 27, 2008 and November 29, 2007 have been prepared by the Company without audit. In the opinion of management, all adjustments, consisting only of normal recurring adjustments necessary to present fairly the unaudited interim financial information at November 27, 2008, and for all periods presented, have been made. The results of operations during the interim periods are not necessarily indicative of the results of operations for the entire year or other interim periods.

Comprehensive Income Total comprehensive income for the 13 and 26 weeks ended November 27, 2008 was \$998,000 and \$13,252,000, respectively. Total comprehensive income for the 13 and 26 weeks ended November 29, 2007 was \$2,727,000 and \$14,371,000, respectively.

Accumulated other comprehensive income (loss) consists of the following, all presented net of tax:

	November 27, 2008		May 29, 2008
		(in thous	sands)
Unrealized gain (loss) on available for sale investments	\$	64 \$	\$ (341)
Unrecognized loss on terminated interest rate swap agreement		(295)	(335)
Unrealized gain (loss) on interest rate swap agreement		(381)	141
Net actuarial loss	(2	2,297)	(2,297)
	\$ (2	2,909) \$	\$ (2,832)

Earnings Per Share Net earnings per share (EPS) of Common Stock and Class B Common Stock is computed in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share (SFAS No. 128) using the two-class method. Under the provisions of SFAS No. 128, basic net earnings per share is computed by dividing net earnings by the weighted-average number of common shares outstanding less any non-vested stock. Diluted net earnings per share is computed by dividing net earnings by the weighted-average number of common shares outstanding, adjusted for the effect of dilutive stock options and non-vested stock using the treasury method. Convertible Class B Common Stock is reflected on an if-converted basis. The computation of the diluted net earnings per share of Common Stock assumes the conversion of Class B Common Stock, while the diluted net earnings per share of Class B Common Stock does not assume the conversion of those shares.

Holders of Common Stock are entitled to cash dividends per share equal to 110% of all dividends declared and paid on each share of Class B Common Stock. As such, and in accordance with Emerging Issues Task Force 03-06, *Participating Securities and the Two-Class Method under FASB Statement No. 128* (EITF 03-06), the undistributed earnings for each period are allocated based on the proportionate share of entitled cash dividends. The computation of diluted net earnings per share of Common Stock assumes the conversion of Class B Common Stock and, as such, the undistributed earnings are equal to net earnings for that computation.

7

The following table illustrates the computation of Common Stock and Class B Common Stock basic and diluted earnings per share for net earnings and provides a reconciliation of the number of weighted-average basic and diluted shares outstanding:

13 Weeks	13 Weeks	26 Weeks	26 Weeks
Ended	Ended	Ended	Ended

Class B Common Stock	\$	0.03	\$	0.09	\$	0.42	\$	0.45				

Investments Available for sale securities are stated at fair market value, with unrealized gains and losses reported as a component of shareholders equity. The cost of securities sold is based upon the specific identification method. Realized gains and losses and declines in value judged to be other-than-temporary are included in investment income (loss). The Company evaluates securities for other-than-temporary impairment on a periodic basis and principally considers the type of security, the severity of the decline in fair value and the duration of the decline in fair value in determining whether a security s decline in fair value is other-than-temporary. During the 13 weeks ended November 27, 2008, the Company recognized a \$1,424,000 other-than-temporary investment loss on securities whose market value was substantially below cost.

8

Defined Benefit Plan The components of the net periodic pension cost of the Company s unfunded nonqualified, defined-benefit plan are as follows:

	13 Weeks Ended November 27, 2008		13 Weeks Ended November 29, 2007		26 Weeks Ended November 27, 2008		26 Weeks Ended fovember 29, 2007

Net amortization of prior service cost, transition obligation and actuarial loss		28		17	57		34
Net periodic pension cost	\$	469	\$	395	\$ 939	\$	789

2. Derivatives and Hedging Activities

The Company utilizes derivatives principally to manage market risks and reduce its exposure resulting from fluctuations in interest rates. The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objectives and strategies for undertaking various hedge transactions.

The Company entered into an interest rate swap agreement on February 1, 2008 covering \$25,170,000 of floating rate debt, which expires February 1, 2011, and requires the Company to pay interest at a defined rate of 3.24% while receiving interest at a defined variable rate of one-month LIBOR (1.90% at November 27, 2008). Per SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, the Company must recognize derivatives as either assets or liabilities on the balance sheet at fair value. The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and on the type of hedging relationship. Derivatives that do not qualify for hedge accounting must be adjusted to fair value through earnings. The

Company s interest rate swap agreement is considered effective and qualifies as a cash flow hedge. For derivatives that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive loss and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. For the 13 and 26 weeks ended November 27, 2008, the interest rate swap was considered effective and had no effect on earnings. The decrease in fair value of the interest rate swap of \$701,000 (\$428,000 net of tax) and \$860,000 (\$522,000 net of tax), is included in accumulated other comprehensive loss for the 13 and 26 weeks ended November 27, 2008, respectively. The Company does not expect the interest rate swap to have any effect on earnings within the next 12 months.

On February 29, 2008, the Company also entered into an interest rate swap agreement covering \$25,000,000 of floating rate debt, which required the Company to pay interest at a defined rate of 3.49% while receiving interest at a defined variable rate of three-month LIBOR. The interest rate swap agreement was considered effective and qualified as a cash flow hedge. On March 19, 2008, the Company terminated the swap, at which time cash flow hedge accounting ceased. The fair value of the swap on the date of termination was a liability of \$567,000 (\$338,000 net of tax). For the 13 and 26 weeks ended November 27, 2008, the Company reclassified \$28,000 (\$17,000 net of tax) and \$66,000 (\$39,000 net of tax), respectively, from other comprehensive loss to interest expense. The remaining loss at November 27, 2008 in other comprehensive loss will be reclassified into earnings as interest expense through April 15, 2013, the remaining life of the original hedge. The Company expects to reclassify approximately \$113,000 (\$68,000 net of tax) of loss into earnings within the next 12 months.

9

3. Fair Value Measurements

The Company adopted SFAS No. 157, *Fair Value Measurements* (SFAS No. 157), on May 30, 2008 as it relates to financial assets and liabilities and the impact of this adoption was not material to the Company s financial statements. SFAS No. 157 will be effective for the Company s nonfinancial assets and liabilities on May 29, 2009, the first day of the Company s next fiscal year. SFAS No. 157 applies to other accounting pronouncements that require or permit fair value measurements, defines fair value based upon an exit price model, establishes a framework for measuring fair value, and expands the applicable disclosure requirements. SFAS No. 157 indicates, among other things, that a fair value measurement assumes that a transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability.

SFAS No. 157 establishes a fair value hierarchy for the pricing inputs used to measure fair value. The Company s assets and liabilities measured at fair value are classified in one of the following categories:

<u>Level 1</u> Assets or liabilities for which fair value is based on quoted prices in active markets for identical instruments as of the reporting date. At November 27, 2008, the Company s \$211,000 of available for sale securities were valued using Level 1 pricing inputs.

<u>Level 2</u> The \$623,000 liability related to the Company s interest rate hedge contract was based on valuation models for which pricing inputs were either directly or indirectly observable as of the reporting date.

<u>Level 3</u> Assets or liabilities for which fair value is based on valuation models with significant unobservable pricing inputs and which result in the use of management estimates. At November 27, 2008, none of the Company s assets or liabilities were valued using Level 3 pricing inputs.

4. Income Taxes

The Company s effective income tax rate for the 26 weeks ended November 27, 2008 and November 29, 2007 was 39.2% and 40.6%, respectively. The decrease in the effective rate is primarily due to the decrease in the amount of unrecognized tax benefits resulting from a lapse of the applicable statute of limitations.

5. Contingency

The Company has approximately five years remaining on a ten and one half-year office lease. On July 7, 2005, the lease was amended in order to exit leased office space for the Company s former limited-service lodging division. To induce the landlord to amend the lease, the Company guaranteed the lease obligations of the new tenant of the relinquished space throughout the remaining term of the lease. The maximum amount of future payments the Company could be required to pay if the new tenant defaults on its lease obligations was approximately \$2,304,000 as of November 27, 2008.

6. Business Segment Information

The Company s primary operations are reported in the following business segments: Theatres and Hotels/Resorts. Corporate items include amounts not allocable to the business segments. Corporate revenues consist principally of rent and the corporate operating loss includes general corporate expenses. Corporate information technology costs and accounting shared services costs are allocated to the business segments based upon several factors, including actual usage and segment revenues.

Following is a summary of business segment information for the 13 and 26 weeks ended November 27, 2008 and November 29, 2007 (in thousands):

THE MARCUS CORPORATION

Item 2. Management s Discussion and Analysis of Results of Operations and Financial Condition

Special Note Regarding Forward-Looking Statements

Certain matters discussed in this Management's Discussion and Analysis of Results of Operations and Financial Condition are forward-looking statements' intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements may generally be identified as such because the context of such statements include words such as we believe, anticipate, expect or words of similar import. Similarly, statements that describe our future plans, objectives or goals are also forward-looking statements. Such forward-looking statements are subject to certain risks and uncertainties which may cause results to differ materially from those expected, including, but not limited to, the following: (1) the availability, in terms of both quantity and audience appeal, of motion pictures for our theatre division, as well as other industry dynamics such as the maintenance of a suitable window between the date such motion pictures are released in theatres and the date they are released to other distribution channels; (2) the effects of increasing depreciation expenses, reduced operating profits during major property renovations, and preopening and start-up costs due to the capital intensive nature of our businesses; (3) the effects of adverse economic conditions in our markets, particularly with respect to our hotels and resorts division; (4) the effects of adverse weather conditions, particularly during the winter in the Midwest and in our other markets; (5) the effects on our occupancy

and room rates from the relative industry supply of available rooms at comparable lodging facilities in our markets; (6) the effects of competitive conditions in our markets; (7) our ability to identify properties to acquire, develop and/or manage and continuing availability of funds for such development; and (8) the adverse impact on business and consumer spending on travel, leisure and entertainment resulting from terrorist attacks in the United States, the United States responses thereto and subsequent hostilities. Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are made only as of the date of this Form 10-Q and we undertake no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

RESULTS OF OPERATIONS

General

We report our consolidated and individual segment results of operations on a 52-or-53-week fiscal year ending on the last Thursday in May. Fiscal 2009 is a 52-week year, as was fiscal 2008. We divide our fiscal year into three 13-week quarters and a final quarter consisting of 13 or 14 weeks. Our primary operations are reported in the following two business segments: movie theatres and hotels and resorts.

The following table sets forth revenues, operating income, other income (expense), net earnings and earnings per common share for the comparable second quarter and first half of fiscal 2009 and 2008 (in millions, except for per share and variance percentage data):

12

		Second Quarter									First Half						
	_					Varia	ance				Variance						
	F	F2009		F2008		Amt.	Pct.	F2009	F2008		Amt.		Pct.				
Revenues	\$	87.9	\$	83.4	\$	4.5	5.4% \$	208.3	\$	195.6	\$	12.7	6.5%				
Operating income		8.3		8.6		(0.3)	-3.4%	32.3		32.2		0.1	0.4%				
Other income (expense)		(6.8)		(3.7)		(3.1)	-82.7%	(10.4)		(7.5)		(2.9)	-38.6%				
Net earnings	\$	0.9	\$	2.9	\$	(2.0)	-69.5% \$	13.3	\$	14.7	\$	(1.4)	-9.1%				
Net earnings per common																	
share - diluted:	\$	0.03	\$	0.10	\$	(0.07)	-70.0% \$	0.45	\$	0.48	\$	(0.03)	-6.3%				

Revenues increased in our theatre division during the second quarter and first half of fiscal 2009 compared to the same periods last year, offsetting decreases in revenues from our hotels and resorts division. Our total operating income (earnings before other income/expense and income taxes) decreased slightly during the second quarter and was essentially even through the first half of fiscal 2009 compared to the same periods last year due to reduced operating results from our hotels and resorts division, offsetting significantly improved operating results from our theatre division. The theatre division operating results during both periods in fiscal 2009 were favorably impacted by new screens acquired during the fourth quarter of fiscal 2008 and an overall stronger slate of film product. Our hotels and resorts division reported decreased fiscal 2009 second quarter and first half revenues and operating income compared to the same periods last year due primarily to the impact of reduced occupancy rates resulting from reduced business and consumer spending on travel and leisure due to the current economic environment. Significant unusual investment losses and losses on property, equipment and other assets during the fiscal 2009 second quarter resulted in an overall decrease in our fiscal 2009 second quarter and first half net earnings compared to the same periods last year.

We recognized investment losses of \$2.0 million and \$1.7 million during the second quarter and first half of fiscal 2009, respectively, compared to approximately \$340,000 and \$700,000 of investment income during the same periods last year. The significant decrease in investment income during the fiscal 2009 periods was primarily the result of two unusual investment losses reported during our second quarter. We recognized a \$1.4 million pre-tax investment loss on securities held whose decline in fair value we deemed to be other than temporary. Prior to the fiscal 2009 second quarter, losses on these available for sale investments had previously been included in other comprehensive loss in shareholders equity. In addition, we reported an \$800,000 pre-tax investment loss during the fiscal 2009 second quarter related to loans to and investments in a former Baymont Inns & Suites joint venture that currently owns real estate that has declined in value because of current commercial real estate market conditions. We have a very limited amount of these types of investments and our exposure to additional losses related to securities and joint ventures is not significant. For the remainder of fiscal 2009, our investment income will likely remain slightly lower than last year s comparative quarters due to expected reduced interest income from our declining balance of timeshare notes receivable.

Our interest expense totaled \$3.6 million and \$7.4 million for the second quarter and first half of fiscal 2009, respectively, compared to \$3.8 million and \$7.9 million during the same periods last year. The decrease in interest expense during our fiscal 2009 periods was the result of a lower average interest rate, as our total borrowings in fiscal 2009 were actually higher than last year due to our recent theatre acquisition. Our

General 11

borrowing levels typically increase later in our fiscal year as our operating cash flows decline during our slower operating months. That may result in a slight increase in our interest expense during subsequent quarters of fiscal 2009 compared to the first two quarters of this year, depending upon our capital expenditure levels during this same time period.

13

We reported losses on disposition of property, equipment and other assets of \$1.1 million and \$1.2 million during the fiscal 2009 second quarter and first half, respectively, compared to losses of \$163,000 and \$107,000 during the same periods last year. During our fiscal 2009 second quarter, we reported a loss of approximately \$1.1 million related to an adjustment of prior pro-rated gains recorded on the sale of condominium units at our Platinum Hotel & Spa in Las Vegas, Nevada. With approximately 94% of the units sold, prior gains were recorded on a percentage of completion method based upon estimated total proceeds once all 255 units were sold. As a result of the current economic environment and its impact on Las Vegas real estate values, we have lowered our estimated total proceeds which we expect to receive when the remaining 16 units are sold. Our pro-rated gain on sale of the previous units was reduced accordingly. We did not recognize any other significant gains or losses on the disposition of property, equipment and other assets during the second quarters and first halves of fiscal 2009 or 2008. The timing of periodic sales of our property and equipment may vary from quarter to quarter, resulting in variations in our reported gains or losses on disposition of property and equipment.

We reported net equity losses from unconsolidated joint ventures of \$15,000 and \$99,000 during the second quarter and first half of fiscal 2009, respectively, compared to losses of \$69,000 and \$138,000 during the same periods of fiscal 2008. Net losses during both years included our share of results from our one remaining operating Baymont 50% joint venture and two hotel joint ventures in which we have a 15% ownership interest. We currently do not expect significant variations in net equity gains or losses from unconsolidated joint ventures during the remaining quarters of fiscal 2009 compared to the same periods last year.

We reported income tax expense for the second quarter and first half of fiscal 2009 of \$670,000 and \$8.6 million, respectively, compared to \$2.0 million and \$10.0 million during the same periods of fiscal 2008. Our fiscal 2009 second quarter and first half effective income tax rates were 42.8% and 39.2%, respectively, compared to our fiscal 2008 second quarter and first half effective rate of 40.4% and 40.6%, respectively. The decrease in our year-to-date effective tax rate was primarily due to a decrease in our liability for unrecognized tax benefits as a result of a lapse of the applicable statute of limitations during the fiscal 2009 first quarter. We currently expect our effective tax rate for the remaining quarters of fiscal 2009 to be closer to 40%. Our actual fiscal 2009 effective income tax rate may be different from our estimated quarterly rates depending upon actual facts and circumstances.

Theatres

The following table sets forth revenues, operating income and operating margin for our theatre division for the second quarter and first half of fiscal 2009 and 2008 (in millions, except for variance percentage and operating margin):

14

				Second	d Qu	arter				alf	ıf		
	·					Vari	ance					Varia	ance
		F2009		F2008		Amt.	Pct.	F2009		F2008	Amt.		Pct.
Revenues Operating income	\$	41.7 5.9	\$	33.3 4.3	\$	8.4 1.6	25.3% \$ 36.6%	5 108.6 22.7	\$	91.2 19.7	\$	17.4 3.0	19.1% 15.5%
Operating margin (% of revenues)		14.1%	,	12.9%	6			20.9%	,	21.6%	,		

Consistent with the seasonal nature of the motion picture exhibition industry, the second quarter of our fiscal year is typically the slowest period for our theatre division. Our theatre division recognized increased operating results for our fiscal 2009 second quarter and first half compared to last year s same periods, primarily due to the incremental results from the seven theatres comprised of 83 screens in Omaha and Lincoln, Nebraska acquired from Douglas Theatre Company (Douglas) and related parties during our fiscal 2008 fourth quarter and a strong fiscal 2009 second quarter film slate. Our operating margin during the second quarter of fiscal 2009 increased due to the impact of increased revenues at our comparable theatres and decreased slightly during the fiscal 2009 first half compared to the prior year due to higher fixed costs related to the new theatres.

The following table breaks down the components of revenues for the theatre division for the second quarter and first half of fiscal 2009 and 2008 (in millions, except for variance percentage):

Theatres 12

				Second	l Qı	ıarter		First Half					
						Vari	ance					Vari	ance
	F200	F2009	F2008			Amt. Pct.		F2009		F2008		Amt.	Pct.
Box office receipts	\$ 26.		\$	20.9	\$	5.4	26.0% \$		\$	57.9	\$	10.9	18.8%
Concession revenues Other revenues	13.			10.3		2.8 0.2	27.9% 5.3%	34.3 5.5		28.5 4.8		5.8 0.7	20.4% 15.0%
Total revenues	\$ 41.	.7	\$	33.3	\$	8.4	25.3% \$	108.6	\$	91.2	\$	17.4	19.1%

The increase in our box office receipts and concession revenues for the second quarter and first half of fiscal 2009 compared to the same periods last year was primarily due to the impact of the Douglas theatres acquired during our fiscal 2008 fourth quarter and strong second quarter film product. Excluding the Douglas theatres, box office receipts and concession revenues increased 8.6% and 9.2%, respectively. For the first half of fiscal 2009, excluding the Douglas theatres, box office receipts increased 1.8% and concession revenues increased 2.4% compared to the first half of fiscal 2008. A 5.1% and 4.5% increase in our average ticket price for these comparable theatres during the fiscal 2009 second quarter and first half, respectively, compared to the same periods last year, contributed to our increased overall box office receipts. The increases in our average ticket price were attributable primarily to selected price increases and premium pricing for our digital 3D and *Ultra*Screen® attractions. Our average concession revenues per person for the fiscal 2009 second quarter and first half increased 5.8% and 4.9%, respectively, compared to the same periods last year, due primarily to selected price increases and an increase in the variety of food and beverage items offered at selected theatres. Other revenues increased during our fiscal 2009 second quarter and first half due in part to increases in pre-show and lobby advertising income and film booking fees.

15

Total theatre attendance increased 20.6% and 14.4%, respectively, during the second quarter and first half of fiscal 2009 compared to the same periods last year. Excluding the Douglas theatres, theatre attendance increased 3.3% during the second quarter and decreased 2.4% for the first half of fiscal 2009 compared to last year same periods. Our second quarter and first half attendance was negatively impacted by the lack of the traditionally strong Thanksgiving Day weekend this year, which will be included in our third quarter during fiscal 2009. Movie theatres have historically performed well during difficult economic conditions, as evidenced by the fact that national theatre attendance increased during five of the last seven recessions. A strong slate of films compared to the prior year, particularly during October and November, contributed to this division s strong performance during the fiscal 2009 second quarter. Virtually all of the fiscal 2009 first half decline in comparable attendance occurred during our first quarter, when the August film slate this year did not perform as well as last year s August films and television viewership of the Olympics and the Democratic National Convention in August 2009 also negatively impacted our results. Our highest grossing films during the fiscal 2009 second quarter included *Madagascar*: *Escape 2 Africa, Quantum of Solace, High School Musical 3*: *Senior Year, Eagle Eye* and *Twilight*.

The inclusion of the Thanksgiving weekend during the fiscal 2009 third quarter will favorably impact our comparisons to last year s operating results from comparable theatres during the upcoming quarter. Conversely, adverse December weather conditions in our Midwestern markets likely had some negative impact on attendance. Nonetheless, in addition to strong November holdovers, several new films performed quite well during the holiday season, including *Four Christmases, Yes Man, Seven Pounds, Bedtime Stories, Marley & Me, The Curious Case of Benjamin Button* and *Valkyrie*. Films scheduled to be released during the remainder of our fiscal 2009 third quarter that may also generate box office interest include *Bride Wars, Revolutionary Road, My Bloody Valentine 3D, He s Just Not That Into You, Pink Panther 2* and *Friday the 13th*. Revenues for the theatre business and the motion picture industry in general are heavily dependent on the general audience appeal of available films, together with studio marketing, advertising and support campaigns and the maintenance of the current windows between the date a film is released in theatres and the date a motion picture is released to other channels, including video on-demand and DVD. These are factors over which we have no control.

During the second quarter and first half of fiscal 2009, we continued to execute on several previously described strategies. Our 14 digital 3D screens, installed during our fiscal 2009 first quarter, benefitted during the second quarter from the latest 3D release, Disney s *Bolt*, with the 3D presentations of this film outperforming the corresponding 2D versions of the same film. More than a dozen 3D films are currently scheduled for release during calendar 2009. A broader roll-out of digital cinema in our theatres, originally thought likely to begin in calendar 2009, remains tied to the ability of third-party implementers to obtain the necessary financing, which could be difficult in the current credit market. In addition, 23 of our theatres are currently equipped to present alternate programming such as concerts and sporting events through our affiliation with a national digital broadcast network, which included a new and expanded season of *The Metropolitan Opera*: *Live in HD*. Our successful ice cream and coffee brands, which were initially rolled out at our flagship Majestic Cinema, were introduced into our theatre in Sturtevant (Racine), Wisconsin during our fiscal 2009 first quarter. Late in our second quarter, we opened a new food court concept named the Hollywood Café with pizza, ice cream, coffee and additional menu items at our theatre in Oakdale, Minnesota. We also recently began construction on a Zaffiro s pizza restaurant that will be connected to an existing theatre in Mequon, Wisconsin.

Theatres 13

We ended the first half of fiscal 2009 with a total of 673 company-owned screens in 55 theatres and 6 managed screens in one theatre compared to 588 company-owned screens in 48 theatres and 6 managed screens in one theatre at the end of the same period last year. We opened a new *Ultra*Screen addition to our 14-screen theatre in Orland Park, Illinois at the end of our fiscal 2009 second quarter and we recently began construction on our circuit s 13th *Ultra*Screen at our Mequon, Wisconsin theatre, with hopes to open this screen by May 2009.

16

Hotels and Resorts

The following table sets forth revenues, operating income and operating margin for our hotels and resorts division for the second quarter and first half of fiscal 2009 and 2008 (in millions, except for variance percentage and operating margin):

			Second	arter		First Half							
	_				Variance							Varia	ance
	I	F2009]	F2008	Amt.		Pct.	F2009		F2008		Amt.	Pct.
Revenues	\$	45.9	\$	49.8	\$	(3.9)	-7.7% \$	99.1	\$	103.7	\$	(4.6)	-4.4%
Operating income		5.1		6.8		(1.7)	-25.4%	14.6		17.1		(2.5)	-14.4%
Operating margin		11.1%		13.7%)			14.7%		16.5%)		

Division revenues and operating income decreased during our fiscal 2009 second quarter and first half compared to the prior year same periods. A rapidly deteriorating economic environment, which primarily impacted our properties that rely most heavily on group business during our fiscal 2009 first quarter, began to negatively impact our corporate transient and leisure customer segments during our second quarter. Food and beverage revenues at our hotels declined at a slightly higher pace than room revenues during the fiscal 2009 second quarter compared to the same period last year as customers also reduced the amount they spent during their stay.

The following table sets forth certain operating statistics for the second quarter and first half of fiscal 2009 and 2008, including our average occupancy percentage (number of occupied rooms as a percentage of available rooms), our average daily room rate, or ADR, and our total revenue per available room, or RevPAR, for company-owned properties:

		Second Q	uarter ⁽¹⁾			First	First Half ⁽¹⁾			
			Varian	ice			Varian	ice		
	F2009	F2008	Amt.	Pct.	F2009	F2008	Amt.	Pct.		
Occupancy pct. ADR	66.3% \$ 153.83	71.7% \$ 152.77 \$	(5.4) pts 1.06	-7.5%	72.0%	75.1%	(3.1) pts	-4.1%		

Hotels and Resorts 14
