ITEM 2.01. COMPLETION OF ACQUISITION OR DISPOSITION OF ASSETS

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 8-K/A

Completion of Acquisition of Sponge Limited

On February 20, 2006, NeoMedia Technologies, Inc. ("NeoMedia") and Sponge Limited ("Sponge") of London (www.spongegroup.com) signed a definitive share purchase agreement, subject to closing conditions, under which NeoMedia acquired all of the outstanding shares of Sponge in exchange for (pound)3,450,000 (approximately \$6 million) cash and (pound)6,550,000 (approximately \$11.4 million) in shares of NeoMedia common stock. The (pound)6,550,000 stock portion of the purchase price is represented by 33,097,135 shares of NeoMedia common stock, calculated by dividing (pound)6,550,000 by the volume-weighted average closing price of NeoMedia common stock for the ten days up to and including February 8, 2006. The agreement also calls for Sponge to earn an additional (pound)2,500,000 (approximately \$4.4 million) in the form of NeoMedia common stock if, during the two-year period beginning at closing, the Sponge business earns in excess of (pound)1,300,000 (approximately \$2.3 million) in net profits. Pursuant to the terms of the merger agreement, the number of shares of NeoMedia common stock to be issued as consideration was calculated using a share price of \$0.384. In the event that NeoMedia's stock price at the time the consideration shares are saleable is less than \$0.384, NeoMedia is obligated to compensate Sponge shareholders in cash for the difference between the price at the time the shares become saleable and \$0.384

On February 23, 2006, NeoMedia and Sponge completed the closing requirements and the acquisition became effective.

Founded in 2001, Sponge has grown to become a U.K. market leader in providing mobile applications to agencies and media groups, and gain recognition as one of Europe's top independent developers of mobile applications and content. Today, Sponge counts more than 40 agencies, including WPP, Aegis and BBH, as clients, and supplies services for over 100 world-class brands, including Coca Cola(R), Heineken(R) and Diageo. Sponge also supplies a range of mobile services to media groups, including News International, Trinity Mirror, Endemol and IPC.

On February 24, 2006, NeoMedia filed a Form 8-K with respect to Item 2.01, disclosing the completion of the acquisition of Sponge. On May 9, 2006, NeoMedia filed Amendment No. 1 to the Form 8-K, which included Sponge's financial statements required by Items 7(a) and (b) of Form 8-K. This Amendment No. 2 to Form 8-K is being filed in order to provide restated financial statements of Sponge.

EXPLANATORY NOTE: A portion of Sponge's sales for the periods presented in Amendment No. 1 to Form 8-K filed on May 9, 2006 were presented gross with an accompanying cost of goods sold. In connection with its first quarter 2006 review, NeoMedia evaluated the technical aspects of the revenue recognition treatment as it relates to Sponge's sales and cost of sales. Based on that review, NeoMedia concluded that the sales in question should be recognized on a net basis. The financial statements presented herein reflect the sales on a net basis. The effect of the adjustment is to reduce sales and cost of sales, and does not affect gross profit, operating expenses or net income. The adjustment also does not affect any balance sheet accounts or cashflow disclosures. Please see footnote 9 of the enclosed interim financial statements and footnote 15 of the enclosed audited financial statements for additional discussion.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2005 AND 2004 (UNAUDITED)

1. Summary of Significant Accounting Policies

Nature of Business

Sponge Limited (the Company) was incorporated on September 12, 1995. The company is engaged in the provision of marketing services via the telecommunications industry.

Basis of Presentation

These condensed consolidated financial statements and related notes should be read in conjunction with the Company's audited financial statements and related footnotes for the fiscal years ended September 30, 2005 and 2004. In the opinion of management, these financial statements reflect all adjustments which are of a normal recurring nature and which are necessary to present fairly the financial position of the Company as of December 31, 2005, the results of operations for the three-month periods ended December 31, 2005 and 2004, and cash flows for the three-month periods ended December 31, 2005 and 2004. The results of operations for the three-month periods ended December 31, 2005 are not necessarily indicative of the results which may be expected for the entire fiscal year.

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 8-K/A

Revenue Recognition

The company records sales for services provided as a principal when the service has been provided to the customer, the sales price is fixed and determinable, and the collection is reasonably assured.

Revenue can be divided into two main sources:-

- (i) Media - a premium rate text promotional service
- (ii) Brand - a standard rate promotional text service

In both cases Revenue is dependent on message volumes and recognised according to the date of the message. Premium rate text services are recognized net of any fees paid back to the customer.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

8

SPONGE LIMITED

NOTES TO THE FINANCIAL STATEMENTS (cont'd)
DECEMBER 31, 2005 AND 2004 (UNAUDITED)

Credit Concentrations

The company's customers are concentrated in the telecommunications industry. Concentrations of credit risk with respect to trade receivables are limited to major network providers within the industry.

Foreign Currencies

The functional currency of the company's operations is sterling. The financial statements are reported in United States dollars and are translated to United States dollars at the exchange rates in effect at the balance sheet date for assets and liabilities and at average rates for the period for revenues and expenses. Resulting exchange differences are accumulated as a component of accumulated other comprehensive income. Transaction foreign exchange gains and losses are included in the income statement.

Financial Instruments

The carrying amount of the Company's cash equivalents, accounts receivable, prepaid expenses, other current assets, cash surrender value of life insurance policy, accounts payable and accrued expenses, accrued salaries and benefits, and payables to merchants approximates their estimated fair values due to the short-term maturities of those financial instruments.

Rates currently available to the Company for debt with similar terms and remaining maturities are used to estimate fair value of existing

NOTES TO THE FINANCIAL STATEMENTS (cont'd)
DECEMBER 31, 2005 AND 2004 (UNAUDITED)

9. Restatement of previously reported financial information

The company, in reviewing its accounting practices, became aware that a net, rather than gross, revenue recognition of its premium rate text promotional services would give a fairer presentation of results. As a result, the company has overstated its sales as well as overstated its cost of sales on its statement of income. The treatment did not affect net income, nor any balance sheet or equity accounts, or cashflow disclosures.

As a result, the company has restated certain financial information that was previously reported in its financial statements for the three months ended December 31, 2005 and 2004. The following tables provide a reconciliation of amounts previously reported by the company:

	Three Months Ended December 31, 2005			Three Months Ended D

SPONGE LIMITED

NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2005 AND 2004

1. Summary of Significant Accounting Policies

Nature of Business

Sponge Limited (the Company) was incorporated on September 12, 1995. The company is engaged in the provision of marketing services via the telecommunications industry.

Revenue Recognition

The company records sales for services provided as a principal when the service has been provided to the customer, the sales price is fixed and determinable, and the collection is reasonably assured.

Revenue can be divided into two main sources:-

- (i) Media - a premium rate text promotional service
- (ii) Brand - a standard rate promotional text service

In both cases Revenue is dependent on message volumes and recognised according to the date of the message. Premium rate text services are recognized net of any fees paid back to the customer.

Equipment and Furniture

Equipment and furniture are recorded at cost. Provisions for depreciation are computed using the straight-line method over the estimated useful lives of the assets of three years.

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 8-K/A

Income Taxes

The company accounts for income taxes under the liability method.

Deferred Taxes

Deferred tax is recognised in respect of all timing differences between the financial statements carrying amounts of assets and liabilities and their respective tax basis that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax assets are also recognised for operating losses for which the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Advertising

The company has elected to expense all advertising costs, as incurred. Advertising costs charged to expense totalled \$8,354 and \$4,335 for the years ended September 30, 2005 and 2004 respectively.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

SPONGE LIMITED

NOTES TO THE FINANCIAL STATEMENTS (cont'd)
SEPTEMBER 30, 2005 AND 2004

Credit Concentrations

The company's customers are concentrated in the telecommunications industry. Concentrations of credit risk with respect to trade receivables are limited to major network providers within the industry.

Foreign Currencies

The functional currency of the company's operations is sterling. The financial statements are reported in United States dollars and are translated to United States dollars at the exchange rates in effect at the balance sheet date for assets and liabilities and at average rates for the period for revenues and expenses. Resulting exchange differences are accumulated as a component of accumulated other comprehensive income. Transaction foreign exchange gains and losses are included in the income statement.

Financial Instruments

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 8-K/A

The carrying amount of the Company's cash equivalents, accounts receivable, prepaid expenses, other current assets, cash surrender value of life insurance policy, accounts payable and accrued expenses, accrued salaries and benefits, and payables to merchants approximates their estimated fair values due to the short-term maturities of those financial instruments.

Rates currently available to the Company for debt with similar terms and remaining maturities are used to estimate fair value of existing debt.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)
 SEPTEMBER 30, 2005 AND 2004

15. Restatement of previously reported financial information

The company, in reviewing its accounting practices, became aware that a net, rather than gross, revenue recognition of its premium rate text promotional services would give a fairer presentation of results. As a result, the company has overstated its sales as well as overstated its cost of sales on its statement of income. The treatment did not affect net income, nor any balance sheet or equity accounts, or cashflow disclosures.

As a result, the company has restated certain financial information that was previously reported in its audited financial statements for the fiscal years ended September 30, 2005 and 2004. The following tables provide a reconciliation of amounts previously reported by the company:

	Year Ended September 30, 2005			Year Ended September 30, 2004

and Exchange Commission. Certain information and footnote disclosures normally prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. However, the managements of NeoMedia, BSD, Sponge, Gavitec, 12Snap, and Mobot believe that the disclosures are adequate to make the information not misleading.

The pro forma adjustments are based on currently available information and upon estimates and assumptions that we believe are reasonable under the circumstances. The unaudited pro forma financial data do not purport to represent what NeoMedia's financial position or results of operations would actually have been if such transactions had occurred on those dates and are not necessarily representative of NeoMedia's financial position or results of operations for any future period. The unaudited pro forma financial statements should be read in conjunction with the separate historical financial statements and footnotes of NeoMedia included in Form 10-KSB for the year ended December 31, 2005, and with the separate historical financial statements and footnotes of Sponge for the years ended September 30, 2005 and 2004 (included herein), with the separate historical financial statements and footnotes of BSD for the years ended December 31, 2005 and 2004 (included in Form 8-K/A filed with the SEC on June 2, 2006), with the separate historical financial statements and footnotes of Gavitec for the years ended December 31, 2005 and 2004 (in Form 8-K/A filed with the SEC on May 8, 2006), with the separate historical financial statements and footnotes of 12Snap for the years ended December 31, 2005 and 2004 (included in Form 8-K/A filed with the SEC on May 8, 2006), and with the separate historical financial statements and footnotes of Mobot for the years ended December 31, 2005 and 2004 (included in Form 8-K/A filed with the SEC on May 3, 2006).

2. Preliminary Purchase Price Allocation

A final determination of the allocation of the purchase price to the assets acquired and liabilities assumed has not been made for BSD, Sponge, Gavitec, 12Snap and Mobot. The allocation reflected in the unaudited pro forma combined financial statements is based on management's best judgment and estimate of the fair values of intangible assets being acquired, and should be considered preliminary and is subject to the completion of a comprehensive independent valuation of the assets acquired and liabilities assumed. The final allocation of purchase price could differ materially from the pro forma allocation included herein. NeoMedia expects to obtain the final independent valuation, currently in process, prior to the filing of the 2nd quarter Form 10 Q in August 2006.

Any additional consideration issued pursuant to the stock purchase price protection clause would also change the purchase price allocation.

3. Pro forma Net Loss Per Share

The pro forma basic and dilutive net loss per share are based on the weighted average number of shares of pro forma NeoMedia's common stock as if the shares issued to acquire BSD, Sponge, Gavitec, 12Snap and Mobot had been issued at the beginning of the period shown. Dilutive shares are not included in the computation of pro forma dilutive net loss per share as their effect would be anti-dilutive.

There are no additional options, warrants, or other stock-based consideration expected to be issued as part of the purchase price for either acquisition. Each of the above transactions was completed in the first quarter of 2006. The actual number of shares issued as stock consideration is shown in the following table:

	Mobot	Sponge	Gavitec	12Snap

(i) - For purposes of these unaudited pro forma financial statements, the excess of fair value of consideration paid over net book value for Mobot, Sponge, Gavitec, 12Snap, and BSD is allocated to the following intangible asset categories: customer contracts and relationships, capitalized software platform, other intangible assets, and goodwill. The allocation is made based on NeoMedia management's judgment and best estimate of the value of each category for each business. As of this filing, NeoMedia has not completed an independent valuation of such intangible assets. NeoMedia is in the process of performing an independent valuation of the intangible assets, and a final allocation of the purchase price of each entity will be made based on the results of such valuation, to be completed no more than one year from closing. It is important to note that the final independent valuation, could vary materially from the pro forma allocation presented above. NeoMedia expects to obtain the final independent valuation, currently in process, prior to the filing of the 2nd quarter Form 10 Q in August 2006.

(ii) - Customer contracts and relationships consist of the customers of each business that are under contract, as well as prospects identified for potential future business, the fair value of which is calculated as the discounted after-tax

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form 8-K/A

expected earnings from current and identified customers. NeoMedia expects to assign an amortization period of 5 years to this class of assets.

- (iii) - Capitalized software platforms consist of proprietary software systems acquired. NeoMedia expects to assign an amortization period of 7 years to this class of assets.
- (iv) - Other intangible assets consist of brand names and other proprietary copyrighted materials. NeoMedia expects to assign an amortization period of 7-10 years to this class of assets.

30

- (v) - The remaining excess of purchase price paid over fair value of assets and liabilities assumed is allocated to goodwill, and as such, is not assigned a depreciable life. Goodwill will be tested for impairment as defined by Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets.
- (D) - Adjustment to eliminate acquisition-related costs paid by NeoMedia in 2005 that are included in the purchase price allocation.
 - (E) - Adjustment to eliminate note payable from Mobot to NeoMedia that was forgiven at closing.
 - (F) - Adjustment to eliminate Mobot convertible debentures that were converted prior to closing. As a result, the above unaudited condensed consolidated pro forma balance sheet is shown assuming the debentures are converted prior to the pro forma closing date.
 - (G) - Negative cash balance is shown for pro forma purposes only. During February 2006, NeoMedia obtained \$22 million gross financing in the form of a convertible preferred stock sale, a portion of the proceeds of which were used to acquire Mobot, Gavitec, 12Snap, and Sponge.

Pro-forma Adjustments

- (A) - For pro forma presentation purposes, Gavitec and 12Snap results are converted from Euro to US Dollars at a rate of 0.80844 Euro/US Dollar, which was the average exchange rate for the period January 1, 2005 - December 31, 2005.
- (B) - A portion of Sponge's sales are shown net of payments made to customers.
- (C) - Adjustment to reflect amortization of acquired intangible assets for the year ended December 31, 2005, as if the acquisitions had occurred on January 1, 2005. It is important to note that the actual allocation and estimated useful lives of intangible assets acquired that will be adopted based on an independent valuation could vary from the estimates presented herein (see note C(i) to the pro forma balance sheet for a discussion on useful lives). Such a difference could cause a material difference between the actual periodic amortization charges that NeoMedia will record in its statement of operations, and the amortization amount shown above. Estimated useful lives are based on management's best estimate of the purchase price allocation, and have not been finalized based on the results of an independent valuation.
- (D) - Adjustment for shares that would have been issued in connection with acquisitions if they had occurred on January 1, 2005, calculated as follows:
