ROCKY MOUNTAIN CHOCOLATE FACTORY, INC.
NOTES TO INTERIM FINANCIAL STATEMENTS

NOTE 1 NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Nature of Operations

Rocky Mountain Chocolate Factory, Inc. is an international franchiser, confectionery manufacturer and retail operator in the United States, Guam, Canada and the United Arab Emirates. The Company manufactures an extensive line of premium chocolate candies and other confectionery products. The Company's revenues are currently derived from three principal sources: sales to franchisees and others of chocolates and other confectionery products manufactured by the Company; the collection of initial franchise fees and royalties from franchisees' sales; and sales at Company-owned stores of chocolates and other confectionery products. The following table summarizes the number of Rocky Mountain Chocolate Factory stores at November 30, 2005:

	Sold, Not Yet		
	Open	Open	Total
Company-owned stores		9	9
Company-owned kiosks		1	1
Franchise stores Domestic stores	21	236	257
Franchise Stores Domestic kiosks	4	21	25
Franchise units International		35	35

Basis of Presentation

The accompanying financial statements have been prepared by the Company, without audit, and reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results for the interim periods. The statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial reporting and Securities and Exchange Commission regulations. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the financial statements reflect all adjustments (of a normal and recurring nature) which are necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods. The results of operations for the nine months ended November 30, 2005 are not necessarily indicative of the results to be expected for the entire fiscal year.

These financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2005.

Stock-Based Compensation

Statement of Financial Accounting Standards No. 123 (SFAS 123), *Accounting for Stock-Based Compensation* encourages, but does not require, companies to record compensation cost for stock-based employee compensation plans at fair value. The Company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25 (APB 25), *Accounting for Stock Issued to Employees* and provides the required pro forma disclosures prescribed by SFAS 123 and SFAS 148.

The Company has adopted the disclosure-only provisions of SFAS 123. In accordance with those provisions, the Company applies APB 25 and related interpretations in accounting for its stock option plans and, accordingly, does not recognize compensation cost if the exercise price is not less than market at date of grant. No compensation expense was recognized during the quarters ended November 30, 2005 or 2004. If the Company had elected to recognize compensation cost based on the fair value of the options granted at grant dates as prescribed by SFAS 123, net income and earnings per share would have been reduced to the pro-forma amounts indicated in the table below for the three and nine months ending November 30, (in 000's except per share amounts):

Reclassifications

Certain reclassifications have been made to the prior year's financial statements in order to conform to the current year presentation.

NOTE 2 EARNINGS PER SHARE

Basic earnings per share is calculated using the weighted average number of common shares outstanding. Diluted earnings per share reflects the potential dilution that could occur from common shares issuable through stock options. For the three months ended November 30, 2005 and 2004, the Company had no stock options that were excluded from the computation of earnings per share because their effect would have been anti-dilutive. For the nine months ended November 30, 2005 and 2004, the Company had no stock options that were excluded from the computation of earnings per share because their effect would have been anti-dilutive.

NOTE 7 OPERATING SEGMENTS

The Company classifies its business interests into two reportable segments: Franchising and Manufacturing. The Company's retail stores provide an environment for testing consumer behavior, various pricing strategies, new products and promotions, operating, training and merchandising techniques. Three operational stores previously classified as held for sale were reclassified as assets held and used when management's intentions changed. All Company-owned retail stores are evaluated by management in relation to their contribution to franchising efforts and are included in the Franchising segment. The accounting policies of the segments are the same as those described in the summary of significant accounting policies in Note 1 to the Company's financial statements included in the Company's annual report on Form 10-K for the year ended February 28, 2005. The Company evaluates performance and allocates resources based on operating contribution, which excludes unallocated corporate general and administrative costs and income tax expense or benefit. The Company's reportable segments are strategic businesses that utilize common merchandising, distribution, and marketing functions, as well as common information systems and corporate administration. All inter-segment sales prices are market based. Each segment is managed separately because of the differences in required infrastructure and the difference in products and services:

NOTE 10 RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123 (Revised 2004),

Share-Based Payment (SFAS No. 123R) which replaces SFAS No. 123, supercedes Accounting Principles Board (APB) No. 25 and related interpretations and amends SFAS No. 95, Statement of Cash Flows. The provisions of SFAS No. 123R are similar to those of SFAS No. 123; however, SFAS No. 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statement as compensation cost based on their fair value on the date of the grant. The fair value of the share-based awards will be determined using an option-pricing model on the grant date. SFAS No. 123R is effective at the beginning of the first fiscal year beginning after June 15, 2005. The Company will adopt SFAS No. 123R no later than the first quarter of fiscal 2007. The Company is currently evaluating the impact and expects that adopting SFAS 123(R) will cause a significant increase in compensation expense.

In October 2005, the FASB issued FASB Staff Position (FSP) FAS 13-1, Accounting for Rental Costs Incurred during a Construction Period , which addresses the accounting for rental costs associated with operating leases that are incurred during a construction period. This FSP requires that rental costs associated with ground or building operating leases incurred during a construction period be recognized as rental expense and included in income from continuing operations. The guidance in this FSP shall be applied to the first reporting period beginning after December 15, 2005, with early adoption permitted. Based upon the Company s preliminary evaluation of the effects of this guidance, we do not believe that it will have a significant impact on the Company s financial statements.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

A Note About Forward-Looking Statements

The following discussion and analysis of the financial condition and results of operations of the Company should be read in conjunction with the unaudited financial statements and related Notes of the Company included elsewhere in this report. The nature of the Company s operations and the environment in which it operates subject it to changing economic, competitive, regulatory and technological conditions, risks and uncertainties. The statements, other than statements of historical fact, included in this report are forward-looking statements. Many of the forward-looking statements contained in this document may be identified by the use of forward-looking words such as will, intend, believe, expect, anticipate, should, plan, estimate and potential, or similar expressions. Factors which could results to differ include, but are not limited to: changes in the confectionery business environment, seasonality, consumer interest in the Company s products, general economic conditions, consumer trends, costs and availability of raw materials, competition and the effect of government regulation. Government regulation which the Company and its franchisees either are or may be subject to and which could cause results to differ from forward-looking statements include, but are not limited to: local, state and federal laws regarding health, sanitation, safety, building and fire codes, franchising, employment, manufacturing, packaging and distribution of food products and motor carriers. For a detailed discussion of the risks and uncertainties that may cause the Company s actual results to differ from the forward-looking statements contained herein, please see the Risk Factors contained in the Company s 10-K for the fiscal year ended February 28, 2005 which can be viewed at the SEC s website at www.sec.gov or through our website at www.rmcf.com. These forward-looking statements apply only as of the date of this report. As such they should not be unduly relied upon for more current circumstances. Except as required by law, the Company is not obligated to release publicly any revisions to these forward-looking statements that might reflect events or circumstances occurring after the date of this report or those that might reflect the occurrence of unanticipated events.

The Company is a product-based international franchiser. The Company s revenues and profitability are derived principally from its franchised system of retail stores that feature chocolate and other confectionery products. The Company also sells its candy in selected locations outside its system of retail stores to build brand awareness. The Company operates ten retail units as a laboratory to test marketing, design and operational initiatives.

Table of Contents

The Company is subject to seasonal fluctuations in sales because of the location of its franchisees, which are located in street fronts, tourist locations, factory outlets and regional malls. Seasonal fluctuation in sales cause fluctuations in quarterly results of operations. Historically, the strongest sales of the Company's products have occurred during the Christmas holiday and summer vacation seasons. Additionally, quarterly results have been, and in the future are likely to be, affected by the timing of new store openings and sales of franchises. Because of the seasonality of the Company's business and the impact of new store openings and sales of franchises, results for any quarter are not necessarily indicative of results that may be achieved in other quarters or for a full fiscal year.

The most important factors in continued growth in the Company's earnings are ongoing unit growth, increased same store sales and increased same store pounds purchased from the factory. Historically, unit growth has more than offset decreases in same store sales and same store pounds purchased.

The Company's ability to successfully achieve expansion of its Rocky Mountain Chocolate Factory franchise system depends on many factors not within the Company's control including the availability of suitable sites for new store establishment and the availability of qualified franchisees to support such expansion.

Efforts to reverse the decline in same store pounds purchased from the factory by franchised stores and to increase total factory sales depend on many factors, including new store openings and the receptivity of the Company's franchise system to the Company's product introductions and promotional programs. Same store pounds purchased from the factory by franchised stores increased 0.7% in the first quarter, declined 7.1% in the second quarter, increased 3.2% in the third quarter and 0.1% in the first nine months of Fiscal 2006.

As a result, the actual results realized by the Company could differ materially from the results discussed in or contemplated by the forward-looking statements made herein. Readers are cautioned not to place undue reliance on the forward-looking statements in this Quarterly Report on Form 10-Q.

Results of Operations**Three Months Ended November 30, 2005 Compared to the Three Months Ended November 30, 2004**

Basic earnings per share increased 20.0% from \$.15 for the three months ended November 30, 2004 to \$.18 for the three months ended November 30, 2005. Revenues increased 12.7% from fiscal 2005 to fiscal 2006. Operating income increased 26.4% from \$1.4 million in fiscal 2005 to \$1.8 million in fiscal 2006. Net income increased 28.1% from \$871,000 in fiscal 2005 to \$1.1 million in fiscal 2006. The increase in earnings per share, operating income, and net income for the third quarter of fiscal 2006 versus the same period in fiscal 2005 was due primarily to growth in the average number of franchise stores in operation and the corresponding increase in revenue.

Total	\$ 7,997.5	\$ 7,097.9	\$ 899.6	12.7%

Factory Sales

Factory sales increased for the three months ended November 30, 2005 due to an increase in the average number of franchised stores in operation and a 3.2% increase in same store pounds purchased by franchised stores when compared to the three months ended November 30, 2004. The average number of franchised stores in operation increased to 287 in the third quarter of fiscal 2006 from 264 in fiscal 2005.

Table of Contents**Retail Sales**

Same store retail sales decreased 3.2% in the third quarter of fiscal 2006 compared to the same period in the prior year primarily due to increased competition where Company stores are concentrated. The improvement in total retail sales was due to an increase in the average number of stores in operation from 8 in fiscal 2005 to 10 in fiscal 2006.

Royalties, Marketing Fees and Franchise Fees

The increase in royalties and marketing fees resulted from growth in both the average number of domestic units in operation and same store sales. The average number of domestic units in operation grew 7.2% from 235 in the third quarter of fiscal 2005 to 252 in 2006 and same store sales grew 1.1% in the third quarter of fiscal 2006 compared to the same period last year. Franchise fee revenues in the third quarter of fiscal 2006 declined 13.3% versus the third quarter of fiscal 2005 due to timing of franchise sales.

Total	36.3%	36.6%	(0.3%)	(0.8%)

Cost of Sales

The small decrease in factory margin is due primarily to mix of product sold during the third quarter of fiscal 2006 versus the same period in the prior year. Reduction in Company-owned store margin is due to increased promotional costs.

Franchise Costs

The increase in franchise costs is due to increased professional fees. As a percentage of total royalty and marketing fees and franchise fee revenue, franchise costs increased to 33.0% in the third quarter of fiscal 2006 from 32.3% in the third quarter of fiscal 2005. This increase as a percentage of royalty, marketing and franchise fees is primarily a result of higher franchise costs relative to revenues.

Sales and Marketing

Sales and marketing costs were approximately the same as the corresponding period in the prior year due to decreased incentive compensation costs versus the prior year and increased promotional costs.

Table of Contents

General and Administrative

The decrease in general and administrative costs is due primarily to decreased incentive compensation costs. As a percentage of total revenues, general and administrative expenses decreased to 6.8% in fiscal 2006 compared to 9.9% in fiscal 2005.

Retail Operating Expenses

The increase was due primarily to an increase in the average number of stores during the third quarter of fiscal 2006 versus the third quarter fiscal 2005. Retail operating expenses, as a percentage of retail sales, increased from 60.4% in the third quarter of fiscal 2005 to 64.6% in the third quarter of fiscal 2006 due to a larger increase in costs relative to the increase in revenues.

Depreciation and Amortization

Depreciation and amortization of \$224,000 in the third quarter of fiscal 2006 increased 12.4% from \$200,000 incurred in the third quarter of fiscal 2005, due to increased fixed assets in service and related depreciation expense.

Other, Net

Other, net of \$21,000 realized in the third quarter of fiscal 2006 represents an increase of \$23,200 from the \$2,300 incurred in the third quarter of fiscal 2005 due primarily to the elimination of interest expense plus interest income on notes receivable and invested cash.

Income Tax Expense

The Company's effective income tax rate in the third quarter of fiscal 2006 was 37.8%, which is the same rate as the third quarter of fiscal 2005.

Nine Months Ended November 30, 2005 Compared to the Nine Months Ended November 30, 2004

Basic earnings per share increased 17.1% from \$.41 for the nine months ended November 30, 2004 to \$.48 for the nine months ended November 30, 2005. Revenues increased 12.8% from fiscal 2005 to fiscal 2006. Operating income increased 19.9% from \$4.0 million in fiscal 2005 to \$4.8 million in fiscal 2006. Net income increased 21.3% from \$2.5 million in fiscal 2005 to \$3.0 million in fiscal 2006. The increase in earnings per share, operating income, and net income for the first nine months of fiscal 2006 versus the same period in fiscal 2005 was due primarily to growth in the average number of franchise stores in operation and the corresponding increase in revenue.

Revenues

(\$ s in thousands)	Nine Months Ended		Change	%

Total	\$ 19,947.5	\$ 17,691.1	\$ 2,256.4	12.8%

Factory Sales

Factory sales increased for the nine months ended November 30, 2005 due to a 0.1% increase in same store pounds purchased from the factory by franchised stores, an increase in the average number of franchised stores in operation and a 39.6% increase in sales to the Company's single largest customer outside the Company's system of franchised retail stores when compared to the nine months ended November 30, 2004. The average number of stores in operation increased to 281 in the first nine months of fiscal 2006 from 259 in fiscal 2005.

Table of Contents**Retail Sales**

Same store retail sales decreased 3.0% in the first nine months of fiscal 2006 compared to the same period in the prior year, primarily due to increased competition where Company stores are concentrated. The improvement in total retail sales was due to an increase in the average number of stores in operation from 8 in fiscal 2005 to 10 in fiscal 2006.

Royalties, Marketing Fees and Franchise Fees

The increase in royalties and marketing fees resulted from growth in both the average number of domestic units in operation and same store sales. The average number of domestic units in operation grew 8.3% from 229 in the first nine months of fiscal 2005 to 248 in 2006 and same store sales grew 2.0% in the first nine months of fiscal 2006 compared to the same period last year. Franchise fee revenues in the first nine months of fiscal 2006 increased 8.7% due to the increase in the franchise fee of approximately 25% partially offset by a decrease in the number of franchises sold versus the same period last year.

Retail	60.7%	62.2%	(1.5%)	(2.4%)
Total	38.9%	39.8%	(0.9%)	(2.3%)

Cost of Sales

Factory margins declined 70 basis points from fiscal 2005 to fiscal 2006 due primarily to mix of product sold during the first nine months of fiscal 2006 versus the same period in the prior year. Reduction in Company-owned store margin is due to changes in mix of product sold and increased promotional costs.

Franchise Costs

The increase in franchise costs is due to a planned increase in personnel costs and related support expenditures. As a percentage of total royalty and marketing fees and franchise fee revenue, franchise costs decreased to 26.1% in the first nine months of fiscal 2006 from 27.3% in the first nine months of fiscal 2005. This decrease as a percentage of royalty, marketing and franchise fees is primarily a result of lower franchise costs relative to revenues.

Sales and Marketing

The increase in sales and marketing is due primarily to a planned increase in promotional costs.

Table of Contents

General and Administrative

The decrease in general and administrative costs is due primarily to decreased incentive compensation costs. An increase in professional fees partially offset this decrease. As a percentage of total revenues, general and administrative expenses decreased to 7.9% in fiscal 2006 compared to 9.8% in fiscal 2005. This decrease resulted from a higher increase in total revenues relative to the decrease in general and administrative costs.

Retail Operating Expenses

The increase in retail operating expenses was due primarily to an increase in the average number of stores during the first nine months of fiscal 2006 versus the first nine months of fiscal 2005. Retail operating expenses, as a percentage of retail sales, increased from 55.5% in the first nine months of fiscal 2005 to 60.9% in the first nine months of fiscal 2006 due to a larger increase in costs relative to the increase in revenues.

Depreciation and Amortization

Depreciation and amortization of \$638,000 in the first nine months of fiscal 2006 increased 5.9% from the \$603,000 incurred in the first nine months of fiscal 2005 due primarily to increased capital expenditures related to the remodel of the Company's manufacturing and administrative facilities.

Other, Net

Other, net of \$50,800 realized in the first nine months of fiscal 2006 represents an increase of \$55,200 from the \$4,400 incurred in the first nine months of fiscal 2005, due primarily to lower interest expense on lower average outstanding balances of long-term debt plus interest income on lower average outstanding amounts of notes receivable and invested cash.

Income Tax Expense

The Company's effective income tax rate in the first nine months of fiscal 2006 was 37.8% which is the same rate as the first nine months of fiscal 2005.

Liquidity and Capital Resources

As of November 30, 2005, working capital was \$8.7 million, compared with \$8.0 million as of February 28, 2005, an increase of \$0.7 million. The increase in working capital was primarily due to operating results.

Cash and cash equivalent balances decreased from \$4.4 million as of February 28, 2005 to \$2.5 million as of November 30, 2005 as a result of cash flows provided by operating activities less than cash flows used by financing and investing activities. The Company's current ratio was 4.26 to 1 at November 30, 2005 in comparison with 3.57 to 1 at February 28, 2005. The Company monitors current and anticipated future levels of cash and cash equivalents in relation to anticipated operating, financing and investing requirements.

The Company has a \$5.0 million (\$5.0 million available as of November 30, 2005) working capital line of credit collateralized by substantially all of the Company's assets with the exception of the Company's retail store assets. The line is subject to renewal in July, 2006.

The Company believes cash flows generated by operating activities and available financing will be sufficient to fund the Company's operations at least through the end of fiscal 2006.

Impact of Inflation

Inflationary factors such as increases in the costs of ingredients and labor directly affect the Company's operations. Most of the Company's leases provide for cost-of-living adjustments and require the Company to pay taxes, insurance and maintenance expenses, all of which are subject to inflation. Additionally the Company's future lease costs for new facilities may include potentially escalating costs of real estate and construction. There is no assurance that the Company will be able to pass on increased costs to its customers.

Table of Contents

Depreciation expense is based on the historical cost to the Company of its fixed assets, and is therefore potentially less than it would be if it were based on current replacement cost. While property and equipment acquired in prior years will ultimately have to be replaced at higher prices, it is expected that replacement will be a gradual process over many years.

Seasonality

The Company is subject to seasonal fluctuations in sales, which cause fluctuations in quarterly results of operations. Historically, the strongest sales of the Company's products have occurred during the Christmas holiday and summer vacation seasons. In addition, quarterly results have been, and in the future are likely to be, affected by the timing of new store openings and sales of franchises. Because of the seasonality of the Company's business and the impact of new store openings and sales of franchises, results for any quarter are not necessarily indicative of results that may be achieved in other quarters or for a full fiscal year.

New Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123 (Revised 2004), Share-Based Payment (SFAS No. 123R) which replaces SFAS No. 123, supercedes Accounting Principles Board (APB) No. 25 and related interpretations and amends SFAS No. 95, Statement of Cash Flows. The provisions of SFAS No. 123R are similar to those of SFAS No. 123; however, SFAS No. 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statement as compensation cost based on their fair value on the date of the grant. The fair value of the share-based awards will be determined using an option-pricing model on the grant date. SFAS No. 123R is effective at the beginning of the first fiscal year beginning after June 15, 2005. The Company will adopt SFAS No. 123R no later than the first quarter of fiscal 2007. The Company is currently evaluating the impact and expects that adopting SFAS 123R will cause a significant increase in compensation expense.

In October 2005, the FASB issued FASB Staff Position (FSP) FAS 13-1, Accounting for Rental Costs Incurred during a Construction Period, which addresses the accounting for rental costs associated with operating leases that are incurred during a construction period. This FSP requires that rental costs associated with ground or building operating leases incurred during a construction period be recognized as rental expense and included in income from continuing operations. The guidance in this FSP shall be applied to the first reporting period beginning after December 15, 2005, with early adoption permitted. Based upon the Company's preliminary evaluation of the effects of this guidance, we do not believe that it will have a significant impact on the Company's financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company does not engage in commodity futures trading or hedging activities and does not enter into derivative financial instrument transactions for trading or other speculative purposes. The Company also does not engage in transactions in foreign currencies or in interest rate swap transactions that could expose the Company to market risk. However, the Company is exposed to some commodity price and interest rate risks.

The Company frequently enters into purchase contracts of between six to eighteen months for chocolate and certain nuts. These contracts permit the Company to purchase the specified commodity at a fixed price on an as-needed basis during the term of the contract. Because prices for these products may fluctuate, the Company may benefit if prices rise during the terms of these contracts, but it may be required to pay above-market prices if prices fall and it is unable to renegotiate the terms of the contract.

As of November 30, 2005, all of the Company's long-term debt was paid in full. The Company also has a \$5.0 million bank line of credit that bears interest at a variable rate. As of November 30, 2005, no amount was outstanding under the line of credit. The Company does not believe that it is exposed to any material interest rate risk related to line of credit.

The Chief Financial Officer and Chief Operating Officer of the Company has primary responsibility over the Company's long-term and short-term debt and for determining the timing and duration of commodity purchase contracts and negotiating the terms and conditions of those contracts.

Item 4. Controls and Procedures

Under the supervision and with the participation of management, including the principal executive officer and principal financial officer, the Company has evaluated the effectiveness of the design and operation of the disclosure controls and procedures within 90 days of the filing date of this quarterly report, and, based on their evaluation, the Company's principal executive officer and principal financial officer have concluded that these controls and procedures are effective. There were no material changes in the Company's internal controls or in other factors that could materially affect these controls subsequent to the date of their evaluation. Disclosure controls and procedures are the Company's controls and other procedures that are designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files under the Exchange Act is accumulated and communicated to management, including the principal executive officer the principal financial officer, as appropriate to allow timely decisions regarding required disclosure.
