BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Description of the Business and Basis of Presentation

Description of the Business - Bloomin' Brands, Inc., through its subsidiaries ("Bloomin' Brands" or the "Company"), owns and operates casual, upscale casual and fine dining restaurants. The Company's restaurant portfolio has four concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar. Additional Outback Steakhouse, Carrabba's Italian Grill and Bonefish Grill restaurants in which the Company has no direct investment are operated under franchise agreements.

Basis of Presentation - The accompanying interim unaudited consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles in the United States ("U.S. GAAP") for complete financial statements. In the opinion of the Company, all adjustments necessary for the fair presentation of the Company's results of operations, financial position and cash flows for the periods presented have been included and are of a normal, recurring nature. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 27, 2015.

Recently Issued Financial Accounting Standards Not Yet Adopted - In March 2016, the Financial Accounting Standards Board ("the FASB") issued Accounting Standards Update ("ASU") 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting ("ASU No. 2016-09"). ASU No. 2016-09 simplifies several aspects related to the accounting for share-based payment transactions, including the accounting for income taxes, statutory tax withholding requirements and classification on the statement of cash flows. ASU No. 2016-09 will be effective for the Company in fiscal year 2017. While reducing the complexity of the accounting for share based-payments, ASU No. 2016-09 is expected to impact net income, earnings per share and cash flows.

In February 2016, the FASB issued ASU No. 2016-02: "Leases (Topic 842)" ("ASU No. 2016-02"). ASU No. 2016-02 requires the lease rights and obligations arising from lease contracts, including existing and new arrangements, to be recognized as assets and liabilities on the balance sheet. ASU No. 2016-02 is effective for the Company in fiscal year 2019 and must be adopted using a modified retrospective approach. The Company is currently evaluating the impact the adoption of ASU No. 2016-02 will have on its financial position, results of operations and cash flows.

In August 2014, the FASB issued ASU No. 2014-15: "Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern" ("ASU No. 2014-15"). ASU No. 2014-15 will explicitly require management to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern, and to provide related footnote disclosures in certain circumstances. The new standard is applicable for all entities and will be effective for the Company's fiscal year 2016 annual reporting period. The Company does not expect ASU No. 2014-15 to have a material impact on its financial position, results of operations and cash flows.

In May 2014, the FASB issued ASU No. 2014-09 "Revenue Recognition (Topic 606), Revenue from Contracts with Customers" ("ASU No. 2014-09"). ASU No. 2014-09 provides a single source of guidance for revenue arising from contracts with customers and supersedes current revenue recognition standards. Under ASU No. 2014-09, revenue is

recognized in an amount that reflects the consideration an entity expects to receive for the transfer of goods and services. ASU No. 2014-09, as amended by ASU No. 2015-14 “Revenue from Contracts with Customers (Topic 606)—Deferral of the Effective Date”, ASU No. 2016-08 “Revenue from Contracts with Customers (Topic 606)—Principal versus Agent Considerations (Reporting Revenue Gross versus Net)”, ASU No. 2016-10 “Revenue from Contracts with Customers (Topic 606)—Identifying Performance Obligations and Licensing” and ASU No. 2016-12 “Revenue from Contracts with Customers (Topic 606)—Narrow-Scope Improvements and Practical Expedients”, will be effective for

the Company in fiscal year 2018 and is applied retrospectively to each period presented or as a cumulative effect adjustment at the date of adoption. The Company has not selected a transition method and is evaluating the impact this guidance will have on its financial position, results of operations and cash flows.

Recent accounting guidance not discussed above is not applicable, did not have, or is not expected to have a material impact to the Company.

Reclassifications - The Company reclassified certain items in the accompanying consolidated financial statements for prior periods to be comparable with the classification for the current period. These reclassifications had no effect on previously reported net (loss) income.

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish these objectives, the Company primarily uses interest rate swaps.

Currency Exchange Rate Risk - The Company is exposed to foreign currency exchange rate risk arising from transactions and balances denominated in currencies other than the U.S. dollar. The Company may use foreign currency forward contracts to manage certain foreign currency exposures.

DESIGNATED HEDGES

Cash Flow Hedges of Interest Rate Risk - On September 9, 2014, the Company entered into variable-to-fixed interest rate swap agreements with eight counterparties to hedge a portion of the cash flows of the Company's variable rate debt. The swap agreements have an aggregate notional amount of \$400.0 million, a start date of June 30, 2015, and mature on May 16, 2019. Under the terms of the swap agreements, the Company pays a weighted-average fixed rate of 2.02% on the \$400.0 million notional amount and receives payments from the counterparty based on the 30-day LIBOR rate.

The interest rate swaps, which have been designated and qualify as a cash flow hedge, are recognized on the Company's Consolidated Balance Sheets at fair value and are classified based on the instruments' maturity dates. Fair value changes in the interest rate swaps are recognized in AOCL for all effective portions. Balances in AOCL are subsequently reclassified to earnings in the same period that the hedged interest payments affect earnings. The Company estimates \$6.1 million will be reclassified to interest expense over the next twelve months.

The following table presents the fair value, accrued interest and classification of the Company's interest rate swaps:

(dollars in thousands)	JUNE 26, DECEMBER 27, 2016		CONSOLIDATED BALANCE SHEET

(1) See Note 14 - Fair Value Measurements for fair value discussion of the interest rate swaps.

The following table summarizes the effects of the interest rate swap on Net (loss) income for the thirteen and twenty-six weeks ended June 26, 2016:

Income tax benefit recognized in Provision for income taxes	630	1,256
Total effects of the interest rate swaps on Net (loss) income	\$ (967)	\$ (1,955)

(1) During the thirteen and twenty-six weeks ended June 26, 2016 and June 28, 2015, the Company did not recognize any gain or loss as a result of hedge ineffectiveness.

The Company records its derivatives on the Consolidated Balance Sheets on a gross balance basis. The Company's derivatives are subject to master netting arrangements. As of June 26, 2016, the Company did not have more than one derivative between the same counterparties and as such, there was no netting.

By utilizing the interest rate swaps, the Company is exposed to credit-related losses in the event that the counterparty fails to perform under the terms of the derivative contract. To mitigate this risk, the Company enters into derivative contracts with major financial institutions based upon credit ratings and other factors. The Company continually assesses the creditworthiness of its counterparties. As of June 26, 2016, all counterparties to the interest rate swaps had performed in accordance with their contractual obligations.

The Company has agreements with each of its derivative counterparties that contain a provision where the Company could be declared in default on its derivative obligations if the repayment of the underlying indebtedness is accelerated by the lender due to the Company's default on indebtedness.

As of June 26, 2016 and December 27, 2015, the fair value of the Company's interest rate swaps in a net liability position, which includes accrued interest but excludes any adjustment for nonperformance risk, was \$15.8 million and \$10.9 million, respectively. As of June 26, 2016 and December 27, 2015, the Company has not posted any collateral related to these agreements. If the Company had breached any of these provisions as of June 26, 2016 and December 27, 2015, it could have been required to settle its obligations under the agreements at their termination value of \$15.8 million and \$10.9 million, respectively.

NON-DESIGNATED HEDGES

Non-deliverable Foreign Currency Forward Contracts - From time to time, the Company has entered into non-deliverable foreign currency forward contracts to partially offset the foreign currency exchange gains and losses generated by the remeasurement of certain assets and liabilities denominated in non-functional currencies. As of June 26, 2016, the Company had \$68.9 million of outstanding notional amounts relating to its foreign currency forward contracts. The Company's foreign currency forward contracts are subject to master netting arrangements.

14. Fair Value Measurements

Fair value is the price that would be received for an asset or paid to transfer a liability, or the exit price, in an orderly transaction between market participants on the measurement date. Fair value is categorized into one of following three levels based on the lowest level of significant input:

Level 1 Unadjusted quoted market prices in active markets for identical assets or liabilities

Level 2 Observable inputs available at measurement date other than quoted prices included in Level 1

Level 3 Unobservable inputs that cannot be corroborated by observable market data

Fair value of each class of financial instrument is determined based on the following:

FINANCIAL INSTRUMENT	METHODS AND ASSUMPTIONS
----------------------	-------------------------

Fixed income funds and Money market funds	Carrying value approximates fair value because maturities are less than three months.
Derivative instruments	The Company's derivative instruments include interest rate swaps, foreign currency forward contracts and commodities. Fair value measurements are based on the contractual terms of the derivatives and use observable market-based inputs. The interest rate swaps are valued using a discounted cash flow analysis on the expected cash flows of each derivative using observable inputs including interest rate curves and credit spreads. The foreign currency forwards are valued by comparing the contracted forward exchange rate to the current market exchange rate. Key inputs for the valuation of the foreign currency forwards are spot rates, foreign currency forward rates, and the interest rate curve of the domestic currency. The Company incorporates credit valuation adjustments to reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. As of June 26, 2016 and December 27, 2015, the Company has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives.

Fair Value Measurements on a Nonrecurring Basis - Assets and liabilities that are measured at fair value on a nonrecurring basis relate primarily to property, fixtures and equipment, goodwill and other intangible assets, which are remeasured when carrying value exceeds fair value. The following table summarizes the Company's assets measured at fair value by hierarchy level on a nonrecurring basis:

Carrying value approximates fair value with all assets measured using Level 2 inputs for the thirteen and (2)twenty-six weeks ended June 28, 2015. A third-party market appraisal (Level 2) and a purchase contract (Level 2) were used to estimate the fair value.

Interim Disclosures about Fair Value of Financial Instruments - The Company's non-derivative financial instruments as of June 26, 2016 and December 27, 2015 consist of cash equivalents, restricted cash, accounts receivable, accounts payable and current and long-term debt. The fair values of cash equivalents, restricted cash, accounts receivable and accounts payable approximate their carrying amounts reported in the Consolidated Balance Sheets due to their short duration.

Debt is carried at amortized cost; however, the Company estimates the fair value of debt for disclosure purposes. The following table includes the carrying value and fair value of the Company's debt by hierarchy level as of June 26, 2016 and December 27, 2015:

Fair value of debt is determined based on the following:

DEBT FACILITY METHODS AND ASSUMPTIONS

Senior Secured Credit Facility	Quoted market prices in inactive markets.
PRP Mortgage Loan	Assumptions derived from current conditions in the real estate and credit markets, changes in the underlying collateral and expectations of management.
2012 CMBS loan	Assumptions derived from current conditions in the real estate and credit markets, changes in the underlying collateral and expectations of management.
Other notes payable	Discounted cash flow approach. Discounted cash flow inputs primarily include cost of debt rates which are used to derive the present value factors for the determination of fair value.

The net increase in the effective income tax rate for the thirteen and twenty-six weeks ended June 26, 2016 was primarily due to impairment and the recording of additional tax liabilities, including incremental taxes on earnings that were previously considered permanently reinvested, in connection with the sale of Outback South Korea.

16. Commitments and Contingencies

Litigation and Other Matters - The Company had \$4.5 million of liabilities recorded for various legal matters as of June 26, 2016 and December 27, 2015. Following is a summary of legal settlement costs the Company recognized in Other restaurant operating in its Consolidated Statements of Operations and Comprehensive Income for the periods indicated:

On October 4, 2013, two then-current employees (the "Nevada Plaintiffs") filed a purported collective action lawsuit against the Company, OSI Restaurant Partners, LLC ("OSI"), and two of its subsidiaries in the U.S. District Court for the District of Nevada (Cardoza, et al. v. Bloomin' Brands, Inc., et al., Case No.: 2:13-cv-01820-JAD-NJK). The complaint alleges violations of the Fair Labor Standards Act by requiring employees to work off the clock, complete on-line training without pay, and attend meetings in the restaurant without pay. The nationwide collective action permitted all hourly employees in all Outback Steakhouse restaurants to join. The suit seeks an unspecified amount in back pay for the employees that joined the lawsuit, an equal amount in liquidated damages, costs, expenses, and

attorney's fees. The Nevada Plaintiffs also filed a companion lawsuit in Nevada state court alleging that the Company violated the state break time rules. In November 2015, the Company reached a tentative settlement agreement resolving all claims and the cost of class administration for \$3.2 million. The parties submitted the settlement to the Court for approval in February 2016 and received conditional approval on April 11, 2016. The parties are proceeding with the class notice and administration process before seeking final approval from the Court.

In addition, the Company is subject to legal proceedings, claims and liabilities, such as liquor liability, sexual harassment and slip and fall cases, which arise in the ordinary course of business and are generally covered by insurance if they exceed specified retention or deductible amounts. In the opinion of management, the amount of ultimate liability with

respect to those actions will not have a material adverse impact on the Company's financial position or results of operations and cash flows.

17. Segment Reporting

The Company has two reportable segments, U.S. and International, which reflects how the Company manages its business, reviews operating performance and allocates resources. The U.S. segment includes all brands operating in the U.S. while brands operating outside the U.S. are included in the International segment. Resources are allocated and performance is assessed by the Company's Chief Executive Officer ("CEO"), whom the Company has determined to be its Chief Operating Decision Maker ("CODM"). Following is a summary of reporting segments:

SEGMENT	CONCEPT	GEOGRAPHIC LOCATION
U.S.	Outback Steakhouse	United States of America, including Puerto Rico
	Carrabba's Italian Grill	
	Bonefish Grill	
	Fleming's Prime Steakhouse & Wine Bar	
International	Outback Steakhouse (1)	Brazil, South Korea, Hong Kong, China
	Carrabba's Italian Grill (Abbraccio)	Brazil

(1) Includes international franchise locations.

Segment accounting policies are the same as those described in Note 2 - Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 27, 2015. Revenues for all segments include only transactions with customers and include no intersegment revenues. Excluded from net income from operations for U.S. and International are certain legal and corporate costs not directly related to the performance of the segments, interest and other expenses related to the Company's credit agreements and derivative instruments, certain stock-based compensation expenses and certain bonus expenses.

Prior to 2016, certain insurance expenses were not allocated to the Company's concepts as these expenses were reviewed and evaluated on a Company-wide basis and therefore, these costs were excluded from segment restaurant-level operating margin and income from operations. In 2016, the Company's management changed how insurance expenses related to its restaurants are reviewed and now considers those costs when evaluating the operating performance of the Company's concepts. Accordingly, the Company has recast all prior period segment information to reflect this change.

The following table is a summary of Total revenue by segment:

On July 27, 2016, PRP, as borrower, and Wells Fargo Bank, National Association, as lender (the "Lender"), entered into a First Amendment (the "Amendment") to PRP's existing loan agreement dated as of February 11, 2016 to provide for additional borrowings of \$69.5 million, increasing the outstanding loan balance as of the date of the Amendment from \$189.3 million to \$258.8 million. The PRP Mortgage Loan is collateralized by 105 properties owned by PRP.

The PRP Mortgage Loan permits the Company to refinance or sell the Collateral Properties and the Unencumbered Properties, subject to certain terms and conditions, including that specified release proceeds are applied against the outstanding loan balance. If the PRP Mortgage Loan balance exceeds \$219.9 million on March 1, 2017 or \$160.0 million on September 1, 2017, PRP's rental income is required to be applied against the outstanding loan balance. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Overview

We are one of the largest casual dining restaurant companies in the world with a portfolio of leading, differentiated restaurant concepts. As of June 26, 2016, we owned and operated 1,335 restaurants and franchised 166 restaurants across 48 states, Puerto Rico, Guam and 20 countries. We have four founder-inspired concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar.

The casual dining restaurant industry is a highly competitive and fragmented industry and is sensitive to changes in the economy, trends in lifestyles, seasonality and fluctuating costs. Operating margins for restaurants can vary due to competitive pricing strategies, labor costs and fluctuations in prices of commodities and other necessities to operate a restaurant, such as natural gas or other energy supplies. Restaurant companies tend to be focused on increasing market share, comparable restaurant sales growth and new unit growth. Our industry is characterized by high initial capital investment, coupled with high labor costs. As a result, we focus on driving increased sales at existing restaurants in order to raise margins and profits, because the incremental contribution to profits from every additional dollar of sales above the minimum costs required to open, staff and operate a restaurant is relatively high. Historically, we have focused on restaurant growth with strong unit level economics.

Executive Summary

Our financial results for the thirteen weeks ended June 26, 2016 ("second quarter of 2016") include the following:

A decrease in total revenues of 1.9% to \$1.1 billion in the second quarter of 2016, as compared to the second quarter of 2015, was primarily due to: (i) a 2.3% decrease in U.S. comparable restaurant sales, primarily due to a decline in customer traffic, (ii) the effect of foreign currency translation, due to the depreciation of the Brazil Real, and (iii) the closing of 23 restaurants since March 29, 2015. The decrease in restaurant sales was partially offset by the opening of 67 new restaurants not included in our comparable restaurant sales base.

Income from operations of \$13.3 million in the second quarter of 2016, as compared to income from operations of \$62.6 million in the second quarter of 2015, decreased primarily due to impairment charges related to the sale of Outback South Korea and lower operating margin at the restaurant-level, partially offset by lower general and administrative expense.

Following is a summary of significant actions we have taken and other factors that impacted our operating results and liquidity to date in 2016:

Sale of Outback South Korea - On July 25, 2016, we sold Outback South Korea for \$50.0 million, in cash and recognized an impairment charge of \$39.6 million during the thirteen and twenty-six weeks ended June 26, 2016. After completion of the sale, our restaurant locations in South Korea are operated as franchises. See Note 2 - Impairments, Disposals and Exit Costs of the Notes to Consolidated Financial Statements for further information.

Sale-leaseback Transactions - During the twenty-six weeks ended June 26, 2016, we entered into sale-leaseback transactions with third-parties in which we sold 46 restaurant properties at fair market value for gross proceeds of \$163.5 million. See Note 6 - Property, Fixtures and Equipment, Net of the Notes to Consolidated Financial Statements for further information.

Edgar Filing: Bloomin' Brands, Inc. - Form 10-Q

Dividend and Share Repurchase Programs - On February 12, 2016, the Board canceled the remaining \$30.0 million of authorization under the 2015 Share Repurchase Program and approved a \$250.0 million authorization (the “2016 Share Repurchase Program”).

On July 26, 2016, the Board canceled the remaining \$110.1 million of authorization under the 2016 Share Repurchase Program and approved a new \$300.0 million authorization (the “July 2016 Share Repurchase Program”). The July

2016 Share Repurchase Program will expire on January 26, 2018.

PRP Mortgage Loan - On February 11, 2016, PRP entered into the PRP Mortgage Loan, pursuant to which PRP borrowed \$300.0 million. The proceeds of the PRP Mortgage Loan were used, together with borrowings under our revolving credit facility, to prepay a portion, and fully defease the remainder, of the 2012 CMBS loan. In connection with the defeasance, we recognized a loss of \$26.6 million during the first quarter of 2016.

On July 27, 2016, PRP, as borrower, and Wells Fargo Bank, National Association, as Lender, entered into an Amendment to PRP's Original Loan Agreement to provide for additional borrowings of \$69.5 million, increasing the outstanding loan balance as of the date of the Amendment from \$189.3 million to \$258.8 million. See Note 18 - Subsequent Events of the Notes to Consolidated Financial Statements for further information.

Bonefish Restructuring - On February 12, 2016, we decided to close 14 Bonefish restaurants. We expect to substantially complete these restaurant closings by the first quarter of 2019. In connection with the Bonefish Restructuring, we recognized pre-tax restaurant and other closing costs of approximately \$0.8 million and \$4.4 million during the thirteen and twenty-six weeks ended June 26, 2016, respectively. See Note 2 - Impairments, Disposals and Exit Costs of the Notes to Consolidated Financial Statements for further information.

Key Performance Indicators

Key measures that we use in evaluating our restaurants and assessing our business include the following:

• Average restaurant unit volumes—average sales per restaurant to measure changes in customer traffic, pricing and development of the brand;

• Comparable restaurant sales—year-over-year comparison of sales volumes for Company-owned restaurants that are open 18 months or more in order to remove the impact of new restaurant openings in comparing the operations of existing restaurants;

• System-wide sales—total restaurant sales volume for all Company-owned and franchise restaurants, regardless of ownership, to interpret the overall health of our brands;

• Adjusted restaurant-level operating margin, Adjusted income from operations, Adjusted net income and Adjusted diluted earnings per share—non-GAAP financial measures utilized to evaluate our operating performance, and for which definitions, usefulness and reconciliations are described in more detail in the “Non-GAAP Financial Measures” section below; and

• Customer satisfaction scores—measurement of our customers' experiences in a variety of key attributes.

In connection with the Bonefish Restructuring, we recognized pre-tax restaurant and other closing costs of approximately \$0.8 million and \$4.4 million during the thirteen and twenty-six weeks ended June 26, 2016, respectively.

Following is a summary of expenses related to the Bonefish Restructuring and International and Domestic Restaurant Closure Initiatives recognized in Provision for impaired assets and restaurant closings in our Consolidated Statements of Operations and Comprehensive Income for the periods indicated:

We currently expect to incur additional charges of \$2.0 million to \$4.0 million for the Bonefish Restructuring over the next five years, including costs associated with lease obligations and other closure related obligations.

Other Disposals - In connection with the decision to sell our corporate airplanes, we recognized pre-tax asset impairment charges of \$0.7 million during the thirteen and twenty-six weeks ended June 28, 2015.

The remaining restaurant impairment and closing charges resulted from: (i) the carrying value of a restaurant's assets exceeding its estimated fair market value, primarily due to locations identified for relocation and closure and (ii) lease liabilities.

See Note 2 - Impairments, Disposals and Exit Costs of the Notes to Consolidated Financial Statements for further information.

The decrease in income from operations generated in the thirteen weeks ended June 26, 2016 as compared to the thirteen weeks ended June 28, 2015 was primarily due to impairment charges related to the sale of Outback South Korea and a decrease in operating margin at the restaurant-level, partially offset by lower general and administrative expense.

The decrease in income from operations generated in the twenty-six weeks ended June 26, 2016 as compared to the twenty-six weeks ended June 28, 2015 was primarily due to impairment charges related to the sale of Outback South Korea, a decrease in operating margin at the restaurant-level and higher restaurant closing costs from the Bonefish Restructuring.

Interest expense, net	\$ 10.3	\$ 12.9	\$ (2.6)	\$ 23.2	\$ 26.1	\$ (2.9)

The decrease in interest expense, net in the thirteen weeks ended June 26, 2016 as compared to the thirteen weeks ended June 28, 2015 was primarily due to lower interest expense related to the refinancing of the 2012 CMBS loan in February 2016, partially offset by additional interest expense related to our interest rate swaps and Term Loan A-1.

The decrease in interest expense, net in the twenty-six weeks ended June 26, 2016 as compared to the twenty-six weeks ended June 28, 2015 was primarily due to lower interest expense related to the refinancing of the 2012 CMBS loan in February 2016, partially offset by additional interest expense related to our interest rate swaps and from additional draws on our revolving credit facility.

SEGMENT PERFORMANCE

We have two reportable segments, U.S. and International, which reflects how we manage our business, review operating performance and allocate resources. The U.S. segment includes all brands operating in the U.S. while brands operating outside the U.S. are included in the International segment. Resources are allocated and performance is assessed by our CEO, whom we have determined to be our CODM. Following is a summary of reporting segments:

SEGMENT	CONCEPT	GEOGRAPHIC LOCATION
U.S.	Outback Steakhouse	United States of America, including Puerto Rico
	Carrabba's Italian Grill

the performance of the segments, interest and other expenses related to our credit agreements and derivative instruments, certain stock-based compensation expenses and certain bonus expenses.

Prior to 2016, certain insurance expenses were not allocated to our concepts as these expenses were reviewed and evaluated on a Company-wide basis and therefore, these costs were excluded from segment restaurant-level operating margin and income from operations. In 2016, management changed how insurance expenses related to our restaurants are reviewed and now considers those costs when evaluating the operating performance of our concepts. Accordingly, we have recast all prior period segment information to reflect this change.

Restaurant-level operating margin

The decrease in U.S. restaurant-level operating margin in the thirteen and twenty-six weeks ended June 26, 2016 as compared to the thirteen and twenty-six weeks ended June 28, 2015, was primarily due to: (i) higher kitchen and labor costs, (ii) product mix and (iii) higher rent expense due to the sale-leaseback of certain Outback Steakhouse properties. The decrease was partially offset by the impact of certain cost savings initiatives and menu price increases.

Income from operations

The decrease in U.S. income from operations generated in the thirteen weeks ended June 26, 2016 as compared to the thirteen weeks ended June 28, 2015 was primarily due to a decrease in operating margin at the restaurant-level, partially offset by lower General and administrative expense. Non-GAAP Financial Measures

In addition to the results provided in accordance with U.S. GAAP, we provide certain non-GAAP measures, which present operating results on an adjusted basis. These are supplemental measures of performance that are not required by or presented in accordance with U.S. GAAP and include the following: (i) system-wide sales, (ii) Adjusted restaurant-level operating margins, (iii) Adjusted income from operations and the corresponding margins, (iv) Adjusted net income and (v) Adjusted diluted earnings per share.

We believe that our use of non-GAAP financial measures permits investors to assess the operating performance of our business relative to our performance based on U.S. GAAP results and relative to other companies within the restaurant industry by isolating the effects of certain items that may vary from period to period without correlation to core operating performance or that vary widely among similar companies. However, our inclusion of these adjusted measures should not be construed as an indication that our future results will be unaffected by unusual or infrequent items or that the items for which we have made adjustments are unusual or infrequent or will not recur. We believe that the disclosure of these non-GAAP measures is useful to investors as they form part of the basis for how our management team and Board of Directors evaluate our operating performance, allocate resources and establish employee incentive plans.

These non-GAAP financial measures are not intended to replace U.S. GAAP financial measures, and they are not necessarily standardized or comparable to similarly titled measures used by other companies. We maintain internal guidelines with respect to the types of adjustments we include in our non-GAAP measures. These guidelines endeavor to differentiate between types of gains and expenses that are reflective of our core operations, and those that vary from period to period without correlation to our core performance in that period. However, implementation of these guidelines necessarily involves the application of judgment, and the treatment of any items not directly addressed by, or changes to, our guidelines will be considered by our disclosure committee. Refer to the reconciliations of non-GAAP measures for descriptions of the actual adjustments made in the current period and the corresponding prior period.

(2) Represents asset impairment charges and accelerated depreciation incurred in connection with our relocation and remodel programs.

- (6) Relates primarily to the following: (i) costs incurred with our sale-leaseback initiative in 2016 and (ii) costs incurred with the secondary offering of our common stock in March 2015.
- Relates to a payroll tax audit contingency adjustment for the employer's share of FICA taxes related to cash tips allegedly received and unreported by our employees during calendar year 2011, which is recorded in Labor and other related expenses. In addition, a deferred income tax adjustment has been recorded for the allowable income tax credits for the employer's share of FICA taxes expected to be paid, which is included in Provision for income taxes and offsets the adjustment to Labor and other related expenses. As a result, there is no impact to Net income from this adjustment.

(10) Primarily represents loss on the sale of our Roy's business in 2015.

Represents income tax effect of the adjustments, on a jurisdiction basis, for the thirteen and twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively. Included in the adjustments for the thirteen weeks and (11) twenty-six weeks ended June 26, 2016 is \$3.5 million related to deferred tax liabilities for the Outback South Korea sale.

Due to the GAAP net loss, the effect of dilutive securities was excluded from the calculation of GAAP diluted (12) (loss) earnings per share for the thirteen weeks ended June 26, 2016. For adjusted diluted earnings per share, the calculation includes dilutive shares of 3,013 for the thirteen weeks ended June 26, 2016.

Liquidity and Capital Resources

LIQUIDITY

Our liquidity sources consist of cash flow from our operations, cash and cash equivalents and credit capacity under our credit facilities. We expect to use cash primarily for general operating expenses, remodeling or relocating older restaurants, the development of new restaurants and new markets, principal and interest payments on our debt, share repurchases and dividend payments, obligations related to our deferred compensation plans and investments in technology.

We believe that our expected liquidity sources are adequate to fund debt service requirements, operating lease obligations, capital expenditures and working capital obligations for at least the next 12 months. However, our ability to continue to meet these requirements and obligations will depend on, among other things, our ability to achieve anticipated levels of revenue and cash flow and our ability to manage costs and working capital successfully.

Cash and Cash Equivalents - As of June 26, 2016, we had \$102.1 million in cash and cash equivalents, of which \$37.7 million was held by foreign affiliates, primarily in Brazil, a portion of which would be subject to additional taxes if repatriated to the United States. The international jurisdictions in which we have significant cash do not have any known restrictions that would prohibit the repatriation of cash and cash equivalents.

In connection with the sale of Outback South Korea, we no longer assert that the earnings of our South Korean subsidiary will be permanently reinvested and have, therefore, recognized deferred tax liabilities of \$3.5 million during the thirteen and twenty-six weeks ended June 26, 2016. As of June 26, 2016, we had aggregate undistributed earnings for other foreign subsidiaries of \$58.0 million, which we consider to be permanently reinvested and are expected to continue to be permanently reinvested. It is not practical to determine the amount of unrecognized deferred income tax liabilities on the undistributed earnings we consider to be permanently reinvested.

Sale of Outback South Korea - On July 7, 2016, we entered into an agreement to sell Outback South Korea for a purchase price of \$50.0 million. See Note 2 - Impairments, Disposals and Exit Costs of the Notes to Consolidated Financial Statements for further information.

Sale-Leaseback Transactions - During the twenty-six weeks ended June 26, 2016, we entered into sale-leaseback transactions with third-parties in which we sold 46 restaurant properties at fair market value for gross proceeds of \$163.5 million.

Bonefish Restructuring - On February 12, 2016, we decided to close 14 Bonefish restaurants. We expect to substantially complete these restaurant closings through the first quarter of 2019. Total future cash expenditures of \$11.1 million to \$13.3 million, primarily related to lease liabilities, are expected to occur through October 2024.

Capital Expenditures - We estimate that our capital expenditures will total between \$235.0 million and \$255.0 million in 2016. The amount of actual capital expenditures may be affected by general economic, financial, competitive, legislative and regulatory factors, among other things, including restrictions imposed by our borrowing arrangements. We expect to continue to review the level of expected capital expenditures throughout 2016.

(2) Subsequent to June 26, 2016, PRP entered into an amendment to its existing PRP Mortgage Loan. See Note 18 - Subsequent Events for further discussion.

Credit Agreement - As of June 26, 2016, we had \$182.7 million in available unused borrowing capacity under our revolving credit facility, net of letters of credit of \$29.3 million.

The Credit Agreement contains mandatory prepayment requirements for Term loan A and Term loan A-1. We are required to prepay outstanding amounts under Term loan A and Term loan A-1 with 50% of our annual excess cash

flow, as defined in the Credit Agreement. The amount of outstanding Term loan A and Term loan A-1 required to be prepaid may vary based on our leverage ratio and year end results. Other than the required minimum amortization premiums of \$25.3 million, we do not anticipate any other payments will be required through June 25, 2017.

PRP Mortgage Loan - On February 11, 2016, PRP, as borrower, and Wells Fargo Bank, National Association, as Lender, entered into the PRP Mortgage Loan, pursuant to which PRP borrowed \$300.0 million. The PRP Mortgage Loan has an Initial Maturity date of February 11, 2018 with an option to extend the Initial Maturity for one twelve-month Extension provided that certain conditions are satisfied. The PRP Mortgage Loan is collateralized by certain properties owned by PRP. PRP has also made negative pledges with respect to certain unencumbered properties.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

The proceeds of the PRP Mortgage Loan were used, together with borrowings under our revolving credit facility, to prepay a portion, and fully defease the remainder, of the 2012 CMBS loan. In connection with the defeasance, we recognized a loss of \$26.6 million during the twenty-six weeks ended June 26, 2016. Following the defeasance of the 2012 CMBS loan, \$19.3 million of restricted cash was released.

On July 27, 2016, PRP, as borrower, and Wells Fargo Bank, National Association, as lender (the "Lender"), entered into a First Amendment (the "Amendment") to PRP's existing loan agreement dated as of February 11, 2016 (the "Original Loan Agreement") to provide for additional borrowings of \$69.5 million, increasing the outstanding loan balance as of the date of the Amendment from \$189.3 million to \$258.8 million.

The PRP Mortgage Loan permits us to refinance or sell the Collateral Properties and the Unencumbered Properties, subject to certain terms and conditions, including that specified release proceeds are applied against the outstanding loan balance. If the PRP Mortgage Loan balance exceeds \$219.9 million on March 1, 2017 or \$160.0 million on September 1, 2017, PRP's rental income will be required to be applied against the outstanding loan balance. The PRP Mortgage Loan repayment schedule, including the Extension, is as follows (dollars in thousands):

PAYMENT DATE	INITIAL MATURITY	EXTENSION
February 28, 2017	\$ 38,813	\$ 38,813
August 31, 2017	59,943	59,943
February 11, 2018	160,000	50,000
August 31, 2018	—	50,000
February 11, 2019	—	60,000
	\$ 258,756	\$ 258,756

We intend to fund payment of the PRP Mortgage Loan with proceeds from sale-leaseback transactions of our real estate portfolio.

Debt Covenants - Our Credit Agreement and PRP Mortgage Loan contain various financial and non-financial covenants. A violation of these covenants could negatively impact our liquidity by restricting our ability to borrow under the revolving credit facility and cause an acceleration of the amounts due under the credit facilities. See Note 12 - Long-term Debt, Net in our Annual Report on Form 10-K for the year ended December 27, 2015 for further information.

As of June 26, 2016 and December 27, 2015, we were in compliance with our debt covenants. We believe that we will remain in compliance with our debt covenants during the next 12 months.

Cash Flow Hedges of Interest Rate Risk - On September 9, 2014, we entered into variable-to-fixed interest rate swap agreements with eight counterparties to hedge a portion of the cash flows of our variable rate debt. The swap agreements have an aggregate notional amount of \$400.0 million, a start date of June 30, 2015, and mature on May 16, 2019. Under the terms of the swap agreements, we pay a weighted-average fixed rate of 2.02% on the \$400.0 million notional amount and receive payments from the counterparty based on the 30-day LIBOR rate. We estimate \$6.1 million will be reclassified to interest expense over the next twelve months. See Note 13 - Derivative Instruments and Hedging Activities of the Notes to Consolidated Financial Statements for further information.

Net cash used in financing activities	\$(284,471)	\$(139,118)

Net cash used in financing activities for the twenty-six weeks ended June 26, 2016 was primarily attributable to the following: (i) the defeasance of the 2012 CMBS loan and payments on our revolving credit facility, (ii) the repurchase of common stock, (iii) payment of cash dividends on our common stock and (iv) repayments of partner deposits and accrued partner obligations. Net cash used in financing activities was partially offset by proceeds from the PRP Mortgage loan and drawdowns on our revolving credit facility.

Net cash used in financing activities for the twenty-six weeks ended June 28, 2015 was primarily attributable to the following: (i) repayments of the Term loan B due to the Senior Secured Credit Facility refinancing in March 2015 and voluntary prepayments, (ii) the repurchase of common stock, (iii) repayments of partner deposits and accrued partner obligations and (iv) payment of cash dividends on our common stock. Net cash used in financing activities was partially offset by the following: (i) proceeds from the refinancing of the Senior Secured Credit Facility and revolving credit facilities and (ii) proceeds from the exercise of stock options.

FINANCIAL CONDITION

Following is a summary of our current assets, current liabilities and working capital:

(dollars in thousands)	JUNE 26, 2016	DECEMBER 27, 2015
Current assets	\$296,148	\$ 418,644
Current liabilities	724,845	814,166
Working capital (deficit)	\$(428,697)	\$(395,522)

Working capital (deficit) totaled (\$428.7) million and (\$395.5) million as of June 26, 2016 and December 27, 2015, respectively, and included Unearned revenue from unredeemed gift cards of \$264.9 million and \$382.6 million as of June 26, 2016 and December 27, 2015, respectively. We have, and in the future may continue to have, negative working capital balances (as is common for many restaurant companies). We operate successfully with negative working capital because cash collected on restaurant sales is typically received before payment is due on our current

liabilities, and our inventory turnover rates require relatively low investment in inventories. Additionally, ongoing cash flows from restaurant operations and gift card sales are used to service debt obligations and to make capital expenditures.

Deferred Compensation Programs - The deferred compensation obligation due to managing and chef partners was \$123.3 million and \$133.2 million as of June 26, 2016 and December 27, 2015, respectively. We invest in various corporate-owned life insurance policies, which are held within an irrevocable grantor or "rabbi" trust account for settlement of our obligations under the deferred compensation plans. The rabbi trust is funded through our voluntary contributions. The unfunded obligation for managing and chef partners' deferred compensation was \$63.6 million as of June 26, 2016.

We use capital to fund the deferred compensation plans and currently expect annual cash funding of \$18.0 million to \$22.0 million. Actual funding of the deferred compensation obligations and future funding requirements may vary significantly depending on the actual performance compared to targets, timing of deferred payments of partner contracts, forfeiture rates, number of partner participants, growth of partner investments and our funding strategy.

DIVIDENDS AND SHARE REPURCHASES

In August 2015, our Board approved the 2015 Share Repurchase Program under which we were authorized to repurchase up to \$100.0 million of our outstanding common stock. Our Board canceled the remaining \$30.0 million of authorization under the 2015 Share Repurchase Program and approved a new \$250.0 million authorization on February 12, 2016.

On July 26, 2016, the Board canceled the remaining \$110.1 million of authorization under the 2016 Share Repurchase Program and approved a new \$300.0 million authorization (the "July 2016 Share Repurchase Program"). The July 2016 Share Repurchase Program will expire on January 26, 2018. Under the July 2016 Share Repurchase Program, shares may be repurchased in open market transactions, including under plans complying with Rule 10b5-1 under the Exchange Act, or privately negotiated transactions, including accelerated repurchase arrangements.

The following table presents our dividends and share repurchases from December 27, 2014 through June 26, 2016:
