**2. Basis of Presentation**

The accompanying unaudited consolidated financial statements as of June 30, 2007 and for the three and six months ended June 30, 2007 and 2006 have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and footnotes required for a complete set of financial statements in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting only of normal and recurring adjustments, considered necessary for a fair statement have been included in the accompanying unaudited consolidated financial statements. All intercompany transactions and balances have been eliminated in consolidation. Operating results for the three and six months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2007. The December 31, 2006 balance sheet information has been derived from the audited 2006 financial statements, but does not include all disclosures required for a complete set of financial statements in accordance with accounting principles generally accepted in the United States of America. For further information, please refer to the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2006, filed with the Securities and Exchange Commission on March 16, 2007 and amended on April 30, 2007.

Included in our provision for income taxes for the three and six months ended June 30, 2006 is approximately \$0.4 million and \$0.2 million, respectively, of additional tax expense that relates to prior periods. This additional tax expense relates to an adjustment in our calculation of income taxes associated with our Canadian subsidiary, DealerTrack Canada, Inc. (formerly known as DealerAccess Canada Inc.).

**3. Net Income per Share**

For the three and six months ended June 30, 2007 and 2006, we computed net income per share in accordance SFAS No. 128, *Earnings per Share*. Under the provisions of SFAS No. 128, basic earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding, assuming dilution, during the period. The diluted earnings per share calculation assumes that (i) all stock options, which are in the money are exercised at the beginning of the period and the proceeds used by us to purchase shares at the average market price for the period and (ii) if applicable, unvested awards that are considered to be contingently issuable shares because they contain either a performance or market condition will be included in diluted

Edgar Filing: DealerTrack Holdings, Inc. - Form 10-Q

earnings per share in accordance with SFAS No. 128 if dilutive and if their conditions (a) have been satisfied at the reporting date or (b) would have been satisfied if the reporting date was the end of the contingency period.

**Table of Contents****6. Business Combinations*****Curomax Acquisition***

On February 1, 2007, we completed the purchase of all of the outstanding shares of Curomax Corporation and its subsidiaries (Curomax) pursuant to a shares purchase agreement, made as of January 16, 2007, for a cash purchase price of approximately \$39.0 million (including estimated direct acquisition and restructuring costs of approximately \$1.8 million). Under the terms of the shares purchase agreement, we have future contingent payment obligations of approximately \$2.1 million in cash to be paid out based upon the achievement of certain operational objectives over the subsequent twenty-four months. The additional purchase consideration, if any, will be recorded as additional goodwill on our consolidated balance sheet when the contingency is resolved. As of June 30, 2007, none of these contingencies were resolved.

Curomax offers an online financing portal similar to ours and DealerAccess. This acquisition will further enhance our ability to provide leading technology solutions to the Canadian automotive finance industry and expand our dealer and financing source customer base in Canada.

In connection with the Curomax business combination we originally recorded in purchase accounting an estimated restructuring liability of \$1.5 million relating to employee severance and related benefit costs. During the second quarter, we paid \$0.4 million of employee severance and related benefit costs and also recorded an adjustment of \$0.2 million to reduce the restructuring liability and the cost of the purchase. As of June 30, 2007, we have not yet completed all of the workforce reductions and the remaining liability is \$0.9 million, which is expected to be paid by December 31, 2007. The estimated liability may change subsequent to its initial recognition, requiring adjustments to the purchase price recorded.

This acquisition was recorded under the purchase method of accounting, resulting in the total purchase price being allocated to the assets acquired and liabilities assumed according to their estimated fair values at the date of acquisition as follows (in thousands):

Current assets	\$ 2,454
Property and equipment	339
Intangible assets	21,670
Goodwill	19,926
Total assets acquired	44,389
Total liabilities assumed	(5,424)
Net assets acquired	\$ 38,965

Total liabilities assumed includes a \$3.9 million deferred tax liability that relates to the amortization of acquired intangibles.

We allocated the amounts to intangible assets and goodwill based on fair value appraisals as follows: approximately \$17.2 million of the purchase price has been allocated to customer contracts, \$0.8 million to purchased technology and \$3.7 million to non-compete agreements. These intangibles are being amortized on a straight-line basis over one to four years based on each intangible's estimated useful life. We also recorded approximately \$19.9 million in goodwill, which represents the remainder of the excess of the purchase price over the fair value of the net assets acquired.

The results of Curomax were included in our consolidated statements of operations from the date of acquisition.

***Arkona Acquisition***

On June 6, 2007, we completed the purchase of all of the outstanding shares of Arkona, Inc. (Arkona) for a cash purchase price of approximately \$59.8 million (including estimated direct acquisition costs of approximately \$0.9 million). This acquisition expands our product suite with an on-demand dealership management system that can

Edgar Filing: DealerTrack Holdings, Inc. - Form 10-Q

be utilized by franchised, independent and other specialty retail dealers.

This acquisition was recorded under the purchase method of accounting, resulting in the total purchase price being allocated to the assets acquired and liabilities assumed according to their estimated fair values at the date of acquisition as follows (in thousands):

Current assets	\$ 2,743
Property and equipment	2,065
Other assets	191
Intangible assets	22,988
Goodwill	40,792
Total assets acquired	68,779
Total liabilities assumed	(8,930)
Net assets acquired	\$ 59,849

**Table of Contents**

Total liabilities assumed includes a \$9.2 million deferred tax liability that relates to the amortization of acquired intangibles offset by a \$5.3 million deferred tax asset that relates primarily to acquired net operating loss carryovers.

We are in the process of finalizing the fair value assessment for the acquired identifiable assets, which is expected to be completed by December 31, 2007, and accordingly the related purchase accounting is not final as of June 30, 2007. We anticipate that these identifiable intangibles will include customer contracts, technology and non-compete agreements. As of June 30, 2007, we allocated \$23.0 million to identifiable intangible assets and \$40.8 million to goodwill utilizing an estimated useful life for the identifiable intangibles of five years. The amortization expense for the Arkona acquired intangible assets is being recorded to cost of revenue. The final allocation may be materially different from the preliminary allocation. For every 5% of the excess purchase price that our final assessment allocates toward additional identifiable intangibles rather than goodwill, amortization expense will increase approximately \$0.4 million per annum. In addition, for every one year that the average useful life of the identifiable intangibles is less than the average five year estimate that was utilized in this preliminary assessment, our amortization expense will increase by approximately \$1.1 million per annum. Conversely, for every one year that the average useful life of the identifiable intangibles exceeds the average five year estimate used for the purposes of the preliminary assessment, our amortization expense will be reduced by approximately \$0.8 million per annum.

The results of Arkona were included in our consolidated statements of operations from the date of acquisition.

**Unaudited Pro Forma Summary of Operations**

The accompanying unaudited pro forma summary presents our consolidated results of operations as if the acquisitions of Arkona Inc., Curomax Corporation, DealerWare L.L.C., and Global Fax, L.L.C. had been completed as of the beginning of each period presented. The pro forma information does not necessarily reflect the actual results that would have been achieved, nor is it necessarily indicative of our future consolidated results.

**7. Related Party Transactions*****Service Agreement with Related Parties Financing Sources***

We have entered into agreements with the automotive financing source affiliates of certain of our former stockholders. Each has agreed to subscribe to and use our network to receive credit application data and transmit credit decisions electronically and several have subscribed to our data services and other products. Under the agreements to receive credit application data and transmit credit decisions electronically, the automotive financing

source affiliates of these current and former stockholders have most favored nation status, granting each of them the right to no less favorable pricing terms for certain of our products and services than those granted by us to other financing sources, subject to limited exceptions. The agreements of the automotive financing source affiliates of these stockholders also restrict our ability to terminate such agreements.

The total amount of net revenue from these related parties for the three and six months ended June 30, 2006 was \$10.2 million and \$18.8 million, respectively.

As a result of our October 12, 2006 public offering, we no longer have a financing source as a related party.

Amortization expense that will be charged to income for the subsequent five years and thereafter is estimated, based on the June 30, 2007 book value, to be \$21.3 million in 2008, \$16.0 million in 2009, \$13.1 million in 2010, \$6.5 million in 2011, \$2.6 million in 2012 and thereafter \$1.7 million.

Based upon a fair value assessment we allocated \$4.2 million to the non-compete agreement, \$0.4 million to the customer list and \$0.5 million to the data license. All three intangibles will be amortized to cost of revenue over three years.

Included in the gross book value as of June 30, 2007, is \$1.9 million in foreign currency translation.

**12. Income Taxes**

We adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an *Interpretation of FASB Statement No. 109 of FIN 48*, on January 1, 2007. FIN 48 specifies the way companies are to account for uncertainty in income tax reporting, and prescribes the methodology for recognizing, reversing, and measuring the tax benefits of a tax position taken, or expected to be taken, in a tax return. Our adoption of FIN 48 did not result in any change to the level of our liability for uncertain tax positions, and there was no adjustment to our retained earnings for the cumulative effect of an accounting change. At January 1, 2007, the total liability for uncertain tax positions recorded in our balance sheet in accrued other liabilities was \$0.4 million. Approximately \$0.3 million of the liability for uncertain tax positions would affect our effective rate upon the resolution of uncertain tax positions. We settled \$0.3 million of these liabilities during the six months ended June 30, 2007. We do not expect any significant changes to our uncertain tax positions during the next six months.

We file a consolidated U.S. income tax return and tax returns in various state and local jurisdictions. Certain of our subsidiaries also file income tax returns in Canada. The Internal Revenue Service has completed its examination of our federal income tax returns through 2004.

Interest and penalties, if any, related to tax positions taken in our tax returns are recorded in general and administrative expenses in our consolidated statement of operations. At January 1, 2007, no amounts were accrued for

interest and penalties related to tax positions taken on our tax returns. There was no change to this amount during the first six months of 2007.

**13. Long-Term Incentive Equity Awards**

On August 2, 2006 and November 2, 2006, the compensation committee of the board of directors granted long-term incentive equity awards under the 2005 Incentive Award Plan consisting of 565,000 shares and 35,000 shares of restricted common stock, respectively, to certain executive officers and other employees. Each individual s award is allocated 50% to achieving earnings before interest, taxes, depreciation and amortization, as adjusted to reflect any future acquisitions (EBITDA Performance Award) and 50% to the market value of our common stock (Market Value Award). The awards are earned upon our achievement of EBITDA and market-based targets for the years ending December 31, 2007, 2008 and 2009, but will not vest unless the grantee remains continuously employed in active service until January 31, 2010. If an EBITDA Performance Award or Market Value Award is not earned in an earlier year, it can be earned upon achievement of that target in a subsequent year. The awards will accelerate in full upon a change in control, if any.

**Table of Contents**

In accordance with FAS 123R, we valued the EBITDA Performance Award and the Market Value Award using the Black-Scholes and binomial lattice-based valuation pricing models, respectively. The total fair value of the entire EBITDA Performance Award is \$5.8 million (prior to estimated forfeitures), of which, in January 2007, we began expensing on a straight-line basis the amount associated with the 2007 award as it was deemed probable that the performance threshold for the year ending December 31, 2007 would be met. The expense recorded related to the EBITDA Performance Award was \$0.3 million for the six months ended June 30, 2007. The total value of the entire Market Value Award is \$2.4 million (including estimated forfeitures), which is expensed on a straight-line basis from the date of grant over the applicable service period. As long as the service condition is satisfied, the expense is not reversed, even if the market conditions are not satisfied. The expense recorded related to the Market Value Award was \$0.3 million for the six months ended June 30, 2007.

**14. Commitments and Contingencies*****Executive Severance Commitment***

As of June 30, 2007, we are obligated to pay an executive severance commitment of \$0.5 million, which will be paid in equal installments over the succeeding 15 months.

***Retail Sales Tax***

The Ontario Ministry of Finance (the Ministry) has conducted a retail sales tax field audit on the financial records of one of our Canadian subsidiaries, DealerAccess Canada, Inc., for the period from March 1, 2001 through May 31, 2003. We received a formal assessment from the Ministry indicating unpaid Ontario retail sales tax totaling approximately \$0.2 million, plus interest. Although we are disputing the Ministry's findings, the assessment, including interest, has been paid in order to avoid potential future interest and penalties.

As part of the purchase agreement dated December 31, 2003 between us and Bank of Montreal for the purchase of 100% of the issued and outstanding capital stock of DealerAccess, Bank of Montreal agreed to indemnify us specifically for this potential liability for all sales tax periods prior to January 1, 2004. As of December 31, 2005, all amounts paid to the Ministry by us for this assessment have been reimbursed by the Bank of Montreal under this indemnity.

We have undertaken a comprehensive review of the audit findings of the Ministry using external tax experts. Our position is that our financing source revenue transactions are not subject to Ontario retail sales tax. We filed a formal Notice of Objection with the Ministry on December 12, 2005. No further communication from the Ministry has been received other than an acknowledgment of receipt of the Notice of Objection.

Based upon our comprehensive review and the contractual obligations of our customers, we do not believe our services are subject to sales tax and have not accrued any sales tax liability for the period subsequent to December 31, 2003 for our Canadian subsidiary. In the event we are obligated to charge sales tax, our Canadian subsidiary's contractual arrangements with its financing source customers obligate these customers to pay all sales taxes that are levied or imposed by any taxing authority by reason of the transactions contemplated under the contractual arrangement. However, there is no assurance that any of our customers would be able to pay such sales taxes when due. In the event of any failure to pay sales tax, we would be required to pay the obligation, which could have a material adverse effect on our business, prospects, financial condition and results of operations.

***Commitments***

Pursuant to employment or severance agreements with certain employees, we have a commitment to pay severance of approximately \$7.9 million as of June 30, 2007 and \$6.5 million as of December 31, 2006, in the event of termination without cause, as defined in the agreements, as well as certain potential gross-up payments to the extent any such severance payment would constitute an excess parachute payment under the Internal Revenue Code.

We are a party to a variety of agreements pursuant to which we may be obligated to indemnify the other party with respect to breach of contract, infringement and other matters. Typically, these obligations arise in the context of agreements entered into by us, under which we customarily agree to hold the other party harmless against losses arising from breaches of representations, warranties and/or covenants. In these circumstances, payment by us is generally conditioned on the other party making a claim pursuant to the procedures specified in the particular agreement, which procedures typically allow us to challenge the other party's claims. Further, our obligations under these agreements may be limited to indemnification of third-party claims only and limited in terms of time and/or

amount. In some instances, we may have recourse against third parties for certain payments made by us.

It is not possible to predict the maximum potential amount of future payments under these or similar agreements due to the conditional nature of our obligations and the unique facts and circumstances involved in each particular agreement. To date, we have not been required to make any such payment. We believe that if we were to incur a loss in any of these matters, it is not probable that such loss would have a material effect on our business or financial condition. It is possible; however, that such loss could have a material impact on our results of operations in an individual reporting period.

***Legal Proceedings***

From time to time, we are a party to litigation matters arising in connection with the normal course of our business, none of which is expected to have a material adverse effect on us. In addition to the litigation matters arising in connection with the normal course of our business, we are party to the litigation described below.

A hearing on claims construction, referred to as a Markman hearing, has been scheduled for September 2007.

We intend to pursue our claims and defend any counter claims vigorously.

We believe that the potential liability from all current litigations will not have a material effect on our financial position or results of operations when resolved in a future period.

**Overview**

DealerTrack is a leading provider of on-demand software, network and data solutions for the automotive retail industry in the United States. Utilizing the Internet, we have built a network connecting automotive dealers with banks, finance companies, credit unions and other financing sources, and other service and information providers, such as aftermarket providers and the major credit reporting agencies. We have established a network of active relationships in the United States, which, as of June 30, 2007, consisted of over 22,000 automotive dealers, including over 90% of all franchised dealers; over 375 financing sources, including the 20 largest independent financing sources and a number of other service and information providers to the automotive retail industry. Our credit application processing product enables dealers to automate and accelerate the indirect automotive financing process by increasing the speed of communications between these dealers and their financing sources. We have leveraged our leading market position in credit application processing to address other inefficiencies in the automotive retail industry value chain. We believe our proven network provides a competitive advantage for distribution of our software and data solutions. Our integrated subscription-based software products and services enable our dealer customers to manage their dealership data and operations, receive valuable consumer leads, compare various financing and leasing options and programs, sell insurance and other aftermarket products, analyze inventory, document compliance with certain

laws and execute financing contracts electronically. We have also created efficiencies for financing source customers by providing a comprehensive digital and electronic contracting solution. In addition, we offer data and other products and services to various industry participants, including lease residual value and automobile configuration data.

We are a Delaware corporation formed in August 2001. We are organized as a holding company and conduct a substantial amount of our business through our subsidiaries including Automotive Lease Guide (alg), Inc., Arkona, Inc., Chrome Systems, Inc., DealerTrack Aftermarket Services, Inc., DealerTrack Canada, Inc., DealerTrack Digital Services, Inc., DealerTrack, Inc., and webalg, inc.

We monitor our performance as a business using a number of measures that are not found in our consolidated financial statements. These measures include the number of active dealers and financing sources in the DealerTrack network. We believe that improvements in these metrics will result in improvements in our financial performance over time. We also view the acquisition and successful integration of acquired companies as important milestones in the growth of our business as these acquired companies bring new products to our customers and expand

**Table of Contents**

our technological capabilities. We believe that successful acquisitions will also lead to improvements in our financial performance over time. In the near term, however, the purchase accounting treatment of acquisitions can have a negative impact on our net income as the depreciation and amortization expenses associated with acquired assets, as well as particular intangibles (which tend to have a relatively short useful life), can be substantial in the first several years following an acquisition. As a result, we monitor our EBITDA and other business statistics as a measure of operating performance in addition to net income and the other measures included in our consolidated financial statements.

The following is a table consisting of EBITDA and certain other business statistics that management is continually monitoring (amounts in thousands, except active dealers and financing source data):

	<b>Three Months Ended June</b>		<b>Six Months Ended June 30,</b>	
	<b>2007</b>	<b>30, 2006</b>	<b>2007</b>	<b>2006</b>

Capital expenditures, software and web site development costs	\$ 2,253	\$ 2,554	\$ 5,700	\$ 7,322
Active dealers in our network as of end of the period (2)	22,630	22,031	22,630	22,031
Active financing sources in our network as of end of period (3)	380	243	380	243

(1) EBITDA represents net income before interest (income) expense, taxes, depreciation and amortization. We present EBITDA because we believe that EBITDA provides useful information with respect to the performance of our fundamental business activities and is also frequently used by securities analysts, investors and other interested parties in the evaluation of comparable companies. We rely on EBITDA as a primary measure to review

and assess the operating performance of our company and management team in connection with our executive compensation plan incentive payments. In addition, our credit agreement uses EBITDA (with additional adjustments), in part, to measure our compliance with covenants such as interest coverage.

EBITDA has limitations as an analytical tool and you should not consider it in isolation, or as a substitute for analysis of our results as reported under Generally Accepted Accounting Principles (GAAP). Some of these limitations are:

EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debts;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements; and

Other companies may calculate EBITDA differently than we do, limiting its usefulness as a comparative measure. Because of these limitations, EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using EBITDA only supplementally. EBITDA is a measure of our performance that is not required by, or presented in accordance with, GAAP. EBITDA is not a measurement of our financial performance under GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with GAAP or as an alternative to cash flow from operating activities as a measure of our liquidity. The following table sets forth the reconciliation of EBITDA, a non-GAAP financial measure, to net income, our most directly comparable financial measure in accordance with GAAP (in thousands):

- (2) We consider a dealer to be active as of a date if the dealer completed at least one revenue-generating credit application processing transaction using the DealerTrack network during the most recently ended calendar month.
- (3) We consider a financing source to be active in our network as of a date if it is accepting credit application data electronically from dealers in the DealerTrack network.

**Revenue**

*Transaction Services Revenue.* Transaction services revenue consists of revenue earned from our financing source customers for each credit application that dealers submit to them. We also earn transaction services revenue from financing source customers for each financing contract executed via our electronic contracting and digital contract processing solutions, as well as for any portfolio residual value analyses we perform for them. We also earn transaction services revenue from dealers or other service and information providers, such as aftermarket providers, vehicle sales lead distributors, and credit report providers, for each fee-bearing product accessed by dealers.

*Subscription Services Revenue.* Subscription services revenue consists of revenue earned from our customers (typically on a monthly basis) for use of our subscription or license-based products and services. Some of these subscription services enable dealer customers to manage their dealership data and operations, obtain valuable consumer leads, compare various financing and leasing options and programs, sell insurance and other aftermarket products, analyze inventory, and execute financing contracts electronically.

**Cost of Revenue and Operating Expenses**

*Cost of Revenue.* Cost of revenue primarily consists of expenses related to running our network infrastructure (including Internet connectivity and data storage), amortization expense on acquired intangible assets, compensation and related benefits for network personnel, amounts paid to third parties pursuant to contracts under which a portion of certain revenue is owed to those third parties (revenue share), direct costs (printing, binding, and delivery) associated with our residual value guides, hardware costs associated with our dealership management system product offering, allocated overhead and amortization associated with capitalization of software. We allocate overhead such as rent and occupancy charges, employee benefit costs, and depreciation expense to all departments based on headcount, as we believe this to be the most accurate measure. As a result, a portion of general overhead expenses is reflected in our cost of revenue and each operating expense category.

We are in the process of finalizing the fair value assessment for the Arkona acquired identifiable assets, which is expected to be completed by December 31, 2007, and accordingly the related purchase accounting is not final as of June 30, 2007. We anticipate that these identifiable intangibles will include customer contracts, technology and

non-compete agreements. As of June 30, 2007, we allocated \$23.0 million to identifiable intangible assets and \$40.8 million to goodwill utilizing an estimated useful life for the identifiable intangibles of five years. The amortization expense for the Arkona acquired intangible assets is being recorded to cost of revenue. The final allocation may be materially different from the preliminary allocation. For every 5% of the excess purchase price that our final assessment allocates toward additional identifiable intangibles rather than goodwill, amortization expense will increase approximately \$0.4 million per annum. In addition, for every one year that the average useful life of the identifiable intangibles is less than the average five year estimate that was utilized in this preliminary assessment, our amortization expense will increase by approximately \$1.1 million per annum. Conversely, for every one year that the average useful life of the identifiable intangibles exceeds the average five year estimate used for the purposes of the preliminary assessment, our amortization expense will be reduced by approximately \$0.8 million per annum.

*Product Development Expenses.* Product development expenses consist primarily of compensation and related benefits, consulting fees and other operating expenses associated with our product development departments. The product development departments perform research and development, as well as enhance and maintain existing products.

*Selling, General and Administrative Expenses.* Selling, general and administrative expenses consist primarily of compensation and related benefits, facility costs and professional services fees for our sales, marketing and administrative functions.

### **Acquisitions**

We have grown our business since inception through a combination of organic growth and acquisitions. The operating results of each business acquired have been included in our consolidated financial statements from the respective dates of acquisition.

On June 6, 2007, we completed the purchase of all of the outstanding shares of Arkona, for a cash purchase price of approximately \$59.8 million (including estimated direct acquisition costs of approximately \$0.9 million). Arkona is a provider of on-demand dealer management systems for automotive dealerships.

On February 1, 2007, we completed the purchase of all of the outstanding shares of Curomax for a cash purchase price of approximately \$39.0 million (including estimated direct acquisition and restructuring costs of approximately \$1.8 million). Under the terms of the shares purchase agreement, we have future contingent payment obligations of approximately \$2.1 million in cash to be paid out based upon the achievement of certain operational objectives over the subsequent twenty-four months.

**Table of Contents**

On August 1, 2006, we acquired substantially all of the assets and certain liabilities of DealerWare L.L.C. (DealerWare) for a purchase price of \$5.2 million in cash (including estimated direct acquisition costs of approximately \$0.2 million). DealerWare is a provider of aftermarket menu-selling and other dealership software.

On May 3, 2006, we acquired substantially all of the assets and certain liabilities of Global Fax L.L.C. (Global Fax) for a purchase price of \$24.6 million in cash (including estimated direct acquisition costs of approximately \$0.3 million). Global Fax provides outsourced document scanning, storage, data entry and retrieval services for automotive financing customers.

On February 2, 2006, we acquired substantially all of the assets and certain liabilities of WiredLogic, Inc., doing business as DealerWire, Inc. (DealerWire), for a purchase price of \$6.0 million in cash (including estimated direct acquisition costs of approximately \$0.1 million). DealerWire allows a dealership to evaluate its sales and inventory performance by vehicle make, model and trim, including information about unit sales, costs, days to turn and front-end gross profit.

**Critical Accounting Policies and Estimates**

Our management's discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the amounts reported for assets, liabilities, revenue, expenses and the disclosure of contingent liabilities. A summary of our significant accounting policies is more fully described in Note 2 in the section entitled "Financial Statements" in Part I, Item 1. of this Quarterly Report on Form 10-Q.

Our critical accounting policies are those that we believe are both important to the portrayal of our financial condition and results of operations and that involve difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The estimates are based on historical experience and on various assumptions about the ultimate outcome of future events. Our actual results may differ from these estimates in the event unforeseen events occur or should the assumptions used in the estimation process differ from actual results. Management believes there have been no material changes during the six months ended June 30, 2007 to the critical accounting policies discussed in the section entitled "Management Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2006, filed with the SEC on March 16, 2007 and amended on April 30, 2007.

***Off-Balance Sheet Arrangements***

We do not have any off-balance sheet arrangements or relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which are typically established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

***Industry Trends***

Our business is impacted by the volume of new and used automobiles financed or leased by our participating financing source customers, special promotions by automobile manufacturers and the level of indirect financing by captive finance companies not available in our network. Our business may be affected by these and other industry and promotional trends in the indirect automotive finance market.

***Effects of Inflation***

Our monetary assets, consisting primarily of cash and cash equivalents, short-term investments and receivables, and our non-monetary assets, consisting primarily of intangible assets and goodwill, are not affected significantly by inflation. We believe that replacement costs of equipment, furniture and leasehold improvements will not materially affect our operations. However, the rate of inflation affects our expenses, which may not be readily recoverable in the prices of products and services we offer.

**Item 3. *Quantitative and Qualitative Disclosures About Market Risk***

**Foreign Currency Exposure**

We only have operations located in, and provide services to, customers in the United States and Canada. Our earnings are affected by fluctuations in the value of the U.S. dollar as compared with the Canadian dollar. Our exposure is mitigated, in part, by the fact that we incur certain operating costs in the same foreign currencies in which revenue is denominated. The foreign currency exposure that does exist is limited by the fact that the majority of transactions are paid according to our standard payment terms, which are generally short-term in nature.

**Interest Rate Exposure**

As of June 30, 2007, we had cash, cash equivalents and short-term investments of \$91.6 million invested in highly liquid money market instruments and tax-free and tax advantaged auction rate preferred securities. Such investments are subject to interest rate and credit risk. Our

**Table of Contents**

policy of investing in securities with original maturities of three months or less minimizes such risks and a change in market interest rates would not be expected to have a material impact on our financial condition and/or results of operations. As of June 30, 2007, we had no borrowings outstanding under our revolving credit facility. Any borrowings under our revolving credit facility would bear interest at a variable rate equal to LIBOR plus a margin of 1.5% or Prime plus 0.5%.

**Item 4. Controls and Procedures**

**Disclosure Controls and Procedures**

We carried out an evaluation under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act. In designing and evaluating our disclosure controls and procedures, we and our management recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating and implementing possible controls and procedures. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that they believe that as of the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures were effective at the reasonable assurance level.

**Changes in Internal Control Over Financial Reporting**

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. We are in the process of evaluating our internal controls environment to determine if any changes are required based on our acquisitions of Curomax and Arkona.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings**

From time to time, we are a party to litigation matters arising in connection with the normal course of our business, none of which is expected to have a material adverse effect on us. In addition to the litigation matters arising in connection with the normal course of our business, we are party to the litigation described below.
