PROXY STATEMENT

This statement is furnished by the Board of Directors of Derma Sciences, Inc. (the Company) in connection with the Board's solicitation of proxies for use at its Annual Meeting of Shareholders (the Meeting) to be held at 3:00 p.m. on Wednesday, May 20, 2009, at the offices of the Company, 214 Carnegie Center, Suite 300, Princeton, New Jersey, 08540, and at any adjournments thereof. The purpose of the Meeting and the matters to be acted upon are set forth under the headings Proposal 1 and Proposal 2 hereinbelow and in the Notice of Annual Meeting of Shareholders previously mailed to shareholders.

If the on-line or paper form of Proxy is executed properly and submitted, shares represented by it will be voted at the Meeting in accordance with the instructions on the Proxy. However, if no instructions are specified, shares will be voted for the election as directors of those nominees named in the Proxy and for ratification of the selection of Ernst & Young LLP as independent registered public accounting firm for the year ended December 31, 2009. The Board knows of no matters which are to be presented for consideration at the Meeting other than those specifically described herein and in the Notice of Annual Meeting of Shareholders, but if other matters are properly presented, it is the intention of the persons designated as proxies to vote on them in accordance with their judgment.

A Proxy may be revoked at any time prior to the time it is voted by written notice to the Secretary of the Company at the above address or by submission of a proxy bearing a later date. Any shareholder may attend the Meeting and vote in person whether or not a Proxy was previously submitted.

The close of business on March 30, 2009, has been fixed as the record date (the Record Date) for the determination of shareholders entitled to notice of, and to vote at, the Meeting. On the Record Date, the Company had 40,140,743 shares of Common Stock, 150,003 shares of Series A Convertible Preferred Stock, 440,003 shares of Series B Convertible Preferred Stock, 619,055 shares of Series C Convertible Preferred Stock and 1,071,346 shares of Series D Convertible Preferred Stock outstanding and entitled to vote. The foregoing shares of Common and Preferred Stock (collectively, Shares) are the only voting securities of the Company.

The presence at the Meeting, in person or by proxy, of the holders of 21,210,576 Shares (a majority of the aggregate number of shares of Common Stock and Preferred Stock issued and outstanding and entitled to vote as of the Record Date) is necessary to constitute a quorum to transact business. Proxies marked Abstain and broker proxies that have not voted on a particular proposal (Broker Non-Votes), if any, will be counted in determining the presence of a quorum. Other than for election of directors (discussed below), each holder of Common Stock and Preferred Stock as of the Record Date is entitled to one vote per Share.

Election of the director nominees named in Proposal No. 1 requires the affirmative vote of a plurality of the total number of votes cast for the election of directors at the Meeting by the holders of Common Stock and Preferred Stock, voting together as a single class. Votes may be cast in favor of or withheld with respect to all of the director nominees, or any of them. Abstentions and Broker Non-Votes, if any, will not be counted as having been voted and will have no effect on the election of directors except to the extent the failure to vote for a nominee results in another nominee receiving a larger number of votes. Shareholders may cumulate their votes in the election of directors. That is, shareholders may multiply the number of Shares owned and entitled to vote at the Meeting by the number of directors (8) to be elected and cast the resulting number of votes for any one or more candidates.

Adoption of Proposal No. 2 requires the affirmative vote of a majority of the total number of shares of the Common Stock and Preferred Stock represented and entitled to vote at the Meeting, voting together as a single class. In determining whether Proposal No. 2 has received the requisite number of affirmative votes, abstentions will be counted and

will have the same effect as votes against the proposal, and broker non-votes, if any, will have no effect on the votes for the proposal.

The expense of solicitation will be borne by the Company. The solicitation of Proxies will be largely by mail, but may include telephonic, telegraphic or oral communications by officers or other representatives of the Company. The Company will also reimburse brokers or other persons holding shares in their names or in the names of their nominees for reasonable out-of-pocket expenses in connection with forwarding Proxies and proxy materials to the beneficial owners of such shares.

It is expected that the Notice of Annual Meeting, Proxy Statement and form of Proxy will first be made available on-line and, upon request, mailed to shareholders on or about April 6, 2009.

Each nominee has consented to be named in this Proxy Statement and to serve as a director if elected. The number of shares of Common Stock reserved for issuance pursuant to the Plan is 10,000,000 shares. Revenue Code of 1986, as amended, and (ii) nonqualified stock options (NQSOs). The Plan authorizes options to be granted to directors, officers, key employees and consultants of the Company, except that ISOs may be granted only to employees. The Plan is administered by a committee of directors designated by the Board of Directors (the Compensation Committee). Subject to the provisions of the Plan, the Compensation Committee determines who is eligible to receive stock options, together with the nature, amount, timing, exercise price, vesting schedule and all other terms and conditions of the options to be granted.

Under the Plan, ISOs and NQSOs may have a term of up to ten years. Stock options are not assignable or transferable except by will or the laws of descent and distribution. Stock options granted under the Plan which have lapsed or terminated revert to the status of unissued and become available for reissuance.

As of December 31, 2008 options to purchase 6,129,625 shares of the Company's Common Stock at prices in the range of \$0.37 to \$1.70 per share were issued and outstanding under the Plan.

The Audit Committee met privately with the Company's independent registered public accounting firm and Company financial personnel, each of whom has unrestricted access to the Audit Committee. The Audit Committee met with management periodically during the year to consider the adequacy of the Company's internal controls and the objectivity of its financial reporting. The Audit Committee discussed these matters with the Company's independent registered public accounting firm and with appropriate Company financial personnel.

The Audit Committee also discussed with the Company's senior management and independent registered public accounting firm the process used for certifications by the Company's chief executive officer and chief financial officer which are required by the Securities and Exchange Commission and the Sarbanes-Oxley Act of 2002 for certain of the Company's filings with the Securities and Exchange Commission.

Management has primary responsibility for the implementation of the system of internal controls and for the preparation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States. The Company's independent registered public accounting firm audited the financial statements prepared by management for the years ended December 31, 2008 and 2007, expressed an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of the Company in conformity with accounting principles generally accepted in the United States and discussed with the Audit Committee any issues it believed should be raised with the Audit Committee.

The Audit Committee reviewed with management and with the Company's independent registered public accounting firm the Company's financial statements and met separately with both management and the independent registered public accounting firm to discuss and review those financial statements and reports prior to their issuance. Management has represented to the Audit Committee, and the independent registered public accounting firm has confirmed, that the financial statements were prepared in accordance with accounting principles generally accepted in the United States.

The Audit Committee obtained from and discussed with the independent registered public accounting firm a formal written statement describing all relationships between the accounting firm and the Company that might bear on the firm's independence under Independence

Edgar Filing: DERMA SCIENCES, INC. - Form DEF 14A

Standards Board No. 1, Independence Discussions with Audit Committees, discussed with the accounting firm any relationships that may impact its objectivity and independence and satisfied itself as to the firm's independence. The Audit Committee continued to monitor auditor independence and reviewed non-audit services performed by the independent registered public accounting firm.

The Audit Committee discussed and reviewed with the independent registered public accounting firm all communications required by standards of the Public Company Accounting Oversight Board (United States), including those described in Statement on Auditing Standards No. 61, as amended, Communication with Audit Committees and, with and without management present, discussed and reviewed the results of the independent registered public accounting firm's examination of the financial statements.

Based on the above-mentioned reviews and discussions with management and the independent registered public accounting firm, the Audit Committee recommended to the Board that the Company's audited consolidated financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2008.

Compensation Committee Charter

The Company's Board of Directors has adopted a written charter for the Compensation Committee. The Charter of the Compensation Committee may be viewed on the Company's website at <http://www.ir.dermasciences.com/governance>.

Compensation Committee Members

The following individuals are members of the Compensation Committee of the Company's Board of Directors:

Robert G. Moussa, Chairman
Stephen T. Wills, CPA, MST
C. Richard Stafford, Esq.
James T. O'Brien

Compensation Committee Report

The Compensation Committee is charged with the following responsibilities: (i) recommendations to the Board of Directors relative to the compensation of executive officers, (ii) administration of the 1994 stock option plan and recommendations to the Board relative to the grant of options to employees, directors and consultants of the Company, (iii) review of, and recommendations to the Board concerning, proposed employment agreements with executive officers, and (iv) evaluation of the performance of, and determination of compensation policies for, executive officers.

Competition for qualified senior management personnel in the Company's industry is intense. In order to attract and retain qualified personnel, the Company must offer compensation which is comparable to similarly situated companies and which provides the potential for substantial rewards if the Company is successful over the long-term. The objectives of the Company's executive compensation policy are to attract, retain and reward executive officers and other key employees who contribute to its success and to motivate these individuals to enhance stockholder value. The Company seeks to pay base, bonus and long-term incentive compensation at levels competitive with other medical device companies.

Edgar Filing: DERMA SCIENCES, INC. - Form DEF 14A

The Compensation Committee meets several times per year in order to: (i) review the effectiveness of the Company's executive compensation policy in advancing the Company's objectives, (ii) make recommendations to the Board for any adjustments, and (iii) recommend annual compensation for the coming year. The Company's Chief Executive Officer and the Chairman of the Audit Committee gather and report on information about compensation levels in comparable companies.

The Compensation Committee, in 2007, independently retained a compensation advisor, Ernst & Young LLP, to assist the Committee in its deliberations regarding executive compensation. The mandate of the advisor was to assist the Committee in its development of competitive market data in connection with its assessment of the Company's executive compensation program, including the competitiveness of the Company's base, bonus and long-term compensation levels, program design and market trends.

The Compensation Committee reviews the performance of each executive officer and the financial condition of the Company in relation to the following major components of executive compensation:

1. *Base Salary.* The employment agreement with each executive sets an initial base salary in accordance with industry norms and the subject executive's experience and qualifications. The Compensation Committee annually reviews each executive officer's base salary. Among the factors taken into consideration are: (i) individual and corporate performance, (ii) levels of responsibility, (iii) prior experience, (iv) breadth of knowledge of the industry, and (v) competitive pay practices. If salaries at comparable companies have increased, the Compensation Committee normally recommends similar increases. Provided, however, increases will be recommended only if the subject executive's historical performance warrants an increase and if the increase is prudent in view of the Company's financial condition.

2. *Annual Bonus.* In addition to base salary, the Company seeks to reward executives each year for the achievement of specific goals which may be financial, operational or technological. In this regard, the Compensation Committee considers objectively measurable goals such as obtaining new investment capital, negotiating valuable contracts

17

or meeting sales objectives, together with subjective goals such as quality of management performance and consistency of effort.

3. *Long-Term Incentives.* Historically, the Company's long-term incentives for executive officers have consisted exclusively of stock options awarded both pursuant to, and outside, the Company's 1991 stock option plan (the "Plan"). Effective February 6, 2003, the Company undertook to issue options exclusively under the Plan. The exercise price of both plan and non-plan options is at least 100% of the fair market value of the Common Stock on the date of grant.

The Compensation Committee has considered utilizing restricted stock and stock appreciation rights as components of the Company's long-term incentives. However, for the present, the Compensation Committee has recommended to the Board of Directors that the Company's long-term incentive compensation consist exclusively of stock options awarded under the Plan. The Board of Directors has assented to this recommendation.

The Compensation Committee determines the number and terms of recommended option grants to the Company's executive officers based on practices at comparable companies in the medical device industry and the Company's policy of linking long-term incentives to performance.

Pursuant to its mandate, and in accordance with the foregoing criteria, the Compensation Committee recommended to the Board of Directors of the Company that: (i) no bonuses be paid to the Company's executive officers relative to 2008, (ii) no increases in base compensation be awarded to the Company's executive officers relative to 2009, (iii) options to purchase 100,000 shares of the Company's common stock be granted to the Company's president and chief executive officer and options to purchase 50,000 shares of the Company's common stock be granted to each of the Company's five additional executive officers in recognition of the foregoing officers' efforts during 2008, such options to be exercisable at \$0.39 per share (the closing price of the Company's common stock on the date immediately preceding the grant) and to vest 25% upon grant and 25% annually thereafter, (iv) options to purchase 150,000 shares of the Company's common stock be granted to the Company's president and chief executive officer and options to purchase 75,000 shares of the Company's common stock be granted to each of the Company's five additional executive officers, such options to be exercisable at \$0.39 per share and to vest, if at all, in accordance with the Company's performance in 2009 and each officer's contribution thereto as determined by the Board of Directors, and (v) the executive employment agreement of the Company's president and chief executive officer be renewed for one year, effective March 1, 2009, with the proviso that the severance payment provisions thereof be reduced from two years' base compensation to one year's base compensation and the executive employment agreements of each of the Company's five additional executive officers be renewed for one year, effective March 1, 2009, with the proviso that the severance payment provisions thereof be reduced from one year's base compensation to six months' base compensation. The Board of Directors acquiesced in the foregoing recommendations.
