GENERAL INFORMATION

Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting to Be Held on Thursday, May 28, 2009. The Proxy Statement and Annual Report to Shareholders and Form 10-K are available at www.proxyvote.com.

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors (the Board) of Horace Mann Educators Corporation (HMEC or the Company) of proxies from holders of the Company's common stock, par value \$.001 per share (Common Stock). The proxies will be voted at the Annual Meeting of Shareholders to be held on Thursday, May 28, 2009 at 9:00 a.m. Central Daylight Saving Time at the President Abraham Lincoln Hotel & Conference Center, 701 East Adams Street, Springfield, Illinois and through any adjournment or postponement thereof (the Annual Meeting).

The mailing address of the Company is 1 Horace Mann Plaza, Springfield, Illinois 62715-0001 (telephone number 217-789-2500). This Proxy Statement and the proxy card are being first made available to shareholders of the Company (Shareholders) on or about April 9, 2009.

The Board has fixed the close of business on March 30, 2009 as the record date (the Record Date) for determining the Shareholders entitled to receive notice of and to vote at the Annual Meeting. At the close of business on the Record Date, an aggregate of 39,169,009 shares of Common Stock were issued and outstanding, each share entitling the holder thereof to one vote on each matter to be voted upon at the Annual Meeting. The presence, in person or by proxy, of the holders of a majority of such outstanding shares is necessary to constitute a quorum for the transaction of business at the Annual Meeting. The Company, through bankers, brokers or other persons, also intends to make a solicitation of beneficial owners of Common Stock.

At the Annual Meeting, Shareholders will be asked to (1) elect eight Directors named in the Proxy Statement to hold office until the next Annual Meeting of Shareholders and until their respective successors have been duly elected and qualified and (2) ratify the appointment of KPMG LLP, an independent registered public accounting firm, as the Company's auditors for the year ending December 31, 2009.

Shareholders may also be asked to consider and take action with respect to such other matters as may properly come before the Annual Meeting.

Copies of the Company's Annual Report on Form 10-K for the year ended December 31, 2008, including the Company's audited consolidated financial statements, were made available to known Shareholders on or about April 9, 2009.

Electronic Access to Proxy Materials and Annual Report

As we did last year, we are delivering a Notice of Internet Availability of Proxy Materials (Notice) to Shareholders in lieu of a paper copy of the proxy statement and related materials and the Company's Annual Report to Shareholders and Form 10-K (together the Proxy Materials). If you received a Notice by mail, you will not receive a paper copy of the Proxy Materials unless you request one. Instead, the Notice of Internet Availability will instruct you as to how you may access and review the Proxy materials and cast your vote. If you received a Notice by mail and would like to receive a paper copy of our Proxy Materials, please follow the instructions included in the Notice.

Shareholders also can elect to receive an e-mail message that will provide a link to the Proxy Materials on the Internet. By opting to access your Proxy Materials via e-mail, you will save the Company the cost of producing and mailing documents to you, reduce the amount of mail you receive and help preserve environmental resources. Shareholders who have enrolled previously in the electronic access service will receive their Proxy Materials via e-mail this year. If you received a Notice by mail and would like to receive your Proxy Materials via e-mail, please follow the instructions included in the Notice.

Table of Contents

- (1) *Via Internet:* Go to www.proxyvote.com to vote via the Internet. You will need to follow the instructions on your Notice or proxy card and the Web site. If you vote via the Internet, you may incur telephone and Internet access charges.
- (2) *By Telephone:* Call the toll-free telephone number on the proxy card or the Web site to vote by telephone. You will need to follow the instructions and the voice prompts.
- (3) *By Mail:* Request, complete and return a paper proxy card, following the instructions on your Notice.
- (4) *In Person:* Attend the Annual Meeting, or send a personal representative with an appropriate proxy, to vote by ballot.

If you vote via the Internet or by telephone, your electronic vote authorizes the named proxies in the same manner as if you signed, dated and returned your proxy card. **If you vote via the Internet or by telephone, do not return your proxy card.**

If your shares are held in street name (that is, in the name of a bank, broker or other holder of record), you will receive a Notice containing instructions from the holder of record that you must follow in order for your shares to be voted. Internet and/or telephone voting also will be offered to Shareholders owning shares through most banks and brokers.

Participants in the Company's stock fund within the Supplemental Retirement and Savings 401(k) Plan can direct the trustee to vote their shares via the Internet as directed in the Notice, by telephone as provided on the Web site or proxy card, or by signing and returning a proxy card.

Solicitation and Revocation

Your proxy is being solicited by and on behalf of the Board. The persons named in the Form of Proxy have been designated as proxies by the Board. Such persons are Directors of the Company.

Shares of Common Stock represented at the Annual Meeting by a properly executed and returned proxy will be voted at the Annual Meeting in accordance with the instructions noted thereon, or if no instructions are noted, the proxy will be voted in favor of the proposals set forth in the Notice of Annual Meeting. A submitted proxy is revocable by a Shareholder at any time prior to it being voted, provided that such Shareholder gives written notice to the Corporate Secretary at or prior to the Annual Meeting that such Shareholder intends to vote in person or by submitting a subsequently dated proxy. Attendance at the Annual Meeting by a Shareholder who has given a proxy shall not in and of itself constitute a revocation of such proxy.

Further solicitation may be made by officers and other employees of the Company personally, by phone or otherwise, but such persons will not be specifically compensated for such services. Banks, brokers, nominees and other custodians and fiduciaries will be reimbursed for their reasonable out-of-pocket expenses in forwarding soliciting material to their principals, the beneficial owners of Common Stock. The costs of soliciting proxies will be borne by the Company. It is estimated these costs will be nominal.

Shareholder Approval

Shareholders are entitled to one vote per share of Common Stock on all matters submitted for consideration at the Annual Meeting. The affirmative vote of a majority of the shares of Common Stock represented in person or by proxy at the Annual Meeting is required for the election of Directors and the ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for the year ending December 31, 2009. Abstentions have the same effect as a vote against approval of the matter.

Table of Contents

Please note that under the rules of the New York Stock Exchange (NYSE) brokers who hold shares of Common Stock in street name for customers have the authority to vote on certain items when they have not received instructions from beneficial owners. With respect to the matters to come before the Annual Meeting, if brokers are not entitled to vote without instructions and therefore cast broker non-votes, the broker non-votes will have the same effect as votes against approval of the matter. For this Annual meeting, if you do not give specific instructions, your broker may cast your vote in its discretion on Proposal No. 1 Election of Eight Directors and Proposal No. 2 - Ratification of Independent Registered Public Accounting Firm.

Other Matters

Other than the matters set forth below, the Board has not received any Shareholder proposal by the deadline prescribed by the rules of the SEC, and otherwise knows of no other matters to be brought before the Annual Meeting. However, should any other matters properly come before the meeting, the persons named in the Form of Proxy will vote or refrain from voting thereon at their discretion.

MATTERS TO BE CONSIDERED

Proposal No. 1 - Election of Eight Directors

The By-Laws of the Company provide for the Company to have not less than five or more than fifteen Directors. The following nine persons currently are serving as Directors of the Company: Mary H. The proxies solicited by and on behalf of the Board will be voted FOR the election of the Board Nominees unless you specify otherwise. The Company has no reason to believe that any of the foregoing Board Nominees is not available to serve or will not serve if elected, although in the unexpected event that any such Board Nominee should become unavailable to serve as a Director, full discretion is reserved to the persons named as proxies to vote for such other persons as may be nominated. Proposal No. 2 - Ratification of Independent Registered Public Accounting Firm

The independent registered public accounting firm selected by the Audit Committee of the Board to serve as the Company's auditors for the year ending December 31, 2009 is KPMG LLP. The Chairman of the Board presides over all executive sessions of the Board, including executive sessions of non-management Directors, and may be contacted as described in Communications with Directors or as further detailed at www.horacemann.com, under Investors - Corporate Governance. The members of the Board are expected to be present at the Annual Meeting. The following members of the Board attended last year's annual meeting of Shareholders: Dr. Futrell, Mr. Hasenmiller, Mr. Lower, Mr. Melone, Mr. Morby, Mr. Parker, Mr. Shaheen, Mr. Steinbecker and Mr. Wright.

The Company's Corporate Governance Principles provide that the Board consist of a majority of directors who meet the criteria for independence required by the listing standards of the NYSE, as set forth in the NYSE's Rule 303A.02. Based on the independence requirements of the NYSE and after reviewing any relationships between the Directors and the Company or its management (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company or its management) that could impair, or appear to impair, the Director's ability to make independent judgments, the Board determined that none of its non-employee Directors have a material relationship with the Company, and therefore all of these Directors are independent. This independence question is analyzed annually in both fact and appearance to promote arms-length oversight. The current non-employee Directors are Dr. Futrell, Mr. Hasenmiller, Mr. Melone, Mr. Morby, Mr. Parker, Mr. Shaheen, Mr. Steinbecker and Mr. Wright.

recommended by Shareholders. Candidates may be submitted in writing to Ann M. Caparrós, Corporate Secretary, Horace Mann Educators Corporation, 1 Horace Mann Plaza, Springfield, Illinois 62715-0001. There are no differences between the evaluation of candidates recommended by Shareholders and the evaluation of candidates recommended by members of the Nominating & Governance Committee. The Committee evaluates possible nominees to the Board on the basis of the factors it deems relevant, including the following:

- high standards of personal character, conduct and integrity;
- an understanding of the interests of the Company's Shareholders, clients, employees, suppliers, communities and the general public;
- the intention and ability to act in the interest of all Shareholders;
- a position of leadership and substantial accomplishment in his or her field of endeavor, which may include business, government or academia;
- the ability to understand and exercise sound judgment on issues related to the goals of the Company;

- the absence of interests or affiliations that could give rise to a biased approach to directorship responsibilities and/or a conflict of interest, and the absence of any significant business relationship with the Company except for the employment relationship of an inside Director; and,
- the needs of the Board, including diversity, age, skills and experience.

The **Investment & Finance Committee** approves investment strategies, monitors the performance of investments made on behalf of the Company and its subsidiaries, and oversees issues and decisions relating to the Company's capital structure.

The **Strategy Oversight Committee** is an ad hoc committee formed by the Board during 2008. The Committee oversees management's implementation of business strategies.

The **Audit Committee** oversees the accounting and financial reporting process, audits of the financial statements and internal operating controls of the Company. It meets with both the Company's management and the Company's independent registered public accounting firm. Each of the current members of this Committee is independent under the listing standards of the NYSE. No Audit Committee member serves on the audit committee of more than three other publicly traded companies. The Board has determined that Mr. Steinbecker is a financial expert. Mr. Steinbecker retired in 2001 from PricewaterhouseCoopers LLP after a 35 year career where he was the partner responsible for the audits of many national and international companies, served as leader of the firm's Southeast Region's consumer and industrial products business segment, and was managing partner of their Philadelphia and Denver practices.

Report of the Audit Committee of the Board of Directors

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors acting under a written charter. The Audit Committee is composed of four Directors, each of whom is independent as defined by the New York Stock Exchange listing standards. Management has the primary responsibility for the Company's financial statements and its reporting process, including the Company's systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited consolidated financial statements in the Annual Report on Form 10-K with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and clarity of disclosures in the financial statements.

The Audit Committee has discussed with our independent registered public accounting firm, who is responsible for expressing an opinion on the conformity of those audited consolidated financial statements with U.S. generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

This summary highlights information from this Compensation Discussion and Analysis section and may not contain all the information that is necessary to gain a full understanding of our policies and decisions. Please read the entire Compensation Discussion and Analysis section and compensation tables for a more complete understanding of our compensation program.

The Compensation Committee of the Board of Directors (Committee) oversees the compensation program for our executive officers. Our programs are designed to provide a strong link between pay and performance for our executive officers. Our programs include performance measures designed to drive sustained long-term shareholder value that align our executives' interests with those of our shareholders. Further, our programs put a substantial portion of compensation at risk and awards are payable only in the event of performance by our executives which benefits our shareholders.

Overall compensation includes base salary, annual cash incentives, long-term cash and equity incentive awards, and long-term equity awards. Incentive awards are earned upon the achievement of short-term and long-term business goals which are reviewed and approved by the Committee at the beginning of each performance period. Performance goals are structured to attain business growth while balancing that growth with productivity, profitability, risk and capital management. Our compensation program does not include substantial non-performance based incentive compensation and, aside from benefits offered to all employees, the value of perquisites does not exceed \$10,000 per executive officer.

The Committee has and continues to place a greater emphasis on long-term equity performance incentives versus cash compensation. This has been done through a combination of stock option grants and performance-based cash and restricted share unit grants. For 2008, we changed from a long-term incentive program composed of cash and equity components to one that is entirely equity based. This practice has been continued for 2009. Providing incentives that facilitate stock ownership and requiring executives to meet minimum stock ownership guidelines serve to further align our executives' interests with our shareholders' interests.

The Committee recognizes the need to have market-competitive compensation opportunities to attract, retain, and reward high performing executive talent. Mercer, who has been the outside objective consultant to the Committee since 2004, annually benchmarks our executive compensation and compensation practices to the competitive market. Overall, our total target compensation is comparable to the market median, with above-target performance resulting in total compensation greater than market median and below-target performance resulting in total compensation below market median.

The Committee further believes that our compensation programs should reward performance that supports the Company's culture of integrity through compliance with applicable laws and regulations, our ethics policies, and our commitment to leadership and diversity. Our compensation programs are designed to reinforce these desired competencies and behaviors and recognize contributions to business success that are consistent with our core values and brand beliefs.

Oversight of the Executive Compensation Program

The Committee administers our executive compensation program. The current members of the Committee are Dr. Futrell, Mr. Melone, Mr. Parker and Mr. Wright. Mr. Parker serves as the Committee chair. Consistent with the listing standards of the NYSE, the Committee is composed entirely of independent Directors.

Table of Contents

The Committee has retained the services of an objective compensation consulting firm, Mercer, to provide information and advice on the competitive market for executive talent, evolving market practices in our industry and the general employment market, regulatory and other external developments, and our executive compensation philosophy and incentive program design. Mercer was selected as the consultant to the Committee due to its reputation and expertise in the compensation consulting arena and has served in this capacity since 2004. The Mercer consultant reports directly to the Committee, attends the Committee meetings and executive sessions of the Committee at the Chair's request and serves at the pleasure of the Committee. In addition, the Committee has the authority to hire other experts and advisors as it deems necessary. The Mercer consultant works with management to obtain necessary data and perspectives on the Company's strategic objectives, business environment, corporate culture, performance and other areas. This information is used by Mercer's consultant to formulate its recommendations related to compensation opportunities and design. The Mercer consultant's findings and recommendations are reported directly to the Committee. The services provided by Mercer during 2008 are described in more detail throughout this analysis. Ernst & Young LLP also provides information to the Company and the Committee on matters related to health and welfare plans, retirement benefit programs, and change in control calculations.

Management also supports the Committee by providing analysis and recommendations. When setting levels of executive compensation, the Committee requests, receives and considers the recommendations of the Chief Executive Officer (the CEO) regarding the performance of his direct reports and other Executive Officers. Members of the management team from Human Resources also attend and contribute to Committee meetings as relevant to the Committee agenda.

The Committee discusses its fundamental views on compensation and guiding principles, as well as its expectations of the CEO's performance and goals, with the CEO. The Committee does not include the CEO or other members of management in the determination of the CEO's compensation. In 2008, the Committee reviewed the performance and compensation for all individuals whose annual base salary was greater than \$175,000 and who were participants in the long-term incentive program. These reviews were conducted throughout the year, generally at least every 18 months. Beginning in 2009, the Committee will review the performance and compensation of all long-term incentive plan participants annually on a common review date concurrent with the review of the prior year's performance under the incentive plans.

Guiding Principles

The Committee believes it should pay and reward individual excellence and performance that leads to the attainment of the Company's goals. The Committee believes a competitive executive compensation program should attract, motivate and retain talented leaders who are critical to creating long-term shareholder value. Based on those beliefs, the Committee has established the following core principles that underlie our executive compensation program.

A significant portion of compensation should be at risk based on the Company's performance relative to the market or comparison companies.

The Committee believes that a significant portion of an Executive Officer's total compensation should be at risk. Generally, more than half of total pay for Named Executive Officers (NEOs) (base salary plus target annual incentive plus target long-term incentives) is at risk, is variable from year to year, and demonstrates a strong link between pay and performance. See Executive Compensation Program below.

Compensation levels should be market competitive.

The Committee believes a competitive compensation program is critical to attracting and retaining top executives. Consequently, when making compensation decisions, the Committee considers the compensation opportunities provided to similarly situated executives at comparable companies as well as how compensation is delivered (e.g., short-term vs. long-term and fixed vs. variable). The Committee

Table of Contents

reviews benchmark data from proxy statements of peer companies and survey data, and works with compensation consultants, including Mercer, to gain a clear understanding of the competitive market. We target compensation at the market median. If performance is superior, our executives can earn compensation that approximates the 75th percentile of the market. See [Assessing Compensation Competitiveness](#) below for a discussion of peer companies and the survey data.

Incentive compensation should be structured to drive long-term value creation and reward strong performance.

Our executive compensation program includes significant cash-based and equity-based incentives intended to drive short-term and long-term value creation. For 2008, the performance goals in our annual incentive program were tied to the annual objectives set forth in our business plan. They included earnings, revenue growth and goals for the business units as discussed in more detail under [Executive Compensation Program Annual Incentive Program](#) and [Annual Incentive Program Target Setting](#) below. The performance goals for our non-stock option 2007-2008 and 2008-2009 long-term incentive awards are tied to earnings per share, total shareholder return and auto and property premium growth as discussed in more detail under [Executive Compensation Program Long-term Incentive Program](#) and [Long-term Incentive Program Design and Target Setting](#) below.

Executive interests should be aligned with Shareholders.

The Committee believes that it is in the best interests of the Company and its Shareholders for our executives to have a financial interest in the long-term results of their business decisions. Incentives should facilitate stock ownership and include performance measures that drive long-term sustained shareholder value. Consequently, the Company grants equity awards with multi-year vesting to encourage retention, allows deferrals of RSU awards, and maintains a deferred compensation plan that allows our executives to invest in CSUs. Our executives are also required to satisfy meaningful stock ownership requirements which are discussed under [Stock Ownership and Holding Requirements](#) below. We deliver approximately 52% of Mr. Lower's compensation in the form of equity awards. With respect to the other NEOs, approximately 34% to 44% of their compensation is delivered in equity. To further align the interests of management and Shareholders, the Company modified the long-term incentive program to deliver 100% of the 2008-2009 and 2009-2010 long-term incentive opportunities in equity.

Assessing Compensation Competitiveness

The Committee intends to target total direct compensation for the NEOs' salary and target annual and long-term incentive opportunities around the median of the competitive market, while providing the opportunity for additional compensation if warranted by performance. To achieve this, the Committee considers the compensation provided to similarly situated executives at companies of similar size and with comparable lines of business to the Company. For the CEO, the Committee reviews proxy statements for a group of peer companies for compensation paid and supplements this data with survey data. The insurance companies that comprised the peer group for assessing the CEO's compensation competitiveness for 2008 were: Delphi Financial Group, Inc.; State Auto Financial Corporation; Infinity Property and Casualty Corporation; Harleysville Group Inc.; Alfa Corporation; The Midland Company; United Fire & Casualty Company; EMC Insurance Group Inc. and PMA Capital Corporation. The Committee reviews the peer group with Mercer on a regular basis to ensure its appropriateness. This peer group was selected based upon revenue, premium volume and business mix.

For the other NEOs, the Committee uses survey data and, in some cases, data from the peer group proxy statements. The survey data is based on similarly sized companies in the insurance industry (non-healthcare). The Committee reviews recommendations by Mr. Lower and also considers internal factors in setting compensation levels, including the individual's level of responsibility, contribution to the Company, internal pay equity and contribution to our success relative to other executives.

Table of Contents

Every year, Mercer provides the Committee with a comparison of the base salary, annual incentives and long-term incentives of Mr. Lower with those of chief executive officers at the peer companies. As additional reference, the Committee may also review survey data. Based on this data, Mercer makes recommendations for the Committee's consideration. The Committee then deliberates in executive session to determine a recommendation for approval by the Board of Directors.

The Committee, with the help of Mercer, also reviews the potential cost of each NEO's total compensation package including base salary, annual incentive compensation, long-term incentive compensation, welfare and retirement benefits, overall equity accumulation and perquisites under several termination-of-employment scenarios, including a termination without cause, a resignation and a change in control.

Executive Compensation Program

We structure our executive compensation program to deliver the majority of pay through incentives that drive both operating results and long-term value and position approximately half or more of an executive officer's pay at risk. The targeted compensation mix of total direct compensation for the NEOs at the beginning of 2008 is illustrated below. The mix of 2008 actual compensation varied as a result of actual incentives earned.

Name & Principal Position	Base Salary	Target Annual Incentive	Target Long-term Incentive
Louis G. Lower II, President & CEO	28%	20%	52%
Peter H. Heckman, EVP & CFO	37%	19%	44%
Thomas C. Wilkinson, EVP Property & Casualty	51%	15%	34%
Paul D. Andrews, SVP Corporate Services	40%	16%	44%
Dwayne D. Hallman, SVP Finance	50%	15%	35%

Base Salary

Competitive base salaries are critical to attracting and retaining superior executive talent. The Committee seeks to pay salaries that approximate median industry salaries for executives of similar companies in like positions. However, in recruiting new executives, these guidelines are sometimes exceeded to attract qualified candidates. There may also be instances where an existing executive's compensation deviates from the median, either up or down, due to performance, compensation history, internal equity and/or retention risk.

Table of Contents

In 2008 and in prior years, salaries for Executive Officers were reviewed at least every 18 months. In addition to looking at peer company and survey data, the Committee reviews each executive's performance, including the accomplishment of key corporate, strategic, operational and financial goals, managing personnel and meeting our ethical standards. As shown in the following table, Mr. Lower has not received a salary increase since 2005.

Name & Principal Position	Prior Annualized Salary	New Annualized Salary	Date of Last Increase	Reason for Increase
	(\$)	(\$)		
Louis G. Lower II, President & CEO	600,000	640,008	04-01-2005	Merit increase based on strong performance
Peter H. Heckman, EVP & CFO	410,000	436,000	10-01-2008	Merit increase based on strong performance
Thomas C. Wilkinson, EVP Property & Casualty	225,800	300,000	08-01-2008	Expanded role as a result of promotion to EVP, Property & Casualty
Paul D. Andrews, SVP Corporate Services	214,000	228,000	07-01-2008	Merit increase based on strong performance
Dwayne D. Hallman, SVP Finance	232,200	246,132	11-01-2007	Merit increase based on strong performance

Merit increases were made consistent with the Company's policy of reviewing salaries for executives at least every 18 months and reflect the competitive market, the executives' performance and their continuing contribution to the Company's success. Beginning in 2009, all executives' performance and salaries will be reviewed on a 12 month basis concurrent with the review of the prior year's performance under the incentive plans. Given the 2009 economic outlook, Mr. Lower and his direct reports have voluntarily waived salary increases for the 2009 calendar year.

Annual Incentive Program

Our annual incentive program (AIP) is designed to drive and reward strong performance over a one-year period. The annual incentive is a key part of our overall compensation structure and is directly linked to the Company's annual business plan. Under the Horace Mann Educators Corporation Incentive Compensation Plan and per the Committee's charter, the Committee establishes Company-wide and business unit/division performance objectives every March, as well as threshold, target and maximum bonus opportunities for each Named Executive Officer. In setting these objectives and opportunities, the Committee considers, among other things, the strategic goals of the Company, corporate financial projections and the degree of difficulty in achieving the targets. It is the goal of the Committee to establish measurements and targets that are reasonable, but not easily achieved. As evidence of this, the Annual Incentive Program has generated awards ranging from 0% to 142.8% of target over the past 8 years, with an average of 88.8% for the eight-year period. The variability and average level of the awards earned confirms the Committee's practice of establishing reasonable yet aggressive goals for the Company's Annual Incentive Program. The measures and targets are discussed with the CEO, other Executive Officers, other members of the Board and Mercer before they are set. Each March, the Committee also certifies performance and determines annual incentive award payouts for the prior year.

Target incentive opportunities for the NEOs are intended to approximate the median of the bonuses paid to similarly situated executives in comparable, peer companies. Maximum incentive opportunities are set at 200% of target. Changes made to these opportunities, if any, generally take effect at the start of the next calendar year. However, Mr. Wilkinson's annual target opportunity was increased from 30% to 40% on August 1, 2008 in

Table of Contents

recognition of his promotion to Executive Vice President, Property and Casualty. For 2008, the target annual incentive opportunities for the NEOs, expressed as a percentage of base salary, were as follows:

Name & Principal Position	2008 AIP Opportunity
Louis G. Lower II, President & CEO	70%
Peter H. Heckman, EVP & CFO	55%
Thomas C. Wilkinson, EVP Property & Casualty	40%
Paul D. Andrews, SVP Corporate Services	40%
Dwayne D. Hallman, SVP Finance	30%

For 2008, 100% of the CEO's annual incentive opportunity was tied to Company-wide performance, while 25% of each of the other Named Executive Officer's opportunity was tied to various business unit and/or division measures. The Committee believes that this split provides appropriate alignment between an executive's compensation and the results he can most directly influence, while recognizing that the Company as a whole must perform well in order to deliver value to our shareholders.

Annual Incentive Program Target Setting

The Committee established targets for the 2008 corporate performance measures in its March 2008 meeting. The targets for the Operating Earnings Per Share and Insurance Revenue measures were based on a review of market dynamics/trends and expectations of other companies in the industry as well as our financial plan for 2008. The financial plan was the basis of our 2008 earnings guidance, which was publicly disclosed in February 2008 in connection with our release of earnings for the year ended December 31, 2007. In addition, an Operational Initiatives measure consisted of five components, including the development of new marketing and distribution programs, information technology improvements, annuity sales, auto new business units and agent productivity. For 2008, 100% of the CEO's annual incentive opportunity and 75% of the other Named Executive's opportunity was tied to the following Corporate Measures:

Based on the 2008 performance of the Company relative to the Corporate measures (56.7% of target) and the Business Unit/Division measures (ranging from 49.3% of target to 73.4% of target) compared to the pre-established goals, the Committee approved an award of 56.7% of target for the CEO and 60.8% to 73.4% of target for the other NEOs. The annual incentives paid to the NEOs are shown in the Non-Equity Incentive Plan Payouts column of the Summary Compensation Table .

Long-term Incentive Program

The Company awards long-term incentives to executives and other key employees who can have the greatest impact on the Company's long-term success. Long-term incentives are intended to focus executives on driving operating performance as well as long-term value creation. They are also an effective vehicle for attracting and retaining executive talent. All long-term incentive grants are made under the Horace Mann Educators Corporation Amended and Restated 2002 Incentive Compensation Plan. In setting performance targets for the Long-term Incentive Program, the Committee considers, among other things, the strategic goals of the Company, financial projections, and the difficulty of meeting those goals and projections. Over the last 7 years, awards under the Long-term Incentive Program have ranged from 0% to 159.3% of target, with an annual average of 57.0% of target for the seven-year period, as illustrated in the graph below:

Table of Contents

The variability and average level of the awards earned confirms the Committee's practice of establishing reasonable yet aggressive goals for the Company's Long-term Incentive Program.

The intent of the program is to focus executives on shareholder value and key strategic objectives, while promoting retention and recognizing the market trend to deliver long-term incentives through a mix of compensation vehicles. Prior to 2008, we used cash incentives to deliver a portion of the opportunity in order to manage overall earnings per share dilution levels. However, to ensure that our executives' interests were aligned with those of our Shareholders, our executives were required to invest and hold one-third of any such cash payments in deferred stock units until their stock ownership requirements were met. This led to two-thirds of the total long-term incentive being delivered in equity. See "Stock Ownership and Holding Requirements" below. For 2008, we eliminated the cash component, which resulted in 100% of the long-term incentive being equity-based.

Long-term Incentive Program Design and Target Setting**2007-2008 Long-term Incentive Program Grants and Awards**

The 2007 awards consisted of 50% performance-based RSUs; 25% performance-based cash; and 25% service based stock options. Performance for the 2007 awards was measured over the 24 months beginning January 1, 2007 and ending on December 31, 2008. The Committee established the Long-term Incentive Program measures and performance targets for the 2007-2008 performance period in its March 2007 meeting. Measures were weighted to reward 2008 performance based on achievement of property casualty premium growth (33.3%), financial goals (33.3%) and total shareholder return (33.4%). Performance for the 2007-2008 period was below threshold resulting in 0% of the 2007 award being earned. The 2007-2008 performance period measures, targets and results are as follows:

2007-2008		2007-2008 Performance Period	2007-2008 Performance Period
Performance Measures	Measurement Weighting	Targets	Results
Property & Casualty Voluntary Auto and Property Premium Written	33.3%	\$590.0 million	\$559.8 million
Operating Earnings per Share for the two years ended December 31, 2008	33.3%	\$3.77 per share	\$3.20 per share
Total Shareholder Return	33.4%	Median of peer group (1)	Below 25th Percentile

Table of Contents**2008-2009 Long-term Incentive Program Grants and Awards**

The 2008 awards were 100% equity-based and were comprised of 75% performance-based RSUs and 25% service based stock options. The performance period for the 2008 awards began January 1, 2008 and ends December 31, 2009. The Committee believes that granting awards entirely in equity-based components appropriately drives long-term performance and creates alignment with Shareholders. The Long-term Incentive Program measures and performance targets for the 2008-2009 performance period were established in the Committee's March 2008 meeting. Measures were weighted to reward performance based on achievement of property and casualty premium growth (40.0%), financial goals (30.0%) and total shareholder return (30.0%). It is the Committee's belief that all these measures impact shareholder value creation. Stock option awards and RSU grants were made to all NEOs in 2008 as reflected in the Grants of Plan Based Awards 2008 table.

2008-2009

(1) A group of insurance companies from the S&P mid-cap insurance index excluding companies that are primarily brokers. In setting the dollar value of the long-term incentive opportunity for each NEO, the Committee targets an amount that would achieve the Company's overall objective of positioning total compensation around the median of the market. The 2008 target grant values for the NEOs for the 2008-2009 performance periods were as follows:

Name & Principal Position	Long-term Incentive Target Granted in 2008
Louis G. Lower II, President & CEO	\$1,200,000
Peter H. Heckman, EVP & CFO	\$525,000
Thomas C. Wilkinson, EVP Property & Casualty	\$200,000
Paul D. Andrews, SVP Corporate Services	\$250,000
Dwayne D. Hallman, SVP Finance	\$175,000

Performance-Based RSUs. The RSUs are an effective vehicle for rewarding executives based on performance and have a high value in promoting executive retention. As discussed above, RSUs were granted on March 5, 2008 for the 2008-2009 performance period and will be earned on December 31, 2009 based on achievements relative to the two-year performance period targets. Under the 2008-2009 program, the RSUs earned are subject to a two-year cliff vesting. Once vested, the RSUs are subject to holding requirements until the executive's stock ownership guidelines are met. See Stock Ownership and Holding Requirements. From the date of grant, RSUs accrue dividends at the same rate as dividends paid to our Shareholders. These dividends are reinvested into additional RSUs.

Target RSU opportunities for the 2008-2009 performance period for the NEOs were established as 75% of the total long-term incentive opportunity in March 2008. On an annualized basis, the awards of RSUs ranged from approximately 44.6% to 64.0% of base salary, with the exception of the CEO whose target opportunity was approximately 85.9%. Maximum opportunities were set at 200% of target and threshold opportunities were set at 50% of target.

Table of Contents

The performance measures for the 2008-2009 performance period – growth in auto and property premium and earnings per share were selected based on our 2008-2009 business plan, along with total shareholder return relative to a peer group of insurance companies – provide strong alignment with shareholder interests. Total shareholder return for the 2008-2009 performance period is required to be at or above the 25th percentile of peers to earn an award. At the 25th percentile, participants can earn 50% of their target award and at the peer group median participants can earn their target award. If total shareholder return is at or above the 75th percentile of peers, 200% of the target award can be earned.

Participants will not earn any award on any component of the Long-term Incentive Program (other than stock options) until the end of the 2008-2009 performance period. RSUs earned for the 2008-2009 performance period will fully vest on December 31, 2011.

Stock Options. We believe that stock options provide strong alignment with Shareholder interests, as participants do not realize any increase in value unless our stock price appreciates. Stock options granted under the Long-term Incentive Program have an exercise price equal to the closing stock price on the date of grant, vest ratably over a four-year period and have a seven-year term. In determining the number of stock options to grant, we divided 25% of the total target long-term incentive opportunity by the Black-Scholes value of an option. For additional information regarding assumptions used for these valuations, see the Company’s Annual Report of Form 10-K – Notes to Consolidated Financial Statements – Note 1 – Summary of Significant Accounting Policies – Stock Based Compensation .

Timing of Equity Grants. Since 1991, the Committee has granted long-term incentives only at its regularly scheduled Board meetings. The Company uses the closing stock price on the date of the grant to determine the exercise price for stock options. For regularly scheduled annual awards or for awards pursuant to the Long-term Incentive Program, the grant effective date is the approval date of the applicable resolution or as otherwise specified in the duly authorized resolution. For other awards, the grant effective date is the first business day of the next securities trading window established by the Company following the approval date. In no circumstance will the grant effective date precede the approval date of a given award.

Stock Ownership and Holding Requirements

Our executives are required to satisfy meaningful stock ownership requirements. These stock ownership requirements were established in 1998 and the executives are generally expected to achieve them within 10 years of becoming subject to the requirement. For the CEO, the minimum ownership requirement is five times base salary, for Mr. Heckman three and one half times base salary and for Mr. Hallman two times base salary. For the other NEOs, the minimum requirement is three times base salary. This stock ownership may be achieved by direct ownership or beneficial ownership through a spouse or child. The following types of beneficial ownership are considered in determining stock ownership: direct ownership of Horace Mann’s stock, Horace Mann stock held in the Company 401(k) Plan, Horace Mann CSUs in the employee deferred compensation plan and RSUs (vested and unvested). While the decline in Horace Mann’s stock price from 2007 to 2008 resulted in a commensurate drop in executive stock ownership percentages, we believe executives continue to increase their share ownership in an effort to achieve their guidelines. Under the 2008-2009 Long-term Incentive Program, executives are required to defer receipt of their RSUs until the stock ownership guidelines are met.

Retirement Plans

Executive Officers participate in our Company-wide retirement plans and an excess defined contribution plan. Each of these plans includes a Company contribution and the amounts contributed for each Named Executive Officer are included in the Summary Compensation Table. The Company's intent is to provide plans that are customarily offered within our industry to enhance our ability to attract and retain employee talent. With the exception of the CEO, who receives a defined benefit arrangement per his employment agreement, no other Named Executive Officer participates in the Company's defined benefit plan or supplemental defined benefit retirement plan because participation in those plans was limited to individuals hired prior to January 1, 1999.

Deferred Compensation

To further encourage ownership of its Common Stock, the Company maintains a nonqualified deferred compensation plan which allows executives to defer their long-term cash incentives into CSUs which accrue dividends at the same rate as dividends paid to our Shareholders. These dividend equivalents are reinvested into additional CSUs. No other investment options are provided.

Perquisites and Personal Benefits

The Company does not offer perquisites or executive benefits that exceed \$10,000 annually in the aggregate to any individual. The Company does offer key executives membership to a private dining club in Springfield, Illinois as well as memberships to airline clubs (airport lounge facilities).

Tax Implications

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public corporations for compensation over \$1,000,000 paid for any fiscal year to the corporation's chief executive officer and three other most highly compensated executive officers (other than the CFO) as of the end of the fiscal year. However, the statute exempts qualifying performance-based compensation from the deduction limit if certain requirements are met.

The annual and long-term incentive programs are designed to permit full deductibility and the Committee expects all 2008 compensation to be fully deductible. However, the Committee believes that Shareholder interests are best served by not restricting the Committee's discretion and flexibility in developing compensation programs, even though such programs may result in certain non-deductible compensation expenses.

Accounting for Stock-Based Compensation

Effective January 1, 2006, the Company began accounting for stock-based payments, including its stock options and RSUs, in accordance with the requirements of Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123(R), "Share-Based Payment".

Employment and Change in Control Agreements

Effective February 1, 2000, the Company entered into an employment agreement with Mr. Lower, employing him as the Company's President and Chief Executive Officer. The term of that agreement expired on December 31, 2000, but is subject to an annual evergreen renewal which extends the agreement an additional year on each September 1, so long as neither Mr. Lower nor the Company, prior to September 1, has notified the other that the agreement will not so extend. Its current expiry date is December 31, 2009. The agreement provides for an annual salary of not less than \$500,004 and for Mr. Lower to participate in the Company's annual and long-term incentive plans. Mr. Lower received a stock grant of 10,000 shares of Common Stock and options to purchase a total of 750,000 shares of Common Stock, which have vested. The Company also agreed to pay annual retirement benefits of \$180,000 to Mr. Lower during his lifetime. The agreement contains provisions relating to Mr. Lower's death, disability or other termination of his employment. In addition, the agreement provides that if, within three years after a Change in Control of the Company, as defined therein, Mr. Lower's employment with the Company is actually or constructively terminated, Mr. Lower will be paid a lump-sum cash amount equal to the sum of (i) three times the greater of his highest annual cash compensation from the Company or \$1,200,000 and (ii) the actuarially determined present value of Mr. Lower's retirement benefits calculated as if he had been employed by the Company until the date which is three years after the Change in Control. Mr. Lower's insurance benefits are also continued for three years and there is an excise tax gross-up provision payment sufficient to negate any effect on him of excise and related taxes attributable to the benefits received under the agreement.

The Company has change in control ("CIC") agreements with certain executives which provide for payments and other benefits which are described in "Potential Payments upon Termination or Change in Control" below. These agreements, which provide severance protection in a change in control, are intended to provide certain of our Executive Officers with a level of security consistent with market practices. The change-in-control protections also help to mitigate some of the conflicts an executive may be exposed to in a potential acquisition or merger situation and serve to insure a more stable transition if a corporate transaction were to occur. The practices we have in place are structured to maintain market competitiveness and allow for successful recruitment of key executives.

In addition, long-term incentives will vest (performance-based awards vest pro-rata based on target performance) upon a change in control or a termination by reason of death, disability or retirement. However, nonvested stock options of executives who retire (defined as leaving the Company after attaining either age 55 with 10 years of service or age 65 with 5 years of service) cannot be exercised until after the one-year anniversary of retirement.

These provisions are described in more detail in "Potential Payments upon Termination or Change in Control".

Pension Benefits

The following table illustrates the total pension benefits available to the CEO as of December 31, 2008 under the nonqualified defined benefit pension plan as defined by his employment agreement. The CEO's employment agreement provides an annual retirement defined benefit payment of \$180,000 upon his completion of service through or after January 1, 2004. The defined benefit plans (qualified and nonqualified) sponsored by the Company were amended to freeze participation to those who were hired prior to January 1, 1999. As all other NEOs were hired subsequent to that date, they are not eligible to participate in the defined benefit plans.

plan, the Nonqualified Money Purchase Pension Plan (NQMPPP), which covers only the base salary compensation in excess of the Section 415 limit, which in 2008 was \$230,000. The NQMPPP accounts are established for the executives at the time their compensation exceeds the Section 415 limit and are credited with an amount equal to 5% of the excess. In addition, the NQMPPP accounts are credited with the same rate of return as the qualified plan sponsored by the Company for all employees.

The following table sets forth information regarding participation by the NEOs in the Company's nonqualified savings and deferred compensation plans as of December 31, 2008.

Potential Payments upon Termination or Change in Control

The NEOs are entitled to receive certain payments and other benefits for termination due to death or disability; termination for cause; voluntary termination; termination without cause or constructive termination prior to a change in control; and termination without cause or constructive termination following a change in control. An overview of benefits available under each scenario is provided below and should be read with the footnotes accompanying the related table. These calculations are an estimate only for purposes of this Proxy Statement.

Death or Disability Except for performance-based cash payments, no executives receive any cash payments, with the exception of the CEO, who, at death per his employment agreement, receives a payment equal to his annual salary plus target annual and long-term bonus. The treatment of long-term incentives is as follows:

Edgar Filing: HORACE MANN EDUCATORS CORP /DE/ - Form DEF 14A

Stock Options All stock options vest immediately. With respect to death, the executive's estate has two years to exercise the stock options. With respect to disability, executives have the full option term to exercise the stock options.

Performance-based RSUs

Termination for Cause or Voluntary Termination Executives forfeit all unpaid and unvested awards. However, given the CEO is retirement eligible at December 31, 2008, he will vest in his equity upon a voluntary termination.

Termination Without Cause or Constructive Termination Prior to a Change in Control With the exception of the CEO, all NEOs receive the Company's standard severance program which is 2 weeks of salary for each year of service, with a maximum payment of 24 weeks of salary. Per his employment agreement, the CEO receives 2 times his annual salary and bonus and, as he is retirement eligible, would vest in his equity awards. In addition, the CEO receives continuation of health benefits for 2 years.
