**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(unaudited)

**1. Basis of Presentation**

The consolidated financial statements of Apogee Enterprises, Inc. (we, us, our or the Company) included herein have been prepared in accordance with accounting principles generally accepted in the United States. The consolidated financial statements and notes are presented as permitted by the regulations of the Securities and Exchange Commission (Form 10-Q) and do not contain certain information included in the Company's annual financial statements and notes. The information included in this Form 10-Q should be read in conjunction with the Management's Discussion and Analysis of Financial Condition and Results of Operations and financial statements and notes thereto included in the Company's Form 10-K for the year ended February 26, 2011. The results of operations for the three and nine-month periods ended November 26, 2011 are not necessarily indicative of the results to be expected for the full year.

In the opinion of the Company, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position as of November 26, 2011 and February 26, 2011, and the results of operations for the three and nine-month periods ended November 26, 2011 and November 27, 2010, and cash flows for the nine-month periods ended November 26, 2011 and November 27, 2010.

The Company's fiscal year ends on the Saturday closest to the last day of February. Each interim quarter ends on the Saturday closest to the end of the months of May, August and November.

The results of GlasseeViracon are reported on a two-month lag. There were no significant intervening events which would have materially affected our consolidated financial statements had they been recorded during the nine months ended November 26, 2011.

In connection with preparing the unaudited consolidated financial statements for the nine months ended November 26, 2011, the Company has evaluated subsequent events for potential recognition and disclosure through the date of this filing and determined that there were no subsequent events which required recognition or disclosure in the consolidated financial statements.

**2. New Accounting Standards**

In January 2010, the Financial Accounting Standards Board (FASB) amended U.S. GAAP with respect to disclosures about fair value measurements. The amendments add new requirements for disclosures about transfers into and out of Levels 1 and 2, and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. The amendments were effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010. The adoption of the additional disclosures required for Level 3 fair value measurements in the first quarter of fiscal 2012 had no impact on the Company's fair value disclosures (see Note 7).

In June 2011, the FASB amended its guidance on the presentation of comprehensive income in financial statements to improve the comparability, consistency and transparency of financial reporting and to increase the prominence of items that are recorded in other comprehensive income. The new guidance allows an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. The new guidance eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. This new guidance is effective for fiscal years and interim periods beginning after December 15, 2011, Apogee's fiscal year 2013. The adoption of the new guidance in the first quarter of fiscal 2013 will not have an impact on Apogee's consolidated financial position, results of operations or cash flows.

In September 2011, the FASB amended U.S. GAAP on testing goodwill for impairment. Under this new guidance, entities testing goodwill for impairment now have an option of performing a qualitative assessment before having to calculate the fair value of a reporting unit. If an entity determines, on the basis of qualitative factors, that the fair value of the reporting unit is more-likely-than-not less than the carrying amount, the existing quantitative impairment test is required. Otherwise, no further impairment testing is required. The amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, Apogee's fiscal year 2013, with early

## Edgar Filing: APOGEE ENTERPRISES, INC. - Form 10-Q

adoption permitted. The adoption of this new standard in the first quarter of fiscal 2013 will not have an impact on Apogee's consolidated financial position, results of operations or cash flows.

No other new accounting pronouncements issued or effective during the first nine months of fiscal 2012 have had or are expected to have a material impact on the consolidated financial statements.

**Table of Contents****3. Stock-Based Compensation  
Stock Incentive Plan**

The 2009 Stock Incentive Plan, the 2009 Non-Employee Director Stock Incentive Plan, the 2002 Omnibus Stock Incentive Plan and the 1997 Omnibus Stock Incentive Plan (the Plans) provide for the issuance of 1,888,000; 250,000; 3,400,000; and 2,500,000 shares, respectively, for various forms of stock-based compensation to employees and non-employee directors. Awards under these Plans, either in the form of incentive stock options, nonstatutory options or stock-settled stock appreciation rights (SARs), are granted with an exercise price equal to the fair market value of the Company's stock at the date of award. Nonvested share awards and nonvested share unit awards are also included in these Plans. Outstanding options issued to employees generally vested over a four-year period, outstanding SARs vested over a three-year period and outstanding options issued to non-employee directors vested at the end of six months. Outstanding options and SARs have a 10-year term. Nonvested share awards and nonvested share unit awards generally vest over a two, three or four-year period.

The 2002 Omnibus Stock Incentive Plan was terminated in June 2009 and the 1997 Omnibus Stock Incentive Plan was terminated in January 2006; no new grants may be made under either of these plans, although exercises of SARs and options, and vesting of nonvested share awards previously granted thereunder will still occur in accordance with the terms of the various grants.

In August 2011, the Company granted 450,512 stock options and 155,875 nonvested share awards to its new President and Chief Executive Officer, resulting in an increase in the number of shares issued under stock option and nonvested share awards outstanding. In August 2011, the Company also granted 59,952 vested shares to its new President and Chief Executive Officer that were fully expensed during the second quarter, which is included in stock-based compensation expense noted below. These awards were granted as an inducement grant under applicable NASDAQ Stock Market Listing Rules and were made outside of the Company's existing equity plans.

Total stock-based compensation expense under all Plans and the inducement grant included in the results of operations for the nine months ended November 26, 2011 and November 27, 2010, was \$3.3 million and \$3.8 million, respectively. At November 26, 2011, there was \$1.2 million of total unrecognized compensation cost related to stock option awards, which is expected to be recognized over a weighted average period of approximately 33 months.

Cash proceeds from the exercise of stock options were \$0.2 million for both the nine months ended November 26, 2011 and November 27, 2010.

The weighted average fair value per option at the date of grant for options granted in fiscal 2012 was \$2.89, which was for the stock option issued under the inducement grant noted above. There were no options or SARs issued in the first nine months of fiscal 2011. The aggregate intrinsic value of these securities (the amount by which the stock price on the date of exercise exceeded the stock price of the award on the date of grant) exercised was minimal during the nine months ended November 26, 2011 and was \$0.1 million during the nine months ended November 27, 2010.

The fair value of each award grant is estimated on the date of grant using the Black-Scholes option-pricing model, with the following weighted-average assumptions used for grants through the first nine months of fiscal 2012.

	<b>Nine months ended November 26, 2011</b>
Dividend yield	3.9%
Expected volatility	56.1%
Risk-free interest rate	0.8%
Expected lives	4.6 years

The expected stock price volatility is based on historical experience. The risk-free rate for periods that coincide with the expected life of the options is based on the U.S. Treasury Department yield curve in effect at the time of grant. The expected life, the average time an option grant is outstanding, and forfeiture rates are estimated based on historical experience.

**Table of Contents**

The following table summarizes the award transactions for the nine months ended November 26, 2011:

	Number of Shares	Options/SARs Outstanding Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value

Exercisable at Nov. 26, 2011	1,436,373	\$ 17.86	4.0 years	\$ 6,646

**Partnership Plan**

The Amended and Restated 1987 Partnership Plan (the Partnership Plan), a plan designed to increase the ownership of Apogee stock by key employees, allowed participants selected by the Compensation Committee of the Board of Directors to defer earned incentive compensation through the purchase of Apogee common stock. The purchased stock was then matched by an equal award of nonvested shares, which vested over a predetermined period. This program was eliminated for fiscal 2006 and beyond, although vesting of nonvested shares will still occur according to the vesting period of the grants made prior to fiscal 2006.

**Executive Compensation Program**

In fiscal 2006, the Company implemented an executive compensation program to provide for a greater portion of total compensation to be delivered to key employees selected by the Compensation Committee of the Board of Directors through long-term incentives using performance shares, SARs and nonvested shares. From fiscal 2006 through fiscal 2009, performance shares were issued at the beginning of each fiscal year in the form of nonvested share awards. Starting in fiscal 2010, the Company issued performance shares in the form of nonvested share unit awards, which give the recipient the right to receive shares earned at the vesting date. The number of shares or share units issued at grant is equal to the target number of performance shares and allows for the right to receive an additional number of, or fewer, shares based on meeting pre-determined Company three-year performance goals.

The following table summarizes the nonvested share award transactions, including performance shares and performance share units, for the nine months ended November 26, 2011:

	Nonvested Shares and Units	Weighted Average Grant Date Fair Value
Nonvested at February 26, 2011	921,565	\$ 14.54
Granted <sup>(1)</sup>	438,967	8.87
Vested	(162,634)	16.60
Canceled	(140,443)	17.87
Nonvested at November 26, 2011 <sup>(2)</sup>	1,057,455	\$ 11.43

- (1) Includes 117,765 performance share units granted for the fiscal 2012-2014 performance period at target levels.
- (2) Includes a total of 452,314 performance share units granted and outstanding at target level for fiscal 2010-2012, 2011-2013 and 2012-2014.

At November 26, 2011, there was \$6.9 million of total unrecognized compensation cost related to nonvested share and performance share unit awards, which is expected to be recognized over a weighted average period of approximately 25 months. The total fair value of shares vested during the nine months of fiscal 2012 was \$2.3 million.

**Table of Contents****4. Earnings per Share**

The following table presents a reconciliation of the denominators used in the computation of basic and diluted earnings per share.

	Three months ended		Nine months ended

Stock options excluded from the calculation of earnings per share because the exercise price was greater than the average market price of the common shares	1,365		1,334	

Due to the net loss in fiscal 2011, there was no dilutive impact from unvested shares in the three or nine-month periods of that year.

**6. Marketable Securities**

The Company has investments in municipal bonds of \$20.2 million; \$6.8 million is current and \$13.4 million is non-current. The Company's wholly owned insurance subsidiary, Prism Assurance, Ltd. (Prism), holds \$13.6 million of the municipal bonds. Prism insures a portion of the Company's workers' compensation, general liability and automobile liability risks using reinsurance agreements to meet statutory requirements. The reinsurance carrier requires Prism to maintain fixed-maturity investments, which are generally high-quality municipal bonds, for the purpose of providing collateral for Prism's obligations under the reinsurance agreement. All of the Company's fixed maturity investments are classified as available-for-sale, are carried at fair value and are reported as short-term marketable securities available for sale and marketable securities available for sale in the consolidated balance sheet.

The amortized cost, gross unrealized gains and losses, and estimated fair values of investments available for sale at November 26, 2011 and February 26, 2011, are as follows:

The Company tests for other than temporary losses on a quarterly basis and has considered the unrealized losses indicated above to be temporary in nature. The Company intends to hold the investments until it can recover the full principal amount and has the ability to do so based on other sources of liquidity. The Company expects such recoveries to occur prior to the contractual maturities.

**Table of Contents**

The following table presents the length of time that available-for-sale securities were in continuous unrealized loss positions, but were not deemed to be other than temporarily impaired, as of November 26, 2011:

The Company recognized gross realized gains of \$0.4 million during nine-month period of fiscal 2012, which are included in other (expense) income, net in the accompanying consolidated results of operations. Gross realized losses were not material during that timeframe, and there were immaterial amounts of realized gains and realized losses during the three and nine-month periods of fiscal 2011.

**7. Fair Value Measurements**

The Company accounts for financial assets and liabilities in accordance with accounting standards that define fair value and establish a framework for measuring fair value. The hierarchy prioritizes the inputs into three broad levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset's or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

**Table of Contents**

Financial assets and liabilities measured at fair value as of November 26, 2011 and February 26, 2011, are summarized below:

**Cash equivalents**

## Edgar Filing: APOGEE ENTERPRISES, INC. - Form 10-Q

Cash equivalents include highly liquid investments with an original maturity of three months or less, and consist primarily of money market funds. The cash equivalents are held at fair value based on quoted market prices, which approximates stated cost.

### **Short-term marketable securities available for sale**

The Company has short-term marketable securities available for sale of \$6.8 million as of November 26, 2011, consisting of municipal bonds. The Company classifies these short-term marketable securities as available-for-sale, and they are carried at fair market value based on market prices from recent trades of similar securities.

### **Marketable securities available for sale**

The Company has \$13.4 million of marketable securities available for sale, consisting of municipal bonds. All of the Company's fixed maturity investments are classified as available-for-sale, are carried at fair value and are reported as marketable securities available for sale in the consolidated balance sheet. These investments are held at fair value based on prices from recent trades of similar securities.

**Table of Contents****Restricted investments**

The Company has \$13.6 million of current restricted investments consisting of money market funds that were required to be made available to cover our exposure for letters of credit outside of our revolving credit facility and credit-card programs. The Company has \$9.6 million of long-term restricted investments consisting of money market funds, which are short-term in nature but are restricted for future investment in the Company's architectural glass fabrication facility in Utah, and are therefore classified as long-term. The restricted investments are held at fair value based on quoted market prices, which approximates stated cost.

**Mutual fund investments**

The Company has \$1.0 million of mutual fund investments as a long-term funding source for the deferred compensation plan. The mutual fund investments are recorded at estimated fair value, based on quoted market prices, and are included in other non-current assets in the consolidated balance sheet.

**8. Acquisition**

On November 19, 2010, the Company acquired 100 percent of the stock of Glassec Vidros de Segurança Ltda., a privately held business, for \$20.6 million, net of cash acquired of \$1.1 million. The business operates under the name GlassecViracon as part of the Company's architectural glass business.

In the third quarter of fiscal 2012, the Company recorded a measurement period adjustment of \$4.2 million, reducing the fair values of goodwill and long-term deferred tax liabilities assumed in the acquisition as of the acquisition date. The Company has retrospectively adjusted the previously reported fair values of goodwill and long-term deferred tax liabilities to reflect these amounts.

**9. Goodwill and Other Identifiable Intangible Assets**

The carrying amount of goodwill, net of accumulated amortization, attributable to each business segment as of the nine months ended November 26, 2011, is detailed below.

Amortization expense on these identifiable intangible assets was \$2.2 million and \$1.8 million for the nine months ended November 26, 2011 and November 27, 2010, respectively. The amortization expense associated with the debt issue costs is included in interest expense while the remainder is in selling, general and administrative expenses in the consolidated results of operations. At November 26, 2011, the estimated future amortization expense for identifiable intangible assets for the remainder of fiscal 2012 and all of the following four fiscal years is as follows:

<i>(In thousands)</i>	<b>Remainder of Fiscal 2012</b>	<b>Fiscal 2013</b>	<b>Fiscal 2014</b>	<b>Fiscal 2015</b>	<b>Fiscal 2016</b>

**10. Long-Term Debt**

The Company maintains an \$80.0 million revolving credit facility, which expires in January 2014. No borrowings were outstanding as of November 26, 2011 or February 26, 2011. The credit facility requires the Company to maintain a minimum level of net worth as defined in the credit facility based on certain quarterly financial calculations. The minimum required net worth computed in accordance with the credit agreement at November 26, 2011 was \$271.4 million, whereas the Company's net worth as defined in the credit facility was \$320.4 million. The credit facility also requires that the Company maintain an adjusted debt-to-EBITDA ratio of not more than 2.75. This ratio is computed quarterly, with EBITDA computed on a rolling four-quarter basis. For purposes of calculating the adjusted debt in the adjusted debt-to-EBITDA ratio, the Company reduces non-credit facility debt for up to \$25 million to the extent of unrestricted cash balances, cash equivalents and short-term marketable securities available for sale in excess of \$15 million. The Company's ratio was 0.00 at November 26, 2011. If the Company is not in compliance with either of these covenants, the lenders may terminate the commitment and/or declare any loan then outstanding to be immediately due and payable. At November 26, 2011, the Company was in compliance with the financial covenants of the credit facility.

Long-term debt at November 26, 2011 and February 26, 2011, consists of \$12.0 million of recovery zone facility bonds, \$8.4 million of industrial development bonds and other debt incurred by GlassecViracon. The industrial development and recovery zone facility bonds mature in fiscal years 2021 through 2036, and the other debt matures in fiscal years 2012 through 2021. The fair value of debt approximates carrying value at November 26, 2011.

Interest payments were \$0.8 million and \$0.4 million for the nine-month periods ended November 26, 2011 and November 27, 2010, respectively.

**11. Employee Benefit Plans**

Components of net periodic benefit cost for the Company's Officers' Supplemental Executive Retirement Plan (SERP) and Tubelite, Inc. Hourly Employees' Pension Plan (Tubelite Plan) for the three and nine-month periods ended November 26, 2011 and November 27, 2010, were as follows:

<i>(In thousands)</i>	<b>Three months ended</b>		<b>Nine months ended</b>	
	<b>Nov. 26, 2011</b>	<b>Nov. 27, 2010</b>	<b>Nov. 26, 2011</b>	<b>Nov. 27, 2010</b>

Amortization of unrecognized net loss	30	30	90	90
Net periodic benefit cost	\$ 140	\$ 140	\$ 420	\$ 420

The Company maintains a deferred compensation plan that allows participants to defer compensation and assist in saving for retirement and other short-term needs. The deferred compensation liability was \$2.5 million at November 26, 2011 and is included in other long-term liabilities

in the consolidated balance sheet. The deferred compensation plan has historically been unfunded. In the first quarter of fiscal 2012, the Company invested in corporate-owned life insurance policies (COLI) of \$1.4 million and mutual funds of \$1.0 million with the intention of utilizing them as a long-term funding source for the deferred compensation plan. The COLI assets are recorded at their net cash surrender values and are included in other non-current assets in the consolidated balance sheet. The mutual fund investments are recorded at estimated fair value, based on quoted market prices, and are included in other non-current assets in the consolidated balance sheet.

**12. Income Taxes**

The Company files income tax returns in the U.S. federal jurisdiction, Brazil and various U.S. state jurisdictions. The Company is no longer subject to U.S. federal tax examinations for years prior to fiscal 2009 or state and local income tax examinations for years prior to fiscal 2005. During the first quarter of fiscal 2012, the Company entered into an administrative appeals agreement with the IRS to conclude the federal audit for fiscal years 2004 through 2007. The federal statute of limitations has expired for fiscal year 2008. The Company is not currently under U.S. federal examination for years subsequent to fiscal year 2008, and there is very limited audit activity of the Company's income tax returns in U.S. state jurisdictions and Brazil.

**Table of Contents**

The total gross liability for unrecognized tax benefits at November 26, 2011 and February 26, 2011, was approximately \$9.9 million and \$13.8 million, respectively. The decrease in the unrecognized tax benefits was due to releasing reserves upon entering into the agreement for fiscal years 2004 through 2007 noted above as well as the federal statute of limitation expiration. The Company records the impact of penalties and interest related to unrecognized tax benefits in income tax expense, which is consistent with past practices. The total liability for unrecognized tax benefits is expected to decrease by approximately \$1.1 million during the next 12 months due to the lapsing of statutes.

**13. Discontinued Operations**

In several transactions in fiscal years 1998 through 2000, the Company completed the sale of its large-scale domestic curtainwall business, the sale of the Company's detention/security business and its exit from international curtainwall operations. In the first quarter of fiscal 2012, the Company paid \$3.0 million for resolution of an outstanding legal claim related to a foreign discontinued operation, which was fully reserved in discontinued operations at the end of fiscal 2011. The remaining estimated cash expenditures related to discontinued operations are recorded as liabilities of discontinued operations and cover warranty issues relating to domestic and international construction projects that the Company expects will be resolved over the next five years.

During the second quarter of fiscal 2011, the favorable resolution of an outstanding tax exposure related to a foreign operation discontinued in 1998 resulted in the release of \$4.9 million of uncertain tax positions and non-cash income from discontinued operations.

**14. Commitments and Contingent Liabilities**

**Operating lease commitments.** As of November 26, 2011, the Company was obligated under noncancelable operating leases for buildings and equipment. Certain leases provide for increased rentals based upon increases in real estate taxes or operating costs. Future minimum rental payments under noncancelable operating leases are:

In the first quarter of fiscal 2012, the Company entered into an agreement for the sale and leaseback of equipment for a sale price of \$10.3 million. Under the sale and leaseback agreement, the Company has an option to purchase the equipment at projected future fair market value upon expiration of the lease, which occurs in fiscal 2018. The lease is classified as an operating lease. The Company has a deferred gain of \$5.9 million under this sale and leaseback transaction, which is included in the balance sheet caption as other accrued expenses and other long-term liabilities. The average annual lease payment over the life of the remaining lease is \$1.6 million.

**Table of Contents**

**Bond commitments.** In the ordinary course of business, predominantly in the Company's installation business, the Company is required to provide a surety or performance bond that commits payments to its customers for any non-performance by the Company. At November 26, 2011, \$110.7 million of the Company's backlog was bonded by performance bonds with a face value of \$307.8 million. Performance bonds do not have stated expiration dates, as the Company is released from the bonds upon completion of the contract. The Company has never been required to pay on these performance-based bonds with respect to any of the current portfolio of businesses.

**Guarantees and warranties.** The Company accrues for warranty and claim costs as a percentage of sales based on historical trends and for specific sales credits as they become known and estimable. Actual warranty and claim costs are deducted from the accrual when incurred. The Company's warranty and claim accruals are detailed below.

<i>(In thousands)</i>	<b>Nine months ended</b>	
	<b>Nov. 26, 2011</b>	<b>Nov. 27, 2010</b>

During fiscal 2011, the Company experienced a high level of architectural glass product quality issues, including quality issues resulting from a vendor-supplied material. This higher level of activity impacted fiscal 2011 warranty expenses and year-end accruals, for items identified but not yet resolved. The impact of this activity was largely reported in cost of sales for fiscal 2011.

**Letters of credit.** At November 26, 2011, the Company had ongoing letters of credit related to its construction contracts and certain industrial development and recovery zone facility bonds. The total value of letters of credit under which the Company was obligated as of November 26, 2011, was approximately \$25.5 million. The Company's total availability under its \$80.0 million credit facility is reduced by borrowings under the facility and also by letters of credit issued under the facility. As of November 26, 2011, letters of credit in the amount of \$13.2 million had been issued under the facility.

**Purchase obligations.** The Company has purchase obligations for raw material commitments and capital expenditures. As of November 26, 2011, these obligations totaled \$6.6 million.

**Non-compete agreements.** The Company has entered into a number of non-compete and consulting agreements associated with current and former employees. As of November 26, 2011, future payments of \$1.3 million were committed under such agreements.

**Litigation.** The Company is a party to various legal proceedings incidental to its normal operating activities. In particular, like others in the construction supply industry, the Company's architectural segment businesses are routinely involved in various disputes and claims arising out of construction projects, sometimes involving significant monetary damages or product replacement. The Company is subject to litigation arising out of employment practices, workers compensation, general liability and automobile claims. Although it is very difficult to accurately predict the outcome of such proceedings, facts currently available indicate that no such claims will result in losses that would have a material adverse effect on the results of operations or financial condition of the Company.

<b>Operating income (loss)</b>	<b>\$ 7,156</b>	<b>\$ (1,841)</b>	<b>\$ 1,051</b>	<b>\$ (15,344)</b>

Due to the varying combinations of individual window systems and curtainwall, the Company has determined that it is impractical to report product and service revenues generated by the Architectural segment by class of product, beyond the segment revenues currently reported.

**Highlights of Third-Quarter and First Nine-Months of Fiscal 2012 Compared to Third-Quarter and First Nine-Months of Fiscal 2011**

Consolidated net sales increased \$27.7 million, or 18.8 percent, for the third quarter ended November 26, 2011, compared to the prior-year period, and increased \$58.9 million, or 13.5 percent, for the nine-month period. The largest single driver of the increase for both the quarter and year-to-date periods was the addition of the GlassecViracon business that we acquired in the third quarter of fiscal 2011, which accounted for 6.1 percentage points for the quarter and 5.9 percentage points for the year-to-date period. Market share gains in the window and storefront businesses and improved architectural glass pricing contributed to both the third quarter and year-to-date improvements. Increased volume in the LSO segment business from sales to independent framers also contributed to the growth in net sales for the third quarter.

Gross profit as a percent of sales for the quarter ended November 26, 2011 increased to 19.9 percent from 15.7 percent in the prior-year period, an increase of 4.2 percentage points. For the nine-month period, gross profit as a percent of sales was 17.1 percent, an improvement of 3.3 percentage points over the prior-year period. The increases in gross margins for both the three and nine-month periods were largely due to the higher architectural glass pricing and the margin impact from the revenue growth in the window and storefront businesses, partially offset by lower margin work in the installation business. Gross profit for the prior-year

quarter was positively impacted by a net benefit of approximately \$0.9 million, or 0.6 percentage points, resulting from recoveries of costs incurred in the second and third quarters of the prior year to resolve architectural glass product quality issues from a vendor-supplied material. For the nine-month period of the prior-year, gross profit was negatively impacted by approximately \$1.1 million, or 0.3 percentage points, of net expenses incurred related to this issue.

Selling, general and administrative expenses for the third quarter increased by \$2.7 million, but decreased as a percent of net sales to 15.8 percent from 17.0 percent in the prior-year period. For the nine-month period, selling, general and administrative expenses were up \$8.1 million over the prior period and decreased as a percent of net sales to 16.9 percent from 17.3 percent in the prior year. Approximately half of the increase in spending for both

**Table of Contents**

the quarter and year-to-date periods relates to the impact of the addition of the GlassecViracon business. The remaining increase for the quarter was due to increased commissions and selling costs as a result of increased sales and an increase in accruals for incentive and long-term executive compensation expenses. Transition costs related to our retiring CEO and hiring our new CEO, and increased commissions as a result of increased sales, contributed to the increase in spending for year-to-date period.

Income tax expense for the third quarter of fiscal 2012 included a benefit of approximately \$1.1 million from statute of limitation expirations for fiscal years 2005 through 2008. In the third quarter of the prior year, the tax benefit from the net loss was more than offset by discrete tax expenses primarily related to certain outstanding state audits that had a negative impact during that quarter.

Earnings from discontinued operations for the nine-month period of fiscal 2011 reflect the favorable resolution of an outstanding tax exposure related to a foreign operation discontinued in 1998 that provided non-cash income of \$4.9 million.

**Segment Analysis**

The following table presents sales and operating income data for our two segments and on a consolidated basis for the three and nine-month periods ended November 26, 2011, when compared to the corresponding periods a year ago.

NM = not meaningful

Due to the varying combinations of individual window systems and curtainwall, the Company has determined that it is impractical to report product and service revenues generated by the Architectural segment by class of product, beyond the segment revenues currently reported.

**Architectural Products and Services (Architectural)**

Third-quarter net sales of \$152.1 million increased 21.0 percent over the prior-year period, and net sales of \$436.5 million for the nine-month period increased 15.0 percent over the prior-year period. The addition of GlassecViracon accounted for 7.2 percentage points of the third quarter increase and 6.7 percentage points of the year-to-date increase. Increased revenue in the window and storefront businesses as a result of volume growth from higher market share and improved architectural glass pricing contributed to both the third quarter and year-to-date improvements.

## Edgar Filing: APOGEE ENTERPRISES, INC. - Form 10-Q

The segment reported operating income of \$0.6 million in the current quarter, compared to a loss of \$8.4 million in the prior-year quarter. For the nine-month period, the segment incurred an operating loss of \$11.6 million compared to a loss of \$27.8 million in the prior-year period. The improvement in both the quarter and year-to-date periods was due to the improved architectural glass pricing and the impact of the increased revenue in our window and storefront businesses, partially offset by lower margin work in the installation business as this business works off projects bid at lower margins. The prior-year quarter was positively impacted by a net benefit of approximately \$0.9 million, or 0.7 percentage points, resulting from recoveries of costs incurred in the second and third quarters of the prior year to resolve architectural glass product quality issues from a vendor-supplied material. For the nine-month period of the prior-year, the segment was negatively impacted by approximately \$1.1 million, or 0.3 percentage points, of net expenses incurred related to this issue.

Architectural backlog at November 26, 2011, increased to \$230.7 million from \$165.7 million in the prior-year period and remained consistent with the \$231.3 million reported at the end of the second quarter. Bidding activity remains solid; however, bid-to-award and contract timing continues to be slow. The dollar value of awarded projects awaiting final signed contracts remained at the second quarter level of approximately \$60 million; this work is primarily scheduled for fiscal 2013. We expect approximately \$96 million of the November 26, 2011 backlog to flow during the remainder of fiscal 2012.

**Table of Contents****Large-Scale Optical Technologies (LSO)**

Third quarter revenues were \$22.8 million, up 6.1 percent over the prior year of \$21.5 million. For the nine months ended November 26, 2011, revenues were \$57.2 million, a 3.1 percent increase over the prior year. The increase for the quarter was due to an increase in sales to independent framers, which also impacted the year-to-date period along with an overall higher mix of value-added picture framing products.

Operating income of \$7.4 million in the quarter was flat to the prior-year period and operating margins for the quarter were down 2.0 percentage points to 32.5 percent, compared to 34.5 percent in the prior-year period as the impact of additional volume was offset by increased spending on growth initiatives in the current year-period. For the nine-month period, operating income of \$15.6 million was up 3.6 percent over the prior-year period and operating margins were consistent at 27.2 percent compared to 27.1 percent in the prior-year period. The strong mix of value-added picture framing products resulted in the increase in operating income for the year-to-date period.

**Consolidated Backlog**

At November 26, 2011, our consolidated backlog was \$232.3 million, up 38.2 percent over the prior-year period and essentially flat to the \$233.3 million reported at the end of the second quarter.

The backlog of the Architectural segment represented more than 99 percent of consolidated backlog.

We view backlog as an important statistic in evaluating the level of sales activity and short-term sales trends in our business. However, as backlog is only one indicator, and is not an effective indicator of our ultimate profitability, we do not believe that backlog should be used as the sole indicator of future earnings of the Company.

**Discontinued Operations**

In several transactions in fiscal years 1998 through 2000, we completed the sale of our large-scale domestic curtainwall business, the sale of our detention/security business and the exit from international curtainwall operations. In the first quarter of fiscal 2012, we paid \$3.0 million for resolution of an outstanding legal claim related to a foreign discontinued operation, which was fully reserved in discontinued operations at the end of fiscal 2011. The remaining estimated cash expenditures related to discontinued operations are recorded as liabilities of discontinued operations and cover warranty issues relating to domestic and international construction projects that we expect to be resolved over the next five years.

During the second quarter of fiscal 2011, favorable resolution of an outstanding tax exposure related to a foreign operation discontinued in 1998 provided non-cash income from discontinued operations of \$4.9 million.

**Operating activities.** Cash used by operating activities of continuing operations was \$4.7 million for the first nine months of fiscal 2012, compared to \$25.1 million in the prior-year period. Fiscal 2011 operating cash flows were negatively impacted by the loss from operations and seasonally high cash outflow from operations in the first half of the year as a result of payments made to fund annual incentive compensation, retirement plan contributions and annual insurance premiums. Fiscal 2012 operating cash flows were positively impacted by the income reported for the year as compared to the prior-year and was less impacted by the seasonally high cash outflow from operations in the first half of the year noted above. We had positive cash flow from operations of \$10.0 million in the third quarter of fiscal 2012, driven by the income reported in the quarter.

Non-cash working capital (current assets, excluding cash and short-term marketable securities available for sale and short-term restricted investments, less current liabilities) was \$70.9 million at November 26, 2011, or 11.0 percent of last 12-month sales, our key metric for measuring working capital efficiency. This compares to 6.8 percent at February 26, 2011 and 9.0 percent at November 27, 2010. The change from year-end and the prior-year period was due to working capital outflows for current quarter and future growth. As indicated in our Form 10-K for the year ended February 26, 2011, we expected this metric to be negatively impacted during fiscal 2012 as we anticipate growth for our Architectural businesses, requiring more working capital to support increasing business activities.

**Table of Contents**

**Investing Activities.** Through the first nine months of fiscal 2012, investing activities provided \$21.1 million of cash, compared to cash used of \$11.3 million in the same period last year. The current year included \$10.3 million in proceeds from the sale and leaseback of equipment. Net proceeds of \$12.7 million from restricted investments impacted the current year as some of the letters of credit that were being held outside of our credit facility were moved under the facility, releasing the money market funds we had been required to maintain to cover those exposures. The net position of our investments for the nine-month period resulted in \$5.8 million in net sale proceeds, as we sold investments to fund current operating activities. New capital investments through the first nine months of fiscal 2012 totaled \$6.2 million, primarily for safety and maintenance projects, as well as productivity improvements. In the first quarter of fiscal 2012, we invested in corporate-owned life insurance policies (COLI) of \$1.4 million with the intention of utilizing them as a long-term funding source for our deferred compensation plan.

The prior-year period included \$21.2 million for the acquisition of the GlassecViracon business. Prior-year investing activities included \$29.0 million in net sales proceeds on marketable securities as we converted those investments to cash equivalents to support higher working capital. The prior year included net purchases of restricted investments of \$11.8 million related to the funds received as a result of the recovery zone facility bonds that were made available for future investment in our architectural glass fabrication facility in Utah. New capital investments for the first nine months of fiscal 2011 were \$7.5 million, primarily for safety and maintenance projects.

We expect fiscal 2012 capital expenditures to be less than \$15 million, primarily for maintenance and safety projects.

We continue to review our portfolio of businesses and their assets in comparison to our internal strategic and performance objectives. As part of this review, we may acquire other businesses, further invest in, fully divest and/or sell parts of our current businesses.

**Financing Activities.** Total outstanding borrowings at November 26, 2011, were \$21.2 million compared to \$22.4 million as of February 26, 2011 and \$23.5 million at November 27, 2010. Long-term debt consists of \$12.0 million of recovery zone facility bonds, \$8.4 million of industrial development bonds and other debt incurred by GlassecViracon. The industrial development and recovery zone facility bonds mature in fiscal years 2021 through 2036 and the other debt matures in fiscal years 2012 through 2021. Our debt-to-total-capital ratio was 6.2 percent at November 26, 2011 and 6.4 percent at February 26, 2011.

We maintain an \$80.0 million revolving credit facility, which expires in January 2014. No borrowings were outstanding as of November 26, 2011 or February 26, 2011. The credit facility requires that we maintain a minimum level of net worth as defined in the credit facility based on certain quarterly financial calculations. The minimum required net worth computed in accordance with the credit agreement at November 26, 2011 was \$271.4 million, whereas our net worth as defined in the credit facility was \$320.4 million. The credit facility also requires that we maintain an adjusted debt-to-EBITDA ratio of not more than 2.75. This ratio is computed quarterly, with EBITDA computed on a rolling four-quarter basis. For purposes of calculating the adjusted debt in the debt-to-EBITDA ratio, we reduce non-credit facility debt for up to \$25 million to the extent of unrestricted cash balances, cash equivalents and short-term marketable securities available for sale in excess of \$15 million. Our ratio was 0.00 at November 26, 2011. If we are not in compliance with either of these covenants, the lenders may terminate the commitment and/or declare any loan then outstanding to be immediately due and payable. At November 26, 2011, we were in compliance with the financial covenants of the credit facility. In addition to the financial covenants of the credit facility, the facility limits our dividends and equity repurchases to \$12 million per fiscal year until the occurrence of two consecutive fiscal quarter-ends after the closing date of the facility in which our trailing 12-month EBITDA exceeds \$20.0 million. Our trailing 12-month EBITDA exceeded \$20.0 million at November 26, 2011, representing the first quarter that we exceeded the threshold under the credit facility.

During fiscal 2004, the Board of Directors authorized a share repurchase program of 1,500,000 shares of common stock. The Board of Directors increased this authorization by 750,000 shares in January 2008 and by 1,000,000 in October 2008. We purchased 275,000 shares under the program during the first nine months of fiscal 2012. There were no share repurchases during fiscal 2011. We have purchased a total of 2,279,123 shares, at a total cost of \$29.7 million, since the inception of this program. We have remaining authority to repurchase 970,877 shares under this program, which has no expiration date.

**Table of Contents**

**Other Financing Activities.** The following summarizes our significant contractual obligations that impact our liquidity as of November 26, 2011:

<i>(In thousands)</i>	Future Cash Payments Due by Fiscal Period						Total
	2012 Remaining	2013	2014	2015	2016	Thereafter	
Continuing operations							
Industrial revenue bonds	\$	\$	\$	\$	\$	\$ 8,400	\$ 8,400
Recovery zone facility bonds						12,000	12,000
Other debt obligations	216	90	62	62	63	285	778
Operating leases (undiscounted)	1,753	6,571	5,468	4,660	4,558	6,317	29,327
Purchase obligations	3,258	3,312	74				6,644
Other obligations	90	1,255					1,345
Total cash obligations	\$ 5,317	\$ 11,228	\$ 5,604	\$ 4,722	\$ 4,621	\$ 27,002	\$ 58,494

From time to time, we acquire the use of certain assets, such as warehouses, automobiles, forklifts, vehicles, office equipment, hardware, software and some manufacturing equipment through operating leases. Many of these operating leases have termination penalties. However, because the assets are used in the conduct of our business operations, it is unlikely that any significant portion of these operating leases would be terminated prior to the normal expiration of their lease terms. Therefore, we consider the risk related to termination penalties to be minimal.

We have purchase obligations for raw material commitments and capital expenditures. As of November 26, 2011, these obligations totaled \$6.6 million.

We expect to make contributions of \$0.5 million to our defined benefit pension plans in fiscal 2012, which will equal or exceed our minimum funding requirements.

As of November 26, 2011, we had \$9.9 million and \$2.0 million of unrecognized tax benefits and environmental liabilities, respectively. We are unable to reasonably estimate in which future periods these amounts will ultimately be settled.

At November 26, 2011, we had ongoing letters of credit related to construction contracts and certain industrial development and recovery zone facility bonds. The Company's \$8.4 million of industrial revenue bonds are supported by \$8.7 million of letters of credit that reduce availability of funds under our \$80.0 million credit facility. The \$12.0 million of recovery zone facility bonds are supported by \$12.3 million of letters of credit. The letters of credit by expiration period were as follows at November 26, 2011:

<i>(In thousands)</i>	Amount of Commitment Expiration Per Fiscal Period						Total
	2012 Remaining	2013	2014	2015	2016	Thereafter	
Standby letters of credit	\$	\$ 20,982	\$ 2,000	\$	\$	\$ 2,500	\$ 25,482

In addition to the above standby letters of credit, which were predominantly issued for our industrial development and recovery zone facility bonds, we are required, in the ordinary course of business, to provide a surety or performance bond that commits payments to our customers for any non-performance by us. At November 26, 2011, \$110.7 million of our backlog was bonded by performance bonds with a face value of \$307.8 million. Performance bonds do not have stated expiration dates, as we are released from the bonds upon completion of the contract. We have never been required to pay on these performance-based bonds with respect to any of our current portfolio of businesses.

We self-insure our third-party product liability coverages. As a result, a material construction project rework event would have a material adverse effect on our operating results.

For fiscal 2012, we believe that current cash on hand, cash generated from operating activities and available capacity under our committed revolving credit facility will be adequate to fund our working capital requirements, planned capital expenditures and dividend payments. We have total cash and short-term marketable securities available for sale of \$32.8 million, and \$66.8 million available under our credit facility at November 26, 2011. We believe that this will provide us with the financial strength to work through the ongoing weak market conditions and to

focus on our growth strategy for the recovery.

### **Outlook**

Although we continue to face a high level of uncertainty in our Architectural segment market, we believe that we remain at the bottom of the commercial construction cycle. The following statements are based on our current expectations for full-year fiscal 2012 results. These statements are forward-looking, and actual results may differ materially.

Overall revenues for the year are expected to increase by approximately 14 percent.

We anticipate earnings per share of at least \$0.07.

We expect to generate positive cash flow from operations in fiscal 2012.

Full-year safety and maintenance capital expenditures are projected to be less than \$15 million.

### **Related Party Transactions**

No material changes have occurred in the disclosure with respect to our related party transactions set forth in our Annual Report on Form 10-K for the fiscal year ended February 26, 2011.

### **Critical Accounting Policies**

No material changes have occurred in the disclosure of our critical accounting policies set forth in our Annual Report on Form 10-K for the fiscal year ended February 26, 2011.

### **Item 3: Quantitative and Qualitative Disclosures About Market Risk**

No material changes have occurred to the disclosures of quantitative and qualitative market risk set forth in our Annual Report on Form 10-K for the fiscal year ended February 26, 2011.

### **Item 4: Controls and Procedures**

- a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report (the Evaluation Date), we carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in applicable rules and forms, and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.
- b) Changes in internal controls: There was no change in the Company's internal control over financial reporting that occurred during the fiscal quarter ended November 26, 2011, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

## Edgar Filing: APOGEE ENTERPRISES, INC. - Form 10-Q

The Company has been a party to various legal proceedings incidental to its normal operating activities. In particular, like others in the construction supply industry, the Company's architectural segment businesses are routinely involved in various disputes and claims arising out of construction projects, sometimes involving significant monetary damages or product replacement. The Company has also been subject to litigation arising out of employment practices, workers compensation, general liability and automobile claims. Although it is difficult to accurately predict the outcome of such proceedings, facts currently available indicate that no such claims will result in losses that would have a material adverse effect on the results of operations or financial condition of the Company.

### **Item 1A. Risk Factors**

There have been no material changes or additions to our risk factors discussed in our Annual Report on Form 10-K for the fiscal year ended February 26, 2011.
