About the Annual Meeting

Who is soliciting my vote?

The board of directors of Gulfport Energy Corporation, which we refer to as Gulfport, the Company and we in this proxy statement, is soliciting your vote at the 2019 Annual Meeting of Stockholders. The proposals to be voted on by the Company's stockholders at the 2019 Annual Meeting of Stockholders are described below.

What am I voting on?

You are voting on:

The election of directors (*see Proposal 1 beginning on page 7*);

The approval of the Company's 2019 Amended and Restated Stock Incentive Plan (*see Proposal 2 on page 67*)

The approval, on an advisory basis, of the compensation paid to the Company's named executive officers as reported in this proxy statement (*see Proposal 3 beginning on page 74*);

The ratification of Grant Thornton LLP as our independent auditors for 2019 (*see Proposal 4 beginning on page 75*); and

Any other business properly coming before the meeting.

How does the board of directors recommend that I vote my shares?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of our board of directors. The board of directors' recommendations can be found with the description of each proposal in this proxy statement. In summary, the board of directors recommends a vote:

FOR the proposal to elect the nominated directors;

FOR the proposal to approve the Company's 2019 Amended and Restated Stock Incentive Plan;

FOR the proposal to approve, on an advisory basis, the compensation paid to the Company's named executive officers as reported in this proxy statement; and

FOR the proposal to ratify Grant Thornton LLP as the Company's independent auditors for 2019.

Who is entitled to vote?

You may vote if you were the record owner of our common stock as of the close of business on the record date, which is April 17, 2019. Each share of common stock is entitled to one vote. As of April 17, 2019, we had 159,197,402 shares of common stock outstanding, excluding an aggregate of 1,946,741 shares of restricted stock and restricted stock units awarded under our 2013 Restated Stock Incentive Plan, but not yet vested. There is no cumulative voting.

How many votes must be present to hold the meeting?

Your shares are counted as present at the Annual Meeting if you attend the meeting and vote in person or if you properly return a proxy by mail. In order for us to hold our meeting, holders of a majority of the voting power of our outstanding shares of common stock as of the close of business on April 17, 2019 must be present in person or by proxy at the meeting. This is referred to as a quorum. Abstentions and broker non-votes will be counted for purposes of establishing a quorum at the meeting.

Table of Contents

What is a broker non-vote?

If a broker does not have discretion to vote shares held in street name on a particular proposal and does not receive instructions from the beneficial owner on how to vote those shares, the broker may return the proxy card without voting on that proposal. This is known as a *broker non-vote*. No broker may vote your shares without your specific instructions on any of the proposals to be considered at the Annual Meeting other than the ratification of our independent auditors.

How many votes are needed to approve each of the proposals?

Our bylaws provide for the election of directors in uncontested elections by a majority of the votes cast by the stockholders present in person or represented by proxy at the meeting and entitled to vote thereon. The number of shares voted **FOR** a director nominee must exceed the number of votes cast **AGAINST** that nominee. Abstentions and broker non-votes will not be counted for voting purposes with respect to the re-election of directors. Stockholders may not cumulate their votes with respect to the re-election of directors. If any incumbent director is not elected because he does not receive a majority of the votes cast, he is required to immediately tender his or her resignation for consideration by our board of directors. Our board of directors will evaluate whether to accept or reject such resignation, or whether other action should be taken; provided, however, that the board will act on such resignation and publicly disclose its decision to accept or reject such resignation and the rationale behind such decision within 90 days from the date of the certification of the director election results.

Each of Proposals 2, 3 and 4 requires the affirmative **FOR** vote of a majority of the votes cast by the stockholders present in person or represented by proxy at the Annual Meeting and entitled to vote thereon. Only votes for or against Proposals 2 and 3 will be counted as votes cast, and abstentions and broker non-votes will not be counted for voting purposes. Broker non-votes will be counted as votes cast with respect to Proposal 4.

How do I vote?

You can vote either *in person* by submitting a ballot at the meeting, or *by proxy* without attending the meeting.

To vote by proxy, you can vote in one of the following ways:

by telephone or via Internet in accordance with the instructions provided in the enclosed proxy card; or

by marking, signing, dating and promptly returning the enclosed proxy card in the postage-paid envelope. Even if you plan to attend the meeting, we encourage you to vote your shares by proxy. If you plan to vote in person at the Annual Meeting, and you hold your stock in street name, you must obtain a proxy from your broker and bring that proxy to the meeting.

Can I change my vote?

Yes. You can change or revoke your vote at any time before the polls close at the Annual Meeting. You can do this by:

Edgar Filing: GULFPORT ENERGY CORP - Form DEF 14A

Voting by telephone or Internet at a later date, but prior to the deadline for telephonic and Internet voting specified in the enclosed proxy card;

Signing another proxy card with a later date and returning it to us prior to the meeting;

Sending our Senior Vice President of Corporate Development and Strategy a written document revoking your earlier proxy; or

Voting again at the meeting.

Table of Contents

Who counts the votes?

We have hired Computershare Trust Company, N.A., our transfer agent, to act as the tabulation agent and count the votes represented by proxies cast by mail or ballot. Employees of Computershare Trust Company, N.A. will act as inspectors of election.

Will my vote be confidential?

Yes. As a matter of Company policy, proxies, ballots and voting tabulations that identify individual stockholders are treated as confidential. Only the tabulation agent and the inspectors of election have access to your vote. Directors and employees of the Company may see your vote only if there is a contested proxy solicitation, as required by law or in certain other special circumstances.

Will my shares be voted if I don't provide my proxy and don't attend the Annual Meeting?

If you do not provide a proxy (by voting by telephone, via Internet or sending a proxy card, in each case in accordance with the instructions included in the enclosed proxy card) or vote your shares held in your name at the meeting, your shares will not be voted.

If you hold your shares in street name, your broker may be able to vote your shares for certain routine matters even if you do not provide the broker with voting instructions. The ratification of Grant Thornton LLP as our independent auditors for 2019 is considered routine. For matters not considered routine, if you do not give your broker instructions on how to vote your shares, the broker will return the proxy card without voting on that proposal. This is a broker non-vote. The proposals to elect directors, to approve our 2019 Amended and Restated Stock Incentive Plan and to approve, on an advisory basis, the compensation paid to the Company's named executive officers are not considered routine. As a result, no broker may vote your shares on these proposals without your specific instructions.

How are votes counted?

In the election of directors contemplated by Proposal 1, you may vote FOR, AGAINST or ABSTAIN with respect to one or more of the nominees. For Proposals 2, 3 and 4, you may vote FOR, AGAINST or ABSTAIN.

What if I vote by proxy but don't indicate my vote on the matters listed on my proxy card?

If you return a signed proxy card without indicating your vote, your shares will be voted FOR the director nominees listed on the card, FOR approving our 2019 Amended and Restated Stock Incentive Plan, FOR approving, on an advisory basis, the compensation paid to the Company's named executive officers as described in this proxy statement and FOR the ratification of Grant Thornton LLP as our independent auditors for 2019.

Could other matters be decided at the Annual Meeting?

We have not received any stockholder proposals and are not aware of any other matters that will be considered at the Annual Meeting. If any other matters arise at the Annual Meeting, the persons named in your proxies will vote in accordance with their best judgment.

Who can attend the meeting?

The Annual Meeting is open to all holders of our common stock.

What do I need to bring to attend the Annual Meeting?

You will need proof of ownership of our common stock to enter the meeting. If your shares are in the name of your broker or bank or other nominee, you will need to bring evidence of your stock ownership, such as your

Table of Contents

most recent brokerage statement. All stockholders will be required to present valid picture identification. IF YOU DO NOT HAVE VALID PICTURE IDENTIFICATION AND PROOF THAT YOU OWN SHARES OF OUR COMMON STOCK, YOU MAY NOT BE ADMITTED INTO THE MEETING.

How can I access the Company's proxy materials and annual report?

The notice of the Annual Meeting, this proxy statement and the Company's 2018 Annual Report are first being mailed to stockholders on or about May 2, 2019. Additionally, the notice of the Annual Meeting, this proxy statement and the Company's 2018 Annual Report to Stockholders are available electronically on the Company's website at www.gulfportenergy.com/proxy.

Board of Directors Information

What is the makeup of the board of directors and how often are the members elected?

Our board of directors currently consists of eight members who are elected annually. Seven of these eight directors are independent under the Nasdaq listing standards.

What if a nominee is unable or unwilling to serve?

That is not expected to occur. If it does, shares represented by proxies will be voted for a substitute nominated by the board of directors.

How are directors compensated?

Our policy is that members of our board of directors who are also our officers or employees do not receive compensation for their services as directors. The compensation of our non-employee directors is described below.

Cash Compensation

During 2018, our non-employee directors were paid an annual retainer of \$60,000, an attendance fee of \$1,500 for each board meeting attended in person, and an attendance fee of \$750 for each board meeting attended telephonically. In addition, the Chairman of the Board received an additional \$65,000 annual retainer, the audit committee chairman received an additional \$15,000 annual retainer and the chairman of each of the compensation committee and the nominating and corporate governance committee received an additional \$10,000 annual retainer. Each committee member was also paid a \$1,000 attendance fee for each committee meeting attended in person and a \$500 attendance fee for each committee meeting attended telephonically. The board of directors also determined that the work of the chairman of the audit committee and each audit committee member during 2018 merited an additional one-time retainer of \$25,000 for the chairman and \$10,000 for each audit committee member. Further information regarding our director cash compensation in 2018 is set forth under the heading "2018 Director Compensation" below.

During 2018, the Compensation Committee engaged the Company's compensation consultant, Pearl Meyer & Partners, LLC, or Pearl Meyer, to conduct a competitive review of director compensation within the Company's peer group. Effective January 1, 2019, based on the recommendation of Pearl Meyer, our board of directors eliminated attendance fees for board and committee meetings and increased the annual retainer for each non-employee director to \$85,000. In addition, effective January 1, 2019, the Chairman of the Board receives an additional \$85,000 annual retainer and the chairpersons of the audit committee, the compensation committee, the nominating and governance committee and the operating excellence and corporate responsibility committee receive \$20,000, \$15,000, \$10,000 and \$10,000, respectively, in additional annual retainers.

Equity Compensation

During 2018, our non-employee directors were entitled to receive an annual grant of restricted stock units with an aggregate value of approximately \$125,000 based on the closing price of our common stock on the date of grant, with vesting to occur in the following year. On May 31, 2018, we awarded the 2018 annual director grant in the amount of 11,201 shares of our restricted stock units to each of our then-serving non-employee directors under our 2013 Restated Stock Incentive Plan. Deborah G. Adams, also received a pro-rata grant of 2,898 shares of our restricted stock units on March 19, 2018 in connection with her appointment to our board of directors, which restricted stock units vested on May 31, 2018. Further information regarding our director equity compensation in 2018 is set forth under the heading

2018 Director Compensation below.

Effective January 1, 2019, our board of directors, based on the recommendation of the independent compensation consultant and the Compensation Committee, increased the annual grant of restricted stock units for our

Table of Contents

non-employee directors to an aggregate value of approximately \$175,000 based on the closing price of our common stock on the date of grant, which represents approximately two-thirds of our non-employee director's annual compensation. Each grant of restricted stock will vest on the earlier of (a) the date of our next annual meeting of stockholders and (b) the one year anniversary of the date of the grant, so long as the non-employee director is in continuous service on that date.

Program Component	2018 Program	2019 Program Effective 1/1/2019
Annual base cash retainer for Board service	\$ 60,000	\$ 85,000
Additional cash retainer to non-executive Chairman	\$ 65,000	\$ 85,000
Audit committee chair cash retainer	\$ 15,000	\$ 20,000
Compensation committee chair cash retainer	\$ 10,000	\$ 15,000
Nominating committee chair cash retainer	\$ 10,000	\$ 10,000
Operating excellence committee chair retainer		\$ 10,000

Telephonic meeting fee	\$ 500	
Annual equity grant	\$ 125,000	\$ 175,000
Stock ownership guideline		5.0x annual base retainer

Insurance and Indemnification

We provide liability insurance for our directors and officers at a current annual cost of approximately \$525,000. We have also entered into indemnification agreements with each of our current directors. These agreements require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified.

In addition, our certificate of incorporation sets forth limitations on our directors' liability to our stockholders. Further, our bylaws contain indemnification and advancement of expenses provisions for the benefit of our directors and officers.

Stock Ownership Guidelines for Directors

We believe it is important for members of our board of directors to align their financial interests with those of our stockholders. Accordingly, effective January 1, 2019, our board of directors adopted a formal stock ownership policy that requires our non-employee directors to achieve a stock ownership level equal to the value of common stock that is five times the value of their annual retainer within five years of the effective date of such stock ownership policy, calculated based on the average closing price of a share of our common stock over the 30 calendar day period ended immediately prior to the measurement date. Effective January 1, 2019, our Chief Executive Officer is also subject to the stock ownership policy that requires him to achieve a stock ownership level equal to the value of common stock that is five times the value of his annual based salary within five years of the effective date of such stock ownership

policy, calculated based on the same methodology. The compensation committee also designated our other executive officers that are subject to Section 16 reporting obligations under the Securities Exchange Act of 1934, as amended, to be subject to the stock ownership policy. The stock ownership levels for such other executives are discussed under Compensation Discussion and Analysis Stock Ownership Guidelines for Executive Officers below.

How often did the board of directors meet in 2018?

The board of directors met 15 times in 2018. In addition to these meetings, the board of directors adopted resolutions by unanimous written consent. Each director attended at least 75% of the aggregate meetings of the board of directors and the meetings of the committees on which he or she served.

Table of Contents**Election of Directors and Director Biographies*****(Proposal 1 on the Proxy Card)*****Who are this year's nominees?**

The directors standing for election this year to hold office until the 2020 Annual Meeting of Stockholders and until each such director's successor is elected are listed below. All of these director nominees, except for our Chief Executive Officer, are independent under the Nasdaq listing standards, comprising a supermajority of independent directors currently serving on our board of directors. There is no family relationship among any of the nominees, directors and/or any of the executive officers of the Company.

DAVID M. WOOD, age 62. Mr. Wood has served as the Chief Executive Officer and President of the Company, and as a member of its board of directors, since December 2018. Prior to joining the Company, Mr. Wood served as the Chief Executive Officer and Chairman of the Board of Directors of Arsenal Resources LLC, which we refer to as Arsenal, a West Virginia focused natural gas producer and portfolio company of First Reserve Corporation, an energy-focused private equity firm, which we refer to as First Reserve, where he most recently served as Chairman of its board of directors and previously held the role of the Chief Executive Officer. Prior to his tenure at Arsenal, Mr. Wood served as a Senior Advisor to First Reserve from 2013 to 2016, serving on several of its portfolio company boards. Prior to his position at First Reserve, Mr. Wood spent more than 17 years at Murphy Oil Corporation (NYSE: MUR), a global oil and natural gas exploration and production company, which we refer to as Murphy Oil, including as its Chief Executive Officer, President and a member of the board of directors from 2009 to 2012. From 1980 to 1994, Mr. Wood held various senior positions with Ashland Exploration and Production, an oil and natural gas exploration and production company. Mr. Wood began his career as a well-site geologist in Saudi Arabia. Mr. Wood has served on the board of directors of Lilis Energy, Inc. (NYSE: LLEX), an exploration and development company operating in the Delaware Basin since June 2018. Mr. Wood also served on the board of directors of the general partner of Crestwood Equity Partners LP (NYSE: CEQP) and its wholly-owned subsidiary, Crestwood Midstream Partners LP, an owner and operator of crude oil and natural gas midstream assets. Mr. Wood also served on the board of directors of several private oil and natural gas companies, including Deep Gulf Energy LP (prior to its acquisition by Kosmos Energy Ltd.) and Berkana Energy Corp. (when it was majority owned by Murphy Oil). Mr. Wood previously served on the board of directors and as an executive committee member of the American Petroleum Institute. He was also a member of the National Petroleum Council and is a member of the Society of Exploration Geophysicists. Mr. Wood holds a B.S. in Geology from the University of Nottingham in England and completed Harvard University's Advanced Management Program.

DAVID L. HOUSTON, age 66. Mr. Houston has served as a director of the Company since July 1998 and as Chairman of the Board since July 2013. Since 1991, Mr. Houston has been the principal of Houston Financial, a firm providing wealth management products and services with a focus on the energy sector. Since 2000, Mr. Houston has managed a mineral trust with approximately 9,200 net acres in Oklahoma, Texas, Kansas and New Mexico, which includes responsibility for leasing and production matters. Mr. Houston served on the board of directors and executive committee of Deaconess Hospital, Oklahoma City, Oklahoma, from January 1993 until December 2008. Mr. Houston has served as the lead director on the board of directors of Diamondback Energy, Inc. (Nasdaq Global Market: FANG) since October 2012, is a member of its audit and compensation committees and is the chair of its nominating and corporate governance committee. He also served as a director of Bronco Drilling Company from May 2005 until December 2010 and was a member of its audit committee. Mr. Houston received a Bachelor of Science Degree in business from Oklahoma State University and a graduate degree in banking from Louisiana State University. Mr. Houston was recognized as a Top 100 Graduate of the College of Business at Oklahoma State University in the last 100 years and served on the faculty of the Louisiana State University Graduate School of Banking from 1980 to

1981.

DEBORAH G. ADAMS, age 58. Ms. Adams has served as a director of the Company since March 2018. Ms. Adams served as Senior Vice President of Health and Safety, Project and Procurement with Phillips 66 from

Table of Contents

May 2014 until her retirement in October 2016. From 2008 to May 2014, Ms. Adams served as President of Transportation for Phillips 66 and ConocoPhillips. Prior to this position, Ms. Adams worked as general manager and Chief Procurement Officer for ConocoPhillips beginning in 2005. From 2003 to 2005, Ms. Adams served as general manager, International Refining, for ConocoPhillips. Before this role, Ms. Adams served as general manager, Global Downstream Information Systems following the ConocoPhillips merger in 2002. Ms. Adams began her career in 1983 as a process engineer in the refining division of the Conoco Global Engineering Department before moving through a variety of business development, planning, supply and trading and operations positions. She also served on several of ConocoPhillips' joint venture boards during her tenure at ConocoPhillips. In addition, Ms. Adams has served on the board of directors of MRC Global Inc. and as a member of its audit committee and its compensation committee since October 2017. Ms. Adams has also served on the board of directors of Austin Industries, Inc., an employee-owned construction company, and as a member of its audit committee, human resources committee and nomination and governance committee since May 2018. Ms. Adams served two full terms on the board of BakerRipley from February 2012 to February 2018 and currently serves as a member of the Foundation Board of Trustees and the Board of Governors for the Oklahoma State University. In 2014, Ms. Adams was inducted into the Oklahoma State University College of Engineering, Architecture and Technology Hall of Fame and in 2015, the Oil and Gas Diversity Council named Ms. Adams to the list of the Top 50 Most Powerful Women in Oil and Gas. Ms. Adams is also a member and a governance fellow of the National Association of Corporate Directors. Ms. Adams received a Bachelor of Science degree in chemical engineering from Oklahoma State University in 1983.

BEN T. MORRIS, age 73. Mr. Morris has served as a director of the Company since August 4, 2014. From 2009 to 2012, Mr. Morris served as the Vice Chairman of the board of directors of the Sanders Morris Harris Group, a financial services and wealth management company he co-founded in 1987, or SMHG. Since its founding, Mr. Morris has served in various capacities with SMHG, including Executive Vice President and Director of Investment Banking, President and Chief Executive Officer and a member of the board of directors of SMH Capital, a subsidiary of SMHG, and Chief Executive Officer and a member of the board of directors of SMHG. Since 2012, Mr. Morris has continued as an employee of Sanders Morris Harris, Inc., a former subsidiary of SMHG. From 1980 to 1986, Mr. Morris served as the Chief Operating Officer of Tatham Corporation, a privately-held company engaged in natural gas transportation and marketing and oil and gas exploration and production. Mr. Morris began his career as an accountant at Price Waterhouse & Co. in 1967, and in 1973 joined Mid American Oil and Gas Inc. as Chief Financial Officer, eventually serving as President of the company until its sale in 1979. From 2011 to 2016, Mr. Morris served as a member of the board of directors and Chairman of the audit committee of Yuma Energy, Inc., a publicly traded exploration and production company. Mr. Morris has also served on the boards of several public companies, including Capital Title Group from 1998 to 2006, American Equity Investment Life Holding Company from 1997 to 2006, Tyler Technologies, Inc. from 2002 until 2005, where he served as Chairman of its audit committee, Fresh America Corp. from 1992 until 1996, where he served as a member of the compensation committee, and Deeptech International Inc. from 1988 until 1997. Mr. Morris is currently a member of the board of directors of Centrax International Corporation, a private electrical equipment company. Mr. Morris has an extensive financial background, with over 25 years of experience in various aspects of the investment banking business. Mr. Morris received his Bachelor of Business Administration Degree from the University of North Texas, and also holds a Certified Public Accountant certificate from the State of Texas, along with several securities licenses.

C. DOUG JOHNSON, age 59. Mr. Johnson has served as a director of the Company since September 2015. Since August 1981, Mr. Johnson served in various roles at Phillips 66 and its predecessors Phillips Petroleum Co. and ConocoPhillips Company, which was formed by the merger of Phillips Petroleum Co. and Conoco Inc. in 2002. Mr. Johnson most recently served as Vice President, Controller and principal accounting officer of Phillips 66, a publicly traded company engaged in mid-stream, chemicals, and refining, from April 2012 until his retirement on December 31, 2014. During the same period, he also served as Vice President, Controller and principal accounting officer of Phillips 66 Partners GP LLC, the general partner of Phillips 66 Partners LP, a publicly traded pipeline

subsidiary of Phillips 66. From June 2010 until April 2012, Mr. Johnson served as General Manager, Upstream Finance, Strategy and Planning at ConocoPhillips. Prior to that, Mr. Johnson s

Do the committees have written charters?

Yes. The charters for each of our committees can be found on our website at www.gulfportenergy.com under the Investors Corporate Governance captions. You may also obtain copies of these charters, as well as our Code of Business Conduct and Ethics, which is described below, by writing to our Senior Vice President of Corporate Development and Strategy, Paul K. Heerwagen IV, at Gulfport Energy Corporation, 3001 Quail Springs Parkway, Oklahoma City, Oklahoma 73134.

Corporate Governance Matters and Communications with the Board

Corporate Governance Highlights

We believe that effective corporate governance should include regular constructive discussions with our stockholders. We have a proactive stockholder engagement process that encourages feedback from our stockholders. This feedback helps shape our corporate governance practices, and has specifically resulted in:

Adoption of stock ownership guidelines for our non-employee directors and executive officers to further align the long-term financial interests of our directors and executive officers with those of our stockholders;

Increased the size of the board of directors from six to eight;

All director nominees are independent, except for our Chief Executive Officer;

Independent chair of the board of directors;

Majority voting to elect directors;

Advancement of board diversity, with the inclusion of a female director to our board and emphasis on diversity in the nominating and corporate governance committee's charter;

Table of Contents

Creation of the operating excellence and corporate responsibility committee to further develop our commitment to HSE and corporate responsibility matters and their impact on our business and operations;

Active stockholder outreach;

Active board oversight of risk and risk management;

Periodic board and committee self-assessments conducted by outside law firm;

Independent director meetings in executive sessions;

93% attendance at 2018 board and committee meetings; and

All financially literate audit committee members and four audit committee financial experts in 2018.

Who are our independent directors?

Our board of directors has determined that seven of our eight current board members (Deborah G. Adams, Craig Groeschel, David L. Houston, C. Doug Johnson, Ben T. Morris, Scott E. Streller and Paul D. Westerman) meet the standards regarding independence set forth in the Nasdaq listing standards and are free of any relationship which, in the opinion of our board of directors, would interfere with the exercise of independent judgment in carrying out their responsibilities as directors of the Company. In determining Ms. Adams' independence, the board considered Ms. Adams' service on the board of directors and the audit and compensation committees of MRC Global Inc., an NYSE-listed company from which in 2018 we purchased products and services representing less than 1% of either company's revenues. In determining Mr. Westerman's independence, the board considered Mr. Westerman's service on the board of directors of J-W Energy Company, which performs certain compression and related oilfield services to the Company representing less than 1% of either company's revenues in 2018.

Our board of directors has determined that each member of the audit committee is independent for purposes of serving on such committee under the Nasdaq listing standards and applicable federal law. In addition, our board of directors has determined that each current member of the audit committee is financially literate under the Nasdaq listing standards and that each of Mr. Johnson, who serves as the Chairman of the audit committee, Ms. Adams, Mr. Houston and Mr. Morris qualifies as an audit committee financial expert, as such term is defined in Item 407(d) of Regulation S-K.

Our board of directors has also determined that each member of the compensation committee and the nominating committee meets the independence requirements applicable to those committees under the Nasdaq rules. In addition, our board of directors determined that each member of our compensation committee is an outside director in accordance with Section 162(m) of the Internal Revenue Code of 1986, as amended, or the Code (as such Section 162(m) was in effect prior to January 1, 2018), and a non-employee director in accordance with Rule 16b-3 under the Securities Exchange Act of 1934, as amended, or the Exchange Act.

Do our non-management directors meet separately without management?

Our non-management directors have the opportunity to meet in an executive session following each regularly scheduled meeting of the board of directors. During 2018, our non-management members of the board of directors met in executive session five times. Our operating excellence and corporate responsibility committee was formed in December 2018 and did not meet in 2018.

How can I communicate with the board of directors?

Individuals may communicate with our board of directors or individual directors by writing to our Senior Vice President of Corporate Development and Strategy, Paul K. Heerwagen IV, at Gulfport Energy Corporation, 3001

Table of Contents

Quail Springs Parkway, Oklahoma City, Oklahoma 73134. Our Senior Vice President of Corporate Development and Strategy will review all such correspondence and forward to our board of directors a summary of all such correspondence and copies of all correspondence that, in the opinion of our Senior Vice President of Corporate Development and Strategy, relates to the functions of our board of directors or a committee thereof or that he otherwise determines requires their attention. Directors may review a log of all such correspondence received by us and request copies. Concerns relating to accounting, internal control over financial reporting or auditing matters will be immediately brought to the attention of the chairman of the audit committee and handled in accordance with the audit committee procedures established with respect to such matters.

Do directors attend the Annual Meeting?

Recognizing that director attendance at our Annual Meeting can provide our stockholders with an opportunity to communicate with directors about issues affecting the Company, we actively encourage our directors to attend the Annual Meeting of Stockholders. All eight of our directors then serving attended the 2018 Annual Meeting of Stockholders in person.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics designed to help directors and employees resolve ethical issues. Our Code of Business Conduct and Ethics applies to all directors and employees, including the Chief Executive Officer, the Chief Financial Officer and all senior financial officers. Our Code of Business Conduct and Ethics covers various topics including, but not limited to, conflicts of interest, fair dealing, discrimination and harassment, confidentiality, compliance procedures and employee complaint procedures. Our Code of Business Conduct and Ethics is posted on our website at www.gulfportenergy.com under the Investors Corporate Governance captions.

Political Contribution Policy

Engagement in the political, legislative and regulatory process is important to the success of the Company. The Company has delegated compliance and oversight over this function to the operating excellence and corporate responsibility committee and has adopted a political contributions and activity policy that sets forth the ways by which the Company and its employees may participate in the political, legislative and regulatory process. All political contributions and activities are subject to compliance with applicable laws.

Aircraft Use Policy

In February 2019, we adopted an aircraft use policy that sets forth our policy with respect to the use of any aircraft chartered or owned by the Company consistent with best corporate governance practices. We restrict personal use of Company owned or chartered aircraft by our executive officers and other employees, as well as by members of our board of directors. Our aircraft use policy requires that any personal use of Company owned or chartered aircraft by any NEO be reported as a perquisite, based on the aggregate incremental value of such personal use. See Summary Compensation Table.

Nominating Process for Directors, Director Qualifications and Review of Director Nominees

The nominating committee is currently comprised of four non-employee directors, all of whom are independent under Nasdaq listing standards. As provided by the nominating committee's charter, our nominating committee identifies, investigates and recommends to our board of directors candidates with the goal of creating a balance of knowledge,

experience and diversity. The committee identifies candidates through the use of third-party search firms, as well as through the extensive networks of our directors and management team in the oil and natural gas industry.

Table of Contents

It is our policy that potential directors should possess the highest personal and professional ethics, integrity and values, and be committed to representing the interests of our stockholders. In addition to reviewing a candidate's background and accomplishments, candidates for director nominees are reviewed in the context of the current composition of our board of directors and the evolving needs of our business. It is the policy of our board of directors that at all times at least a majority of its members meets the standards of independence promulgated by Nasdaq and the SEC and that all members reflect a range of talents, skills and expertise, particularly in the areas of accounting and finance, management, leadership and oil and gas related industries sufficient to provide sound and prudent guidance with respect to our operations and the interests of our stockholders. In addition to the foregoing factors, it is our policy that our nominating committee shall consider diversity in its evaluation of candidates for board membership. To reflect this policy, our nominating committee, in accordance with its charter, seeks to include diverse candidates in all director searches, taking into account diversity of gender, race, ethnicity, background, age, thought and tenure on our board (in connection with the consideration of the renomination of an existing director), including by affirmatively instructing any search firm retained to assist the nominating committee in identifying director candidates to seek to include diverse candidates from traditional and nontraditional candidate groups. In accordance with its charter, our nominating committee periodically reviews and makes recommendations regarding the composition of the board and the size of the board.

We also require that the members of our board of directors be able to dedicate the time and resources sufficient to ensure the diligent performance of their duties on our behalf, including attending meetings of the board of directors and applicable committee meetings. In accordance with its charter, our nominating committee periodically reviews the criteria for the selection of directors to serve on our board and recommends any proposed changes to our board of directors for approval.

Our board of directors will consider stockholder nominations for director candidates upon written submission of such recommendation to our Senior Vice President of Corporate Development and Strategy along with, among other things, the nominee's qualifications and certain biographical information regarding the nominee, such as the nominee's written consent to serving as a director if elected and being named in the proxy or information statement and certain information regarding the status of the stockholder submitting the recommendation, all in the manner required by our amended and restated bylaws and the applicable rules and regulations promulgated under the Exchange Act. Following verification of the stockholder status of persons proposing candidates, recommendations will be aggregated and considered by our board of directors at a regularly scheduled or special meeting. If any materials are provided by a stockholder in connection with the nomination of a director candidate, such materials will be forwarded to our board of directors. See [Submission of Future Stockholder Proposals](#) below for additional detail regarding submitting director nominees.

Our board of directors may also review materials provided by professional search firms or other parties in connection with a nominee who is not proposed by a stockholder. In evaluating such nominations, our board of directors will seek to achieve a balance of knowledge, experience and diversity on the board. Our board of directors uses the same criteria for evaluating candidates nominated by stockholders as it does for those proposed by current board members, professional search firms and other persons. After completing its evaluation, our board of directors approves the final slate of director nominees.

Our nominating committee approved the director nominees submitted for election at this Annual Meeting. Each nominee is a current board member and brings a strong and unique background and set of skills to our board of directors, giving our board of directors as a whole competence and experience in a variety of areas, including corporate governance and board service, executive management, oil and natural gas industry, accounting and finance and risk assessment and management.

Specifically, in nominating the candidates submitted for election at this Annual Meeting, our nominating committee considered such candidates' past service on our board and the information discussed in each of the directors' individual biographies set forth beginning on page 7 above. In particular, with regard to Messrs. Houston and Streller, our nominating committee considered their respective decades of business success and

Table of Contents

proven risk assessment skills. With respect to Mr. Wood, his extensive experience as a Chief Executive Officer and director of public exploration and production companies and energy-focused private equity firms, executive management skills and extensive knowledge of the oil and natural gas sector and corporate governance led our nominating committee to conclude that he should serve as one of our directors. The nominating committee nominated Mr. Morris due to his prior public company experience, extensive financial background (including over 25 years of experience in various aspects of the investment banking business), and strong oil and natural gas background. With regard to Mr. Groeschel, our nominating committee considered his leadership and prior board services at a non-profit organization, community involvement and communication skills. The nominating committee recommended Mr. Johnson due to his prior public company experience, strong oil and natural gas background and financial expertise. Mr. Westerman's strong background in oil and energy services, as well as his executive roles at an energy services company, were considered by our nominating committee. The nominating committee nominated Ms. Adams due to her diverse experience in various segments of the oil and gas industry, her high-level management positions at a public oil and gas company and recognition as one of the top 50 women in the oil and gas industry. Each of the director nominees has agreed to serve as a director if elected.

Director Leadership Structure

The positions of Chairman of the Board and Chief Executive Officer are held by two different individuals, and the Chairman of the Board is a non-executive position elected from among the directors by the board. Separating the positions of Chairman of the Board and Chief Executive Officer has allowed our Chief Executive Officer to focus on business development strategies as well as our day-to-day business and operations, while allowing our Chairman of the Board to lead the board in its fundamental role of providing advice to and oversight of management. The Chairman of the Board has provided leadership to our board of directors and worked with the board of directors to define its structure and activities in the fulfillment of its responsibilities. The Chairman of the Board has set the board agendas, with the input from other members of the board and our management, facilitated communications among and information flow to directors, has the power to call special meetings of our board of directors and stockholders and presided at meetings of our board of directors and stockholders. The Chairman of the Board has also advised and counseled our Chief Executive Officer and other officers. Our board of directors does not have a position of a lead director.

We believe that our directors bring a broad range of leadership experience to the boardroom and regularly contribute to the thoughtful discussion involved in effectively overseeing the business and affairs of the Company. We believe that the atmosphere of our board is collegial, that all board members are well engaged in their responsibilities, and that all board members express their views and consider the opinions expressed by other directors. Seven out of eight of our director nominees are independent under the Nasdaq listing standards and SEC rules. We believe that all of our independent directors have demonstrated leadership in business enterprises and are familiar with board processes. Our independent directors are involved in the leadership structure of our board by serving on our audit, nominating, operating excellence and corporate responsibility and compensation committees, comprised entirely of independent directors and each having an independent chairperson.

Specifically, the chair of our audit committee oversees the accounting and financial reporting processes, as well as compliance with legal and regulatory requirements. The chair of our compensation committee oversees our compensation policies and practices and their impact on risk and risk management. The chair of our operating excellence and corporate responsibility committee oversees our practices relating to health, safety and environmental protections, as well as governmental relations, political contributions and corporate philanthropy. The chair of our nominating committee monitors matters such as the composition of the board and its committees, board performance and best practices in corporate governance. As such, each committee chair provides independent leadership for purposes of many important functions delegated by our board of directors to such committee.

Board of Director s Role in Risk Oversight

As an exploration and production company, we produce natural gas, natural gas liquids and oil and face a number of risks, including risks associated with the supply of and demand for natural gas and natural gas liquids, volatility of hydrocarbon prices, exploring for, developing, producing and delivering natural gas and natural gas liquids, declining production, environmental and other government regulations and taxes, weather conditions, including hurricanes and tornadoes, that can affect oil and natural gas operations over a wide area, adequacy of our insurance coverage, political instability or armed conflict in oil and natural gas producing regions and overall economic environment. Management is responsible for the day-to-day management of risks we face as a company, while our board of directors, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, our board of directors has the responsibility to satisfy itself that the risk management processes designed and implemented by management are adequate and functioning as designed.

Our board of directors believes that full and open communication between management and the board of directors is essential for effective risk management and oversight. Our Chairman of the Board meets regularly with our Chief Executive Officer to discuss strategy and risks facing the Company. Our executive officers regularly attend the board meetings and are available to address any questions or concerns raised by the board on risk management-related and any other matters. Other members of our management team periodically attend board and committee meetings or are otherwise available to confer with the board to the extent their expertise is required to address risk management matters. Periodically, our board of directors receives presentations from senior management on strategic matters involving our operations. During such meetings, our board of directors also discusses strategies, key challenges, and risks and opportunities for the Company with senior management.

While our board of directors is ultimately responsible for risk oversight at the Company, our four committees assist the board in fulfilling its oversight responsibilities in certain areas of risk. Our audit committee assists the board in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting, internal controls and compliance with legal and regulatory requirements, and discusses policies with respect to risk assessment and risk management. Our compensation committee assists the board in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs. Our operating excellence and corporate responsibility committee assists the board in fulfilling its oversight responsibilities with respect to the management of risks relating to actions of the Company that may impact the environment or public health, as well as our involvement with governmental entities, including political contributions. Our nominating committee assists the board in fulfilling its oversight responsibilities with respect to the management of risks associated with board organization, membership and structure, succession planning for our directors and executive officers and corporate governance.

Corporate Responsibility and Sustainability

We believe that the natural gas, natural gas liquids and oil we produce as an exploration and production company contribute to economic growth and to society and view the connection between responsible operations and business success as a fundamental necessity. We are committed to the safe and responsible development of our resources in the geographic areas in which we operate, including the Utica Shale in Ohio and the SCOOP basin in Oklahoma. We operate in the same areas in which our employees and their families live, and are dedicated to preserving and protecting the environment for the benefit of our stockholders, employees and our communities. We have identified key topics where we have an impact, or that impact our business: energy, emissions, waste and spills, water use, compliance, health, safety and environmental protection, training and education, and community. We also formed an operational excellence and corporate responsibility committee of our board of directors, which oversees matters concerning the health, safety and environmental protection, corporate responsibility, including governmental relations,

political contributions and corporate philanthropy, and their impact on our business and operations, and monitors and evaluates management's actions with respect to such matters. Our operational excellence and corporate responsibility committee also monitors our political, charitable

Table of Contents

and educational contributions and programs. One of our strategic initiatives for 2018 and 2019 include our performance in the area of health, safety and environmental responsibility, which directly impacts evaluation of our executives' performance and is one of the targets under our annual cash incentive plan for our participating executive officers, further motivating them to contribute to the Company's continuous efforts and strong records in those areas.

Commitment to Protecting People. We continue to make protection of our employees and contractors a fundamental component of our corporate responsibility efforts. We maintain a formal health and safety program that includes employee training and new hire orientation on a variety of environmental and safety topics, including proper reporting. It also ensures employees have all necessary equipment to operate safely. Employees also undergo significant training and education each year to become experts on regulatory compliance, industry standards and innovative opportunities to effectively manage the challenges of developing our resources. In light of the nature of our work and the locations of some sites in and near communities, we also proactively prepare for the unexpected by developing emergency response plans to cover every possible situation, including natural disasters and human threats.

Commitment to Environmental Responsibility. We are committed to exploration, exploitation, acquisition and production of natural gas, natural gas liquids and oil in an environmentally responsible manner and in compliance with applicable federal, state and local environmental laws, including laws regulating emissions of greenhouse gases, such as methane. We take actions beyond those required by law to reduce methane emissions, recycle an increasing percentage of water and make significant investment in infrastructure to reduce environmental footprint and potential impact on climate change. In keeping with that commitment, our overall approach includes these key activities:

Investing in and implementing the best available technology;

Focusing on the hydrocarbon gathering infrastructure, as well as freshwater disposal and produced-water recycling;

Safely transporting natural gas, natural gas liquids and oil, minimizing impacts from air emissions, flared gas and spills; and

Maximizing hydrocarbon transportation via pipelines.

Commitment to Community. Giving back to society and the community in which we operate is part of who we are and we strongly believe these investments of time, money and compassion allow our employees to both experience and demonstrate the core values of our company.

Political Contribution. Engagement in the political, legislative and regulatory process is important to the success of the Company and we have adopted a political contributions and activity policy that sets forth the ways by which the Company and its employees may participate in the political, legislative and regulatory process, subject to compliance with applicable laws. See Political Contribution Policy above.

Future Focus. We believe that our achievements to date demonstrate a serious and growing commitment to corporate, environmental, community and political responsibility. Our core values as a company are focused on leadership, integrity, excellence, people and teamwork. We will continue to benchmark our operations against industry peers and best practices and strive for continuous improvement. As we enhance our corporate responsibility efforts and increase

stockholder value, we look forward to providing periodic updates to our stockholders that detail both our challenges and successes.

Table of Contents**Audit Committee Report**

The audit committee is responsible for providing independent, objective oversight for the integrity of the Company's financial reporting process and internal control system. Other primary responsibilities of the audit committee include the review, oversight and appraisal of the qualifications, independence and audit performance of the Company's independent registered public accounting firm and providing an open venue for communication among the independent registered public accounting firm, financial and senior management, our internal auditors and the board of directors of the Company. A more detailed description of the responsibilities of the audit committee is set forth in its written charter, which is posted on our website at www.gulfportenergy.com under the Investors Corporate Governance captions. The following report summarizes certain of the audit committee's activities with respect to its responsibilities during 2018.

Review with Management and Independent Registered Public Accounting Firm. The audit committee has reviewed and discussed with management and Grant Thornton LLP, an independent registered public accounting firm, the audited consolidated financial statements of the Company for the year ended December 31, 2018.

Controls and Procedures. Management has established and maintains a system of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by the Company in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and includes controls and procedures designed to provide reasonable assurance that information required to be disclosed by us in those reports is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. As of December 31, 2018, management conducted an evaluation of our disclosure controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to provide reasonable assurance that the information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. The audit committee discussed with management and Grant Thornton LLP the quality and adequacy of the Company's disclosure controls and procedures.

Management has also established and maintains a system of internal controls over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. These internal controls are designed to provide reasonable assurance that the reported financial information is presented fairly, that disclosures are adequate and that the judgments inherent in the preparation of financial statements are reasonable. Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on management's evaluation under the framework in Internal Control - Integrated Framework, management did not identify any material weaknesses in our internal control over financial reporting and concluded that our internal control over financial reporting was effective as of December 31, 2018, as discussed in more detail in Management's Report on Internal Control Over Financial Reporting, which was included in our Annual Report on Form 10-K for the year ended December 31, 2018, filed with the SEC on February 28, 2019. Our internal control over financial reporting as of December 31, 2018 has been audited by Grant Thornton LLP, as stated in its attestation report, which was included in our Annual Report on Form 10-K for the year ended December 31, 2018, filed with the SEC on February 28, 2018. The audit committee reviewed and discussed with management and Grant Thornton LLP the Company's system of internal control over financial reporting in compliance with Section 404 of the Sarbanes-Oxley Act of 2002.

Discussions with Independent Auditing Firm. The audit committee has discussed with Grant Thornton LLP, independent auditors for the Company, the matters required to be discussed by Rules on Auditing Standard No. 16, Communication with Audit Committees, as amended. The audit committee has received the written disclosures and

the letter from Grant Thornton LLP required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence and has discussed with that firm its independence from the Company.

Compensation Discussion and Analysis

This Compensation Discussion and Analysis, or CD&A, explains the Compensation Committee's compensation philosophy, summarizes our executive compensation programs and describes compensation decisions for Gulfport's Chief Executive Officer, or CEO, Chief Financial Officer, or CFO, and next three highest paid executives for 2018. These officers, known as our NEOs, are:

David M. Wood	Chief Executive Officer and President
Michael G. Moore	Former Chief Executive Officer and President
Keri Crowell	Chief Financial Officer
Donnie Moore	Chief Operating Officer
Stuart Maier	Senior Vice President of Geosciences
Paul Heerwagen	Senior Vice President of Corporate Development

and Strategy

David M. Wood, joined the Company as our Chief Executive Officer and President on December 18, 2018. Michael G. Moore, our former Chief Executive Officer and President, stepped down from these roles, and as a member of our board of directors, effective October 29, 2018. Donnie Moore is not related to Michael G. Moore, our former Chief Executive Officer and President.

EXECUTIVE SUMMARY

Our Market Environment and Business Performance in 2018

During 2018, the oil and natural gas industry continued to experience volatility, with oil and natural gas prices fluctuating significantly in response to changes in supply and demand, market uncertainty and a variety of other factors beyond our control. During this period, we continued to focus on operational efficiencies in an effort to reduce our overall well costs and deliver better results in a more economical manner, all while growing our production volumes. In response to current declining forward natural gas prices, we have shifted to building an organization that is focused on disciplined capital allocation, cash flow generation and a commitment to executing a thoughtful, clearly communicated business plan that enhances value for all of our stockholders. Our current goal is to maximize results with the core assets in our portfolio today and focus on returns that will allow us to operate within our cash flow. These market and business considerations were factored in by the Compensation Committee when setting our executives' compensation for 2018, focused on measurable performance and alignment with long-term interests of our stockholders, operational and capital efficiencies and stockholder return, as well as our competition for and retention of top executive talent as our Company and industry continue to respond to volatility in the energy sector.

Our key business accomplishments during 2018 included:

Production increased 25% to approximately 496,505 MMcfe for the year ended December 31, 2018 from approximately 397,543 MMcfe for the year ended December 31, 2017.

Oil and natural gas revenues, before the impact of derivatives, increased 36% to \$1.5 billion for the year ended December 31, 2018 from \$1.1 billion for the year ended December 31, 2017.

During 2018, we reduced our unit lease operating expense by 10% to \$0.18 per Mcfe from \$0.20 per Mcfe during the year ended December 31, 2017.

During 2018, we reduced our unit general and administrative expense by 15% to \$0.11 per Mcfe from \$0.13 per Mcfe during the year ended December 31, 2017.

In 2018, we reduced our unit midstream gathering and processing expense by 8% to \$0.58 per Mcfe from \$0.63 per Mcfe during the year ended December 31, 2017.

We spud 36 gross (31.6 net) wells, turned to sales 50 gross (47.8 net) operated wells, participated in an additional 68 gross (7.5 net) wells that were drilled by other operators on our Utica Shale and SCOOP acreage and recompleted 47 existing wells in our Southern Louisiana fields. Of our 36 new wells spud during 2018, seven were completed as producing wells and, at year end, 29 were in various stages of completion.

In January 2018, our board of directors approved a stock repurchase program to acquire up to \$100.0 million of our outstanding common stock, and in May 2018 expanded this program to acquire up to an additional \$100.0 million of our common stock during 2018 for a total of up to \$200.0 million, which we believe underscores the confidence we have in our business model, financial performance and asset base. During 2018, we purchased 20.7 million shares of our outstanding common stock for a total of approximately \$200.0 million.

On May 1, 2018, we sold our 25% equity interest in Strike Force Midstream LLC to EQT Midstream Partners, LP for \$175.0 million in cash.

On June 29, 2018, we sold 1,235,600 shares, and on July 30, 2018 we sold an additional 118,974 shares, of common stock of Mammoth Energy, Inc., or Mammoth Energy, in an underwritten public offering and related partial exercise of the underwriters' option to purchase additional shares for aggregate net proceeds to us of approximately \$51.5 million. Following the sale of these shares, we owned 9,829,548 shares, or 21.9% at December 31, 2018, of Mammoth Energy's outstanding common stock.

Table of Contents

In January 2019, our board of directors approved a new stock repurchase program to acquire up to \$400.0 million of our outstanding common stock within a 24 month period, which we believe underscores the confidence we have in our business model, financial performance and asset base.

Good Compensation Program Governance Practices

Our Compensation Committee remains committed to mitigating excessive risk-taking in the design and administration of our compensation program to ensure the alignment of our program with the long-term interests of our stockholders. The following table summarizes the compensation and governance best practices that we follow and the disfavored practices that we avoid:

Good Compensation Practices

What We Do	What We Don't Do
Vast majority of NEO pay is at risk, with a significant portion conditioned on achievement of pre-determined operational, capital efficiency and safety and environmental responsibility targets, and a relative TSR, or RTSR, metric	No liberal share recycling in our stock incentive plan
Beginning with 2019, implementation of performance-based equity awards, based on RTSR over a three-year performance period, comprising 50% of all NEO equity awards granted in 2019	No outstanding stock options and no grants of stock options
Robust disclosure of our performance metrics and targets	No hedging of Gulfport securities by our NEOs or directors
Balanced approach to executive compensation, combining long-term and short term and equity and cash compensation, prioritizing long-term equity compensation and focusing on performance-based equity and cash compensation	No holding of Gulfport securities in a margin account by our NEOs or directors
Full three-year vesting for equity grants to our NEOs	No pledging of Gulfport securities by our NEOs or our directors
Regular review of share utilization and dilution when granting equity awards	No guaranteed or discretionary bonuses, except in certain limited circumstances
Robust stock-ownership guidelines for directors and executive officers (NEW in 2019)	No tax gross-ups

Annual enterprise risk assessments

No pension or supplemental executive retirement plans to our current executive officers (except for a our broad-based 401(k) plan)

Clawback policy that allows us to recover incentive compensation

No excessive perquisites

Use of independent compensation consulting firm

No single-trigger vesting of equity awards in connection with a change of control for awards granted in 2019 and beyond

Key 2018 Executive Compensation Actions

Compensation actions in 2018 were aligned with our operational, capital efficiency and strategic performance and the current market conditions during the year:

In April 2018, the **base salaries** of our NEOs who were employed by the Company at that time **were increased by approximately 3.5%** to bring the total direct compensation for such NEOs to approximately the 25th percentile, on average, of total compensation paid to similarly executives at the 2018 Compensation Peer Group. In connection with Mr. Wood's appointment as our CEO and President in December 2018, the Compensation Committee set his annual base salary for the balance of 2018, which was aligned with approximately the 25th percentile of our 2018 Compensation Peer Group. A discussion of annual base salaries of Mr. Wood and other NEOs for 2018 is included in the 2018 Compensation Decisions Base Salary section.

Annual Incentive Awards were paid out at 85% of target. Strong EBITDA performance, production growth and return on average capital employed targets for 2018 were offset by below-threshold RTSR and our inability to achieve designated strategic objectives. Calculated payout was at 120% of target, but the Compensation Committee exercised its negative discretion granted under our Annual Incentive Plan and reduced payout to 85% of target in light of a broader evaluation of Company performance and the RTSR achieved during the performance period. See 2018 Compensation Decisions Annual Incentive Awards for a description of the performance metrics/goals and the relative weightings assigned for purposes of determining the 2018 annual incentive awards for each of our participating NEOs, as well as the actual results and payouts achieved under the annual incentive plan.

Added new metrics to the annual incentive plan to focus on returns. Added return on average capital employed (ROACE) and reduced the number of strategic measures in the scorecard.

2018 long-term incentive, or LTI, awards, comprising the largest single component of NEO pay, were approved with the goal to achieve, on average, an alignment of the NEOs' total direct

compensation with the 25th percentile of the peer group. In 2018, we granted relatively conservative equity grants in the form of time-vesting restricted stock units to our NEOs. We believe these awards, which provided for a three-year vesting schedule with respect to our NEOs that remain in continuous service with the Company, promote executive talent retention, alignment with long-term stockholder interests and long-term stock ownership by management, without creating excessive levels of dilution for our stockholders.

Added performance-based LTI awards in 2019. After taking into consideration the input received from our stockholders and the recommendation of the independent compensation consultant, the Compensation Committee determined that for 2019: (i) 50% of the equity awards granted to our NEOs will consist of performance-based restricted stock units, vesting over a three-year performance period, based on the Company's achievement of targeted weighted average RTSR during the performance period and the executive's continuous service through the last day of the performance

Table of Contents

period; and (ii) 50% of the equity awards granted to our NEOs will consist of time vesting restricted stock units, vesting over a three-year period. The Compensation Committee will continue to evaluate the appropriate mix of equity incentive award types going forward. See 2018 Compensation Decisions Long-Term Equity-Based Incentive Awards and Changes to Our Compensation Program for 2019 for further discussion.

CEO Compensation Aligned with Performance

As described above, the target total direct compensation of our NEOs is heavily weighted towards variable, at-risk compensation, causing their total realizable and realized compensation to reflect the impact of recent challenging market conditions in the energy sector. This compensation structure often results in our NEOs realizing different amounts than what is reported in the Summary Compensation Table. For example, in 2018, the realizable and realized value of our NEO compensation was meaningfully less than the NEOs' target opportunities.

	Components of Pay		
	Base Salary	Annual Incentive	Long-Term Incentives
Target Compensation	Annualized 2018 salary	Target annual incentive opportunity	Grant date value of RSUs granted during the year
Realizable Compensation	Actual salary paid	Actual incentive paid	Face value of RSUs granted during 2018, as of December 31, 2018
Realized Compensation	Actual salary paid	Actual incentive paid	Value realized upon vesting of RSUs during 2018

As shown below, our former CEO and President's realized and realizable pay for 2018 was also negatively impacted by his departure from the Company in October 2018, as a result of which he forfeited all of his unvested restricted stock units and was not entitled to receive performance-based cash compensation under our annual incentive plan.

Annual Say-On-Pay Advisory Vote

The Compensation Committee values the insight it gleans from our stockholder outreach and from our annual say-on-pay advisory vote on executive compensation. In 2018, approximately 97% of the total votes cast were in favor of our say-on-pay proposal. Although this vote demonstrates a strong stockholder approval of our executive compensation programs, the Compensation Committee continues to carefully review our executive pay programs to ensure they emphasize pay for performance and are aligned with the interests of our stockholder and the Company's value drivers.

Stockholder Outreach and Our Response

We engage in ongoing communications with our stockholders to ensure they are apprised of our business performance and are aligned with our compensation decisions. During 2018, we engaged our stockholders through investor presentations and earnings calls to specifically discuss our executive compensation programs, corporate governance, safety and environmental programs, corporate responsibility and other important issues.

In setting compensation packages for 2019, the Compensation Committee considered input from our investors and other value drivers, competitive market practices and the Company's forward-looking strategy, and:

introduced performance-based equity awards in the form of performance-based restricted stock units tied to RTSR, vesting over a three-year performance period, comprising 50% of all equity awards granted in 2019;

adjusted annual performance bonuses opportunities and long-term equity award targets to more closely align our executives' financial interests with those of our stockholders and to continue to link a larger portion of such executives' compensation to the performance of our stock and our operational performance;

provided more robust disclosure of our performance metrics and targets for both performance-based cash and equity awards;

modified metrics in the annual incentive plan by both adding free cash flow and production per debt-adjusted share to the scorecard and replacing the strategic initiative carve-out with a quantifiable health, safety, and environment measure;

adopted formal stock ownership and retention guidelines to ensure our board of directors and executive officers own a stake in the Company that is sufficient to align their interests with their fellow stockholders; and

added metrics in annual performance reviews that directly tie executives' compensation to the increase in value of Gulfport shares.

The Compensation Committee will continue to consider the feedback from our stockholders when making compensation decisions for our NEOs.

EXECUTIVE COMPENSATION PHILOSOPHY AND COMPONENTS

Philosophy and Objectives

Our executive compensation philosophy is guided by the following objectives:

Alignment with Stockholder Interests: By providing the majority of compensation in long-term equity awards, managing dilution to our stockholders, stressing pay for performance, and encouraging an ownership culture, we aim to align the interests of our executives with those of our stockholders.

Pay for Performance: The Compensation Committee is focused on rewarding for the Company's performance by creating incentive awards based on achievement of pre-established performance factors and targets. Additionally, a significant portion of our NEOs' compensation is delivered in long-term equity awards, making our NEOs' realized total direct compensation heavily dependent upon Company performance.

Competitive Compensation: The Compensation Committee believes it is imperative to maintain competitive compensation programs with our peer group to attract, retain and motivate executives and our future leaders that are in line with the compensation of executive positions at similar companies.

Our executive compensation programs play an important role in helping us achieve our business objectives and effectively reward our executive officers for our Company's annual and long-term performance and individual contributions to such performance.

Overview of NEO Total Direct Compensation Components for Fiscal Year 2018

Direct Compensation		Alignment with Long-Term Stockholder Interests and Other Considerations	
Fixed	Element	Form	
Fixed	Base Salary	Base level of cash compensation critical to attracting and retaining executives	Established at conservative level relative to peers and subject to increase based upon annual merit review

Table of Contents

Direct Compensation		
Element	Form	Alignment with Long-Term Stockholder Interests and Other Considerations
Annual Incentive	Annual cash incentive earned based upon achievement of predetermined operational, financial and stock performance goals for the year	Places a significant portion of our NEOs annual cash compensation at risk and dependent on our performance against pre-determined targets, which focuses management on critical near-term goals and share growth
At Risk	Equity Based Compensation	Annual grants of full three-year time-vested restricted stock units for all NEOs currently in continuous service with the Company
		Ties NEO compensation directly to long term performance of Gulfport stock and thereby encourages prioritization of long-term share value maximization
		Beginning in 2019, 50% of equity-based compensation will be delivered in the form of performance-based stock units
		Enforces talent retention by placing a significant portion of pay at risk for continued employment
		Award values set at conservative levels relative to peers with careful evaluation of impact on stockholder dilution
		(New in 2019) Performance-based awards comprising 50% of all equity awards tied to RTSR will further link executive compensation directly to stockholder value creation

As part of our compensation philosophy, the Compensation Committee places a significant portion of NEO pay at risk, with the largest single component of pay in the form of long-term equity awards, which for 2019 is equally divided between performance-based and time-vesting equity awards vesting over a three-year period. The charts below illustrate the mix of 2018 target total direct compensation for our CEO and other NEOs.

Emphasis on At-Risk Variable Compensation

Table of Contents**Determining our Executive Compensation*****Benchmarking Against Our Compensation Peer Group***

Gulfport utilizes a peer group of companies, or the Compensation Peer Group, as a reference point when establishing both compensation levels for executives as well as program structures, in an effort to maintain competitiveness in the market.

2018 Compensation Peer Group

The Compensation Committee utilizes a Compensation Peer Group of similarly situated companies to evaluate our executive officer compensation.

The Compensation Peer Group is intended to reflect North American, onshore exploration and production companies that compete with, or could potentially compete with, Gulfport for executive talent. This group was developed taking into consideration peer company metrics such as revenue, assets, total production, production of natural gas as a percentage of total production, and market capitalization. The composition of this peer group is reviewed periodically to ensure the appropriateness of the identified peers. The 2018 Compensation Peer Group consists of the following companies:

2018 Compensation Peer Group

Antero Resources Corporation*	Newfield Exploration Company	Cabot Oil & Gas Corporation
Southwestern Energy Company*	Range Resources Corporation	PDC Energy, Inc.*
WPX Energy, Inc.	Cimarex Energy Co.	Oasis Petroleum Inc.
CNX Resources Corporation*	Whiting Petroleum Corporation	Rice Energy Inc.
QEP Resources, Inc.	SM Energy Company	Energen Corporation
Laredo Petroleum, Inc.*		

*Added in 2018.

The revision of the peer group resulted in relative alignment of Gulfport's key metrics at the time of establishment as follows: Revenue = 27th percentile; Assets= 39th percentile; Total Production=32nd percentile; Natural Gas as Percentage of Total Production=84th percentile; and Market Cap = 51st percentile. The increase in the number of peer

companies for 2018 was also intended to provide a more robust data set for benchmarking the executive compensation.

Process for Determining Executive Compensation

The Compensation Committee of our board of directors oversees our compensation programs for executive officers and all employees. During 2018, the Compensation Committee was comprised of Mr. Streller, the Compensation Committee chairman, Ms. Adams, Mr. Groeschel, Mr. Houston, Mr. Johnson and Mr. Westerman, all of whom are independent directors.

The Role of Our Compensation Committee

The Compensation Committee generally reviews and makes its decisions regarding the annual compensation of our NEOs at its regular meetings in the first quarter of each year. These decisions include:

Certifying annual performance-based incentive awards, based in part on the Company's increase in value;

Establishing target incentive opportunities and applicable performance objectives for the current year's annual incentive awards;

Table of Contents

Approving adjustments to base salary; and

Granting long-term equity-based incentive awards and determining the types of such awards for the current year.

The Compensation Committee may also adjust compensation as necessary at other times during the year, such as in the case of promotions, other changes in employment status and significant corporate events, as well as to reflect changing market conditions or for other competitive purposes.

In making its decisions, the Compensation Committee assesses each NEO's impact during the year and overall value to Gulfport, specifically considering the NEO's contribution to the growth of Gulfport's value, Gulfport's operational and financial performance, performance in the NEO's primary area of responsibility, impact on strategic initiatives, recommendations of our independent compensation consultant, the NEO's role and trajectory in succession planning and development, recommendations from our CEO with respect to our other NEOs, and other intangible qualities that contribute to corporate and individual success.

The Role of our CEO

The Compensation Committee evaluates our CEO based on the Company performance metrics described above, his leadership roles as a member of the Board and our lead representative to the investment community, and other similar criteria, and his total compensation package is ultimately determined by the Compensation Committee, based upon its evaluation and input from our independent compensation consultant. Our CEO's compensation ultimately reflects Gulfport's performance, his performance, competitive industry practices and the terms of his employment arrangement.

Each year, our CEO evaluates each of the other NEOs and makes compensation recommendations to the Compensation Committee. In developing his recommendations, the CEO considers the recommendations of the Compensation Committee's independent compensation consultant, as well as each such NEO's performance against the Company performance metrics and contribution to Gulfport's performance. The independent compensation consultant reviews and provides comments to the Compensation Committee based on our CEO's recommendation with respect to our NEOs, other than our CEO. Our CEO does not participate in deliberations or decisions concerning his own compensation.

The Role of the Compensation Consultants

For 2018 and 2019, the Compensation Committee retained Pearl Meyer as its independent compensation consultant. For 2018, Pearl Meyer assisted the Compensation Committee in developing a competitive total compensation program that is consistent with our philosophy of goal-oriented pay for performance and that allows us to attract, retain and motivate talented executives. Pearl Meyer's services included providing an annual analysis of the compensation of our top executive officers and their counterparts at peer companies. The analysis compares each element of compensation and total direct compensation awarded by Gulfport and by our peers to our respective executive officers. In addition, Pearl Meyer helped the Compensation Committee consider the allocation between annual incentive and long-term equity-based compensation and between the types of long-term equity-based incentive awards. Pearl Meyer also provided support with respect to regulatory and other considerations that affect compensation programs generally, as requested by the Compensation Committee, as well as assistance in preparation of the CD&A.

During early 2019, Pearl Meyer provided input to the Compensation Committee with respect to the executive compensation program design for 2019, the metrics and targets under the Company's annual incentive plan for 2019

and considerations relevant to the Compensation Committee's 2019 compensation decisions.

Pearl Meyer reported exclusively to the Compensation Committee. During 2018 and 2019, the Compensation Committee reviewed the independence of Pearl Meyer and determined that there were no conflicts of interest as a result of the Compensation Committee's engagement of such consultant.

Table of Contents

The Compensation Committee continues to evaluate the independence of its compensation consultant(s) on an ongoing basis.

At the end of 2018, management engaged Frederic W. Cook & Co., Inc., or FW Cook, to serve as management's outside compensation consultant. FW Cook provided market data and other information to management in connection with the design of the Company's executive compensation program for 2019, including a review of base salary, total cash compensation and total direct compensation levels for the Chief Executive Officer and other senior executives. Certain of the market data and other information provided by FW Cook was also made available to the Compensation Committee and Pearl Meyer.

2018 COMPENSATION PROGRAM DESCRIPTION***Base Salary***

The Compensation Committee reviews executive officer base salaries on an annual basis, with a goal of providing market competitive, fixed cash compensation. The Compensation Committee assesses comparable salary information provided by its independent compensation consultant as one factor when determining the base pay for the NEOs.

Other factors the Compensation Committee considers in determining base pay for each of the NEOs are: the executive officer's responsibilities, experience, leadership, potential future contribution and demonstrated individual performance. The relative importance of these factors varies by executive depending on his or her position and the particular operations and functions for which the individual is responsible. In 2018, the Compensation Committee targeted base salaries between the 25th percentile and 50% percentile of the 2018 Compensation Peer Group.

The Compensation Committee reviewed the base salaries of our NEOs in February of 2018 (other than Mr. Wood who had not yet joined the Company) and any increases in compensation were made effective as of January 1, 2018. In connection with Mr. Wood's appointment as our Chief Executive Officer and President on December 18, 2018, the Compensation Committee reviewed and approved the compensation for Mr. Wood for the balance of 2018. Base salary determinations were made to keep our NEOs compensation in relative alignment to the 2018 Compensation Peer Group, and in keeping with our desire to remain competitive in the marketplace for our executives. See also Employment Agreements for a description of the employment agreements with certain of our NEOs.

Named Executive Officer	2017 Base Salary	2018 Base Salary	% Change

- (2) Michael G. Moore stepped down as our Chief Executive Officer and President on October 29, 2018. Mr. M. Moore received a pro-rated base salary for 2018 with respect to his period of service during the year.

- (3) Donnie Moore was appointed as our Chief Operating Officer effective January 8, 2018. Mr. D. Moore also served as our Interim Chief Executive Officer from when our former Chief Executive Officer and President stepped down until the appointment of Mr. Wood as our Chief Executive Officer and President on December 18, 2018. Donnie Moore is not related to Michael G. Moore, our former Chief Executive Officer and President.

Table of Contents***Annual Incentive Awards***

The Compensation Committee established a performance-based annual incentive program for 2018 that tied our executives' compensation directly to the pre-established performance metrics. Targeted annual incentive award levels were based on market information supplied by the independent compensation consultant, as well as a performance metric system. Individual awards may be decreased in the discretion of the Compensation Committee based on overall corporate performance for the year and certain other considerations.

2018 Target Bonus Amounts

Target bonus percentages and amounts were set with a minimum potential payout of 0% and maximum potential payout of 200% of the applicable target bonus amount. Target bonus percentages and dollar amounts for the participating NEOs for 2018 were as follows:

Named Executive Officer	Target Bonus Percentage	Target Bonus Amount
David M. Wood(1)	%	\$
Michael G. Moore(2)	120%	\$ 900,000
Donnie Moore	80%	\$ 344,100
Keri Crowell	80%	\$ 289,840
Stuart Maier	60%	\$ 248,400
Paul Heerwagen	60%	\$ 208,020

- (1) Mr. Wood was appointed as our Chief Executive Officer and President on December 18, 2018 and did not participate in the 2018 Annual Cash Incentive Plan.
- (2) Michael G. Moore stepped down as our Chief Executive Officer and President on October 29, 2018 and did not receive a performance bonus for 2018.

Table of Contents***2018 Annual Incentive Performance Measures***

In March 2018, the Compensation Committee reviewed performance measures such as operational and financial performance, total stock return relative to our peer group, capital efficiency goals, and strategic initiatives to be undertaken in 2018, as well as the impact each metric could have on our business, profitability, production and stockholder return, and selected the following performance metrics and weightings to determine our executive annual performance based bonuses under the Annual Incentive Plan for 2018:

Metric	Weighting	Performance Metric	Why We Use It
Production	10%	Net Production Per Share (MCFE/Share)	Focuses on our ability to protect and deliver base production and execute our drilling and completion program with maximum efficiency. We measure it on a per share basis to ensure maximum value impact to our stockholders.
Adjusted EBITDA Per MCFE (\$/MCFE)	10%	Adjusted EBITDA/MCFE	Incentivizes our profitability from operations while managing costs and our marketing portfolio. It focuses on the margin earned on the production metric, without encouraging growth at any price.
Return on Average Capital Employed (ROACE)	35%	Return on Average Capital Employed Metric	Encourages the efficiency of capital allocation to profitable investing activities.
One Year RTSR	20%	Increase in price per GPOR share	Measures our performance relative to our peer group and our stockholder value creation.
Strategic Initiatives	25%	Non-Core Asset Divestitures	Sets goals for total value that should be realized through divestitures, including the quantitative threshold, target and maximum. Metric is also focused on our efforts to monetize certain of our non-core investments within our portfolio.
		Environmental and Safety Record	Focus on balancing our operational targets while maintaining an emphasis on environmental responsibility, motor vehicle safety and other health and safety initiatives.

Annual Incentive Plan Goal Achievement for 2018

The Compensation Committee established threshold (50%), target (100%) and stretch (200%) payout ranges for our operational, capital efficiency, RTSR and strategic measurement goals. These goals are meant to further motivate the NEOs to pursue Gulfport's long-term strategy and value creation for its stockholders. Because the strategic goals are qualitative in nature, success does not necessarily depend on attaining a particular metric; rather, success may be evaluated based on past norms, expectations and responses to unanticipated obstacles or opportunities.

Table of Contents

The 2018 operational metrics, targets and actual performance under the Annual Incentive Plan are set forth below. The Compensation Committee also assessed Gulfport's performance against the strategic priorities that made up the strategic initiatives portion under the Annual Incentive Plan for 2018.

						Actual
	Performance Metric	Threshold(1)	Target	Maximum	Actual	as a % of Target
Production	Net Production Per Share (MCFE/Share) Metric	2.63	2.68	2.82	3.05	20%
Adjusted EBITDA per MCFE	Adjusted EBITDA/MCFE (\$/MCFE) Metric	\$1.70	\$1.80	\$1.90	\$2.11	20.0%
Return On Average Capital Employed (ROACE)	Return on Average Capital Employed Metric	6.25%	7.25%	8.25%	10.42%	70%
One Year RTSR	Increase in Gulfport Price Per Share against the Peer Group	25 th percentile	50 th percentile	75 th percentile	25 th percentile	10%
Strategic Initiatives	Non-core asset divestitures	Committee assessment			\$ 227,000,000	0%
	Environmental and Safety Record	Committee assessment of improvement				0%
	<i>Calculated Payout Percent</i>					120%
	<i>Negative Discretion</i>					(35%)
	<i>Approved Payout Percent</i>					85%

(1) No payouts are made under the Annual Incentive Plan if the performance levels fall below the pre-determined thresholds.

Although, in the aggregate, we obtained approximately 120% of the target bonus amounts, in light of a broader evaluation of Company performance and the RTSR achieved during the performance period, the Compensation Committee exercised its negative discretion and reduced the cash awards under our Annual Incentive Plan for 2018 to 85.0% of each participating NEO's targeted bonus.

Named Executive Officer	Target Bonus Percentage	Target Bonus Amount	Actual Bonus Amount	Actual Bonus as a Percent of Target Bonus
David M. Wood(1)	%			%
Michael G. Moore(2)	120%	\$ 900,000	\$	%

Paul Heerwagen	60%	\$ 208,020	\$ 176,829	85%

(1) Mr. Wood was appointed as our Chief Executive Officer and President on December 18, 2018 and did not participate in the 2018 Annual Cash Incentive Plan.

(2) Michael G. Moore stepped down as our Chief Executive Officer and President effective as of October 29, 2018 and did not receive a performance bonus for 2018.

Table of Contents

Although, as a general policy, we do not grant discretionary bonuses to our NEOs, in February 2019 the Compensation Committee awarded one-time bonuses to our Chief Operating Officer and our Senior Vice President of Corporate Development and Strategy in the amounts of \$150,000 and \$50,000, respectively, in recognition of their additional services during the transition period from the time our former Chief Executive Officer and President stepped down in October 2018 until the appointment of Mr. Wood as our Chief Executive Officer and President in December 2018, including, in the case of our Chief Operating Officer, for his services as our Interim Chief Executive Officer.

Long-Term Equity-Based Incentive Awards

Each year we grant our NEOs long-term equity-based incentive awards. The Compensation Committee determines the amount of these awards, as well as the mix of equity vehicles. The objectives of our long-term incentive plan are to: (i) create significant alignment between the interests of our NEOs and our stockholders; (ii) attract and retain the services of critical talent; and (iii) focus our executives on our sustained growth and financial success.

Determining Award Structure

The Compensation Committee chose to maintain the use of time-vested restricted stock unit awards for 2018, which are an important retention tool as our Company and industry continue to respond to volatility in the energy sector. The Compensation Committee is committed to our long-term success and consider continuity of our key personnel critical to the successful execution of our operational and strategic objectives.

The restricted stock unit awards granted in 2018 to our NEOs vest in three substantially equal annual installments over the three-year period commencing approximately on the one-year anniversary of the grant, so long as the applicable NEO remains in continuous service. The Compensation Committee determines the size of awards granted to the NEOs at its discretion, taking into consideration the terms of any existing employment agreements.

For 2019, the Compensation Committee determined that for our NEOs (i) 50% of the equity awards will consist of performance-based restricted stock units, vesting over a three-year performance period, based on the Company's achievement of targeted weighted average TSR in comparison to the peer group during the performance period and the executive's continuous service through the last day of the performance period and (ii) 50% of the equity awards will consist of time vesting restricted stock units, vesting over a three-year period commencing on the one-year anniversary of the grant.

Setting the Target Award Opportunity

The Compensation Committee reviewed market values with respect to the annual long-term incentive awards granted to similarly situated executives at the Compensation Peer Group companies to help guide the value of the awards granted for 2018. The Compensation Committee targeted long-term equity-based incentive opportunity to be between 25th and 50th percentiles of the Compensation Peer Group, after giving consideration to the targeted total direct compensation for each NEO, market data obtained from Pearl Meyer and, with respect to our CEO, the minimum LTI target set forth in his employment agreement. Awards were made after the Compensation Committee had an opportunity to evaluate the Company's operating results for 2017 and at the same time that the Company was making its major compensation decisions for 2018.

The Compensation Committee has discretion to determine awards under our 2013 Restated Stock Incentive Plan, or the Plan. In determining the equity awards to be granted to our former Chief Executive Officer and President, the Compensation Committee considered our contractual obligations under Mr. M. Moore's employment agreement then

in effect. Mr. M. Moore forfeited all of his unvested equity awards in connection with his departure in October 2018. For a description of our separation agreement with Mr. M. Moore, see Separation and Release Agreement with Our Former Chief Executive Officer and President below.

The Compensation Committee considers the grant date dollar value of the long-term incentive package, the package's potential dilutive effect on our outstanding shares of common stock and the number of shares available

Table of Contents

for grant under the Plan in determining the aggregate number of shares to be awarded as individual long-term incentive awards for our executives. The Compensation Committee evaluates stockholder dilution based on equity compensation burn rates, which refers to a measure of the speed at which companies use (or burn) shares available for grant in their equity compensation plans compared to the total amount of the Company's outstanding common stock. For NEOs other than the CEO, the Compensation Committee considers the recommendations of the CEO. In 2018, we provided long-term incentive awards for our NEOs at target levels that, on average, were aligned between the 25th and 50th percentiles of our 2018 Compensation Peer Group, depending on their respective targeted total direct compensation. Mr. Wood, who joined us as our Chief Executive Officer and President on December 18, 2018 received his long-term incentive awards in February of 2019, as discussed in more detail under Compensation Arrangement with Our Chief Executive Officer below. In determining the equity awards to be granted to Mr. Wood in connection with his employment, the Compensation Committee considered the total compensation of top executives at the companies in the 2018 Compensation Peer Group, Mr. Wood's extensive experience as an executive and director in public oil and gas companies and the competitive hiring environment for top executives.

Restricted Stock Unit Awards

On April 30, 2018, the Compensation Committee approved a grant of restricted stock units to Mr. M. Moore, our former Chief Executive Officer and President, with a value of 500% of his annual base salary, consistent with the terms of Mr. M. Moore's 2018 employment agreement, one-third of which award vested on April 30, 2018. The remaining unvested restricted stock units were forfeited by Mr. M. Moore in connection with his departure in October 2018. On April 18, 2018, the Compensation Committee made restricted stock unit awards to certain our other NEOs, including Ms. Crowell, Mr. Maier and Mr. Heerwagen, in the amounts of 115,800, 73,645 and 73,645 restricted stock units, respectively, vesting, in each case, in three substantially equal annual installments beginning on the first anniversary of the date of grant. These 2018 awards were granted to our other NEOs with a goal to achieve an overall total direct compensation posture between the 25th percentile and 50th percentile of the 2018 Compensation Peer Group. These 2018 long-term equity awards represent at least a majority, and in most cases, approximately two-thirds of the total direct compensation of our NEOs, closely aligning their interests with those of our stockholders and putting a large portion of their 2018 target compensation at risk.

The number of restricted stock unit awards granted to our former Chief Executive Officer and President in 2018 was determined by dividing the executive's long-term equity-based incentive target opportunity, as displayed below, by our common stock price on the date of grant.

Named Executive Officer	LTI Target as a Percentage of Base	LTI Target Grant Date Fair Value
Michael G. Moore(1)	500%	\$ 3,750,000

(1) All of Mr. M. Moore's unvested restricted stock units were forfeited when he stepped down in October 2018. Mr. Wood, who was appointed as our Chief Executive Officer and President on December 18, 2018, did not receive any equity awards in 2018. Equity awards received by Mr. Wood in 2019 under the terms of his employment with us are discussed in more detail below under Compensation Arrangement with Our Chief Executive Officer.

Table of Contents

Restricted stock unit awards are only earned if the individual continues to be employed by us on each applicable vesting date of the award. The following table provides the total number of restricted stock unit awards provided to each NEO in April 2018 as part of the annual compensation review process and after giving consideration to their respective targeted total direct compensation and, for Mr. M. Moore, the minimum LTI target set forth in his then-in-effect employment agreements.

Named Executive Officer	2018 LTI Award (RSUs)
David M. Wood(1)	
Michael G. Moore(2)	403,226
Donnie Moore	137,143
Keri Crowell	115,800
Stuart Maier	73,645
Paul Heerwagen	73,645

- (1) Mr. Wood, who was appointed as our Chief Executive Officer and President on December 18, 2018, did not receive any equity awards in 2018.
- (2) Michael G. Moore stepped down as our Chief Executive Officer and President effective as of October 29, 2018. Of this amount, 268,818 restricted stock units, and all of his other unvested restricted stock units, were forfeited in connection with Mr. M. Moore's departure in October 2018.

2019 COMPENSATION PROGRAM**Changes to the Peer Group for 2019**

As part of its annual evaluation of our competitive position, the Compensation Committee directed management to coordinate with our independent compensation consultant to undertake a comprehensive review and analysis of our compensation peer group.

As a result of such analysis, seven companies that had been included in the 2018 Compensation Peer Group were removed from, and 12 companies were added to, the 2019 Compensation Peer Group. These changes were made to capture the range of companies with which we compete for talent, determined based on criteria that included revenue, market capitalization, enterprise value and commodity mix. The revision of the peer group resulted in relative alignment of Gulfport's key metrics at the time of establishment to the peer group to those of such peer group as follows: 2019 Projected Revenue =55%; Market Cap=38%; Enterprise Value=49% and Commodity Mix=21%, representing, on average, Gulfport's alignment close to the median of the 2019 Compensation Peer Group. The 2019 Compensation Peer Group consists of the following companies:

2019 Compensation Peer Group

Antero Resources Corporation	Berry Petroleum Corporation*	Cabot Oil & Gas Corporation
Carrizo Oil & Gas, Inc.*	Chaparral Energy, Inc.*	Chesapeake Energy Corporation*
CNX Resources Corporation	Comstock Resources, Inc.*	Eclipse Resources Corporation*

Changes to our Compensation Program for 2019

2019 Base Salary

The Compensation Committee engaged Pearl Meyer, its independent compensation consultant, to review the overall competitiveness of our executive compensation programs for 2019, with continued focus on ensuring the alignment of management compensation with performance and Gulfport's strategy generally.

In February 2019, the Compensation Committee, in consultation with Pearl Meyer, reviewed the base pay levels for our NEOs. Based on the Company's position within the 2019 Compensation Peer Group and in recognition of the changes to the composition of equity grants to 50% performance vesting, the Compensation Committee determined to set 2019 compensation levels at approximately the median of the Company's 2019 Compensation Peer Group.

2019 Annual Incentive Bonus Metrics

In 2019, the Compensation Committee continued to incentivize our executives to increase Gulfport's value through our pay for performance Annual Incentive Plan. This Annual Incentive Plan aligns our executives' interests with those of our stockholders by making the executive compensation heavily dependent on increasing Gulfport's operational and financial performance, as well as rewarding our executives for executing the Company's long-term strategic goals, including in the areas of health, safety and environmental responsibility.

To achieve these objectives, the Compensation Committee, consistent with market practices, identified critical performance metrics that are tied to objective performance criteria, including total stockholder return relative to the Company's peer group for 2019 and stimulating appropriate levels of growth versus capital efficiencies, and established a set of balanced metrics discussed below and assigned weights that it deemed appropriate to each such metric. In setting these metrics and assigning weights, the Compensation Committee carefully considered each of these metrics' impact on our business, profitability, production and stockholder return, as well as our desire to balance operational, financial and stockholder return targets with the goal to execute on our strategic initial goals and continue to improve our safety and environmental record, including the following specific considerations:

Free Cash Flow Metric (35%). This metric is a strong measure of our Company's health, improves ability for future investment and is aligned with Company strategy and investor expectations.

Return on Average Capital Employed Metric (20%). This metric is a strong capital efficiency measure, which measures the Company's balance sheet health through two core metrics of debt and profitability and is aligned with investor expectations.

Production Per Debt Adjusted Share Metric (15%). This metric motivates maintenance of balance sheet strength while pursuing growth, keeps incentive plan from overweighting growth and is aligned with Company strategy and investor expectations. This metric is measured on a per debt adjusted share basis, calculated as outstanding debt at year end divided by share price plus total shares outstanding.

Cash Flow Margin (Adjusted EBITDA per MCFE) Metric (20%). This metric is a good indicator of operating efficiency and profitability and is aligned with investor expectations.

Health, Safety and Environmental (10%). This metric is focused on balancing our operational targets with our goal to continue to improve in the areas of environmental responsibility, motor vehicle safety and other health and safety initiatives.

The Compensation Committee set the threshold, target and maximum performance targets for each of these metrics for 2019, and establishes the bonus target opportunity for each of the NEOs, expressed as a percentage of their respective annual salaries.

Table of Contents**2019 Long-Term Incentive Awards Introduced Performance-Based LTI Awards**

In February 2019, the Compensation Committee determined that 2019 equity awards granted to our participating NEOs would be equally divided between performance-based and time-vesting equity awards. Accordingly, and consistent with the terms of Mr. Wood's employment as our Chief Executive Officer and President on December 18, 2018, the Compensation Committee, on February 26, 2018, granted him 228,659 performance-based restricted stock units and 228,659 time-vesting restricted stock units, with an aggregate value of 500% of his initial \$750,000 annual base salary specified in his offer letter. At that time, the Compensation Committee also granted 121,951 time-vesting restricted stock units, vesting over a three-year period, to Mr. Wood as an inducement award to accept employment with us, as specified in his offer letter.

The Compensation Committee has determined that any equity awards granted to our NEOs in 2019 will be equally divided between performance-based restricted stock units tied to RTSR, vesting over a three-year performance period, and time-based restricted stock units, vesting over a three-year period. Any restricted unit awards granted to our NEOs in 2019 will contain double trigger change of control provisions and provide for an acceleration of such awards in the event of such NEO's death or disability during the continuous service with the Company.

COMPENSATION POLICIES AND PRACTICES**Compensation Risk Management**

The Compensation Committee reviews the risks and rewards associated with our compensation policies and programs. We believe that our policies and programs encourage and reward prudent business judgment, encourage short-term stockholder value creation, and prioritize long-term growth by discouraging excessive risk taking. With respect to specific elements of compensation:

Integrated Approach Our programs balance short- and long-term incentives for our executive officers by providing an appropriate mix of fixed, performance-based, discretionary and equity compensation, with the goal of creating both short- and long-term stockholder value.

Attract Top Talent Annual base salaries for our NEOs do not encourage excessive risk-taking as they are fixed amounts that are subject to discretionary increases by our Compensation Committee that may be based on, among other factors, annual performance evaluations. We believe that such annual base salaries are set at reasonable levels, as compared to the base salaries of similarly-situated individuals at our peer group companies, and therefore do not negate the effect of other compensation elements that encourage long-term service, growth and performance that may increase stockholder value.

Support Business Objectives and Strategic Goals Our annual incentive awards are determined based on Company and individual performance measures, both operational and strategic, which mitigates excessive risk-taking that could produce unsustainable gains in one area of performance at the expense of our overall long-term interests. The Company's goals are designed to ensure a proper balance between stock performance, operational measures, financial goals and strategic goals. In addition, the Compensation Committee sets performance goals that it believes are reasonable in light of our past performance,

then-current business projections and market conditions.

Pay for Performance The Compensation Committee believes that performance-based equity awards tied to RTSR and cash compensation, with meaningful performance targets, such as those under the Annual Incentive Plan, will further align our executives' interests with those of our stockholders, will motivate our executives to contribute to the Company's growth and profitability and will link a larger portion of our executives' compensation to the performance of the Company.

Maximize Stockholder Value Our annual incentive awards are subject to maximum payout caps that limit the amount an executive may earn on inputs for certain of our operational measures.

Table of Contents

Create Ownership Culture Performance-based and time-vesting restricted stock unit awards vesting over a three-year period granted to our executive officers, as well as the implementation of robust stock ownership guidelines for our executive officers and non-employee directors, promote stock ownership culture and ensure that our executives and directors have a continuing stake in the long-term success of the Company. We believe that our long-term equity awards to our executive officers discourage excessive risk taking, as they are equally balanced between performance-based and time-vesting awards and moderates the risk that may otherwise exist if equity awards were to vest based strictly on achieving certain targets.

Based on the foregoing, the Compensation Committee believes that the Company utilizes compensation policies and programs such that there are no risks that are reasonably likely to have a material adverse impact on the Company.

Clawback Provisions

Under the Sarbanes-Oxley Act of 2002, our Chief Executive Officer and Chief Financial Officer may be subject to clawbacks in the event of a restatement. Under our 2013 Restated Stock Incentive Plan, each award pursuant to that plan is conditioned on repayment or forfeiture in accordance with applicable laws, our Company policies and any relevant provisions in the related award agreements. Further, under the terms of our employment agreements effective as of January 1, 2017, with each of Ms. Crowell and Mr. Maier and certain of our other executive officers, any equity awards granted to such executive, any proceeds of any equity awards that previously have been sold, transferred or otherwise disposed of, and any incentive bonus award will be subject to clawback by us, now or in the future, under the Dodd-Frank Act and the SOX Act, each as amended, and rules, regulations and binding, published guidance thereunder.

Stock Ownership Guidelines for Executive Officers

We believe it is important for our executive officers to align their financial interests with those of our stockholders. Accordingly, effective January 1, 2019, our board of directors adopted a formal stock ownership policy that requires our CEO to achieve a stock ownership level equal to the value of common stock that is five times the value of his annual base salary within five years of the effective date of such stock ownership policy, calculated based on the average closing price of a share of our common stock over the 30 calendar day period ended immediately prior to the measurement date. The Compensation Committee also designated our other executive officers that are subject to Section 16 reporting obligations under the Securities Exchange Act of 1934, as amended, to be subject to the stock ownership policy. The stock ownership level for our other NEOs and Section 16 officers is three times the value of their respective annual base salaries to be achieved within five years of the effective date of our stock ownership policy, calculated based on the same methodology discussed above.

Our non-employee directors are also subject to the stock ownership policy discussed above under Stock Ownership Guidelines for Directors.

Anti-Hedging and Pledging Policies

We have a policy prohibiting directors, executive officers and certain other designated employees from speculative trading in our securities, including hedging transactions, short selling, and trading in put options, call options, swaps or collars, or holding our securities in margin accounts. We also have a policy prohibiting directors, executive officers and certain other designated employees from pledging Gulfport securities. To our knowledge, all such individuals are in compliance with these policies.

Termination and Change of Control Benefits

Mr. Wood was appointed as our Chief Executive Officer and President on December 18, 2018. Although we do not have an employment agreement with Mr. Wood, in his role as our Chief Executive Officer and President,

Table of Contents

Mr. Wood will be entitled to receive specified payments and benefits upon certain termination events, including termination following a change of control. The Compensation Committee believes that these provisions will encourage Mr. Wood to remain in our employment in the event of a change of control of the Company and during circumstances which indicate that a change of control might occur. The Compensation Committee believes termination and change of control benefits are important in maintaining strong leadership and in encouraging retention in these situations and encourages our executives to act in the best interests of stockholders without distraction based on uncertainty regarding their employment status. For additional information regarding the terms of Mr. Wood's employment with us and termination and change of control provisions, see [Compensation Arrangement with Our Chief Executive Officer](#) below.

We have entered into an employment agreement with each of Ms. Crowell and Mr. Maier, each effective as of January 1, 2017, which provide for certain change in control benefits, including immediate vesting of each such NEO's equity awards upon his or her termination on or before the second anniversary of the date of occurrence of a change of control other than for cause. The value of the unvested restricted stock held by Ms. Crowell and Mr. Maier was \$904,778 and \$552,244, respectively, as of December 31, 2018, based on the closing value on December 31, 2018, the last trading day of 2018. See [Change of Control Arrangements with Other Named Executive Officers](#). For additional information regarding these employment agreements and termination and change of control provisions, see [Employment Agreements with Our Chief Financial Officer and Senior Vice President of Geoscience](#).

We do not currently have employment agreements or termination or change of control arrangements with Donnie Moore, our Chief Operating Officer, or Paul Heerwagen, our Senior Vice President of Corporate Development and Strategy, except for those contained in their respective restricted stock unit agreements discussed in more detail under [Potential Payments upon Termination, Resignation or Change of Control](#) below. Upon termination for any reason, each of Donnie Moore and Paul Heerwagen would be entitled to receive all of his accrued and unpaid salary and any other compensation payable to such executive (including vacation and sick pay) with respect to services rendered through the termination date.

Separation Agreement with Our Former Chief Executive Officer and President

Michael G. Moore stepped down from his position as our Chief Executive Officer and President, and as a member of our board of directors, effective as of October 29, 2018. In connection with Mr. M. Moore's departure, we entered into a separation agreement with Mr. M. Moore, under which we paid Mr. M. Moore severance payments in the aggregate amount of \$400,000 and agreed to reimburse Mr. M. Moore's portion of COBRA premiums for a maximum period of six months, which reimbursement will cease at any time he becomes eligible for group medical coverage from another employer. For more details regarding this separation agreement, see [Severance Agreement with our Former Chief Executive Officer and President](#) below.

Perquisites and Other Personal Benefits

We provide certain of our NEOs with a limited number of perquisites or other personal benefits, primarily consisting of life insurance premiums and, in the case of our former Chief Executive Officer and certain other NEOs, use of a Company-owned vehicle. We believe these limited benefits help provide a competitive compensation package. The value of these benefits is disclosed in the [Summary Compensation Table](#) below.

In February 2019, we adopted an aircraft use policy that sets forth our policy with respect to the use of any aircraft chartered or owned by the Company consistent with best corporate governance practices. We restrict personal use of Company owned or chartered aircraft by our executive officers and other employees, as well as by members of our board of directors. Our aircraft use policy requires that any personal use of Company owned or chartered aircraft by

any NEO be reported as a perquisite, based on the aggregate incremental value of such personal use. See Summary Compensation Table.

Table of Contents**Broad-Based Employee Benefits*****401(k) Plan***

We have a broad-based retirement savings plan in which our NEOs currently participate. The retirement plan is a tax qualified 401(k) plan that covers all eligible employees including the NEOs. Under the plan, we make a safe harbor contribution equal to 3% of each eligible employee's eligible annual compensation with each pay period. We also have the ability to make an additional, discretionary contribution based on each eligible employee's eligible annual compensation for the prior calendar year. Both contributions are made, regardless of employee's deferrals into the plan. In 2018, we made safe harbor contributions of 3% and discretionary contributions of 2% of eligible compensation for eligible employees, subject to certain limitations provided by our 401(k) plan and Internal Revenue Service regulations. All contributions made by us on behalf of an employee are 100% vested when contributed. For more details regarding our 401(k) plan, see [Benefit Plans 401\(k\) Plan](#) below.

Other Benefits

Our NEOs are eligible to participate in all of our other employee benefit plans which include medical, dental, group life, disability and accidental death and dismemberment insurance, in each case on the same basis as all other employees.

Deductibility of Executive Compensation

The Compensation Committee considers the expected tax treatment to the Company and its executive officers as one of the factors in determining compensation matters. Section 162(m) of the Code generally denies a federal income tax deduction for certain compensation in excess of \$1 million to a covered employee of a publicly traded corporation in any fiscal year. Prior to January 1, 2018, certain types of compensation, including qualifying performance-based compensation, were not subject to the limits on deductibility. For these purposes, prior to January 1, 2018, covered employees consisted of our Chief Executive Officer and the three most highly compensated executive officers other than our Chief Executive Officer and our Chief Financial Officer.

A number of significant changes were made to Section 162(m) by the Tax Cuts and Jobs Act, enacted on December 22, 2017, including the elimination of the ability to rely on this performance-based exception, effective as of January 1, 2018, and expansion of the scope of covered employees to include the chief financial officer and certain former NEOs. As a result of these changes, compensation paid to any covered employee generally will not be deductible, to the extent that it exceeds \$1 million, in 2018 or future years, unless such compensation qualifies for transition relief for written binding contracts that were in effect as of November 2, 2017. The Compensation Committee currently considers the deductibility under Section 162(m) of compensation awarded to its executives to the extent reasonably practical and consistent with our objectives, but the Compensation Committee may nonetheless authorize compensation that results in non-deductible amounts above the Section 162(m) limits if it determines that such compensation is in our best interests.

Accounting Implications of Executive Compensation Policy

We are required to recognize compensation expense of all stock-based awards pursuant to the provisions of FASB ASC Topic 718, Compensation-Stock Compensation. Under U.S. generally accepted accounting principles, or GAAP, only vested shares are included in basic shares outstanding. Also, under GAAP, non-vested shares are included in diluted shares outstanding when the effect is dilutive.

The Compensation Committee believes that linking a large portion of our executive officers' compensation to both performance-based long-term equity incentive awards and performance-based bonus arrangements, with meaningful performance metrics, appropriately aligns our executives' interests with those of our stockholders and are consistent with market practices. The Compensation Committee also believes that our current compensation policies and practices enhance retention of executive talent through multi-year vesting of stock.

Table of Contents

awards and discourage unnecessary and excessive risk taking. The Compensation Committee further believes that our other compensation policies and practices, such as our policy generally prohibiting pledging and hedging of our stock by our executive officers and directors, as well as the lack of significant prerequisites and absence of pension or supplemental retirement benefits (aside from those afforded under our broad-based 401(k) plan) for our executive officers are consistent with prudent compensation philosophy and the interests of our stockholders. The Compensation Committee will continue to consider the outcome of our stockholders' future say-on-pay votes when making compensation decisions for our NEOs.

Compensation Committee Report on Executive Compensation

The Compensation Committee has reviewed and discussed the foregoing Compensation Discussion and Analysis with management. Based on its review and discussion with management, the Compensation Committee recommended that the Compensation Discussion and Analysis be included in this proxy statement.

(1) The amount reported in the Stock Awards column reflects the fair value of the applicable restricted common

stock award or restricted stock unit award on the award date. The amount was calculated using certain assumptions, as set forth in Note 1 and Note 8 to our consolidated financial statements for the fiscal year ended December 31, 2018 under the headings Summary of Significant Accounting Policies Accounting for Stock-Based Compensation and Stock-Based Compensation, respectively, included in our Annual Report on Form 10-K, filed with the SEC on February 28, 2019.

- (2) The amounts shown reflect performance-based annual incentive bonuses granted under the 2014 Executive Annual Incentive Compensation Plan. With respect to the 2018 amounts, the Compensation Committee certified the attainment of the related performance goals in March 2019, and the Company paid these performance-based annual incentive bonuses in March 2019. With respect to the 2017 amounts, the Compensation Committee certified the attainment of the related performance goals in March 2018, and the Company paid these performance-based annual incentive bonuses in March 2018. With respect to the 2016 amounts, the Compensation Committee certified the attainment of the related performance goals in February 2017, and the Company paid these performance-based annual incentive bonuses in March 2017.
- (3) The amount for Mr. Wood for 2018 includes \$347 for our 401(k) plan contribution. Amounts for Michael G. Moore for 2018, 2017 and 2016 represent \$16,506, \$20,295 and \$20,295, respectively, for our 401(k) plan contributions, \$14,057, \$18,101 and \$23,990, respectively, attributable to use of a Company owned vehicle, \$0, \$0 and \$1,022, respectively,

- attributable to Company sponsored sporting tickets and \$1,253, \$1,380 and \$1,380, respectively, attributable to group term life insurance coverage. The amount for Michael G. Moore for 2018 also includes \$400,000 separation payment and \$115,069 as a paid time off balance payout. The amounts for Michael G. Moore for 2018, 2017 and 2016 also include (i) the aggregate incremental aircraft usage costs associated with his personal use of the Company's chartered aircraft of approximately \$63,800, \$163,600 and \$138,700, respectively, with such incremental costs calculated based on the excess costs that the Company would not have incurred but for such use by the former Chief Executive Officer and personal guests, including the hourly fee charged by the charter company for the specific flight, and per flight fees, fuel variable charges, domestic segment fees, federal excise tax and other actual fees charged by the charter company related to the specific flight, but excluding any fixed costs, and (ii) the aggregate incremental costs of \$1,973, \$5,016 and \$600, respectively, associated with his personal charges to his Company credit card prior to repayment, with such incremental costs calculated based on the Company's weighted average borrowing rate under its revolving credit facility during the applicable period (regardless of whether any amounts were actually outstanding under the revolving credit facility during such period). We are seeking reimbursement of these incremental costs from Mr. M. Moore. Amounts for Ms. Crowell for 2018, 2017 and 2016 represent \$16,506, \$20,295 and \$20,295, respectively, for our 401(k) plan contributions, \$0, \$0 and \$320, respectively, attributable to a Company sponsored health club membership, \$1,072, \$1,042 and \$1,022, respectively, attributable to Company sponsored sporting tickets and \$1,365, \$1,380 and \$1,380, respectively, attributable to group term life insurance coverage. Amounts for Donnie Moore for 2018 include \$8,250 for our 401(k) plan contribution, \$1,272 attributable to Company sponsored sporting tickets and \$1,250 attributable to group term life insurance coverage. Amounts for Mr. Maier for 2018, 2017, 2016 include \$16,506, \$20,295 and \$20,295, respectively, for our 401(k) plan contributions, \$1,444, \$1,392 and \$1,486, respectively, attributable to Company sponsored sporting tickets and \$1,365, \$1,380 and \$1,380, respectively, attributable to group term life insurance coverage. Amounts for Mr. Heerwagen for 2018 include \$16,506 for our 401(k) plan contributions and \$1,365 attributable to group term life insurance coverage.
- (4) Mr. Wood was appointed to serve as our Chief Executive Officer and President, and as a member of our board of directors, effective December 18, 2018.

Benefit Plans**401(k) Plan**

We maintain a retirement savings plan, or a 401(k) Plan, for the benefit of our eligible employees who have attained the age of 18. Currently, employees may elect to defer their compensation up to the statutorily prescribed limit. During the year, we make a safe harbor contribution equal to 3% of each eligible employee's eligible annual compensation with each pay period. We also have the ability to make an additional, discretionary contribution based on each eligible employee's eligible annual compensation for the prior calendar year. Both contributions are made, regardless of employee's deferrals into the plan. In 2018, we made safe harbor contributions of 3% and discretionary contributions of 2% of eligible compensation for eligible employees, subject to certain limitations provided by our 401(k) plan and Internal Revenue Service regulations. All contributions made by us on behalf of an employee are 100% vested when contributed. The 401(k) Plan is intended to qualify under Sections 401(a) and 501(a) of the Code. As such, contributions to the 401(k) Plan and earnings on those contributions are not taxable to the employees until

distributed from the 401(k) Plan, and all contributions are deductible by us when made.

2013 Restated Stock Incentive Plan

Our 2013 Restated Stock Incentive Plan, which amended and restated our Amended and Restated 2005 Stock Incentive Plan, was adopted and approved by our stockholders to enable us, and any of our affiliates, to attract

and retain the services of the types of employees, consultants and directors who will contribute to our long range success and to provide incentives which are linked directly

to increases in share value which will inure to the benefit of our stockholders. The plan provides a means by which eligible recipients of awards may be given an opportunity to benefit from increases in value of our common stock through the granting of incentive stock options, nonstatutory stock options, restricted awards (restricted stock and restricted stock units), performance awards and stock appreciation rights. The Compensation Committee serves as the plan administrator. On April 1, 2019, an aggregate of 4,451,404 shares of restricted common stock and restricted stock units had been granted under this plan. There were 1,423,990 shares available for future grants under this plan as of April 1, 2019.

On April 29, 2019, the Compensation Committee unanimously adopted, subject to stockholder approval at the 2019 Annual Meeting, our 2019 Amended and Restated Stock Incentive Plan, amending and restating our 2013 Restated Stock Incentive Plan, which, as so amended and restated, is referred to as the Stock Incentive Plan. A summary of the material terms of the Stock Incentive Plan is set forth under Proposal 2, beginning on page 67.

2014 Executive Annual Incentive Compensation Plan

The 2014 Annual Incentive Compensation Plan, or Annual Incentive Plan, was approved by our board of directors on April 1, 2014 and by our stockholders at the 2014 Annual Meeting on June 11, 2014. Our executive officers and selected employees and those of our subsidiaries are eligible to receive awards under the Annual Incentive Plan. The Annual Incentive Plan provides for awards of incentive compensation that are contingent on the attainment of specific performance targets. Under the Annual Incentive Plan, the compensation committee, as the plan administrator, establishes the performance targets for each award and the performance period during which the performance is to be measured, which will generally be our fiscal year. Performance targets may include a minimum level of performance below which no payment will be made, levels of performance at which specified percentages of the award will be paid, and a maximum level of performance above which no additional award will be paid. The plan administrator must adopt the performance targets and criteria for awards granted to executive officers subject to the limits of Section 162(m) of the Code, whom we refer to as Covered Employees, no later than the earlier of:

90 days after the beginning of the performance period, or

the time when 25% of the performance period has elapsed.

In addition, award amounts to be paid to any Covered Employee for any one year may not exceed the lesser of: (i) 300% of base salary at the time the award is established, or (ii) \$6.0 million. Individual awards may be subject to lesser limits as specified in the discretion of the Compensation Committee.

Performance targets for each award will be based on pre-established performance factors, which may include any or all of the following, individually or in combination:

revenue;

net sales;

operating income;

earnings before all or any of interest, taxes, depreciation and/or amortization (EBIT, EBITA or EBITDA);

growth of oil and natural gas production;

growth of estimated or proved reserves;

capital efficiency based on revenue per barrel of oil equivalent (BOE) produced;

Table of Contents

lease operating expenses;

general and administrative expenses;

net cash provided by operating activities or other cash flow measurements;

working capital and components thereof;

return on equity or average stockholders' equity;

return on assets;

market share;

net or gross sales measured by product line, territory, one or more customers, or other category;

stock price;

earnings per share;

earnings from continuing operations;

net worth;

credit rating;

levels of expense, cost or liability by category, operating unit, or any other delineation; or

any increase or decrease of one or more of the foregoing over a specified period.

These performance factors may relate to the performance of the Company or the performance of a business unit, product line, territory or any combination of these. Performance targets for employees who are not executive officers may also be based on other additional objective or subjective performance criteria established by the plan administrator.

The plan administrator may at any time establish additional conditions and terms of payment of awards, including additional financial, strategic or individual goals, which may be objective or subjective. The plan administrator may exercise negative discretion to reduce the amount of an award, but may not adjust upwards the amount payable pursuant to any award to a Covered Employee, nor may it waive the achievement of the performance target requirement for any Covered Employee, except in the case of the death or disability of the participant or a change in control of the Company.

Unless the plan administrator provides otherwise, a participant must be employed by us on the date that awards are paid to receive an award payment, except in the case of death or disability. If a participant dies or becomes disabled during a performance period, the participant (or the participant's beneficiary) will receive a pro-rated award payment at the same time all other awards are paid for the performance period. In the event of a change in control, each named executive officer will be paid the target award amount (mid-point of any specified range of potential award payment amount) based on the assumption that the performance target was attained at the target level (mid-point of any specified range of performance targets) for the entire performance period. The target award amount will be paid within ten (10) days following the consummation of the change in control transaction.

Before payment of any award to a Covered Employee, our Compensation Committee must certify in writing that the performance target requirement for such award was met.

The plan administrator may at any time amend the Annual Incentive Plan, subject to approval by our stockholders to the extent stockholder approval is necessary to continue to qualify as performance-based compensation under Section 162(m) of the Code (as in effect prior to January 1, 2018). The plan administrator may at any time terminate the Annual Incentive Plan in whole or in part.

Our board of directors has delegated its authority to administer the Annual Incentive Plan to the Compensation Committee, to whom we refer as the plan administrator. The Compensation Committee is expected to consist

Table of Contents

solely of two or more outside directors within the meaning of Section 162(m) of the Code (as in effect prior to January 1, 2018). The plan administrator has the authority to administer the Annual Incentive Plan and to exercise all the powers and authorities either specifically granted to it under the Annual Incentive Plan or necessary or advisable in the administration of the Annual Incentive Plan, including (but not limited to) the following:

to interpret the Annual Incentive Plan and any award;

to prescribe rules relating to the Annual Incentive Plan;

to determine the persons to receive awards;

to determine the terms, conditions, restrictions and performance criteria, including performance factors and performance targets, relating to any award;

to accelerate an award that is designed not to be deferred compensation subject to Code Section 409A (after the attainment of the applicable performance target or targets);

to adjust performance targets in recognition of specified events such as unusual or non-recurring events affecting us or our financial statements, including certain asset dispositions, cessation of operations resulting from a natural disaster, or in response to changes in applicable laws, regulations, or accounting principles as specified in the Annual Incentive Plan or in the performance targets established for any performance period;

to waive restrictive conditions for an award (but not performance targets); and

to make any other determinations that may be necessary or advisable for administration of the Annual Incentive Plan.

Federal Income Tax Consequences of the Annual Incentive Plan.

Under federal income tax laws currently in effect:

Participants in the Annual Incentive Plan will recognize in the year of payment ordinary income equal to the award amount, which is subject to applicable income and employment tax withholding by us (including the additional tax of 0.9% imposed on wages in excess of \$200,000 under Section 3101(b)(2) of the Code). Under current regulations and guidance, we expect that awards under the Annual Incentive Plan will not be subject to Section 409A of the Code, which imposes restrictions on nonqualified deferred compensation arrangements and penalizes participants for violating these restrictions.

Section 162(m) of the Code imposes a \$1.0 million annual limit on the amount of compensation that we may deduct for federal income tax purposes with respect to our chief executive officer and each of our three highest compensated officers (other than our chief executive officer and our chief financial officer), and, effective as of January 1, 2018, our chief financial officer and certain former named executive officers. For 2017 and prior years, the Annual Incentive Plan was intended to qualify for an exception under Section 162(m) for performance-based compensation. As a result of new tax legislation enacted on December 22, 2017, this exception is not available for taxable years beginning after December 31, 2017, unless such performance-based compensation qualifies for transition relief for written binding contracts that were in effect as of November 2, 2017. As a result of the new tax legislation, compensation paid in excess of \$1.0 million to a covered employee is not expected to be deductible under Section 162(m) of the Code. Therefore, awards under our Annual Incentive Plan originally designed with the intent that such awards qualify as performance-based compensation may not be deductible in the future.

Compensation Arrangement with Our Chief Executive Officer

Mr. Wood was appointed to serve as our Chief Executive Officer and President, and as a member of our board of directors, effective December 18, 2018. We do not have an employment agreement with Mr. Wood. In his role as our Chief Executive Officer and President, in 2018, Mr. Wood received an initial annual base salary of \$750,000. On February 26, 2019, in accordance with the terms of his appointment, Mr. Wood was granted an inducement restricted stock unit award granted under the our long-term equity incentive plan, with a value of \$1,000,000, in the amount of 121,951 restricted stock units determined based on the closing price per share of our common stock on The Nasdaq Global Market on February 25, 2019. In addition to the inducement restricted stock award, Mr. Wood is entitled to receive annual grants of restricted stock units (or other equity awards with an equivalent value) with a grant date value of 500% of his annual base salary, 50% of which award to be time-based, vesting in three substantially equal annual installments beginning on the first anniversary of the grant date, and the remaining 50% of such award to be performance-based, subject to the performance goals and criteria determined in the discretion of our board of directors or the Compensation Committee. The annual restricted stock unit awards for 2019 were granted to Mr. Wood on February 26, 2019 and consisted of 228,659 performance-based restricted stock units, vesting over a three-year performance period, based on the achievement of certain RTSR targets and continuous service on the last day of the performance period, and 228,659 time-vesting restricted stock units, vesting over a three-year period.

Mr. Wood is also eligible to participate in the Company's annual cash incentive program, which provides an opportunity to receive an annual bonus payable in a single lump sum based on a target amount of 125% of Mr. Wood's annual base salary and such performance goals and criteria determined in the discretion of our board of directors or the Compensation Committee. Mr. Wood is also eligible to participate in other employee benefit plans generally available to similarly situated Company employees, as in effect from time to time.

The Company reimbursed Mr. Wood for certain customary relocation and moving expenses in the amount of \$21,281.

In the event Mr. Wood's employment is terminated by the Company, other than for cause, Mr. Wood will be entitled to his earned but unpaid compensation, as well as an amount of severance equal to his annual base salary and target bonus in effect as of the date of such termination, which we refer to as the severance payment, payable in accordance with our normal payroll practices for a period of 12 months following such termination, and

continuation of health coverage for Mr. Wood and his dependents for a period of 12 months. Upon an involuntary termination without cause that occurs within 12 months following a change in control, Mr. Wood will be entitled to receive the severance payment for a period of 24 months and health coverage continuation for a period of 18 months.

Employment Agreements with our Chief Financial Officer and Senior Vice President of Geosciences

In 2017, we entered into an employment agreement with each of Keri Crowell, our Chief Financial Officer, and Stuart Maier, our Senior Vice President of Geosciences, each effective as of January 1, 2017. Each employment agreement provides for a one-year term commencing as of January 1, 2017, which we refer to as the Initial Period, that is automatically extended for successive one-year periods unless we or the executive elects to not extend the term by giving written notice to the other party at least 30 days prior to the end of the Initial Period or any anniversary thereof.

Ms. Crowell and Mr. Maier received one-year extensions of their respective employment contracts, which included an annual base salary of \$362,300 and \$414,000, respectively, subject to periodic review by the compensation committee and adjustment from time to time. Subject to the achievement of certain performance goals as determined by our board of directors or the compensation committee for each fiscal year, each of Ms. Crowell and Mr. Maier is eligible to participate in our annual cash incentive program, with an opportunity to receive an annual bonus (payable in a single lump sum), based on criteria determined in the discretion of the board of directors or the Compensation Committee. For 2018, Ms. Crowell's target bonus was 80% of her annual base salary, with a maximum target bonus of up to 200%, of her target bonus and Mr. Maier's target bonus was 60% of his annual base salary, with a maximum target bonus of up to 200% of his target bonus, provided each such executive remains employed by us on the payment date. Each such executive is also entitled to participate in any life, disability, health insurance and 401(k) plans and other similar plans that we establish from time to time for our executive employees.

Under his or her employment agreement, each executive may receive, as determined by the board of directors or the Compensation Committee in its sole discretion, an equity award under our long term incentive plan or plans, subject to the terms and conditions thereof and any equity award agreement.

The Compensation Committee has determined that any equity awards granted to our NEOs in 2019 will be equally divided between performance-based restricted stock units tied to RTSR, vesting over a three-year performance period, and time-based restricted stock units, vesting over a three-year period.

Any equity awards granted to such executive, any proceeds of any equity awards that previously have been sold, transferred or otherwise disposed of, and any incentive bonus award will be subject to clawback by us, now or in the future, the Dodd-Frank Act and the SOX Act, each as amended, and rules, regulations and binding, published guidance thereunder.

Each executive has agreed to certain restrictive covenants in his or her employment agreement, including such executive's agreement not to interfere with any of our employees, suppliers, vendors, joint venturers or licensors and not to solicit our customers or employees, in each case during such executive's employment with us and for a period of two years thereafter, (ii) not to disclose our confidential information or trade secrets and (iii) not to compete with us while using our trade secrets. We may terminate each such executive's employment at any time for any or no reason, in our sole discretion, upon not less than ten days' advance written notice to the executive. The executive may terminate the employment relationship upon ten days' advance written notice to us. However, if we terminate such executive's employment without cause, then he or she will be entitled to (i) any accrued benefits (defined below), (ii) severance pay in an amount equal to one month's base salary for each full year of employment with us, not to exceed 12 months, and (iii) COBRA coverage as required by applicable law; provided that, in the case of clauses (ii) and (iii), the executive continues to comply with the restrictive covenants

Table of Contents

described above and the executive executes a full general release in our favor. In the event the executive's employment terminates upon his or her death or disability, the executive or his or her estate will be entitled to any accrued benefits. In the event such executive's employment is terminated for cause (as defined below) or as a result of non-extension of his or her employment agreement, our obligations under such agreement will terminate, except for any accrued benefits.

If the executive's employment with us or our successor is terminated on or before the second anniversary of the date of occurrence of a change of control (as defined below) other than for cause, then, in addition to the benefits described above, (i) all equity awards that have been granted to such executive that would have vested at any time after the date of his or her termination solely as a result of her continued service to the Company will immediately vest on the date of termination, and (ii) such executive will be entitled to receive a lump sum payment equal to his or her severance payment described above times two, plus an amount equal to his or her target annual bonus during the severance period and the continuation of COBRA coverage for 18 months.

Under the employment agreements with each of Ms. Crowell and Mr. Maier:

Accrued benefits are (i) any base salary through the date of termination, (ii) reimbursement for any unreimbursed business expenses incurred through the date of termination, (iii) any accrued but unused vacation time in accordance with the Company's policy and (iv) all other payments, benefits or fringe benefits to which the executive may be entitled under the terms of any applicable compensation arrangement or benefit, equity or fringe benefit plan or program or grant or his or her employment agreement.

A change of control will be deemed to have occurred upon the occurrence of any of the following: (i) any consolidation or merger of us into or with another person or entity pursuant to which our shares of common stock would be converted into cash, securities or other property, other than any consolidation or merger in which the persons who were our stockholders immediately prior to the consummation of such consolidation or merger are the beneficial owners, immediately following the consummation of such consolidation or merger, of more than 50% of the combined voting power of the then outstanding voting securities of the person or entity surviving or resulting from such consolidation or merger; (ii) any sale, lease or other transfer (in one transaction or a series of related transactions) of all or substantially all of our assets; or (iii) the approval by our stockholders of any plan or proposal for our liquidation or dissolution.

Cause is generally defined as such named executive officer's (i) gross negligence, gross incompetence or misconduct in performing the executive's duties, (ii) failure to perform, without proper legal reason, such executive's duties and responsibilities to us or any of our affiliates, (iii) material breach of such executive's employment agreement or any agreement or corporate policy or code of conduct established by us or our affiliates, (iv) conduct that is, or could reasonably be expected to be, materially injurious to us or any of our affiliates, (v) act of theft, fraud, embezzlement or misappropriation against or breach of a fiduciary duty to us or any of our affiliates or (vi) conviction of, or a plea of guilty or no contest to, or receipt of adjudicated probation or deferred adjudication in connection with, a crime involving fraud, dishonesty or moral turpitude or any felony (or a crime of similar import in a foreign jurisdiction).

Compensation Arrangements with our Chief Operating Officer and our Senior Vice President of Corporate Development and Strategy

We do not have an employment agreement with either Donnie Moore, our Chief Operating Officer, or Paul Heerwagen, our Senior Vice President of Corporate Development and Strategy.

As our Chief Operating Officer, in 2018, Donnie Moore received an annual base salary of \$430,125. In connection with his appointment as our Chief Operating Officer in January 2018, he received a sign-on bonus of \$250,000. On February 19, 2018, Mr. D. Moore also received a grant of 137,143 restricted stock units with a value of approximately \$1,200,000 on the date of grant, which vest in three approximately equal annual

Table of Contents

installments beginning on February 27, 2019. In addition to the 2018 restricted stock unit award, Mr. D. Moore is entitled to receive future annual grants of restricted stock units (or other form of equity award with an equivalent value) with a grant date value of 350% of his annual base salary.

Under the terms of his employment with us, Mr. D. Moore is eligible to participate in our annual cash incentive program, which will provide an opportunity to receive an annual, calendar-year bonus (payable in a single lump sum) based on a target amount of 80% of his annual base salary and such performance goals and criteria determined in the discretion of our board of directors or its Compensation Committee. Mr. D. Moore is also eligible to participate in any other benefit plans available to our other similarly situated employees, subject to the terms and conditions of such plans. In 2018, we also reimbursed Mr. D. Moore for the cost of certain of his direct and incidental relocation expenses in the aggregate amount of \$28,233.

As our Senior Vice President of Corporate Development and Strategy, in 2018, Paul Heerwagen received an annual base salary of \$346,700. Under the terms of his employment with us, Mr. Heerwagen is eligible to participate in our annual cash incentive program, which will provide an opportunity to receive an annual, calendar-year bonus (payable in a single lump sum) based on a target amount of his annual base salary and such performance goals and criteria determined in the discretion of our board of directors or its Compensation Committee. For 2018, Mr. Heerwagen's target bonus was 60% of his annual base salary, with a maximum target bonus of up to 200%, of his target bonus. Mr. Heerwagen is also eligible to participate in any other benefit plans available to our other similarly situated employees, subject to the terms and conditions of such plans.

Mr. Heerwagen is also eligible to receive restricted stock unit awards under our stock incentive plan.

The Compensation Committee has determined that any equity awards granted to our NEOs in 2019 will be equally divided between performance-based restricted stock units tied to RTSR, vesting over a three-year performance period, and time-based restricted stock units, vesting over a three-year period.

Potential Payments Upon Termination, Resignation or Change of Control

- (2) Ms. Crowell's base salary as of December 31, 2018 was \$362,300. The information in this table for Ms. Crowell applies the terms of her employment agreement, effective as of January 1, 2017.
- (3) Mr. Maier's base salary as of December 31, 2018 was \$414,000. The information in this table for Mr. Maier applies the terms of his employment agreement effective as of January 1, 2017.
- (4) If we terminate the executive's employment without cause, the executive will be entitled to his or her monthly base salary, paid monthly for the Severance Period, provided in each case that the executive (i) continues to

comply with the restrictive covenants described above regarding confidential information and trade secrets, (ii) continues to comply with the provisions relating to non-solicitation and non-interference in the Company's business and (iii) executes a full general release in our favor. The executive will also be entitled to his or her Accrued Benefits (as defined below). The Severance Period for the executive is equal to one month for each full year of employment with the Company, not to exceed

twelve months. As of December 31, 2018, Ms. Crowell and Mr. Maier had thirteen and twenty full years of employment with the Company, respectively.

- (5) If we terminate the executive's employment without cause, the executive will be entitled to the continuation of certain benefits paid by the Company. The Benefits Continuation reflects the value of Company-paid continuation coverage under the Company's group health plans and under the Consolidated Omnibus Budget Reconciliation Act of 1985, or COBRA, for the executive and his or her eligible dependents for such executive's Severance Period following the date of termination. The Company's obligation to pay this amount is subject to the executive's timely election of continuation of coverage and the executive's continued copayment of premiums. The executive must also (i) continue to comply with the restrictive covenants described above regarding confidential information and trade secrets, (ii) continue to comply with the provisions relating to non-solicitation and non-interference in the Company's business and (iii) execute a full general release in our favor.
- (6) If the executive's employment terminates on account of such executive's death or disability, if we terminate the executive's employment for cause, or if either the Company or the executive elects not to extend the term of the employment agreement prior to an automatic renewal date, the executive is entitled to receive a payment from the Company equal to all accrued and unpaid salary payable to the executive (including vacation pay) with respect to services rendered through the termination date, any unreimbursed business expenses through the termination date and all other payments, benefits or fringe benefits the executive may be entitled to under the terms of any applicable compensation arrangement, benefit plan or grant (the foregoing, the Accrued Benefits). In the case of death or disability, this amount will be paid in a lump sum within 60 days following termination of employment.
- (7) If the executive's employment with us or our successor is terminated on or before the second anniversary of the date of occurrence of a change of control (as defined above) by us or our successor other than for cause, then (i) all equity awards that have been granted to such executive that would have vested at any time after the date of such executive's termination solely as a result of such executive's continued service to the Company will immediately vest on the date of termination, (ii) the executive will be entitled to receive a lump sum payment from the Company equal to his or her monthly base salary rate times such executive's Severance Period times two, plus an amount equal to the executive's target annual bonus during the Severance Period and (iii) the executive will be entitled to the continuation of COBRA coverage by the Company for the Severance Period, up to a term of 18 months. The executive will also be entitled to their Accrued Benefits. The executive must also (a) continue to comply with the restrictive covenants described above regarding confidential information and trade secrets, (b) continue to comply with the provisions relating to non-solicitation and non-interference in the Company's business and (c) execute a full general release in our favor.

We do not currently have termination or change of control arrangements with Donnie Moore, our Chief Operating Officer, or Paul Heerwagen, our Senior Vice President of Corporate Development and Strategy, except for the change in control provisions set forth in their respective restricted stock unit award agreements. Upon termination for any reason, each of Mr. D. Moore and Mr. Heerwagen would be entitled to receive all of his accrued and unpaid salary and any other compensation payable to such executive (including vacation and sick pay) with respect to services rendered through the termination date. The restricted stock unit award agreements covering the unvested restricted stock units granted to Mr. D. Moore in 2018 contain a change of control provision providing for acceleration of vesting of any such unvested restricted stock units in the event of a change of control, as such term is defined in the award agreement. The restricted stock unit award agreements covering the unvested restricted stock units granted to Mr. Heerwagen in 2018 contained a change of control provision providing for acceleration of vesting of any such unvested restricted stock units in the event of a change of control, as such term is defined in the applicable award agreement, and involuntary termination within a 12-month period from such event. As of December 31, 2018, the value of such unvested restricted stock units held by Messrs. D. Moore and Heerwagen would have been \$904,778 and \$584,994], respectively. Any new awards granted to our NEOs in 2019 and in the future will contain a double trigger change of control provisions, providing for acceleration of vesting of any such unvested restricted stock units

in the event of a change of control, as such term is defined in the applicable award agreement, and involuntary termination within a

12-month period. Any new awards to our NEOs will also provide for acceleration of the restricted stock units in the event of the NEO's death or disability during a period of continuous service.

Severance Agreement with our Former Chief Executive Officer and President

Effective October 29, 2018, Michael G. Moore stepped down from his position as our Chief Executive Officer and President and as a member of our board of directors. In connection with Mr. Michael Moore's departure, we entered into a Separation and Release Agreement with Mr. Michael Moore which we refer to as the separation agreement. Under the terms of the separation agreement, we paid Mr. Michael Moore separation payments in the aggregate amount of \$400,000. Also, we agreed to reimburse Mr. Michael Moore's portion of COBRA premiums for a maximum of six months, which reimbursement will cease at any time he becomes eligible for group medical coverage from another employer. The separation agreement also includes a release of claims by Mr. Michael Moore against us, our directors, stockholders, employees, agents, attorneys, consultants and affiliates.

CEO Pay Ratio Disclosure

Pursuant to Item 402(u) of Regulation S-K, we are disclosing the pay ratio and supporting information comparing the median of the annual total compensation of our employees (including full-time, part-time, seasonal and temporary employees) other than Michael G. Moore, our former Chief Executive Officer and President, and the annual total compensation of Mr. M. Moore. Mr. Wood, our new Chief Executive Officer and President, served in these roles beginning with December 18, 2018. The pay ratio is calculated in a manner consistent with Item 402(u) of Regulation S-K.

For the year ended December 31, 2018, our last completed fiscal year:

The median of the annual total compensation of all of our employees, other than Mr. Michael Moore and Mr. Wood was \$107,741.

The annual total compensation of Mr. Michael Moore was \$5,500,160. Based on this information, for 2018 the ratio of the annual total compensation of Mr. Michael Moore, our former Chief Executive Officer and President, to the median of the annual total compensation of all other employees was 51:1.

We selected December 31, 2018 as the date upon which we identified the median employee. To identify the median employee, we examined the Medicare Taxable Earnings as reported on Internal Revenue Service Form W-2 (Box 5) for 2018 for all individuals employed by us on December 31, 2018 (other than Mr. Michael Moore and Mr. Wood).

Once we identified our median employee, we calculated that employee's annual total compensation for 2018 in the same manner that we determined the total compensation of our named executive officers for purposes of the Summary Compensation Table set forth above. This resulted in an annual total compensation of \$107,741 for the identified employee for the year ended December 31, 2018. The calculation of the total compensation for Mr. Michael Moore is included in the Summary Compensation Table set forth above. We made no material assumptions, adjustments, or estimates to identify the median employee or to determine total compensation, and we did not annualize the compensation for any employees that were not employed by us the entire year.

- (1) Beneficial ownership is determined in accordance with SEC rules. The percentage of shares beneficially owned is based on 161,144,143 shares of common stock outstanding as of April 1, 2019, including 1,946,741 shares of restricted stock awarded under our 2013 Restated Stock Incentive Plan or our Amended and Restated 2005 Stock Incentive Plan, but not yet vested.
- (2) Based solely on Schedule 13G/A jointly filed with the SEC on February 12, 2019 by Vitruvian Exploration II Holdings, LLC, or VEX Holdings, Vitruvian Exploration II, LLC, or VEX, Q-VEX II, LP, or Q-VEX, QEM V,

LLC, or QEM, and S. Wil VanLoh, Jr. Each reporting person reported sole dispositive power and sole voting power of 13,704,357 shares of common stock, or the Vitruvian Shares. The holdings reported represent the shares of common stock held by Vitruvian. VEX Holdings holds a majority of the capital interests of Vitruvian and has the right to appoint four of the six managers of the Vitruvian Board (such managers referred to herein as the VEX Holdings Managers). Certain actions of Vitruvian, including certain dispositions, require the approval of the VEX Holdings Managers. VEX has the right to appoint a majority of the board of managers of VEX Holdings. Q-VEX has the right to appoint a majority of the board of managers of VEX. QEM is the sole general partner of Q-VEX. Any decision taken by QEM to vote, or to direct to vote, and to dispose, or to direct the disposition of, the Vitruvian Shares has to be approved by a majority of the members of the investment committee of QEM, which majority must include S. Wil VanLoh, Jr. Therefore, VEX Holdings, VEX, Q-VEX, QEM and S. Wil VanLoh, Jr. may be deemed to share voting and dispositive power over the Vitruvian Shares and may also be deemed to be the beneficial owners of such securities.

- (3) Based solely on Schedule 13G/A filed with the SEC on February 12, 2019 by Vitruvian II Woodford, LLC, or Vitruvian. Vitruvian reported sole dispositive power and sole voting power of 13,704,357 shares of common stock.

- (4) Based solely on Schedule 13G/A filed with the SEC on February 11, 2019 by The Vanguard Group, or Vanguard, Vanguard reported sole voting power of 166,847 shares of common stock, sole dispositive power of 15,168,976 shares of common stock, shared dispositive power of 164,459 shares of common stock and shared voting power of 15,183 shares of common stock. Vanguard Fiduciary Trust Company and Vanguard Investments Australia, Ltd., both wholly owned subsidiaries of Vanguard, are the beneficial owners of 149,276 and 32,754 shares, respectively, of common stock.
- (5) Based solely on Schedule 13G filed with the SEC on February 8, 2019 by Dimensional Fund Advisors LP, or Dimensional. Dimensional reported sole dispositive power of 14,687,995 shares of common stock and sole voting power of 14,295,489 shares of common stock.
- (6) Based solely on Schedule 13G/A filed with the SEC on January 28, 2019 by BlackRock, Inc. BlackRock, Inc. reported sole voting power of 24,132,245 shares of common stock and sole dispositive power of 24,561,132 shares of common stock, owned through BlackRock Fund Advisors, a wholly owned subsidiary of BlackRock, Inc. iShares Core S&P Small-Cap ETF, or iShare, an entity managed indirectly by BlackRock, Inc., has the right to proceeds from the sale of such securities. Therefore, BlackRock, Inc., BlackRock Fund Advisors, and iShares may be deemed to be the beneficial owners of such securities.
- (7) Based solely on Schedule 13D/A filed with the SEC on January 17, 2019, by FVP Master Fund, L.P., or FVP Master, Firefly Value Partners, LP, or Firefly Value, FVP GP, LLC, or FVP GP, Firefly Management Company GP, LLC, or Firefly Management, Ryan Heslop, and Ariel Warsazawski. Each reporting person reported sole dispositive power and sole voting power of 14,077,000 shares of common stock, or the Firefly Shares. The holdings reported represent the shares of common stock held by FVP Master. Firefly Value is the investment manager of FVP Master. FVP GP is the general partner of, and therefore has the right to control, FVP Master. Firefly Management is the general partner of, and therefore has the right to control, Firefly Value. Mr. Heslop and Mr. Warsazawski are each managing members of FVP GP and Firefly Management, and therefore have the ability to control each such entity. Therefore, FVP Master, Firefly Value, FVP GP, Firefly Management, Ryan Heslop, and Ariel Warsazawski may be deemed to share voting and dispositive power over the Firefly Shares and may also be deemed to be the beneficial owners of such securities.

- (1) Beneficial ownership is determined in accordance with SEC rules. In computing percentage ownership of each person, shares of common stock subject to options held by that person that are exercisable as of April 1, 2019, or exercisable within 60 days of April 1, 2019, are deemed to be beneficially owned. These shares, however, are not deemed outstanding for the purpose of computing the percentage ownership of each other person. The percentage of shares beneficially owned is based on 161,144,143 shares of common stock outstanding as of April 1, 2019, including 1,946,741 shares of restricted stock awarded under our 2013 Restated Stock Incentive Plan but not yet vested. Unless otherwise indicated, all amounts exclude shares issuable upon the exercise of outstanding options and vesting of restricted stock units that are not exercisable and/or vested as of April 1, 2019 or within 60 days of April 1, 2019. Except as otherwise noted, each stockholder has sole voting and investment power with respect to the shares beneficially owned.
- (2) Excludes (i) 121,951 restricted stock units that were granted as an inducement award to accept employment with us as our Chief Executive Officer, (ii) 228,659 time-vesting restrictive stock units representing 50% of Mr. Wood's annual equity award for 2019, all of which will vest in three approximately equal annual installments beginning on February 26, 2020 and (iii) 228,659 performance-based restricted stock units representing the remaining 50% of Mr. Wood's annual equity award for 2019, vesting of which depends on the attainment of certain RTSR targets over the three-year performance period, subject to the Compensation Committee's certification of the attainment of such targets and continuous service with the Company on the last day of the performance period.
- (3) Includes 11,201 restricted stock units, which will vest on the earlier of May 31, 2019 and the date of the 2019 Annual Meeting of Stockholders, in each case if such director is in continuous service on such date.
- (4) Mr. Johnson holds 3,500 of these shares in a joint account owned by Mr. Johnson and his spouse, resulting in shared voting and dispositive power of such shares.
- (5) Mr. Westerman shares voting and dispositive power of 50,976 shares with his spouse.
- (6) Excludes 91,429 unvested restricted stock units, which will vest in two equal annual installments beginning on February 27, 2020.
- (7) Excludes (i) 4,000 unvested restricted stock units, which vest in two equal annual installments beginning on August 15, 2019 and (ii) 18,333 unvested restricted stock units, which vest August 27, 2019. Also excludes 77,200 unvested restricted stock units, which will vest in two equal annual installments beginning on April 18, 2020.
- (8) Excludes (i) 10,667 unvested restricted stock units, which will vest on August 27, 2019 and (ii) 49,097 unvested restricted stock units, which will vest in two equal annual installments beginning on April 18, 2020.
- (9) Of these shares, 111 are held by the S. Maier Revocable Trust, of which Mr. Maier is the trustee.
- (10) Excludes (i) 4,000 unvested restricted stock units, which vest in two equal annual installments beginning on August 15, 2019, (ii) 11,667 unvested restricted stock units, which vest August 27, 2019 and (iii) 49,097 unvested restricted stock units, which will vest in two equal annual installments beginning on April 18, 2020,
- (11) Michael G. Moore stepped down from his position as our Chief Executive Officer and President and as a member of our board of directors effective October 29, 2018. All of his unvested restricted stock or restricted stock units were forfeited as of that date.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons who beneficially own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the SEC and to furnish us with copies of the forms they file. To our knowledge, based solely on a review of the copies of such reports furnished to us and written representations of our officers and directors, all Section 16(a) reports for the year ended December 31, 2018 applicable to our officers and directors and such other

persons were filed on a timely basis.

Certain Relationships and Related Transactions Review and Approval of Related Party Transactions

The audit committee, as provided in its charter, reviews and approves related party transactions. The Company does not have a formal set of standards to be substantively applied to each transaction reviewed by the audit committee. Instead of a formalized policy, related party transactions are reviewed and judgment is applied to determine whether such transactions are in the best interests of the Company. Further, the Company's Code of Business Conduct and Ethics governs various compliance areas, including conflicts of interest and fair dealings, which are considered in the process of the review and approval of related party transactions.

The Company's policy is that all of its employees and directors, as well as their family members, must avoid any activity that is or has the appearance of conflicting with the Company's business interest. This policy is included in the Company's Code of Business Conduct and Ethics posted on its website. Each director and executive officer is instructed to always inform the designated compliance officer when confronted with any situation that may be perceived as a conflict of interest. Only the board of directors or a committee consisting solely of independent directors may grant waivers of the provisions of the Code of Business Conduct and Ethics for the Company's executive officers and directors. In addition, at least annually, each director and executive officer completes a detailed questionnaire specifying any business relationship that may give rise to a conflict of interest.

Further, under the audit committee charter, the audit committee is responsible for reviewing and monitoring compliance with our Code of Business Conduct and Ethics and recommending any warranted changes to the board of directors. In addition, the board of directors and, pursuant to its written charter, the audit committee, reviews and approves all relationships and transactions in which the Company and its directors, director nominees and executive officers and their immediate family members, as well as holders of more than 5% of any class of our voting securities and their family members, have a direct or indirect material interest. The board of directors and the audit committee approve only those transactions that, in light of known circumstances, are consistent, or are not inconsistent with, the Company's best interests, as they determine in the good faith exercise of their discretion.

Separation Agreement with Our Former Chief Executive Officer and President and Other Related Party Transaction

Michael G. Moore stepped down from his position as our Chief Executive Officer and President, and as a member of our board of directors, effective as of October 29, 2018. In connection with Mr. M. Moore's departure, we entered into a separation agreement with Mr. M. Moore. For a description of Mr. M. Moore's severance and other provisions of his separation agreement with us, see [Severance Agreement with our Former Chief Executive Officer and President](#) above.

AMM Design, Inc., or AMM, provided landscape and related services to the third party building manager for our offices in Oklahoma City in 2018. We paid the building manager approximately \$149,000 in respect of these services. AMM is owned by the son of Michael G. Moore, our former Chief Executive Officer and President.

Proposal to Approve the 2019 Amended and Restated Stock Incentive Plan

(Proposal 2 on the Proxy Card)

After careful consideration, on April 29, 2019, the Compensation Committee, acting upon authority delegated to it by our board of directors, unanimously adopted, subject to stockholder approval, our 2019 Amended and Restated Stock Incentive Plan, amending and restating our 2013 Restated Stock Incentive Plan, which we refer to as the Stock Incentive Plan or the Plan. If approved by our stockholders, the amendment and restatement of the Plan will do the

following:

Change the name of the Plan.

Increase the share reserve under the Plan by an additional 5,000,000 shares.

67

Table of Contents

Limit the total annual amount of all compensation to our non-employee directors to \$750,000.

Eliminate the recycling of shares underlying awards that are settled in cash instead of shares.

Update the Plan to reflect recent changes to the Internal Revenue Code.

Extend the expiration date of the Plan from April 18, 2023, to April 28, 2029.

Rationale for Approval

The Stock Incentive Plan authorizes the grant of various forms of stock-based compensation, referred to as equity awards. The Board believes that stock-based compensation is a very important factor in attracting and retaining experienced and talented employees who can contribute significantly to the management, growth and profitability of our business. Additionally, the Board believes that stock-based compensation aligns the interests of our management with the interests of our stockholders. The availability of equity awards not only increases employees' focus on the creation of stockholder value, but also enhances employee retention and generally provides increased motivation for our employees to contribute to the future success of the Company.

The Stock Incentive Plan is the only plan pursuant to which we can grant equity awards, and the limited number of shares remaining available under the Plan restricts our ability to grant equity awards. As of March 31, 2019, approximately 1,423,990 shares remained available for future awards under the Plan. Our average annual shares issued for the past three years is approximately 969,333 (based on the average award shares granted) or 784,929 (based in the average award shares granted net of forfeitures). The amendment and restatement of the Plan will add 5,000,000 shares to the Plan's share reserve, by increasing the maximum number of shares available for issuance from 7,500,000 shares to 12,500,000 shares. Based upon current price and the structure of our long-term incentive program for 2019, we anticipate that the requested reserve will provide between three and five years of grants.

The amendment to the Plan to provide that awards settled in cash instead of shares are counted against the maximum share reserve in the same manner as if they were settled in shares of common stock reflects current market practices in compensation.

Approval of the 2019 Amended and Restated Stock Incentive Plan is intended to enable us to obtain and retain the services of the types of employees, consultants and directors who will contribute to our long range success and to provide incentives linked directly to increases in share value, which will inure to the benefit of all of our stockholders. The key terms of the Plan are substantially similar to our 2013 Restated Stock Incentive Plan, which was approved by our stockholders in 2013.

Potential Dilution. At March 31, 2019, approximately 1,423,990 shares remained available for issuance under the Stock Incentive Plan. The amendment and restatement of the Plan provides that the total number of shares of common stock available for issuance under the Plan will include (a) the 5,000,000 newly authorized shares of common stock plus (b) the 1,423,990 shares available for future issuance under the Plan at March 31, 2019, which would represent approximately 4% percent of our 159,421,965 shares of common stock outstanding as of March 31, 2019.

Burn Rate. The burn rate measures the potential dilutive effect of our annual equity awards. The annual burn rate expresses the amount of stock awards a company grants annually relative to its shares of common stock outstanding, by dividing the number of shares granted during the applicable fiscal year by the weighted average number of shares

outstanding for that year.

Table of Contents

The following table provides information on the annual burn rate and the three-year average burn rate for the past three fiscal years:

Summary of the Plan as Amended and Restated

The following is a summary of the material terms of the Stock Incentive Plan as amended and restated. This summary is qualified in its entirety by reference to the Plan as amended. A copy of the 2019 Amended and Restated Stock Incentive Plan is attached as Appendix A to this proxy statement.

Effective Date and Duration. If the stockholders approve the amendment and restatement of the Plan, it will become effective on the date of the Annual Meeting and remain in effect until April 28, 2029, unless otherwise terminated earlier by the board of directors or the Compensation Committee. No awards may be granted under the Plan after its termination date, but awards granted before the Plan's termination will continue to be effective in accordance with their respective terms and conditions.

Administration. The Stock Incentive Plan is administered by the Compensation Committee of our board of directors, or the committee. Among other responsibilities, the committee selects individuals to receive awards, establishes the terms of awards, and administers and takes whatever action it determines to be necessary or advisable in administering the Plan. The committee may amend, suspend or terminate the Plan at any time. Amendments will not be effective without stockholder approval if stockholder approval is required by applicable law or stock exchange requirements.

Eligibility. The committee may grant awards under the Stock Incentive Plan to employees, consultants and directors of the Company and its related companies. Incentive stock options may be granted only to employees. Awards other than incentive stock options may be granted to employees, consultants and directors.

Share Reserve. Subject to adjustments for certain changes in corporate capitalization, the maximum number of shares of common stock authorized for issuance under awards granted under the Stock Incentive Plan (the share reserve) is 12,500,000 shares. All such shares are available for incentive stock options or any other awards. Shares covered by awards that expire or otherwise terminate without having been exercised in full or that are forfeited or repurchased by us will again be available for future awards under the Plan. However, awards settled in cash instead of shares are counted against the maximum share reserve in the same manner as if they were settled in shares of common stock. Shares tendered or withheld to pay the exercise price or tax obligations pursuant to any award, or that are otherwise not issued in connection with the exercise of an option or a stock appreciation right, are not available for future awards.

under the Plan.

Limitations on Awards. No participant may receive awards under the Stock Incentive Plan covering more than 1,000,000 shares in the aggregate during any calendar year. In addition, each non-employee director's total annual compensation, including awards under the Plan and cash paid under the Plan or otherwise, is limited to \$750,000.

Table of Contents***Types of Awards under the Stock Incentive Plan***

Stock Options. The committee may grant incentive stock options intended to comply with Section 422 of the Code or nonstatutory stock options that are not intended to qualify as incentive stock options. Employees, directors and consultants may be granted nonstatutory stock options, but only employees may be granted incentive stock options. The committee determines the exercise price of a stock option, which generally cannot be less than 100% (or 110% in the case of an incentive stock option granted to a more than 10% stockholder) of the fair market value of our common stock on the date of grant, except when assuming or substituting options in limited situations such as an acquisition. Generally, options granted under the Plan will vest ratably over a five-year period and have a term of ten years (or five years in the case of an incentive stock option granted to a more than 10% stockholder), unless otherwise specified by the committee in the option agreement. The committee determines the methods and form of payment for the exercise price per share on exercise of a stock option. Stock options generally are not transferable except by will or the laws of descent and distribution, unless the committee provides otherwise with respect to a nonstatutory stock option (and solely with respect to transfers to certain family members and estate planning vehicles).

Restricted Awards. Restricted awards may be in the form of restricted stock awards or restricted stock units. A restricted stock award consists of shares of our common stock that generally are non-transferable and subject to forfeiture or other restrictions imposed by the committee. Any certificates representing shares of restricted stock that are registered in a participant's name will bear an appropriate legend referring to the applicable terms, conditions and restrictions, and may be retained in the Company's possession until all applicable restrictions have lapsed. A restricted stock unit award represents the right to receive a specified number of shares of our common stock, or a cash payment equal to the fair market value of a specified number of shares of our common stock as of a specified date, subject to any vesting or other restrictions deemed appropriate by the committee. Restrictions on restricted awards may lapse separately or in combination, at such times, in such circumstances, in installments or otherwise as determined by the committee. If a participant terminates employment or services during the restricted period, then any unvested restricted award will be forfeited except as otherwise provided in the award agreement. The committee may waive any restrictions or forfeiture conditions relating to a restricted award. Restricted stock units will be settled at the time designated by the committee in the award agreement, in the form of cash or shares of common stock, or in a combination of both, as provided by the committee in the award agreement.

Performance Awards. Performance awards entitle the recipient to vest in or acquire shares of common stock or in the right to receive a specified number of shares of common stock, a cash payment equal to the fair market value of a specified number of shares as of a specified date, or a combination of shares and cash, upon the attainment of specified performance goals. Performance awards may be granted independent of or in connection with the granting of any other award under the Plan.

Performance goals are established by the committee based on one or more of the following business criteria that apply to the participant, a business unit, or us and our affiliates:

revenue;

sales;

earnings before all or any of interest expense, taxes, depreciation and/or amortization (EBIT, EBITA, or EBITDA);

funds from operations;

funds from operations per share;

operating income;

operating income per share;

pre-tax or after-tax income;

net cash provided by operating activities;

cash available for distribution;

cash available for distribution per share;

working capital and components thereof;

sales (net or gross) measured by product line, territory, customer or customers, or other category;

return on equity or average stockholders' equity, including total stockholder return on equity based on the net stock price change over a given period plus the dividends paid during that period;

return on assets;

return on capital;

enterprise value or economic value added;

share price performance;

improvements in the Company's attainment of expense levels;

implementation or completion of critical projects;

improvement in cash-flow (before or after tax);

net earnings;

earnings per share;

earnings from continuing operations;

net worth;

credit rating;

levels of expense, cost, or liability by category, operating unit, or any other delineation;

any increase or decrease of one or more of the foregoing over a specified period; or

the occurrence of a Change in Control.

Performance goals will be objective and determined before 25% of the service period has elapsed, and in any event not later than 90 days after the beginning of the service period. No payout will be made on a performance award granted to a named executive officer unless all applicable performance goals and service requirements are achieved. Performance awards are non-transferable and generally terminate on a participant's termination of service during the service period.

Stock Appreciation Rights. Stock appreciation rights may be granted independent of or in tandem with any option under the Plan. The strike price of a stock appreciation right is determined by the committee, but as a general rule will not be less than the fair market value of our common stock on the date of grant. The strike price of a stock appreciation right granted in tandem with an option is the same as the exercise price of the option. A stock appreciation right generally entitles the holder to receive, on exercise, the excess of the fair market value of a share of our common stock on the date of exercise over the strike price, multiplied by the number of shares for which the right is exercised. Payment may be made in cash, delivery of stock or a combination of cash and stock as determined by the committee.

Other Provisions of the Stock Incentive Plan

Capitalization Adjustments. In the event of certain corporate events or changes in our common stock, the committee will proportionally adjust awards, the number and class of shares available under the Plan and the maximum number of shares that may be granted under awards to any participant in a calendar year as it determines to be appropriate.

Change in Control and other Corporate Transactions. In the event of a change in control transaction or other corporate transaction such as a dissolution or liquidation of our Company, or any corporate separation or division, all outstanding awards under the Plan may be assumed, continued or substituted for by any surviving or acquiring entity (or its parent company), or may be cancelled either with or without consideration for the vested portion of the awards, all as determined by the committee. If an award would be cancelled without payment of consideration to the extent vested, the participant may exercise the award in full or in part for a period of ten days.

Tax Withholding. We may deduct or withhold, or require a participant to remit, an amount sufficient to satisfy any taxes required by law or regulation to be withheld with respect to any award under the Plan. This includes the authority to withhold or receive shares of common stock and to make cash payments or require a participants to make cash payments in satisfaction of participant tax obligations.

Clawback or Recoupment. Awards granted under the Plan are subject to the Company's clawback policy, which allows us to recover incentive compensation based on misconduct or, in certain circumstances, if our financial results are restated.

U.S. Federal Tax Consequences of Awards under the 2019 Amended and Restated Equity Incentive Plan

The following is a brief summary of certain federal income tax consequences relating to awards granted under the Stock Incentive Plan. This summary does not purport to address all aspects of federal income taxation and does not describe state, local, or foreign tax consequences. This discussion is based upon provisions of the Code and the treasury regulations issued thereunder, and judicial and administrative interpretations under the Code and regulations, all as in effect as of the date hereof, and all of which are subject to change (possibly on a retroactive basis) or different interpretation.

Stock Options. Stock options may be intended to qualify as incentive stock options under Code Section 422 or may be nonstatutory stock options governed by Code Section 83. A participant generally will not recognize any taxable income, and we will not be entitled to a tax deduction, on the grant of an option. On exercise of a nonstatutory stock option a participant generally will recognize ordinary taxable income equal to the excess of the fair market value of the acquired common stock on the exercise date over the exercise price paid for those shares. Subject to satisfying applicable reporting requirements and any deduction limitations under the Code (discussed below), we should be entitled to a corresponding income tax deduction. A participant generally will not recognize taxable income on exercise of an incentive stock option and we will not be entitled to a deduction. However, the excess of the fair market value of the acquired common stock on the exercise date over the exercise price for those shares could result in alternative minimum tax liability for the participant. A participant's disposition of shares acquired on exercise of any option will ordinarily result in capital gain or loss. However, a disposition of shares acquired on exercise of an incentive stock option less than two years after the grant date or one year after the exercise date (referred to as a disqualifying disposition) generally will result in ordinary taxable income equal to the excess of the fair market value of the acquired common stock on the exercise date and the exercise price for those shares, with any excess of the amount received by the participant over the fair market value of the stock on the exercise date being treated as capital gain. We may be entitled to a deduction corresponding to the participant's ordinary taxable income in the case of such a disqualifying disposition.

Restricted Stock and Performance Stock. A participant who receives a restricted stock award, including performance stock generally will recognize ordinary income only when the shares are no longer subject to forfeiture or restrictions, generally equal to the fair market value of the shares of restricted stock at the time of vesting. However, a participant may make an election under Code section 83(b) at the time of grant to recognize ordinary income on the grant date equal to the fair market value of such shares (determined without regard to the restrictions on such shares) on the grant

date. If a participant does not make a Section 83(b) election, the participant will recognize as ordinary income any dividends received with respect to shares of restricted stock. Subject to satisfying applicable income reporting requirements and any applicable deduction limitation under the

Table of Contents

Code, we should be entitled to a corresponding income tax deduction at the same time as the participant recognizes ordinary income. When the participant sells the shares, any gain (or loss) realized by the participant will be treated as either short-term or long-term capital gain (or loss) depending on the holding period. For purposes of determining any gain or loss realized, the participant's tax basis will be the amount previously taxable as ordinary income for such shares.

Restricted Stock Units and Performance Units. The grant of a restricted stock unit award, including performance units, will not result in taxable income to the participant. The participant generally will recognize ordinary income when the award is settled in an amount equal to the fair market value of the shares or the amount of any cash received on the date of settlement. Subject to satisfying applicable income reporting requirements and any deduction limitations under the Code, we should be entitled to a corresponding income tax deduction. The participant's disposition of any shares received on settlement of a restricted stock unit will result in capital gain (or loss) on the difference between the disposition price and the amount recognized as income at settlement, and will be long-term or short-term depending on the holding period.

Stock Appreciation Rights. The grant or vesting of a stock appreciation right generally will not result in taxable income to a participant. The participant will recognize ordinary taxable income on exercise of the right equal to the amount of cash received or the fair market value of shares received. Subject to satisfying applicable income reporting requirements and any deduction limitations under the Code, we should be entitled to a corresponding income tax deduction. The participant's disposition of any shares received on exercise of a stock appreciation right will result in capital gain (or loss) on the difference between the disposition price and the amount recognized as income at exercise, and will be long-term or short-term depending on the holding period.

Million Dollar Deduction Limit and Other Tax Matters.

Section 162(m) of the Code generally prohibits us from deducting annual compensation exceeding \$1 million per person to our Chief Executive Officer and other covered employees as defined in Section 162(m). Prior to 2018, an exception to this deduction limitation was available for compensation qualifying as performance-based compensation, which required compliance with certain requirements under Section 162(m) of the Code and the applicable regulations. The Stock Incentive Plan was designed, and prior to 2018 the Company generally granted awards under the Plan, to satisfy these requirements for qualified performance-based compensation and thereby be fully deductible by the Company. As a result of tax legislation enacted at the end of 2017, the exception for performance-based compensation is no longer available for taxable years beginning after December 31, 2017, unless such compensation qualifies for transition relief for written binding contracts that were in effect as of November 2, 2017. Accordingly, compensation paid to a covered employee under awards granted under the Plan after November 2, 2017, will count towards the \$1 million deduction limit, and may thereby be partially or fully nondeductible.

Section 409A of the Code imposes complex rules on nonqualified deferred compensation arrangements. Generally, Code section 409A should not apply to awards under the Stock Incentive Plan, but may apply in some cases to restricted stock units and performance units. For such awards subject to Code section 409A, certain key employees of the Company may experience a six-month delay in the settlement of such awards.

Under certain circumstances, the granting or enhancement of awards, the accelerated vesting or exercise of stock options or the accelerated lapse of restrictions with respect to other awards in connection with a change in control (as defined in the Stock Incentive Plan) could be deemed an excess parachute payment under the golden parachute tax provisions of Code section 280G. To the extent this happens, the participant could be subject to a 20% excise tax and the Company could be denied a federal income tax deduction.

New Plan Benefits

Because future awards under the Stock Incentive Plan will be granted in amounts and to persons in the sole discretion of the committee, the type, number, recipients and other terms of such awards cannot be determined at this time. Therefore, we have omitted the tabular disclosure of the benefits or amounts allocated under the Stock Incentive Plan.

Board Voting Recommendation

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE APPROVAL OF THE 2019 AMENDED AND RESTATED EQUITY INCENTIVE PLAN.

Proposal to Approve, on an Advisory Basis, the Compensation Paid to the Company's Named Executive Officers

(Proposal 3 on the Proxy Card)

In accordance with Section 14A of the Exchange Act, our board of directors is providing our stockholders with a non-binding advisory vote on the compensation paid to the Company's named executive officers as reported in this proxy statement, or say on pay vote. The Company's stockholders are being asked to vote on the following resolution:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby approved.

This vote is advisory, which means that the vote on executive compensation is not binding on the Company, our board of directors or the Compensation Committee. While the vote on executive compensation is solely advisory in nature, our board of directors and the Compensation Committee will review and consider the say on pay voting results when making future decisions regarding our executive compensation program.

Stockholders are encouraged to carefully review the Compensation Discussion and Analysis section of this proxy statement, which discusses in detail the Company's compensation policy and compensation arrangements which the Company believes are appropriate and reasonably consistent with market practice and with the long-term interests of the Company and its stockholders. In furtherance of the Company's goals and objectives, the Compensation Committee, among other things, emphasizes long-term equity awards and annual performance bonuses under the previously implemented Annual Incentive Plan to more closely align our executives' interests with those of our stockholders and to link a larger portion of our executives' compensation to the performance of our stock and our operational performance.

For 2019, the Compensation Committee also introduced performance-based equity awards in the form of performance-based restricted stock units tied to RTSR, vesting over a three-year performance period, comprising 50% of all equity awards granted in 2019 and adjusted annual performance bonuses targets and long-term equity awards to more closely align our executives' financial interests with those of our stockholders and to continue to link a larger portion of such executives' compensation to the performance of our stock and our operational performance. Our board of directors also adopted formal stock ownership and retention guidelines to ensure our board of directors and other executive officers own a stake in the company that is sufficient to align their interests with their fellow stockholders.

Further, since 2014, the Compensation Committee eliminated, and since that time has not used and does not intend to use, minimum discretionary cash bonus arrangements for our Chief Executive Officer and Chief Financial Officer in

recognition of the Company's focus on the use of performance-based bonuses. Further, beginning in 2017, in keeping with our enhanced focus on performance-based compensation, the Compensation

Table of Contents

Committee also eliminated discretionary bonuses for our other named executive officers, tying their bonuses for 2017 and 2018 to certain pre-established Company performance metrics under the Annual Incentive Plan, as described in more detail under the Compensation Discussion and Analysis, except in certain exceptional and limited circumstances under which, in February 2019, the Compensation Committee authorized the discretionary bonuses to our Chief Operating Officer and our Senior Vice President of Corporate Development and Strategy in the amounts of \$150,000 and \$50,000, respectively, in recognition of their additional services during the transition period from the time of the departure of our former Chief Executive Officer and President in October 2018 to the time of the appointment of Mr. Wood as our Chief Executive Officer and President in December 2018, including, in the case of our Chief Operating Officer for his services as our Interim Chief Executive Officer.

We believe that linking a large portion of our executive officers' compensation to both performance-based long-term equity incentive awards and performance-based bonus arrangements, with meaningful performance metrics, appropriately aligns our executives' interests with those of our stockholders and are consistent with market practices. We also believe that our current compensation policies and practices enhance retention of executive talent through multi-year vesting of stock awards and discourage unnecessary and excessive risk taking. We further believe that our other compensation policies and practices, such as our policy generally prohibiting pledging and hedging of our stock by our executive officers and directors, as well as the lack of significant prerequisites and absence of pension or supplemental retirement benefits (aside from those afforded under our broad-based 401(k) plan) for our executive officers are consistent with prudent compensation philosophy and the interests of our stockholders. We will continue to consider the outcome of our stockholders' future say-on-pay votes when making compensation decisions for our named executive officers.

We have determined that our stockholders should cast an advisory vote on the compensation of our named executive officers on an annual basis. Unless this policy changes, the next advisory vote on the compensation of our named executive officers will be at the 2019 annual meeting of stockholders.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE FOR THIS PROPOSAL 3.
