EXPLANATORY NOTE

This report combines the reports on Form 10-Q for the quarterly period ended September 30, 2018 of American Campus Communities, Inc. and American Campus Communities Operating Partnership, L.P. Unless stated otherwise or the context otherwise requires, references to “ACC” mean American Campus Communities, Inc., a Maryland corporation that has elected to be treated as a real estate investment trust (“REIT”) under the Internal Revenue Code, and references to “ACCOP” mean American Campus Communities Operating Partnership, L.P., a Maryland limited partnership. References to the “Company,” “we,” “us” or “our” mean collectively ACC, ACCOP and those entities/subsidiaries owned or controlled by ACC and/or ACCOP. References to the “Operating Partnership” mean collectively ACCOP and those entities/subsidiaries owned or controlled by ACCOP. The following chart illustrates the Company’s and the Operating Partnership’s corporate structure:

The general partner of ACCOP is American Campus Communities Holdings, LLC (“ACC Holdings”), an entity that is wholly-owned by ACC. As of September 30, 2018, ACC Holdings held an ownership interest in ACCOP of less than 1%. The limited partners of ACCOP are ACC and other limited partners consisting of current and former members of management and nonaffiliated third parties. As of September 30, 2018, ACC owned an approximate 99.5% limited partnership interest in ACCOP. As the sole member of the general partner of ACCOP, ACC has exclusive control of ACCOP’s day-to-day management. Management operates the Company and the Operating Partnership as one business. The management of ACC consists of the same members as the management of ACCOP. The Company is structured as an umbrella partnership REIT (“UPREIT”) and ACC contributes all net proceeds from its various equity offerings to the Operating Partnership. In return for those contributions, ACC receives a number of units of the Operating Partnership (“OP Units,” see definition below) equal to the number of common shares it has issued in the equity offering. Contributions of properties to the Company can be structured as tax-deferred transactions through the issuance of OP Units in the Operating Partnership. Based on the terms of ACCOP’s partnership agreement, OP Units can be exchanged for ACC’s common shares on a one-for-one basis. The Company maintains a one-for-one relationship between the OP Units of the Operating Partnership issued to ACC and ACC Holdings and the common shares issued to the public. The Company believes that combining the reports on Form 10-Q of ACC and ACCOP into this single report provides the following benefits:

- (1) enhances investors’ understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
 - (2) eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both the Company and the Operating Partnership; and
 - (3) creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.
-

ACC consolidates ACCOP for financial reporting purposes, and ACC essentially has no assets or liabilities other than its investment in ACCOP. Therefore, the assets and liabilities of the Company and the Operating Partnership are the same on their respective financial statements. However, the Company believes it is important to understand the few differences between the Company and the Operating Partnership in the context of how the entities operate as a consolidated company. All of the Company's property ownership, development and related business operations are conducted through the Operating Partnership. ACC also issues public equity from time to time and guarantees certain debt of ACCOP, as disclosed in this report. ACC does not have any indebtedness, as all debt is incurred by the Operating Partnership. The Operating Partnership holds substantially all of the assets of the Company, including the Company's ownership interests in its joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from ACC's equity offerings, which are contributed to the capital of ACCOP in exchange for OP Units on a one-for-one common share per OP Unit basis, the Operating Partnership generates all remaining capital required by the Company's business. These sources include, but are not limited to, the Operating Partnership's working capital, net cash provided by operating activities, borrowings under its credit facility, the issuance of unsecured notes, and proceeds received from the disposition of certain properties. Noncontrolling interests, stockholders' equity, and partners' capital are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The noncontrolling interests in the Operating Partnership's financial statements consist of the interests of unaffiliated partners in various consolidated joint ventures. The noncontrolling interests in the Company's financial statements include the same noncontrolling interests at the Operating Partnership level and OP Unit holders of the Operating Partnership. The differences between stockholders' equity and partners' capital result from differences in the equity issued at the Company and Operating Partnership levels.

To help investors understand the significant differences between the Company and the Operating Partnership, this report provides separate consolidated financial statements for the Company and the Operating Partnership. A single set of consolidated notes to such financial statements is presented that includes separate discussions for the Company and the Operating Partnership when applicable (for example, noncontrolling interests, stockholders' equity or partners' capital, earnings per share or unit, etc.). A combined Management's Discussion and Analysis of Financial Condition and Results of Operations section is also included that presents discrete information related to each entity, as applicable. This report also includes separate Part I, Item 4 Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of the Company and the Operating Partnership in order to establish that the requisite certifications have been made and that the Company and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18 U.S.C. §1350.

In order to highlight the differences between the Company and the Operating Partnership, the separate sections in this report for the Company and the Operating Partnership specifically refer to the Company and the Operating Partnership. In the sections that combine disclosure of the Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and joint ventures and holds assets and debt, reference to the Company is appropriate because the Company operates its business through the Operating Partnership. The separate discussions of the Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

1. Organization and Description of Business

American Campus Communities, Inc. (“ACC”) is a real estate investment trust (“REIT”) that commenced operations effective with the completion of an initial public offering (“IPO”) on August 17, 2004. Through ACC’s controlling interest in American Campus Communities Operating Partnership, L.P. (“ACCOP”), ACC is one of the largest owners, managers and developers of high quality student housing properties in the United States in terms of beds owned and under management. ACC is a fully integrated, self-managed and self-administered equity REIT with expertise in the acquisition, design, financing, development, construction management, leasing and management of student housing properties. ACC’s common stock is publicly traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “ACC.”

The general partner of ACCOP is American Campus Communities Holdings, LLC (“ACC Holdings”), an entity that is wholly-owned by ACC. As of September 30, 2018, ACC Holdings held an ownership interest in ACCOP of less than 1%. The limited partners of ACCOP are ACC and other limited partners consisting of current and former members of management and nonaffiliated third parties. As of September 30, 2018, ACC owned an approximate 99.5% limited partnership interest in ACCOP. As the sole member of the general partner of ACCOP, ACC has exclusive control of ACCOP’s day-to-day management. Management operates ACC and ACCOP as one business. The management of ACC consists of the same members as the management of ACCOP. ACC consolidates ACCOP for financial reporting purposes, and ACC does not have significant assets other than its investment in ACCOP. Therefore, the assets and liabilities of ACC and ACCOP are the same on their respective financial statements. References to the “Company” means collectively ACC, ACCOP and those entities/subsidiaries owned or controlled by ACC and/or ACCOP. References to the “Operating Partnership” mean collectively ACCOP and those entities/subsidiaries owned or controlled by ACCOP. Unless otherwise indicated, the accompanying Notes to the Consolidated Financial Statements apply to both the Company and the Operating Partnership.

As of September 30, 2018, the Company’s property portfolio contained 168 properties with approximately 103,500 beds. The Company’s property portfolio consisted of 131 owned off-campus student housing properties that are in close proximity to colleges and universities, 32 American Campus Equity (“ACE®”) properties operated under ground/facility leases with 15 university systems and five on-campus participating properties operated under ground/facility leases with the related university systems. Of the 168 properties, five were under development as of September 30, 2018, and when completed will consist of a total of approximately 3,200 beds. The Company’s communities contain modern housing units and are supported by a resident assistant system and other student-oriented programming, with many offering resort-style amenities.

Through one of ACC’s taxable REIT subsidiaries (“TRSs”), the Company also provides construction management and development services, primarily for student housing properties owned by colleges and universities, charitable foundations, and others. As of September 30, 2018, also through one of ACC’s TRSs, the Company provided third-party management and leasing services for 34 properties that represented approximately 28,400 beds. Third-party management and leasing services are typically provided pursuant to management contracts that have initial terms that range from one to five years. As of September 30, 2018, the Company’s total owned and third-party managed portfolio included 202 properties with approximately 131,900 beds.

2. Summary of Significant Accounting Policies

Basis of Presentation and use of Estimates

The accompanying consolidated financial statements, presented in U.S. dollars, are prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as of the date of the financial statements, and revenue and expenses during the reporting periods. The Company’s actual results could differ from those estimates and assumptions. All material intercompany transactions among consolidated entities have been eliminated. All dollar amounts in the tables herein, except share, per share, unit and per unit amounts, are stated in thousands unless otherwise indicated.

Principles of Consolidation

The Company's consolidated financial statements include its accounts and the accounts of other subsidiaries and joint ventures (including partnerships and limited liability companies) over which it has control. Investments acquired or created are evaluated based on the accounting guidance relating to variable interest entities ("VIEs"), which requires the consolidation of VIEs in which the Company is considered to be the primary beneficiary. If the investment is determined not to be a VIE, then the investment is evaluated for consolidation using the voting interest model.

Recently Issued Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2016-02 ("ASU 2016-02"), "Leases (Topic 842): Amendments to the FASB Accounting Standards Codification." ASU 2016-02 outlines principles for the recognition, measurement, presentation and disclosure of leases. Subsequent to the issuance of ASU 2016-02, the FASB issued additional ASUs clarifying aspects of the new lease accounting standard, which will be effective upon adoption of ASU 2016-02. The Company plans to adopt ASU 2016-02 as of January 1, 2019, utilizing the "modified retrospective" method. While the Company is still completing its evaluation of the effect that the new standard will have on its consolidated financial statements and related disclosures, the anticipated impact of ASU 2016-02 is as follows:

As Lessee:

Under the new standard, lessees will classify leases as either operating or finance leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized on a straight-line basis over the term of the lease (operating lease) or on an effective interest method (finance lease). In addition, ASU 2016-02 requires lessees to recognize right-of-use assets and related lease liabilities for leases with a term greater than 12 months regardless of their lease classification. As of September 30, 2018, the Company is a lessee under 24 ground leases and 2 corporate office headquarters leases for which it will recognize a right of use asset and lease liability upon adoption. We are currently determining the appropriate discount rate to utilize in our calculations of the right-of-use asset and lease liability, and, as such, we have not finalized our calculations as of September 30, 2018. Details of the future minimum lease payments for leases in existence as of December 31, 2017 are disclosed in Note 15 to the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

Because the Company's existing leases under which it is a lessee will continue to be classified as operating leases, the timing and pattern of lease expense recognition (straight-line basis) will remain unchanged. However, for any leases entered into or modified after the adoption date, the leases will need to be evaluated under the new standard and may be classified as finance leases depending on the terms of the transactions.

As Lessor:

Under the new standard, the accounting for lessors will remain largely unchanged from current GAAP; however, ASU 2016-02 requires that lessors expense, on an as-incurred basis, certain initial direct costs that are not incremental in negotiating a lease. Under existing standards, these costs are capitalizable and therefore the new lease standard will result in certain of these costs being expensed as incurred after adoption. For the Company, these costs include internal leasing payroll costs incurred for owned and presale development projects, as well as legal expenses incurred when negotiating commercial leases.

The new standard provides a practical expedient that allows lessors to not separate certain lease and non-lease components if certain criteria are met. For the Company's commercial leases under which the tenants pay for common area maintenance charges, the Company assessed the criteria and determined that the timing and pattern of transfer for common area maintenance and the related rental revenue is the same. Therefore, the Company plans to elect the practical expedient which will result in no change to how revenue from commercial leases is currently recorded.

The Company expects to adopt the following additional practical expedients available for implementation:

- An entity need not reassess whether any existing or expired contracts are or contain leases;
- An entity need not reassess lease classification for any existing or expired leases;
- An entity need not reassess initial direct costs for any existing leases; and
- Permitted use of hindsight in determining the lease term and in assessing impairment of right of use assets.

Recently Adopted Accounting Pronouncements

Accounting Standards Update 2016-18 ("ASU 2016-18"), "Statement of Cash Flows: Restricted Cash"

On January 1, 2018, the Company adopted ASU 2016-18. The amendments in this update require the change in restricted cash to be reported with cash and cash equivalents when reconciling between beginning and ending amounts in the statements of cash flows. The Company applied the amendments retrospectively to each period presented in the consolidated statements of cash flows of the Company.

Prior to the adoption of ASU 2016-18, the Company reported the change in restricted cash within operating, investing, and financing activities in its consolidated statement of cash flows. As a result of the Company's adoption of this standard and the retrospective application, cash and cash equivalents in the consolidated statements of cash flows as of September 30, 2017 increased by approximately \$25.8 million to reflect the inclusion of the restricted cash balance at the end of the period, net cash provided by operating activities for the nine months ended September 30, 2017 increased by approximately \$0.6 million, net cash used in investing activities decreased by approximately \$1.3 million, and net cash provided by financing activities decreased by approximately \$0.9 million.

Accounting Standards Update 2014-09 ("ASU 2014-09"), "Revenue From Contracts With Customers (Topic 606)"

On January 1, 2018, the Company adopted ASU 2014-09 and all related clarifying Accounting Standards Updates associated with ASU 2014-09. ASU 2014-09 provides a single comprehensive revenue recognition model for contracts with customers (excluding certain contracts, such as lease contracts) to improve comparability within industries. ASU 2014-09 requires an entity to recognize revenue to reflect the transfer of goods or services to customers at an amount the entity expects to be paid in exchange for those goods and services and provide enhanced disclosures, all to provide more comprehensive guidance for transactions such as service revenue and contract modifications.

The Company adopted the new revenue standard using the modified retrospective approach, and elected to apply the practical expedient to only assess the recognition of revenue for open contracts during the transition period. The effect

of adoption did not have a material impact on the Company's consolidated financial statements and there was no adjustment to the opening balance of retained earnings at January 1, 2018. The comparative information has not been restated and continues to be reported under the accounting standards in effect for that period.

Under the new standard there was a change in the way the Company determines the unit of account for its third-party development projects. Under the previous guidance, the Company segmented revenue recognition between the development and construction phases of its contracts, recognizing each using the proportional performance method and the percentage of completion method, respectively. Under the new guidance, the entire development and construction contract represents a single performance obligation comprised of a series of distinct services to be satisfied over time, and a single transaction price to be recognized over the life of the contract using a time-based measure of progress. Any variable consideration included in the transaction price is estimated using the expected value approach and is only included to the extent that a significant revenue reversal is not likely to occur. The adoption of ASU 2014-09 resulted in differences in the timing and pattern of revenue recognition for such third-party development

and construction management contracts; however, the change did not have a material impact on the Company's consolidated financial statements. Third-party management services revenues consist of base fees earned as a result of managing all aspects of the property's day-to-day operations, and incentive fees based on the managed property's operating measures. There was no change in the Company's recognition of base management fees. Incentive management fees were previously recognized when the incentive criteria had been met. Under the new guidance, incentive fees are estimated using the expected value approach and are included in the transaction price only to the extent that a significant revenue reversal is not likely to occur; however, the change did not have a material impact on the Company's consolidated financial statements. There was no change to the Company's revenue recognition methods for ancillary services and other non-lease related revenues as a result of the adoption of ASU 2014-09. Rental income from leasing arrangements is specifically excluded from ASU 2014-09, and is being evaluated as part of the adoption of the lease accounting standard, ASU 2016-02, discussed above.

Accounting Standards Update 2017-05 ("ASU 2017-05"), "Other Income-Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets"

On January 1, 2018, in conjunction with the adoption of ASU 2014-09, discussed above, the Company adopted ASU 2017-05. The purpose of this ASU is to eliminate the diversity in practice in accounting for derecognition of a nonfinancial asset and in-substance nonfinancial assets (only when the asset or asset group does not meet the definition of a business or the transaction is not a sale to a customer). The adoption of ASU 2017-05 did not have a material impact on the consolidated financial statements given the simplicity of the Company's historical disposition transactions.

Other

In addition, on January 1, 2018, the Company adopted the following accounting pronouncements which did not have a material effect on the Company's consolidated financial statements:

▲ASU 2017-09, "Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting"

▲ASU 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments."

Interim Financial Statements

The accompanying interim financial statements are unaudited, but have been prepared in accordance with GAAP for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements of the Company for these interim periods have been included. Because of the seasonal nature of the Company's operations, the results of operations and cash flows for any interim period are not necessarily indicative of results for other interim periods or for the full year. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

Investments in Real Estate

Investments in real estate are recorded at historical cost. Major improvements that extend the life of an asset are capitalized and depreciated over the remaining useful life of the asset. The cost of ordinary repairs and maintenance

are charged to expense when incurred. Depreciation and amortization are recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings and improvements	7-40 years
Leasehold interest - on-campus participating properties	25-34 years (shorter of useful life or respective lease term)
Furniture, fixtures and equipment	3-7 years

Project costs directly associated with the development and construction of an owned real estate project, which include interest, property taxes, and amortization of deferred financing costs, are capitalized as construction in progress. Upon completion of the project, costs are transferred into the applicable asset category and depreciation commences. Interest totaling approximately \$2.6 million and \$3.4 million was capitalized during the three months ended September 30, 2018 and 2017, respectively, and interest

totaling approximately \$9.6 million and \$13.5 million was capitalized during the nine months ended September 30, 2018 and 2017, respectively.

Management assesses whether there has been an impairment in the value of the Company's investments in real estate whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Impairment is recognized when estimated expected future undiscounted cash flows are less than the carrying value of the property, or when a property meets the criteria to be classified as held for sale, at which time an impairment charge is recognized for any excess of the carrying value of the property over the expected net proceeds from the disposal. The estimation of expected future net cash flows is inherently uncertain and relies on assumptions regarding current and future economics and market conditions. If such conditions change, then an adjustment to the carrying value of the Company's long-lived assets could occur in the future period in which the conditions change. To the extent that a property is impaired, the excess of the carrying amount of the property over its estimated fair value is charged to earnings. The Company believes that there were no impairments of the carrying values of its investments in real estate as of September 30, 2018.

The Company evaluates each acquisition to determine if the integrated set of assets and activities acquired meet the definition of a business. If either of the following criteria is met, the integrated set of assets and activities acquired would not qualify as a business:

- Substantially all of the fair value of the gross assets acquired is concentrated in either a single identifiable asset or a group of similar identifiable assets; or
- The integrated set of assets and activities is lacking, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs (i.e. revenue generated before and after the transaction).

Property acquisitions deemed to qualify as a business are accounted for as business combinations, and the related acquisition costs are expensed as incurred. The Company allocates the purchase price of properties acquired in business combinations to net tangible and identified intangible assets based on their fair values. Fair value estimates are based on information obtained from a number of sources, including independent appraisals that may be obtained in connection with the acquisition or financing of the respective property, the Company's own analysis of recently acquired and existing comparable properties in the Company's portfolio, and other market data. Information obtained about each property, as a result of due diligence, marketing, and leasing activities, is also considered. The value allocated to land is generally based on the actual purchase price if acquired separately, or market research/comparables if acquired as part of an existing operating property. The value allocated to building is based on the fair value determined on an "as-if vacant" basis, which is estimated using a replacement cost approach that relies upon assumptions that the Company believes are consistent with current market conditions for similar properties. The value allocated to furniture, fixtures, and equipment is based on an estimate of the fair value of the appliances and fixtures inside the units. The Company has determined these estimates are primarily based upon unobservable inputs and therefore are considered to be Level 3 inputs within the fair value hierarchy.

Acquisitions of properties that do not meet the definition of a business are accounted for as asset acquisitions. The accounting model for asset acquisitions is similar to the accounting model for business combinations except that the acquisition consideration (including transaction costs) is allocated to the individual assets acquired and liabilities assumed on a relative fair value basis. The relative fair values used to allocate the cost of an asset acquisition are determined using the same methodologies and assumptions as those utilized to determine fair value in a business combination.

Long-Lived Assets—Held for Sale

Long-lived assets to be disposed of are classified as held for sale in the period in which all of the following criteria are met:

a. Management, having the authority to approve the action, commits to a plan to sell the asset.

b. The asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets.

c. An active program to locate a buyer and other actions required to complete the plan to sell the asset have been initiated.

d. The sale of the asset is probable, and transfer of the asset is expected to qualify for recognition as a completed sale, within one year.

15

e. The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value.

f. Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Concurrent with this classification, the asset is recorded at the lower of cost or fair value less estimated selling costs, and depreciation ceases. The Company did not have any properties classified as held for sale as of September 30, 2018.

Restricted Cash

Restricted cash consists of funds held in trust and invested in low risk investments, generally consisting of government backed securities, as permitted by the indentures of trusts, which were established in connection with three bond issues for the Company's on-campus participating properties. Additionally, restricted cash includes escrow accounts held by lenders and resident security deposits, as required by law in certain states. Restricted cash also consists of escrow deposits made in connection with potential property acquisitions and development opportunities. These escrow deposits are invested in interest-bearing accounts at federally-insured banks. Realized and unrealized gains and losses are not material for the periods presented.

Consolidated VIEs

The Company has investments in various entities that qualify as VIEs for accounting purposes and for which the Company is the primary beneficiary and therefore includes the entities in its consolidated financial statements. These VIEs include the Operating Partnership, six joint ventures that own a total of 15 operating properties, two properties subject to presale arrangements, and five properties owned under the on-campus participating property structure.

Third-Party Development Services Costs

Pre-development expenditures such as architectural fees, permits, and deposits associated with the pursuit of third-party and owned development projects are expensed as incurred, until such time that management believes it is probable that the contract will be executed and/or construction will commence, at which time the Company capitalizes the costs. Because the Company frequently incurs these pre-development expenditures before a financing commitment and/or required permits and authorizations have been obtained, the Company bears the risk of loss of these pre-development expenditures if financing cannot ultimately be arranged on acceptable terms or the Company is unable to successfully obtain the required permits and authorizations. As such, management evaluates the status of third-party and owned projects that have not yet commenced construction on a periodic basis and expenses any deferred costs related to projects whose current status indicates the commencement of construction is unlikely and/or the costs may not provide future value to the Company in the form of revenues. Such write-offs are included in third-party development and management services expenses (in the case of third-party development projects) or general and administrative expenses (in the case of owned development projects) on the accompanying consolidated statements of comprehensive income. As of September 30, 2018, the Company has deferred approximately \$13.7 million in pre-development costs related to third-party and owned development projects that have not yet commenced construction. Such costs are included in other assets on the accompanying consolidated balance sheets.

Earnings per Share – Company

Basic earnings per share is computed using net income attributable to common stockholders and the weighted average number of shares of the Company's common stock outstanding during the period. Diluted earnings per share reflects common shares issuable from the assumed conversion of American Campus Communities Operating Partnership Units ("OP Units") and common share awards granted. Only those items having a dilutive impact on basic earnings per share are included in diluted earnings per share.

Earnings per Unit – Operating Partnership

Basic earnings per OP Unit is computed using net income attributable to common unitholders and the weighted average number of common units outstanding during the period. Diluted earnings per OP Unit reflects the potential dilution that could occur if securities or other contracts to issue OP Units were exercised or converted into OP Units or resulted in the issuance of OP Units and then shared in the earnings of the Operating Partnership.

The following is a summary of the elements used in calculating basic and diluted earnings per unit:

3. Acquisitions and Joint Venture Investments

Presale Development Projects: During the nine months ended September 30, 2018, the Company entered into two presale agreements to purchase two properties under development. The Company is obligated to purchase the properties for approximately \$107.3 million, which includes the contractual purchase price and the cost of elected upgrades, as long as the developer meets certain construction completion deadlines and other closing conditions.

				783	

⁽¹⁾ As part of the presale agreement, the Company provided \$15.6 million of mezzanine financing to the project.

In August 2018, The Edge - Stadium Centre, a 412-bed off-campus development property subject to a presale agreement, was completed and acquired by the Company for \$42.6 million, including \$10.0 million related to the purchase of the land on which the property is built. As the property was consolidated by the Company from the time of execution of the presale agreement with the developer, the closing of the transaction was accounted for as an increase in ownership of a consolidated subsidiary.

Property Acquisitions: During the third quarter of 2017, the Company executed an agreement to acquire a portfolio of seven student housing properties from affiliates of Core Spaces and DRW Real Estate Investments (the “Core Transaction”). The transaction included the purchase of 100% of the ownership interests in two operating properties, the purchase of partial ownership interests in two operating properties that completed construction and commenced operations in Fall 2017, and the purchase of partial ownership interests in three properties that completed construction and commenced operations in Fall 2018. The purchase of partial

ownership interests was made through a joint venture arrangement. In total, the Core Transaction properties contain 3,776 beds. The initial investment made at closing was \$306.0 million and the Company increased its investment by \$83.7 million in September 2018. The purchase of the remaining ownership interests in the properties of approximately \$200.9 million is anticipated to be completed in the fourth quarter 2018 and Fall 2019.

During the nine months ended September 30, 2017, the Company acquired two owned properties containing 982 beds for a total purchase price of approximately \$158.5 million, as well as 100% of the ownership interests in two operating properties as part of the Core Transaction described above for \$146.1 million. Total cash consideration was approximately \$302.3 million. The difference between the contracted purchase price and the cash consideration is due to other assets and liabilities that were not part of the contractual purchase price, but were acquired in the transactions, as well as transaction costs capitalized as part of the acquisitions.

Land Acquisitions: In August 2018, the Company purchased a land parcel for a total purchase price of approximately \$16.6 million. Total cash consideration was approximately \$16.5 million. During the nine months ended September 30, 2017, the Company purchased five land parcels for a total purchase price of approximately \$12.0 million. Total consideration transferred was comprised of approximately \$8.9 million of cash consideration and \$3.1 million of non-cash consideration, primarily related to the forgiveness of a loan made to the seller during the initial option period. In addition, the Company made an initial investment of \$9.0 million in a joint venture that holds a land parcel with fair value of \$12.0 million.

4. Property Dispositions

Property Dispositions:

In May 2018, the Company sold the following portfolio of three owned properties for approximately \$245.0 million, resulting in net proceeds of approximately \$242.3 million. The combined net gain on the portfolio disposition totaled approximately \$42.3 million.

Property	Location	Primary University Served	Beds
Icon Plaza	Los Angeles, CA	University of Southern California	253
West 27th Place	Los Angeles, CA	University of Southern California	475
The Standard	Athens, GA	University of Georgia	610
			1,338

During the nine months ended September 30, 2017, the Company sold The Province - Dayton, an owned property located near Wright State University in Dayton, Ohio, containing 657 beds for \$25.0 million, resulting in net proceeds of approximately \$24.5 million. The net loss on this disposition totaled approximately \$0.6 million. Concurrent with the classification of this property as held for sale in December 2016, the Company reduced the property's carrying amount to its estimated fair value less estimated selling costs, and recorded an impairment charge of \$4.9 million.

Joint Venture Activity:

In May 2018, the Company executed an agreement to enter into a joint venture arrangement with Allianz Real Estate (the "ACC / Allianz Joint Venture Transaction"). The transaction included the sale of a partial ownership interest in a portfolio of seven owned properties, containing 4,611 beds, through a joint venture arrangement. The joint venture transaction involved the joint venture partner making a cash contribution of approximately \$373.1 million in exchange

for a 45% ownership interest. As part of the transaction, the joint venture issued \$330 million of secured mortgage debt. For further discussion refer to Note 7.

The joint venture was determined to be a VIE. As the Company retained control of the properties after the joint venture transaction, it was deemed the primary beneficiary. As such, the Company's contribution of the properties to the joint venture was recorded at net book value, and the joint venture is included in the Company's consolidated financial statements contained herein. The joint venture partner's ownership interest in the joint venture is accounted for as noncontrolling interest. For further discussion refer to Note 9. The difference between the joint venture partner's cash contribution and its proportional share of the net book value of the properties was recorded in additional paid in capital in the Company's consolidated balance sheets and consolidated statement of changes in equity.

⁽²⁾ The creditors of mortgage loans payable related to on-campus participating properties do not have recourse to the assets of the Company.

Includes net unamortized original issue discount ("OID") of \$1.7 million and \$1.9 million at September 30, 2018 and

⁽³⁾ December 31, 2017, respectively, and net unamortized deferred financing costs of \$10.5 million and \$12.2 million at September 30, 2018 and December 31, 2017, respectively.

⁽⁴⁾ Includes net unamortized deferred financing costs of \$1.3 million and \$3.0 million at September 30, 2018 and December 31, 2017, respectively.

Mortgage and Construction Loans Payable

During the nine months ended September 30, 2018, the Company paid off approximately \$55.9 million of fixed rate mortgage debt secured by three owned properties. Additionally, during the nine months ended September 30, 2018, the Company paid \$2.7 million in debt defeasance costs associated with the early pay-off of mortgage loans in connection with the sale of one owned property and one owned property included in the ACC / Allianz Joint Venture Transaction (see Note 4). These costs were partially offset by the net write-off of \$1.9 million of premiums and deferred financing costs, resulting in a loss from early extinguishment of debt of \$0.8 million. During the nine months

ended September 30, 2017, the Company paid off approximately \$30.5 million off any fixed rate mortgage debt secured by one wholly-owned property.

In the third quarter of 2018, one of the joint ventures that is part of the Core Transaction paid off approximately \$71.0 million of construction debt with proceeds from an additional investment made by the Company to the joint venture (see Note 3). Additionally, in August 2018, upon completion of construction, the Company acquired The Edge - Stadium Centre, a property subject to a presale agreement. Approximately \$19.3 million of construction debt used to partially finance the development of the presale project was paid off upon acquisition.

In May 2018, as part of the ACC / Allianz Joint Venture Transaction, the joint venture issued \$330.0 million of fixed rate secured mortgage debt with a coupon of 4.07% and the full amount of principal due at maturity in June 2028 (see Note 4).

In May 2017, the lender of the non-recourse mortgage loan secured by Blanton Common, a property located near Valdosta State University which was inherited as part of the GMH student housing transaction in 2008, sent a formal notice of default and initiated foreclosure proceedings. The property generated insufficient cash flow to cover the debt service on the mortgage, which had a balance of \$27.4 million at default and a contractual maturity date of August 2017. In May 2017, the lender began receiving the net operating cash flows of the property each month in lieu of scheduled monthly mortgage payments. In June 2017, the Company recorded an impairment charge for this property of \$15.3 million. In August 2017, the property transferred to receivership and a third-party manager began managing the property on behalf of the lender. As of September 30, 2018, the Company was cooperating with the lender to allow for a consensual foreclosure process upon which the property will be surrendered to the lender in satisfaction of the mortgage loan.

Unsecured Notes

The Company has issued the following senior unsecured notes:

Date Issued	Amount	% of Par Value	Coupon	Yield	Original Issue Discount	Term (Years)
April 2013	\$400,000	99.659	3.750%	3.791%	\$ 1,364	10

September 2015	400,000	99.811	3.350%	3.391%	756	5
October 2017	400,000	99.912	3.625%	3.635%	352	10
	\$1,600,000				\$ 3,028	

⁽¹⁾ The yield includes the effect of the amortization of interest rate swap terminations (see Note 11).

The notes are fully and unconditionally guaranteed by the Company. Interest on the notes is payable semi-annually. The terms of the unsecured notes include certain financial covenants that require the Operating Partnership to limit the amount of total debt and secured debt as a percentage of total asset value, as defined. In addition, the Operating Partnership must maintain a minimum ratio of unencumbered asset value to unsecured debt, as well as a minimum interest coverage level. As of September 30, 2018, the Company was in compliance with all such covenants.

Unsecured Revolving Credit Facility

The Company has a \$700 million unsecured revolving credit facility, which may be expanded by up to an additional \$500 million upon the satisfaction of certain conditions. The maturity date of the revolving credit facility is in March 2022.

The unsecured revolving credit facility bears interest at a variable rate, at the Company's option, based upon a base rate of one-, two-, three- or six-month LIBOR, plus, in each case, a spread based upon the Company's investment grade rating from either Moody's Investor Services, Inc. or Standard & Poor's Rating Group. Additionally, the Company is required to pay a facility fee of 0.20% per annum on the \$700 million revolving credit facility. As of September 30, 2018, the revolving credit facility bore interest at a weighted average annual rate of 3.39% (2.19% + 1.00% spread + 0.20% facility fee), and availability under the revolving credit facility totaled \$433.1 million.

The terms of the unsecured credit facility include certain restrictions and covenants, which limit, among other items, the incurrence of additional indebtedness and liens. The facility contains customary affirmative and negative

covenants and also contains financial covenants that, among other things, require the Company to maintain certain maximum leverage ratios and minimum ratios of “EBITDA” (earnings before interest, taxes, depreciation and amortization) to fixed charges. The financial covenants also include a minimum asset value requirement, a maximum secured debt ratio, and a minimum unsecured debt service coverage ratio. As of September 30, 2018, the Company was in compliance with all such covenants.

Unsecured Term Loans

In May 2018, the Company repaid the \$300 million unsecured term loan (“Term Loan III Facility”) and the \$150 million unsecured term loan (“Term Loan I Facility”) which were due to mature in September 2018 and March 2021, respectively, using the proceeds from the sale of a partial interest in a portfolio of seven owned properties and the portfolio sale of three owned properties (see Note 4). In connection with the pay-off of the Term Loan III Facility and Term Loan I Facility, the Company accelerated the amortization of \$0.9 million of deferred financing costs.

In 2017, the Company entered into an Unsecured Term Loan Credit Agreement (the “Term Loan II Facility”) totaling \$200 million. The maturity date of the Term Loan II Facility is June 2022. The agreement has an accordion feature that allows the Company to expand the amount by up to an additional \$100 million, subject to the satisfaction of certain conditions. The weighted average annual rate on the Term Loan II Facility was 3.20% (2.10% + 1.10% spread), at September 30, 2018.

The terms of the term loan facilities described above include certain restrictions and covenants consistent with those of the unsecured revolving credit facility discussed above. As of September 30, 2018, the Company was in compliance with all such covenants.

8. Stockholders’ Equity / Partners’ Capital

Stockholders’ Equity - Company

In May 2018, the Company renewed its at-the-market share offering program (the “ATM Equity Program”) through which the Company may issue and sell, from time to time, shares of common stock having an aggregate offering price of up to \$500 million. The shares that may be sold under this program include shares of common stock of the Company with an aggregate offering price of approximately \$233.0 million that were not sold under the Company's previous ATM equity program that expired in May 2018. Actual sales under the program will depend on a variety of factors, including, but not limited to, market conditions, the trading price of the Company’s common stock and determinations of the appropriate sources of funding for the Company.

There was no activity under the Company’s ATM Equity Program during the three and nine months ended September 30, 2018. The following table presents activity under the Company’s previous ATM equity program during the three and nine months ended September 30, 2017:

	Three Months Ended September 30, 2017	Nine Months Ended September 30, 2017
Total net proceeds	\$ 1,135	\$ 188,538
Commissions paid to sales agents	\$ 14	\$ 2,374
Weighted average price per share	\$ 48.09	\$ 48.34
Shares of common stock sold	23,900	3,949,356

As of September 30, 2018, the Company had approximately \$500.0 million available for issuance under its ATM Equity Program.

In 2015, the Company established a Non-Qualified Deferred Compensation Plan (“Deferred Compensation Plan”) maintained for the benefit of certain employees and members of the Company’s Board of Directors, in which vested share awards (see Note 10), salary and other cash amounts earned may be deposited. Deferred Compensation Plan assets are held in a rabbi trust, which is subject to the claims of the Company’s creditors in the event of bankruptcy or insolvency. The shares held in the Deferred Compensation Plan are classified within stockholders’ equity in a manner similar to the manner in which treasury stock is classified. Subsequent changes in the fair value of the shares are not recognized. During the nine months ended September 30, 2018, 12,956 and 7,131 shares of vested stock were deposited into and withdrawn from the Deferred Compensation Plan, respectively. As of September 30, 2018, 69,603 shares of ACC’s common stock were held in the Deferred Compensation Plan.

Partners’ Capital – Operating Partnership

In connection with the issuance of common shares under the ATM Equity Program discussed above, ACCOP issued a number of Common OP Units to ACC equivalent to the number of common shares issued by ACC.

9. Noncontrolling Interests

Interests in Consolidated Real Estate Joint Ventures and Presale Arrangements

Noncontrolling interests - partially owned properties: As of September 30, 2018, the Operating Partnership consolidates four joint ventures that own and operate ten owned off-campus properties, including the ACC / Allianz Joint Venture Transaction discussed in Note 4. Additionally, the Company has entered into two presale agreements to purchase two in-process development properties. The portion of net assets attributable to the third-party partners in these arrangements is classified as “noncontrolling interests - partially owned properties” within equity and capital on the accompanying consolidated balance sheets of ACC and the Operating Partnership, respectively.

Redeemable noncontrolling interests (ACC) / redeemable limited partners (Operating Partnership): As part of the Core Transaction discussed in detail in Note 3, the Company entered into two joint ventures (the “Core Joint Ventures”) in the third quarter of 2017. The Company is consolidating these joint ventures and the noncontrolling interest holder in each of these consolidated joint ventures has the option to redeem its noncontrolling interest in the entities through the exercise of put options. The options will be exercisable in the third and fourth quarter of 2019, and the redemption price is based on the fair value of the properties at the time of option exercise. As the exercise of the options is outside of the Company’s control, the portion of net assets attributable to the third-party partner in each of the Core Joint Ventures is classified as “redeemable noncontrolling interests” and “redeemable limited partners” in the mezzanine section of the accompanying consolidated balance sheets of ACC and the Operating Partnership, respectively. During the nine months ended September 30, 2018, the redemption value of redeemable noncontrolling interest increased by \$68.7 million due to a change in the fair value of the net assets held by the joint ventures that are part of the Core Transaction primarily as a result of the underlying properties becoming operational during the third quarter and the leasing results for the 2018-2019 academic year. The corresponding offset for the adjustment to the redemption value is recorded in additional paid in capital. The Company’s fair value analysis of the properties incorporates information obtained from a number of sources, including the Company’s analysis of comparable properties in the Company’s portfolio, estimations of net operating results of the properties, capitalization rates, discount rates, and other market data. As the change in redemption value is based on fair value, there is no effect on the Company’s earnings per share.

The third-party partners’ share of the income or loss of the joint ventures described above is calculated based on the partners’ economic interest in the joint ventures and is included in “net income attributable to noncontrolling interests” on the consolidated statements of comprehensive income of ACC, and is reported as “net income attributable to noncontrolling interests - partially owned properties” on the consolidated statements of comprehensive income of the Operating Partnership.

Operating Partnership Ownership

Also included in redeemable noncontrolling interests (ACC) / redeemable limited partners (Operating Partnership) are OP Units for which the Operating Partnership is required, either by contract or securities law, to deliver registered common shares of ACC to the exchanging OP unit holder, or for which the Operating Partnership has the intent or history of exchanging such units for cash. The units classified as such include Series A Preferred Units (“Preferred OP Units”) as well as Common OP Units. The value of redeemable noncontrolling interests (ACC) / redeemable limited partners (Operating Partnership) related to OP Units on the accompanying consolidated balance sheets is reported at the greater of fair value, which is based on the closing market value of the Company’s common stock at period end, or historical cost at the end of each reporting period. The OP Unitholders’ share of the income or loss of the Company is

included in “net income attributable to noncontrolling interests” on the consolidated statements of comprehensive income of ACC.

As of September 30, 2018 and December 31, 2017, respectively, approximately 0.5% and 0.8% of the equity interests of the Operating Partnership were held by owners of Common OP Units and Preferred OP Units not held by ACC or ACC Holdings. During the nine months ended September 30, 2018, 412,343 Common OP Units were converted into an equal number of shares of ACC’s common stock. During the year ended December 31, 2017, 22,000 Common OP Units were converted into an equal number of shares of ACC’s common stock.

Net income	554
Distributions	(1,213)
Conversion of OP Units into shares of ACC common stock	(13,333)

10. Incentive Award Plan

In May 2018, the Company's stockholders approved the American Campus Communities, Inc. 2018 Incentive Award Plan (the "2018 Plan"). The 2018 Plan replaced the Company's 2010 Incentive Award Plan (the "2010 Plan"). The 2018 Plan provides for the grant of various stock-based incentive awards to selected employees and directors of the Company and the Company's affiliates. The types of awards that may be granted under the 2018 Plan include incentive stock options, nonqualified stock options, restricted stock awards ("RSAs"), restricted stock units ("RSUs"), profits interest units ("PIUs") and other stock-based awards. The Company has reserved a total 3.5 million shares of the Company's common stock for issuance pursuant to the 2018 Plan, subject to certain adjustments for changes in the Company's capital structure, as defined in the 2018 Plan. Upon approval of the 2018 Plan, all remaining authorized shares that were not granted under the 2010 Plan were forfeited and are no longer available for issuance as new awards.

Restricted Stock Units ("RSUs")

In March and September 2018, the Company appointed two new members to the Board of Directors who were granted RSUs valued at \$115,000 each. A compensation charge of approximately \$0.2 million was recorded during the nine months ended September 30, 2018 related to these awards.

Upon reelection to the Board of Directors in May 2018, all members of the Company's Board of Directors were granted RSUs in accordance with the 2018 Plan. These RSUs were valued at \$160,000 for the Chairman of the Board of Directors and at \$115,000 for all other members. The number of RSUs was determined based on the fair market value of the Company's stock on the date of grant, as defined in the 2018 Plan. All awards vested and settled immediately on the date of grant, and the Company delivered shares of common stock, as determined by the Compensation Committee of the Board of Directors. A compensation charge of approximately \$0.9 million was recorded during the nine months ended September 30, 2018 related to these awards.

A summary of RSUs as of September 30, 2018 and activity during the nine months then ended is presented below:

	Number of RSUs

Restricted Stock Awards (“RSAs”)

A summary of RSAs as of September 30, 2018 and activity during the nine months then ended is presented below:

	Number of RSAs
Nonvested balance at December 31, 2017	810,870
Granted	357,387
Vested ⁽¹⁾	(240,845)
Forfeited	(48,198)
Nonvested balance at September 30, 2018	879,214

⁽¹⁾ Includes shares withheld to satisfy tax obligations upon vesting.

The fair value of RSAs is calculated based on the closing market value of ACC’s common stock on the date of grant. The fair value of these awards is amortized to expense over the vesting periods. Amortization expense for the three months ended September 30, 2018 and 2017 amounted to approximately \$2.7 million and \$2.4 million, respectively, and \$8.8 million and \$10.6 million for the nine months ended September 30, 2018 and 2017, respectively. The amortization of restricted stock awards for the nine months ended September 30, 2017 includes \$2.4 million of contractual executive separation and retirement charges incurred with regard to the retirement of the Company’s former Chief Financial Officer, representing the June 30, 2017 vesting of 46,976 RSAs, net of shares withheld for taxes, related to the retirement.

11. Derivative Instruments and Hedging Activities

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company’s derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company’s known or expected cash receipts and its known or expected cash payments principally related to the Company’s investments and borrowings.

Cash Flow Hedges of Interest Rate Risk

The Company’s objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps and forward starting swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Forward starting swaps are used to protect the Company against adverse fluctuations in interest rates by reducing its exposure to variability in cash flows relating to interest payments on a forecasted issuance of debt. The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in other comprehensive income (outside of earnings) and subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of changes in the fair value of the derivative is

recognized directly in earnings. Ineffectiveness resulting from the derivative instruments was immaterial for both the three and nine month periods ended September 30, 2018 and 2017. As of September 30, 2018, the Company had outstanding interest rate swap contracts with a notional amount of approximately \$96.7 million. The fair value of such interest rate swap contracts was immaterial as of both September 30, 2018 and December 31, 2017.

12. Fair Value Disclosures

Financial Instruments Carried at Fair Value

The following table presents information about the Company's financial instruments measured at fair value on a recurring basis as of September 30, 2018 and 2017, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access. Fair values determined by Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices observable for the asset or liability, such as interest rates and yield curves observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

In instances in which the inputs used to measure fair value may fall into different levels of the fair value hierarchy, the level in the fair value hierarchy within which the fair value measurement in its entirety has been determined is based on the lowest level input significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Disclosures concerning financial instruments measured at fair value are as follows:

(Operating Partnership)						

The OP Unit component of redeemable noncontrolling interests has a redemption feature, and is marked to its redemption value when the redemption value exceeds the original issue price. The redemption value is based on the fair value of the Company's common stock at the redemption date, and therefore, is calculated based on the fair value of the Company's common stock at the balance sheet date. Since the valuation is based on observable inputs such as quoted prices for similar instruments in active markets, these instruments are classified in Level 2 of the fair value

hierarchy.

As discussed in Note 9, the redeemable noncontrolling interests related to the joint venture partners in the Core Transaction are marked to their redemption value at each balance sheet date. The redemption value is based on the fair value of the underlying properties held by the joint ventures. This analysis incorporates information obtained from a number of sources, including the Company's analysis of comparable properties in the Company's portfolio, estimations of net operating results of the properties, capitalization rates, discount rates, and other market data. The Company has determined these estimates are primarily based upon unobservable inputs and therefore are considered to be Level 3 inputs within the fair value hierarchy.

Financial Instruments Not Carried at Fair Value

Cash and Cash Equivalents, Restricted Cash, Student Contracts Receivable, Other Assets, Accounts Payable and Accrued Expenses and Other Liabilities: The Company estimates that the carrying amount approximates fair value, due to the short maturity of these instruments.

Loans Receivable: The fair value of loans receivable is based on a discounted cash flow analysis consisting of scheduled cash flows and discount rate estimates to approximate those that a willing buyer and seller might use. These financial instruments utilize Level 3 inputs.

Mortgage Loans Payable: The fair value of mortgage loans payable is based on the present value of the cash flows at current market interest rates through maturity. The Company has concluded the fair value of these financial instruments utilize Level 2 inputs as the majority of the inputs used to value these instruments fall within Level 2 of the fair value hierarchy.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES

Bonds Payable: The fair value of bonds payable is based on quoted prices in markets that are not active due to the unique characteristics of these financial instruments; as such, the Company has concluded the inputs used to measure fair value fall within Level 2 of the fair value hierarchy.

Unsecured Notes: In calculating the fair value of unsecured notes, interest rate and spread assumptions reflect current creditworthiness and market conditions available for the issuance of unsecured notes with similar terms and remaining maturities. These financial instruments utilize Level 2 inputs.

Construction Loans Payable, Unsecured Revolving Credit Facility, and Unsecured Term Loans: The fair value of these instruments approximates their carrying values due to the variable interest rate feature of these instruments.

The table below contains the estimated fair value and related carrying amounts for the Company's financial instruments as of September 30, 2018 and December 31, 2017:

	September 30, 2018		December 31, 2017

⁽⁴⁾ In July 2018, the fixed feature of a mortgage loan secured by an on-campus participating property expired, and the mortgage loan became classified as variable rate debt.

13. Commitments and Contingencies

Commitments

Construction Contracts: As of September 30, 2018, excluding two properties under construction and subject to presale arrangements which are being funded by construction loans, the Company estimates additional costs to complete three owned development projects under construction to be approximately \$132.9 million.

Joint Ventures: As part of the Core Transaction, the Company entered into two joint ventures during the third quarter of 2017. As part of this transaction, the Company is obligated to increase its investment in the joint ventures over a two year period. As of September 30, 2018, the remaining funding commitment was approximately \$200.9 million. Of this amount, \$46.9 million was paid in the fourth quarter 2018, with the remainder anticipated to be paid in September and October 2019. See Note 3 for further discussion.

Presale Development Projects: The Company has entered into two presale agreements to purchase properties which will be completed in Fall 2019. Total estimated development costs of approximately \$107.3 million include the purchase price and elected upgrades, of which \$90.0 million remains to be funded as of September 30, 2018. The

Company is obligated to purchase the properties as long as the developer meets certain construction completion deadlines and other closing conditions. The Company is responsible for leasing, management, and initial operations of the project while the third-party developer retains development risk during the construction period. See Note 9 for further discussion.

The Company expects to fund the commitments mentioned above through a combination of proceeds from cash flows generated from operations, anticipated property dispositions, joint venture activity, and a combination of debt and equity transactions, which may include net proceeds from the ATM Equity Program discussed in Note 8, borrowings under the Company's existing unsecured credit facilities, and accessing the unsecured bond market.

(unaudited)

Development-related Guarantees: For certain of its third-party development projects, the Company commonly provides alternate housing and project cost guarantees, subject to force majeure. These guarantees are typically limited, on an aggregate basis, to the amount of the projects' related development fees or a contractually agreed-upon maximum exposure amount. Alternate housing guarantees generally require the Company to provide substitute living quarters and transportation for students to and from the university if the project is not complete by an agreed-upon completion date. These guarantees typically expire at the later of five days after completion of the project or once the Company has moved all students from the substitute living quarters into the project.

Under project cost guarantees, the Company is responsible for the construction cost of a project in excess of an approved budget. The budget consists primarily of costs included in the general contractors' guaranteed maximum price contract ("GMP"). In most cases, the GMP obligates the general contractor, subject to force majeure and approved change orders, to provide completion date guarantees and to cover cost overruns and liquidated damages. In addition, the GMP is in certain cases secured with payment and performance bonds. Project cost guarantees expire upon completion of certain developer obligations, which are normally satisfied within one year after completion of the project. The Company's estimated maximum exposure amount under the above guarantees is approximately \$10.3 million as of September 30, 2018. As of September 30, 2018, management did not anticipate any material deviations from schedule or budget related to third-party development projects currently in progress.

In the normal course of business, the Company enters into various development-related purchase commitments with parties that provide development-related goods and services. In the event that the Company was to terminate development services prior to the completion of projects under construction, the Company could potentially be committed to satisfy outstanding purchase orders with such parties.

Conveyance to University: In August 2013, the Company entered into an agreement to convey fee interest in a parcel of land, on which one of the Company's student housing properties resides (University Crossings), to Drexel University (the "University"). Concurrent with the land conveyance, the Company as lessee entered into a ground lease agreement with the University as lessor for an initial term of 40 years, with three 10-year extensions, at the Company's option. The Company also agreed to convey the building and improvements to the University at an undetermined date in the future and to pay real estate transfer taxes not to exceed \$2.4 million. The Company paid approximately \$0.6 million in real estate transfer taxes upon the conveyance of land to the University, leaving approximately \$1.8 million to be paid by the Company upon the transfer of the building and improvements.

Other Guarantees: In 2017, as part of the purchase of an undeveloped land parcel, the Company entered into an agreement to construct a commercial retail space within a future development that will be conveyed back to the seller upon construction completion. If the construction of the retail space is not completed in accordance with the agreement, the Company is required to pay liquidated damages of \$2.1 million. As of September 30, 2018, management anticipates completing construction of the retail space in accordance with the agreement.

Contingencies

Litigation: The Company is subject to various claims, lawsuits and legal proceedings, as well as other matters that have not been fully resolved and that have arisen in the ordinary course of business. While it is not possible to ascertain the ultimate outcome of such matters, management believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on the consolidated financial position or results of operations of the Company. However, the outcome of claims, lawsuits

and legal proceedings brought against the Company is subject to significant uncertainty. Therefore, although management considers the likelihood of such an outcome to be remote, the ultimate results of these matters cannot be predicted with certainty.

Letters of Intent: In the ordinary course of the Company's business, the Company enters into letters of intent indicating a willingness to negotiate for acquisitions, dispositions or joint ventures. Such letters of intent are non-binding (except with regard to exclusivity and confidentiality), and neither party to the letter of intent is obligated to pursue negotiations unless and until a definitive contract is entered into by the parties. Even if definitive contracts are entered into, the letters of intent relating to the acquisition and disposition of real property and resulting contracts generally contemplate that such contracts will provide the acquirer with time to evaluate the property and conduct due diligence, during which periods the acquirer will have the ability to terminate the contracts without penalty or forfeiture of any material deposit or earnest money. There can be no assurance that definitive contracts will be entered into with respect to any matter covered by letters of intent or that the Company will consummate any transaction contemplated by any definitive contract. Furthermore, due diligence periods for real property are frequently extended as needed. Once the due diligence period expires, the Company is then at risk under a real property acquisition contract, but only to

the extent of any non-refundable earnest money deposits associated with the contract and subject to normal closing conditions being met.

Environmental Matters: The Company is not aware of any environmental liability with respect to the properties that would have a material adverse effect on the Company's business, assets or results of operations. However, there can be no assurance that such a material environmental liability does not exist. The existence of any such material environmental liability could have an adverse effect on the Company's results of operations and cash flows.

14. Segments

The Company defines business segments by their distinct customer base and service provided. The Company has identified four reportable segments: Owned Properties, On-Campus Participating Properties, Development Services, and Property Management Services. Management evaluates each segment's performance based on operating income before depreciation, amortization and minority interests.

During the year ended December 31, 2017, the Company revised the measure of profit or loss for each segment to include the allocation of costs related to corporate management and oversight and to exclude intercompany management fee revenue. This was due to a presentation change in the information used by the Company's chief operating decision makers to assess segment and company-wide performance and allocate resources, which was driven by the reorganization of duties within the Company's executive management team. Prior period amounts have been reclassified to conform to the current period presentation.

Forward-looking Statements

This report contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on management's beliefs and assumptions made by, and information currently available to, management. When used, the words "anticipate," "believe," "expect," "intend," "may," "might," "plan," "estimate," "project," "should," "will," "result" and similar expressions, do not relate solely to historical matters and are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. We caution you that forward-looking statements are not guarantees of future performance and will be impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update forward-looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they were made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following: general risks affecting the real estate industry; risks associated with changes in University admission or housing policies; risks associated with the availability and terms of financing and the use of debt to fund acquisitions and developments; failure to manage effectively our growth and expansion into new markets or to integrate acquisitions successfully; risks and uncertainties affecting property development and construction; risks associated with downturns in the national and local economies, volatility in capital and credit markets, increases in interest rates, and volatility in the securities markets; costs of compliance with the Americans with Disabilities Act and other similar laws; potential liability for uninsured losses and environmental contamination; risks associated with our Company's potential failure to qualify as a REIT under the Internal Revenue Code of 1986 (the "Code"), as amended, and possible adverse changes in tax and environmental laws; and the other factors discussed in the "Risk Factors" contained in Item 1A of our Form 10-K for the year ended December 31, 2017.

Our Company and Our Business

Overview

American Campus Communities, Inc. ("ACC") is a real estate investment trust ("REIT") that commenced operations effective with the completion of an initial public offering ("IPO") on August 17, 2004. Through ACC's controlling interest in American Campus Communities Operating Partnership, L.P. ("ACCOP"), ACC is one of the largest owners, managers and developers of high quality student housing properties in the United States in terms of beds owned and under management. ACC is a fully integrated, self-managed and self-administered equity REIT with expertise in the acquisition, design, financing, development, construction management, leasing and management of student housing properties. ACC's common stock is publicly traded on the New York Stock Exchange ("NYSE") under the ticker symbol "ACC." References to the "Company," "we," "us" or "our" mean collectively ACC, ACCOP and those entities/subsidiaries owned or controlled by ACC and/or ACCOP. References to the "Operating Partnership" mean collectively ACCOP and those entities/subsidiaries owned or controlled by ACCOP. Unless otherwise indicated, the accompanying discussion applies to both the Company and the Operating Partnership.

Property Portfolio

As of September 30, 2018, our total owned property portfolio contained 168 properties, consisting of owned off-campus student housing properties that are in close proximity to colleges and universities, American Campus Equity (“ACE[®]”) properties operated under ground/facility leases with university systems, and on-campus participating properties operated under ground/facility leases with the related university systems. Of the 168 properties, 5 were under development as of September 30, 2018. Our communities contain modern housing units and are supported by a resident assistant system and other student-oriented programming, with many offering resort-style amenities.

As of September 30, 2018, through ACC’s taxable REIT subsidiary (“TRS”) entities, we provided third-party management and leasing services for 34 properties, bringing our total owned and third-party managed portfolio to 202 properties. Third-party management and leasing services are typically provided pursuant to management contracts that have initial terms that range from one to five years.

Below is a summary of our property portfolio as of September 30, 2018:

Property portfolio:	Properties	Beds
Owned operating properties:		
Off-campus properties	128	71,856
On-campus ACE ⁽¹⁾	30	23,393

Total property portfolio	202	131,855

(1) Includes three properties at Prairie View A&M University that we ultimately expect to be refinanced under the existing on-campus participating structure.

Leasing Results

Our financial results for the 2018 calendar year are significantly impacted by the results of our annual leasing process for the 2017/2018 and the 2018/2019 academic years. As of September 30, 2017, the beginning of the 2017/2018 academic year, occupancy at our 2018 same store properties was 96.6% at a rental rate increase of 2.9% compared to the prior academic year, and occupancy at our total owned property portfolio (including 2017 acquisitions and development deliveries) was 95.4%. As of September 30, 2018, the beginning of the 2018/2019 academic year, occupancy at our 2018 same store properties was 97.0%, and occupancy at our total owned property portfolio (including 2017 acquisitions and 2017 and 2018 development deliveries) was also 97.0%.

Development

In the third quarter of 2018, the final stages of construction were completed on five on-campus ACE properties and one owned off-campus property. These properties are summarized in the following table:

At September 30, 2018, we were in the process of constructing two on-campus ACE properties and one owned off-campus property. These properties are summarized in the table below:

Owned Development Projects Under Construction:

Project	Location	Primary University Served	Project Type	Beds	Estimated Project Cost	Total Costs Incurred	Scheduled Occupancy
191 College	Auburn, AL	Auburn University	Off-campus	495	\$59,300	\$30,848	July 2019

SUBTOTAL – 2019 DELIVERIES				2,376	\$297,400	\$164,483	

Presale Development Projects:

Under the terms of a presale transaction, the Company is obligated to purchase the property as long as certain construction completion deadlines and other closing conditions are met. The Company is responsible for leasing, management, and initial operations of the project while the third-party developer retains development risk during the construction period. In accordance with accounting guidance, the Company includes presale properties in its consolidated financial statements upon execution of the presale agreement with the developer.

Presale Development Projects Recently Completed:

Project	Location	Primary University Served	Project Type	Beds	Purchase Price	Opened for Occupancy
The Edge - Stadium Centre Core Spaces / DRW Portfolio ⁽¹⁾	Tallahassee, FL	Florida State University	Off-campus	412	\$42,600	August 2018

Hub West Lafayette	West Lafayette, IN	Purdue University	Off-campus			August 2018
				1,500	240,000	
				1,912	\$282,600	

⁽¹⁾ The Company funded an initial investment of \$24.2 million through a joint venture with Core Spaces/DRW Real Estate Investments in August 2017. In the third quarter of 2018, the assets held by the joint venture were delivered and the Company increased its investment by \$83.7 million. Subsequent to quarter end, an additional investment of \$46.9 million was made. The Company expects to exercise its option to purchase the remaining ownership interests in the properties in the third quarter of 2019 for an amount to be determined by fair market value, which is expected to

approximate \$85.2 million, and is subject to adjustment based on stabilized property tax assessments and various earn-out adjustments.

Presale Development Projects Under Construction:

During the nine months ended September 30, 2018, the Company entered into presale agreements to purchase two owned properties. Refer to Note 3 in the accompanying Notes to Consolidated Financial Statements contained in Item 1 for a more detailed discussion of our recent presale development activity. As of September 30, 2018, our presale development pipeline consisted of the following properties:

Project	Location	Primary University Served	Project Type	Beds	Purchase Price	Amount Funded as of September 30, 2018	Scheduled Occupancy
The Flex at Stadium Centre	Tallahassee, FL	Florida State University	Off-campus	340	\$36,700	\$ 353	August 2019

SUBTOTAL – 2019 DELIVERIES				783	\$107,300	\$ 17,292	

⁽¹⁾ As part of the presale agreement, the Company provided \$15.6 million of mezzanine financing to the project.

Joint Venture Activity

As discussed in more detail in Note 4 in the accompanying Notes to the Consolidated Financial Statements contained in Item 1, in May 2018 we executed an agreement to enter into a joint venture arrangement with Allianz Real Estate the “ACC / Allianz Joint Venture Transaction.” The transaction included the sale of a partial ownership interest in a portfolio of seven owned properties, containing 4,611 beds, through a joint venture arrangement. The joint venture transaction involved the joint venture partner making a cash contribution of approximately \$373.1 million in exchange for a 45% ownership interest. As part of the transaction, the joint venture issued \$330 million of secured mortgage debt. The joint venture will pay the Company a property management fee of 4% of total revenues and a 0.25% asset management fee on total invested equity net of debt. In addition, the Company and the joint venture partner will receive periodic distributions of operating cash flow in accordance to their proportionate ownership interests.

Dispositions

During the nine months ended September 30, 2018, the Company sold a portfolio of three owned properties for approximately \$245.0 million. Refer to Note 4 in the accompanying Notes to Consolidated Financial Statements contained in Item 1 for a more detailed discussion of our recent disposition activity.

Third-Party Development Services

Through ACC’s TRS entities, we provide development and construction management services for student housing properties owned by colleges and universities, charitable foundations and others. As of September 30, 2018, we were under contract on four third-party development projects that are currently under construction and whose fees total \$15.9 million. As of September 30, 2018, fees of approximately \$5.3 million remained to be earned by the Company with respect to these projects, which have scheduled completion dates in July and August 2019.

Same Store and New Property Operations

We define our same store property portfolio as owned properties that were owned and operating for both of the full years ended December 31, 2018 and December 31, 2017, which are not conducting or planning to conduct substantial development, redevelopment, or repositioning activities, and are not classified as held for sale as of September 30, 2018.

Same store revenues are defined as revenues generated from our same store portfolio and consist of rental revenue earned from student leases as well as other income items such as utility income, damages, parking income, summer conference rent, application and administration fees, income from retail tenants, and income earned by one of our TRS entities from ancillary activities such as the provision of food services.

37

Same store operating expenses are defined as operating expenses generated from our same store portfolio and include usual and customary expenses incurred to operate a property such as payroll, maintenance, utilities, marketing, general and administrative costs, insurance, property taxes, and bad debt. Same store operating expenses also include an allocation of payroll and other administrative costs related to corporate management and oversight.

A reconciliation of our same store, new property and sold/other property operations to our consolidated statements of comprehensive income is set forth below:

	Same Store Properties		New Properties		Sold Properties/Other ⁽¹⁾		Total - All Properties	
	Three Months Ended		Three Months Ended		Three Months Ended		Three Months Ended	
	September 30, 2018		September 30, 2017		September 30, 2018 ⁽²⁾		September 30, 2017 ⁽³⁾	
Number of properties ⁽⁴⁾	130	130	27	15	1	4	158	149
Number of beds ⁽⁴⁾	76,433	76,433	17,956	10,464	860	2,198	95,249	89,095
Revenues ⁽⁵⁾	\$170,103	\$166,786	\$32,684	\$12,023	\$ 739	\$ 5,473	\$203,526	\$184,282
Operating expenses	89,771	89,931	17,375	7,299	851	2,193	107,997	99,423

(1) Does not include the allocation of payroll and other administrative costs related to corporate management and oversight.

(2) Includes one property currently in receivership that is in the process of being transferred to the lender in settlement of the property's \$27.4 million mortgage loan that matured in August 2017. Also includes recurring professional fees related to the formation and operation of the ACC / Allianz Joint Venture Transaction.

(3) Includes properties sold in 2018 and 2017, and one property that is in the process of being transferred to the lender as discussed above.

(4) Does not include properties under construction or undergoing redevelopment.

(5) Includes revenues which are reflected as resident services revenue on the accompanying consolidated statements of comprehensive income.

Same Store Properties: The increase in revenue from our same store properties was primarily due to an increase in average rental rates for the 2018/2019 academic year, partially offset by a decrease in weighted average occupancy from 91.4% during the three months ended September 30, 2017 to 90.7% during the three months ended September 30, 2018. Future revenues will be dependent on our ability to maintain our current leases in effect for the 2018/2019 academic year and our ability to achieve appropriate rental rates and desired occupancy levels for the 2019/2020 academic year at our various properties.

The slight decrease in operating expenses from our same store properties was primarily due to a decrease in repairs and maintenance expenses due to costs incurred during the three months ended September 30, 2017 related to hurricanes. This decrease was mostly offset by an increase in property taxes. We anticipate that operating expenses for our same store property portfolio for 2018 will increase, as compared to 2017, at inflationary levels except in the cases of property taxes, where we have experienced higher tax assessment levels, and marketing due to our efforts to achieve our leasing targets.

On-Campus Participating Properties (“OCPP”) Operations

Same Store OCPP Properties: We had five participating properties containing 5,086 beds which were operating during the three months ended September 30, 2018, and 2017. Revenues from these properties increased from \$6.8 million during the three months ended September 30, 2017, to \$7.0 million during the three months ended September 30, 2018. The increase was due to an increase in average rental rates for the 2018/2019 academic year in addition to a

slight increase in average occupancy from 57.3% for the three months ended September 30, 2017, to 57.4% for the three months ended September 30, 2018. Occupancy at our on-campus participating properties is low during the summer months due to the expiration of the 9-month leases concurrent with the end of the spring semester. Operating expenses at these properties remained constant at \$3.9 million for the comparable three month periods. Future revenues will be dependent on our ability to maintain our current leases in effect for the 2018/2019 academic year and our ability to obtain appropriate rental rates and desired occupancy for the 2019/2020 academic year. We anticipate that operating expenses for our on-campus participating properties for 2018 will increase slightly, as compared to 2017, as a result of general inflation.

Third-Party Development Services Revenue

Third-party development services revenue decreased by approximately \$2.8 million, from \$3.6 million during the three months ended September 30, 2017, to \$0.8 million for the three months ended September 30, 2018. This decrease was primarily due to the closing of bond financing and commencement of construction of a fourth phase at the University of California, Irvine during the three months ended September 30, 2017, which contributed approximately \$2.9 million in revenue.

Development services revenues are dependent on our ability to successfully be awarded such projects, the amount of the contractual fee related to the project and the timing and completion of the development and construction of the project. In addition, to the extent projects are completed under budget, we may be entitled to a portion of such savings, which are recognized as revenue when performance has been agreed upon by all parties, or when performance has been verified by an independent third-party. It is possible that projects for which we have deferred pre-development costs will not close and that we will not be reimbursed for such costs. The pre-development costs associated therewith will ordinarily be charged against income for the then-current period. We anticipate third-party development services revenue to decrease in 2018, as compared to 2017, due to a decrease in the volume and timing of third-party development projects anticipated to close and commence construction in 2018.

General and Administrative

General and administrative expenses decreased approximately \$1.5 million, from \$8.7 million during three months ended September 30, 2017, to \$7.2 million for the three months ended September 30, 2018. Excluding \$2.9 million of transaction costs incurred in connection with our initial investment in the Core Transaction in August 2017, general and administrative expense increased \$1.4 million. This increase was primarily due to additional expenses incurred in connection with enhancements to our operating systems platform, additional payroll expenses, and other general inflationary factors. We anticipate general and administrative expenses will increase in 2018 as compared to 2017, for the reasons discussed above.

Depreciation and Amortization

Depreciation and amortization increased by approximately \$5.0 million, from \$61.1 million during the three months ended September 30, 2017, to \$66.1 million for the three months ended September 30, 2018. This increase was primarily due to the following: (i) a \$5.5 million increase related to the completion of construction and opening of ten owned development properties in August 2017, six owned development properties in August 2018, and four presale properties in August 2018; and (ii) a \$1.2 million increase due to property acquisition activity during 2017. These increases were partially offset by a \$1.6 million decrease in depreciation and amortization expense related to properties sold in May 2018. We anticipate depreciation and amortization expense will increase in 2018, as compared to 2017, for the reasons discussed above.

Ground/Facility Leases

Ground/facility leases expense increased by approximately \$0.7 million, from \$2.3 million during the three months ended September 30, 2017, to \$3.0 million for the three months ended September 30, 2018. This increase was primarily due to the following: (i) a \$0.4 million increase related to ACE development projects that completed construction and opened for operations in Fall 2017 and Fall 2018; and (ii) a \$0.2 million increase at our on-campus participating properties. We anticipate ground/facility leases expense to increase in 2018, as compared to 2017, for the reasons discussed above.

Interest Expense

Interest expense increased by approximately \$6.5 million, from \$18.7 million during the three months ended September 30, 2017, to \$25.2 million for the three months ended September 30, 2018. This increase was primarily due to the following: (i) a \$3.6 million increase related to our \$400 million offering of unsecured notes in October 2017; (ii) a \$3.4 million increase due to the issuance of \$330 million in mortgage debt as part of the ACC / Allianz Joint Venture Transaction; (iii) a \$0.8 million decrease in capitalized interest due to the timing and volume of construction activities on our owned development projects during the comparable three month periods; and (iv) \$0.5 million in interest expense related to the 2018 presale developments. These increases were partially offset by (i) a \$0.8 million decrease in term loan interest expense due to the pay-off of \$450.0 million of term loans in 2018; (ii) a \$0.4 million decrease due to the timing of borrowings under our unsecured revolving credit facility during the comparable three month periods; (iii) a \$0.3 million decrease related to the disposition of properties with outstanding debt during 2018; and (iv) a \$0.3 million decrease related to the pay-off of maturing mortgage loans during 2017 and 2018.

We anticipate interest expense will increase in 2018, as compared to 2017, due to the reasons discussed above, increased interest

rates on the Company's variable rate debt, and additional interest incurred from any offerings of unsecured notes anticipated during 2018. These increases will be offset by the expected pay-off of outstanding mortgage debt scheduled to mature in 2018.

Other Income

During the three months ended September 30, 2018, we recognized a \$0.6 million gain on an insurance settlement due to hail damage at one of our owned properties. The gain represents insurance proceeds received to date in excess of the net book value of the assets written off as a result of the damage.

Income Tax Provision

Income tax provision decreased by approximately \$0.5 million, from \$0.3 million in expense during the three months ended September 30, 2017 to a \$0.2 million benefit during the three months ended September 30, 2018. The decrease was primarily due to a decrease in the estimated state income tax gain resulting from the ACC / Allianz Joint Venture Transaction in May 2018.

Comparison of the Nine Months Ended September 30, 2018 and September 30, 2017

The following table presents our results of operations for the nine months ended September 30, 2018 and 2017, including the amount and percentage change in these results between the two periods.

⁽¹⁾ Does not include the allocation of payroll and other administrative costs related to corporate management and oversight.

⁽²⁾ Includes three properties sold in 2018 and one property currently in receivership that is in the process of being transferred to the lender in settlement of the property's \$27.4 million mortgage loan that matured in August 2017. Also includes transaction costs and recurring professional fees related to the formation and operation of the ACC / Allianz Joint Venture Transaction.

⁽³⁾ Includes properties sold in 2018 and 2017, and one property that is in the process of being transferred to the lender as discussed above.

⁽⁴⁾ Does not include properties under construction or undergoing redevelopment.

⁽⁵⁾ Includes revenues which are reflected as resident services revenue on the accompanying consolidated statements of comprehensive income.

Same Store Properties: The increase in revenue from our same store properties was primarily due to an increase in average rental rates for the 2017/2018 and 2018/2019 academic years, partially offset by a decrease in weighted average occupancy from 93.2% during the nine months ended September 30, 2017, to 92.3% for the nine months ended September 30, 2018.

The increase in operating expenses from our same store properties was primarily due to an increase in property taxes in various markets and increases related to 2016 development deliveries that were assessed at full value for the first time.

New Property Operations: Our new properties for the nine months ended September 30, 2018 are summarized in the table of new properties contained in the discussion of our results of operations for the three months ended September 30, 2018 and 2017.

On-Campus Participating Properties ("OCPP") Operations

Same Store OCPP Properties: We had five participating properties containing 5,086 beds which were operating during the nine months ended September 30, 2018, and 2017. Revenues from these properties increased by \$0.5 million, from \$23.1 million for the nine months ended September 30, 2017, to \$23.6 million for the nine months ended September 30, 2018 as a result of an increase in average rental rates for the 2017/2018 and 2018/2019 academic years, offset by a decrease in average occupancy from 68.5% for the nine months ended September 30, 2017, to 68.3% for the nine months ended September 30, 2018. Operating expenses at these properties decreased slightly from \$11.1

million for the nine months ended September 30, 2017 to \$11.0 million for the nine months ended September 30, 2018.

Third-Party Development Services Revenue

Third-party development services revenue decreased by approximately \$0.8 million, from \$4.7 million during the nine months ended September 30, 2017, to \$3.9 million for the nine months ended September 30, 2018. This decrease was primarily due to the closing of bond financing and commencement of construction of a fourth phase at the University of California, Irvine during the three months ended September 30, 2017. The decrease was partially offset by the closing of bond financing and commencement of construction of the Delaware State University project in May 2018. During the nine months ended September 30, 2018, we had four projects in progress with an average contractual fee of approximately \$4.0 million, as compared to the nine months ended September 30, 2017, in which we had three projects in progress with an average contractual fee of approximately \$3.1 million.

General and Administrative

General and administrative expenses increased by approximately \$1.9 million, from \$25.2 million during the nine months ended September 30, 2017, to \$27.1 million for the nine months ended September 30, 2018. Excluding \$5.8 million in transaction costs incurred in connection with the closing of the ACC / Allianz Joint Venture Transaction in May 2018, \$2.9 million of transactions incurred in connection with our initial investment in the Core Transaction in August 2017, and \$4.5 million in contractual executive separation and retirement charges incurred in the first and second quarter 2017, general and administrative expense increased \$3.5 million. This increase was primarily due to the same factors that contributed to the increase in general and administrative expenses for the three months ended September 30, 2018, as discussed above.

Depreciation and Amortization

Depreciation and amortization increased by approximately \$25.0 million, from \$169.4 million during the nine months ended September 30, 2017, to \$194.4 million for the nine months ended September 30, 2018. This increase was primarily due to the following: (i) a \$16.8 million increase related to the completion of construction and opening of ten owned development properties in August 2017, six owned development properties in August 2018, and four presale properties in August 2018; (ii) a \$9.7 million increase due to property acquisition activity during 2017; and (iii) a \$1.0 million increase in depreciation of corporate assets. These increases were partially offset by a \$2.6 million decrease in depreciation and amortization expense related to properties sold in 2017 and 2018.

Ground/Facility Leases

Ground/facility leases expense increased by approximately \$1.3 million, from \$7.2 million during the nine months ended September 30, 2017, to \$8.5 million for the nine months ended September 30, 2018. This increase was due to the same factors that contributed to the increase in ground/facility lease expenses for the three months ended September 30, 2018, as discussed above.

Provision for Real Estate Impairment

During the nine months ended September 30, 2017, we recorded an impairment charge of approximately \$15.3 million for one owned property currently in receivership that is in the process of being transferred to the lender in settlement of the property's \$27.4 million mortgage loan that matured in August 2017. Refer to Note 7 in the accompanying Notes to Consolidated Financial Statements in Item 1 for a detailed discussion of this transaction.

Other Operating Income

During the nine months ended September 30, 2018, we recorded a \$2.6 million gain related to cash proceeds received from a litigation settlement.

Interest Expense

Interest expense increased by approximately \$24.3 million, from \$47.9 million during the nine months ended September 30, 2017, to \$72.2 million for the nine months ended September 30, 2018. Interest expense increased as a result of the following: (i) a \$10.9 million increase related to our \$400 million offering of unsecured notes in October 2017; (ii) a \$5.7 million increase related to the closing of a \$200 million term loan in June 2017 and a \$300 million term loan in September 2017; (iii) a \$4.6 million increase due to the issuance of \$330 million in mortgage debt as part of the ACC / Allianz Joint Venture Transaction; (iv) a \$3.9 million decrease in capitalized interest due to the timing and volume of construction activities on our owned development projects during the comparable nine month periods; (v) a \$1.0 million increase in accrued default interest on one of our properties that is in the process of being transferred

to the lender in settlement of the property's \$27.4 million mortgage loan that matured in August 2017; and (vi) \$0.5 million in interest expense related to the 2018 presale developments. These increases were partially offset by (i) a \$1.4 million decrease related to the pay-off of maturing mortgage loans during 2017 and 2018; (ii) a \$0.5 million decrease related to the disposition of properties with outstanding debt during 2017 and 2018; and (iii) a \$0.3 million decrease due to scheduled principal payments on debt.

Amortization of Deferred Financing Costs

Amortization of deferred financing costs increased by approximately \$1.5 million, from \$3.2 million during the nine months ended September 30, 2017, to \$4.7 million for the nine months ended September 30, 2018. This increase was primarily due to (i) \$0.5 million in amortization expense related to the closing of \$500 million in term loans in 2017; (ii) \$0.9 million of accelerated amortization related to the pay-off of \$450 million of term loan debt in May 2018; and (iii) \$0.3 million in amortization expense related to our \$400 million offering of unsecured notes in October 2017.

Gain (Loss) from Disposition of Real Estate

During the nine months ended September 30, 2018, we sold three owned properties containing 1,338 beds, resulting in a net gain from disposition of real estate of approximately \$42.3 million. During the nine months ended September 30, 2017, we sold one owned property containing 657 beds, resulting in a net loss from disposition of real estate of approximately \$0.6 million. Refer to Note 4 in the accompanying Notes to the Consolidated Financial Statements contained in Item 1.

Loss from Early Extinguishment of Debt

During the nine months ended September 30, 2018, we incurred approximately \$0.8 million of losses associated with the early pay-off of mortgage loans in connection with the sale of one owned property and one owned property included in the ACC / Allianz Joint Venture Transaction. Refer Note 4 and Note 7 in the accompanying Notes to Consolidated Financial Statements contained in Item 1 for additional details.

Income Tax Provision

Income tax provision increased by approximately \$1.3 million from \$0.8 million during the nine months ended September 30, 2017, to \$2.1 million for the nine months ended September 30, 2018. The increase was primarily due to an estimated state income tax gain resulting from the ACC / Allianz Joint Venture Transaction.

Liquidity and Capital Resources

Cash Balances and Cash Flows

As of September 30, 2018, we had \$90.5 million in cash and cash equivalents and restricted cash as compared to \$64.8 million in cash and cash equivalents and restricted cash as of December 31, 2017. Restricted cash primarily consists of escrow accounts held by lenders and resident security deposits, as required by law in certain states, and funds held in escrow in connection with potential acquisition and development opportunities. The following discussion relates to changes in cash due to operating, investing and financing activities, which are presented in our consolidated statements of cash flows included in Item 1.

Operating Activities: For the nine months ended September 30, 2018, net cash provided by operating activities was approximately \$266.9 million, as compared to approximately \$245.7 million for the nine months ended September 30, 2017, an increase of \$21.2 million. This increase in cash flows was due to the timing of property tax payments for owned properties, as well as operating cash flows provided by the completion of construction and opening of ten owned development properties in the third quarter of 2017, six owned development properties in August 2018, four presale developments in August 2018, and property acquisitions in 2017, offset by properties disposed of in 2017 and 2018.

Investing Activities: Investing activities utilized approximately \$216.1 million and \$769.0 million for the nine months ended September 30, 2018 and 2017, respectively. The \$552.9 million decrease in cash utilized in investing activities

was primarily a result of the following: (i) a \$302.3 million decrease in cash paid to acquire operating and under development properties; (ii) a \$217.8 million increase in proceeds from property dispositions related to the sale of a three property portfolio in May 2018; (iii) a \$36.9 million decrease in cash used to fund the construction of our owned development properties, related to the timing of construction commencement and completion of our owned development pipeline; (iv) an \$8.7 million decrease in cash used to fund capital expenditures at our owned properties; (v) a \$2.5 million decrease in cash used to fund corporate capital expenditures; and (vi) \$1.6 million in proceeds from an insurance settlement in 2018. These decreases were partially offset by a \$17.6 million increase in cash paid to acquire undeveloped land parcels.

Financing Activities: For the nine months ended September 30, 2018, net cash used in financing activities totaled approximately \$25.1 million as compared to net cash provided by financing activities of \$518.6 million for the nine months ended September 30, 2017. The \$543.7 million change in cash used in financing activities was primarily a result of the following: (i) \$450.0 million in cash used to pay down the Company's \$300 million and \$150 million unsecured term loans in May 2018; (ii) a \$500.0 million

decrease in proceeds from unsecured term loans; (iii) a \$188.5 million decrease in net proceeds from the sale of common stock under our ATM Equity Program related to activity in 2017; (iv) a \$91.3 million increase in distributions to noncontrolling interests primarily as a result of the ACC / Allianz Joint Venture Transaction; (v) a \$27.8 million decrease in net proceeds on our revolving credit facility; (vi) a \$49.7 million increase in cash used to pay off mortgage and construction debt, including defeasance costs, in May 2018; (vii) an \$11.1 million increase in distributions to common and restricted stockholders; and (viii) \$10.5 million paid in 2018 to increase our ownership of a consolidated subsidiary. These decreases were partially offset by the following: (i) a \$368.4 million increase in contributions from noncontrolling interests primarily due to the ACC / Allianz Joint Venture Transaction (refer to Note 4 in the accompany Notes to Consolidated Financial Statements contained in Item 1); (ii) \$330.0 million in proceeds from mortgage debt issued by the previously mentioned ACC / Allianz Joint Venture Transaction; (iii) \$77.2 million in increased proceeds from construction loans; (iv) a \$6.7 million decrease in payments of debt issuance costs; and (v) a \$2.2 million decrease in taxes paid on net share settlements.

Liquidity Needs, Sources and Uses of Capital

As of September 30, 2018, our short-term liquidity needs included, but were not limited to, the following: (i) anticipated distribution payments to our common and restricted stockholders totaling approximately \$253.8 million based on an assumed annual cash distribution of \$1.84 per share and the number of our shares outstanding as of September 30, 2018; (ii) anticipated distribution payments to our Operating Partnership unitholders totaling approximately \$1.3 million based on an assumed annual distribution of \$1.84 per common unit and a cumulative preferential per annum cash distribution rate of 5.99% on our Preferred OP Units based on the number of units outstanding as of September 30, 2018; (iii) the pay-off of approximately \$95.6 million of outstanding fixed rate mortgage debt scheduled to mature during the next 12 months; (iv) estimated development costs over the next 12 months totaling approximately \$132.9 million for our owned properties currently under construction; (v) a \$90.0 million obligation to purchase two properties subject to presale arrangements (see Note 13 in the accompanying Notes to the Consolidated Financial Statements contained in Item 1); (vi) an obligation to increase our investment in the Core Joint Ventures, resulting in a funding commitment of approximately \$200.9 million (see Note 13 in the accompanying Notes to the Consolidated Financial Statements contained in Item 1); (vii) funds for other development projects scheduled to commence construction during the next 12 months; and (viii) potential future property or land acquisitions, including mezzanine financed developments.

We expect to meet our short-term liquidity requirements by: (i) borrowing under our existing revolving credit facility; (ii) accessing the unsecured bond market; (iii) exercising debt extension options to the extent they are available; (iv) issuing securities, including common stock, under our ATM Equity Program discussed more fully in Note 8 in the accompanying Notes to Consolidated Financial Statements contained in Item 1, or otherwise; (v) potentially disposing of properties and/or entering into joint venture arrangements, depending on market conditions; and (vi) utilizing current cash on hand and net cash provided by operations. Our ability to obtain additional financing will depend on a variety of factors such as market conditions, the general availability of credit, the overall availability of credit to the real estate industry, our credit ratings and credit capacity, as well as the perception of lenders regarding our long or short-term financial prospects.

We may seek additional funds to undertake initiatives not contemplated by our business plan or obtain additional cushion against possible shortfalls. We also may pursue additional financing as opportunities arise. Future financings may include a range of different sizes or types of financing, including the incurrence of additional secured debt and the sale of additional debt or equity securities. These funds may not be available on favorable terms or at all. Our ability to obtain additional financing depends on several factors, including future market conditions, our success or lack of success in penetrating our markets, our future creditworthiness, and restrictions contained in agreements with our investors or lenders, including the restrictions contained in the agreements governing our unsecured credit facility and unsecured notes. These financings could increase our level of indebtedness or result in dilution to our equity holders.

Distributions

We are required to distribute 90% of our REIT taxable income (excluding capital gains) on an annual basis in order to qualify as a REIT for federal income tax purposes. Distributions to common stockholders are at the discretion of the Board of Directors. We may use borrowings under our unsecured revolving credit facility to fund distributions. The Board of Directors considers a number of factors when determining distribution levels, including market factors and our Company's performance in addition to REIT requirements.

On October 31, 2018, our Board of Directors declared a distribution per share of \$0.46, which will be paid on November 26, 2018 to all common stockholders of record as of November 12, 2018. At the same time, the Operating Partnership will pay an equivalent amount per unit to holders of Common OP Units, as well as the quarterly cumulative preferential distribution to holders of Preferred OP Units.

Indebtedness

The amounts below exclude net unamortized debt premiums and discounts related to mortgage loans assumed in connection with property acquisitions, original issue discounts ("OID"s), and deferred financing costs (see Note 7 in the accompanying Notes to the Consolidated Financial Statements contained in Item 1). A summary of our consolidated indebtedness as of September 30, 2018 is as follows:

(1) Represents stated interest rate and does not include the effect of the amortization of deferred financing costs, debt premiums and discounts, OIDs, and interest rate swap terminations.

(2) In July 2018, the fixed feature of a mortgage loan secured by an on-campus participating property expired, and the mortgage loan became classified as variable rate debt.

Funds From Operations (“FFO”)

The National Association of Real Estate Investment Trusts (“NAREIT”) currently defines FFO as net income or loss attributable to common shares computed in accordance with generally accepted accounting principles (“GAAP”), excluding gains or losses from depreciable operating property sales, impairment charges and real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. We present FFO because we consider it an important supplemental measure of our operating performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO excludes GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. We therefore believe that FFO provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, and interest costs, among other items, providing perspective not immediately apparent from net income. We compute FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as subsequently amended), which may differ from the methodology for calculating FFO utilized by other equity REITs and, accordingly, may not be comparable to such other REITs.

We also believe it is meaningful to present a measure we refer to as FFO-Modified, or FFOM, which reflects certain adjustments related to the economic performance of our on-campus participating properties, the elimination of transaction costs, and other items, as we determine in good faith. Under our participating ground leases, we and the participating university systems each receive 50% of the properties’ net cash available for distribution after payment of operating expenses, debt service (which includes significant amounts towards repayment of principal) and capital expenditures. A substantial portion of our revenues attributable to these properties is reflective of cash that is required to be used for capital expenditures and for the amortization of applicable property indebtedness. These amounts do not increase our economic interest in these properties or otherwise benefit us since our interest in the properties terminates upon the repayment of the applicable property indebtedness. Therefore, unlike the ownership of our owned properties, the unique features of our ownership interest in our on-campus participating properties cause the value of these properties to diminish over time. For example, since the ground/facility leases under which we operate the participating properties require the reinvestment from operations of specified amounts for capital expenditures and for the repayment of debt while our interest in these properties terminates upon the repayment of the debt, such capital expenditures do not increase the value of the property to us and mortgage debt amortization only increases the equity of the ground lessor. Accordingly, we believe it is meaningful to modify FFO to exclude the operations of our on-campus participating properties and to consider their impact on our performance by including only that portion of our revenues from those properties that are reflective of our share of net cash flow and the management fees that we receive, both of which increase and decrease with the operating performance of the properties. This narrower measure of performance measures our profitability for these properties in a manner that is similar to the measure of our profitability from our third-party services business where we similarly incur no initial or ongoing capital investment in a property and derive only consequential benefits from capital expenditures and debt amortization. We believe, however, that this narrower measure of performance is inappropriate in traditional real estate ownership structures where debt amortization and capital expenditures enhance the property owner’s long-term profitability from its investment.

Our FFOM may have limitations as an analytical tool because it reflects the contractual calculation of net cash flow from our on-campus participating properties, which is unique to us and is different from that of our owned off-campus properties. Companies that are considered to be in our industry may not have similar ownership structures; and therefore those companies may not calculate FFOM in the same manner that we do, or at all, limiting its usefulness as a comparative measure. We compensate for these limitations by relying primarily on our GAAP and FFO results and using FFOM only supplementally. Further, FFO and FFOM do not represent amounts available for management’s discretionary use because of needed capital replacement or expansion, debt service obligations or other commitments and uncertainties. FFO and FFOM should not be considered as alternatives to net income or loss computed in

accordance with GAAP as an indicator of our financial performance, or to cash flow from operating activities computed in accordance with GAAP as an indicator of our liquidity, nor are these measures indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions.

The following table presents a reconciliation of our net income attributable to common stockholders to FFO and FFOM:

	Three Months Ended		Nine Months Ended

50% of the properties’ net cash available for distribution after payment of operating expenses, debt service

(1) (including repayment of principal) and capital expenditures which is included in ground/facility leases expense in the consolidated statements of comprehensive income.

The three months ended September 30, 2018 amount represents transaction costs incurred in connection with the closing of a presale transaction in August 2018, net of a decrease in estimated state income tax related to a tax gain resulting from the ACC / Allianz Joint Venture Transaction in May 2018. The nine months ended September 30, (2) 2018 includes the costs discussed above in addition to transaction costs incurred in connection with the closing of the ACC / Allianz Joint Venture Transaction. The nine months ended September 30, 2017 amount represents transaction costs related to the Company's initial investment in the Core/Spaces/DRW joint ventures that occurred in the third quarter of 2017.

(3) Represents losses associated with the early extinguishment of mortgage loans due to real estate disposition transactions, including the sale of partial ownership interests in properties. Such costs are excluded from gains from disposition of real estate reported in accordance with GAAP. However, management views these losses as an incremental cost of the transactions because the debt was extinguished in connection with the consummation of the

transactions and the Company had no intent to extinguish the debt absent the transactions.

Represents a gain related to cash proceeds received from a litigation settlement in the second quarter 2018.

- (4) Management believes it is appropriate to exclude this gain from FFOM in order to more accurately present the operating results of the Company on a comparative basis during the periods presented.

Represents FFO for an owned property that has been in receivership since May 2017 that is in the process of being transferred to the lender in settlement of the property's \$27.4 million mortgage loan that matured in August 2017.

- (5) As the property is managed by a third party and the lender receives all cash flow from the property, management believes that excluding the FFO from the property more appropriately reflects the results of the Company's operations. FFOM for the prior year comparable periods has been adjusted to reflect this elimination.

- (6) Represents contractual executive separation and retirement charges incurred in the first and second quarter of 2017 with regard to the retirement of the Company's former Chief Financial Officer.

Inflation

Our student leases do not typically provide for rent escalations. However, they typically do not have terms that extend beyond 12 months. Accordingly, although on a short term basis we would be required to bear the impact of rising costs resulting from inflation, we have the opportunity to raise rental rates at least annually to offset such rising costs. However, a weak economic environment or declining student enrollment at our principal universities may limit our ability to raise rental rates.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss from adverse changes in market prices and interest rates. Our future earnings and cash flows are dependent upon prevailing market rates. Accordingly, we manage our market risk by matching projected cash inflows from operating, investing and financing activities with projected cash outflows for debt service, acquisitions, capital expenditures, distributions to stockholders and unitholders, and other cash requirements. The majority of our outstanding debt has fixed interest rates, which minimizes the risk of fluctuating interest rates. Our exposure to market risk includes interest rate fluctuations in connection with our revolving credit facilities and variable rate construction loans and our ability to incur more debt without stockholder approval, thereby increasing our debt service obligations, which could adversely affect our cash flows. No material changes have occurred in relation to market risk since our Annual Report on Form 10-K for the year ended December 31, 2017.

Item 4. Controls and Procedures

American Campus Communities, Inc.

(a) Evaluation of Disclosure Controls and Procedures

As required by SEC Rule 13a-15(b), we have carried out an evaluation, under the supervision of and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures for the quarter covered by this report were effective at the reasonable assurance level.

(b) Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
