On April 2, 2012, the company filed a definitive proxy statement (the "Proxy Statement") with the Securities and Exchange Commission. As a result of a clerical error, the company inadvertently omitted certain amounts for it named executive officers in the Total (\$) column within the Summary Compensation Table (the "Table") on page 39 of the Proxy Statement. The amounts omitted were the 2011 salary lump sum bonuses in lieu of base salary increases of \$21,451 for Mr. Covey, \$12,339 for Mr. Cremers, \$3,750 for Ms. Scott, \$9,151 for Mr. Stinnett and \$7,916 for Mr. Temple. A minor correction was also made in the "All Other Compensation" column for Lorrie Scott. In all other respects, the Table, footnotes and the narrative description following the Table were correct as filed.

The correct Table as set forth below and the Proxy Statement shall be deemed amended to reflect this change.

(1) This column includes salary paid for the full or partial year the employee worked. Pay cycles changed from semi-monthly to biweekly in August 2010, so the last week or two weeks of salary in 2010 was paid in January

2011. 2011 salary includes lump sum bonuses in lieu of base salary increases of \$21,451 for Mr. Covey, \$12,339 for Mr. Cremers, \$3,750 for Ms. Scott, \$9,151 for Mr. Stinnett and \$7,916 for Mr. Temple.

(2) Includes a hiring and relocation bonus paid to Ms. Scott.

This column shows the aggregate grant date fair value, computed in accordance with FASB Topic 718, of performance shares (at target) and restricted stock units granted in 2009, 2010 and 2011. In accordance with FASB Topic 718, the grant date fair value reported for all restricted stock units was computed by multiplying the number

(3) of shares subject to the restricted stock unit award by the closing price of our stock on the grant date. The grant date fair values reported for performance shares were based upon the probable outcome of the TSR condition, which amounts were determined consistent with the estimate of the aggregate compensation cost to be recognized over the performance period d

etermined as of the grant date under FASB Topic 718, excluding the effect of estimated forfeitures. The estimate of the aggregate compensation cost to be recognized over the performance period was determined by using a Monte Carlo simulation model. The assumptions made in connection with this estimate are discussed in Note 15 to our Financial Statements included in our 2011 Form 10-K. Following is the fair value as of the grant date of the performance shares granted to our named executive officers, assuming the highest level of TSR would have been or will be achieved (resulting in settlement of 200% of the shares subject to the award), in each case based on the closing price of our stock on the grant date:

Michael J. Covey	
2011 Performance Shares	\$2,371,199
