(unaudited)

NOTE 1. DESCRIPTION OF BUSINESS

Overview

Park City Group, Inc. (the “Company”) is the parent company of ReposiTrak Inc., a compliance, supply chain, and MarketPlace B2B e-commerce services platform that partners with retailers and wholesalers, and their suppliers, to accelerate sales, control risks, and improve supply chain efficiencies.

The Company’s supply chain and MarketPlace services provide its customers with greater flexibility in sourcing products by enabling them to choose new suppliers and integrate them into their supply chain faster and more cost effectively, and it helps them to more efficiently manage these relationships, enhancing revenue while lowering working capital, labor costs and waste. The Company’s food safety and compliance solutions help reduce a company’s potential regulatory, legal, and criminal risk from its supply chain partners by providing a way for them to ensure these suppliers are compliant with food safety regulations, such as the Food Safety Modernization Act (“FSMA”).

The Company’s services are delivered through proprietary software products designed, developed, marketed and supported by the Company. These products are designed to provide transparency and to facilitate improved business processes among all key constituents in the supply chain, starting with the retailer and moving back to suppliers and eventually to raw material providers. The Company provides cloud-based applications and services that address e-commerce, supply chain, food safety and compliance activities. The principal customers for the Company’s products are multi-store food retail store chains and their suppliers, branded food manufacturers, food wholesalers and distributors, and other food service businesses.

The Company has a hub and spoke business model. The Company is typically engaged by retailers and distributors (“Hubs”), which in turn have it engage their suppliers (“Spokes”) to contract for the Company’s services. The bulk of the Company’s revenue is from recurring subscription payments from these suppliers often based on a monthly volume metric between the Hub and the Spoke. The Company also has a professional services business, which conducts customization, implementation, and training, for which revenue is recognized on a percentage-of-completion or pro rata basis over the life of the subscription, depending on the nature of the engagement. In a few instances, the Company will also sell its software in the form of a use license.

The Company is incorporated in the state of Nevada. The Company has three principal subsidiaries: PC Group, Inc., a Utah corporation (98.76% owned); Park City Group, Inc., a Delaware corporation (100% owned); and ReposiTrak, Inc., a Utah corporation (100% owned). All intercompany transactions and balances have been eliminated in consolidation.

The Company’s principal executive offices are located at 299 South Main Street, Suite 2225, Salt Lake City, Utah 84111. Its telephone number is (435) 645-2000. Its website address is <http://www.parkcitygroup.com>, and ReposiTrak’s website address is <http://repositrak.com>.

Basis of Financial Statement Presentation

The interim financial information of the Company as of March 31, 2018 and for the three and nine months ended March 31, 2018 and 2017 is unaudited, and the balance sheet as of June 30, 2017 is derived from audited financial statements. The accompanying condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial statements. Accordingly, they omit or condense notes and certain other information normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles. The accounting policies followed for quarterly financial reporting conform with the accounting policies disclosed in Note 2 to the Notes to Financial Statements included in our Annual Report on Form 10--K for the year ended June 30, 2017. In the opinion of management, all adjustments necessary for a fair presentation of the financial information for the interim periods reported have been made. All such adjustments are of a normal recurring nature. The results of operations for the three and nine months ended March 31, 2018 are not necessarily indicative of the results that can be expected for the fiscal year ending June 30, 2018. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in our Annual Report on Form 10--K for the year ended June 30, 2017.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The financial statements presented herein reflect the consolidated financial position of Park City Group, Inc. and our subsidiaries. All inter-company transactions and balances have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that materially affect the amounts reported in the consolidated financial statements. Actual results could differ from these estimates. The methods, estimates and judgments the Company uses in applying its most critical accounting policies have a significant impact on the results it reports in its financial statements. The Securities and Exchange Commission has defined the most critical accounting policies as those that are most important to the portrayal of the Company's financial condition and results and require the Company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, the Company's most critical accounting policies include: income taxes, goodwill and other long-lived asset valuations, revenue recognition, stock-based compensation, and capitalization of software development costs.

Earnings Per Share

Basic net income per common share ("Basic EPS") excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share ("Diluted EPS") reflects the potential dilution that could occur if stock options or other contracts to issue shares of common stock were exercised or converted into common stock. The computation of Diluted EPS does not assume exercise or conversion of securities that would have an anti-dilutive effect on net income per common share.

The following table presents the components of the computation of basic and diluted earnings per share for the periods indicated:

Preferred Stock

The Company's certificate of incorporation currently authorizes the issuance of up to 30,000,000 shares of 'blank check' preferred stock with designations, rights, and preferences as may be determined from time to time by the Company's Board of Directors, of which 700,000 shares are currently designated as Series B Preferred Stock ("Series B Preferred") and 550,000 shares are designated as Series B--1 Preferred. As of March 31, 2018, a total of 625,375 shares of Series B Preferred and 212,402 shares of Series B--1 Preferred were issued and outstanding. Both classes of Series B Preferred Stock pay dividends at a rate of 7% per annum if paid by the Company in cash, or 9% if paid by the Company in additional shares of Series B Preferred ("PIK Shares"), the Company may elect to pay accrued dividends on outstanding shares of Series B Preferred in either cash or by the issuance of PIK Shares.

In July 2017, the Company issued 20,000 shares of Series B-1 Preferred in satisfaction of an accrued bonus payable to the Company's Chief Executive Officer.

Table of Contents

On February 6, 2018, the Company delivered a Redemption Notice to certain holders of the Series B--1 Preferred notifying the holders of the Company's intent to redeem their Redemption Shares on February 7, 2018 (the "Redemption Date") (the "Series B--1 Redemption"). On the Redemption Date, the Company paid an aggregate total of \$999,990 to the holders of shares of Series B--1 Preferred, resulting in the redemption of 93,457 shares of Series B--1 Preferred.

Management believes the Series B--1 Preferred favorably impacts the Company's overall cost of capital in that it is: (i) perpetual and, therefore, an equity instrument that positively impacts the Company's coverage ratios. (ii) possesses a below market dividend rate relative to similar instruments. (iii) offers the flexibility of a paid--in--kind (PIK) payment option. and (iv) is without covenants. After exploring alternative options for redeeming the Series B--1 Preferred, management determined that alternative financing options were materially more expensive, or would impair the Company's net cash position, which management believes could cause customer concerns and negatively impact the Company's ability to attract new business.

NOTE 4. RELATED PARTY TRANSACTIONS

During the nine months ended March 31, 2018, the Company continued to be a party to a Service Agreement with Fields Management, Inc. ("FMI"), pursuant to which FMI provided certain executive management services to the Company, including designating Randall K. Fields to perform the functions of President and Chief Executive Officer for the Company. Mr. Fields also serves as the Company's Chairman of the Board of Directors and controls FMI. The Company had payables of \$230,150 and \$77,628 to FMI at March 31, 2018 and June 30, 2017, respectively, under this Agreement. In addition, in the first quarter of fiscal 2017, 20,000 shares of Series B-1 Preferred were paid to FMI in satisfaction of an accrued bonus payable to Mr. Fields.

Randall K. Fields and Robert W. Allen each beneficially own Series B-1 Preferred. As a result of the Series B-1 Redemption, the Company paid an aggregate of \$889,159 and \$110,831 to Messrs. Fields and Allen, respectively, in consideration for the redemption of 83,099 and 10,358 shares of Series B-1 Preferred. See Note 3.

NOTE 5. RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, August 2015, April 2016, May 2016, September 2017 and November 2017, the Financial Accounting Standards Board ("FASB") issued ASU 2014--09 (ASC Topic 606), Revenue from Contracts with Customers, ASU 2015--14 (ASC Topic 606) Revenue from Contracts with Customers, Deferral of the Effective Date, ASU 2016--10 (ASC Topic 606) Revenue from Contracts with Customers, Identifying Performance Obligations and Licensing, ASU 2016--12 (ASC Topic 606) Revenue from Contracts with Customers, Narrow-Scope Improvements and Practical Expedients, ASU 2017-14, Income Statement - Reporting Comprehensive Income (ASC Topic 606), Revenue Recognition (ASC Topic 606), and Revenue from Contracts with Customers (ASC Topic 606): Amendments to SEC Paragraphs pursuant to Staff Accounting Bulletin No. 116 and SEC Release No. 33-10403, respectively. ASC Topic 606 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. It also requires entities to disclose both quantitative and qualitative information that enable financial statements users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amendments in these ASUs are effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. Early adoption is permitted for annual periods beginning after December 15, 2016. This standard may be applied retrospectively to all prior periods presented, or retrospectively with a cumulative adjustment to retained earnings in the year of adoption. The Company currently anticipates adopting the standard using the full retrospective method. We are in the process of completing our analysis on the impact this guidance will have on our Consolidated Financial Statements and related disclosures, as well as identifying the required changes to

our policies, processes and controls. The Company is conducting its assessment in order to be able to state the impact of this ASU on our financial position and results of operation.

In January 2017, the FASB issued ASU 2017--04, Intangibles—Goodwill and Other (Topic 350), Simplifying the Test for Goodwill Impairment. The amendments in this update simplify how an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. An entity should apply the amendments in this update on a prospective basis. The Company notes that this guidance applies to its reporting requirements and will implement the new guidance accordingly.

Park City Group, Inc. (the “Company”) is the parent company of ReposiTrak Inc., a compliance, supply chain, and MarketPlace B2B e-commerce services platform that partners with retailers and wholesalers, and their suppliers, to accelerate sales, control risks, and improve supply chain efficiencies.

The Company’s supply chain and MarketPlace services provide its customers with greater flexibility in sourcing products by enabling them to choose new suppliers and integrate them into their supply chain faster and more cost effectively, and it helps them to more efficiently manage these relationships, enhancing revenue while lowering working capital, labor costs and waste. Our food safety and compliance solutions help reduce a company’s potential regulatory, legal, and criminal risk from its supply chain partners by providing a way for them to ensure these suppliers are compliant with food safety regulations, such as the Food Safety Modernization Act (“FSMA”).

The Company’s services are delivered through proprietary software products designed, developed, marketed and supported by the Company. These products are designed to provide transparency and facilitate improved business processes among all key constituents in the supply chain, starting with the retailer and moving back to suppliers and eventually to raw material providers. The Company provides cloud-based applications and services that address e-commerce, supply chain, food safety and compliance activities. The principal customers for the Company’s products are multi-store food retail store chains and their suppliers, branded food manufacturers, food wholesalers and distributors, and other food service businesses.

The Company has a hub and spoke business model. The Company is typically engaged by retailers and distributors (“Hubs”), which in turn have it engage their suppliers (“Spokes”) to contract with the Company for its services. The bulk of the Company’s revenue is from recurring subscription payments from these suppliers often based on a monthly volume metric between the Hub and the Spoke. The Company also has a professional services business, which conducts customization, implementation, and training, for which revenue is recognized on a percentage-of-completion or pro rata basis over the life of the subscription, depending on the nature of the engagement. In a few instances, the Company will also sell its software in the form of a license.

Inflation

We do not believe that inflation or changing prices have had a material impact on our historical operations or profitability.

Financial Position, Liquidity and Capital Resources

We believe our existing cash and short-term investments, together with funds generated from operations, are sufficient to fund operating and investment requirements for at least the next twelve months. Our future capital requirements will depend on many factors, including our rate of revenue growth and expansion of our sales and marketing activities, the timing and extent of spending required for research and development efforts and the continuing market acceptance of our products.

Recent Accounting Pronouncements

In May 2014, August 2015, April 2016, May 2016, September 2017 and November 2017, the Financial Accounting Standards Board ("FASB") issued ASU 2014--09 (ASC Topic 606), Revenue from Contracts with Customers, ASU 2015--14 (ASC Topic 606) Revenue from Contracts with Customers, Deferral of the Effective Date, ASU 2016--10

(ASC Topic 606) Revenue from Contracts with Customers, Identifying Performance Obligations and Licensing, ASU 2016--12 (ASC Topic 606) Revenue from Contracts with Customers, Narrow-Scope Improvements and Practical Expedients, ASU 2017-14, Income Statement - Reporting Comprehensive Income (ASC Topic 606), Revenue Recognition (ASC Topic 606), and Revenue from Contracts with Customers (ASC Topic 606): Amendments to SEC Paragraphs pursuant to Staff Accounting Bulletin No. 116 and SEC Release No. 33-10403, respectively. ASC Topic 606 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. It also requires entities to disclose both quantitative and qualitative information that enable financial statements users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amendments in these ASUs are effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. Early adoption is permitted for annual periods beginning after December 15, 2016. This standard may be applied retrospectively to all prior periods presented, or retrospectively with a cumulative adjustment to retained earnings in the year of adoption. The Company currently anticipates adopting the standard using the full retrospective method. We are in the process of completing our analysis on the impact this guidance will have on our Consolidated Financial Statements and related disclosures, as well as identifying the required changes to our policies, processes and controls. The Company is conducting its assessment in order to be able to state the impact of this ASU on our financial position and results of operation.

In February 2016, the FASB issued ASU 2016-02 (ASC Topic 842), Leases. The ASU amends a number of aspects of lease accounting, including requiring lessees to recognize operating leases with a term greater than one year on their balance sheet as a right-of-use asset and corresponding lease liability, measured at the present value of the lease payments. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. The Company is in the process of assessing the impact, but based on current commitments does not anticipate adoption to have a material impact on its consolidated financial statements.

Critical Accounting Policies

This Management's Discussion and Analysis of Financial Condition and Results of Operations discusses the Company's financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles.

We commenced operations in the software development and professional services business during 1990. The preparation of our financial statements requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. On an ongoing basis, management evaluates its estimates and assumptions. Management bases its estimates and judgments on historical experience of operations and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Management believes the following critical accounting policies, among others, will affect its more significant judgments and estimates used in the preparation of our consolidated financial statements.

Income Taxes

In determining the carrying value of the Company's net deferred income tax assets, the Company must assess the likelihood of sufficient future taxable income in certain tax jurisdictions, based on estimates and assumptions, to realize the benefit of these assets. If these estimates and assumptions change in the future, the Company may record a reduction in the valuation allowance, resulting in an income tax benefit in the Company's statements of operations. Management evaluates whether or not to realize the deferred income tax assets and assesses the valuation allowance quarterly.

Goodwill and Other Long-Lived Asset Valuations

Goodwill is assigned to specific reporting units and is reviewed for possible impairment at least annually or more frequently upon the occurrence of an event or when circumstances indicate that a reporting unit's carrying amount is greater than its fair value. Management reviews the long-lived tangible and intangible assets for impairment when events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Management evaluates, at each balance sheet date, whether events and circumstances have occurred which indicate possible impairment. The carrying value of a long-lived asset is considered impaired when the anticipated cumulative undiscounted cash flows of the related asset or group of assets is less than the carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the estimated fair market value of the long-lived asset. Economic useful lives of long-lived assets are assessed and adjusted as circumstances dictate.

Revenue Recognition

We recognize revenue when all of the following conditions are satisfied: (i) there is persuasive evidence of an arrangement, (ii) the service has been provided to the customer, (iii) the collection of our fees is probable, and (iv) the amount of fees to be paid by the customer is fixed or determinable.

We recognize subscription, hosting, premium support, and maintenance revenue ratably over the length of the agreement beginning on the commencement dates of each agreement or when revenue recognition conditions are satisfied. Revenue from license and professional services agreements are recognized as delivered.

Amounts that have been invoiced are recorded in accounts receivable and in deferred revenue or revenue, depending on whether the revenue recognition criteria have been met.

Agreements with multiple deliverables such as subscriptions, support, and professional services, are accounted for separately if the deliverables have standalone value upon delivery. Subscription services have standalone value as the services are typically sold separately. When considering whether professional services have standalone value, the Company considers the following factors: (i) availability of services from other vendors, (ii) the nature and timing of professional services, and (iii) sales of similar services sold separately. Multiple deliverable arrangements are separated into units of accounting and the total contract consideration is allocated to each unit based on relative selling prices.

Stock-Based Compensation

The Company recognizes the cost of employee services received in exchange for awards of equity instruments based on the grant-date fair value of those awards. The Company records compensation expense on a straight-line basis. The fair value of options granted are estimated at the date of grant using a Black-Scholes option pricing model with assumptions for the risk-free interest rate, expected life, volatility, dividend yield and forfeiture rate.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our business is currently conducted principally in the United States. As a result, our financial results are not affected by factors such as changes in foreign currency exchange rates or economic conditions in foreign markets. We do not engage in hedging transactions to reduce our exposure to changes in currency exchange rates, although if the geographical scope of our business broadens, we may do so in the future.

Our exposure to risk for changes in interest rates relates primarily to our investments in short-term financial instruments. Investments in both fixed rate and floating rate interest earning instruments carry some interest rate risk. The fair value of fixed rate securities may fall due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall. Partly as a result of this, our future interest income may fall short of expectations due to changes in interest rates or we may suffer losses in principal if we are forced to sell securities that have fallen in estimated fair value due to changes in interest rates. However, as substantially all of our cash consist of bank deposits and short-term money market instruments, we do not expect any material change with respect to our net income as a result of an interest rate change.

Our exposure to interest rate changes related to borrowing has been limited, and we believe the effect, if any, of near-term changes in interest rates on our financial position, results of operations and cash flows should not be material. At March 31, 2018, the debt portfolio was composed of approximately 94% variable rate debt and 6% fixed rate debt.

	March 31, 2018 (unaudited)	Percent of Total Debt
Fixed rate debt	\$322,099	6%
Variable rate debt	4,735,460	94%
Total debt	\$5,057,559	100%

The table that follows presents fair values of principal amounts and weighted average interest rates for our investment portfolio as of March 31, 2018:

Cash:	Aggregate Fair Value	Weighted Average Interest Rate
Cash	\$14,828,160	1.55%
