On June 19, 2006, Progress Software Corporation announced that it is undertaking a voluntary review of its stock option practices. The review, being conducted by the Audit Committee of the Company's board of directors working with the Company's outside legal counsel, covers all option grants since the beginning of the Registrant's 1996 fiscal year.

At this time, the Registrant has not concluded that any of its previously issued financial statements should no longer be relied upon. However, because the option review is not yet complete and its impact on the stock-based compensation charges and related tax matters in the Registrant's financial statements for the three and six months ended May 31, 2006 and 2005 has not yet been determined, the Registrant is not in a position to complete the preparation of the financial

The Registrant expects to file the Form 10-Q for the period ended May 31, 2006 as soon as possible after the Audit Committee's review is complete. This likely will not occur until after the fifth calendar day following the prescribed due date of the subject report.
